REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 07

Machines and machine tools, namely, belt conveyors, handling apparatus for loading and unloading, handling machines, namely, palletizers, case elevators, automatic pallet dispensing machines and automatic slip sheet dispensing machines, industrial robots, manipulators and telemanipulators for operating all of the above machines; automatic handling machines, namely, test handlers in the nature of palletizers, case elevators, automatic pallet dispensing machines and automatic slip sheet dispensing machines, manipulators, industrial robots, telemanipulators; IC handlers, namely, machines for processing integrated circuits, machines for the automatic and mechanical handling and processing of electronic, mechanical and electronic and mechanical modules or components for intermediate and final testing in the field of semiconductor and electronics manufacturing; fittings and parts of the aforesaid goods, namely, gaskets, control mechanisms for machines, feeders, pressure regulators, pressure valves, controls for machines sold as a unit with the goods.

Class 09

Automatic test equipment and apparatus for testing semiconductors, printed circuit boards, laced wiring harnesses, electronic assemblies and related devices; automatic calibration devices for use with semiconductor test equipment; printed wiring board probing and testing equipment, namely, testers, test fixtures, and kits for making test fixtures and parts therefor; test probes used in automated test equipment for the fault testing of electrical circuit devices and printed circuit boards; translator modules for making electrical test connections to integrated circuit packages; computer hardware, computer software, printed circuit board assemblies, data transmission, communications, signal and power cables, electronic instrumentation and equipment, namely, electronic monitors, sensors, interposers, digital volt meters, signal generators, oscilloscopes, and frequency generators, manipulators for use with automatic test equipment and apparatus, electrical power supplies and related parts and equipment, namely, power distribution units, power converters, relays and switches, and cooling fans for electronic equipment, all for use in the operation of test equipment and in the design, manufacture, testing, inspection, analysis, diagnosis and verification of semiconductors, integrated circuits, printed circuit boards, electronic assemblies and related devices; automatic handling machines for electronic, mechanical and/or electronic and mechanical components for use in the intermediate and final testing of semiconductors; accessories and parts for the above-mentioned appliance, namely, an electric and mechanical appliance for feeding, transporting, positioning and seating the above-mentioned components for the purpose of investigating, measuring and inspecting the components; automatic apparatus for tempering the above-mentioned components to prepare them for test at temperature, namely, apparatus and instruments for controlling the temperature of the aforesaid modules, namely, electronic controllers; mechanical processing apparatus for

separation, inspection, automatic laser labeling and marking, sorting and packing the above-mentioned components, namely, a test handler; devices for the mechanical measurement of the components, namely, lasers; devices for the optical measurement of the components, namely, vision alignment; testing and measuring instruments for the stimulation of electronic components during the test, namely, signal integrity simulation equipment; computer software for the monitoring and control of production machines in the area of semiconductor and electronics manufacturing, namely, for the combined mechanical and/or electronic and mechanical recording, checking and evaluation of operating data from the production process in semiconductor and electronics manufacturing in the area of the final inspection of semiconductor components; computer software for creating on-line databases regarding the above-mentioned production data at variable intervals that can be freely chosen; computer software for evaluating the production data in the form of statistics; mechanical, pneumatic and electronic connectors and interlocking machines for handling semiconductor components and wafers with devices for inspecting these components; surface-coated electronic test mounts (contact bases and contact springs) in the form of devices for the manual and automatic quality inspection of wafers, semiconductor components and electronic components; apparatus, namely, electronic chips, infrared detectors for the automatic and mechanical intermediate and final testing and handling of electronic, mechanical and electronic and mechanical modules in the field of semiconductor and electronics manufacturing; fittings and parts of the aforesaid apparatus; surveying machines and instruments for the mechanical and optical surveying of modules; kits for making test fixtures and parts therefor, namely, support plates, gaskets, gas hinges and vacuum connectors; test adapters for aligning a pattern of test probes with a product under test; electronic test receivers; sockets for semiconductor testing.

Class 37

Installation, servicing, maintenance and repair of devices for semiconductor and electronics manufacturing and testing; installation of electrical connectors in the nature of surface coated test mounts.

Class 40

Construction of printed wiring board and circuit board test fixtures to customer specifications; assembly of printed circuit boards for others.

Class 42

Computer and technical services, namely, semiconductor and printed circuit board testing services, design and development of semiconductor tests and test strategies, consulting services in the field of semiconductor and circuit board testing and design, development of circuit boards and semiconductors, design, development and customization of hardware used in the manufacture of semiconductors, development, design and customization of computer programs in the area of electronics and semiconductor production available in data networks, and consulting services in connection therewith; development of coating technologies for the purpose of optimizing the functional capability of electronic test mounts and for the purpose of optimizing the process sequences in apparatus for the automatic, mechanical and manual handling of electronic mechanical and/or electronic and mechanical components or components in the area of intermediate and final inspection in semiconductor and electronic production; technical inspection, process optimization,

process-sequence optimization and execution of technical tests and checks in the field of semiconductor and electronics production, namely, the inspection of testing and measurement instruments for electronic modules and handling systems.
