REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Wholesale and retail store services featuring telecommunication machines and apparatus, namely radio communication machines and apparatus, marine radio communication machines and apparatus, satellite navigational apparatus and instruments for vessels, global navigation satellite system (GNSS) receivers, displays, video telephones; wholesale and retail store services featuring telecommunication machines and apparatus, namely telephone apparatus, facsimile machines, modems used for satellite communications, apparatus for transmitting and reproducing sound or images, mobile phones, digital cameras, satellite telecommunication antenna switches, digital cameras for video conference systems, microphones for video conference systems, telecommunication machines and apparatus for connecting mobile phones to network, routers for VPN (virtual private network); wholesale and retail store services featuring telecommunication machines and apparatus, namely radar machines and apparatus and displays for vessels, course plotters for vessels, autopilots for vessels, automatic identification systems (AIS) for vessels, voyage data recorder (VDR) for vessels, bridge alarm systems for vessels, or modems or network routers and their parts and fittings; wholesale and retail store services featuring electronic machines,

apparatus and their parts, namely electronic machines, apparatus and their parts used for vessels, sonars, fish finders and any other underwater detection equipment, echo sounders, ultrasonic sensors, electronic chart display and information system (ECDIS), computers, communications computers, server computers for video conference systems; wholesale and retail store services featuring electronic machines, apparatus and their parts, namely computer game programs, communication software for providing access to the internet; wholesale and retail store services featuring electronic machines, apparatus and their parts, namely computer software used for monitoring satellite communications system, computer software for satellite telecommunication antenna switches, computer software for video conference systems, computer software for remote monitoring system used for vessel engines, computer software for remote monitoring system used for marine radio communication machines and apparatus; wholesale and retail store services featuring electronic machines, apparatus and their parts, namely radar machines and apparatus and displays for vessels, course plotters for vessels, satellite navigational apparatus and instruments for vessels, global navigation satellite system (GNSS) receivers, displays, autopilots for vessels, automatic identification systems (AIS) for vessels, voyage data recorder (VDR) for vessels, bridge alarm systems for vessels, radio communication machines and apparatus; wholesale and retail store services featuring electronic machines, apparatus and their parts, namely sonars, fish finders and any other underwater detection equipment, echo sounders, ultrasonic sensors, electronic chart display and information system, gyrocompasses, electronic compasses, speed logs for vessels, tidal current meters, or meteorological machines and instruments; wholesale and retail store services featuring electronic machines, apparatus and their parts, namely computer software for obtaining information on location, track, advisable courses or berthing of vessels using satellites, computer software for navigation of vessels using satellites, or computer network hubs and switches; wholesale and retail store services featuring electric wires and cables, or connection cables; wholesale and retail store services featuring accumulators (batteries), or solar batteries and cells; on-line wholesale and retail store services featuring telecommunication machines and apparatus, namely radio communication machines and apparatus, marine radio communication machines and apparatus, satellite navigational apparatus and instruments for vessels, global navigation satellite system (GNSS) receivers, displays, video telephones, telephone apparatus, facsimile machines, modems used for satellite communications, apparatus for transmitting and reproducing sound or images; on-line wholesale and retail store services featuring telecommunication machines and apparatus, namely mobile phones, digital cameras, satellite telecommunication antenna switches, digital cameras for video conference systems, microphones for video conference systems, telecommunication machines and apparatus for connecting mobile phones to network, routers for VPN (virtual private network); on-line wholesale and retail store services featuring telecommunication machines and apparatus, namely radar machines and apparatus and displays for vessels, course plotters for vessels, autopilots for vessels, automatic identification systems (AIS) for vessels, voyage data recorder (VDR) for vessels, bridge alarm systems for vessels, or modems or network routers and their parts and fittings; on-line wholesale and retail store services featuring electronic machines, apparatus and their parts, namely electronic machines, apparatus and their parts used for vessels, sonars, fish finders and any other underwater detection equipment, echo sounders, ultrasonic sensors, electronic chart display and information system (ECDIS), computers, communications computers, server computers for video conference systems; on-line wholesale and retail store services featuring electronic machines, apparatus and their parts, namely computer game programs,

communication software for providing access to the internet, computer software used for monitoring satellite communications system, computer software for satellite telecommunication antenna switches, computer software for video conference systems; on-line wholesale and retail store services featuring electronic machines, apparatus and their parts, namely computer software for remote monitoring system used for vessel engines, computer software for remote monitoring system used for marine radio communication machines and apparatus, radar machines and apparatus and displays for vessels, course plotters for vessels, satellite navigational apparatus and instruments for vessels, global navigation satellite system (GNSS) receivers; on-line wholesale and retail store services featuring electronic machines, apparatus and their parts, namely displays, autopilots for vessels, automatic identification systems (AIS) for vessels, voyage data recorder (VDR) for vessels, bridge alarm systems for vessels, radio communication machines and apparatus, sonars, fish finders and any other underwater detection equipment, echo sounders, ultrasonic sensors, electronic chart display and information system, gyrocompasses, electronic compasses; on-line wholesale and retail store services featuring electronic machines, apparatus and their parts, namely speed logs for vessels, tidal current meters, or meteorological machines and instruments, computer software for obtaining information on location, track, advisable courses or berthing of vessels using satellites, computer software for navigation of vessels using satellites, or computer network hubs and switches; on-line wholesale and retail store services featuring electric wires and cables, or connection cables; on-line wholesale and retail store services featuring accumulators (batteries), or solar batteries and cells; sales promotion for others; advertising and publicity services; advertising and publicity services on computer networks; providing information regarding the wholesale and retail of fuel.

Class 37

Repair or maintenance of electronic machines and apparatus, namely electronic machines, apparatus and their parts used for vessels, sonars, fish finders and any other underwater detection equipment, echo sounders, ultrasonic sensors, electronic chart display and information system (ECDIS), automatic identification systems (AIS); repair or maintenance of electronic machines and apparatus, namely voyage data recorder (VDR), electronic machines and apparatus and their parts for vehicle and other moving objects, display, computers, computer software, computer network hubs and switches, or electronic circuits; repair or maintenance of telecommunication machines and apparatus, namely radio communication machines and apparatus for vehicles, marine radio communication machines and apparatus, satellite telecommunication machines and apparatus and their parts, radar machines and apparatus, navigational apparatus and instruments, apparatus for transmitting and reproducing sound or images; repair or maintenance of telecommunication machines and apparatus, namely weather facsimile machines, autopilots, integrated navigation systems (INS), global navigation satellite system (GNSS) receivers, satellite navigation device, intelligent transport systems (ITS), dedicated short range communication (DSRC) apparatus and instruments, automotive telematic apparatus, wireless communication machines and apparatus for vehicles and other moving objects; repair or maintenance of measuring or testing or surveying machines and instruments, namely gyrocompasses, electronic compasses, speed logs for vessels, tidal current meters, meteorological machines and instruments, immunity test and evaluation devices for laboratory experiments, or DNA analyzers; repair or maintenance of laboratory apparatus and instruments, namely, automatic biochemical analyzers and their parts; repair or maintenance of medical apparatus and instruments, namely, medical ultrasonic bone density measuring

devices, medical biogenic element analyzers, medical blood analyzers, automatic pipettes for blood examination, or diagnostic apparatus for testing and evaluating immunity for medical use.

Class 38

Telecommunication (other than broadcasting); providing access to telecommunication infrastructure using satellite; rental of satellite telecommunication equipment and its parts and fittings; providing information regarding satellite telecommunication; consulting of satellite telecommunication; rental of telecommunication equipment and its parts and fittings including telephones and facsimile apparatus; telecommunication of sound, images or data via network; communications by computer terminals; facsimile transmission; electronic mail transmission; mobile radio telephone services; communications by mobile communications terminals; transfer of data by telecommunications; video telephone services; electronic bulletin board services; broadcasting; broadcasting of radio and television programs; broadcasting programs via a global computer network; rental of access time to global computer networks.

Class 39

Providing information for navigation via radio, global navigation satellite system (GNSS), satellite, telecommunication networks and global computer communication networks; providing mapping, navigation, traffic and points-of-interest (POIs) information, local area information, location, track, advisable course route planning information, berthing and parking information, transportation information, and information relating to the operation of vessels and vehicles via radio, global navigation satellite system (GNSS), satellite, telecommunication networks, and global computer communication networks all for use in navigation; providing information via satellites condition of vessels, on board system and apparatus equipped vessels, shipped cargoes, or fuel; providing information via satellites on trouble of vessels and on board systems and apparatus equipped vessels; providing information via satellites on navigation of vessels obtained from on board system and apparatus equipped vessels; providing information of vessels, vehicles, cargo, persons or any other moving objects through satellites or other positioning systems; management information of positioning of vessels, vehicles, cargo, persons or any other moving objects, through satellites or other positioning systems; providing information of navigation, positioning of vehicles, road and traffic information or area information through intelligent transport systems (ITS) or mobile operation control systems; providing information for routing ships/vessels relating to weather, sea conditions, meteorology, terror, ports, or fuel; providing information relating to management of ship/vessel navigation, condition of on board system of ships/vessels and technical apparatus on ships/vessels, shipped cargoes, or fuel.

Class 41

Provision of training and educational services; training and educational activities; teaching and training in business, industry and information technology; online educational services, namely, arranging and conducting seminars, live seminars, online workshops and virtual classes; organization of training and educational courses; organization of courses using distance-learning methods; organisation of courses conducted with videos, VCDs, DVDs or other pre-recorded materials; production of teaching materials and program; production and publication of teaching material and programs in the form of compact discs and DVDs; providing facilities for educational training; provision of advisory, consultancy and information services relating to all the aforesaid, all of the former to be

provided for students as well as trainers and trainer candidates and for instructional and training purposes only; publication of electronic magazines; online electronic publishing of books and periodicals; publication of electronic newspapers accessible via a global computer network; on-line library services, namely providing electronic library services which feature newspapers, magazines, photographs and pictures via an on-line computer network; online motion picture, video or image rental services; entertainment services, namely providing non-downloadable playback of music, sound or voice via global communications networks; entertainment information via telecommunication network; rental of CD, DVD, or other pre-recorded materials; rental of magnetic tapes, magnetic cards, magnetic sheets, magnetic discs, optical discs and electronic circuits recorded newspapers, magazines, books, maps, drawings, photographs or character information.

Class 42

Providing computer software; hosting a website to provide computer software; online provision of computer programs via communication network; providing temporary use of on-line non-downloadable operating software for computer networks and servers; software as a service [SaaS] or application service provider service [ASP], namely, providing, hosting, managing, developing, and maintaining application software, web sites and databases in the fields of education or training of steering, control of vessels, and operation of navigational equipment of vessels; software as a service [SaaS] or application service provider service [ASP], namely, providing, hosting, managing, developing, and maintaining application software, web sites and databases in the fields of education or training of maintenance on board system and apparatus of vessels; software as a service [SaaS] or application service provider service [ASP], namely, providing, hosting, managing, developing, and maintaining application software, web sites, and databases in the fields of education or training of operation of medical equipment; software as a service [SaaS] or application service provider service [ASP], namely providing, hosting, managing, developing, and maintaining application software, web sites, and databases in the fields of remote data management of weather information, sea conditions, terror information, port information, fuel information, condition of on board system and apparatus of vessels, shipped cargoes, track information, advisable course, route planning, navigational information; hosting of web servers; rental of computers; rental of a database server (to third parties); rental of a storage area of a server via on the internet; rental of memory space on servers for hosting electronic bulletin boards; rental of a storage area for electronic storage of data, satellite and other positioning systems positions of vehicles, vessels or any other moving objects and associated profiles; providing computer programs for simulation; providing computer software for obtaining information on location, track, advisable courses or berthing of vessels using satellites; providing a computer program for online database of electronic storage of data, namely, satellite and other positioning systems positions of vehicles, vessels or any other moving objects and associated profiles; providing a computer program for online database of electronic storage of data through intelligent transport systems (ITS); computer software design, computer programming, or maintenance of computer software; designing, creating, programming, installation and maintenance, updating, remote monitoring, technical support of computer software, and troubleshooting or diagnosing of computer hardware and software problems; hosting of websites featuring information regarding specifications, designing, creating, programming, installation and maintenance, updates, technical support of computer software, and troubleshooting or diagnosing of computer hardware and software problems; providing technical advice and information relating to

designing, creating, programming, installation and maintenance, updates, technical support of computer software, and troubleshooting or diagnosing of computer hardware and software problems; providing technical advice and information relating to website design, programming, updates, maintenance and technical support in the nature of weather information, sea conditions, terror information, port information and fuel information; providing technical advice and information relating to website design, programming, updates, maintenance and technical support in the nature of management navigational information, condition of on board system and apparatus, shipped cargoes or fuel; providing technical advice and information relating to website design, programming, updates, maintenance and technical support in the nature of management positioning or navigation data through intelligent transport systems (ITS), satellite and other positioning systems position and associated profiles; providing technical advice and information relating to chipset of apparatus for measuring its position and for navigation by using GNSS and computer programming; maintenance, updating, remote monitoring and diagnoses of computer software, and provision of information and advice thereon; maintenance, updating and remote monitoring and diagnoses of computer software installed in telecommunication machines and apparatus, navigational apparatus and instruments, radar machines and apparatus and displays for vessels, course plotters for vessels, satellite navigational apparatus and instruments for vessels, global navigation satellite system (GNSS) receivers, displays and antennas; maintenance, updating and remote monitoring and diagnoses of computer software installed in autopilots for vessels, automatic identification systems (AIS) for vessels, voyage data recorder (VDR) for vessels, bridge alarm systems for vessels, electronic machines apparatus and their parts, sonars, fish finders and any other underwater detection equipment, echo sounders, ultrasonic sensors, electronic chart display and information system (ECDIS); maintenance, updating and remote monitoring and diagnoses of computer software installed in gyrocompasses, electronic compasses, speed logs for vessels, tidal current meters, meteorological machines and apparatus, medical apparatus and instruments, and provision of information and advice thereon.
