REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Sensors; pressure sensors; inertial sensors; fluid level sensors; media quality sensors; seat belt tension sensors; position sensors; readout systems; micro-controls; solid-state relays; power, speed, and temperature controls; trackballs; actuators; navigation sub-systems; cockpit operator controls; circuit protection devices; force sensors; optical scanners; electronic servo controlled circuits; electronic equipment for the detection, measurement or control of motion or pressure; accelerometers; potentiometers; shaft encoders; linear encoders; gyroscopes; angular rate of change control devices; micro-electromechanical structures being control and measurement devices; fluidic control circuits; optical control circuits; angular rate of change sensors; angular rate sensors; optical electronic encoders; digital tachometer encoders; motor-optical encoders; servo systems comprising motor-optical encoders; capacitive pressure sensors; sensors for detecting the quality of liquid or gas media; digital readouts; micro-controllers; micro-controllers for micro-programmable logic controllers, control relays, timers, counters, temperature controllers, and safety relays; micro-programmable logic controllers; control relays; timers; counters; temperature controllers; safety relays; electrical solid

state relays; electronic solid state relays; navigation sub-systems; navigation sub-systems, namely, inertial measurement units, micro-electro-mechanical systems, inertial navigation systems, and accelerometers; electronic actuators; electric or electronic sensors for monitoring rotation rate; electronic solid state contactors; electronic timers; optical encoders; solid state angular rate sensors; rotation rate sensors; electronic multi-axis inertial sensors for guidance of vehicles; electronic three-axis inertial sensors for guidance of vehicles; electronic sensors for monitoring rotation rate; electric sensors for monitoring rotation rate; digital encoders; wireless transmitters and receivers; electronic transmitters and receivers for industrial motion control applications; electronic transmitters and receivers; electrical and electronic apparatus and instruments; drive units for computer apparatus; controllers and actuators; logic controllers; programmable logic controllers; software for sensors; software for automated installations; software for controls; software for relays; software for timers; software for actuators; software for logic controllers; pressure sensors, inertial sensors, fluid level sensors, media quality sensors and seat belt tension sensors for the automotive industry; position sensors, readout systems, pressure sensors, micro-controls, solid-state relays, trackballs, actuators for industrial applications; position sensors, inertial sensors, navigation sub-systems, cockpit operator controls, circuit protection devices, force sensors, pressure sensors, optical scanners and electronic servo controlled circuits for the aerospace and military industries; electronic equipment for the detection, measurement or control of motion or pressure, namely, sensors, accelerometers, potentiometers, shaft encoders, linear encoders, gyroscopes and angular rate of change devices, electronic servo control circuits, and micro-electromechanical structures, namely, pressure sensors, fluidic and optical control circuits, accelerometers, gyroscopes and angular rate of change sensors; microprocessors; drive amplifiers; control units; power supplies; digital displays; electronic filters; microcircuits; alarm systems; alarm detectors; alarm transmitters; central station receivers and decoders; industrial measurement instrumentation, namely, electric sensors, electronic transducers and electronic control devices for use in measuring and controlling pressure, temperature, position, chemical composition, tilt and engine conditions, and for use as components of industrial equipment, namely industrial compressors, hydraulic fluid pressure regulators, steam sterilizers, laboratory test apparatus, chemical equipment, medical equipment, atmospheric pressure measurement equipment, machine tools, plant automation equipment, pneumatic and industrial plant pressure measuring and controlling equipment, and equipment for pressure measurements of aggressive fluids and in the automotive, aerospace, hvac (heating, ventilation, air conditioning), diesel, marine, medical and agriculture fields; logic controllers; software for the management, control, monitoring, maintenance and remote diagnosis of automated installations, machines or machine fleets; software for storing, processing and indication of data for management, control, monitoring, maintenance and remote diagnosis of automated installations, machines or machine fleets; apparatus and instruments for the management, control, monitoring, maintenance and remote diagnosis of automated installations, machines or machine fleets, namely, measuring sensors, detectors, actuators, man-machine interfaces, data recorders, connectors, memory cards, servers, communication networks, communication bus, touch screens; remote processing units; processors; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, supervision, life-saving, and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; mechanisms for coin-operated apparatus; cash

registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; parts and fittings for the aforesaid goods; position detectors; pressure switches; compressed air automation systems; brushless dc motor controllers; dc motor controllers; brush dc motor controllers; GPS; inertial navigation systems; inertial measurement unit; multi-axis inertial sensing system; angular gyroscope; analog gyroscope; remote control circuit breakers; circuit breakers; timers; relays; control relays; counters; safety relays; temperature controllers; cockpit controls; automatic steering apparatus, namely, steering handwheel; flight spoiler control level; optical rotary encoders; magnetic rotary encoders; hall effect sensors; rotary and linear potentiometers; draw wire sensors; inclinometers; electronic modules; wireless encoder interface; inductive proximity sensors; inductive sensors with remote electronics; digital readout systems; linear encoders; digital readout encoders; ceramic capacitive pressure sensors; silicon capacitive pressure sensors; panel mount solid state relays; PC board mount solid state relays; din rail mount solid state relays; plug-in solid state relays; solid state relay timers; control solid state relays; digital input/output modules; heat sink and solid state relays assemblies; limit switches for industrial applications; limit switches for aerospace and defense applications; limit switches; microswitches; manually operated switches; power technologies, namely, switches; power switching apparatus; power management apparatus; power storage apparatus.

Class 16

Printed matters; brochures, catalogues and leaflets; user and instruction manuals; user and application guides.

Class 37

Remote maintenance of automated installations, sensors, controls, switches, relays, logic controllers, timers, actuators, and machines.

Class 38

Telecommunications services, namely the transmission of data and information regarding the status and functioning of automated installations, sensors, controls, switches, relays, logic controllers, timers, actuators, and machines.

Class 40

Custom manufacture of sensors; custom manufacture of pressure sensors; custom manufacture of inertial sensors; custom manufacture of fluid level sensors; custom manufacture of sensors for detecting the quality of liquid or gas media; custom manufacture of position sensors; custom manufacture of micro-controls for micro-programmable logic controllers, control relays, timers, counters, temperature controllers, and safety relays; custom manufacture of programmable logic controllers; custom manufacture of logic controllers; custom manufacture of control relays; custom manufacture of timers; custom manufacture of counters; custom manufacture of temperature controllers; custom manufacture of safety relays; custom manufacture of micro-controls; custom manufacture of solid state relays; custom manufacture of electronic motors and actuators used in electronic or mechanical equipment to initiate, sustain or control motion or force; custom manufacture of electronic motors; custom manufacture of actuators; custom manufacture of navigation sub-systems, namely, inertial measurement units, micro-electro-mechanical systems, inertial navigation systems, and accelerometers; custom manufacture of force sensors; custom manufacture of navigation sub-systems; custom manufacture of media quality sensors; custom manufacture of seat belt tension sensors for the automotive industry, position sensors, readout systems, pressure sensors,

micro-controls, solid-state relays, trackballs, motors and actuators for industrial applications, and position sensors, inertial sensors, navigation sub-systems, cockpit operator controls, circuit protection devices, force sensors, pressure sensors, optical scanners and servo systems for the aerospace and military industries; custom manufacture of industrial measurement instrumentation, namely, sensors, transducers and controls; custom manufacture of industrial measurement instrumentation; custom manufacture of position detectors; custom manufacture of pressure switches; custom manufacture of pneumatic logic components; custom manufacture of electro pneumatic valves; custom manufacture of industrial vacuum components; custom manufacture of compressed air automation systems; custom manufacture of DC motors; custom manufacture of brush dc motors; custom manufacture of brushless dc motors; custom manufacture of rotary voice coil actuators; custom manufacture of linear voice coil actuators; custom manufacture of smart voice coil actuators; custom manufacture of brushless dc motor controllers; custom manufacture of dc motor controllers; custom manufacture of brush dc motor controllers; custom manufacture of voice coil actuators; custom manufacture of GPS; custom manufacture of inertial navigation systems; custom manufacture of inertial measurement unit; custom manufacture of multi-axis inertial sensing system; custom manufacture of angular gyroscope; custom manufacture of analog gyroscope; custom manufacture of remote control circuit breakers; custom manufacture of circuit breakers; custom manufacture of relays; custom manufacture of cockpit controls; custom manufacture of speed brake; custom manufacture of landing gear control; custom manufacture of steering handwheel; custom manufacture of flight spoiler control level; custom manufacture of optical rotary encoders; custom manufacture of magnetic rotary encoders; custom manufacture of hall effect sensors; custom manufacture of rotary and linear potentiometers; custom manufacture of draw wire sensors; custom manufacture of inclinometers; custom manufacture of electronic modules; custom manufacture of wireless encoder interface; custom manufacture of inductive proximity sensors; custom manufacture of inductive sensors with remote electronics; custom manufacture of digital readout systems; custom manufacture of linear encoders; custom manufacture of digital readout encoders; custom manufacture of ceramic capacitive pressure sensors; custom manufacture of silicon capacitive pressure sensors; custom manufacture of panel mount solid state relays; custom manufacture of PC board mount solid state relays; custom manufacture of din rail mount solid state relays; custom manufacture of plug-in solid state relays; custom manufacture of solid state relay timers; custom manufacture of control solid state relays; custom manufacture of digital input/output modules; custom manufacture of heat sink and solid state relays assemblies; custom manufacture of limit switches for industrial applications; custom manufacture of limit switches for aerospace and defense applications; custom manufacture of limit switches; custom manufacture of microswitches; custom manufacture of manually operated switches; custom manufacture of power technologies; custom manufacture of power switching; custom manufacture of power management; custom manufacture of power storage.

Class 42

Custom design and engineering of sensors; custom design and engineering of pressure sensors; custom design and engineering of inertial sensors; custom design and engineering of fluid level sensors; custom design and engineering of sensors for detecting the quality of liquid or gas media; custom design and engineering of position sensors; custom design and engineering of micro-controls; custom design and engineering of micro-controls for micro-programmable logic controllers, control relays, timers, counters, temperature controllers, and safety relays; custom design and

engineering of micro-programmable logic controllers; custom design and engineering of programmable logic controllers; custom design and engineering of logic controllers; custom design and engineering of control relays; custom design and engineering of timers; custom design and engineering of counters; custom design and engineering of temperature controllers; custom design and engineering of safety relays; custom design and engineering of solid state relays; custom design and engineering of electronic motors and actuators used in electronic or mechanical equipment to initiate, sustain or control motion or force; custom design and engineering of navigation sub-systems, namely, inertial measurement units, micro-electro-mechanical systems, inertial navigation systems, and accelerometers; custom design and engineering of force sensors; custom design and engineering of pressure sensors, inertial sensors, fluid level sensors, media quality sensors and seat belt tension sensors for the automotive industry, position sensors, readout systems, pressure sensors, micro-controls, solid-state relays, trackballs, motors and actuators for industrial applications, and position sensors, inertial sensors, navigation sub-systems, cockpit operator controls, circuit protection devices, force sensors, pressure sensors, optical scanners and servo systems for the aerospace and military industries; technological services relating to remote supervision, control, and monitoring of automated installations, machines or machine fleets; design and development of software for the management, control, monitoring, maintenance and remote diagnosis of automated installations, machines or machine fleets; installation, maintenance and updating of software for the management, control, monitoring, maintenance and remote diagnosis of automated installations, machines or machine fleets; online provision of computer applications and software for the management, control, monitoring, maintenance and remote diagnosis of automated installations, machines or machine fleets; technological services relating to remote management, supervision, and control of computer installations, machines or machine fleets via communication systems; research, design and technological consultancy services in the field of electrical and electronic apparatus and instruments; custom design engineering and consultancy services; customized product design services; custom design and engineering of position detectors; custom design and engineering of pressure switches; custom design and engineering of pneumatic logic components; custom design and engineering of electro pneumatic valves; custom design and engineering of industrial vacuum components; custom design and engineering of compressed air automation systems; custom design and engineering of DC motors; custom design and engineering of brush dc motors; custom design and engineering of brushless dc motors; custom design and engineering of rotary voice coil actuators; custom design and engineering of linear voice coil actuators; custom design and engineering of smart voice coil actuators; custom design and engineering of brushless dc motor controllers; custom design and engineering of dc motor controllers; custom design and engineering of brush dc motor controllers; custom design and engineering of voice coil actuators; custom design and engineering of GPS; custom design and engineering of inertial navigation systems; custom design and engineering of inertial measurement unit; custom design and engineering of multi-axis inertial sensing system; custom design and engineering of angular gyroscope; custom design and engineering of analog gyroscope; custom design and engineering of remote control circuit breakers; custom design and engineering of circuit breakers; custom design and engineering of timers; custom design and engineering of relays; custom design and engineering of control relays; custom design and engineering of counters; custom design and engineering of safety relays; custom design and engineering of temperature controllers; custom design and engineering of cockpit controls; custom design and engineering of speed brake; custom design and engineering of landing gear control; custom design and

engineering of steering handwheel; custom design and engineering of flight spoiler control level; custom design and engineering of optical rotary encoders; custom design and engineering of magnetic rotary encoders; custom design and engineering of hall effect sensors; custom design and engineering of rotary and linear potentiometers; custom design and engineering of draw wire sensors; custom design and engineering of inclinometers; custom design and engineering of electronic modules; custom design and engineering of wireless encoder interface; custom design and engineering of inductive proximity sensors; custom design and engineering of inductive sensors with remote electronics; custom design and engineering of digital readout systems; custom design and engineering of linear encoders; custom design and engineering of digital readout encoders; custom design and engineering of ceramic capacitive pressure sensors; custom design and engineering of silicon capacitive pressure sensors; custom design and engineering of panel mount solid state relays; custom design and engineering of PC board mount solid state relays; custom design and engineering of din rail mount solid state relays; custom design and engineering of plug-in solid state relays; custom design and engineering of solid state relay timers; custom design and engineering of control solid state relays; custom design and engineering of digital input/output modules; custom design and engineering of heat sink and solid state relays assemblies; custom design and engineering of limit switches for industrial applications; custom design and engineering of limit switches for aerospace and defense applications; custom design and engineering of limit switches; custom design and engineering of microswitches; custom design and engineering of manually operated switches; custom design and engineering of power technologies; custom design and engineering of power switching; custom design and engineering of power management; custom design and engineering of power storage.
