REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

recorded; computer programs for pre-recorded games; computer programs for project management; computer programs for network management; computer programs for orchestral staging; computer programs for studying languages; electrically recorded data for computers; magnetically recorded data for computers; magnetic cards bearing computer programs; interactive multimedia computer programs; printer apparatus for use with computers; peripheral control devices for computers; peripheral interface units for computers; peripheral sharing devices for computers; video games programs (computer software); video game programs for use in computers; tapes encoded with computer readable data; memory controllers for use with computers; printing apparatus for use with computers; printout apparatus for use with computers; programs for computer print out apparatus; plug-in cards bearing computer programmes; scanners for entering data into computers; programs for processing data on computers; keyboard apparatus for use with computers; interactive computers for use in training; computer programs for positioning of text; computer programs [downloadable software]; computer programs for financial reporting; computer programs for graphic elaborators; data carriers bearing computer programmes; data recorded in computer accessible form; computers and electronic processing units; computer programs stored on data carriers; computer programs recorded on paper tapes; cards encoded to access computer software; automatic printers for use with computers; computer networks for the storage of data; computer documentation in electronic form; computer controls for lighting instruments; computer measuring devices containing data; computer apparatus for the storage of data; computer apparatus for the control of data; controlling software for computer printers; computer terminals for accounting purposes; data carriers containing computer programs; computer programs for promotional purposes; computer programs for planning conferences; computer programs for planning exhibitions; computer programs for financial management; computer programs for managing conferences; computer programs for managing exhibitions; computer programs recorded on floppy discs; computer programs in machine readable form; instruments adapted for use with computers; magnetic computer tapes for recording data; magnetic discs bearing computer programmes; magnetic recordings of computer programmes; electrical cables for connecting computers; electronic circuits for use with computers; flexible flat panel displays for computers; electronic printers for use with computers; print out apparatus for use with computers; mouse mats for use with computer apparatus; non-impact printers for use with computers; video game programs for use with computers; television monitors for use with computers; television receivers for use with computers; motor vehicle diagnostic computer apparatus; print trimmers (parts of computer printers); electronic memories being computer programs; interface apparatus for computing apparatus; computer programs recorded on data carriers; computer programs for user interface design; computer programs recorded on magnetic tape; computer programs recorded on magnetic wire; computer programs for the creation of masks; computer programs for use by tour operators; computer programs for use in communications; computer programmes for document management; data input apparatus for use with computers; data interconnecting computer installations; data being optically recorded for computers; data stored for access by computer programs; computer workstations for electronic design; computer programs used in molecular biology; computer apparatus for remote meter reading; communications processing computer software; compact disc players for use with computers; computer aided automobile driving apparatus; cartridges (software) for use with computers; computer apparatus for computer aided design; computer networks for the processing of data; computer

software applications, downloadable; computer software designed to estimate costs; computing apparatus for handling information; computer programs for processing information; computer programs for use by travel agencies; computer programs recorded on magnetic media; electronic materials being computer programs; electric apparatus for storing computer data; programming apparatus for use with computers; materials bearing recorded computer programs; network controllers being computer apparatus; protective films adapted for computer screens; encoded data in the form of computer listings; encoded programs for weapon systems computers; instruction programmes for use with computers; interactive multimedia computer game programs; instructional materials for computer programs; wheel balancing apparatus utilising computers; computer programs for the management of sales; computer programs for commercial transactions; data carriers incorporating computer programs; digital video adaptors for use with computers; computer software for analysing address files; computer related data communication apparatus; computer programs relating to word processing; computer software to enable searching of data; computer software for the analysis of defects; computer interface units for translating data; computer controlled fuel dispensing apparatus; computer apparatus for computer aided testing; computer based control apparatus for machines; apparatus for linking computers into networks; apparatus for controlling computer programmes; circuit boards for use with computer keyboards; computer apparatus for computer aided drafting; computer installations for the storage of data; computer software to automate data warehousing; computer software for processing address files; computer related voice communication apparatus; computer programs stored on magnetic materials; computer software downloaded from the internet; devices for use in the networking of computers; connection graphics language computer programs; data being electrically recorded for computers; data being magnetically recorded for computers; computer programs for scientific data analysis; computer programs for the creation of networks; computer programs for use in molecular biology; computer programs for video and computer games; semiconductor apparatus for use with computers; magnetic discs for storing computer programmes; magnetic tapes for storing computer programmes; magnetic tapes for visual electronic computers; electrical data output apparatus for computers; punched cards for use with computers (encoded); recording material bearing computer programmes; plug-in cartridges bearing computer programmes; memory devices for use with computer apparatus; mounting brackets adapted for computer monitors; magnetic tape for recording computer programmes; recorded computer programs in the form of tapes; recorded computer programs in the form of wires; recorded computer programs in the form of cards; recorded computer programs in the form of disks; visual display apparatus for use with computers; units adapted for the storage of computer disks; computer programs for use in telecommunications; computer programs relating to computer networks; computer programs relating to financial matters; computer programs for testing computer hardware; computer programs for use in fitting spectacles; computer programs for designing control systems; data recording materials for use with computers; computer programs relating to motorcycle racing; computer software for processing digital images; computer software for wireless content delivery; computer networks for the communication of data; computer controlled fuel dispensing instruments; computer controlled automatic testing apparatus; computer controlled workstations for data entry; computer controlled apparatus for voting systems; computer systems designed for project management; computer programs relating to housing management; computer programs for use in fluid flow analysis; computer programs for use in database management; computer

programs for use in desk top publishing; computer discs containing business documentation; computer apparatus for recording telephone calls; data processing apparatus for use with computers; electronic data apparatus for use with computers; electronic memories comprising computer programs; magnetic tapes for recording computer programmes; magnetic discs for recording computer programmes; magnetic cards for recording computer programmes; printed circuit boards for mounting in computers; recording discs for use with computer programmes; semiconductor memories being computer programmes; simulation software for use in digital computers; record carriers for computer programmes (optical); storage file units for computer program recording; pre-recorded data carriers for use with computers; plastic insulated cables (electric) for computers; paging interface apparatus for use with computers; keyboards for entering information into computers; graphic printers for use with computing apparatus; image processing apparatus for personal computers; computer apparatus for computer aided engineering; training guides in the form of a computer program; boxes adapted for storing computer software disks; computer hardware publications in electronic form; computer hardware for use with drilling apparatus; computer apparatus for use with computer networks; computer apparatus for use in local area networks; computer programs in the field of design analysis; computer programs relating to local area networks; computer software for use in controlling machines; computer installations for the processing of data; computer programs for analysing computer hardware; computer programs for use by travel organisations; computer programs for producing computer graphics; computer programs for management of manufacturing; computer programs for electronic image processing; computer programs for electronic design automation; computer programs for use in computer-aided design; computer programs for use as reporting directories; computer programs for use as searching directories; computer programs for the petrochemical industries; computer software programs for database management; computer software for analysing market information; computer programs stored on magnetic data carriers; computer programs for use with facsimile apparatus; computer based control apparatus for machine tools; computer hardware for use with drilling instrument; computer hardware for use with drilling operations; training manuals in the form of a computer program; television display monitors for use with computers; computer apparatus for computer aided design (cad); cards for use with computers (encoded or magnetic); electronic memories comprising computer programmes; electronic memories for the input of computer data; electronic publications recorded on computer media; input apparatus for transferring data to computers; installations for use in forming computer networks; magnetic tape drives for storing computer programs; microprocessor based computer compatible apparatus; personal computers for use with video game devices; personal computers incorporating computer software; record carriers for computer programmes (magnetic); recorded computer programs for scientific research; paper feed apparatus for use with computer printers; paper handling devices (parts of computer printers); materials bearing computer programs in encoded form; magnetic cards for the storage of computer programs; electronic memories incorporating computer programs; electronic memories for the output of computer data; communication devices for linking computer networks; computer apparatus for computer aided manufacturing; television display apparatus for use with computers; apparatus for data communications between computers; apparatus for inputting information into a computer; apparatus for receiving information from a computer; computer based control apparatus for assembly lines; computer programs relating to computer aided design; computer software for processing market

information; computers for managing control devices for aircraft; computer workstations (apparatus and installations); computer software for processing digital music files; computer programs recorded on magnetic data carriers; computer programs recorded on data storage materials; computer programs for integrated circuit diagnostics; computer controllers for operating sound instruments; computer installations for the communication of data; computer games programs recorded on tapes (software); audiovisual display apparatus for use with computers; apparatus for computer numerical control of machines; electronic memories for the storage of computer data; electronic memories for the control of computer data; electronic printing apparatus for use with computers; installations for use in the networking of computers; industrial controls incorporating computer apparatus; input apparatus for transferring data from computers; credit card encoding machines [computer peripherals]; data storage devices for recording computer programs; operating computer software for main frame computers; materials for carrying computer data in optical form; paper guiding apparatus (parts of computer printers); electronic control apparatus for computer programmes; electrical control apparatus being computer operated; electrical print out apparatus for use with computers; electronic print out apparatus for use with computers; process control units using process control computers; materials for carrying computer data in magnetic form; mobile work stations (computer, other than furniture); personal computer software applications, downloadable; technical literature in the form of computer programs; computer programs for editing images, sound and video; computer programs in the field of molecular modelling; computer programs in the field of communication links; computer software programs for spreadsheet management; devices for linking terminals on a computer apparatus; credit card embossing machines [computer peripherals]; computer controllers for operating lighting apparatus; computer games programmes downloaded via the internet; broadband data interconnecting computer installations; apparatus for use in communications between computers; boxes adapted for transporting computer software disks; cartridges for toner (unfilled) for use with computers; computer software for authorising access to data bases; computer programs recorded in computer accessible form; computer programs for the creation of elementary cells; computer programs for designing printed circuit boards; personal computer work stations (electronic apparatus); paper feeding apparatus for use with computer printers; navigation apparatus for vehicles [on-board computers]; electrical data input apparatus for use with computers; electronic data input apparatus for use with computers; magnetic carriers for the storage of computer programs; integrated circuit cards storing computer game programs; electronic data output apparatus for use with computers; electronic memory units for bearing computer programmes; memory cartridges on which computer programs are stored; optical discs bearing machine readable computer program; recorded computer programs in the form of punched cards; tape units for backing up computer data storage devices; tape units for backing up computer data storage systems; computer programs for use in defining machineable parts; computer programs for use in computer aided engineering; computer programs relating to the training of personnel; apparatus controlled by computers for analysing samples; computer installations for the control of machine tools; computer controlled mechanisms for coin operated lockers; anti-glare filters for televisions and computer monitors; computer apparatus having speech generation capabilities; computer apparatus for the management of telephone calls; computer software for controlling self-service terminals; paper strips bearing punched (encoded) computer programs; memory devices bearing programmes for use with computers;

input apparatus for use with computers for handling data; machine readable materials for bearing computer programs; machine readable carriers for stored computer programmes; magnetic recording apparatus bearing computer programmes; magnetic recording materials bearing computer programmes; magnetic supports containing recorded computer programmes; machine readable material for bearing computer programmes; installations for the remote loading of computer software; interactive entertainment software for use with computers; electronic apparatus for linking televisions to computers; remote control apparatus connected by modems to computers; programs for setting up performance analysis in computers; semiconductor memory cartridges being computer programmes; computer software to maintain and operate computer system; digital interactive video adaptors for use with computers; computer programs for use in computer-aided manufacturing; computer programs for use in developing computer programs; computer programs for use with structured system analysis; computer apparatus for computer aided manufacturing (cam); computer based electrophoresis image processing apparatus; computer controlled telecommunications exchange apparatus; computer installations for the control of laundry machines; computer apparatus for the transmission of telephone calls; articles adapted for use in the ducting of computer cables; articles adapted for use in the support of computer cables; computer software for application and database integration; solid-state electrical apparatus for storing computer data; tapes bearing computer programmes in machine readable form; paper being magnetic discs for recording computer programs; electronic components for the storage of computer programs; electronic visual display apparatus for use with computers; electrically punched (encoded) cards for use with computers; electrically punched (encoded) tapes for use with computers; electric devices for transmission of data between computers; installations for the remote unloading of computer software; optical discs for bearing machine readable computer program; computer programs used for electronic cash register systems; computer software for use in programming facsimile machines; computer software for creating and editing music and sounds; computer programs for establishing pump operating schedules; cartridges of magnetic tape for recording computer programs; audiovisual display apparatus adapted for use with computers; computer apparatus adapted for use with visual display units; computer operated controls for mechanical handling apparatus; computer controlled installations of video display apparatus; computer game software for use on mobile and cellular phones; computer software for use in processing semiconductor wafers; computer programs relating to the creation of graphic images; computer software designed to estimate resource requirements; data carriers for computers having software recorded thereon; cursor control devices for use with computer display systems; computer terminals for use with debit cards at point of sale; joysticks for use with computers, other than for video games; materials bearing data in encoded form for use with computers; computer terminals for use with credit cards at point of sale; computer programs for dynamic simulation of oil well drilling; computer programs for monitoring computer systems performance; computer programs for the rating of plate fin heat exchangers; computer programs for the design of plate fin heat exchangers; apparatus for collecting encoded data for supply to computers; circuit boards for use in the emulation of computer terminals; computer aided design instruments for laser machining systems; acoustic receivers for telephonic communication with computers; apparatus for controlling the operation of machines (computer); computer games programs downloaded via the internet (software); computer installations incorporating a central processing unit; computer programs for using the internet and the worldwide web; computer terminals for use with encoded cards at point of sale; computer software for communication between

computer processes; materials bearing computer programs in magnetic (encoded) form; insert cards (printed circuit boards) being parts of computers; solid-state electrical apparatus for storing computer programs; telecommunications apparatus for transferring data to computers; interface instruments for computer control of knitting machines; computer software adapted for use in the operation of computers; computer terminals for use with magnetic cards at point of sale; data processing programmes for editing in computer aided design; computer programs recorded on diskettes for producing lettering; computer programs for automating molecular biological processes; computer programs for providing a graphical presentation of data; computer programs for the enabling of access or entrance control; computer programs for the evaluation of thermal radiation levels; computer programs for the analysis of data processing procedures; computer programs for the control of telecommunication apparatus; computer programs for the analysis of data processing efficiency; computer programs relating to the manipulation of graphic images; computer controlled apparatus for testing printed circuit boards; electronic data carriers with computer programs (machine script); fibre optics communications installations for use with computers; personal computers for use with coin operated video game devices; recording materials for the storage of digital computer programs; solid-state electrical apparatus for storing computer programmes; videotext computer terminals incorporating alphanumeric keyboards; electronic devices for the transmission of data between computers; computer programs relating to the creation of photographic images; data processing programmes for archiving in computer aided design; data terminals for the entry of data to a central computer system; computer programs for the analysis of data processing performance; computer programs in machine readable form recorded on paper tape; computer programs for the control of telecommunication instruments; computer game software downloadable from a global computer network; computer apparatus for the measurement of brakes on motor vehicles; network software applications being downloadable computer programs; computer hardware for use in computer-assisted software engineering; computer controlled installations of liquid crystal display screens; computer programs for the management of the manufacturing processes; computer programs for simulating the trading in futures and options; computer software for communicating purposes between microcomputers; computer based development apparatus for testing electronic circuits; computer based apparatus for use in the enhancement of video signals; computer aided teleprinter apparatus having word processing functions; data carriers incorporating computer programs written in machine code; data storage media (other than paper) for recording computer programs; materials bearing information in magnetic form for use with computers; mosaic-type heads for impact printing machines for use with computers; interactive computers for use in certifying airport security personnel; computer utility programs [program performs computer maintenance work]; apparatus for protecting computers from electrical power supply faults; computer apparatus for the measurement of suspension on motor vehicles; computer based apparatus for the implementation of electronic circuits; computer based development apparatus for testing printed circuit boards; computer programmes (programs) and recorded software distributed online; computer programs in machine readable form recorded on electronic media; machine readable computer programs for use in the reproduction of music; electrical connectors for connecting laptop computers to telephone lines; computer based apparatus for designing the layout of electronic circuits; computer based apparatus for the implementation of printed circuit boards; data terminals for the communication of data to a central computer system; devices for

converting image information to digital signals for computers; computer software for controlling and managing access server applications; electronic data processing apparatus for the storage of computer programs; fibre optics communications apparatus for use with computer work stations; telecommunications apparatus for transmitting data for use with computers; electrical communications apparatus for use with interconnecting computers; programs written on data carriers for processing encoded data on computers; computer software for controlling the operation of audio and video devices; computer programs for use in processing data relating to financial records; computer based development apparatus for the design of electronic circuits; cash registers, calculating machines, data processing equipment, computers; computer based apparatus for designing the layout of printed circuit boards; computer controlled apparatus for furnishing voice responses to data inputs; computer programs for connecting remotely to computers or computer networks; computer software for organizing and viewing digital images and photographs; interfaces between application programs and firmware on real-time computers; simulators incorporating digital computers for industrial training purposes; computer based development apparatus for the design of printed circuit boards; computer programs for use with computer integrated manufacturing installations; educational materials in the form of computer programmes for teaching languages; computer software to enable the transmission of photographs to mobile telephones; computer apparatus for use in monitoring biochemical reactions (for medical use); computer apparatus for the measurement of exhaust gas emissions on motor vehicles; miniature hard disk drive storage units on a plug-in card being computer apparatus; downloadable computer game software via a global computer network and wireless devices; computer controlled electro-mechanical apparatus for automatically dispensing products; computer programs for searching remotely for content on computers and computer networks; computer controlled electro-mechanical instruments for automatically dispensing products; computer apparatus for use in monitoring biochemical reactions (other than for medical use); computer programs for searching the contents of computers and computer networks by remote control; video game computer programs for use with game apparatus not requiring a separate means of display; lan [local area network] computer cards for connecting portable computer devices to computer networks; racks and mountings specifically adapted for use with audio, visual, computer and telecommunications equipment; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or cd-rom; electric wire; electric wires; electric plugs; electric signs; electric fuses; electric leads; electric locks; electric bells; electric cells; electric coils; electric cables; coils, electric; electric fences; electric diodes; electric relays; electric wiring; electric timers; locks, electric; wires, electric; plugs (electric); relays, electric; electrical wires; electrical cable; electrical cells; electrical coils; electrical ducts; electrical fuses; electrical leads; electrical locks; electrical plugs; electric sockets; electric filters; cables, electric; cells (electric); electric buzzers; electric closers; electric circuits; electric boosters; electric adaptors; electric contacts; electric reactors; electric switches; electrical meters; electrical relays; electrical scales; electrical cables; electricity ducts; electricity meters; electrical cabling; electrical bridges; electrical sensors; electrical sockets; electrical outlets; electric terminals; electric resistors; electric dry cells; electric couplings; electric inverters; ducts, electricity; electric actuators; electric batteries; contacts, electric; buffers (electric); switches, electric; batteries, electric; electric capacitors; electric components; electric condensers; electric conductors; electric connectors; couplings, electric; ducts [electricity]; electric fuse boxes; electric converters; electric door locks; electric door bells; electric rectifiers;

electric plug boxes; electrical adapters; electrical adaptors; electrical limiters; electrical switches; electrical tracking; electrical conduits; electrical contacts; electrical controls; electrical couplers; electrical cut-outs; electrical displays; electrical couplings; electrical circuitry; electrical armatures; electrical batteries; electrical terminals; electrical resistors; electrical recorders; electrical inverters; electrical receivers; electrical harnesses; electricity limiters; electricity conduits; electric switchboxes; electric thermostats; electric power units; electric oscillators; electric phonographs; electric resistances; electric shunt boxes; electric door chimes; electric gramophones; electric flow meters; electric connections; electric bell pushes; electric cable boxes; electric cable ducts; converters, electric; conductors, electric; collectors, electric; sockets (electrical); ships logs (electric); switchgear (electric); resistances, electric; plug boxes (electric); touch pads (electric); connections, electric; alarm bells, electric; electric branch boxes; ducting (electricity); electric accumulators; electric plug devices; electric transformers; electrical amplifiers; electricity inverters; photoelectric sensors; piezoelectric devices; piezoelectric sensors; electrical interfaces; electrical rectifiers; electrical switchgear; electrical timetables; electrical bare wires; electrical capacitors; electrical components; electrical converters; electrical connectors; electrical conductors; electrical connections; electrical delay lines; electrical terminators; piezoelectric igniters; metal ducts (electric); metal locks (electric); marine logs (electric); junctions (electrical); limiters [electricity]; electricity connectors; electricity conductors; electric terminal lugs; electric read switches; electric plug adapters; electric smoke sensors; electric switch plates; electric light dimmers; electric lock switches; electric mains testers; electric control boxes; electric control desks; electric adapter plugs; electric adaptor rings; electric adaptor units; door chimes (electric); electric arc apparatus; electric contact fuses; accumulators, electric; power cells (electric); rolled wire (electric); reducers [electricity]; radioelectric apparatus; plug sockets (electric); sleeved rails, electric; splice boxes (electric); terminals [electricity]; armatures [electricity]; electric contact blocks; electric contact boards; electric circuit boards; electric blanking plugs; electric cable channels; electric air regulators; electric adapter cables; electric control boards; electric current meters; electric control panels; electric control valves; electric light switches; electric junction boxes; electric socket outlets; electric shaver sockets; electric slide switches; electric timing devices; electrical accumulators; flex outlets (electric); inductors [electricity]; inverters [electricity]; insulated electric wire; luminous electric signs; photo-electric switches; electrical transformers; electrical transmitters; electrical switch boxes; electrical distributors; electrical branch boxes; electrical switch boards; electrical switch timers; electrical time switches; electrical push switches; lock switches (electric); incubators (electricity); flexible electric cables; electricity transformers; enamelled electric wires; electric smoke detectors; electric servomechanisms; electric rotary switches; electric power analysers; electric extension leads; electric locking devices; electric loss indicators; electric current sensors; electric connector units; electric alarms for fire; electric cable couplings; electric circuit closers; electric circuit testers; electric connector boxes; connectors [electricity]; ceiling roses (electric); vehicle locks (electric); safety relays (electric); storage cards (electric); storage cells (electric); switch panels (electric); switch plates (electric); switch points (electric); plug-in cards (electric); plug ferrules (electric); radioelectrical antennae; rubber cables (electric); printed electric circuits; plug-in blocks (electric); power dividers (electric); stranded wires (electric); switchboxes [electricity]; switched spurs (electric); wires for electric fences; electric connecting plugs; electric connection plugs; electric connection units; electric chimes for doors; electric circuit breakers; electric calling consoles; electric cables and wires; electric cable connectors; electric battery chargers; electric

alarms for smoke; electric contact switches; electric current switches; electric current adaptors; electric fence energisers; electric flasher switches; electric extension cables; electric power converters; electric resistance coils; electric wires and cables; electric wiring harnesses; markers for electric wire; insulated electric cables; line apparatus (electric); metallic wires (electric); electrical test apparatus; electrical tuning filters; electrical terminal boxes; electrical junction boxes; electrical power adaptors; electrical circuit boards; electrical control panels; electrical control boards; electrical data converters; electrical circuit testers; electrical cable apparatus; electrical plug connectors; electrical extension leads; electrical telegraph wires; electrical telephone wires; electrical terminal blocks; electrical switch cabinets; electrical release devices; electrical resistance wire; electrical surge arrestors; metallic cables (electric); mixing consoles (electric); piezoelectric tuning forks; panel boards (electricity); insulated electrical wires; insulated wires (electric); electricity junction boxes; electricity control panels; extension leads (electric); fuses for electric current; holders for electric coils; electric wiring connectors; electric rotary converters; electric skeleton switches; electric storage batteries; electric programming units; electric protective relays; electric pushbutton panels; electric fence controllers; electric leads for dubbing; electric measuring devices; electric mains power units; electric control apparatus; electric bridge rectifiers; electric connector sockets; electric combination locks; branch boxes [electricity]; transformers [electricity]; toggle switches (electric); switch cabinets (electric); static electric converters; score recorders (electric); sockets for electric plugs; socks, electrically heated; plug connectors (electric); refractory electric cables; plug connections (electric); speed reducers (electrical); sheaths for electric cables; starters for electric lamps; tactile switches (electric); terminal boxes (electrical); winding wires [electricity]; bundles of electric cabling; cell switches [electricity]; conduit for electric cables; electric circuit components; electric adapter connectors; ducting for electric cables; electric amplifiers (sound); ducts for electrical wiring; covers for electric outlets; electric current rectifiers; electric mains transformers; electric leads for speakers; electric magnetic compasses; electric locks for vehicles; electric power supply units; electric regulating modules; electric plotting apparatus; electrical access apparatus; electric time-relay devices; electricity mains apparatus; electrical wiring harnesses; interface cables (electric); insulated electrical cables; linear actuators (electric); lock controllers (electric); measuring devices, electric; panel connectors (electric); piezoelectrical transducers; monitoring units (electric); mounting cords (electrical); metal signboards (electric); electrical resistance coils; electrical cable connectors; electrical charge apparatus; electrical circuit breakers; electrical coupling sleeves; electrical control circuits; electrical connection boxes; electrical control apparatus; electrical discharge devices; electrical connecting cables; electrical switch assemblies; electrical storage batteries; electrical header connectors; operating systems (electric); locking apparatus (electric); locks (electric) with alarms; junction boxes [electricity]; integrated electric circuits; electrically heated clothing; instrument panels (electric); flexible electrical conduits; fuses [for electric current]; electric valves (thermionic); electric switching apparatus; electric measuring apparatus; electric operators for doors; electric discharge apparatus; desoldering tools (electric); domestic switches (electric); electric amplifiers (signal); electric closers for windows; electric cable installations; electric breakers (switches); conduit couplings (electric); connecting electrical cables; connection boards (electric); coils for electrical magnets; control panels [electricity]; storage batteries (electric); sheaths for electrical wires; skeleton switches (electric); splice connectors (electric); plant propagators (electric); power controllers (electric); polyphase electricity meters; plug-in connectors (electric); plug-in electrical connectors; piezoelectrical

ceramic parts; plug-in cartridges (electric); speed regulators (electrical); pyroelectric infrared sensors; wire connectors [electricity]; tubes for electrical purposes; conduit protectors (electric); automotive electric batteries; actuators (electric switches); alloyed steel wire (electric); electric circuit interrupters; electric amplifiers (current); electric current transformers; electric navigating apparatus; electric monitoring apparatus; electric leads for amplifiers; electric transmission filters; electric voltage transformers; electric power line detectors; electric power supply sockets; electric regulating apparatus; electric signalling apparatus; electric safety cut-out fuses; heat resistant electric wires; electrical weighing apparatus; electrically operated latches; electricity storage apparatus; motor vehicle electric relays; mounting cradles (electrical); electrical locks for vehicles; electrical power outlet boxes; electrical push leaf switches; electrical push button panels; electrical signal attenuators; electrical circuit components; electrical checking apparatus; electrical batteries for cars; electrical distribution boxes; electrical distribution cases; electrical coupling apparatus; electrical data input devices; electrical distribution frames; electrical connection adapters; electrical control instruments; electrical controlling devices; electrical resistance elements; electrical switching apparatus; electrical terminal connectors; electrical testing instruments; electrical measuring apparatus; monitoring apparatus, electric; photo-electric detectors units; electricity metering apparatus; heat resistant electric cables; inductive electrical apparatus; flexible electrical conductors; fitted electric control panels; fitted electrical switchboards; electric wires of metal alloys; electric measuring instruments; electric leads for microphones; electric locking installations; electric control installations; air operated electric switches; busbars (electric connections); connection boxes (electricity); conductors for electric cables; connections for electric lines; plug-in connections (electric); plastic coated wire (electric); plastic covered electric wires; regulating apparatus, electric; rising main systems (electric); process controllers (electric); rubber covered electrical wires; power distributors (electrical); switch-over circuits (electric); terminal controllers (electric); couplings for electrical cables; connections for electric cables; cable trays for electric cables; cable joints of metal, electric; chargers for electric batteries; batteries for electric vehicles; electric access control systems; electric door control apparatus; electric navigation instruments; electrical adjustment apparatus; flexible electric control leads; electrical wiring installations; motor vehicle electric switches; non-electrical distress beacons; insulated electrical connectors; insulated electric copper wires; electrical push button switches; electrical recharging apparatus; electrical frequency converters; electrical regulating apparatus; electrical safety cut-out fuses; electrical signalling apparatus; electrical distributing busbars; electrical calculating machines; electrical communications cables; electrical cable extension reels; electrical reducing transformers; electrical switching instruments; electrical measuring instruments; low tension electrical apparatus; piezo electric ceramic materials; motor control centres (electric); electric power storage apparatus; electric over voltage protectors; electric leads for audio dubbing; electric door locks for vehicles; electric current control devices; distribution boxes [electricity]; distribution units (electricity); distributor boards (electricity); credit card imprinters, electric; electric circuit control devices; electric communication apparatus; electric cable protector modules; automotive electrical components; apparatus for electricity supply; coils being electrical apparatus; components for electric circuits; topographic apparatus (electric); text layout apparatus (electric); tubing casing for electric wires; wiring apparatus for electricity; switch socket outlets (electric); process control units (electric); printers for electric controllers; remote control devices (electric); safety locking devices (electric); slatted blind controls (electric); components for

electrical devices; circuits (electric or electronic); cable ladders for electric cables; cable outlets for electric cables; cable splices for electric cables; advertising signboards (electric); batteries, electric, for vehicles; cable for electrical transmission; electric conduit swivels of metal; distribution boards [electricity]; electric access control apparatus; electric keyboards for data input; electric extension outlet sockets; electric navigational instruments; electric lighted tactile switches; electric mains monitoring devices; electric ovens for laboratory use; electric remote control apparatus; monitoring instruments (electric); mineral insulated electric cables; metal bells (electric) for alarms; photoelectric measuring apparatus; markers for electrical conductors; mass storage apparatus (electric); junction boxes for electric wires; electrodes for electrical brazing; fitted electrical terminal blocks; instrumentation cables (electric); holders for electrical components; housings for electrical apparatus; electrical feed through apparatus; electrical trunking installations; electrical signalling instruments; electrical solid-state components; electrical communication machines; electrical connecting instruments; electrical distribution apparatus; electrical current transport means; electrical communicating apparatus; electrical circuit control devices; high temperature cables (electric); electricity distribution apparatus; mechanical locks (electric, metal); piezoelectric vibratory gyroscopes; photo-electric measuring apparatus; motor control apparatus (electric); electric striking plates for locks; electric mains distribution panels; electric ducting conduits of metal; electric control devices for ovens; electric access security apparatus; electric anti-interference devices; electric apparatus for commutation; electric apparatus for controlling; ducts for housing electrical wires; apparatus for connecting electrics; carbon articles for electrical use; coils being electrical instruments; connection blocks (electric cable); score display apparatus (electric); stock control apparatus (electric); pre-insulated terminals (electric); travel adaptors for electric plugs; valve operators (electric controls); radioelectrical television antennae; plugs for electric connection leads; tags for identifying electric wires; connections for electrical purposes; clamps being electrical connections; cases adapted for electric circuits; cable junctions for electric cables; cable ducts for electric conductors; distribution consoles [electricity]; electric contact separating devices; electric control apparatus for fans; electric mains monitoring apparatus; electric leads for electric guitars; electric mosquito repellent devices; electrical access control apparatus; electrical apparatus for monitoring; monitoring installations (electric); operation control panels (electric); manual desoldering tools (electric); mass storage instruments (electric); joining units (electrical contacts); electrically operated door controls; housings for electrical instruments; filters being electrical components; electrical cables for sale on drums; electrical cables for sale on reels; electrical remote control apparatus; electrical digital control apparatus; electrical power distribution blocks; electrical communication instruments; electrical data processing apparatus; flexible sheaths for electric cables; film cleaners (electrical apparatus); graphic display apparatus (electric); electricity distribution instruments; electrically operated window closers; light dimmers [regulators], electric; light regulators [dimmers], electric; junction sleeves for electric cables; mechanical dialling locks (electric); message display apparatus (electric); motor control instruments (electric); electric terminal carrier assemblies; electric power distribution machines; electric motor controlling apparatus; electric furnaces for laboratory use; electric control operating apparatus; electric batteries for land vehicles; directories (electric or electronic); dispensers for electrical components; accumulators, electric, for vehicles; adaptors for use with electric plugs; tags for identifying electric cables; rechargers for electric accumulators; radioelectric transmission apparatus; process control apparatus (electric); robotic

electrical control apparatus; target location apparatus (electric); voltage regulators for electric power; wall plates for electrical components; releasable locking devices (electric); switching devices for electric relays; switched splitters for electric power; suppressors for electrical appliances; apparatus for electrical heat tracing; apparatus for joining electric cables; connectors being electrical terminals; electric apparatus for ink jet coding; electric batteries for water vehicles; electric cords for musical amplifiers; electric control apparatus for lights; electric control apparatus for motors; electric control apparatus for robots; electric control devices for turbines; electric control devices for machines; electric fluid flow control apparatus; electric switches being leaf switches; electric visual reproducing apparatus; electrical apparatus for rust control; network protection devices (electric); panels for the control of electricity; message handling apparatus (electric); male connectors for electrical cables; electrically operated valve actuators; electrically operated locking devices; flow control installations (electric); electrical distribution installations; electrical contact separating devices; electrical connecting terminal blocks; electrical products testing apparatus; electrical push buttons being luminous; electrical process control instruments; electrical dosing apparatus for paints; electrical units for data conditioning; electrical communication installations; electrical cable distribution trunking; electrical devices for storage of data; housings for electrical sub-assemblies; manually operated electric cable reels; junction boxes for electrical circuits; junction boxes for electrical purposes; insulating connection boxes (electric); electrical apparatus for mixing sounds; electrical apparatus for demagnetising; electric or electronic display screens; electric or electronic control modules; electric or electronic control screens; electric control apparatus for engines; electric control apparatus for heaters; electric cords for musical instruments; electric apparatus for ink jet copying; electric apparatus for remote ignition; electric apparatus for data processing; dielectric boards for printed circuits; combined electrical and optical cables; apparatus for electricity distribution; apparatus for accumulating electricity; tap changers for electric transformers; safety monitoring apparatus (electric); solar cells for electricity generation; process control instruments (electric); power sources for electric arc welding; power controlling apparatus (electric); plastic conduits for electrical wiring; wall plates for electrical connections; terminal boxes for electric conductors; prefabricated ducts for electric cables; solar panels for electricity generation; solid-state electric current rectifiers; anti-interference devices [electricity]; automatic closers (electric) for blinds; apparatus for the supply of electricity; components for electrical installations; check controls (electric or electronic); connectors for joining electrical wires; dimming apparatus for electric lighting; distribution panel boards (electricity); distribution boxes for electrical power; electric appliances for operating doors; electric current distribution apparatus; electric devices for transporting money; electric control apparatus for machines; electric or electronic control stations; electric rapid acting control apparatus; electrical apparatus for testing alloys; electrical apparatus for recording data; electrical amplifiers for sound signals; electrical access control installations; mechanical combination locks (electric); monitoring control apparatus (electric); meters for measuring electrical current; meters for measuring electrical voltage; female connectors for electrical cables; electrical door entry control apparatus; electrical push button switch assemblies; electrical units for signal conditioning; electrical contractors condensing lenses; electrical cables for use in connections; electrical cables in the form of ribbons; electrical apparatus for use in printing; extension leads for electrical apparatus; flexible sheaths for electric conductors; panels for the connection of electricity; photoelectric image producing cartridges; interactive display apparatus (electric); interface cards for electrical

apparatus; instruments for accumulating electricity; interface units for electrical apparatus; level controllers (electrical apparatus); electrical and electronic burglar alarms; electric ducts of non-metallic materials; electric horns (other than for vehicles); electric control devices for compressors; electric control instruments for engines; ducting containing electrical conductors; connecting modules for electric controls; conductive films for electrical purposes; conductive tapes for electrical purposes; apparatus for testing electrical devices; apparatus for locating electrical cables; tags for identifying electric conductors; process controlling apparatus (electric); portable electric sockets (power boards); theft prevention installations, electric; plastic poles for carrying electric wires; switching devices for electric contactors; splices for electrical transmission lines; advertising boards (electric or luminous); armatures for use in electrical apparatus; ballasts for electrical lighting fittings; cable covering panels for electric cables; circuit boards for electrical engineering; containers incorporating electric sockets; devices for measuring electric quantities; electric apparatus for charging batteries; electric apparatus for transmitting sound; electric checking (supervision) apparatus; electrical apparatus for data acquisition; electric operators (switches) for windows; electric security apparatus for buildings; interface boards for electrical apparatus; mechanical locks (electric, non-metallic); mechanical closers (electric) for windows; pin and socket strips for electric cables; noise suppressors (electrical components); mounting boards for electrical components; electrically controlled display apparatus; identification sheaths for electric wires; identification threads for electric wires; electrical circuits for hydraulic control; electrical current distribution apparatus; electrical dosing apparatus for adhesives; electrical gas discharge indicia displays; electrical instruments for checking light; electrical instruments for checking sound; electrical instruments for recording light; electrical instruments for recording sound; electrical drives for regulating apparatus; electrical devices for controlling rodents; electrical connection insulation apparatus; electrical apparatus for use in publishing; electrical apparatus for use in regulation; electrical apparatus for the input of data; industrial contactor starters (electrical); ferrules adapted for electrical conductors; electronic components for electric guitars; panels for the distribution of electricity; photoelectrical image producing cartridges; meters for measuring electrical resistance; joint compound for electrical conductivity; interactive display instruments (electric); electrical apparatus for corrosion control; electrical apparatus for opening skylights; electric control devices for machine tools; electric gate apparatus for access control; electric ducting of non-metallic materials; electric or electronic display instruments; electric batteries for use in air vehicles; apparatus for testing electrical apparatus; apparatus for electrical safety protection; switches (electric) for signals (electric); supervision (control) apparatus (electric); pre-formed floor ducts of metal (electric); terminals (connectors) for electric cables; solar collectors for electricity generation; apparatus for testing electrical components; ceramic components for electrical apparatus; electric apparatus incorporating resonators; electric edge sealing apparatus for packing; electric indicating (supervision) apparatus; electric devices for displaying information; electrical apparatus for measuring purposes; insulating plates for electrical components; measuring instruments for electric circuits; materials for electrical screening purposes; metal direction indicator panels (electric); musical score layout apparatus (electrical); pick-ups for electrical musical instruments; electrically controlled steering activators; electrically operated fluid control devices; electrically operated fluid flow regulators; flexible ducting containing electric cables; glass fibre conduits for electricity cables; electrical apparatus for the output of data; electrical apparatus for transmitting sound; electrical connectors for electrical cables; electrical controlling apparatus for motors; electrical

devices for transmission of data; electrical drives for controlling apparatus; electrical enclosures made from sheet steel; electrical instruments for monitoring light; electrical instruments for monitoring sound; electrical interference avoidance apparatus; electrical switching for monitoring devices; electrical switches for automobile controls; electrical tape jigs (measuring instruments); electrical devices for the switching of data; electrical connectors for electronic modules; electrical cables for lighting installations; electrical coils for incorporation into fans; fluorescent lamp ballast for electric lights; flexible bus bars being electrical apparatus; electrically operated desoldering hand piece; machines for operating turnstiles (electric); insulated cable for electrical installations; electric control apparatus for servo systems; electric control apparatus for machine tools; electric apparatus incorporating oscillators; display apparatus (electrical or electronic); apparatus for testing electrical instruments; apparatus for electrical signal transmission; silicon rubber layered electrical connectors; terminals (connectors) for electrical wiring; televisions; car televisions; television sets; television films; television outlets; television screens; television aerials; television cameras; television decoder; plasma televisions; digital televisions; television antennas; television monitors; television receivers; television recorders; television apparatus; stands for televisions; television instruments; aerials for television; television transmitters; television camera tubes; apparatus for television; closed circuit television; television receiving sets; television receiving dishes; television display monitors; cable television converters; filters for television sets; high definition televisions; television display apparatus; television transmitting sets; television signal amplifiers; cable television transmitters; cable television installations; recordings of television films; television receiving apparatus; television receivers [tv sets]; television modulation duplexers; television monitoring apparatus; television standards converters; television aerials for vehicles; projection television apparatus; microscope television apparatus; hd (high definition) televisions; printed circuits for televisions; televisions combined with radios; ultra high definition televisions; channel selectors for televisions; closed circuit television cameras; television transmitting apparatus; recorded programmes for television; recordings of television programmes; closed circuit television apparatus; television monitors for medical use; television cameras for surveillance; television apparatus for video discs; television apparatus for video tapes; television receivers for medical use; television frame store synchronizers; mobile television broadcasting units; closed circuit television instruments; cable television head end transcoders; apparatus for television transmission; television monitors for household use; television monitors for industrial use; television receivers for household use; satellite television signal scramblers; plasma display panel (pdp) televisions; video apparatus for television studios; motion picture films for television use; mounting devices for television cameras; extension leads for televisions aerials; television receivers for industrial use; television films prepared for video use; television films prepared for exhibition; television signal transmission apparatus; satellite television receiving apparatus; satellite television signal descramblers; liquid crystal display (lcd) televisions; receivers for receiving cable television; electronic television satellite apparatus; antennas for receiving television signals; television cameras for undersea surveying; televisions incorporating video recorders; terminals (connectors) for television sets; television cameras for undersea inspection; cable television apparatus and instruments; housings for use with television apparatus; printed electronic circuits for televisions; television display monitors for medical use; repeaters for radio and television stations; television display apparatus for medical use; coin-operated mechanisms for television sets; closed circuit television security apparatus; television display monitors for household use; television

cameras for use in weapons systems; silicon target vidicon for television cameras; television cameras for the inspection of pipes; television display monitors for industrial use; television display apparatus for household use; television receiving apparatus for medical use; closed circuit television monitoring apparatus; cases adapted for television display apparatus; electrical apparatus incorporating televisions; wall mountings adapted for television monitors; wall mountings adapted for television apparatus; television display apparatus for industrial use; television cameras for the inspection of drains; televisions incorporating high definition tuners; wall mountings adapted for television instruments; television receiving apparatus for industrial use; dmb (digital multimedia broadcasting) televisions; remote control apparatus for use with televisions; cable television subscriber receiver descramblers; closed circuit television monitoring installations; program memory cartridges for television game sets; television cameras for the inspection of buildings; television cameras for the inspection of structures; portable cameras for use in television broadcasting; apparatus for recording television signals on discs; sound adapters being parts of television instruments; television transmitting apparatus for industrial use; satellite television integrated receiver descramblers; apparatus for inserting text into television pictures; electrical components for use with television aerials; hard drive recorders for use with television receivers; video cameras for use in integrated television editing; video cameras for use in television transmission suites; electrical components for use with television apparatus; education apparatus connectable to television receivers; digital video apparatus for professional television use; coaxial cables for use in cable television installations; coding installations for subscription television channels; microwave antenna for the reception of television signals; music centres incorporating radio and television receivers; apparatus for transmitting television signals via satellite; cordless telephones combined with television remote controls; closed circuit television surveillance cameras to detect fire; satellite television transmission uplink scrambling apparatus; television apparatus incorporating sound reproducing apparatus; apparatus for transmitting film images onto television screens; cables for transmitting and receiving cable television signals; controlled access security apparatus (closed circuit television); synthesizers for colouring monochrome television picture sources; transmitting and receiving apparatus for television broadcasting; transmitters for use in the transmission of television programmes; cable converters for television being telecommunications apparatus; converters being telecommunications apparatus for television signals; portable cameras for making video programmes for television broadcasting; televisions incorporating clocks with light emitting diode digital displays; ear phones; door phones; cell phones; phone plugs; entry phones; video phones; mobile phones; digital phones; internet phones; cellular phones; cell phone cases; phone appliances; mobile phone sets; cell phone straps; mobile phone cases; mobile phone covers; mobile phone straps; phone extension jacks; phone extension leads; entry phone apparatus; cases for mobile phones; straps for mobile phones; hands free kits for phones; keyboards for mobile phones; flip covers for smart phones; cases adapted for mobile phones; leather cases for mobile phones; stands adapted for mobile phones; mobile phones for use in vehicles; holders adapted for mobile phones; carriers adapted for mobile phones; phone covers (specifically adapted); hands free devices for mobile-phones; downloadable graphics for mobile phones; downloadable ring tones for mobile phones; dustproof plugs for jacks of mobile phones; devices for hands-free use of mobile phones.

Application for a series of two marks.

Class 03

Soaps; perfumery; essential oils; cosmetics; hair lotions; dentifrices; cosmetic preparations; cosmetic skin care products; toiletries; cosmetic preparations for hair care; preparations for the care of the scalp and hair; gels, sprays, mousses and balms for hair styling and hair care; lotions, creams and preparations for care of the face, body, scalp, nails and hair; skin toners; eye make-up; eye make-up removers; foundation make-up; facial make-up; beauty balm creams.

Class 05

Nutritional supplements; mineral food supplements; fibre supplements; vitamin supplements; pharmaceutical preparations; sanitary preparations for medical purposes; dietetic food and substances adapted for medical use; food for babies; dietary supplements for humans; vitamins.

Class 09

Computer software; application software for smartphones; downloadable computer software programs; apparatus for recording, transmission or reproduction of sound; compact discs; pre-recorded dvds; usb flash drives.

Class 10

Esthetic massage apparatus; thermal massage pads; vibration generating apparatus for massage; massage mitts; massage apparatus; massage appliances; instruments for massage; infrared apparatus for medical purposes; electro-medical apparatus for slimming and firming treatments; apparatus for the treatment of cellulite; laser light treatment apparatus for medical use; medical lasers for skin treatment; electrical heating apparatus for medical (therapeutic) use; heat therapy apparatus; heat wrap massage apparatus.

Class 25

Clothing; footwear; headgear; corsets [underclothing]; corsets [foundation clothing]; bridal gowns; lingerie; body shapers [undergarments]; underwear; bras.

Class 35

The bringing together, for the benefit of others, of cosmetics, clothing, undergarments and health supplements (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail, wholesale outlet or general merchandise web site in the global communications network; advertising; marketing; business management; business management consultancy; sales promotion services; human resource consultancy; business planning consultancy; accountancy; business administration; office functions; retail and wholesale services relating to cosmetics, clothing, undergarments and health supplements; collection of data; database management; data handling; data processing; updating, systematization and maintenance of data in computer databases; business advice and consultancy relating to franchising;

cleaners; cooling radiators for motors and engines; coolers for motors, compressors or blowers; air condensers; condenser installations; de-aerators being parts of machines; oil separators being parts of machines, including de-oilers for separating oil from air; fittings for compressors and machines; fittings for engine boilers; taps being parts of machines or motors; seals being parts of machines; compressed air main charging systems (control devices for the regulation of compressed air, being parts of machines); compressed air reservoirs being parts of machines; regulators being parts of machines; speed governors for machines and motors; pressure regulators being parts of machines; valves being parts of machines, including pressure valves; pressure reduction valves being parts of machines; pneumatic controls for machines and motors; motors, other than motors for land vehicles; electric motors, other than for land vehicles; generators of electricity; machine housings; mounts for machines; stands for machines; tables for machines; couplings and driving belts, other than for land vehicles; gear boxes, other than for land vehicles; ball-bearings; shaft couplings being machines; cranks being parts of machines; crank shafts; machine wheels; axles for machines; pump diaphragms; superchargers; turbo compressors; fans for motors; antipollution devices for motors and/or compressors, being parts of machines and motors; heat exchangers being parts of machines; parts of all the aforesaid goods, included in this class; safety accessories for compressors, namely safety valves, regulating valves; compressed air reservoirs being parts of compressors, machines and motors; control and regulating devices for compressors, blowers or vacuum pumps; apparatus and devices for machine control; regulating and safety accessories for compressors.

Class 09

Electric and/or electronic control and regulating devices for compressors, blowers, vacuum pumps, or air treatment apparatus and air treatment devices; electric and/or electronic apparatus and devices for process control and machine control; electric and/or electronic devices for the remote control of industrial processes; electric and/or electronic regulating devices for compressors, blowers and vacuum pumps, included in this class; electric and/or electronic control devices for compressors, blowers and vacuum pumps, included in this class; electric and electronic components and units, included in this class; integrated circuits; electronic and/or optoelectronic components and units, included in this class; apparatus and instruments for weak-current engineering, namely for telecommunications, high-frequency engineering, measurement engineering and control engineering; apparatus and instruments for power engineering, namely for conducting, transforming, storing, regulating and control; measuring devices, automatic time switches, automatic weighers; data processing devices and apparatus, including data acquisition equipment and data acquisition apparatus; computer programs recorded on data carriers and/or in data memories; computers and installations consisting entirely or mainly thereof; computer output equipment, including printers, recorders, plotters, terminals, screens, other visual display and feeler units; apparatus and devices for data transmission, including installations consisting entirely or mainly thereof; data memories, namely floppy discs, magnetic hard discs and magnetic tapes, magnetic bubble memories, solid-state memories, tape decks, optically and/or mechanically encoded storage discs and storage tape systems; electrotechnical and electronic apparatus and devices, included in this class; sensors for the acquisition of physical quantities, included in this class; devices for the recording, transmission and reproduction of sound, images and data; parts of all the aforesaid goods, included in this class.

Class 11

Apparatus, devices and machines for air treatment, including for compressed air conditioning, mainly for the separation and deposition of solid and/or liquid contamination of the compressed air; air filtering installations, except those for installation in vehicles and caravans, yet not except those for installation in portable compressors; air purifying apparatus and air purifying machines; air dryers, including compressed air dryers; desiccant (adsorption) dryers; refrigeration dryers; membrane dryers; drying apparatus and drying installations; drying devices; refrigerating apparatus, refrigerating machines and refrigerating installations in connection with apparatus, devices or installations for generating, distribution and/or preparation of compressed air; air cooling devices; air coolers, including compressed air coolers; condensate drains for compressed air applications being parts of refrigerating devices; heat exchangers, included in this class; apparatus and machines for the treatment of condensate water by means of purification and/or filtration; air filters for air conditioning; filters being parts of household or industrial installations; filter systems, including air filtering installations; compressed air filters; dust filters for use in compressed air installations; air purifying lamps having a germicidal effect; apparatus and devices for the sterilization of air; regulating and safety accessories for gas devices; taps for pipes; control and regulating devices for air treatment apparatus and air treatment devices; compressed air reservoirs being parts of the aforesaid goods of class 11; parts of all the aforesaid goods, included in this class.

Class 16

Manuals; paper, cardboard and goods made from these materials, included in this class; printed matter; photographs; computer programs in printed form.

Class 37

Construction of compressed air generation systems, compressed air distribution systems and compressed air treatment systems; installation, repair, maintenance and care of the goods mentioned in Classes 6, 7, 9 and 11 of this application; installation services relating to apparatus, devices and installations for compressed air generation, compressed air distribution and compressed air treatment; installation and repair of compressors and compressor installations; plumbing; installation, maintenance and repair of machines for and/or in connection with compressed air generation, compressed air distribution and compressed air treatment; cleaning of compressors and compressed air installations; installation and repair of pipes, namely of pressure pipes; rental of air compressors.

Class 39

Distribution and supply of compressed air for third parties.

Class 40

Generation of energy and of compressed air; consultancy services for third parties in the field of generation of energy or of compressed air; air purification; air freshening (air conditioning); rental and leasing of installations serving the generation of energy or of compressed air; generation of compressed air for third parties.

Class 41

Training and further training of engineers, including in the field of compressed air, compressors and compressed air applications; education; providing of training; film production; arranging and conducting of

conferences and seminars.

Class 42

Technical planning of installations serving the generation, conduction, storing, release and/or treatment of compressed air; technical consultancy in relation to the development of technologies and technical components for compressed air systems; scientific and industrial research; computer programming; engineering services; construction drafting; technical project studies; quality control; preparation of reports relating to engineering consultancy services; material testing; all of the aforesaid services exclusively in the fields of compressed air generation, compressed air distribution and compressed air treatment; engineering consultancy services in the field of compressed air generation, compressed air treatment and compressed air distribution; research in the fields of compressed air generation, compressed air treatment and compressed air distribution.
