REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 01

Graphite grit; americium; fissionable material for nuclear energy; neutron-absorbing materials, in particular boron, cadmium, silver nitrates; gadolinium; gallium; getter; graphite for industrial purposes; titanium dioxide; zirconium dioxide; titanium dioxide for industrial purposes; zirconia; uranium dioxide; moderating materials for nuclear reactors; moderators of neutrons, in particular, chemical compounds used to reduce the energy of the neutrons passing through them in order to facilitate detection of neutrons; isotopes for industrial purposes; californium; carbide; catalysts; silicon; filtering materials [chemical preparations]; toxic gas neutralizers; nitrate of uranium; aluminum oxide; uranium oxide; cobalt oxide; detergents for industrial purposes; plutonium; surfactants surface-active chemical agents; biological preparations, other than for medical or veterinary purposes; plant growth regulating preparations; natural and enriched uranium and uranium products (ingots, powder, uranium oxide, tetrafluoride, uranium hexafluoride, uranium oxide concentrate, fluohydric acid, anhydrous hydrogen fluoride (AHF); radon; fissionable chemical elements; rare earth metals (holmium, dysprosium, ytterbium, yttrium, lanthanum, neodymium, praseodymium, samarium, scandium, terbium, thulium, cerium,

erbium); mercury; salts of precious metals for industrial purposes; gold salts; salts from rare earth metals; salts of alkaline metals; fireproofing preparations; water glass; thallium; fuel for atomic piles; carbon; fertilizing preparations; phosphorus; chemicals preparations for metal tempering and soldering; chemicals for use as splitters in nuclear reactions; water purifying chemicals; chemical preparations in particular solvents, extractant, complexants, resins, nitrogen compounds, sulphide, fluohydric compounds, natron, ammonium, oxidants and release agent for nuclear industry and engineering); chemical products for industrial and scientific purposes, including rare earths elements, vanadium oxide, amorphous quartz, counterdoped silicon, stable isotopes and radioactive nuclides, extra pure substances; chloride of calcium; alkaline earth metals, namely barium, tellurium, lithium, lithium hydroxide, rubidium, strontium, caesium); radioactive elements for scientific purposes; elements of the nuclear fuel containing tablets of fissile materials; blueprint paper.

Class 02

Anti-corrosive preparations; protective preparations for metals; paints; dyes; lacquers; lacquer coat.

Class 04

Oils, greases and lubricants for use in the nuclear industry and engineering; fuel [including motor spirit] and illuminants; electrical energy.

Class 05

Radioactive substances for medical purposes; isotopes for medical purposes; dressings, medical; surgical dressings; biological preparations for medical purposes; radium for medical purposes; radioactive pharmaceuticals and reagents for the production of non-radioactive radiopharmaceutical for use in in vivo diagnostic or therapeutic purposes; radon solid concentrates for medical purpose; preparations for use in nuclear medicine and drugs for use in nuclear medicine; surgical tissues.

Class 06

Goods of common metals and their alloys, except those provided for in other classes; manganese; containers of metal; metal cables (non-electric) and wires for the nuclear industry and engineering; metals in powder form; nickel; common metals cored wire in the form of metal tubes in steel alloys; molds; rolled metal forms of hafnium and its alloys; rolled metal forms of niobium; rolled metal forms of zirconium alloys; rolled metal forms of titanium and its alloys; ores of metal; alloys of niobium and titanium; zirconium alloys; steel alloys; tantalum; pipes (technological channels of nuclear reactors); refractory metals (beryllium, vanadium, wolframium hafnium, germanium, indium, molybdenum, niobium, titanium, zirconium); chromium; magnesium-calcium alloy.

Class 07

Pumps (machines); valves for industrial equipment; valves [parts of machines]; generators of electricity engines, other than for land vehicles; pressure valves [parts of machines]; valves for nuclear power plants and ships machine, namely, to deactivate and uninstall the nuclear installations; metal cutting machines; pumps, centrifugal particularly for the nuclear industry and engineering; drilling machines; drilling machines for metal treating; machines for

metalworking industry; turbines for use in the nuclear industry and engineering; centrifuges (machines) for use in the nuclear industry and the energy sector, including gas centrifuges, centrifuges for enriching uranium and the separation of isotopes; electrical drives.

Class 09

Apparatus for recording, transmission, processing and reproduction of sound, images and other data; calculating machines, data processing equipment and computers; computer programs and computer software for use in the nuclear industry and engineering; computer software for monitoring and control of production processes in the factory; electromagnets; electronic and optical apparatus and instruments, such as computers and video monitors, scales, set squares, lasers, portable meters and measuring tape for inspection, monitoring, weighing and measuring of physical and geometrical parameters in the industrial facilities in the field of nuclear energy, namely, the production of nuclear power and nuclear fuel cycle, connectors and electronics; electronic semiconductor; decontamination apparatus for power plants that are contaminated with radioactive materials; equipment for non-destructive testing of materials at power plants; electronic chips; magnetic wires used for the manufacture of electromagnets; magnets for industrial use; quantum impurity, namely crystalline semiconductor materials; scientific, optic, weight, measuring, inspecting, controlling, topographic, detecting, testing, analyzing and information apparatus and instruments, in particular for construction, service, support, putting out of operation and repair of industrial objects, electric stations, nuclear vaults, equipment for nuclear fuel manufacturing, equipment for nuclear fuel processing, equipment for nuclear fuel storage and equipment for nuclear wastes storage for scientific research use, industrial research, research and development of new products and materials testing; semi-conductor integrated circuit; semi-conductor devices; semiconductor memory devices; semi-conductors; conductors, electric; structured wafers; superconducting tapes; superconducting wires and cables; superconductors; test and measurement equipment for testing the performance and efficiency of power plant equipment; electric accumulators; equipment (instruments) of the automated system of radiation monitoring at nuclear power plants; equipment (instruments) of neutron flux reactor nuclear power plant; equipment (devices) to control radiation safety at nuclear power plants; equipment (devices) display and logging of inspection results on nuclear thermostats; electro-dynamic apparatus for the remote control of signals; instruments and apparatus for x-ray radiation, except those used for medical purposes, in particular linear particle accelerators to produce high-energy x-ray radiation and x-ray images for use in verification, materials testing, industrial use and for safety reasons; radiation control apparatus and equipment (other than medical use); radiological apparatus for industrial purposes (other than medical use); electronic equipment for the nuclear industry and engineering; battery jars; rechargeable batteries; galvanic batteries; betatrons; gas testing instruments; generators of short-lived isotopes; sensors for the nuclear industry and energy; radiation detectors containing air and gas fans; dosimeters; battery cases; lasers, not for medical purposes; conductors electronic; liquid crystal; neutron generator based on charged particle accelerators; apparatus for use in laboratory; clothes, shoes, hats, helmets, masks against radiation exposure; plates for batteries; items of protective clothing for protection against accidents and injuries for use with radioactive materials to prevent radiation exposure; preamplifiers; instruments

for measuring and recording of nuclear radiation, including detection units; measuring instruments, including instruments measuring electric; radar apparatus; radiology instruments, in particular, linear particle accelerators to produce high-energy x-ray radiation and x-ray images for use in verification, test materials, industrial applications and use for safety purposes; radiometers; radios; x-ray machines, except for medical purposes; lattice accumulators; management and control systems for nuclear power plants; sonars; spectrometers; material testing instruments to obtain information about the properties of the test materials; particle accelerators; installations for the remote control of production processes in industrial plants; chemistry apparatus and instruments; position controllers for thermonuclear fusion; cathodic anti-corrosion apparatus; signaling devices [security alarm]; cyclotrons; screens of x-ray machines used for industrial purposes; galvanic cells.

Class 10

Electromagnetic medical diagnostic imaging devices; apparatus for the high-frequency electromagnetic therapy; lasers for surgical and medical purposes; apparatus for the low-frequency electromagnetic therapy; diagnostic apparatus for magnetic resonance imaging; medical apparatus and instruments used for positron emission tomography; medical equipment, namely, equipment for computer tomography; diagnostic imaging devices used in nuclear medicine; nuclear spin tomography scanners for medical purposes; equipment for radiotherapy, used for medical purposes; x-ray tubes for medical purposes; x-ray apparatus for medical purposes; linear accelerators for malignant tumors treatment by radiation; medical devices (including devices for the preparation of radon solid concentrates), and tools; electromagnetic medical devices; medical radiological equipment; apparatus and instruments surgical, medical, dental and veterinary, artificial limbs, orthopedic articles; protection devices against x-rays, for medical purposes.

Class 11

Air filtering installations; apparatus and instruments for use in cleaning, separation and purification of fluids and gases used in the nuclear industry and engineering; filters and filtering devices for air and gas conditioning; nuclear generators; nuclear power plant; water filtering apparatus; devices for water filtering in the nuclear industry and engineering; research nuclear reactors; components for nuclear reactors; modular nuclear facilities, including fuel and steam generators, reactor vessel, reactor head, control rod drive mechanism; nuclear reactors; light-emitting diodes [LED] lighting apparatus; cooling systems for nuclear waste and spent fuel; installations for the reprocessing of nuclear fuel and nuclear moderators, and nuclear waste; installations for filtering [parts of household or industrial installations] including for removal of nuclear materials.

Class 12

Vehicles land, air or water, in particular, air-cushion vehicles, aircrafts, airplanes, all-terrain tracked self-propelled vehicles for the transport of goods, vehicles, amphibious armored vehicles, electric vehicles and their structural parts; space vehicles; electric motors.

Class 13

Ammunition; projectiles explosives; explosives, including device for

explosion; firearms.

Class 14

Precious metals and its alloys, including gold, unwrought or beaten; ingots of precious metals.

Class 16

Graphic prints and representations, in particular design drawings, plans, sketches, photos; instructions, printed teaching and study materials in nuclear engineering; office requisites, in particular adhesive tape dispensers, correcting fluids, pens, pencils, rubbers, punches, staplers, clasps; paper, cardboard and goods that are not included in other classes, namely, albums for labels, coin albums, holiday albums, albums for photographs, commemorative albums, albums for stamps, letterhead, note pads; printed publications, namely, manuals on projecting, guidance on the design, technical guidelines, manuals, periodicals in the field of nuclear energy; printing sets, portable [office requisites]; albums; forms, printed; note books; pamphlets; booklets; typing paper; newsletters; waxed paper; magazines [periodicals]; calendars; index cards; registration cards for registration; catalogues; envelopes; carbon paper; wrapping paper; stationery; prospectuses; educational materials, training aids (other than apparatus), printed study publications for nuclear industry and engineering; filter paper; photographs [printed]; printing type; drafting paper.

Class 17

Caulking materials; plastic films for industrial and commercial use; materials for sealing and insulation; semi-finished plastic for industrial purposes; non-conducting materials for retaining heat; insulating oils; insulating glass; flexible tubes, not of metal.

Class 19

Non-metallic transportable buildings for security systems; modular and portable non-metallic and non-metallic construction building materials, in particular, cement blocks, tiles, doors, pillars, slabs, panels, pipes for uranium mines and storage, storage, isotope separation, processing, reprocessing and disposal of nuclear materials, uranium, plutonium, and nuclear waste; water-pipes, not of metal; earthenware pipes; ducts, not of metal, for ventilating and air-conditioning installations; outgoing non-metal pipes; non-metal pipes for uranium mines, plants and storages, storekeeping, isotopic separation, processing, recycling and utilization of fuels, ores, nuclear materials, uranium, plutonium and nuclear wastes.

Class 35

Advertising services, in particular promotion of goods, services, logos and commercial information, third parties' news by means of printed, audio, video and digital mass media; advertising services; assistance and advice in the management of companies in the energy sector; corporate services, in particular the promotion of the interests of the nuclear industry industries and energy; administrative activities in the field of business and management consultancy business; administrative activities in the field of business and office management; advice on the administration in the field of business; assistance on administrative activities in the field of business; inquiries and investigations in the field of business; marketing business services; development services in the field of business strategy; commercial and

industrial management assistance; business management; assistance in the management of the corporation; economic forecasting; agency for export and import; marketing consultancy; development of a marketing plan; marketing services, in particular the promotion and advertising of products and services of third parties; marketing research; advice on business organization and management; organization of exhibitions for commercial or advertising purposes; collection and systematization of information in computer databases; business analysis services.

Class 36

Financial analysis; financial consultancy; investment funding management; financial management in nuclear industry and engineering related areas; advertising sponsorship of cultural activities in the nuclear industry and energy; financing services; issue of tokens of value; financial sponsorship; financial examination, analysis, information and management, consultancy regarding nuclear industry and engineering.

Class 37

Provision of information on construction and renovation of buildings; services for the construction, installation, maintenance and repair of vehicles, equipment, infrastructure and nuclear power plants generate electricity; installation, construction and repair of storage facilities, including storage of radioactive waste; construction of plants for uranium separative work; installation services and maintenance of the equipment to monitor and ensure safety at nuclear power plants and power generation; uranium mining extraction; drilling of wells; restoration of [repair] machines for nuclear power plants for nuclear storage facilities, facilities for the production of nuclear fuel for the plant for reprocessing nuclear fuel storage facilities for nuclear materials, facilities for the storage of waste for mines, for plants and storage centers, processing, reprocessing and disposal of nuclear fuel, ores, nuclear materials, uranium and plutonium; repair of recovery steam generators, turbines, turbo-generators, electric generators, electric cars at the plant; restoration of nuclear reactors, water reactors, machinery for the production, processing and reprocessing of nuclear fuels, metal ores, uranium ores, plutonium (nuclear materials); mining extraction information and advice on the construction of uranium enrichment plants, installation, repair and maintenance of equipment to enrich uranium and uranium isotope separation; provision of information on the construction of plants for the separation of uranium isotopes; provision of information on the installation, repair and maintenance of equipment for the separation of uranium isotopes; building construction and supervision; anti-corrosion treatment; battery charging services, radiation equipment charging and recharging services; quarrying services; repair or maintenance of nuclear power plants, and related information; repair of pumps; factory construction, including construction of uranium enrichment plants, nuclear power plants and facilities for radioactive vessels; construction, maintenance, repair and decommissioning and/or closure services in relation to nuclear power plants, facilities for the production of nuclear fuel reprocessing facilities for nuclear fuel storage facilities for nuclear materials and facilities for the storage of waste, mines, factories and storage centers and processing centres; installation maintenance, repair and decommissioning services of nuclear reactors and pressurized water reactors, facilities that produce nuclear fuel; installation, building and commissioning (restoration) services of nuclear power plants, nuclear thermal power

stations; installation and commissioning (construction and restoration) of radioisotope devices; installation and repair of heating equipment; installation and repair of air conditioning equipment; installation and repair of electrical appliances; installation, commissioning (construction and restoration) and maintenance services of instruments for scientific purposes; installation, maintenance and repair of machinery to monitor and ensure the safety of the nuclear industry and energy; installation, maintenance and repair of radioisotope devices, radiation devices related to the nuclear industry and energy; installation, maintenance and repair of energy producing machines; installation, maintenance and repair of machines and apparatus for the distribution and control of energy and energy related information; installation, maintenance and repair of radiological devices; installation, maintenance and repair of alarm devices; installation, repair and maintenance of machinery, including nuclear power plants, nuclear storage facilities, facilities for the production of nuclear fuel reprocessing facilities for nuclear fuel storage facilities for nuclear materials and facilities for the storage of waste; installation, repair and maintenance of equipment for uranium enrichment and uranium isotope separation; interference suppression in electrical apparatus; advice on construction including projects in the construction of plants for uranium enrichment.

Class 38

Computer data transmission; internet data transmission; providing telecommunications connections; providing telecommunications connections to a global computer network and/or search systems on the Internet; telecommunications routing and junction services; electronic mail; provision of information on remote communication; rental of telecommunication equipment; communications by fiber [fibre] optic networks; cellular telephone communication; communications by computer terminals; satellite transmission; telecommunication services, such as transmission lines, local and long distance sound, images and information in the field of nuclear energy and industry, through private computer networks, internet and intranet and radio, telephone and telegraph communication services in areas related to nuclear industry and engineering.

Class 39

Provision of information on transportation, including transportation of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium oxide, uranium hexafluoride, plutonium fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges to separate isotopes uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; provision of information on storage of goods in warehouses, including the storage of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium oxide, uranium hexafluoride, plutonium fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges for the separation of isotopes of uranium and equipment for the construction of plants for uranium enrichment, spent nuclear fuel and irradiated nuclear fuel assemblies; provision of information on packaging of natural uranium, enriched uranium, depleted uranium, uranium oxide, uranium dioxide, uranium oxide, uranium hexafluoride, plutonium fuel for nuclear reactors, isotopes for medical and industrial purposes, centrifuges to separate isotopes of uranium and equipment for construction of plants for uranium enrichment, spent fuel and irradiated fuel assemblies;

blinds of reed, rattan or bamboo (sudare); bead curtains for decoration; oriental single panel standing partition (tsuitate); oriental folding partition screens (byoubu); benches; mannequins; costume display stands; picture frames; plaster sculptures; plastic sculptures; wooden sculptures; Japanese food wrapping sheets of wood as materials (kyogi); bamboo (unworked or partly worked material); bamboo skins (unworked or partly worked material); unworked or semi-worked vines for plaiting; rattan (unworked or partly worked material); reeds (raw or partly worked material); rushes (raw or partly worked material); onigaya hay (raw or partly worked material); sedges (unworked or partly worked material); straw of wheat, barley or oats; rice straw; tusks (raw or partly worked material); whalebones; shells [unworked or partly worked material]; artificial horns; ivory (unworked or partly worked material); animal horns; animal teeth; tortoiseshells (unworked or partly worked material); animal bone (unworked or partly worked material); coral (unworked or partly worked); wind chimes; rice chests; bathroom stools.

Class 21

Unworked or semi-worked glass (not for building); tub brushes; metal brushes for kitchen use; brushes for pipes; industrial brushes; ship-scrubbing brushes; industrial packaging containers of glass for food; industrial packaging containers of glass or porcelain; cooking pots and pans (non-electric); coffee pots (non-electric); Japanese cast iron kettles, non-electric (tetsubin); kettles (non-electric); tableware other than knives, forks and spoons; mugs (not of precious metal); cups; lunch-boxes; salad bowls; drinking glasses; decanters; canisters; portable coldboxes (non-electric); food preserving jars of glass; drinking flasks (for travellers); vacuum bottles (insulated flasks); bowls (basins); ice pails; whisks (non-electric); cooking strainers; pepper pots; sugar bowls; salt shakers; egg cups; napkin holders; napkin rings; trays; toothpick holders; colanders; shakers; Japanese style cooked rice scoops (shamoji); hand-operated coffee grinders and pepper mills; cooking funnels; Japanese style personal dining trays or stands (zen); bottle openers; cooking graters; tart scoops; pan-mats for kitchen use; chopsticks; chopstick cases; ladles and dippers for kitchen use; cooking sieves and sifters; chopping boards for kitchen use; rolling pins (for cooking purposes); grills (cooking utensils); toothpicks; lemon squeezers (citrus juicers); waffle irons (non-electric); cleaning tools and washing utensils; ironing boards; perfume sprayers; ironing boards (kotodai); stirrers for hot bathtub water (yukakibo); bathroom pails; candle extinguishers; candlesticks; flower pots; watering cans; feeding vessels for pets; brushes for pets; indoor aquaria and their fittings; birdcages; bird baths; clothes brushes; chamber pots; toilet paper holders; piggy banks (not of metal); boxes of metal for dispensing paper towels; bootjacks; soap dispensers; dustbins and trash cans for domestic use; flower vases; flower bowls; upright signboards of glass or ceramics; perfume burners; toothbrush cases; soap holders and glass boxes; glass boxes and containers for cotton pads; cosmetic and toilet utensils; electric toothbrushes; shoe brushes; shoe horns; shoe shine cloths; handy shoe shiners (brushes); shoe-trees (stretchers); portable cooking kits for outdoor use; Japanese charcoal extinguishers (hikeshi-tsubo); drinking straws; polishing cloth for false nails; spectacle wipes [eyeglasses].

Class 23

Yarns and threads, for textile use.

Class 24

Fabrics for textile use; woven fabrics; knitted fabrics; felt and non-woven textile fabrics; oilcloth; gummed waterproof cloth; vinyl coated cloth; rubberized cloth; filtering materials of textile; face towels of textile; handkerchiefs of textile; towels of textile; woven textile goods for personal use;

mosquito nets; bedsheets; futon quilts; futon and quilts cases (linen); futon ticks (unstuffed futon); pillowcases (pillow slips); blankets; table napkins of textile; dish towels for drying; shower curtains; banners and flags (not of paper); toilet seat covers of textile; tapestry of textile; table runners; seat covers of textile; wall hangings of textile; curtains; table cloths (not of paper); draperies (thick drop curtains); labels of cloth.

Class 25

Clothing; non-Japanese style outer clothing; coats; jackets; pants; trousers; vests; sweaters; shirts; nightwear; underwear (underclothing); swimwear (bathing suits); swimming caps (bathing caps); camisoles; jerseys; knitwear; skirts; T-shirts; parkas; Japanese traditional clothing; sleep masks; aprons (clothing); collar protectors (for wear); socks and stockings; shawls; scarves (scarfs); gloves and mittens (clothing); neckties; bandanas (neckerchiefs); mufflers; ear muffs (clothing); hoods; nightcaps; headgear for wear; hats; caps; garters; sock suspenders; suspenders (braces); waistbands; belts for clothing; footwear; shoes and boots; slippers; sandals; Japanese style wooden clogs (geta); Japanese style sandals (zori); masquerade costumes; clothes for sports; boots for sports; anoraks; wristbands; gymnastic shoes; golf shoes.

Class 27

Bath mats for wash places; Japanese rice straw mats (tatami mats); floor coverings; wall hangings (not of textile); artificial turf; gymnastic mats; wallpaper.

Class 28

Toys for domestic pets; toys; dolls; go games; Japanese playing cards (utagaruta); Japanese chess (shogi games); dice; Japanese dice games (sugoroku); dice cups; diamond go games; chess games; checkers (checker sets); conjuring apparatus; dominoes; playing cards; Japanese playing cards (hanafuda); mah-jong; game machines and apparatus; billiard equipment; sports equipment; fishing tackle; insect collecting implements, namely, butterfly nets; toys for domestic animals.

Class 30

Aromatic preparations for food; black tea (English tea); herbal tea (other than for medical use); tea bags for making non-medicated tea; tea; coffee and cocoa; confectionery, bread and buns; seasonings (other than spices); spices; cereal preparations.

Class 35

Retail and wholesale services in the fields of woven fabrics and beddings, curtains, bed and table covers, tapestry of textile, clothing, headgear, footwear, bags and pouches, trunks, personal articles, combs, face towels of textile, handkerchiefs of textile, towels of textile, fabric, textiles, hand-held flat fans, stocking suspenders, sock suspenders, suspenders (clothing), wrist bands, sweatbands, expanding bands for holding sleeves, belts, ornaments (jewellery, jewelry (am.)), earrings, necklaces, rings, bracelets, chains (jewellery), charms (jewellery), key rings (trinkets or fobs), badges for wear (not of precious metal), buckles for clothing (not of precious metal), brooches (not of precious metal, clothing accessories), Japanese buckles to bind a broad belt of kimonos (obidome), bonnet pins (not of precious metal), ornamental emblems attachable on clothing, brassards, hoods (clothing), hair bands, buttons, false nails, false eyelashes, shaving utensils cases, pedicure sets, eyelash curlers, manicure sets, ear picks, toilet cases, cosmetic utensils, false beards, ornamental beards, ornamental moustaches, hand implements for hair curling (non-electric), non-electric hair curlers (excluding hand implements), umbrellas, ferrules of metal for walking sticks, canes, metal parts of canes and

walking-sticks, walking stick handles, furniture, umbrella stands, joinery fittings, tatami mats, electrical machinery and apparatuses, lighting apparatus, household electrothermic appliances, bladed or pointed hand tools, hand tools, hardware, kitchen equipment, containers for household or kitchen use, cleaning tools and washing utensils, pharmaceutical, veterinary and sanitary preparations and medical supplies, cosmetics, toiletries, dentifrices, soaps and detergents, agricultural machines, implements and supplies, flowers (natural) and trees, printed matter, paper and stationery, album, notebook, pens, pencils, postcards, envelopes, writing pads, sports goods, toys, dolls, game machines and apparatus, clocks, watches and spectacles (eyeglasses and goggles), tapes (semi-finished), ribbons, knitted fabrics, knitted raschel lace fabrics, embroidery lace fabrics, asbestos felt, felt and non-woven textile fabrics, bath fittings, stirrers for hot bathtub water (yukakibo), bathroom stools, bathroom pails, shower curtains, bath mats for wash places, candle extinguishers, candlesticks, stakes for plants or trees, flower pots, hydroponic apparatus for domestic horticultural purposes, watering cans, urinals (for medical purposes), bed pans, toilet stool units with a washing water squirter, disinfectant distributors for toilets, toilet bowls, seatings for use with Japanese style toilet bowls, chamber pots, toilet paper holders, toilet seat covers of textile, towel dispensers, insecticide sprayers (hand tools), boxes of metal for dispensing paper towels, bootjacks, soap dispensers, door mats of metal, tablecloths of paper, blinds (indoor), bead curtains for decoration, window awnings, seat covers of textile, wall hangings, table cloths (not of paper), draperies (thick drop curtains), floor coverings, vases, flower bowls, wind chimes, sculptures of metal, concrete sculptures, marble sculptures, stone sculptures, plaster sculptures, plastic sculptures, wooden sculptures.

Machines for domestic and household use, namely, electronic power operated coffee grinders; mechanical mixing machines; electric food blenders for domestic use; electric juice extractors; electric food processors, and electric food preparation machines, vegetable grinders and slicers; electric motors other than for land vehicles, steam and gas turbines and parts thereof; electric generators and their parts; aircraft engines; gas compressors, air-conditioning compressors; washing machines; gas and electric clothes drying machines; dishwashers; garbage disposers and compactors; electric knives; electric can openers; axial and centrifugal compressors; reciprocating compressors; screw and vane compressors; rotary, vacuum, electric, submersible and centrifugal pumps; turbo expanders, namely, air and electric compressors; Compressed Natural Gas (CNG) refueling machines for land vehicles and industrial equipment and accessories and parts for all the foregoing, namely, pumps, valves, fuel filters, filter casings, distributor rotors, blades, bearings, and mechanical seals; steam condensers; pumps, namely, centrifugal pumps, diaphragm pumps, bellows pumps and process and transfer pumps for water and wastewater treatment systems; regulators being parts of machines; filter cartridges for various industrial machines for filtration applications, namely, for the filtration of beer in the brewing industry, and other specialty chemicals; machines for the feeding and application of chemicals for industrial uses; boat engines, turbochargers for engines, and fuel injectors; vehicle engine parts, namely, high frequency motor spindles with high frequency electric converters and power supply units, rocker arms, push rods, oil coolers, crankcase breathers, oil tanks, ignition parts for internal combustion engines, namely, points, radiators, water pumps, starter motors, pumps for cooling engines, engine bearings, engine camshafts, engine rods and engine mufflers; apparatus, equipment and

instruments for the generation of power, namely, electric generators and wind powered electricity generators; turbines; turbines for power generation; wind turbines for power generation; engines for the generation of electricity, and parts and fittings for all the aforesaid; electrical power generation products.

Class 09

Navigation apparatus for vehicles in the nature of on-board computers; optical inspection apparatus for railway system use; railway signals, namely, crossing warning systems; high-frequency switching power supplies; electrical engine controllers; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices for the rail and transit industries; electrical devices and electrical power distribution products, namely, capacitors, circuit breakers, circuit breaker load centers, circuit closers, circuit interrupters, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supplies, electricity distribution boards and boxes, electricity distribution consoles, electricity switchboards, and switchboxes; computer software for persons who troubleshoot and maintain programmable controllers; computer software for analyzing blood vessels including cardiac vessels which also provides calculation functions with respect to blood vessels; computer software for use with medical patient monitoring equipment; computer software for receiving, processing, transmitting and displaying data, for use in developing personalized asset allocation programs; computer software for collecting data involving vital medical signs; computer software for use in electrical power systems analyses; computer software for regulating and managing vehicle fleet maintenance services; computer software for use by customers to obtain lease portfolio information; computer software for a radiology information system for use by radiologists and radiology departments in the database management of employee and patient information; computer software for graphical user interface; computer software for underground navigation, namely, for navigation of down-hole probe assembly for oil drilling and drilling assemblies for routing underground utilities; telephones; telephone answering machines; cordless telephones, cordless headset telephones; digital messaging systems; televisions; television remote controls; DVD players; DVD remote controls; batteries; electrical power distribution products and electrical voltage and overvoltage surge products, namely, arresters, busways, lighting contactors, controllers, and input/output devices; fuses; lighting controllers; switch boxes; LEDs, namely, light emitting diodes; voltage regulators for electric power; voltage surge protectors; voltage surge suppressors; voltmeters; relays and timers; solenoids and limit switches; full-voltage manual starters; reduced voltage starters; electrical switches and disconnects; circuit board terminal blocks and pumping panels; transformers; electrical lighting and power circuit boards; electrical wires; cables and conductors; electrical wiring and fixtures; lightning arrestors; electricity meters; power meters; grounding resistors; humidity and temperature sensors; industrial calibration sensors; motor control centers; electrical resistance heating wires; electrical controllers; apparatus for electrophoresis not for medical purposes; chromatography columns and pumps; apparatus for conformations systems, namely, computer hardware and software for processing biological information; scintillation counter to measure beta-emitting nuclides; imaging apparatus for radioactive and luminescent emissions, namely, CCD cameras and

scanners; synthesis and purification integrated systems, namely, chromatography columns, cartridges, fraction collectors, mixers, monitors, pumps, recorders, and analysis software; apparatus for microarrays, namely, probes, slides, buffers, bacterial controls, racks, and trays; laboratory glassware; computer software for hospital operating room management; computer software for critical care information management; industrial process control software; computer software programs and program manuals sold as a unit for use in factory management; software for creating graphics displays and editing dynamic data interfaces for real time graphics applications for industrial and business applications; communications software for connecting computer network users; factory automation software for control, monitoring, simulation, communications, data logging and collection, and factory automation; software to integrate manufacturing machine operations, control processes, to provide data for visualization, to track problems and generate production reports; packaged software for use in the operation and programming of grinding machines in the manufacturing industry; industrial process control hardware, namely, computer monitors, laptop computers, ethernet cards and cables; computer networking hardware; memory cards; microchips; microprocessors; computer network hubs, switches and routers; computer displays and terminals; computer whiteboards; system boards and processors; industrial process controller featuring call control, operator interface, gage interfaces, and data collectors; manufacturing execution systems and document management software; digital signal processing products and systems, namely, industrial automation controls and programmable logic controllers; controllers of machine tools, namely, an adaptive control product in the nature of an external controller to optimize machine tool cutting performance of rough and semi-rough cuts; power supplies and mounting hardware; intrusion and burglar alarm systems; security devices, namely, programming logic computers, control panels, electronic intrusion detectors, electronic glass-break sensors, electronic vibration sensors, magnetic contacts for use in security systems, electronic switch plates, electronic motion sensors for alarm systems, electronic motion sensitive switches, hardwire sirens, audio speakers, electronic speaker drivers, access control and alarm monitoring systems; fire, heat, and smoke detecting and alarm units; computer card operated access control systems; card readers, card encoders, and encoded cards for use with card operated access control systems; video cameras; video object recognizers; video object trackers; video license plate readers; video alarm verifiers; video face recognizers; video vehicle recognizers; video traffic detectors; video access door controllers; video intrusion detectors; processing hardware and software that analyzes digital video images to automatically extract, record, and report intelligence; remote video monitoring systems for security and surveillance applications; central video monitors; cameras; short range wireless radio frequency transceivers; power line transceivers; communication control hardware, namely, keypad controllers, matrix switchers, multiplexes, digital video recorders, integrated pan-tilt-zoom domes, remote video controllers, electronic alarms, and management controls and triggers; video transmission devices in the nature of video transmitters sold separately or as part of a system for operating closed circuit cameras; fiber-optic transmission systems, namely, fiber optic transmitters, receivers, and transceivers used in the transmission of video, audio, and data signals over optical fiber; electro-mechanical locks; magnetic locks; electric keys; handheld electronic hardware, namely, handheld programmable units and handheld computers for receiving,

controlling, storing, manipulating, displaying, transmitting data and for operating electronic locks; electronic key fobs and readers and encoders therefor; access keypads; radio frequency tracking tags; tracking and control system comprising one or more radio frequency tags, transceivers, and sensors used to determine and monitor the location and movement of tangible assets, of inventory, and of individuals; infrared sensors; computer hardware and software for facilities management and controlling facility access systems and components therefor, namely, control panels, access card readers, and equipment and systems for video imaging, video monitoring, digital hard drive recording, network transmission and remote access; networked digital video storage servers for access control and surveillance applications, for alarm monitoring applications, and for security applications; computer software and hardware for controlling and operating security and access system comprising locks, doors, and access and identification; devices and security enclosures in the nature of electronic boxes, namely, safes for securing keys; surveillance equipment sold individually as components or together as a system comprising one or more surveillance cameras, covert cameras, close circuit television cameras, camera housings, camera mounts, camera lenses, video monitors, video recorders, digital recorders, video storage media, video switches, control panels, keypad controllers, joystick controllers, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controllers, control panel housing, switch housing, transformer switches, splitters, coaxial cables, connectors, motion detectors, microphones, and speakers; computer user interface software and control software for managing security, fire, and access systems; hand-held electronic computer and communication hardware for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locks; pre-recorded magnetic data carriers featuring identification and security information; data processing software and computer hardware; siren speakers and electronic siren drivers, namely, tone generators and amplifiers adapted to be used for sirens; switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and in home security alarm systems; time or condition sensing apparatus for initiating and controlling regeneration or backwash cycles for water treatment equipment; bioreactors for culturing cells; portable analytical instruments, namely, probes with a microprocessor based data conversion logger for measurement of organic and inorganic chemicals in water; filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane filters for laboratory use; silt density measuring device; deionization units for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters, and regulators for laboratory use; ozone monitors; laboratory equipment, namely, porous microtiter plates for use in cell biology and other life science applications; electronic water and process treatment controls, namely, apparatus for use in the treatment of commercial and industrial water systems, boiler water systems, cooling water systems, closed water systems, fuel processing systems, and metal processing systems to analyze the chemistry of the system, determine the proper treatment program, apply the desired treatment, and monitor the effectiveness of the treatment; computer software for data management in the water treatment field; electronic controllers used for processing information in the water treatment field; apparatus for

use in industrial water systems to measure and control ph and conductivity; electronic apparatus for feeding chemicals to an industrial, commercial, or municipal water system in measured amounts; laboratory testing equipment, namely, deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure ph, conductivity, and chromatic concentration of industrial and domestic waters, to conduct inorganic and microbiological analysis of water; avionic sensor systems, namely, navigation systems; battery chargers; computer hardware and software for use with medical patient monitoring equipment, and for receiving, processing, transmitting and displaying data; computer software for accessing information directories that may be downloaded from the global computer network; computer software for controlling and managing patient medical information; electric control devices for heating and energy management; electrical apparatus, namely, charging stations for charging electric vehicles; electronic signaling mechanism, namely, a train control system used in the railway industry for detecting and controlling trains, ground faults, broken rails, power failures, track switches and lights; electronic sensors for monitoring energy utilization, temperature, position, distance, speed, and acceleration; electrical substations comprised of transformers, circuit breakers, circuit switchers, voltage regulators, fuses, capacitors, relays, rectifiers, and electric power converters; power inverters; electronic control devices for energy management; electronic automation products, namely, electrical routers and electrical hubs; computer software and hardware for the management, distribution, monitoring, and control of energy; automation systems, namely, computer software and hardware and communications devices for planning, scheduling, controlling, monitoring, and providing information on transportation assets and parts thereof; automation systems, namely, computer hardware for embedded operating systems and pc based computer software, for monitoring specified conditions and controlling respective innovative devices within a designated area; computer hardware and software systems for automated train control and traffic supervision, namely, location tracking, vehicle monitoring, vehicle controlling, dispatching, signaling, communication, and data transmission; computer software for management of railway networks; wireless communication devices for voice, data, or image transmission; traffic management equipment, namely, display monitors, computers, auto compasses, and software to manage traffic; computer software for interfacing and interacting with remote control locomotives and locomotive hardware; led traffic and rail signals; electronic fuel level gauges; automated fuel station management systems comprising of computer operating software and rate control panels for fueling land, marine or aircraft vehicles; gas meters; electrical and scientific apparatus, namely, general-purpose high-precision electric computer-controlled valves for use in high-precision flow applications; optical imaging apparatus; microscopes and high accuracy electro-mechanical actuators; automated dna optical scanners; automated microscopy systems comprising microscopes, computer hardware, and software; electromechanical hardware and software systems comprising of computers, computer software, electromechanical positioners for micro-positioning control, all for use in the field of photonics, digital flow control, analysis of biological samples, semiconductor testing and inspection, microscopy, optical scanning, and in the field of scanning systems for lasers; computer software for microscopy, imaging, and informatics in the field of clinical and diagnostic testing; electric actuators; electric valve actuators; precision positioning systems comprised of optical indexers,

namely, an optical train with a camera and a filter wheel that enables image data to be digitized, microscopy stages, electronic control circuitry, motion control chassis, linear actuators, screw actuators, linear sliders, electric motors, and tunable lasers for digitizing images in the fields of photonics, bio-medical imaging, fluidics, mass flow valves, life sciences, semiconductor manufacturing, and clinical diagnostics; modular biologics manufacturing system used for growing, purifying, concentrating, isolating, and packaging biological materials in chemical, of a bioreactor used to grow cell cultures and biological products, a separation machine used for isolating, purifying, and concentrating biological materials, and connecting computer hardware and software; computer hardware and software for use in industrial processing plants and refineries in the chemical, petrochemical, and processing industries.

Class 10

Medical specimen collection vials; medical cannulas; medical syringes; injection devices for pharmaceuticals; disposable cartridges for holding and transferring encapsulated radioisotope brachytherapy sources for use in treating prostate and other cancers; pre-filled cartridges containing contrast media for medical imaging; infusion pumps for intravenous administration of fluids; implantable radiation therapy devices consisting of encapsulated radioisotope brachytherapy sources for use in treating prostate and other cancers; radiation therapy delivery system consisting of radioactive seeds and a bio-absorbable carrier assembly; cardiac output monitors; bacteria filters for medical use; gas analyzers for medical purposes; anesthesia record keeping and data management systems; patient monitoring systems, namely, gas monitors, pulse oximeters, multi-parameter monitors, ECG monitors, invasive and non-invasive blood pressure monitors, neuromuscular transmission monitors, metabolic monitors, and spirometers for anesthesia, intensive care, and diagnostic applications; anesthesia machines and ventilators; intensive care and anesthesia accessories for single patient use, namely, gas sampling lines, airway adapters, breathing circuits, spirometry sensors, tubes, water traps, pulse oximetry sensors, non-invasive blood pressure cuffs, intravenous flushing sets, anesthesia masks, carbon dioxide absorbers, temperature probes, and nebulizers; central nervous system monitors; gastrointestinal tonometers; gradient coils, namely, magnetic gradient coils used in magnetic resonance imaging; medical diagnostic devices, namely, bone densitometers; fetal monitoring apparatus, namely, fetal pulse and vital signs monitor; patient monitoring apparatus, namely, heart and vital signs monitor; medical imaging systems, namely, ultrasounds, medical diagnostic imaging machines, imaging devices for screening and diagnostic applications for use in planning intervention and surgery, and parts thereof and attachments thereto; blood glucose monitors, analyzers, and meters; blood glucose monitoring combination kits comprised of lancets, control solution, and test strips all sold as a unit; medical diagnostic apparatus for displaying diagnostic images, namely, spot film apparatus, x-ray fluoroscopes, mobile x-ray units, computerized tomography scanners, nuclear resonance scanners, ultra sound scanners, magnetic resonance scanners, positron emission tomography (PET) scanners, and parts thereof and attachments thereto including tables and pads; incubators for babies; warming device for stabilizing infant body temperature for medical purposes; medical devices, namely pressure regulating valves; medical apparatus and instruments, namely, medical respiratory apparatus to enhance breathing; sleep screening apparatus and accessories thereto for use with medical respiratory apparatus and

with sleep monitoring devices, namely remote controls, remote alarms, and nasal masks; medical apparatus for intravenous administration of fluids namely fluid warmers; medical apparatus and surgical devices, namely face masks, breathing circuits, manual resuscitators, pressure infusers, laryngoscopes, anesthesia systems comprised of hoses, breathing bags, and Y-elbow fittings.

Class 11

Heat exchangers not being parts of machines; chemical heavy wall reactors, nuclear reactors, and accessories and component parts thereof, namely, heat pumps, steam valves and valves for regulating the flow of gases and liquids; electric lamps of all kinds and their parts; electric lighting fixtures and their parts; electric refrigerators, freezers, air conditioning apparatus, dehumidifiers; electric ovens, and ranges; microwave ovens for cooking; wall cooking ovens for domestic use; food warming drawers; electric and gas cook tops; gas cooking ovens and ranges; ventilation hoods for stoves; ventilating exhaust fans; water filters; water softening units; clothes dryers; electric fans; ceiling fans; flashlights; lamps and lights for vehicles; electric lights for christmas trees; fluid separation units for industrial use in a wide variety of industries; fluid concentration units for industrial use in a wide variety of industries; fluid recycling units for industrial use in a wide variety of industries; filter apparatus used for filtering solids from gases and liquids or filtering liquids from gases, or for filtering one immiscible liquid from another for industrial use in a wide variety of industries; spirally-wound elements or cartridges contained within a tubular plastic sleeve for concentrating products and removing impurities in fluid treatment systems for industrial use in a wide variety of industries; water conditioning units for residential purposes; reverse osmosis modules and membranes therefore for industrial use in a wide variety of industries; water purification units and systems consisting of clarifiers, electro-deionization systems, condensate polishers, vacuum degasification units, ultra filtration units, ultraviolet sterilizers, ion exchangers, caustic regeneration systems, reverse osmosis systems, forced draft decarbonator units, filters, chemical feed systems, and bulk storage units, sold with automatic controls and instruments to monitor operating parameters of the units and systems; electrochemical liquid purification units for use in the industrial, commercial, and municipal sectors; domestic electric and gas cooking appliances, namely, cooking rings, gas and electric stoves; gas and electric ovens and cooktops; electric coffee makers for domestic use; electric coffee percolators; electric tea makers and component parts; electric toasters; electric toaster ovens; electric cooking crockery cookers and casserole dishes; electric hot plates; electric deep fryers; domestic electric frying pans; domestic electric rotisserie ovens; electric hot air cooking ovens for domestic use; electric roaster ovens; electric waffle irons; electric kettles; electric radiant heaters; humidifiers; LED and high intensity discharge (HID) light fixtures; led luminaires; water heaters; filter cartridges for the filtration of potable water; control valves for water conditioning and water filtration equipment.

Class 12

Electric motors and diesel engines for land vehicles; locomotives and engines for land vehicles; airplane propellers; railway bogies; railway cars; railway couplings; screw propellers for vehicles; torque converters for land vehicles; vehicle propellers.

Class 17

Silicone sealants for a variety of uses such as for bath tub caulking, sealing boats and automobiles; silicone rubber roof coating; plastic glazing compounds.

Class 35

Inventory control services; consultation in the field of inventory control services; acquisition integration services; business reorganization consulting services; business management of truck and automobile fleets, namely voyage reporting and invoicing via a global computer network; business consultation in the field of truck and automobile fleet management services; business administration consulting services; consultation in the field of operation and management of power plants; supply chain management and consulting services in the areas of chemical product and service sourcing, and procurement, product inventory and supply management and cost containment; business consulting, marketing, cost and pricing analysis relating to electrochemical liquid purification units for use in the industrial sector; business consulting and information services.

Class 36

Asset based and private label financing services; financial analysis and consultation; credit card financial services; credit card services, namely, extension of credit to others; financial asset management for others; equity investment services; personal loan financing; mortgage banking services; acquisition financing services; commercial financing services; commercial real estate agency services; mutual fund investment; private equity and debt investment; consultancy, advisory and information services relating to all the foregoing services.

Class 37

Consulting in the field of building construction; construction, installation, repair, replacement, overhaul, and maintenance of power plants, engines, turbines, wind turbines, motors, and apparatus, equipment and instruments for the generation of power and electricity and their component parts and fittings and accessories; remote monitoring and diagnostic repair and maintenance services rendered in the repair and maintenance of aircraft engines including accessories and component parts, turbines including accessories and component parts, electrical equipment, medical equipment, and locomotives including accessories and component parts; services rendered in the repair and maintenance of machinery, instruments, electrical equipment, and appliances; chemical cleaning services for glass-lined reactor vessels used in the chemical and pharmaceutical processing industries; maintenance services for heat transfer systems and condensers; maintenance and repair services in the field of computerized cooling system equipment; installation, maintenance, and repair of equipment and systems in the field of transportation and traffic control; maintenance and/or repair of traffic control equipment; technical support services, namely, technical advice related to the installation and repair of advanced train control and traffic supervision systems and subsystems.

Class 40

Water and wastewater treatment services; water treatment services, namely, desalination, purification, conditioning, cleaning of ion exchange resins, identifying and controlling of microbiological

organisms; membrane regeneration services; chemical control system services relating to the feeding of treatment chemicals to industrial water systems; consulting services in the fields of water treatment for aqueous systems, cooling water systems, industrial boiler water systems, industrial water and process systems; consulting services in the fields of industrial fuel processing system treatment, and metal and plastic processing system treatment; providing information to others, over a global computer network, relating to industrial water purification systems; custom manufacture in the field of biotechnology and pharmaceuticals.

Class 41

Educational services in the field of medical imaging and diagnostics, namely, holding seminars, conferences, symposiums or workshops relating to the pharmaceutical industry for medical practitioners and employees of pharmaceutical companies; educational services, namely, holding seminars, conferences, symposiums or workshops in the field of life science and biotechnology for scientists and researchers; conducting seminars related to industrial water treatment problems; providing training services for all the aforesaid; training in the use and operation of signaling and crossing-warning systems for the rail and transit industries; providing training services in management and the medical field through the use of instructions and demonstrations provided online, through the internet, intranet, or extranets; education services, namely, conducting practical training workshops, classes, and seminars, featuring demonstrations in the fields of management and medicine.

Class 42

Services relating to wind and wind power, namely, engineering services and professional technology consulting services; design services for others in the field of wind power; industrial design services; design of power, wind power and electric power generating equipment and installations; information technology services in the field of global railroad and transit industries; remote monitoring of aircraft engines, turbines, electrical equipment, medical equipment, locomotives, and accessories and component parts of all the foregoing; research services, consultation services, and advisory services relating to engineering, design, and development problems encountered by utility companies, industrial companies, commercial companies, governments, or individuals; Information Technology (IT) services (computer hardware, software and peripherals design and technical consultancy); maintenance and updating of computer software and computer systems (excluding computer hardware) for others; installation of computer software; computer systems analysis and design services; engineering services; technical consultation and research services in the oil and gas industries; oil and gas exploration services; geophysical exploration for the oil and gas industries; analysis of oil and gas fields; oil and gas prospecting, namely, well logging and testing; oil and gas well testing; oil and gas pipeline inspection; remote monitoring and diagnostic services for compressors, pumps, turboexpanders, fuel pumps, and fuel distribution equipment, Compressed Natural Gas (CNG) refueling equipment, gas turbines, steam turbines, air cooled heat exchangers, steam condensers, heavy wall reactors and tubular reactors; consulting services relating to chemical research; research and testing on high throughput screening assays for drug development services; biotechnological services in the nature of development of new technology for others in the field of biotechnology; technical support

services for factory automation software, namely, providing maintenance of computer software and providing periodic upgrades of the software; custom design and consulting services in connection with the configuration of computer systems used in applications supporting fiber optic technology; technical support services, namely, troubleshooting of problems with computer hardware, video, and electronic communication hardware and software; technical consultation services for hardware and software used in connection with security and access systems; technical consultation services for surveillance cameras; custom design services for others in the fields of security systems, access systems, and tangible asset and inventory monitoring systems; laboratory research and testing services for fluid separation and membrane testing; engineering services in the fields of aqueous systems, cooling water systems, industrial boiler water systems, industrial water and process systems, and industrial fuel processing system treatment; engineering services and technical support services in the nature of troubleshooting problems and monitoring network systems related to the design and configuration of computer software and hardware systems to be used in the treatment of aqueous systems and in the treatment of petroleum and petrochemical processing systems; technology supervision and inspection in the field of energy distribution networks; metering and monitoring electric power consumption for electric power providers; scientific research in the fields of energy transfer, energy distribution, energy generation, and energy storage; monitoring, diagnostic, and control services for operation failure detection of electricity generation, transmission field of biotechnology and pharmaceuticals; consultancy in the field of energy efficiency; consultancy in the field of energy-saving; technological consultancy in the field of energy use.

Class 44

Consultancy services relating to medical and diagnostic imaging; consultancy services relating to diagnostic, prophylactic and therapeutic properties of pharmaceuticals; medical information services; medical imaging services; medical diagnostic services; advisory services related to all the aforesaid; medical testing for diagnostic or treatment purposes; providing medical information via a web site; providing medical information; rental of medical equipment.
