REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Medical software; computer hardware and software for scientific purposes; laboratory instruments and apparatus; laboratory instruments, namely, assay plates, microplates, coverslips, petri dishes, pipets, tubes, specimen transport containers, anaerobic jars and coagulation timers, flow cytometers and computer operating software therefor; laboratory apparatus for storing and testing blood cultures; sample preparation and real-time polymerase chain reaction (RT-PCR) analyzer for the detection and identification of infectious diseases for scientific use; computer software and hardware for the preparation of medications; computer software for the preparation of pharmaceuticals; computer software for counting, sorting and detecting cells; computer hardware and software used for remote diagnostics and troubleshooting of laboratory instruments; computer software for use in infectious disease management and healthcare worker safety; computer programs and electronic program manuals all sold to the user as a unit for use by hospitals and health related groups for tracking employee medical histories; computer programs and electronic manuals for use by medical facilities in monitoring and controlling infections; software used for diabetes management; software used for a patient identification bar code system;

laboratory instrument accessory, namely, an antimicrobial susceptibility test panel for the automated detection of pathogens in the presence of antimicrobials in a biological sample for research use; laboratory apparatus, namely, clinical specimen processor and biochemical analyzer used for clinical and laboratory research and in vitro clinical diagnostics (other than for medical use); laboratory instruments for hematology determination; tubes, vials and envelopes used for transporting fluid bacteriological specimens; temperature controlled test tube incubator for use in blood banks and hematology laboratories; device for determining coagulation time and parts thereof; laboratory apparatus, namely, a sample processor used for clinical and laboratory research and clinical diagnostics (not for medical purposes); slide and blood culture bottle used for subculturing microorganisms from liquid growth media; diagnostic instrument, namely, a robotic processor which performs DNA probe hybridization and color development to differentiate and identify vaginitis pathogens for laboratory use (not for medical purposes); laboratory instruments and apparatus, namely, plates for the isolation of disease-causing microorganisms, lids used to cover the plates and maintain isolation from the environment, pipettes, dishes for containing culture media, inserts for cell culture growth and for performing cell-based assays, laboratory plastic ware, namely, tissue culture flasks, roller bottles, cell culture dishes and plates, petri dishes, conical and round-bottom tubes, pipettes, containers, specifically test tubes, trays for holding test cards, laboratory filters, laboratory glassware, namely, bottles, cap covers used to seal specimen transport containers and tubed culture media, culture slides, cell scrapers, cell strainers, cellware, namely, plastic multi-well plates, flasks, vials, bottles, scrapers, inserts, dishes, slides, tubes and pipettes for laboratory use, high throughput screening kits consisting of laboratory pipettes, tubes, vials, flasks, bottles, multi-well plates, slides and flasks for scientific and research use, sold as a unit with reagents, tissues, cells; laboratory test cards for in vitro diagnostic testing of samples for infectious diseases, not for medical purposes; laboratory incubator and laboratory card rotator therefor for use in infectious disease testing; dosage dispensers for medicine and medical supplies; computer hardware and software for medication order management, and for securing, tracking, monitoring and replenishment of medicine and medical supplies for medicine and medical supply dispensing machines; computer controlled system, comprised of an integrated unit or as separate dispensing and return units, that electronically dispenses and tracks scrubsuits and other garments used in medical facilities to authorized employees and then receives used scrubs for clean replacements; automated supply management system comprised of bar code scanners, software and a central computer for verifying the selection and replenishment of supplies and other items into supply storage areas; computer software for operating computer controlled system comprised of electronic automated machines for dispensing medical supplies, for identifying patients, procedures and physicians, for managing supply costs, for creating and editing kits designed for particular medical procedures and for tracking the usage of items dispensed by the machines; computer controlled system comprised of mobile automated hospital supply storage and retrieval carts for dispensing medical supplies featuring computer software for tracking the usage of medical supplies dispensed and for billing for supplies that are withdrawn from the carts; automated equipment for identifying, classifying, sorting and segregating pharmaceutical waste in medical facilities, software for controlling the operation of such equipment, and structural and/or replacement parts thereof; software used for performing medical diagnostics and management of patient data, and for data management, organization of patient data, workflow management and connectivity in the nature of maintaining communication between patients and healthcare providers,

all of the foregoing for use in the medical field; electronic control devices for apparatus for storing and removal of individually packaged goods or wares, in particular pharmaceuticals; computer operating programs for control devices for apparatus for storing and removal of individually packaged goods or wares; electronic control systems for machinery used for storing and removal of individually packaged goods and wares, in particular pharmaceuticals; measuring apparatus, namely, plethysmographs for measuring respiratory function; data processing equipment, namely, computer hardware and data processing software, for medical purposes; computer software, namely, stored data processing and data management programs, and databases, all for medical purposes; computer, computer software and printer all sold as a unit with automated machines for dispensing and packing prescription medications; software that integrates patient, cost, treatment and outcome data of healthcare institutions; secured medication dispensing machines and inventory management systems and remote viewing software; software to integrate physiological monitoring devices and electronic instructional manuals sold as a unit; software for analyzing physiological data and electronic instructional manuals sold as a unit; a handheld data input capturing tool for use in the medical field, especially for clinical trials and disease management, comprising, a writing stylus and an optical input, wherein the optical input reads information written by the writing stylus and records said information in its electronic memory, and wherein the device is capable of transmitting said recorded information to other electronic devices, namely, computers, computer memory, computer databases, magnetic storage media, optical storage media, by direct communication, or modem, or internet; automated medication management system comprised of bar code scanners, label printers, and a computer interface, for verifying the selection and replenishment of media and other items into medication dispensing machines; computer programs for storing medication delivery parameters, including drug names, drug conflicts, flow rates, dosages, volumes, delivery time periods, patient physiological parameters, vital signs parameters, and monitoring medication delivery parameters selected by a care giver, and comparing the medication delivery parameters selected by a care giver to stored medication delivery parameters, and providing display data based on the comparison; electronic equipment and accessories, namely, fluid monitors; fluid flow rate programs for controlling and monitoring fluid flows and detecting obstructions to fluid flows; computer programs for presenting data in patient care management systems; downloadable electronic technical newsletters in the field of phlebotomy and diagnostic testing.

Class 10

Medical instruments and apparatus; diagnostic apparatus for medical purposes; medical instruments and apparatus, namely, syringes, stoppers for syringes, syringe holders, needle holders, needles, hypodermic injectors, catheters, sample collection devices in the nature of specimen cups and tubes, centrifuges, lancets, lancet devices, blades, handles, surgical drapes, surgical scrub brushes, surgical sponges, tubes, tubing, stopcocks, adapters, holders, access valves, extension sets, cannulae and guidewires; transducer kits comprised of drip chamber, tubing, stopcocks, pressure transducer, access ports, and male and female luer adapters; infusion sets consisting of drip chamber, tubing, roller clamp, access ports and male luer adapter; containers for medical waste; blood analyzers and cell separators, sorters and counters for medical purposes; medical instruments and apparatus, namely, tubes for drainage, transfusion, and administering drugs; medical instruments and apparatus, namely, tubing for infusion of fluids, administration of drugs; medical instruments and apparatus, namely, blood sample collection and for drainage; medical

instruments and apparatus, namely, stopcocks for infusion of fluids, administration of drugs, blood sample collection and for drainage; medical instruments and apparatus, namely, holders for drainage and specimen collection; medical instruments and apparatus, namely, access valves for drainage, transfusion, administering drugs and specimen collection; medical instruments and apparatus, namely, extension sets for infusion of fluids, administration of drugs, blood sample collection and for drainage; medical instruments and apparatus, namely, infusion sets, and containers for medical waste and replacement parts therefor being sold as a unit therewith; inhalers sold empty for nasal drug delivery; medical devices, namely, IV sets comprising of IV medicament solution bags, tubing, IV line access valves, catheters, extension sets; flow cytometers for clinical purposes; needle shielding system comprised of a protective sleeve and needle cover for use with a prefillable syringe; drug delivery systems, namely, patch injectors, patch pumps and microinfusors; kits for diabetic patients comprised primarily of syringes or pen needles and lancets sold as a unit with glucose tablets, educational materials and disinfectant prep pad; injection and infusion needles used to deliver medications to manage diabetes; automated medical processing system for screening cervical cancer and sexually transmitted diseases comprised of an instrument for receiving samples of specimens, an instrument for preparing specimen slides, medical imaging apparatus and an instrument for molecular testing for infections; medical injection systems, namely, syringes and instruments for injections; medical instruments for the detection of infectious diseases; tubes for clinical or medical use in DNA extraction, containing diagnostic reagents; sample preparation device for medical diagnostic use; scale magnifier and needle guide for insulin syringes; diagnostic instrument, namely, a robotic processor which performs DNA probe hybridization and color development to differentiate and identify vaginitis pathogens for medical use; apparatus for medical use in promoting controlled tissue growth, namely, laboratory incubators, laboratory ovens including thermal regulators and thermostats, laboratory climatic test cabinets, laboratory shakers, instruments for measuring temperature humidity and pH-value, all for use in biotechnology and microbiology; single limb anesthesia breathing circuit; needleless intravenous connector for medical fluids; bone cement delivery system, namely, medical apparatus and instruments for the mixing, application and injection of bone cement and radiopaque bone cement; biopsy needles; surgical stapler; airway adaptors for respiratory ventilation systems; ventilators and controllers for patient care; apparatus for aiding, controlling and monitoring the respiration of infants; infusion pumps; medical fluid connectors for use in the administration of medical fluids, drug infusion connectors for use in the administration of medical fluids, medical infusion bags for use in storing medical fluids for administration, medical vial access adapters for use in piercing septa of closed medical vials to permit access to the vial's contents; anterior cervical fusion retractor used in surgery of the spine; lumbar spine retractor used for surgery of the spine; respiratory therapy products, namely, nebulizers, oxygen masks, oxygen tubing, connectors, nasal cannulas, oxygen catheters, tracheostomy masks, aerosol masks, drainage bags, spirometers and parts and accessories therefor; medical apparatus for diagnosing or treating respiratory conditions, and parts therefor; medical devices, namely, bone punchers and snippers; rongeurs; kerrisons; handheld surgical instruments for neurosurgery and cadaver head holders for use in surgical procedures; laparoscopic surgical instruments, namely, ratchets; insertable and implantable medical devices, namely, shunts and valves; nonwoven sterilization wrap used in connection with surgical instrument set; doppler ultrasound medical device used to aid in the detection of peripheral vascular disease and to listen to blood flow in the fetal heart; medical device, namely, tongue

positioning mouthpiece; computer monitor used in direct association with medical ventilators (parts of medical ventilators); electro-medical devices used to administer and monitor anaesthetics, anaesthetic gases and oxygen, and structural parts for such apparatus; sterilization containers, baskets, trays, cassettes and accessories therefor, namely, racks for holding medical instruments and metal identification tags, all sold as a unit and all for medical use; cardiovascular medical apparatuses, namely, apparatus for measuring arterial stiffness in a person, and apparatus for measuring arterial elasticity and endothelial function in a person; clinical vital sign measurement instruments; fiberoptic light system comprising of an adjustable headlight band with an attached fiber optic cable for providing light from a light source to be used in medical and surgical procedures; medical apparatus, namely, preoperative hair removal clippers and surgical blades for using during surgical procedures; needleless intravenous connector for medical fluids; molded tubing apparatus for medical use, namely, universal connectors and protective caps, needleless connectors, and intravenous manifold connectors; device that allows intravenous access via a syringe or male luer; medical bandages for keeping intravenous needles and luer fittings in place; medical respirators and parts therefor; medical instruments that monitor the delivery of medication to a patient, that store medication delivery parameters, including drug names, drug conflicts, flow rates, dosages, volumes, delivery time periods, patient physiological parameters, vital signs parameters, and that monitor medication delivery parameters selected by a care giver, and that compare the medication delivery parameters selected by a care giver to stored medication delivery parameters, and that provide display data based on the comparison, namely, medication delivery monitors, infusion pumps, syringe pumps, programmable infusion pumps, programmable syringe pumps and the resident control programs therein; surgical instruments, namely, blade tips, shafts, scissors rasps, and osteotomes; surgical clamps and forceps; thermometers, disposable thermometer covers, thermometer probes, thermometer stands, thermometer probe cover holders, thermometer base units, all for medical purposes; medical device, namely, compression garments; biopsy needle for surgical and medical use; fluid conducting apparatus for use with medical infusion pumps; surgical instruments, namely, retractors, graspers and dissectors; gas sensors for detecting nitric oxide, nitrogen dioxide, carbon monoxide, carbon dioxide, hydrogen and oxygen for medical purposes and for use in hospitals, nursing homes and the like for measuring the concentration of nitric oxide, nitrogen dioxide, carbon monoxide, carbon dioxide, hydrogen and oxygen; volumetric pump/controller devices used as part of an administration set for the infusion of medical solutions to patients; surgical instruments, namely, endoscopic telescopes; disposable blood pressure cuffs; instruments for measuring and monitoring blood pressure, pulse and temperature; sterile wraps for use in connection with medical procedures such as surgical operations; surgical instruments for cutting, retracting, grasping, holding, occluding, dilating, probing, cannulating, draining, aspirating, suturing and ligating in the various fields of surgical practice, such as, surgical knives, scissors, chisels, osteotomes, curettes, dissectors, elevators, rongeurs, cutting forceps and punches, saws, trocars, biopsy needles; also, retractors, both hand held and self-retaining, tenacula and vulsellum forceps, hemostatic (artery) forceps, anastomosis clamps, dressing and tissue forceps, needle holding forceps, lacrimal, sinus, gallduct probes, urethral, ureteral, uterine and mitral valve dilators, suction tubes and cannulas, suture needles and ligating instruments, for general surgery, rectal and colon procedures, plastic and reconstructive surgery, thoracic and cardiovascular surgery, gynecological and obstetrical procedures, urologic surgery, microsurgery, ophthalmic surgery, ear and endaural surgery, nasal sinus and reconstruction

procedures, oral, tonsil, laryngeal, bronchoscopic and esophagoscopy procedures, pediatric surgery, neurological surgery and orthopaedic surgery; suture needles and ligating instruments; biopsy needles, punches and forceps; anesthesia equipment, namely, suction tubes, airways, tube-holding forceps; medical electronic instruments, namely, electronic ocular tonometers, and tonographers; diagnostic doscopes; surgical supplies, namely, drapes for surgical procedures; surgical equipment, namely, a tray/basin system for disinfecting, transporting and storage of surgical instruments; tourniquet inflation units; examining and treatment tables; surgical supplies such as to drapes for surgical procedures; surgical equipment such as medical tray and basins for medical purposes; infant breathing circuits comprising heated coaxial breathing tube, humidifier connector, and patient connector.

Class 41

Education and training services in the fields of medicine, medical research, medical analysis, medical diagnosis, and medical product development; educational services, namely, conducting lectures, workshops, web-based seminars and roundtable discussions focused on key industry trends in healthcare for professionals; training in the operation, repair and maintenance of diagnostic instruments, reagents and software for use with such instruments in the fields of life science research, pharmaceutical development, clinical care and biotechnology; online newsletter relating to diabetes healthcare; educational services, namely, providing online instruction in the fields of medical technology, diabetes and diabetes care; educational services, namely, professional training in the field of specimen collection; education services, namely, providing seminars and on-line seminars in the fields of medical technology, safe medical injection and diabetes care, and distributing print and electronic course materials in connection therewith; educational services, namely, providing training in the field of diabetes and diabetes care provided by means of a call center and distribution of printed and electronic training materials in connection therewith; providing education services in the field of women's health and cancer in the form of live and on-line training, classes and seminars; professional education program, namely, lectures, workshops and roundtable discussions focused on medical sample collection, processing and transport, the preanalytical phase of laboratory testing, troubleshooting incorrect handling procedures, and disease etiology; inservice training program to educate customers on compliance with Needlestick Safety and Prevention Act, educate customers on proper use of safety-engineered products, and assist customers with conversion to safety-engineered products; clinical education services, namely, providing mentoring, tutoring, classes, seminars and workshops in the fields of oncology, interventional procedures, malignant pleural effusions, and vertebral augmentation; medical training and teaching.

Minerals, namely, attapulgite, borate, calcium silicate, ceramic powders, ceramic compositions, clays (chemicals used in industry), carbonates, carbon black for industrial use, cordierite, diatomaceous earth, diatomite, magnesium oxide, magnesium silicate, silicon carbide, perlite, silimanite, zirconia; mineral compositions for industrial production; mineral compositions used in agriculture, horticulture and forestry; mineral compositions used in industry; mineral fillers for industrial purposes; mineral fillers for use in industrial production; mineral substances used for filtering and filtering materials; products containing minerals and mixed mineral composites; cellulose; cellulose pulp (raw material); compositions containing cellulose; compositions for the manufacture of technical ceramics; mixtures of mineral compounds; polymer compositions containing minerals; fracturing compositions containing minerals; preparations containing minerals for use in the manufacture of the following goods, namely absorbents, adhesive preparations, agricultural products, foodstuffs for animals, artificial or synthetic resins, anti-static preparations, batteries, scouring agents, ballistic protection panels, building materials, bullet-proof vests, brake linings, brake pads, breathable films, catalysts, catalyst transporters, catalyst carriers, cement, ceramic materials, ceramic pastes, ceramic glazing, ceramic shapes, ceramic tiles, chimney flues, chimney bricks, clutch linings, coatings, concrete, building materials, cosmetics, dampening solutions, dyes and colorants, drilling fluids, faience tiles, electrical components, fillers, filters, filtration media, connections and holders for ovens, preparation of foundry molds, fracturing composites, friction materials, fuel cells, abrasive agents, inks, kiln fittings, lubricants, release agents, cements for oilwells, fluids for oil-wells, cardboard, preparations for personal hygiene, pharmaceutical products, pigments, goods made of plastic, plastic substances, polishing preparations, polymers, polyolefin films, precision moldings, retaining agents for oil and gas wells, refractory articles, refractory bricks, refractory ceramic, fireclay, refractory components, refractory linings, refractory tubing, refractory building materials,

refractory building materials, refractory mortars, shaped refractory articles, tiles, slates for roofing, sanitary fittings, sanitary installations, putty, sealing materials, steel, porcelain stoneware, packing and insulating materials, tableware, varnishes and vehicle armor; minerals used in industry; engobe (ceramic glazing) and engobe (kaolin), minerals used as means for grinding, milling materials consisting of alumina, bauxite, ceramic, corundum, magnesium oxide, metal oxides, mullite, silicate and/or zirconium oxide; minerals used as ceramic grinding elements for industrial grinders; retaining agents for use in drilling operations in oil and gas wells; ceramic glazing, ceramic compounds, ceramic materials, conversion coatings, filtering agents based on ceramic material (chemical products for industry).

Class 02

Additives for paints and coatings; refractory coating compounds; coatings for masonry blocks and monolithic walls, namely composite coatings made of synthetic cement coatings; ingot coatings; carbon black.

Class 03

Abrasives; stripping agents containing crushed minerals; polishing preparations; corundum; grinding preparations containing alumina, bauxite, ceramics, magnesia, metal oxides, mullite, silicate, yttria (yttrium oxide), ceria (cerium oxide) and/or zirconia.

Class 04

Lubricants; industrial lubricants; drilling lubricants; non-chemical additives to motor fuel.

Class 07

Machines for the refractory industry; parts of machines for the refractory industry, namely nozzles and coolers, cover plates, chutes, ceilings and ducts for combustion chambers, isolation rings, casting nozzles and tundishes; equipment for the refractory industry, namely tanks, ladles, spears, braising furnaces, tippers and rotary guns, all these goods being parts of machines or intended for use with metalworking machines, continuous casting machines, machines for the refractory industry; filters for motors and engines; exhausts and exhaust manifolds for motors and engines of vehicles; exhaust mufflers for motors and engines of vehicles; exhaust pipes for motors and engines of vehicles; diesel particle filters for motor and engine exhausts; ceramic composite materials, namely, catalyst carriers for use in motors and engines, vehicle filters, diesel particle filters for automotive applications; ceramic composite materials, namely plates, blocks and cylinders as parts of catalytic converters and catalyst carriers; monolithic ceramics, tundish fittings and basket linings and metallurgical foundry ladles, as parts of refractory, casting and metallurgic machines; parts and fittings for tundishes (parts of machines), namely tundish linings, launders for trapping impurities in molten metal, weirs, dams, baffles, pour pads, turbulence suppressors, plugs and stoppers, all being parts of refractory machinery, metallurgic machinery and continuous casting machinery; burning bars; catalyst carriers for vehicle engines; parts and components of the aforesaid goods, namely tundishes, refractory basket linings, casting nozzles, refractory nozzles, distributing buffers, protection tubes for refractory casting bags, tundish pads, refractory caps, as parts of refractory machinery, metallurgic machinery and machinery for continuous casting.

Class 09

Armored protective clothing.

Class 11

Casting nozzles for furnaces, ovens and tundishes; honeycomb ceramics, namely plates, blocks, cylinders, sheets, tubes and bars used in catalytic converters, catalyst supports, for filtration of gas at high temperature and/or for reducing emission of volatile organic compounds and nitrogen oxide and/or for removing particles from combustion gas streams; catalyst substrates for furnaces, ovens and tundishes; furnaces (excluding furnaces for laboratory use); ovens (excluding ovens for laboratory use); kiln cars; firing supports, kiln furniture, namely beams, pillars, plates, slabs, saggars, stands, chucks, kiln posts, tripods, shoes, sealing caps and soles; fittings for ovens of fireclay namely fittings for ovens of grog; parts and component parts for ovens and firing supports, namely tundishes, coatings and ladles for tundishes, nozzles, plugs, distributing buffers, bags for tundishes, tundish pads, refractory plugs, roofs and/or ducts for furnaces; pouring runners for trapping impurities in liquid metals; heating elements namely, radiant tubes for ovens; shaped parts for ovens and furnaces (shaped fittings for ovens, drying kilns and ingot pouring basins).

Class 12

Bulletproof protection panels not of metal and adapted for vehicles; armor plating not of metal for vehicles.

Class 17

Plastics, unprocessed or semi-processed; goods of rubber and plastic materials containing minerals, namely semi-finished plastic products containing carbon fibers, products made of semi-processed plastic in the form of pellets, rods, foam, fibers, films and sheets, corrugated supports of plastic, foam or corrugated PVC, master batches of plastic in the form of powders, liquids, mud, pastes and pellets for industrial use, compositions comprising master mixtures of polymers containing additives for improving the performance properties of products made of foam polymer for industrial use, processed synthetic resins, namely recycled or recyclable polyethylene pellets or flakes, thermoplastic synthetic resins, thermoplastic polyester in the form of pellets for use in injection molding applications, thermoplastic or thermosetting composite sheets containing reinforcing material made of fiberglass, carbon fiber, mineral or wood for use in the manufacture of other products, pellets of elastomer, namely thermoplastic elastomer resins in the form of pellets, for use in further manufacture, refractory insulating materials, particularly refractory fibers of plastic for mortar and concrete, supports mainly of ceramic material, silicone and/or goods not of metal for electric or thermal insulation of solar cells, photovoltaic cells and solar collectors, sheets in a graphite-based material used for joints, seals, packing and thermal insulants; clutch linings; artificial or synthetic resins; fire protection materials, namely, mica, perlite, vermiculite, graphite and/or amorphous silica in the form of fibers, covers, planks, coatings, mortars, putty, slabs or textiles; fire protection materials, namely bands, cords, sleeving, mats, wires of amorphous silicon used in the further manufacture of high-temperature insulation products used in industry; insulating refractory materials; refractory monoliths for thermal insulation, plastic refractory monoliths; safety curtains made from mica (insulation); caulking and insulating materials; semi-processed friction materials for clutch linings and brake linings; semi-processed materials for brake linings; insulating coatings of ceramics for ovens, drying ovens, furnaces and ladles; fiberglass (insulator); insulating refractory materials, namely coatings of aluminum oxide for protection in high temperature industrial applications, and/or for coating of refractory furnaces, industrial furnaces, reactor engines and/or diesel engines (all for insulating use).

Class 19

Building materials, not of metal; non-metallic building materials in the form of bars, blocks, bricks, plates, posts, slabs, tiles and panels; building materials, not of metal; refractory construction materials, not of metal; ceramic building materials not of metal; aggregates for the preparation of concrete or cement; cement-based preparations (building materials not of metal), namely cement, cement coatings, cement slabs; refractory materials made of ceramic; ceramic fibers (building materials not of metal); refractory ceramic work pieces (building materials not of metal); ceramic shapes for use in refractory furnaces, namely tubes, bars, thermocouples, gas injectors, cooling tubes and flue joints (refractory construction materials not of metal); ceramic tiles (building materials not of metal), non-metallic coverings for buildings; ferules of non-metallic materials (building materials not of metal); filling materials for casting bags (building materials not of metal); fireclay; industrial coatings (building materials not of metal); lime; refractory mortars, tubes and pipes (non-metallic building materials); non-metallic covering materials; slates (building materials not of metal); tiles not of metal; clay; plastic clay (ball clay); potters' clay; quartz; refractory aggregates (building materials not of metal); refractory materials sprayed on (building materials not of metal), refractory plasters (building materials not of metal), refractory construction materials, refractory materials for coating; refractory compositions and materials, namely mixtures not of metal sprayed on, by tamping and clamping for protection, and for coating steel converters; ceramic refractory materials (building materials), namely in the form of bricks, tiles, blocks, slabs, beams, pillars, posts or panels; ceramic refractory materials (building materials), namely ceramic fibers for heat insulation; refractory ceramic masses (building materials), namely, monoliths, ceramic refractory materials (building materials), namely, ceramic articles in the form of bricks, tiles, blocks, beams, pillars, posts, slabs, tubes, rods or panels; refractory products for construction and/or coating; refractory compounds for caulking, coating and/or repairing high temperature equipment, ovens, furnaces, blast furnaces, jet engines and/or diesel engines; refractory bricks, refractory blocks (building materials not of metal); casting refractory mixes not of metal (building materials not of metal); refractory cement; ceramic refractory materials (building materials); refractory ceramic materials (building materials); refractory ceramic masses (building materials); ceramic compounds, namely mixtures for the manufacture of ceramic articles; refractory compositions for filling metallurgical converters, namely foundry ladles, distributors, ingot molds, casting ducts and channels (building materials not of metal); refractory concrete; refractory furnace linings as coverings and/or building materials; refractory materials intended for firing supports, namely clay, ceramic, grog, silica and combinations thereof; refractory materials for tundishes (non-metallic building materials); refractory mortars (building material); refractory nozzles (building materials); refractory pipes (building materials); refractory slabs (non-metallic building materials); refractory plugs (building materials); refractory products in the form of bricks, cement, concrete, coatings, compounds, mixtures and mortar (building materials not of metal); refractory products in the form of prefabricated structural elements (building materials not of metal); refractory shapes (building materials not of metal); refractory tubes (building materials not of metal); sandstone; protection tubes for refractory ladles; smoke ducts not of metal; tundish pads; shielding sheets (building materials not of metal).

Class 37

Installation and repair of furnaces; repair and maintenance of industrial ovens; installation, maintenance and repair of refractory fittings in high temperature vessels; installation of foundry products; construction

services.

Class 40

Treatment and transformation of minerals.
