PRACTICE DIRECTION NO. 2 OF 2005
REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

PRACTICE DIRECTION NO. 2 OF 2004
HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (b) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Dated this 1st day of July 2004.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 09

Semiconductor components, integrated circuits, semiconductor chips, semiconductor chip sets, circuit board assemblies, computer components, electronic components; all the aforesaid goods being for communications; control software, interface software and communications software; semiconductor component layouts in electronic form; telecommunications apparatus, instruments, equipment and installations; computers, computer peripherals, computer networking and computer configuration systems, all being for use with telecommunications apparatus, instruments and equipment; telecommunications multiplexes, networks, and switchboards; modems; telephones; telephone aerials and aerial installation components; telephone receivers and recorders; navigation and location apparatus and instruments; electronic and computer apparatus and instruments for determining precise geographical locations of aircraft, marine vessels, land vehicles, human beings and animals; electronic and computer apparatus and instruments for surveying, mapping, tracking and navigation, including marine, aviation, land vehicle and human being and animal tracking and navigation; location sensors, software, receivers and transmitters; location systems software and hardware; data carriers pre-recorded with software as aforesaid; computer hardware and software for use in global positioning and wireless navigation and satellite communications; computer software for improving voice signal quality and the intelligibility of speech content used in voice interface systems, command and control systems, radio intercom systems, microphone systems, wireless communications systems and telecommunications systems; microphone systems comprising a microphone unit and digital signal processors; computer hardware and computer software; computer programs; computer firmware; computer hardware and software for electronic advertisement and messaging and location services; mobile computing and operating platforms; mobile computing and operating platforms consisting of computer software, data transceivers, and wireless networks for the collection, reporting and analysis of business data related to location services; computer hardware and software for tracking, monitoring and analyzing shopping activity; software applications for cellular phones, smartphones, PDAs, and mobile web devices; mobile software applications; downloadable electronic games; software to enable uploading, posting, showing, displaying, tagging, blogging, sharing or otherwise providing electronic media or information; computer software for wireless content delivery; computer application software for mobile phones; downloadable software in the nature of a mobile application for the transmission of messages among computer users; software and software applications to enable transmission, access,

CSR

organization and management of text messaging, instant messaging, online blog journals, text, web links, and images via the Internet and other communications networks; software for accessing information on a global computer network; downloadable software platforms for social networking that may be accessed via the Internet, computers and wireless devices; cellular phones, smartphones, PDAs, and mobile web devices; communications hardware and peripherals; communications software; telecommunications hardware and peripherals; telecommunications software and installations; computers, computer peripherals, computer networking and computer configuration systems; software for recording, manipulating and editing sound and images; software for recording, editing and printing all types of products, images, text, graphics, photographs, including two dimensional and three dimensional designs; software for wireless connectivity; software, apparatus and peripherals for weighing and measuring, including voice and motion-generated commands and controls; electric and electronic apparatus for use with multi-media entertaining systems; electronic components for wireless and mobile communication systems; telecommunications apparatus, equipment, parts, fittings and electronic components for all the aforesaid goods; communications apparatus, equipment, parts, and fittings; electronic components for all the aforesaid goods.

Class 35

Provision of third-party advertisements to consumers; collection and analysis of business data; preparation of business reports relating to location services for business data and analytics; advertising; promotional and marketing activities; promoting the goods and services of others via a global computer network; promoting goods and services through search engine results and reporting; providing marketing and promotional consumer information, suggestions and recommendations in the field of consumer products and services; compilation, management and maintenance of computer databases in the field of consumer products and services; collection of information relating to market analysis; business analysis services relating to consumer response.

Class 38

Electronic message services relating to location; electronic transmission and streaming of data in relation to location services for digital media content for others via global and local computer networks; telecommunications; transfer of data by telecommunications; mobile and fixed telecommunications services; communications services; transmission of text, messages, sound and/or pictures; telecommunication and/or communication and/or broadcast and/or transmission of audio visual content; communication by computer, electronic mail, message sending and receiving services; wireless digital messaging services; information, advisory and consultancy services relating to all the aforesaid.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; design and development of telecommunications apparatus, instruments and equipment; advice and consultancy in relation to computer networking applications; design and development of software for recording, manipulating and editing sound and images; design and

development of software for recording, editing and printing images, text, graphics and photographs; design and development of software for wireless connectivity; design and development of software, apparatus and peripherals for weighing and measuring; design and development of communications apparatus, instruments and equipment; design and development of multimedia apparatus, instruments and equipment; design and development of sound and image carriers; design and development of hardware and software for image processing; design and development of software and hardware for navigational apparatus, instruments and equipment; design and development of software and hardware for determining precise geographical locations of aircraft, marine vessels, land vehicles, human beings and animals; design and development of software and hardware for surveying, mapping, tracking and navigation; design and development of location systems software and hardware; design and development of telecommunications software, hardware and peripherals; design, installation, maintenance and updating of computer software; design of computer hardware; design and development of peripheral apparatus for computer hardware and software; computer system design; computer programming; design and development of software and hardware for electronic advertisement and messaging and location services; design and development mobile computing and operating platforms; design and development of software and hardware for tracking, monitoring and analyzing shopping activity; design and development of software and hardware for cellular phones, smartphones, PDAs, and mobile web devices; design and development of software and hardware to enable uploading, posting, showing, displaying, tagging, blogging, sharing or otherwise providing electronic media or information; design and development of software and hardware for wireless content delivery; design and development of software for mobile phones; design and development of software applications to enable transmission, access, organization and management of text messaging, instant messaging, online blog journals, text, web links, and images via the Internet and other communications networks; design and development of software for accessing information on a global computer network; design and development of software platforms for social networking that may be accessed via the Internet, computers and wireless devices; advice and consultancy in relation to all of the aforementioned services.

Class 45

Computer software licensing; licensing of computer software for improving voice signal quality and the intelligibility of speech content, for telecommunications, for voice interface systems, for command and control systems, for radio intercom systems, for microphone systems, and for communications systems; licensing services; licensing of software and hardware; licensing of intellectual property and industrial property; licensing of technology; licensing of communications systems; licensing of wireless communications systems; licensing of telecommunications software; licensing of location and data assistance; licensing of location and data services; consultancy, information and advisory services relating to all the aforesaid services.

Priority Claims:

Class 09

01/07/2013

European Union

Semiconductor components, integrated circuits, semiconductor chips,

semiconductor chip sets, circuit board assemblies, computer components, electronic components; all the aforesaid goods being for communications; control software, interface software and communications software; semiconductor component layouts in electronic form; telecommunications apparatus, instruments, equipment and installations; computers, computer peripherals, computer networking and computer configuration systems, all being for use with telecommunications apparatus, instruments and equipment; telecommunications multiplexes, networks, and switchboards; modems; telephones; telephone aerials and aerial installation components; telephone receivers and recorders; navigation and location apparatus and instruments; electronic and computer apparatus and instruments for determining precise geographical locations of aircraft, marine vessels, land vehicles, human beings and animals; electronic and computer apparatus and instruments for surveying, mapping, tracking and navigation, including marine, aviation, land vehicle and human being and animal tracking and navigation; location sensors, software, receivers and transmitters; location systems software and hardware; data carriers pre-recorded with software as aforesaid; computer hardware and software for use in global positioning and wireless navigation and satellite communications; computer software for improving voice signal quality and the intelligibility of speech content used in voice interface systems, command and control systems, radio intercom systems, microphone systems, wireless communications systems and telecommunications systems; microphone systems comprising a microphone unit and digital signal processors.

Class 42

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; computer software for enabling consumers, including utility and infrastructure customers, to track, view, and monitor utility and infrastructure operational and commodity consumption information, namely, information related to usage analysis, cost analysis, bill analysis, bill estimation, energy budgeting, neighborhood comparisons, community analysis, environmental analysis, rate comparisons, weather modeling, and HVAC modeling, as well as to receive related reports; computer hardware; computer software and networking equipment, namely, network hardware and software for developing, securing, monitoring, configuring and managing machine to machine networks; computer software and networking equipment, namely, network hardware and software for securing, monitoring and managing energy in the public utilities, gas utilities, electric utilities and water utilities industries as well as in managing operational and commodity information in the utility and infrastructure industries; computer software and networking equipment, namely, network hardware and software for data collection applications, namely, distribution automation and demand side management applications; communications networking systems consisting of computer hardware, WAN (wide area network) operating software, and software enabling customers to communicate with, manage, configure, provide security for, and control in home appliances and electronic devices and distribution automation communications devices; radio frequency wireless communications technology, namely, network interface devices, relays, access points, and computer network bridges; one-way and two-way automated meter reading devices; computer hardware and software for use in transmitting data one-way and two-way between a data computing network and remote communications devices, namely, wireless network repeaters, routers, personal computers, laptop computers, cellular phones and handheld computers; electronic interface modules for receiving and transmitting utility and infrastructure operational and commodity usage-related information and requests between and among commodity meters, electronic vehicle charging stations, electronic devices and a host computer over a wide area network and a local area network; computer database management software used for receiving and monitoring utility and infrastructure operational and commodity usage information from multiple remote commodity meters in the public utilities, gas utilities, electric utilities, water utilities, and infrastructure industries; electric utility meters, namely, gas meters, electric meters, and water meters; network interface cards; gateway routers in the nature of computer control hardware;

electronic devices, namely, radio frequency repeaters used in long range communication for tracking and monitoring utility and infrastructure operational and commodity usage and advanced meter reading data; advanced meter communications devices, namely, transmitters, receivers and antennas used to collect, store and process consumption data, distribution automation data, demand response data and other information in the utility and infrastructure fields.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; computer services for others, namely, implementing and operating computer networks comprised of computer hardware and software for securing, monitoring and managing machine to machine networks; computer services for others, namely, implementing and operating computer networks comprised of computer hardware and software for receiving and transmitting energy-related information and requests between and among commodity meters, securing, monitoring and managing utility distribution equipment and monitoring customer utility usage; computer software design; technical support, namely, monitoring of network systems and troubleshooting in the nature of diagnosing computer software problems, diagnosis of computer hardware problems through the use of software; design and development of computer systems for the collection, storage and transmission of data; software as a service (SAAS) services, namely, hosting software for use by others for securing, monitoring and managing machine to machine networks; software as a service (SAAS) services, namely, hosting software for use by others for receiving and transmitting energy-related information and requests between and among utility meters, securing, monitoring and managing utility distribution automation and demand response data and monitoring customer utility usage; software as a service (SAAS) services featuring software that allows energy consumers, including public utility customers, to view and monitor energy consumption.

Priority Claims:

Class 09

02/08/2013

United States of America

Computer software for enabling consumers, including utility and infrastructure customers, to track, view, and monitor utility and infrastructure operational and commodity consumption information, namely, information related to usage analysis, cost analysis, bill analysis, bill estimation, energy budgeting, neighborhood comparisons, community analysis, environmental analysis, rate comparisons, weather modeling, and HVAC modeling, as well as to receive related reports; computer hardware; computer software and networking equipment, namely, network hardware and software for developing, securing, monitoring, configuring and managing machine to machine networks; computer software and networking equipment, namely, network hardware and software for securing, monitoring and managing energy in the public utilities, gas utilities, electric utilities and water utilities industries as well as in managing operational and commodity information in the utility and infrastructure industries; computer software and networking equipment, namely, network hardware and software for data collection applications, namely, distribution automation and demand side management applications; communications networking systems consisting of computer

hardware, WAN (wide area network) operating software, and software enabling customers to communicate with, manage, configure, provide security for, and control in home appliances and electronic devices and distribution automation communications devices; radio frequency wireless communications technology, namely, network interface devices, relays, access points, and computer network bridges; one-way and two-way automated meter reading devices; computer hardware and software for use in transmitting data one-way and two-way between a data computing network and remote communications devices, namely, wireless network repeaters, routers, personal computers, laptop computers, cellular phones and handheld computers; electronic interface modules for receiving and transmitting utility and infrastructure operational and commodity usage-related information and requests between and among commodity meters, electronic vehicle charging stations, electronic devices and a host computer over a wide area network and a local area network; computer database management software used for receiving and monitoring utility and infrastructure operational and commodity usage information from multiple remote commodity meters in the public utilities, gas utilities, electric utilities, water utilities, and infrastructure industries; electric utility meters, namely, gas meters, electric meters, and water meters; network interface cards; gateway routers in the nature of computer control hardware; electronic devices, namely, radio frequency repeaters used in long range communication for tracking and monitoring utility and infrastructure operational and commodity usage and advanced meter reading data; advanced meter communications devices, namely, transmitters, receivers and antennas used to collect, store and process consumption data, distribution automation data, demand response data and other information in the utility and infrastructure fields.

Class 42

02/08/2013

United States of America

Computer services for others, namely, implementing and operating computer networks comprised of computer hardware and software for securing, monitoring and managing machine to machine networks; computer services for others, namely, implementing and operating computer networks comprised of computer hardware and software for receiving and transmitting energy-related information and requests between and among commodity meters, securing, monitoring and managing utility distribution equipment and monitoring customer utility usage; computer software design; technical support, namely, monitoring of network systems and troubleshooting in the nature of diagnosing computer hardware and software problems; design and development of computer systems for the collection, storage and transmission of data; software as a service (SAAS) services, namely, hosting software for use by others for securing, monitoring and managing machine to machine networks; software as a service (SAAS) services, namely, hosting software for use by others for receiving and transmitting energy-related information and requests between and among utility meters, securing, monitoring and managing utility distribution automation and demand response data and monitoring customer utility usage; software as a service (SAAS) services featuring software that allows energy consumers, including public utility customers, to view and monitor energy consumption.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

The following claim is made in the International Registration: Colours claimed: Blue and white. The mark consists of an oblique "S" design and "O" design with shades of blue; the central blank part is white.

Class 09

DNA chips; chromatography apparatus for laboratory use; fiber scopes for industrial use; borescopes; endoscopes for industrial use; light source apparatus for use in photographic apparatus and instruments; light source apparatus for use in optical machines and apparatus; photographic apparatus and instruments, namely, photographic cameras and lenses for photographic apparatus; cameras; magnifying glasses; biological microscopes; polarizing microscopes; microscopes; video microscopes; industrial probes not for medical use; automatic combustion control machines and instruments; automatic fluid-composition control machines and instruments; automatic liquid-flow control machines and instruments; automatic pressure control machines and instruments; flow meters; water meters; digital cameras for microscopes; light source apparatus for use in optical communications; liquid crystal display panels; video monitors; computer monitors; optical disc players; optical disc recorders; digital audio players; digital audio recorders; digital video players; digital video recorders; television receivers; portable audio players; smart phones; mobile phones; navigation apparatus for vehicles on-board computers; head-mounted video displays; video microscopes for medical use; video monitors for medical use; video recorders for medical use; printers for medical use; digital cameras; video cameras; electron microscopes; video processors for use with medical and surgical apparatus and instruments; video processors for

medical endoscopes; blank optical recording media; blank magnetic recording media; personal digital assistants for electronic books; electronic book reader; electronic downloadable publications, namely, magazines, books, manuals and newspapers for use by medical professionals in the field of science and medicine; tablet computers; notebook computers; computers; computer peripheral devices; printers; downloadable computer software for storing, managing, processing, browsing and transmitting image data; microscopic software to control microscopes, capture images, and process and analyze images captured by digital imaging devices for medical use; software for the operation of medical apparatus and instruments, namely, medical and surgical endoscopes, a video endoscope, a video printer, a system controller, a monitor, a display panel, an operating panel, a remote controller; image analysis processing software for microscopes or endoscopes; computer software for use in recording endoscopic procedures; software for controlling and operating technical endoscopes; computer software for use in database management and computer graphics software for use in medical applications in hospital operating rooms; computer hardware and software for medical imaging apparatus; software for medical imaging equipment, namely, for interpreting the results of endoscopes; charge-coupled devices (CCD); eyeglasses and goggles.

Class 10

Probes for medical purposes; portable light source for use with rigid and flexible medical endoscopes; medical operating lamps; lamps for medical purposes; electric scalpels for surgical purposes; biopsy forceps; surgical clip; lasers for medical purposes; polypectomy snares; high frequency snares for endoscopic membranectomy; rigid and flexible medical endoscopes; remote controlled fluid management system, consisting of a medical pump device, tubes, adaptors, and power operated medical tools for endoscopic surgery and which may be used in conjunction with video monitor; control apparatus of gas supply and emission for medical apparatus; medical apparatus for use in the sanitization and sterilization of endoscopes; capsule endoscope that is swallowed, which moves through the digestive tract and is excreted for use in diagnosis and treating diseases of the gastrointestinal tract; digital video scopes for medical use; endoscopes for medical use; surgical endoscopes; gastro scopes; apparatus for blood analysis; blood pressure monitors; cannulae; cannulae for anaesthetics with receptacles; catheters; cerclage wires; clinical thermometers; defibrillators; devices for measuring blood sugar; devices for measuring intracranial pressure; disposable syringes; dressing forceps for surgical use; electrocardiographs; electrodes for medical use; endoprostheses; endoscopic equipment; endoscopy cameras; high frequency electromagnetic therapy apparatus; hydrophilic guide wire to track catheters; intra-ocular lenses; irrigators for medical use; knives for medical use; lasers for surgical and medical use; medical and surgical catheters; medical and surgical knives for cutting human or animal tissue and organs; medical and surgical laparoscopes; medical cutting devices; medical devices for dosimetry purposes in the field of radiotherapy; medical diagnostic apparatus, analytical apparatus for medical purposes and blood pressure measuring apparatus; medical hearing instruments and parts of such devices; medical instruments for cutting tissue; medical operating lamps; medical radiation apparatus; medical scissors; medical stents; medical ultrasound apparatus; medicinal catheters; needles for medical purposes; patient monitoring sensors and alarms; pulse meters; sphygmomanometers; stents; stethoscopes and

sphygmomanometers; surgical amputaters; surgical devices and instruments; surgical instruments for use in orthopedic and spinal surgery; surgical perforators; telemetry devices for medical applications; thorascopes; ultrasonic medical diagnostic apparatus; medical apparatus for sterilization; medical and surgical endoscopic systems, comprising medical and surgical endoscopes, video processors and light sources and which may be used in conjunction with digital image filing units and washing machines for medical endoscopes; medical apparatus, namely, light sources and electrosurgical operating instruments for use with endoscopes and which may be used in conjunction with workstations comprising a computer terminal, a display screen and a central data processor for controlling video processors; medical and surgical laparoscopes.

Class 37

Installation of medical machines and apparatus; repair of fiber scopes for medical purpose; repair or maintenance of endoscopes for industrial purpose; repair or maintenance of fluid management system, consisting of a medical pump device, tubes, adaptors, remote control, video monitors and power operated medical tools used in endoscopic surgery; repair or maintenance of apparatus for cleaning or sanitizing of endoscopes; repair or maintenance of digital video scopes for medical use; maintenance of apparatus for recording and playing images for medical purposes; maintenance of apparatus for recording and playing videos for medical purposes; repair or maintenance of medical machines and apparatus; repair or maintenance of endoscopes for medical use; repair or maintenance of thorascopes; repair or maintenance of microscopes for medical use; repair or maintenance of microscopes; repair or maintenance of optical machines and instruments; repair or maintenance of photographic machines and apparatus; repair or maintenance of electronic machines; repair or maintenance of head-mounted video displays; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of measuring and testing machines and instruments; sanitization or sterilization of digital video scopes for medical use; sanitization or sterilization of medical apparatus and instruments; providing information about sanitization or sterilization of digital video scopes for medical use and other medical apparatus and instruments.

Class 41

Medical training and teaching; medical training and teaching relating to procedure, techniques and instruments used for endoscopic surgery; organisation of conferences and symposia in the field of medical science; providing online non-downloadable electronic publications in the field of medical industry; production of videos in the field of medical education and medical information (not for movies or television programs and not for advertising or publicity); publication of books, namely training materials for medical professionals; publishing and issuing scientific papers in relation to medical technology.

Class 42

Design of fluid management system, consisting of a medical pump device, tubes, adaptors, remote control, video monitors and power operated medical tools used in endoscopic surgery; maintenance of computer software for fluid management system, consisting of a medical pump device, tubes, adaptors, remote control, video monitors

and power operated medical tools used in endoscopic surgery; design of apparatus for recording and playing images for medical purposes; design of apparatus for recording and playing videos for medical purposes; planning and layout design services for integrated layouts of medical apparatus and video equipment in operating rooms; design and development of integration of computer systems with medical apparatus and video equipment; computer programming; computer software design, computer programming, or maintenance of computer software; computer programming in the medical field; providing non-downloadable computer software for storing, managing, processing, browsing and transmitting image data via the Internet; rental of image data storage area, namely, rental of space on database server to third parties; technological advice relating to performance and operation of computers, automobiles and other machines that require high levels of personal knowledge, skill or experience of the operators to meet the required accuracy in operating them; providing temporary use of non-downloadable computer program for use in database management and computer graphics software for use in medical applications in hospital operating rooms; providing non-downloadable computer software for storing, managing, processing, browsing and transmitting image data; providing non-downloadable microscopic software to control microscopes, capture images, and process and analyze images captured by digital imaging devices for medical use; providing non-downloadable software for the operation of medical apparatus and instruments, namely, medical and surgical endoscopes, a video endoscope, a video printer, a system controller, a monitor, a display panel, an operating panel, a remote controller; providing non-downloadable image analysis processing software for microscopes or endoscopes; providing non-downloadable computer software for use in recording endoscopic procedures; providing non-downloadable software for controlling and operating technical endoscopes; providing non-downloadable computer software for use in database management and computer graphics software for use in medical applications in hospital operating rooms; providing non-downloadable computer software for medical imaging apparatus; providing non-downloadable software for medical imaging equipment, namely, for interpreting the results of endoscopes.

Priority Claims:
