REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

HOURS OF BUSINESS AND EXCLUDED DAYS

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (a) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Dated this 1st day of July 2004.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Adaptors, chargers, rechargeable batteries, printer cradles and cases, printer station; barcode readers and scanners, optical scanners, portable computer terminals, computer interface boards, personal digital assistants, hand held auto identification scanners, wireless local area network hardware, and telephones and batteries, battery chargers, power supplies and housings for all of the aforesaid goods; barcode reading devices; bar code printing machines; operating software and parts and fittings for all of the aforesaid goods and batteries, battery chargers, power supplies and housings for all of the aforesaid goods; card printing machines for use with computers (computer peripheral); client/server-based communications system comprised of server software and client-device software to allow users and devices to communicate with each other over wired or wireless networks by real time push to talk style voice over IP, text messaging, handwritten messaging, picture messaging with integrated editing capabilities, voice messaging, broadcast voice messaging, and e-mail; computer and network management software and hardware for use with payment devices, secure identification and control devices; fixed and portable radio frequency identification devices and readers; communication systems for providing wireless Internet connectivity, namely, a high speed transceiver, base station, antenna, mounting hardware and software for monitoring and operating the systems; computer and network management software and hardware all for use with the management and monitoring of personal digital assistants, vehicle mounted computers, and electronic personal organizers; computer and network management software and hardware for the management and monitoring of cellular phone devices, VoIP communication devices used for mobile customer relationship management; computer and network management software and hardware for use with GPS-driven mapping and direction finding; computer and network management software and hardware for use with handheld computers, RFID readers, speech-directed devices and speech recognition used for mobile ticketing, payment processing, personal identification collection and verification, dispatching and scheduling, equipment maintenance, break-fix and repair; computer and network management software and hardware for use with payment devices, secure identification and control devices; computer and network management software and hardware for use with transmitting, receiving, viewing, updating and managing data, inventory and material handling, storage and retrieval, shipping and receiving, ordering, picking and cycle

counting of merchandise, asset management and tracking, and general data collection; computer and network management software and hardware for the management and monitoring of mobile computers; computer application software for cellular or mobile phones; computer cables; computer equipment, scanners, printers, optical character recognition devices and other peripheral computer equipment for processing business forms; computer hardware; computer hardware and communications software for electronic file transfer, remote computer access, and remote network access, all in the fields of wide area and local area networks; computer hardware and data management software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer hardware and handheld computers for end-to-end mobile computing systems for businesses; computer hardware and software for use in establishing, maintaining and managing wide area and local area computer networks and computer network connections, namely, global computer network connections; computer hardware and computer software real-time location system for use in the field of determining the physical location of a variety of objects such as vehicles, inventory, containers, equipment or products, and personnel; computer hardware and software for identifying, locating or tracking assets, equipment or people; computer hardware and software for real-time location systems; computer hardware, namely, hand-held and portable computers; computer operating systems and portable radio receivers and transmitters; computer peripherals for mobile computing and mobile communication devices; computer programs and program manuals all sold as a unit for use in the fields of software development tools, sales management systems, financial systems, agricultural systems, sales training, advertising systems, process control, job control, environmental monitoring, order logging, diagnostics, databasing activities, spreadsheet analysis, word processing, communication systems, repair and maintenance systems, presentation systems, quality control systems; computer programs, namely, software for designing printing and creating bar code labels, tags tickets, cards, or wristbands; computer programs for managing printer operation, maintenance or supplies replenishment; computer programs for operating printers; computer software and computer programs used for transmission, reproducing and receiving of sound, images, video and data over a telecommunications network or system between terminals and for enhancing and facilitating use and access to computer networks and telephone networks; computer software and manuals sold as a unit for the management and control of manufacturing, distribution center and warehouse inventory business operations; computer software for assessing and protecting wireless and wired computer networks, servers, applications and desktops against attack, intrusion and misuse; downloadable software for printers; computer software for driving printers to print labels; computer software, namely, software for use in connection with supply chain management and execution; computer software for operating wireless local area networks and for managing input/output operations on handheld computers; computer software for protecting data/information stored on and/or transmitted across wireless and wired networks, servers, applications and desktops against attack, intrusion and misuse; computer software for recording, managing, retrieving and storing customer data, contact information, preferences and customer satisfaction information; computer software for the management and control of manufacturing, distribution center and warehouse inventory management operations; computer software for the management and monitoring of handheld computers; computer software in the field of database and information management; computer software offered as a feature of cellular or mobile phones to

browse and access commonly used applications on the phone; computer software to create and process business forms; computer software, namely, communications protocol software for mobile computing and mobile communication devices; computer software that enables and provides two-way wireless voice, images, sound recordings, printed text and data communication connections and the wireless transfer of voice, images, sound recordings, printed text and data information; computer telephony software enabling telephone and communication activities to be performed through a network; computer telephony software for displaying and updating data received from the network; computer utility software for performing computer maintenance work; connector to connect printers and computers; disc drives; electrical connectors; electrical controllers and data processors; electronic user manuals sold therewith; fast communication links for data transfer; fixed and portable radio frequency identification devices and readers; hand held scanners that automatically identify the presence of bar codes and radio frequency identification tags; handheld and integrated laser scanners; computer and network management software and hardware for the management and monitoring of rugged handheld personal computers; integrated voice and data enabled wide area wireless radio; linear and area imagers and digital cameras; magnetic card and smart card reading devices; memory devices; mobile and fixed computers and monitors for end-to-end mobile computing systems for businesses; mobile or handheld printers for labels and business forms; modem devices; near field communication (NFC) technology-enabled devices, namely, printers; pagers; portable and fixed radio frequency computer and network management software and hardware all for use with the management and monitoring of personal digital assistants, vehicle mounted computers and electronic personal organizers; portable and fixed radio frequency receivers and transmitters; portable and handheld computers for incorporating bar code and radio frequency identification tag scanners and operating software therefore; portable computers with auto identification functionality and operating software therefore; pressure and temperature sensors; printers, namely, mobile printers; printers, print engines and printer modules for testing RFID transponders, reading and writing RFID data, and creating encoded smart tags and labels by applying RFID components; printer components, namely, printheads; thermal printers; radar and radar detectors; radio frequency identification printing and encoding machines; radio frequency identification, RFID, smart tags and labels featuring embedded microchips, integrated circuits, antennas and transponders for recording, receiving, storing, encoding, updating and transmitting data; readers and tags for real-time location systems; radio transceivers and operating software therefore; computer interface boards, computer cables, electrical connectors, and computer peripherals therefore, all sold as a unit; computer software containing communications protocols for handheld mobile electronic devices; receivers and transmitters; smartphone applications and software to develop smartphone applications for printing labels, receipts, cards, tags and business forms; software for reading bar codes, bar code readers, bar code scanning devices for physical inventory control; software to design, configure, operate and trouble-shoot communications systems; software to design cards; software to design labels and configure label printers; software to manage and drive card printers; software for enabling a general-purpose computer to print and/or read bar codes; software to design, configure, operate and trouble-shoot real-time location system; software to program and manage network printers; telecopier machines; telemetry tag that transmits the location of objects such as vehicles, inventory, containers, equipment or products and personnel; two-way radios; ultra wideband (UWB) radar systems comprising radar; ultra wideband communications systems comprising UWB transmitters and receivers; ultra wideband signal generators; voice

processing devices; digital dictation machines; digital answer telephone machines; wireless Ethernet bridges; wireless local area network hardware equipment, namely, computer parallel and serial ports, access points for connecting network computer users and computer network switches, electronic controllers, electronic mini-controllers and antennas; wristband printers; electronic label printers; portable computer terminals; Radio Frequency Identification tags (RFID tags); Radio Frequency Identification readers (RFID readers); identification cards (encoded or magnetic); computer software for computer system and application development, deployment and management; portable computer terminals; downloadable software for tracking physical movement for use with motion detecting sensors.

Class 16

Printer labels; barcode printer labels; business forms; Identification labels and bands processable through printers such as laser printers and used by healthcare professionals; label printing machines, namely handheld label printers [office requisites] and label printing machines for office use; paper laminate wristbands for use in the healthcare industry; printable paper stock, namely, blank or partially printed labels, printing machine ribbons; printed matter and printed publications, namely, brochures, instruction and user manuals, written presentations and training materials for computer software, hardware, real time location systems, and printers; printer supplies, namely blank or partially printed labels (not of textile) and computer printer ribbons; self-adhering labels made of paper and plastic film for use for patient identification and patient care in the health care industry; plastic cards, laminated cards, transfer film, tags, thermal paper; receipt paper; self-adhesive labels; Radio Frequency Identification (RFID) cards (other than encoded or magnetic).

Class 35

Business consulting services in the field of computer-based printing, computer software and computer products, printers, data security, access control devices, membership cards, gift cards, financial cards and business forms; business consulting services to manufacturers or shipping terminal operators regarding productivity, efficiency, inventory control, operational procedures, and equipment purchases; business development services, namely, assistance in product commercialization for new technologies; business management consulting services and business consulting services; computerized database management services; business consultation services related to business forms; business information management services, in relation to shipment processing, preparing shipping documents and invoices, tracking documents, packages and freight over computer networks, intranet and internet; online retail store services featuring mobile phones, bar code data capture systems, mobile computing and computer hardware and software; physical inventory control services; business merchandising display services and demonstration of products, namely, pre-recorded audio and audio visual works via the Internet and other computer and electronic communications networks; retail store services featuring mobile phones, bar code data capture systems, mobile computer and computer hardware and software for each of the foregoing, and including pre-recorded audio and audio visual works and related merchandise and demonstrations of products for the foregoing; conducting dealer incentive award programs to promote the sale of printers, printer labels, and supplies; business services, namely, providing commercial information related to business forms to dealerships, resellers and directly to customers.

Class 37

Consultation relating to computer repair; installation, maintenance and

repair of electronic equipment, namely, communications equipment and bar code data capture systems; label printer repair services.

Class 38

Providing access to electronic databases and networks, allowing the user to send, receive and interact with audio, text, digital images, videos, electronic game applications, and social media over a network; providing access to network communications infrastructure to allow the user to receive location based coordinates; technical consulting in the field of data transmission and Radio Frequency Identification systems (RFID); wireless telecommunications services, namely, wireless data messaging services that allow a user to send and receive instant messages, electronic mail and data; wireless telephone services and electronic transmission of data and documents via communications networks and global computer networks; consultancy services in the field of providing access to electronic communications networks through control devices; consultancy services relating to computer communication services in the field of GPS-driven mapping and direction finding; consultancy services relating to computer communication services in the field of mobile customer relationship management; consultancy services relating to computer communication services in the field of mobile ticketing, break-fix and repair; consultancy services relating to computer communication services used for transmitting, receiving, viewing, updating and managing data, inventory and material handling, store and retrieval, shipping and receiving, ordering, picking and cycle counting of merchandise, asset management and tracking, payment processing, personal identification collection and verification, speech recognition, dispatching and scheduling, general data collection and equipment maintenance; consultancy services relating to computer communications services in the field of bar code data capture systems, mobile computer and mobile communication devices and computer hardware; telecommunication access services, namely, providing access to, denying access to electronic databases and networks to affect power levels on wireless telecommunication devices; telecommunication access services, namely, providing access to, denying access to electronic databases and networks to affect power levels on wireless telecommunication devices; telecommunications network planning.

Class 42

Basic and applied research in the fields of physics, chemistry, engineering, computer programming, information technology and telecommunications; computer programming and database design for others; computer services, namely, designing and implementing for others wireless local area networks, end-to-end mobile computing systems and computer hardware and software systems for capturing, moving, and managing images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer services, namely, providing an interactive site on a global computer network, accessible via computer, land-line and wireless communications devices; computer software design for others; computer software development in the field of mobile point-of sale transactions; computer software interface design for others; consultation and design services relating to computers in the field of GPS-driven mapping and direction finding; consultation and design services relating to computers in the field of mobile customer relationship management; consultation and design services relating to computers in the field of mobile ticketing, break-fix and repair; consultation and design services relating to computers used for transmitting, receiving, viewing, updating and managing data, inventory and material handling, store and retrieval, shipping and receiving, ordering, picking and cycle counting of merchandise, asset management and tracking, payment processing, personal identification

collection and verification, speech recognition, dispatching and scheduling, general data collection and equipment maintenance; consulting services in the field of design, selection, implementation and use of computer hardware and software systems concerning bar code data capture systems, mobile computing and mobile communication devices for others; consulting services in the field of design, selection, implementation, and use of computer hardware and software systems for others; custom design and development of computer hardware, computer software; design and development of digital telecommunications systems for public and private networks; installation of computer software; installation of computer software concerning bar code concerning code data capture systems, mobile computing and mobile communication devices; non-downloadable software services, namely, providing temporary use of non-downloadable software for real time location system; printer service plans [technological planning services]; providing technical information concerning the features and interoperability of the software of third party software providers concerning bar code data capture systems, mobile computing and mobile communication devices; providing temporary use of non-downloadable software for use in management and operation of manufacturing and shipping container depots, logistics centers, rail terminals, intermodal terminals or airports; research and development of new products for others in the field of telecommunications; telecommunications technology consultancy, namely, the provision of technical information and technical consultation in the area of computers and telecommunications technology; technical consultation services in the field of bar code data capture systems, mobile computer and mobile communication devices and computer software and hardware for each of the foregoing [foregoing includes: installation of computer software concerning bar code concerning code data capture systems, mobile computing and mobile communication devices]; technical consulting and custom design of data transmission, reception and management systems, and material handling systems; technical consulting, design and integration services for Radio Frequency Identification systems (RFID); up-dating of computer software for bar code data capture systems; consultancy services in the field of data security.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

RIVOLTA CARMIGNANI S.P.A.

VIA VISCONTI DI MODRONE, 15 I-20846 MACHERIO (MB) ITALY

40201603592W (09 35 37 38 42)
(International Registration No. 1288941)

Date of International Registration: 06/07/2015

Date of Protection in Singapore: 06/07/2015

Date of Notification: 25/02/2016

The following claim is made in the International Registration: Colour(s) claimed: Gray, green, blue, red and white. The wording plus the horizontal and vertical brackets in gray; the cube within the brackets has one green face, one blue face, one red face.

Class 09

Apparatus for sending, recording, transmission or reproduction of sound or images; data processing apparatus; computers; computer memories; facsimile machines; satellites; videodisks; digital optical disks; telecommunication transmitters; wireless Internet connection apparatus and instruments; high-frequency apparatus, namely, intercommunication apparatus, telecommunication apparatus, input, storage, information or data processing devices; media for recording and reproducing sounds, images, signals and data; computer hardware connection equipment (modems); connectors to a computer or telephone network; messages transmitting hardware, micro-computers terminal connectors for public and private networks linking; apparatus for capturing, counting, collecting, storing, converting, processing, entering, sending and transmitting information, data and signals; interfaces, namely, interface software; application software; transmitting and receiving apparatus for radio and television broadcasting and for long-distance transmission; digital data transmitting and/or receiving apparatus; antennas, electric and data transmission cables; radio relay cables; devices for encoding and decoding images and sound; computer, data communication and telephone terminals, especially for accessing global telecommunication networks (the Internet) or private access networks (intranets); electronic cards for accessing a WLAN; software for accessing a global computer network; software for accessing programs on a remote network, particularly on remote servers; database server centers; software; software, gateways providing security for a company's cloud computing services, with functions including data security, information protection, data loss prevention, data protection, authentication of identity, management of policies relating to identity security, network management, network monitoring, the use of cloud computing services, employee access control, user access control, monitoring and auditing of cloud computing services, governance and auditing of cloud computing services for the processing of

public and private information, and the security monitoring of remote computers and mobile electronic devices; computer software in the field of networks and data cryptographic security functions; computer software for data and information logic integration between computer networks; computer software used for automating an identity authentication process by means of existing databases in connection with issuing and managing digital certificates used for the authentication or encryption of digital communications or the authentication of a digital signature in an electronic transaction or communication on the Internet and other computer networks; software, namely, encryption software to enable digital information secure transmissions, namely, confidential, financial information stored in a credit card on the Internet and via other means of computer devices communication; software for the integration of managed services, namely public key infrastructure (PKI) services, issuing and control of digital certificates, management and integration of business software into existing networks, software and communication services; data communication application computer programs; identity security software; authentication and information security software relating to identity management; data and digital information access software; identity fraud detection computer software; software and firmware for data and information management, transmission and storage; computers networking software; anti-virus software; Internet security software; business security software; intrusion detection software; firewall software; privacy control software; content filtering software; software, namely configuration software for the client application interface and for hosted or networked databases; computer hardware; gateway routers in the form of computer control hardware; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for data collection and management; downloadable electronic publications, namely, white papers, articles and technical documentation manuals in the fields of computer hardware and software, digital telecommunications, consumer electronics and information technology; computer software for examining network and website vulnerability; computer software used for malware detecting; downloadable electronic publications in the form of reference, user, technical, instruction and technical specification manuals for use with software, hardware, peripherals and firmware and downloadable electronic publications in the form of manuals, white papers, articles, blogs, training materials, teaching materials, newsletters, magazines, newspapers, books, leaflets in the fields of computer software and computer and online security, and technical documentation manuals (downloadable electronic manuals) in the fields of computer hardware and software, digital telecommunications, consumer electronics and information technology.

Class 35

Advertising; business management; business administration; office functions; direct mail advertising (leaflets, prospectuses, printed matter, samples); newspaper subscription services (for others); arranging of telecommunication service subscriptions for others; presentation of goods on all communication media, for retail sale; business management and organization consultancy; accounting; document reproduction; employment agencies; business management for freelance service providers; computerized file management; Web site traffic optimization; organization of exhibitions for commercial or advertising purposes; online advertising on a computer network; rental of advertising time on all communication media; publication of advertising texts; rental of advertising space; dissemination of advertisements; public relations; company audits (commercial analyses); marketing and advertising in the field of computer hardware and software for Computer network interconnection; retail and wholesale in a store, online retail and wholesale of computer hardware and software for computer network

interconnection; arranging subscriptions to telecommunication services for others; computerized file management; administrative and commercial services in the field of information technology and the field of data processing; administrative management of computer operations for others; professional consulting and consulting services in the field of compilation of computer databases; consulting in the field of data outsourcing and systematization; outsourcing services for company document and data processing, namely, data collect and systematization in a central file, data, information, images and documents input and processing; market study and research; marketing services; telemarketing services; business research and information, compilation of statistical data, statistical studies; advice regarding business information or inquiries; file management services (information compilation).

Class 37

Construction; construction information; construction consultation; installation, maintenance and repair of computers; installation, maintenance and repair of computer installations and computer peripheral devices; physical infrastructure and data centers maintenance, installation construction, servicing and refurbishment; servicing and reconditioning wiring systems; collocation infrastructure construction (data center); provision of maintenance, assistance with and installation of computer hardware; advisory and consultancy services in the fields of the aforesaid.

Class 38

Telecommunications; information relating to telecommunications; communications by computer terminals or by fiber-optic networks; communications by radio or telephone; cellular telephone communication; provision of user access to global computer networks; provision of Internet chat rooms; provision of access to databases; electronic bulletin board services (telecommunication services); connection by telecommunications to a global computer network; rental of telecommunication apparatus; teleconferencing services; electronic messaging services; rental of access time to global computer networks; computerized document exchange; downloading of data; transmission of information held in data banks and image banks, information dissemination by electronic means, especially for global communication networks (such as the Internet) or private or restricted access networks (such as intranets); connection by telecommunications to a global computer network, providing access to search engines; services for connecting to the Internet or to local networks, provision of access to the Internet or to local networks, Internet address routing and filtering services; provision of Internet access via portals; communication services by telephone, radio, radiotelephone, telegraph, as well as by all remote data processing means, interactive videography, and particularly via computer terminals or peripherals or electronic and/or digital equipment, by videophone, visiophone; sending and reception of data, signals and information processed by computers or by telecommunication apparatus and instruments; provision of access to national and international server centers, provision of access time to databases and computer or data communication database server centers; providing access time to wireless, telephone, radiotelephone, data communication networks, to a database server center particularly for global communication networks (the Internet) or to private or restricted access networks (intranets); transmission of video, data and sound to mobile terminals; dissemination (transmission) of multimedia content on electronic communications networks; data transmission, particularly high bit-rate transmission (by batches) for public network operators and companies; secure or non-secure transmission of data, texts, sounds, still and animated images, messages; rental of access time to a data bank server center, particularly for global (the Internet) and private (intranet)

telecommunication networks; rental of access time to global computer networks; telecommunication services; transmission of anti-virus software and other network security software via a global computer network and electronic transmission of communications and data by electronic mail for encryption and decryption by management and filtering of mail sent via a global computer network; electronic communication services in the form of transport, routing and switching of messages and information signs from and to different signaling switches, networks and telecommunication databases; transmission of messages and information signs of bank checks, financial and credit and transmission of messages and information to and from signaling switches, databases and mobile networks; remote server connection services.

Class 42

Evaluations, assessments and research in the fields of science and technology provided by engineers; design and development of computers and software; research and development of new products for others; technical project study; architecture; design of interior decor; development (design), installation, maintenance, updating or rental of software; computer programming; computer system analysis; design of computer systems; consultancy relating to computers; conversion of computer programs and data, other than physical conversion; conversion of data or documents from physical to electronic media; digitization of documents; software as a service (SaaS); cloud computing; information technology (IT) consultancy; hosting of servers; electronic data storage; hardware and software research, design and development for computer networks interconnection; provision of search engines for the Internet; recovery of computer data; data hosting services, providing virtual computer systems via the computer network in the cloud (cloud computing), namely, a computer system that is to adapt to remote servers for data processing traditionally located on local servers or on the user's workstation; creation of computer platforms for third parties; hosting of computer platforms and Internet sites; monitoring of data, signals, images and information processed by computers or by telecommunication devices and instruments; software, servers and networks hosting and design (development) with the purpose of partially or completely taking over of computer system resources and customer information; hosting of computer platforms, Internet sites; monitoring of data, signals, images and information processed by computers or by telecommunication devices and instruments; conversion of data or documents from physical to electronic media; data backup services; integration of computer systems and networks; information technology services, namely, remote database management, remote management of computer network systems; consultation services, research, in the field of information technology, computers, software design; information technology services providing secure access and communications with an integrated computer system and/or for user access and identification; software as a service (SaaS) offering a software that provides security for a company's cloud computing services, with functions including data security, information protection gateway services, data loss prevention, data protection, authentication of identity, management of policies relating to identity security, network management, network monitoring, the use of cloud computing services, employee access control, user access control, monitoring and auditing of cloud computing services, monitoring and auditing of cloud computing services, governance and auditing of public and private cloud computing services and the security monitoring of remote computers and mobile electronic devices; computer services, namely, information provision concerning electronic data encryption and authentication; computer services, namely, digital certificates issuing and management for digital communication authentication or encryption or digital signature authentication in an

electronic transaction or communication on the Internet and other computer networks and providing technical and customers support concerning these services; computer systems development, integration and operation for digital certificates support issuance and management; computer-related services, namely, computer network and the Internet security management, namely, public key infrastructure confirming, authentication, distribution and management, digital certificates and computer software business integration issuing, control and management; technical support services in the field of identity management, namely, identities digital authentication systems development and installation for identity and information on users on a global computer network authentication, authorization, and management; technical support services, namely, problems relating to computer hardware and software on-line troubleshooting; IT support related to computer networks and internal computer networks, computer networks and internal computer networks security services; computer support services in the field of security integration, network security technology, networks architecture, encryption technology and computer security; IT support in the field of computer security; computer support services, namely, software technical support and updating services; computer consulting services related to computer goods and services; development (design) of software for others; computer security services, namely, provision of services to ensure safe and secure transactions and for identity and information security access; application and network infrastructure security services in the field of managed public key infrastructures (PKI); issuance of digital certificates for authentication; provision of information in the fields of security for a global computer network and a local network, prevention of computer viruses, software applications and computer hardware relating to security; technical consultation in the field of information technology and data processing; updating of software.
