REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Computer hardware and software for processing, authorizing, and transferring data between point of sale devices and contact less smart cards; computer hardware and software for configuring and processing smart cards; computer software and hardware for the sale and purchase of tickets; computer software for financial analysis and accounting in the field of consumer spending; computer hardware, computer software, computer operating systems and computer peripherals therefor for integrating fare collection and payment system transactions; computer hardware, computer software, computer operating systems and computer peripherals therefor for fare collection and payment; computer hardware, computer software, computer operating systems and computer peripherals therefor for data and transaction management and analyses; computer hardware, computer software, computer operating systems and computer peripherals therefor for financial settlement and clearing; computer hardware, computer software, computer operating systems and computer peripherals therefor for tracking and influencing consumer behavior; computer hardware, computer software, computer operating systems and computer peripherals therefor for informing consumers' travel decisions; computer hardware, computer software, computer operating systems and computer peripherals therefor for tracking people's use of transportation and mass transit; computer hardware, computer software, computer operating systems and computer peripherals therefor for customer relationship management; electronic fare collection equipment sold as a unit, namely, smart cards and magnetic encoded cards containing programming for use with electronic fare collection, fare collecting machines, ticket dispensing machines, magnetic card processors, smart card readers, ticket processors, turnstiles, electronic control processors; automated parking systems, namely, computer software to run parking fee collection devices and computer hardware, fare collecting machines, ticket dispensing machines, magnetic card processors, smart card readers, ticket processors, electronic control processors, smart cards and magnetic encoded cards containing programming for use with automated parking; automatic fare collection systems for rail, bus and parking lots sold as a unit, consisting of encoded smart cards containing programming for fare collection, magnetic encoded cards containing programming for fair collection, card programming equipment used for programming the foregoing encoded smart cards and magnetic encoded cards, automatic payment machines, ticket issuing and validating machines, electronic processors of smart cards and tickets and payments, electronic point of sale devices, smart card readers, fare collecting machines, entry/exit terminals, entry/exit gates, and wireless communication transponders and radio receivers; serialized media, namely, encoded smart cards containing programming used for payment systems in the transportation field; magnetic encoded cards used for payment systems in the transportation field; radio

frequency identification (RFID) tags for use in connection with payment for services, namely, contact less credentials used for payment systems in the transportation field; encoded smart cards containing programming for use with payment systems in the transportation field; RFID tags used as contact less credentials for account-based payment in the transportation field; magnetically encoded stored value cards for use with payment systems in the transportation field; smart card readers; magnetic encoded card readers; near field communication (NFC) technology-enabled readers.

Class 36

Financial analysis, consultation and clearing house services in the field of electronic fare collection systems, automated parking systems and public transportation; financial consulting services in the field of electronic fare collection systems, automated parking systems and public transportation.

Class 37

Consulting services with regard to the installation and maintenance of electronic fare collection systems; consulting related to the installation and maintenance of computer hardware systems for processing, authorizing and transferring data between point of sale devices and contact less smart cards; consulting related to the installation and maintenance of computer hardware related to smart cards and computer hardware related to the sale and purchase of tickets; computer hardware technical support services for the maintenance of automatic fare collection systems for rail, bus, and parking lots; computer hardware technical support services for automatic fare collection systems for rail, bus, and parking lots, namely, troubleshooting in the nature of the repair of computer hardware.

Class 39

Transportation consulting services in the field of automated parking systems and public transportation; traffic flow consultation services in the field of public transportation.

Class 40

Custom manufacture of electronic fare collection systems and automated parking systems.

Class 42

Custom software design for others; consulting related to the design, development, engineering, operation and maintenance of software for computer systems for processing, authorizing and transferring data between point of sale devices and contact less smart cards, software related to smart cards, transport ticketing computer systems and software related to the sale and purchase of tickets; engineering technical support services and software technical support services all for the design, development and maintenance of computer software for automatic fare collection systems for rail, bus, and parking lots, namely, troubleshooting of software problems; consulting services with regard to the design and development of electronic fare collection systems; consulting related to the design, development and engineering of computer hardware related to smart cards and computer hardware related to the sale and purchase of ticket; technological consulting related to the operation of computer hardware related to smart cards and computer hardware related to the sale and purchase of tickets; computer hardware technical support services for the design, development, and operation of automatic fare collection systems for rail, bus, and parking lots, namely, troubleshooting in the nature of diagnosing computer hardware problems; design and development of computer hardware and software for use in the field of

public transportation; engineering and design services in the fields of automatic revenue collection systems; technical consultation services related to the design of electronic fare collection systems and automated parking systems used in public transportation.

Oils for technical or industrial purposes, including compressor oils, gear oils and motor oils; lubricating oils; lubricants; industrial greases; lubricating greases; paraffin; dust absorbing compositions; dust wetting compositions; dust binding compositions.

Class 06

Pipes of metal, including pressure pipes of metal; compressed air ducts of metal; collars of metal for fastening pipes; junctions of metal for pipes; elbows of metal for pipes; common metals and their alloys; building materials of metal; cables and wires of metal, not for electric purposes; ironmongery and small items of metal hardware; goods of metal, included in this class; branching pipes of metal; fittings of metal for compressed air ducts; fittings of metal for building; clips of metal for cables and pipes; containers of metal for air, compressed gas or liquid air; closures of metal for containers; metal sheets; flanges (collars) of metal; masts of metal; grease nipples; door fittings of metal; all aforesaid goods exclusively for and/or in connection with compressed air generation, compressed air distribution and compressed air treatment; parts of all the aforesaid goods, included in this class.

Class 07

Machines and mechanical apparatus for the generation of compressed air, vacuum and air flow, included in this class; compressors (machines), including reciprocating compressors and screw compressors; blowers for the compression, exhaustion and transport of gases; blowing machines; air suction machines; vacuum pumps being machines; parts of the aforesaid goods (included in this class), including central screw compressor units or central reciprocating compressor units; air compressors; pneumatic transporters; compressed air machines; compressed air motors; compressed air pumps; compressed air vessels being parts of machines; pressure tanks being parts of machines; pumps being parts of machines, motors or engines; turbines, other than for land vehicles; machine tools; pneumatic tools; filters being parts of machines, motors or engines, except those for installation in vehicles and caravans, yet not except those for installation in portable compressors; air filters for motors and/or compressors, except those for installation in vehicles and caravans, yet not except those for installation in portable compressors; catalytic converters for the adsorption of hydrocarbon vapors (gas catalytic converters); activated carbon absorbers and catalytic converters, being parts of machines; activated carbon filters for use in compressed air systems, being parts of machines; high pressure filters being parts of machines; condensate separators being parts of machines; vacuum cleaners; cooling radiators for motors and engines; coolers for motors, compressors or blowers; air condensers; condenser installations; de-aerators being parts of machines; oil separators being parts of machines, including de-oilers for separating oil from air; fittings for compressors and machines; fittings for engine boilers; taps being parts of machines or motors; seals being parts of machines; compressed air main charging systems (control devices for the regulation of compressed air, being parts of machines); compressed air reservoirs being parts of machines; regulators being parts of machines; speed governors for machines and

motors; pressure regulators being parts of machines; valves being parts of machines, including pressure valves; pressure reduction valves being parts of machines; pneumatic controls for machines and motors; motors, other than motors for land vehicles; electric motors, other than for land vehicles; generators of electricity; machine housings; mounts for machines; stands for machines; tables for machines; couplings and driving belts, other than for land vehicles; gear boxes, other than for land vehicles; ball-bearings; shaft couplings being machines; cranks being parts of machines; crank shafts; machine wheels; axles for machines; pump diaphragms; superchargers; turbo compressors; fans for motors; anti-pollution devices for motors and/or compressors, being parts of machines and motors; heat exchangers being parts of machines; parts of all the aforesaid goods, included in this class; safety accessories for compressors, namely safety valves, regulating valves; compressed air reservoirs being parts of compressors, machines and motors; control and regulating devices for compressors, blowers or vacuum pumps; apparatus and devices for machine control; regulating and safety accessories for compressors.

Class 09

Electric and/or electronic control and regulating devices for compressors, blowers, vacuum pumps, or air treatment apparatus and air treatment devices; electric and/or electronic apparatus and devices for process control and machine control; electric and/or electronic devices for the remote control of industrial processes; electric and/or electronic regulating devices for compressors, blowers and/or vacuum pumps, included in this class; electric and/or electronic control devices for compressors, blowers and/or vacuum pumps, included in this class; electric and electronic components and units, included in this class; integrated circuits; electronic and/or optoelectronic components and units, included in this class; apparatus and instruments for weak-current engineering, namely for telecommunications, high-frequency engineering, measurement engineering and control engineering; apparatus and instruments for power engineering, namely for conducting, transforming, storing, regulating and control; measuring devices, automatic time switches, automatic weighers; data processing devices and apparatus, including data acquisition equipment and data acquisition apparatus; computer programs recorded on data carriers and/or in data memories; computers and installations consisting entirely or mainly thereof; computer output equipment, including printers, recorders, plotters, terminals, screens and other visual display units; apparatus and devices for data transmission, including installations consisting entirely or mainly thereof; data memories, namely floppy discs, magnetic hard discs and magnetic tapes, magnetic bubble memories, solid-state memories, tape decks, optically and/or mechanically encoded storage discs and storage tape systems; electrotechnical and electronic apparatus and devices, included in this class; sensors for the acquisition of physical quantities, included in this class; devices for the recording, transmission and reproduction of sound, images and data; parts of all the aforesaid goods, included in this class.

Class 11

Apparatus, devices and machines for air treatment, including for compressed air conditioning, mainly for the separation and deposition of solid and/or liquid contamination of the compressed air; air filtering installations, except those for installation in vehicles and caravans, yet not except those for installation in portable compressors; air purifying apparatus and air purifying machines; air dryers, including compressed air dryers; desiccant (adsorption) dryers; refrigeration dryers; membrane dryers; drying apparatus and drying installations; drying devices;

refrigerating apparatus, refrigerating machines and refrigerating installations in connection with apparatus, devices or installations for generating, distribution and/or preparation of compressed air; air cooling devices; air coolers, including compressed air coolers; condensate drains for compressed air applications being parts of refrigerating devices; heat exchangers, included in this class; apparatus and machines for the treatment of condensate water by means of purification and/or filtration; air filters for air conditioning; filters being parts of household or industrial installations; filter systems, including air filtering installations; compressed air filters; dust filters for use in compressed air installations; air purifying lamps having a germicidal effect; apparatus and devices for the sterilization of air; regulating and safety accessories for gas devices; taps for pipes; control and regulating devices for air treatment apparatus and air treatment devices; compressed air reservoirs being parts of the aforesaid goods of class 11; parts of all the aforesaid goods, included in this class; pipe line spigots of metal.

Class 16

Manuals; paper, cardboard and goods made from these materials, included in this class; printed matter; photographs; computer programs in printed form.

Class 37

Construction of compressed air generation systems, compressed air distribution systems and compressed air treatment systems; installation, repair, maintenance and care of the goods mentioned in classes 6, 7, 9 and 11 of this application; installation services relating to apparatus, devices and installations for compressed air generation, compressed air distribution and compressed air treatment; installation and repair of compressors and compressor installations; plumbing; installation, maintenance and repair of machines for and/or in connection with compressed air generation, compressed air distribution and compressed air treatment; cleaning of compressors and compressed air installations; installation and repair of pipes, namely of pressure pipes; rental of air compressors.

Class 39

Distribution and supply of compressed air for third parties.

Class 40

Generation of energy and of compressed air; consultancy services for third parties in the field of generation of energy or of compressed air; air purification; air freshening (air conditioning); rental and leasing of installations serving the generation or supply of energy or of compressed air; generation of compressed air for third parties.

Class 41

Training and further training of engineers, including in the field of compressed air, compressors and compressed air applications; education; providing of training; film production; arranging and conducting of conferences and seminars.

Class 42

Technical planning of installations serving the generation, conduction, storing, release and/or treatment of compressed air; technical consultancy in relation to the development of technologies and technical components for compressed air systems; scientific and industrial research; computer programming; engineering services; construction drafting; technical project studies; quality control; preparation of reports relating to

engineering consultancy services; material testing; all of the aforesaid services exclusively in the fields of compressed air generation, compressed air distribution and compressed air treatment; engineering consultancy services in the field of compressed air generation, compressed air treatment and compressed air distribution; research in the fields of compressed air generation, compressed air treatment and compressed air distribution.
