Information Contained in This Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

GENERAL INFORMATION

References to “section” and “rule” in these notes are references to that section of the Trade Marks Act (Cap. 332, 1999 Ed.) and that rule of the Trade Marks Rules, unless otherwise stated.

Trade Marks Journal

This Journal is published by the Registry of Trade Marks in accordance with the direction of the Registrar under rule 86A.

Request for past issues published more than three months ago will have to be made in writing and is charged at \$12 per issue. It will be reproduced in CD-ROMs and it is to be collected at the following address:

Registry of Trade Marks

Intellectual Property Office of Singapore
51 Bras Basah Road #04-01
Plaza By The Park
Singapore 189 554

This Journal is published every Friday and on other days when necessary.

Official working hours of the Registry

The official working hours of the Registry are as follows:

Monday to Friday	: 0830 hours to 1730 hours
Saturday, Sunday and Public Holidays	: Closed

Payment at the counter should be made during the following time period:

Monday to Friday	: 0830 hours to 1700 hours
------------------	----------------------------

Enquiries

For enquiries relating to official notices and other information appearing in the Journal, please contact the Registry at the following telephone number:

6339-8616

Information on trade marks is available at the Registry's web site at:

<http://www.ipos.gov.sg>

Making Payment

IPOS accepts:

1. Payment by cheque (crossed), money order and bank draft (in Singapore Dollars and drawn on banks operating in Singapore). These should be addressed to the **Intellectual Property Office of Singapore**.
2. Payment by NETS, GIRO, CashCard, eNets Debit (Internet Banking), eNets Credit (Credit Card).

Information on the payment modes is available at the Registry's web site (<http://www.ipos.gov.sg>).

**PRACTICE DIRECTION NO. 1 OF 2009
HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days:

This Practice Direction will come into effect on 1st day of June, 2009.

A. Hours Of Business

Subject to rules 79(4) and 79(6A) of the Trade Marks Rules, the hours of business of the Registry shall be 8.30 am to 5.30 pm from Monday to Friday, except on a day which is an excluded day.

B. Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.
- (2) All Saturdays shall be excluded days for any business under the Trade Marks Act and Rules, where the time for doing the business expires on that date and where the business was not done by that date.

Dated this 14th day of May, 2009

PRACTICE DIRECTION NO. 3 OF 2006

HOURS OF BUSINESS AND EXCLUDED DAYS

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 15 December 2006.

A. Hours Of Business

Subject to rules 79(4) and 79(6A) of the Trade Marks Rules, the hours of business of the Registry shall be as follows:

- (a) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
- (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.

B. Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.
- (2) Subject to B(1), all Saturdays shall be excluded days for any business under the Trade Marks Act and Rules, where the time for doing the business expires on that date and where the business was not done by that date.

Dated this 15th day of November 2006.

PRACTICE DIRECTION NO. 2 OF 2005

REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

PRACTICE DIRECTION NO. 2 OF 2004

HOURS OF BUSINESS AND EXCLUDED DAYS

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (b) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Dated this 1st day of July 2004.

CHIAM LU LIN
ACTING REGISTRAR
REGISTRY OF TRADE MARKS

NOTICES AND INFORMATION PERTAINING TO TRADE MARK APPLICATION AND REGISTRATION PROCEDURES

A) GENERAL

Pre-2004 Circulars

Amendment to Specification

Presently, whenever the Registrar raises an objection to the specification of goods or services, the agent representing the applicant would write to the Registrar with a proposed amendment to the specification. Only if the Registrar agrees to the proposed amendment will the agent file Form TM 27 to effect the amendment. The processing of such letters by the Registrar slows down the registration process considerably.

To shorten the registration process, agents should file Form TM 27 to effect the amendment straightaway instead of writing to the Registrar for her confirmation. If agents are relying on precedents in support of the amendment, they should enclose such precedents with the Form TM 27.

Certificates of Registration

The Trade Marks Act 1998 was revised on 30 December 1999 and accorded the same chapter number as the repealed Trade Marks Act, that is, chapter 332. To facilitate the Registry's operations, for both applications made under the repealed Trade Marks Act and applications made under the Trade Marks Act 1998 which have been accepted for registration and are not subject to opposition proceedings, the Registrar will issue certificates of registration which are headed:

SINGAPORE
TRADE MARKS ACT
(CHAPTER 332)
CERTIFICATE ISSUED UNDER SECTION 15(5)

Description of Device on Form TM 4

The purpose of the description of device on Form TM 4 is to assist the Registrar in conducting a search for conflicting marks. The description need not be too detailed; a general description is sufficient.

Disclaimers of Chinese Characters and Foreign Characters

A disclaimer relating to Chinese characters is published in the Journal as follows:

Registration of this mark shall give no right to the exclusive use of the Chinese character(s) of which the hanyu pinyin is "_____".

For characters other than Chinese characters (for example, Japanese characters), the disclaimer reads:

Registration of this mark shall give no right to the exclusive use of the _____ character(s) of which the transliteration is "_____".

Examination Practice With Respect to Colours in Marks

To avoid any confusion, this notice documents the Registrar's practice in relation to the examination of :

- (i) trade marks consisting solely of colours; and
- (ii) trade marks consisting of colours as a component or as an element in combination with other elements or components.

Such examination practice has been effected by the Registrar in relation to both national applications and international registrations designating Singapore.

(i) Trade Marks Consisting Solely of Colours

Where the trade mark consists solely of colours, the Registrar will need to be satisfied that the colours per se are capable of distinguishing the applicant's goods or services from those dealt with by others. As it will be necessary to determine the precise scope of such a claim, it will be necessary for the applicant to provide a description of the claim in the application form. For the purpose of an illustration, if the trade mark sought for registration is the colour "neon pink" and the colour is applied to the packaging of the goods, an appropriate description would be: "The trade mark is the colour neon pink as applied to an aspect of packaging of the goods as claimed as shown in the representation of the mark on the application form". Such a description will enable the Registrar to examine the mark as filed.

(ii) Trade Marks Consisting of Colours As a Component of the Mark

Where the trade mark consists of colours in combination with other elements such as a letter, word, name, signature, numeral, device, brand, heading, label, ticket, shape, aspect of packaging, the trade mark will be examined as a whole. If the trade mark as a whole is capable of distinguishing the applicant's goods or services from those dealt with by others, the trade mark will be registered as filed, that is, in the colours as filed. The Registrar does not require a colour limitation in such a case. The Registrar will also not seek to clarify whether the colour(s) as an element of the mark constitute a distinctive feature of the mark or not as the mark will be examined as a whole and registration rights will be conferred on the mark as a whole.

Mark Numbers Preceded by the Letter "L"

Search reports obtained from the Registry and examination letters issued by the Registrar may contain references to marks with numbers preceded by the letter "L" instead of the letter "T". These are marks which have been recorded with the Registrar for purposes of rule 13. The prefix "T" refers to marks which are the subject matter of trade mark applications or registrations.

(Multiple Classes, this circular was removed on 3 July 2009)

Representation of Marks

Marks published in the Journal and reflected on the certificates of registration appear exactly as represented on the application forms. Applicants and agents are reminded to provide clear representations of marks on the application forms. The marks should also be of reasonably large size (but not larger than A4) to ensure that all the features are clearly shown.

Series Clause

For applications for registration published in the Gazette on or after 15 January 1999 for opposition purposes, the series clause should read as follows:

"Application for a series of _____ (number) marks."

Service of Documents in Opposition, Revocation, Invalidation and Rectification Proceedings

When filing notices of opposition, counter-statements and applications for revocation, invalidation or rectification with the Registrar, a copy of the same must be served on the relevant party or parties concerned. Please refer to Rules 29, 30, 31, 32, 56, 57, 58, 65, 66 and 66A of the Trade Marks Rules as amended by the Trade Marks (Amendment) Rules 2000.

The requirement of service of evidence on the relevant party or parties concerned remains unchanged. Please refer to Rules 32, 33, 34, 56, 59 and 66A.

It would be greatly appreciated if trade marks agents filing the aforesaid documents with the Registrar could indicate in their covering letters that they have served the necessary on the relevant party or parties concerned in compliance with the Rules.

Validity of Priority Claims

Under Section 10 of the Trade Marks Act 1999, a person may claim a right of priority for the registration of a trade mark from the date on which a corresponding application was filed in a "Convention country" ("Convention application") if the application for the registration of the trade mark is filed within 6 months after the date on which the Convention application is made. A "Convention country" refers to a country or territory, other than Singapore, which is a party to the Paris Convention or a member of the World Trade Organisation. For the purpose of assessing the validity of a priority claim, IPOS will assess whether the "Convention application" was filed in a relevant country which has already become a Convention country as at the date of the filing of the Convention application in the Convention country.

For example,

Trademark application filed in country A on 3 Oct 2001.

Country A became a member of the Paris Convention or WTO on 2 Jan 2002.

Trademark application filed in SG = 3 Feb 2002 (claims priority of earlier application in country A).

Question: Is the claim to priority (application filed in country A) in the Singapore application valid?

Answer: No

2004 Circulars

(Application to Register a Change in Ownership (TM 22), Circular No. 13/2004, dated 18 June 2004. This circular is replaced by Circular No. 3/2008, dated 1 February 2008)

(Application to Register a Licensee (TM 37), Circular No. 13/2004, dated 18 June 2004. This circular is replaced by Circular No. 24/2007, dated 29 June 2007)

(Marks published for opposition purposes, Circular No. 16/2004, dated 2 July 2004. This circular is replaced by Circular No. 8/2009, dated 3 July 2009).

Applications for registration of sound marks (Circular No. 25/2004, dated 17 December 2004)

To assist the Registrar in the examination of applications for registration of sound marks, the Registrar may request the applicant to submit 2 copies of a CD-ROM recording of the sound mark sought for registration.

2005 Circulars

(Translation of Non-English words, Circular No. 4/2005, dated 30 March 2005. This circular is replaced by Circular No. 17/2007, dated 7 May 2007)

Amendment of Typographical Errors in Class Numbers in Form TM 4 (Circular No. 21/2005, dated 21 October 2005)

An amendment of the class number in Form TM 4 may be amended by lodging Form TM 27 with fee for each amended class of goods / services, but only if

- (i) a re-search in the new amended class revealed no prior conflicting marks;
- (ii) all of the items in the specification did not fall under the class as filed but in one other class; and
- (iii) that mistake was obvious to a third party inspecting the Register.

Three examples have been provided for illustrative purposes.

Example 1:

An application was filed in Class 5 in respect of "clothing, hats and shoes". An amendment of the class number from "5" to "25" would be allowed.

Example 2:

An application was filed in Class 5 in respect of "all goods in this class". An amendment of the class number from "5" to "25" would not be allowed because it would not be obvious to a third party inspecting the Register that the correct class intended to be claimed was Class 25 and not Class 5. It was possible that the applicant intended to claim all goods in Class 5.

Example 3:

An application was filed in Class 5 in respect of "clothing, hats and pesticides". An amendment of the class number from "5" to "25" would not be allowed, even with the deletion of the item, "pesticides" because it would not be obvious to a third party inspecting the Register that the correct class intended to be claimed was Class 25 and not Class 5. Since "pesticides" was correctly claimed in Class 5, it was possible that the applicant intended to claim "pesticides" in Class 5 but had incorrectly classified "clothing and hats" in Class 5 as well. It would be necessary for the applicant to file a fresh application in Class 25 in respect of "clothing and hats".

Trade Marks Act (Chapter 332) (2005 Revised Edition) (Circular No. 24/2005, dated 16 December 2005)

Pursuant to Order Under Section 11(3) of the Revised Edition of the Laws Act (Chapter 275) [S 467/2005], the Trade Marks Act (2005 Revised Edition) came into operation on 31 July 2005.

The following provisions in the 1999 Revised Edition of the Trade Marks Act have been renumbered by the Law Revision Commissioners in the 2005 Revised Edition:

Statutes (Miscellaneous Amendments) (No. 2) Act 2005 (Act No. 42 of 2005) (Circular No. 25/2005, dated 23 December 2005)

Section 21 of the Statutes (Miscellaneous Amendments) (No. 2) Act 2005 which amends the Trade Marks Act will come into operation on 1 January 2006.

A summary of some of the amendments to the Trade Marks Act (Cap. 332, 2005 Ed.) are:

(a) Convention country

The definition of “Convention country” in section 2(1) is amended to provide that except in section 10 and paragraph 13 of the Third Schedule (claiming priority) “Convention country” includes Singapore.

(b) Examination of application for registration

An application for registration will be treated as withdrawn if the applicant fails to respond to the Registrar’s queries or objections regarding the registrability of the trade mark within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

(c) Collective marks

An application for registration of a collective mark will be treated as withdrawn if the applicant fails to file the regulations governing the use of the mark, pay the prescribed fee for lodging the regulations, or respond to the Registrar’s queries or objections regarding the registrability of the trade mark, within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

(d) Certification marks

An application for registration of a certification mark will be treated as withdrawn if the applicant fails to file the regulations governing the use of the mark, pay the prescribed fee for lodging the regulations, or respond to the Registrar’s queries or objections regarding the registrability of the trade mark, within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

Trade Marks (Amendment) Rules 2005 Notification (Circular No. 27/2005, dated 30 December 2005)

Trade Marks (International Registration) (Amendment) Rules 2005 Notification (Circular No. 27/2005, dated 30 December 2005)

The above Notifications were gazetted on 28 December 2005 and it declared that the Trade Marks (Amendment) Rules 2005 and Trade Marks (International Registration) (Amendment) Rules 2005 would come into operation on 1 January 2006.

Trade Marks (Amendment) Rules 2005

The following is a summary of some of the amendments in Trade Marks (Amendment) Rules 2005 which will come into force on 1 January 2006:

(a) Rule 7 : Service of documents

Non-fee bearing documents (except documents pertaining to hearings) may be sent to the Registry by facsimile transmission. However, each facsimile transmitted document must be legible and the responsibility for ensuring legibility rests with the sender.

(b) Rule 9 : Address for service

An address for service indicated on Form TM 19 and Form TM 24 is effective only for renewal matters and does not become the proprietor's address for service for all other matters pertaining to that trade mark.

(c) Rule 21 : Deficiencies in application

The amendment clarifies the actions that will be taken by the Registry if minimum filing requirements are not met.

(d) Rules 32, 33, 34 : Extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation/rectification proceedings

The second and subsequent requests for extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation/rectification proceedings have to be made on Form TM 50, for which a fee will be imposed.

(e) Rule 50 : Notice of renewal

The Registrar's notice to the proprietor informing him of the date of expiry of the trade mark registration will be sent to the proprietor's address for service for renewal purposes, that is, the address for service indicated on Form TM 19 or Form TM 24, if one has been lodged, or if none, to the proprietor's address for service.

(f) Rule 77B : Restoration of applications treated as withdrawn

Applications which are treated as withdrawn under the Act or Rules by reason that the applicant has failed to do any act on time may be restored by filing Form TM 40 with fee within three months from the date of the Registrar's notice informing the applicant of that fact.

(g) Removal of Forms TM 9, TM 14, TM 15 and TM 16

Forms TM 9, TM 14, TM 15 and TM 16 have been removed and Forms TM 4, TM 11, TM 12 and TM 13 respectively will be used in their place.

Trade Marks (International Registration) (Amendment) Rules 2005

The following is a summary of some of the amendments in the Trade Marks (International Registration) (Amendment) Rules 2005 which will come into force on 1 January 2006:

(a) Rule 5 : Specification of Goods/Services

The amendment clarifies that the Registrar is entitled to raise an objection against vague terms in the specification of goods / services of an International Registration designating Singapore.

(b) Rule 28 : Notification to International Bureau

The amendment clarifies that in relation to an international application, the Registry will notify the International Bureau where the basic application is treated as withdrawn and is not restored in accordance with the Trade Marks Rules.

Amendment of Trade Mark Forms

Some trade mark forms have been revised and the revised forms are to be used from 1 January 2006. A separate edition of the Trade Marks Journal containing a consolidation of forms to be used in proceedings before the Registrar will be available online at www.ipos.gov.sg from 30 December 2005.

The changes made to the forms are as follows:

- (a) All forms have been amended to incorporate information on the estimated time needed to complete the form.
- (b) Amendments have also been made to Forms TM 1, TM 4, TM 11, TM 12, TM 13, TM 19, TM 22, TM 24, TM 37 and MP 1.
- (c) Form TM 4, TM 11, TM 12 and TM 13 will now be used in place of Forms TM 9, TM 14, TM 15 and TM 16 respectively.
- (d) The Trade Marks (Amendment) Rules 2005 also introduce:
 - I. Form TM 40 for restoration of an application treated as withdrawn. The fee for this form is \$130; and
 - II Form TM 50 for second and subsequent requests for extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation proceedings. The fee for this form is \$100 in respect of each trade mark.

2006 Circular**The State of Incorporation** (Circular No. 30/2006, dated 27 October 2006)

Please note with respect to companies incorporated in the United States of America, the state of incorporation must be indicated on all trade marks forms. This is because companies incorporated in different states of America are separate and distinct legal entities.

If the state of incorporation of a United States of America company is not indicated on Form TM 4, a Form TM 26 will be required for the insertion of the state of incorporation.

2007 Circulars

Trade Marks (Amendment) Act 2007 (Act No. 3/2007) (Circular No. 7/2007, dated 14 February 2007)

The Trade Marks (Amendment) Act 2007 has been passed by Parliament on 22 January 2007 and has received Presidential assent on 1 February 2007.

Some of the key amendments include:**Provision for multiple class registration**

Registration for trademarks is presently based on single classes. The amendments will now allow for a multi-class registration. A multi-class registration allows for one single application in multiple classes of goods and services to lead to one registration. Upon registration, the registration is maintained as one, resulting in the need to renew only once for the renewal to be effective for all the classes of goods and services registered.

Division of an application for registration

To complement a multiple-class system, it is now possible to divide a trademark application into two or more applications. A trademark applicant may divide up his application into two or more applications so that those classes of goods or services that do not face opposition or objection can proceed to registration first. Division will therefore expedite trademark registration where appropriate.

Relief Measures for Procedural Oversight

The Act also provides for relief measures to alleviate procedural mistakes by trademark applicants, notably missed time limits. The relief measures provide the avenue for a trademark applicant to maintain the rights in an application that has been filed, even when time limits have been missed.

Registration of Licence of Pending Trademarks

The amendments will now allow for registration of licences relating to pending trademarks. Prior to the amendments, only licences relating to registered trademarks can be recorded on the register.

The Trade Marks (Amendment) Act 2007 will come into operation on a date to be notified.

A copy of the Trade Marks (Amendment) Act 2007 can be purchased at SNP Corporation Ltd (www.snpcorp.com/webshop/).

Cautionary Notice on Unsolicited Mail about Unofficial Registration Services (Circular No. 13/2007, dated 11 April 2007)

It has been brought to our attention that trade mark proprietors and/or agents whose trade marks have been published in recent IPOS Trade Marks eJournals are receiving letters from companies for payments for unofficial registration services.

These companies use names, abbreviations or emblems that appear to be “official” and send out letters which resemble invoices to trade mark proprietors and/or agents with details of the proprietor, the trade mark, class(es) of goods or services, etc. These companies will offer to register marks in registers or publications for a fee, and in return, claim they will send the respondent a copy of the publication.

Please treat such letters as unsolicited mails. These companies are neither related to nor connected with IPOS. There is no obligation to pay for such services as they are not official services.

The only office constituted under Singapore laws that provides registration services for trade marks in Singapore is our office, the Intellectual Property Office of Singapore (IPOS).

Upon receiving such letter or invoice, if you are in any doubt, please consult your trade mark agent, your lawyer, or email us for clarification.

Amendments to the Trade Marks Act, the Trade Marks Rules and the Trade Marks (International Registration) Rules (Circular No. 17/2007, dated 7 May 2007)

The Trade Marks (Amendment) Act 2007, the Trade Marks (Amendment) Rules 2007 and the Trade Marks (International Registration) (Amendment) Rules 2007 have been gazetted and will come into force on 2 July 2007.

The (Amendment) Act and (Amendment) Rules can be purchased at SNP Corporation Ltd (www.snpcorp.com/webshop/).

Trade Marks (Amendment) Rules 2007

The following is a summary of some of the amendments in Trade Marks (Amendment) Rules 2007:

(a) Rule 17 : Division of applications for registration

An application for registration may be divided, at the request of the applicant, into 2 or more separate applications for registration. The request for division is to be made on Form TM 8 and a fee of \$280 is chargeable for each new divisional application created.

(b) Rule 22 : Amendment of application

Form TM 27 (Request to change the details of an application for registration) will no longer be used. In its place are Forms TM 27A and TM 27B. Form TM 27A is chargeable on a per class basis while Form TM 27B is chargeable on a per trade mark basis.

Form TM 27A is to be used for amendments pertaining to the class number, the specification of goods or services to which the application for registration relates, or the particulars of any claim to a right of priority included in the application for registration.

Form TM 27B is to be used for any other amendment not involving the above.

(c) Rule 56 : Application to alter registered trade mark

The proprietor of a registered trade mark may apply to the Registrar on Form TM 27B for alteration of the registered mark. Form TM 35, the form which is currently used, will no longer be used as from 2 July 2007.

(d) Rule 57 : Rectification of an error or omission in the register

An application to the Registrar for the rectification of an error or omission in the register may be made by the proprietor of a registered trade mark or by any other person.

Where the application is made by the proprietor of a registered trade mark, the amendment shall be made on –

- (a) Form TM 27A, where the amendment pertains to the class number, the specification of goods or services to which the registration relates, or the particulars of any claim to a right of priority;
- (b) Form TM 27B, for any other amendment not involving the above.

Where the application for rectification is made by any other person, the application shall be made on Form TM 28.

(f) Rule 77B : Reinstatement of application, right or thing

Subject to certain exceptions, an applicant, proprietor or other interested person who has missed a time limit for action before the Registry, may apply on Form TM 40 to have his rights reinstated, if:

- 1) the request for reinstatement is made within 6 months from the date of expiration of the time limit;
- 2) the omitted act is completed together with the request; and
- 3) the failure to comply with the time limit is unintentional.

Trade Marks (International Registration) (Amendment) Rules 2005

The Trade Marks (International Registration) (Amendment) Rules 2007 has been amended to make it clear that division does not apply to international registrations designating Singapore.

Amendment of Trade Mark Forms

Some trade mark forms have been revised and the revised forms are to be used from 2 July 2007. A separate edition of the Trade Marks Journal containing a consolidation of all Trade Mark forms will be available for sale from 29 June 2007.

The changes made to the forms are as follows:

(a) All forms have been amended to indicate whether the fee for that particular form is payable on a per class, per trade mark or per form basis. The fee structure is as shown in the table below.

Per form basis	Per trade mark basis	Per class basis
TM 26	TM 1	TM 4
MP 3	TM 7	TM 11
	TM 10	TM 12
	TM 20	TM 13
	TM 22	TM 19
	TM 27 B	TM 21
	TM 29	TM 24
	TM 30	TM 27 A
	TM 31	TM 28
	TM 33	TM 32
	TM 34	TM 44
	TM 37	TM 45
	TM 38	TM 50
	TM 39	MP 1
	TM 40	MP 2
	TM 42	
	TM 46	

(b) Where fees are payable on a per class basis, such as renewal forms and opposition forms, the class numbers affected by the request, are to be indicated on the form.

(c) Amendments have been made to all forms, with the exception of Form TM 23.

(d) Forms TM 18 and TM 35 have been removed.

(e) Forms TM 8, TM 27A and TM 27B are new.

Translation of Non-English words (Circular No. 17/2007, dated 7 May 2007)

For purposes of rule 20(2), where the mark consists of non-English words, it is not necessary to file with the Registrar a certified translation by a qualified translator. A copy of relevant extracts from relevant dictionaries showing the meaning of each word and the words as a whole in English will be sufficient. However, it will be necessary to indicate on the application form that the mark consists of non-English word/words. A failure to include such an indication on the application form will have to be rectified by the filing of amendment via Form TM 27 with the requisite fee. The applicant should forward to the Registrar the requisite translation and/or the transliteration together with a copy of relevant extracts from dictionaries or relevant certification as soon as possible.

As regards the indication on the application form, it is necessary to submit an accurate and complete translation and/or transliteration of the non-English words in the mark.

Two examples are provided below as illustration.

Example 1:

An application was filed for the mark consisting of three Chinese Characters which is the phonetic equivalent of the Applicant's company name.

菲立士

The transliteration of the Chinese characters of which the mark consists is "Fei Li Shi" which has no meaning and it is the phonetic equivalent of the Applicant's company name "Philips".

An appropriate indication in the Application form may read as:

9 If the mark contains or consists of word(s) not being English word(s), provide the derivation of the word(s). If it is invented, state so. If it can be translated, fill in Part 10 below.	
The Chinese characters of which the mark consists is derived from the Applicant's company name i.e. it is the phonetic equivalent of "Philips"	
10 If the mark contains or consists of non-English word(s), and/or non-Roman character(s), provide the English translation and/or transliteration as follows:	
Representation of the words(s)/ characters	菲立士
Language of word(s)/character(s)	Chinese
Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Chinese characters as a whole: no meaning. It is the phonetic equivalent of the Applicant's company name "Philips".

		(Enclosed dictionary exact/ Certified translation/ supporting document of the same)	
	Transliteration of character(s)	Transliteration of the Chinese characters: "Fei Li Shi".	

Example 2:

An application was filed for the mark consisting of two Chinese Characters and the word "SINGER" (which is part of the Company name).

勝家
SINGER

Company : THE SINGER COMPANY LIMITED

The transliteration of the Chinese characters appearing in the mark is "Sheng Jia" which has no meaning.

An appropriate indication in the application form may read as:

9 If the mark contains or consists of word(s) not being English word(s), provide the derivation of the word(s). If it is invented, state so. If it can be translated, fill in Part 10 below. The Chinese characters "勝家" appearing in the mark is used to denote a brand name of Singer's product.									
10 If the mark contains or consists of non-English word(s), and/or non-Roman character(s), provide the English translation and/or transliteration as follows: <table border="1" style="width: 100%;"> <tr> <td style="width: 50%;">Representation of the words(s)/ characters</td> <td>勝家</td> </tr> <tr> <td>Language of word(s)/character(s)</td> <td>Chinese</td> </tr> <tr> <td>Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole</td> <td> Translation of the Characters as a whole: no meaning. (Enclosed dictionary exact/ Certified translation/ supporting document showing meaning of each of the Chinese characters and characters taken as whole) </td> </tr> <tr> <td>Transliteration of character(s)</td> <td>Sheng Jia</td> </tr> </table>		Representation of the words(s)/ characters	勝家	Language of word(s)/character(s)	Chinese	Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Characters as a whole: no meaning. (Enclosed dictionary exact/ Certified translation/ supporting document showing meaning of each of the Chinese characters and characters taken as whole)	Transliteration of character(s)	Sheng Jia
Representation of the words(s)/ characters	勝家								
Language of word(s)/character(s)	Chinese								
Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Characters as a whole: no meaning. (Enclosed dictionary exact/ Certified translation/ supporting document showing meaning of each of the Chinese characters and characters taken as whole)								
Transliteration of character(s)	Sheng Jia								

Application to Register a Licensee (TM 37) (Circular No. 24/2007, dated 29 June 2007)**(i) Processing Of An Application To Register A Licensee (TM 37)**

An application to register a licence (Form TM 37) filed on or after 2/7/2007, will be processed by the Registry even though the status of the mark is still pending registration. However where the application to register a licence (Form TM 37) was filed before 2/7/2007, it will be processed only after the mark has been registered.

(ii) Licence Commencement Date

The licence commencement date (i.e. the date entered in Part 5 of TM 37) should not predate the date from which the proprietor's rights in the mark accrue. For a trade mark application filed before 1/7/2004, the earliest licence commencement date is the trade mark application date or the priority date, if any. For a trade mark application filed on or after 1/7/2004, the earliest licence commencement date is the trade mark application date.

(iii) Exclusive Licence Periods Do Not Overlap

Where there are 2 exclusive licences or more, the licence periods involving the same goods or services should not overlap.

(iv) Licensed Goods/Services Should Not Be Wider Than Trade Mark Application/Registration

The list of licensed goods or services (Annex of TM 37) should not be wider than those under the trade mark application/registration.

Deficiencies in applications for registration : amendments after filing (Circular No. 28/2007, dated 27 July 2007)

The Registrar has been conducting formalities check on all applications for registration to ensure that they contain all formal requirements under the Trade Marks Act.

Where the application does not comply with the requirements which are essential for a filing date to be accorded, the filing date will not be accorded until all the deficiencies have been rectified. In such cases, the application will be accorded the earliest date on which all essential requirements for filing date are complied with. There is no need for the correction to be accompanied by the relevant amendment form. The essential requirements for filing date are spelt out in section 5(2) and (3) of the Trade Marks Act.

In respect of other deficiencies or irregularities that do not affect the filing date, amendments must be effected through the lodgement of the relevant trade mark forms, such as Form TM 27A, Form TM 27B and Form TM 26.

This practice pertains only to new applications filed with effect from 01 August 2007.

The Geneva Conventions (Amendment) Act (Circular No. 40/2007, dated 5 December 2007)

The Geneva Conventions (Amendment) Act was passed in Parliament on 12 November 2007. Under the Act, the following emblems may not be used in Singapore, unless approval is given by the Ministry of Health:

- Red Cross emblem
- Red Crescent emblem
- Red Crystal emblem
- Red Lion and Sun emblem

			
Red Cross emblem	Red Crescent emblem	Red Lion and Sun emblem	Red Crystal emblem

With the commencement of the Act, the Registrar will object to trade mark applications consisting of or containing these emblems or emblems closely resembling them, under Section 7(5) of the Trade Marks Act, unless consent from the Ministry of Health is furnished. This is so even for applications lodged before the effective date of the Act.

Proprietors of registered trade marks containing or consisting of such emblems, or emblems closely resembling them, should note that in spite of their registration, they have one year from 12 November 2007 to cease using the emblems.

2008 Circulars

Image of e-filed mark (Circular No. 11/2008, dated 4 July 2008)

IPOS has encountered certain electronic trade mark applications which have images of marks that have jagged and blurred edges in our database and the images of the mark will not appear as clear as intended by the applicants in the trade mark journal and certificate of registration. The reason for the blurred image of marks is that applicants attach images of the marks with a lot of background or blank space. To ensure that such images are not too small for viewing purposes, IPOS has to make adjustment to the marks which then result in blurred images.

In order to ensure that the image of mark is accurately captured by IPOS, applicants should crop the mark with little background or blank space and save the image as approximately 480 x 480 pixel. This will remove the need for IPOS to make adjustment to the image in the publication and the registration certificate and the applicant can then obtain clear and accurate image of the mark.

(Translation Clause, Circular No. 12/2008, dated 11 July 2008. This circular was removed on 1 August 2008)

Return of assignment deeds and other registrable transaction documents (Circular No. 14/2008, dated 26 September 2008)

The Registry will stop its practice of returning deeds of assignment and other documents lodged in support of applications for transfer of ownership and recordal of other registrable transactions.

However, should the applicant wish for the return of such documents, he may make his request known at the time of lodgement of the recordal application on a covering letter accompanying the application to that effect. The letter shall provide contact details so that the Registry may make the necessary arrangements for the return of the documents. This practice will affect all applications lodged on or after 1 October 2008.

Launch of e-Communications Portal on 1 December 2008 (Circular No. 17/2008, dated 28 November 2008)**Trade Marks (Amendment) Rules 2008; Trade Marks (International Registration) (Amendment) Rules 2008** (Circular No. 17/2008, dated 28 November 2008)

IPOS will launch the e-Communications Portal on 1 December 2008. The e-Communications Portal is an electronic online system developed by IPOS for the main purpose of facilitating the sending, receipt and exchange of all correspondence, relating to trademark applications and prosecutions, between IPOS and registered account holders. The following firms and companies will be taking part in the pilot scheme that is scheduled for the initial period of 6 months.

DREW AND NAPIER LLC
DONALDSON & BURKINSHAW
ELLA CHEONG SPRUSON & FERGUSON (SINGAPORE) PTE LTD
ALLEN & GLEDHILL LLP
RODYK & DAVIDSON LLP
WONG & LEOW LLC
AMICA LAW LLC
LLOYD WISE
ALBAN TAY MAHTANI & DE SILVA
ONE LEGAL LLC
PATRICK MIRANDAH CO. (S) PTE LTD
HAQ & SELVAM
NAMAZIE & CO
TITO ISAAC & CO LLP
PHILIPS ELECTRONICS SINGAPORE PTE LTD
SAMUEL SEOW LAW CORPORATION

The Trade Marks Rules have been amended to give effect to the sending, receipt and exchange of correspondence via the e-Communications Portal. In particular, the changes in the Rules will:-

- (a) provide for service of documents by the Registrar as well as by applicants by electronic communication through the e-Communications Portal;
- (b) provide for the sending of a true and complete image of the original paper document by electronic communication through the e-Communications Portal for documents that are required to be signed, made on oath or affirmed or are required to be attested;
- (c) provide for the extension of deadlines that fall on excluded days in spite of the availability of the e-Communications Portal;

- (d) treat the date of receipt of documents received by IPOS as the day on which the documents are received by IPOS as long as the time of receipt is before the midnight of the day.

It is to be noted that applicants must still comply with the requirement to provide an address for service under rule 9. The electronic address of these persons, if they are using the eCommunications Portal to send documents to and receive documents from the Registrar, is not intended to be part of their address for service. However, service of documents by electronic communication through the eCommunications Portal is intended to be valid service notwithstanding that there is an address for service filed in accordance with rule 9.

The Trade Marks (International Registration) Rules have also been amended to permit the use of one Form for multiple classes of goods or services for Forms for use in opposition, namely Form TM 11 and Form TM 12.

A copy of the Trade Marks (Amendment) Rules 2008 and the Trade Marks (International Registration) (Amendments) Rules 2008 are available for sale at SNP Corporation Ltd. (<http://www.snpcorp.com/webshop/>).

Application for Renewal of Registration (Form TM 19) (Circular No. 18/2008, dated 12 December 2008)

With effect from 1st January 2009, the Registrar will not be issuing renewal certificates confirming that a mark has been renewed. This is applicable to all applications for renewal of registration (Form TM 19) lodged on or after 1st January 2009.

For applications for renewal made online, the renewal will be processed instantaneously and an acknowledgement of the renewal showing the extended expiry date will be displayed for printing. These acknowledgements of renewal will remain available for printing for a period of one month from the renewal application date. In very limited circumstances, such as where there are pending applications affecting the validity of the trade mark, instant renewal will not be possible and the applicant will be notified that the acknowledgement of renewal will be posted in due course.

Where the application for renewal is posted or submitted over the counter, the applicant will not be receiving any acknowledgement from the Registry. The onus will be on the applicant to check the expiry date of the mark at www.etrademarks.gov.sg within 2 weeks of lodgement of the application for renewal of registration (Form TM 19) to confirm that the expiry date has been extended by the Registry. If the expiry date has not been extended, applicants are advised to contact our Renewal Officer at 63302 707 immediately for assistance.

This change in practice does not apply to Late Application for Renewal of Registration (Form TM 24) and Application for Restoration and Renewal of Registration Removed from the Register (Form TM 21).

To reflect the change in practice in Form TM 19, an information note has been incorporated into the form. This revised form should be used from 1st January 2009.

A copy of the revised Form TM 19 will be available for downloading by end of December 2008 at www.ipos.gov.sg.

2009 Circulars**Trade Marks Work Manual** (Circular No. 5/2009, dated 24 April 2009)

The Registry of Trade Marks has added six new chapters to the existing Trade Marks Work Manual. The six new chapters cover the following topics:

- (1) Marks contrary to public policy or morality;
- (2) Names and representation of famous people, building, etc;
- (3) Other grounds of refusal;
- (4) Deceptive marks;
- (5) Licences; and
- (6) Slogans.

You may access the Trade Marks Work Manual online at:

<http://www.ipos.gov.sg/leftNav/tra/IP+Resources.htm>

Marks published for opposition purposes (Circular No. 8/2009, dated 3 July 2009)

The following types of publication in the Trade Marks Journal are subjected to opposition:

	Notice of Opposition via <u>Form</u>
1) Application published before registration;	TM 11
2) Collective or certification marks published before registration;	TM 11
3) Alteration to registered marks;	TM 11
4) Amendment to regulations governing use of collective or certification marks;	TM 11
5) Application amended after publication	TM 11

With respect to items 3)-5), the ground(s) stated in the Notice of Opposition must be confined strictly to the alteration or amendment. The Notice of Opposition must be lodged within 2 months from the date the alteration or amendment is published in the Trade Marks journal. If an extension of time to file the notice of opposition is required, the request must be filed using Form TM 48 within 2 months from the date of publication of the alteration or amendment. The maximum extension of time for filing Notice of Opposition is 4 months from the date of publication of the alteration or amendment. Rules 29(2) to (8) and 31 to 40 apply to these oppositions with the necessary modifications.

Costs for attending Case Management Conferences and Pre-Hearing Reviews (Circular No. 10/2009, dated 28 August 2009)

In opposition, invalidation and revocation proceedings for trade mark applications or registrations, the Registrar has, as a matter of course, directed parties to attend case management conferences and pre-hearing reviews at the appropriate time for the purpose of achieving a just, expeditious and economical disposal of the matter pursuant to the power conferred on the Registrar in the Trade Marks Rules. The Registrar will treat the costs for attending such case management conferences and pre-hearing reviews in the same vein as for attending interlocutory hearings, which costs may be included as party and party costs under rule 73 of the Trade Marks Rules to be awarded to the successful party at the end of the proceedings.

B) PERTAINING TO COLLECTIVE AND CERTIFICATION MARKS**Pre-2004 Circular****Publication of Collective Mark and Certification Mark Applications**

Collective mark and certificate mark applications are published in the Trade Marks Journal for opposition purposes before protection is granted. They are published in a separate section of the Trade Marks Journal titled "Collective and Certification Marks Applications Published for Opposition Purposes". Pursuant to the First and Second Schedules of the Trade Marks Act (Cap. 332, 1999 Ed.), the Regulations governing the use of the collective and Certification Marks are available for inspection at the Registry of Trade Marks.

2004 Circular

Regulations Governing the Use of Certification/Collective Marks (Circular No. 7/2004, dated 19 March 2004)

The filing with the Registrar of regulations governing the use of certification or collective marks under rule 63 of the Trade Marks Rules must be accompanied by Form TM 10. Regulations filed without Form TM 10 will not be recognised and will be returned. The filing of TM 10 without regulations attached will also be rejected.

C) PERTAINING TO FORMS**Pre-2004 Circular****Form TM 26**

A request to change the name, address or other particulars (except trading nature) of an applicant for registration, proprietor of a registered trade mark or other interested person, where the change does not affect the representation of the trade mark, should be made on Form TM 26.

2004 Circulars**Form TM 26 Notification Letter** (Circular No. 8/2004, dated 26 March 2004)

Please note that the main purpose of the Notification Letter is to inform as to the fact that the name and/or address of the applicant/proprietor has/have been updated. Thus, the Notification Letter cannot be treated as conclusive as to the status of marks reflected therein.

Where there is no reply within the given period to our latest examination report, an application will be updated as abandoned notwithstanding any interim Notification Letter from the Registrar.

Form TM 1 [Request to appoint or change an agent or to enter or change an address for service] (Circular No. 18/2004, dated 30 July 2004)

One Form TM 1 may be used for multiple trade mark numbers. However, the fee for this form is still charged on a per trade mark number basis unless the request is to alter an agent's name and/or address for service which does not affect the legal entity of the agent. In such a case, only a single set of fee is payable.

Kindly note that it is not necessary to lodge Form TM 1 together with forms such as TM 4, TM 9, TM 11, TM 14, TM 19, TM 22, TM 24, TM 26, TM 28, TM 29, TM 37 and TM 48 as each of these forms contains a section for the indication of an address for service.

2006 Circular**Erratum - Form TM 40** (Circular No. 1/2006, dated 13 January 2006)

Please note that the title of Form TM 40 should read as "REQUEST FOR RESTORATION OF APPLICATION TREATED AS WITHDRAWN" and Part 2 of the Form should read as "Particulars of applicant/registered proprietor". Please visit IPOS website at <http://www.ipos.gov.sg> to download the corrected Form TM 40.

2007 Circular**Form TM 32** (Circular No. 32/2007, dated 21 September 2007)

Part 4 of Form TM 32 which used to read as "Goods or services to be cancelled" has been amended to "Goods or services to remain". The amendment is to ensure that there is clarity in the residual specification. Please visit IPOS website at <http://www.ipos.gov.sg> to download the amended Form TM 32.

The Registrar will reject the old Form TM 32 (V02/01/07) with effect from 1 October 2007.

It is also to be noted that Form TM 32 is the appropriate Form to file to effect any amendment to specifications of goods or services of registrations that has the effect of cancelling some goods or services or narrowing down the specifications. For example, Form TM 32 is to be filed to effect an amendment from "books" in Class 16 to "books *relating to business management*" in Class 16.

2008 Circular**Application to Register a Change in Ownership (TM 22)** (Circular No. 3/2008, dated 1 February 2008)**i)Effective Date when Subsequent Proprietor/Applicant for Registration Took Ownership**

The effective date when the subsequent proprietor/applicant for registration took over ownership (i.e. the date entered in Part 4 of Form TM 22) should not predate the date from which the proprietor's rights in the mark accrue. For a trade mark application filed before 1 July 2004, the earliest assignment effective date is the trade mark application date or the priority date, if any. For a trade mark application filed on or after 1 July 2004, the earliest assignment effective date is the trade mark application date.

ii)Address for Service of Subsequent Proprietor/Applicant for Registration

The address for service entered in Part 5 of the Form TM 22 is effective for all proceedings in respect of the trade mark including the subject application for change of ownership. As such, there is no need to lodge Form TM 1 together with Form TM 22 for this purpose.

Form TM 1 will be required only if:-

- a. there is a change of agent whilst the TM 22 is being processed; or
- b. the agent will not be continuing to act for the subsequent proprietor / applicant for registration after TM 22 is recorded.

Such Form TM 1 appointing the agent solely for "Assignment" matters (Part 3 of Form TM 1) will not be processed until a subsequent Form TM 1 appointing an agent for "Application for registration / Registration" is received.

iii)Correction of Errors in Relation to a Recorded Change of Ownership

Once a change in ownership has been recorded according to the request, should the owner need to correct any errors in the recorded details, Form TM 27B is required. Should the assignment(s) need to be re-recorded and re-examined, the relevant Form TM 22 with fees will need to be re-lodged.

iv)Covering Letter

To ensure that the transactions are recorded accurately, please lodge a covering letter stating :-

- a. the sequence of events;
- b. the exact nature of the transaction, and
- c. the trade mark numbers involved.

When e-filing, a covering letter can be attached via the “covering letter” button for eTM 22 and 27B.

2009 Circulars**eCommunications** (Circular No. 2/2009, dated 27 February 2009)

The Registry has been receiving Trade Mark Forms via the eCommunications portal. Please note that this portal is to facilitate the exchange of correspondences only. All forms should be either eFiled, submitted over the counter or posted to us.

Enhancements made to eTM 22 (Application to register a change of ownership)
(Circular No. 4/2009, dated 27 March 2009)

With immediate effect, users may file up to 50 trade mark numbers in one eTM 22 (Application to register change of ownership) form provided that all the trade mark numbers belong to the same assignor under the same IPOS assigned company code. A link is included in the eForm to a search page allowing applicants to check their company code.

Efiling multiple assignment applications (Circular No. 4/2009, dated 27 March 2009)

This is to inform users that eTrademarks may be used to efile multiple assignment applications. So long as there exists a prior assignment application which has not yet been recorded by the Registry, when the user attempts to efile a subsequent assignment application, the field under "Current Proprietor's details" is intentionally left blank by the system for the user to enter the correct details. For example in the case of an assignment from A to B (1st TM 22), and then from B to C (2nd TM 22), the user will have to input B's details manually when efilings the second TM 22.

Form TM 4 - Application to register a trade mark, collective mark or certification mark
(Circular No. 9/2009, dated 21 August 2009)

Form MP 1 - Request to transform an international registration into national application(s) (Circular No. 9/2009, dated 21 August 2009)

With effect from 15/09/2009, an Application to register a trade mark, collective mark or certification mark and a Request to transform an international registration into national application(s) must be made on version V05/01/09 of Form TM4 and MP 1 respectively. The corresponding electronic Form TM 4 available on eTrademarks will also be amended on the same day. The changes are found at Annex A of both forms and pertain to the information to be provided when making a priority claim.

Annex A

Annex A is amended so that where the priority claim is not in respect of all the goods or services claimed in the class, the applicant is to state the goods or services in respect of which priority is claimed. This amendment is to ensure that there is clarity in the scope of the priority claim.

2010 Circular

Notification on Application to Register a Change in Ownership (TM 22) (Circular No. 5/2010, dated 26 November 2010)

With immediate effect, the Registry will be issuing a notification prior to the recordal of an assignment in matters relating to an application for the registration of an assignment application in a trade mark or application for a trade mark pursuant to Rule 55 of the Trade Marks Rules. The purpose of the notification, which will be issued to the proprietor(s)/applicant(s) for registration [or their appointed agent] at the address for service in Singapore, is to provide an opportunity for the proprietor(s)/applicant(s) to inform the Registry without delay in the event they have not authorised the transaction.

D) PERTAINING TO eTRADEMARKS**Pre-2004 Circular****New Features of IPOS' eTrademarks Services****(1) Generation of Check Digit/Year of Trade Mark Numbers**

A new eService for the generation of year/check digit of Trade Mark Number is added to IPOS Online Transactions. This eService has two fields for entry. One is for the old TM No format while the other is for the new TM No format. For the old TM No format, both the year and the check digit would be generated. For the new TM No format, the check digit will be generated.

This eService is already available.

(2) Attachment for Form TM26

The eService for Form TM26 has been enhanced. As filing of Form TM26 usually requires a covering letter to list the TM numbers and sometimes to explain a certain situation, it can only be submitted through the counter. With this enhancement, when a Form TM26 is submitted, it allows for a covering letter to be attached to the said form. This is to facilitate the filing of Form TM26 through eTrademarks.

This eService is already available.

(3) Filing of mark in colour or greyscale

With effect from 1 November 02, eTrademarks will be accepting colour or greyscale attachments for marks filed for Forms TM4 and TM9 in addition to the current black and white. Marks filed in colour or greyscale would be printed in greyscale for the Acknowledgement Letter, Trade Marks Journal and Certificate of Registration. Please note that viewing and printing of the mark images from the Enquiry System would still be in black and white.

(4) "Save/Save As" feature

The "Save/Save As" feature has been implemented on 4 December 02, from 10am onwards. This feature would be available for Forms TM4 and TM9. Any application that is saved would be kept in IPOS' system for 3 working days excluding the current day. All saved documents residing in IPOS' database for more than 3 working days would be removed.

(5) Display Mark Image

The "Display Mark Image" feature has been implemented on 4 December 02, from 10am onwards. Mark images attached to Forms TM4 and TM9 will be displayed for viewing.

2004 Circular

Online Trademarks Search and Enquiry System (Circular No. 4/2004, dated 6 February 2004)

The Intellectual Property Office of Singapore is pleased to announce that its eTrademarks Search has been made available from 30 January 2004.

The following search services have been made available through the system:

Search for similar marks;

Search for marks belonging to a proprietor;

Search for mark detailed information, registered marks, pending marks, certification marks, collective marks, expired marks, cancelled marks, expired marks, withdrawn marks, abandoned marks, expunged marks, refused marks, destroyed marks and article 6ter based on relevant periods.

The services will be offered free of charge.

To access this service, please log on to the eTrademarks webpage and click on the eTrademarks Search link.

E) PERTAINING TO INTERNATIONAL APPLICATIONS AND REGISTRATIONS UNDER THE MADRID PROTOCOL

Pre-2004 Circulars

Singapore's Accession to the Madrid Protocol

Singapore acceded to the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks (Madrid Protocol) on 31 July 2000. The Madrid Protocol came into operation in Singapore on 31 October 2000.

Publication of International Registration Designating Singapore for Opposition Purposes

International registrations designating Singapore under the Madrid Protocol are treated in the same manner as Singapore national applications, and are therefore published in the Trade Marks Journal for opposition purposes before protection is granted. They are published in a separate section of the Trade Marks Journal titled "International Registrations filed under the Madrid Protocol Published for Opposition Purposes under the Trade Marks Act (Cap. 332, 1999 Ed.)". Unlike Singapore national applications, they are not published according to the class of goods or services, but are published according to the international registration number.

Request for Recording of Changes in the Name and/or Address of the Holder for International Registrations Designating Singapore

Such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) using WIPO's prescribed Form MM9(E). Form TM 26 is not the relevant form to be used.

Form MM9(E) is available for downloading at www.ipos.gov.sg

2004 Circulars**Issuance of Registration Certificates for Protected International Trade Marks (Singapore)** (Circular No. 13/2004, dated 18 June 2004)

The Registrar has received queries as to whether IPOS issues registration certificates for protected international trade marks (Singapore). Please note that IPOS does NOT issue such certificates.

Under the Madrid Protocol, an Office which has examined an international registration in which it is designated and found no grounds for refusal may issue a statement of grant of protection. However, it is not obliged to do so and no legal consequences follow from the fact that no such statement is given. Further, such statements will only be issued if it is still within the 18-month time limit from the date of notification of the international registration. Where no such statements are issued, by the end of the 18-month time limit, the international registration will be regarded as protected in Singapore. In the Singapore context, IPOS does issue such statements, as a matter of customer service, if at the time of issuance, it is still within the said period.

In cases where a provisional refusal or a provisional refusal based on opposition has been issued, a confirmation or withdrawal of such a provisional refusal in the form of a letter of final decision in accordance with Rule 17(5) of the Common Regulations under the Madrid Agreement and Protocol relating to the Madrid Agreement concerning the International Registration of marks will be sent to the International Bureau, who will in turn transmit a copy to the holder of the international registration.

Requests for Recording of Changes in the Ownership of the International Registrations Designating Singapore or where Singapore is the Office of Origin (Circular No. 21/2004, dated 19 November 2004)

For international registrations designating Singapore, in accordance with Rule 25 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM5(E). Form MM5(E) is available for downloading at www.ipos.gov.sg

Form TM 22 should not be lodged for such recordation of change in ownership.

Where Singapore is the Office of Origin, requests for recording of changes in the ownership must also be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder. However, Form TM 22 may be lodged (if appropriate) to record the change in ownership of the basic application or basic registration.

Requests for Recording of Changes in the Name and/or Address of the Holder for International Registrations Designating Singapore or where Singapore is the Office of Origin (this serves to replace an existing pre-2004 circular in the journal) (Circular No. 21/2004, dated 19 November 2004)

For international registrations designating Singapore, in accordance with Rule 25 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM9(E). Form MM9(E) is available for downloading at www.ipos.gov.sg

Form TM 26 should not be lodged for such recordation of change in name and/or address.

Where Singapore is the Office of Origin, requests for recording of changes in the name and/or address of the holder must also be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder. In such a case, TM 26 should be lodged to amend the change in name and/or address of the basic application or basic registration.

Requests for Designation Subsequent to the International Registration (Circular No. 21/2004, dated 19 November 2004)

In accordance with Rule 24 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM4(E). Form MM4(E) is available for downloading at www.ipos.gov.sg

2005 Circulars

(Effect of the Recording of Licenses in the International Register in respect of International Registrations Designating Singapore, Circular No. 21/2005, dated 21 October 2005. This Circular is replaced by Circular No. 1/2010, dated 12 February 2010)

2007 Circular

(Modes of Payment to the International Bureau of the World Intellectual Property Organisation for Madrid Protocol Matters, Circular No. 42/2007, dated 28 December 2007. This Circular is replaced by Circular No. 1/2008, dated 11 January 2008)

2008 Circulars**Modes of Payment to the International Bureau of the World Intellectual Property Organisation for Madrid Protocol Matters** (Circular No. 1/2008, dated 11 January 2008)

With effect from 1 January 2008, there will be some amendments to the Administrative Instructions for the Application of the Madrid Agreement Concerning the International Registration of Marks and the Protocol Relating Thereto ("AI"). The amendments are necessary for the implementation of a more broad-based electronic communications platform for the benefit of users of the Madrid system.

The AI can be found here (http://www.wipo.int/madrid/en/legal_texts/admin_instructions.htm) and the International Bureau's ("IB") notification of the amendments can be found here (http://www.wipo.int/edocs/madrdocs/en/2007/madrid_2007_20.doc).

Please note that under the new Section 19 of the AI, fees payable to the IB must be made

- i. by debit to a current account with the IB,
- ii. by payment into the Swiss postal account or to any of the specified bank accounts of the IB, or
- iii. by credit card, where, in the context of an electronic communication envisaged in Section 11, an electronic interface for online payment has been made available by the IB.

The previous modes of payment by cash at the IB and by a banker's cheque would no longer be available.

Please note that while Section 19 now provides that in the context of electronic communications, fees due to the IB may be paid by credit card only in relation to specific types of transaction or request in respect of which a dedicated electronic interface has been provided, the IB has advised that this mode of payment by credit card would not be applicable to the filing of international applications.

If you are filing an international application through IPOS on and after 2 January 2008, please note that our previous primary mode of payment to the IB via a banker's cheque is no longer available in light of the changes in the AI. Instead, your payment in Swiss Francs to the IB can be made by either options (i) or (ii) as stated above.

Current Account

If you conduct regular monetary transactions with the IB, you may opt to open a current account with them. Please see

http://www.wipo.int/madrid/en/guide/part_d/pdf/account.pdf for details.

Bank Transfer

We envisage that the majority of applicants and agents are likely to use bank transfers under (ii) as the preferred mode of payment. Details of WIPO's postal account and bank account are as follows:

WIPO bank account
IBAN No. CH51 0483 5048 7080 8100 0
Credit Suisse, CH-1211 Geneva 70
Swift/BIC: CRESCHZZ80A

WIPO postal account
IBAN No. CH03 0900 0000 1200 5000 8
Swift/BIC: POFICHBE

The above account details are found on page 6 of the Form MM2(E).

To confirm that the payment has been made, the applicant must indicate the payment details of the bank's transfer transaction in the appropriate space provided in IB's Form MM2(E) Application for International Registration Governed Exclusively by the Madrid Protocol at the time of filing. You must also provide us with a photocopy of the bank's transaction advice.

If you have any queries regarding the above, please do not hesitate to call our Customer Service Officer at 6339 8616 or email us at ipos_enquiry@ipos.gov.sg.

Requests for Recording of a Renewal for International Registrations where Singapore is the Office of Origin (Circular No. 5/2008, dated 22 February 2008)

For an international registration where Singapore is the Office of Origin, a request for the recording of a renewal may be made by the holder or his agent upon payment of the relevant fees in Swiss Francs to WIPO via any of the following ways:-

(a) lodgement of WIPO's Form MM11(E) or an official letter from the holder indicating the necessary information (number(s) of the international registration(s) concerned and the purpose of the payment);

<http://www.wipo.int/madrid/en/forms/>

(b) lodgement done online at WIPO Marks E-Renewal System portal
<http://www.wipo.int/madrid/en/services/>; or

(c) lodgement of Form MM11(E) or the official letter mentioned under (a) through IPOS, together with a separate fee of S\$85 for handling the renewal request.

Kindly note that the above renewal is only effective for the international registration. Holders should lodge IPOS Form TM 19 in order to renew the Singapore basic registration, if necessary.

With regard to the renewal of an international registration where Singapore is *not* the Office of Origin, even if Singapore had been designated, such a request must be effected via (a) or (b). It is also possible to do so via the Office of Origin of that international registration provided that that Office of Origin has agreed to collect the renewal fees and forward them to WIPO.

We wish to emphasise that IPOS Form TM 19 must not be lodged for the renewal of any international registrations designating Singapore. Only WIPO would be able to process the renewal of that international registration.

E-Payments to the World Intellectual Property Organization (Circular No. 19/2008, dated 26 December 2008)

The World Intellectual Property Organization (WIPO) has introduced an E-Payment Service at <https://webaccess.wipo.int/epayment/>, which allows payment of fees notified in their irregularity letters or other WIPO communications with regard to international applications or registrations.

Payments can be made through the WIPO Current Account or by credit card.

To make payment through the WIPO Current Account, you will be required to provide the userID and the password generated by them for the current account holders. If you do not have a current account, please read Current Account at WIPO at

http://www.wipo.int/resource/en/wipo_account.html for details, on how to open, use or close a current account with WIPO, if you are thinking of opening one.

If you already have a WIPO current account, but do not have a password, please send an email to WIPO at income.accounts@wipo.int, mentioning E-Payment as the subject matter.

To make payment by credit card, please follow the steps in the E-Payment Service. American Express, Mastercard and Visa are acceptable to WIPO.

Unfortunately at this stage, WIPO is still unable to accept payment via credit card for the filing of international applications. For such applications, the only payment modes are via the WIPO Current Account, or the Swiss postal account or any of the specified bank accounts of WIPO.

2010 Circular**Effect of the Recording of Licenses in the International Register in respect of International Registrations Designating Singapore** (Circular No. 1/2010, dated 12 February 2010)

Pursuant to Rule 20bis(6)(b) of the Common Regulations under the Madrid Protocol, Singapore has notified the Director General of the World Intellectual Property Organisation on 21 March 2002 that Singapore law would not give effect to the recording of trade mark licenses in the International Register. Accordingly, any recording of a license made under Rule 20bis(3) of the Common Regulations will have no effect on any International Registration designating Singapore. However, the holder of such an International Registration may still record the relevant license with IPOS by lodging Form TM 37, and the fee of S\$60.00 per trade mark number. Similarly, the holder of such an International Registration may request for the amendment or cancellation of the recording of the license via Forms TM 38 and TM 39 respectively.

F) PERTAINING TO THE CLASSIFICATION OF GOODS AND SERVICES**(I) General Information****Pre-2004 Circulars**

(8th Edition of the International Classification of Goods and Services, this circular was removed on 18 January 2008)

Compliance with the International Classification of Goods and Services

To assist the Registrar in expediting the acceptance of trade mark applications for registration, agents are reminded to ensure that the specifications of goods or services set out in the application forms conform with the International Classification of Goods and Services as far as possible. Very often, the Registrar receives applications where the marks are acceptable for registration but the specifications are not in order. This slows down the registration process.

Precedents in Support of Specification

In the examination of the specification of goods or services for compliance with the International Classification of Goods and Services, the Registrar is prepared to rely on precedents relating to Singapore, United Kingdom, Australia and Hong Kong registrations. Applicants and agents are therefore free to file these precedents in support of their specifications of goods and services for the Registrar's consideration.

However, the Registrar would not rely on such precedents in the following situations:

- (a) where the precedent relates to goods or services which have been accepted by the Registrar concerned in the wrong class;
- (b) where the precedent relates to goods or services which are no longer classified in the class stated in the precedent in view of a change of classes by the Special Union for the International Classification of Goods and Services for the purposes of the Registration of Marks (Nice Union);
- (c) where the precedent relates to goods or services which are no longer classified in the class stated in the precedent in view of a change or clarification of practice by the Registry concerned.

The use of square brackets [] and round brackets () in specifications

An expression between square brackets is intended to define more precisely the text or item preceding the brackets. Square brackets are used when the item is ambiguous for classification purposes. Round brackets are used to qualify the text or item preceding the brackets to ensure the correct classification. Round brackets are used when it is possible that the item can be classified in various classes depending on the intended goods or services sought to be covered.

Use of the term "Internet" in specifications of goods and services

In view of the widespread use of the term "Internet" in the generic sense, the Registrar will henceforth not raise any objections to the use of the term "Internet" in the specifications of goods and services of Singapore national applications or international registrations designating Singapore.

However, the use of the term “Internet” in specifications of goods and services is generally not encouraged as the word “Internet” is a registered trade mark in some countries and may be objected to by the designated offices of these countries in respect of international applications originating from Singapore filed under the Madrid Protocol. This may arise where the term “Internet” is listed in a Singapore national application or registration and the Singapore national application or registration forms the basis of an international application originating from Singapore under the Madrid Protocol. In the circumstances, it is advisable for applicants to use the term “global communications network” instead.

2004 Circulars

Underlining of precedents for objections on specification of goods / services (Circular No. 19/2004, dated 3 September 2004)

When lodging precedents to overcome the Registrar’s objection on the specification of goods / services, the Registrar requests that the relevant portions of the precedents to be underlined for greater visibility. This would assist the Registrar to identify and consider the relevant portions of the precedents in order to assess whether the objection should be waived.

Vague descriptions in specifications (Circular No. 20/2004, dated 12 November 2004)

A clear description of the goods or services claimed in a trade mark application is important as it determines the scope of the application. As such, the indication of goods, for example “pouches and the like”, is not acceptable as the expression, “and the like”, is vague. In the example given, it is not clear as to what other goods the applicant is claiming apart from pouches.

2005 Circular

(Use of acronyms for specifications of goods and/or services, Circular No. 6/2005, dated 22 April 2005. This circular was removed on 18 January 2008)

2006 Circular

International Classification of Goods and Services

NICE Classification – Ninth Edition (Circular No. 32/2006, dated 8 November 2006)

The ninth edition of the NICE Classification for the purposes of the registration of trade marks will come into effect on **1 January 2007**. Copies can be ordered online at <http://www.wipo.int/ebookshop?lang=eng>

The majority of the changes involve Classes 14, 20, 21, 26, 34, 42 and 45 but minor changes and additions have also been made to other classes. For more information regarding the specific changes, please refer to the *Nice Union Report CLIM/CE/20/ which is obtainable at the following link*

http://www.wipo.int/meetings/en/doc_details.jsp?doc_id=52419

The eighth edition of the NICE Classification shall still apply to all applications filed before 1 January 2007. Applications filed on or after 1 January 2007 shall be filed in accordance with the ninth edition of the NICE Classification. For the avoidance of doubt, there will be no reclassification of goods and services for existing applications filed prior to 1 January 2007, after the 9th Edition of the NICE Classification comes into force.

2007 Circular

Use of registered trade marks in specifications of goods and services (Circular No. 38/2007, dated 14 November 2007)

Registered trade marks which are ordinary dictionary words are allowed to be used in specifications of goods and services as a descriptor. This practice is consistent with our previous journal notice on the use of the term, "Internet", which has become generic. However, words which are invented and have been registered as trade marks will not be acceptable in specifications of goods and services. Instead, applicants should use ordinary English words to describe their goods and services. For example, a specification of goods which reads "bluetooth-enabled devices for communications, namely telephones, handsets, headsets, speakers, microphones and earphones" should be amended to "devices for communications which are enabled by short range radio technology, namely telephones, handsets, headsets, speakers, microphones and earphones".

(II) Information on specific items**Pre-2004 Circulars**

(Cereal-based beverages, Beverages made from cereals, Pre-2004 Circular. This Circular was replaced by Circular No. 7/2008, dated 5 March 2008)

Club [dining] services

With effect from 31 October 2003, the Registrar will accept the specification “club [dining] services” in Class 43 instead of Class 41 of the International Classification of Goods and Services. The emphasis on the word “dining” puts the item more in line with the class heading and explanatory notes of Class 43.

Consultancy Services

In the 8th edition of the International Classification of Goods and Services, consultancy services will be classified according to their subject matter. For example, consultancy services relating to telecommunications will be classified in Class 38, transportation consultancy services in Class 39 and intellectual property consultancy services in Class 42. The Registry had been taking this position in its examination of applications.

WIPO has clarified that pending the coming into force of the 8th edition, the correct classification is in accordance with the 7th edition where such services are classified in class 35 if they are business-related and class 42 if they are non-business-related. Hence, the Registry is adopting this stand.

However, in order not to prejudice any party who has acted on the Registrar’s earlier position on such services, the Registry will not reject consultancy services which have been classified according to their subject matter.

Desserts

With effect from 31 October 2003, the Registrar will not accept a specification consisting of “desserts” per se. This is in line with the World Intellectual Property Organization’s view that the said item, without further qualification, is vague.

Examples of acceptable descriptions are :

“Desserts [Jellies for food]” in Class 29 or

“Desserts [Ice cream]” in Class 30

(Executor services, Pre-2004 Circular. This Circular was replaced by Circular No. 7/2008, dated 5 March 2008)

Mail order services

A specification of services consisting of or containing "mail order services" is unacceptable as it does not conform to the International Classification of Goods and Services and should be reworded to "the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order" in accordance with the practice in the United Kingdom.

Provision of information for business or domestic purposes in Class 38

With effect from 30 July 2003, a specification which reads "provision of information for business or domestic purposes" in class 38 will not be acceptable. The applicant is requested to further qualify the specification so that it will read as "provision of information in the field of telecommunications for business or domestic purposes". This is in line with the General Remarks as provided in the Nice Classification that the subject matter of the information being provided determines the correct class for the services.

(Provision of user access time to the global computer network, Pre-2004 Circular. This circular was removed on 26 September 2007)

(Storage of data, information or documents, Pre-2004 Circular. This circular was removed on 5 December 2008)

2004 Circulars**Retailing of services** (Circular No. 2/2004, dated 7 January 2004)

With effect from 7 January 2004, the Registrar will not accept a specification containing a claim for "retailing of services" or "the bringing together, for the benefit of others, of a variety of services (excluding the transport thereof), enabling customers to conveniently view and purchase those services". Applicants will be asked to clarify on the type(s) of services they are providing and to apply for such services in the appropriate class(es).

WIPO's Recommendation No. 16 (Circular No. 4/2004, dated 6 February 2004)

For applications lodged on or after 13 January 2004, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the items stated below in the designated classes:

- (1) Pastilles and chewing gum for cosmetic purposes - Class 3
- (2) Soap bubbles and foam generators for shows - Class 11
- (3) Lenyards (Keycards) - Class 14

(Joss sticks, Circular No. 5/2004, dated 13 February 2004. This circular was removed on 20 March 2009)

Canned foodstuffs of plant origin (Circular No. 6/2004, dated 5 March 2004)

For applications lodged on or after 12 March 2004, the Registrar will accept the specification "canned foodstuffs of plant origin" in Class 30 instead of Class 29. This is in line with the explanatory note of Class 30 which states "Class 30 includes mainly foodstuffs of plant origin prepared for consumption or conservation".

Manufacturing of goods (Circular No. 12/2004, dated 11 June 2004)

For applications lodged on or after 18 June 2004, a specification of services consisting of or containing "manufacturing of goods" is unacceptable as it does not conform to the International Classification of Goods and Services. If a person is manufacturing goods, registration should be sought for the goods only.

As appropriate, the specification may be phrased as "custom assembling of materials [for others]" or "custom manufacturing of goods [for others]". For example, where the items in question are cell cultures, it may be more appropriate to describe the service as "custom manufacturing of cell cultures [for others]". However, if the goods in question are clothing, "custom assembling of clothing [for others]" would be more appropriate.

(Providing search engines for the internet, Circular No. 12/2004, dated 11 June 2004. This circular was removed on 20 March 2009)

WIPO's Recommendation No. 17 (Circular No. 17/2004, dated 9 July 2004)

For applications lodged on or after 16 July 2004, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the items stated below in the designated classes:

- (1) Packaging containers of regenerated cellulose - Class 16
- (2) Refilling of empty toner cartridges - Class 37.

Provision of news (Circular No. 19/2004, dated 3 September 2004)

For applications lodged on or after 10 September 2004, the Registrar will not accept a specification consisting of "provision of news" *per se*. This is in line with the World Intellectual Property Organization's view that this description, without further qualification, is vague. The subject matter of the news provided and the purpose for which it is provided are important in determining the class to which it should fall under. Generally, these services are classified in the same classes as the services that correspond to the subject matter of the information. Examples of acceptable descriptions are:-

"Provision of business news [business management]" in Class 35;

"Provision of news [telecommunication services]" in Class 38; and

"Provision of news for entertainment purposes" in Class 41.

Leasing services (Circular No. 20/2004, dated 12 November 2004)

With effect from 19 November 2004, the Registrar will accept “leasing services” only in Class 36 regardless of the nature of the goods to which it relates. This is in line with the World Intellectual Property Organization’s view that it is a form of financial service.

“Rental services”, on the other hand, will still be classified in the same class as the services provided. For example, “rental of telecommunication apparatus” will be classified in Class 38 while “rental of medical apparatus” will be classified in Class 44.

2005 Circulars**Computerised communication network security and other security services** (Circular No. 5/2005, dated 1 April 2005)

For applications lodged on or after 8 April 2005, the Registrar will only accept “computerised communication network security” and like services in Class 42 and not in Class 45, as such items are forms of computer services classified under Class 42.

Class 45 covers services for the protection and security of individuals and property in general, eg “security services for buildings”, “personal body guarding” and “night guards”. If such services and information relating to such services are offered online or via a computer network, they will be classified under Class 45 as well.

However, Class 42 will cover security services if they pertain to security of computer networks or the internet, eg. “computerised communication network security”, or if such services are offered as a form of computer service, eg “data security services [firewalls]” or “professional consultancy relating to computer security”. It would not be correct to classify such computer security services in Class 45.

It is also useful to note that the International Classification of Goods and Services (8th Edition) classifies some security services in Class 39. Security services relating to transport, eg. “guarded transport of valuables” and “escorting of travellers”, are classified under Class 39 and not Class 45.

WIPO’s Recommendation No. 18 (Circular No. 5/2005, dated 1 April 2005)

For applications lodged on or after 8 April 2005, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Enzymes for human consumption – Class 29
- (2) Soya milk [condiment] – Class 30
- (3) Supervision of teamwork to improve its effectiveness – Class 35
- (4) Consultancy in the field of computer security – Class 42
- (5) Therapy services – Class 44

Prepared meals (Circular No. 6/2005, dated 22 April 2005)

For applications lodged on or after 29 April 2005, the Registrar will not accept a specification consisting of “prepared meals” per se as the said item, without further qualification, is vague and may fall within several classes. The item should specify the content of the prepared meals, for example,

“Prepared meals consisting of meat” in Class 29 or

“Prepared meals containing principally of rice” in Class 30.

2006 Circulars**Crib bumpers** (Circular No. 3/2006, dated 3 February 2006)

For applications lodged on or after 10 February 2006, the Registrar will only accept the item, “crib bumpers”, in Class 20. This item is a type of cushion for lining the base and sides of the crib and serves a protective purpose for the baby. Since the item “cushions” is listed in Class 20 of the Nice Classification, by analogy, the item, “crib bumpers”, should be classified in Class 20 as well.

Retail services and other like services in Class 35 (Circular No. 6/2006, dated 24 February 2006)

The Registrar has revised her practice concerning retail services and other like services in Class 35. This revision in practice shall take effect for all applications lodged on or after 3 March 2006

In the past, applicants, in most instances, are required to list the goods to which the retail services relate. With the revised practice, where it is practical, it is still advisable to list the goods to which the retail services relate. However, the Registrar will no longer insist on such a requirement in all cases, as long as the description “the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods”, is used in conjunction with the means of bringing goods together. Thus, in cases where it is not practical to list all the goods to which the retail services relate, the Registrar will accept an indication of the means of bringing goods together and displaying such goods for the benefit of customers, for example, from a retail outlet, a wholesale outlet or a distributor outlet. Such an indication can be inserted at the end of the description “the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods”.

With the revised practice, “wholesale services” will also be treated in the same manner as “retail services”.

The following descriptions provide guidance on what is considered to be acceptable to the Registrar in future:

(a) “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet”;

(b) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet”;

(c) “Retail services in relation to [list the goods]”;

(d) “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet”;

(e) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet”;

(f) “Wholesale services in relation to [list the goods]”;

(g) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet”;

(h) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”; and

(i) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”.

The Registrar is prepared to accept similar descriptions of the above services provided that the services are clearly described and fall within the ambit of retail or wholesale services. Please note that vague descriptions such as “distributorship services” are not acceptable as the term “distributorship” may encompass more than just retail or wholesale services, for example, it may include transportation services.

Interior decoration services (Circular No. 22/2006, dated 7 July 2006)

For applications lodged on or after 14 July 2006, the Registrar will only accept “interior decoration services” in Class 42 and not in Class 37, as such services are analogous to the item “design of interior décor” which is listed in Class 42 of the International Classification of Goods and Services (8th Edition).

WIPO’s Recommendation No. 19 (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

(1) Incontinence garments – Class 5

(2) Telephone ring tones [downloadable] – Class 9

(3) Milk jam – Class 29

(4) Toasted natural wood chips added to wine to improve its flavour – Class 30

WIPO's Recommendation No. 20 (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

- (1) Paper sheets, sensitized, for carrying photographic imaging materials – Class 1
- (2) Slot machines[vending machines] – Class 9
- (3) Paper sheets, not sensitized, for carrying photographic imaging materials – Class 16
- (4) Slot machines[amusement] – Class 28
- (5) Stand-alone video game machines – Class 28

Technical consultancy services (Circular No. 25/2006, dated 16 August 2006)**Technical support services** (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar will classify “technical consultancy services”, “technical support services” and other similar technical advisory and technical information services according to their subject matters. The General Remarks in the Nice Classification (8th Edition) states that services that provide advice, information or consultation are in principle classified in the same classes as the services that correspond to the subject matter of the advice, information or consultation. Further, in line with the view of the World Intellectual Property Organization, the Registrar will consider indications such as “technical consultancy services” and “technical support services”, *per se* as too broad and vague and objections will be taken. Such indications will have to be specified in respect of their subject matters for the purpose of classification.

2007 Circulars**WIPO's Recommendation No. 21** (Circular No. 27/2007, dated 25 July 2007)

For applications lodged on or after 1 August 2007, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Scoreboards for sports, other than mechanical or electric – Class 20
- (2) Advice on tax preparation – Class 35
- (3) Advice on fiscal assessments, advice on fiscal valuations – Class 36
- (4) Carbon offsetting services [recycling] – Class 40
- (5) Prenatal exercises – Class 41
- (6) Weblog [blog] services [on-line publication of journals or diaries] – Class 41
- (7) Creating and maintaining weblogs [blogs] for others – Class 42
- (8) Hosting of weblogs [blogs] – Class 42
- (9) Preparation of technical projects, technical research and consultancy services in the field of carbon offsetting – Class 42
- (10) Carbon offsetting services [reforestation] – Class 44

Providing on-line forums (Circular No. 27/2007, dated 25 July 2007)

Operating chat rooms (Circular No. 27/2007, dated 25 July 2007)

Providing chat rooms (Circular No. 27/2007, dated 25 July 2007)

Providing discussion services on-line (Circular No. 27/2007, dated 25 July 2007)

For applications lodged on or after 1 August 2007, the Registrar will only accept the items "providing on-line forums", "operating chat rooms", "providing chat rooms", and "providing discussion services on-line" in Class 38, regardless of the topic of the discussion. These items are analogous to the items "electronic bulletin board services [telecommunication services]" and "providing internet chatrooms" listed in Class 38 of the NICE Classification (Ninth Edition). This is in line with the view of the World Intellectual Property Organization.

Arranging and conducting of colloquiums (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of conferences (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of congresses (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of seminars (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of symposiums (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of conventions (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of exhibitions (Circular No. 27/2007, dated 25 July 2007)

The Registrar wishes to clarify that the above items with the exception of the last, viz.

"arranging and conducting of colloquiums";
"arranging and conducting of conferences";
"arranging and conducting of congresses";
"arranging and conducting of seminars";
"arranging and conducting of symposiums"; and
"arranging and conducting of conventions"

are classified in Class 41, regardless of the topic relating to these services. It is the purpose of the service and not the topic that determines their classification in Class 41. By virtue of their dictionary definitions, the terms, "colloquiums", "conferences", "congresses", "seminars", "symposiums" and "conventions" refer to activities linked with training or education, both of which are proper to Class 41. To illustrate, "arranging and conducting of conferences for commercial or advertising purposes" and "arranging and conducting of seminars for commercial or advertising purposes" are both classified under Class 41.

However, the item, "arranging and conducting of exhibitions", will be classified according to the subject matter since this service only refers to showing of products or services to the public, and is not primarily offered for the purposes of training or education. By analogy, "organization of exhibitions for commercial or advertising purposes" is listed in Class 35 of the NICE Classification (Ninth Edition), but "organization of exhibitions for cultural or educational purposes" is listed in Class 41 of the NICE Classification (Ninth Edition). This is in line with the view of the World Intellectual Property Organization.

Providing access to databases (Circular No. 33/2007, dated 26 September 2007)

Rental of access time to the internet / global computer networks (Circular No. 33/2007, dated 26 September 2007)

Providing of user access to the internet / global computer networks (Circular No. 33/2007, dated 26 September 2007)

Rental of access time to databases (Circular No. 33/2007, dated 26 September 2007)

For applications lodged on or after 3 October 2007, the Registrar will accept these and other analogous items in Class 38 only. These are essentially telecommunication services and are classified under Class 38 whether they are provided by an Internet Service Provider or a non-Internet Service Provider. Hence, our previous journal notice on the classification of these services based on the status of the applicant is no longer applicable.

Consistent with our previous journal notice on “leasing” (Circular No. 20/2004, dated 12 November 2004), applicants should also avoid using the term, “leasing”, in any class except Class 36, as “leasing services”, are acceptable only in Class 36. With regards to the above items in Class 38, an example of an acceptable description would be “rental of access time to databases” and not “leasing of access time to databases”.

2008 Circulars

Cereal-based beverages (Circular No. 7/2008, dated 5 March 2008)

Beverages made from cereals (Circular No. 7/2008, dated 5 March 2008)

Executor services (Circular No. 7/2008, dated 5 March 2008)

The pre-2004 circulars on “cereal-based beverages/ beverages made from cereals” in Class 32 and “executor services” in Class 42 have been removed in light of recent directives from the World Intellectual Property Organisation.

A specification of goods consisting of or containing “cereal-based beverages” or “beverages made from cereals” will be classified in Class 30 by analogy to “cereal preparations” that are classified under Class 30 of the NICE Classification.

A specification of services consisting of or containing “executor services” will be classified in Class 36 because such services generally relate to the administration of money, investments, real estate, assets, and other valuables. Such services are analogous to “fiduciary services” and “trusteeship services” both of which are classified under Class 36 of the NICE Classification.

The above changes affect all applications lodged on or after 12 March 2008.

Retail services and other like services in Class 35 (Circular No. 9/2008, dated 2 May 2008)

In addition to Circular No. 6/2006, the Registrar will accept the descriptions for applications lodged on or after 9 May 2008 (where it is not practical to list all the goods to which the retail services or wholesale services relate):

- a. "retail services"
- b. "wholesale services"

However, the Registrar will continue to reject descriptions such as "distributorship services", "mail order services", "departmental store services", "supermarket services", or "internet shopping". These terms are considered vague as they include services more than retail and wholesale services.

With the addition, the following descriptions provide guidance on what is considered to be acceptable to the Registrar in future:

- a. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet";
- b. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet";
- c. "Retail services in relation to [list the goods]";
- d. "Retail services";
- e. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet";
- f. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet";
- g. "Wholesale services in relation to [list the goods]";
- h. "Wholesale services";
- i. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet";
- j. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet";
- k. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view

and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”;

- l. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”;
- m. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”;
- n. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”;
- o. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a departmental store”;
- p. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a departmental store”;
- q. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a supermarket”; and
- r. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a supermarket”.

WIPO's Recommendation No. 22 (Circular No. 16/2008, dated 21 November 2008)

For applications lodged on or after 28 November 2008, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Milk ferments [bacteria preparations] used in making foodstuffs - Class 1
- (2) Wind turbines - Class 7
- (3) Pill distributor and organizer boxes for medical purposes - Class 10
- (4) Electronic cigarettes for medical purposes - Class 10
- (5) Meditation stones - Class 14
- (6) Pill boxes [not for medical purposes] - Class 21
- (7) Tablecloth holders - Class 21
- (8) Electronic cigarettes, not for medical purposes - Class 34
- (9) Publicity film production - Class 35
- (10) Illustrators' services - Class 42
- (11) Diamond authentication and certification services - Class 42

(12) Electronic data storage - Class 42

(13) Advice concerning cooking recipes - Class 43

Electronic data storage (Circular No. 16/2008, dated 21 November 2008)

Storage of data, information or documents (Circular No. 16/2008, dated 21 November 2008)

The pre-2004 circular on "Storage of data, information or documents" (Class 35 or 39) has been removed in light of recent directive from the World Intellectual Property Organization.

A specification of services consisting of "Electronic data storage" will be classified in Class 42 instead of 35 by analogy to "Duplication of computer programs" and "Data conversion of computer programs and data [not physical conversion]" which are classified under Class 42 of the NICE Classification. This is in conformity with the explanatory note "Class 42 includes mainly services provided by ... computer programmers, etc.".

On the other hand, if the data, information or documents are being stored physically, for example, in a warehouse, then it is proper to Class 39. The determining factor is **where** the data, information, or documents are being stored. Examples of items which are proper to Class 39 are:

- i. "Data storage"
- ii. "Information storage"
- iii. "Storage of electronically-stored data, information or documents".

The above changes affect all applications lodged on or after 28 November 2008.

2009 Circulars

Association services (Circular No. 6/2009, dated 30 April 2009)

For applications lodged on or after 7 May 2009, the Registrar will not accept a description consisting of "association services" per se because the item, without further qualification, is vague and may fall within several classes. The World Intellectual Property Organization also regards this description as being vague and takes the view that a service should not in principle commence with the description "association services" even if it is followed by a qualifier. For example, the description, "association services, namely arranging business introductions", is not acceptable.

In light of the above, applicants should avoid using descriptions beginning with "association services". A description like "association services, namely, promoting the general interests of those concerned with the importance of health and nutrition", should be reworded to "business promotion relating to the importance of health and nutrition, provided through an association" in order for it to be classified in Class 35.

Concierge services (Circular No. 6/2009, dated 30 April 2009)

For applications lodged on or after 7 May 2009, the Registrar will not accept a description consisting of "concierge services" per se because the item, without further qualification, is vague and may fall within several classes. This is in line with the view of the World Intellectual Property Organization that the description is vague and can fall within several classes.

In light of the above, applicants should specify the exact nature of the concierge services that are being claimed. If they insist on using the description, "concierge services", that must be qualified by a precise description of the concierge service. The following are examples of acceptable descriptions.

- i. "Concierge services for the arranging of tours" in Class 39
- ii. "Concierge services, namely, the delivery of luggage for guests" in Class 39
- iii. "Concierge services, namely, arranging for theater tickets" in Class 41
- iv. "Concierge services relating to restaurant reservations" in Class 43
- v. "Concierge services [baggage inspection for security purposes]" in Class 45.

On the other hand, descriptions such as "concierge services for others comprising of making requested personal arrangements and providing customer specific information to meet the needs of individuals", "hotel and resort concierge services", and "personal services rendered by others to meet the needs of individuals, namely, concierge services" are not acceptable since the exact nature of the services is unclear.

Personal and/or social services rendered by others to meet the needs of individuals (Circular No. 7/2009, dated 19 June 2009)

This is to clarify that a description consisting of "personal and/or social services rendered by others to meet the needs of individuals" in Class 45 has never been acceptable to the Registrar because it is vague and too broad in scope. For the purpose of clarity, applicants must specify the exact nature of the services that they wish to claim.

If, however, an applicant insists on using this description, it must be qualified by a precise description of the personal or social services claimed. An example of an acceptable description would be "personal services rendered by others to meet the needs of individuals, namely baby sitting".

Ancillary Services / Related Services (Circular No. 11/2009, dated 25 September 2009)

For applications lodged on or after 2 October 2009, the Registrar will not accept a description containing "ancillary services", "related services" or their equivalent, regardless of whether they are preceded or followed by a specific term. This is because the exact nature of these descriptions remains unclear. The addition of qualifiers such as "included in this class" or "all in this class" in such descriptions does not help in making those descriptions any clearer. The following are some examples of the objectionable descriptions:-

- (a) "advertising services; services ancillary or related to the aforementioned included in this class";
- (b) "services ancillary or related to the provision of business management services; all in this class"; and

(c) “all services relating or ancillary to computer services; all included in Class 42”.

In such cases, the Registrar will request that the applicant specify the “ancillary services” and “related services” claimed so that the specification is clear and unambiguous.

This practice direction is consistent with Circular No. 20/2004 that relates to “Vague descriptions in specifications”.

2010 Circulars

WIPO's Recommendation No. 23 (Circular No. 2/2010, dated 5 March 2010)

For applications lodged on or after 12 March 2010, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

1. Trophies of common metals (Class 6)
2. Trophies of precious metals (Class 14)
3. Brackets for setting up flat screen TV sets (Class 9)
4. Baby gates (Class 20)
5. Decorative sand bottles (Class 21)
6. Ankle garters (Class 26)
7. Storage of human cells (Class 39)
8. Rental of water dispensers (Class 43)
9. Service of actual notice (Class 45)

Computer services (Circular No. 3/2010, dated 25 June 2010)

For applications lodged on or after 2 July 2010, the Registrar will not accept a description consisting of “computer services” per se because the item, without further qualification, is vague. The insertion of a description that reads, for example, “all included in this class” at the end of a specification will not assist in avoiding an objection from the Registrar.

According to the International Classification of Goods and Services (ICGS), services that relate to the installation, maintenance or repair of computer hardware are classified in Class 37, while services in relation to computer rental and the installation, maintenance or repair of computer software are classified in Class 42. To avoid ambiguity and to ensure conformity with the ICGS, applicants are requested to specify the exact nature of the computer services that they are claiming. However, those who wish to include the description, “computer services”, in their specification of services may refer to the following examples which are considered acceptable to the Registrar:

- “Computer services, namely installation of computer hardware” (Class 37)

- "Computer services, namely providing search engines for the internet" (Class 42)
- "Computer services in the nature of hosting web sites for others" (Class 42)

WIPO's Recommendation No. 24 (Circular No. 4/2010, dated 8 October 2010)

For applications lodged on or after 15 October 2010, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the classes indicated in brackets next to the item:

1. Ear candles (Class 5)
2. Massage chairs with built-in massage apparatus (Class 10)
3. Airline seats with a massage function (Class 12)
4. Ergonomic chairs for seated massage (Class 20)
5. Electronic pet feeders (Class 21)

G) CIRCULARS RELATED TO PROCEEDINGS BEFORE THE HEARINGS AND MEDIATION DIVISION**HMD 2009 Circulars**

(Applications for Security for Costs, HMD Circular No. 1/2009, dated 20 November 2009. This circular is replaced by HMD Circular No. 3/2011, dated 08 April 2011.)

Completion of Form TM 28 (HMD Circular No. 2/2009, dated 20 November 2009)

Form TM 28 is used for 3 different types of proceedings:-

- (i) Application for revocation of registration of a trade mark (Rule 57(1)(a) of the Trade Marks Rules 2008 Rev. Ed. (TMR));
- (ii) Application for declaration of invalidity of registration of a trade mark (Rule 57(1)(b) of the TMR); and
- (iii) Application for rectification of the register by persons other than the proprietor of the trade mark (Rule 57(1A)(b)).

Thus, when completing the form, please ensure that: -

- (i) the correct information is provided in Form TM 28 pursuant to the particular type of proceedings for which the Form TM 28 is filed; and
- (ii) the statement of grounds provided under Part 5 of Form TM 28 is worded consistently in accordance with the type of proceedings pursued under TM 28 ie application for revocation / declaration of invalidity / rectification of the register, as applicable.

In the event of any inconsistencies between the statement of grounds and the type of proceedings indicated, the applicant would generally be directed to re-file Form TM 28 with a clear indication as to the type of proceedings pursued, unless there are exceptional reasons for the Registrar to exercise her discretion to waive the need for such correction. The earlier application will be treated as withdrawn and the application date will be the later filing date. Fees paid are non-refundable as the need to re-file is attributable to the applicant or his agents.

Filing of Form TM 11 by Joint-Opponents (HMD Circular No. 3/2009, dated 20 November 2009)

Under the provisions relating to oppositions in the Trade Marks Act (Cap 332) 2005 Rev. Ed. and Trade Marks Rules 2008 Rev. Ed., there is no prohibition against joint-opponents opposing a trade mark application.

In such an instance, it is sufficient for the purposes of the opposition that one Form TM 11 be filed. To reflect that there are joint-opponents opposing the registration of a particular trade mark, the opponents simply need to indicate, at Part 3 of TM 11, the particulars of the different opponents opposing such a registration.

The fees which are chargeable for TM 11 will depend upon the number of classes included in TM 11.

Similarly, in such circumstances, for the purpose of lodging evidence via statutory declarations (this will occur at a later stage in an opposition proceeding), the joint-

opponents need to file only one set of evidence via statutory declarations provided that it is clear from each statutory declaration that the deponent has been duly authorized by all the joint-opponents to give such evidence on their behalf.

Service of Form TM 11 (Notice of Opposition) and Form TM 28 (Application for Revocation / Declaration of Invalidity / Rectification) (HMD Circular No. 4/2009, dated 20 November 2009)

Service of Form TM 11 and Form TM 28 is regulated under Rule 29 and Rule 57 of the Trade Marks Rules 2008 Rev. Ed. (TMR) respectively.

Rule 29(2) provides that the opponent shall serve on the applicant a copy of the notice of opposition at the same time as the notice of opposition is filed with the Registrar.

Rule 57(3) provides that the applicant for revocation / declaration of invalidity / rectification shall, if he is not the proprietor of the registered trade mark, serve a copy of the application and the statement of grounds on which the application is based on the registered proprietor at the same time as he files the application and statement of grounds with the Registrar.

For the purpose of ensuring compliance with the above Rules, the opponent / applicant is to indicate clearly, on the cover letter enclosing the notice of opposition or application for revocation / declaration of invalidity / rectification to the Registrar, that a copy of Form TM 11 or Form TM 28, as applicable, has been served on the applicant / registered proprietor. Failure to do so will be taken as non-compliance with Rule 29(2) or Rule 57(3) respectively. Accordingly, the Registrar will treat the case as no proper service of Form TM 11 and Form TM 28 respectively, unless the opponent / applicant proves otherwise.

In such an event, Form TM 11 / Form TM 28 will be rejected as non-compliant. The opponent / applicant will have to re-file Form TM 11 / Form TM 28 afresh and serve the same on the applicant / registered proprietor.

In relation to Form TM 11, in the event that the notice of opposition cannot be re-filed as the 2-month or 4-month maximum time period has expired, the prospective opponent will then have to consider filing for invalidation after the mark has been registered.

Service of Form TM 12 (Counter-statement) (HMD Circular No. 5/2009, dated 20 November 2009)

Service of Counter-statement for opposition is regulated under Rule 31 of the Trade Marks Rules 2008 Rev. Ed. (TMR) and service of Counter-statement for an application for revocation / declaration of invalidity / rectification is regulated under Rule 58 of the TMR.

Rule 31(2) provides that the applicant shall serve on the opponent a copy of the Counter-statement at the same time as it is filed with the Registrar.

Rule 58(2) provides that the registered proprietor shall serve on the applicant a copy of the Counter-statement at the same time as he files the Counter-statement with the Registrar.

For the purpose of ensuring compliance with the above Rules, the applicant / registered proprietor is to indicate clearly, on the cover letter enclosing Form TM 12 to the Registrar, that the same has been served on the opponent / applicant. Failure to do so will be taken as non-compliance with the Rules. Accordingly, the Registrar will treat the case as no proper service of Form TM 12.

In such an event of non-service, and provided that the irregularity would not result in a detriment to the other party that cannot be remedied, the Registrar would generally, pursuant to Rule 83, exercise her discretion to direct that the procedural irregularity be

rectified by issuing deadlines for service of the Form TM 12 on the other party and an order as to costs against the applicant / registered proprietor as appropriate.

HMD 2010 Circulars

Compliance with Rule 30(3) (HMD Circular No. 1/2010, dated 20 August 2010)

Where an opponent relies on an “earlier trade mark which is well known in Singapore” in support of his opposition, Rule 30(3) of the Trade Marks Rules 2008 Rev Ed applies.

Rule 30(3) requires that:

- (i) information on the use of the earlier trade mark; and
- (ii) information on any promotion undertaken for the earlier trade mark be provided in the notice of opposition.

There are no pre-set requirements on the specific information needed to comply with Rule 30(3). Therefore, any relevant information will be accepted as long as:

- (i) the information relates to the use or promotion of the earlier trade mark; and
- (ii) it is “for the purpose of determining if the trade mark is well known in Singapore” as expressed in Rule 30(3).

Non-exhaustive examples include:

- (i) revenue figures for the earlier trade mark worldwide and in Singapore, if any
- (ii) promotion figures for the earlier trade mark worldwide and in Singapore, if any
- (iii) information on the duration of the use and promotion of the earlier trade mark
- (iv) information on the extent of the use and promotion of the earlier trade mark
- (v) information on the geographical area of the use and promotion of the earlier trade mark

Examples (iii) to (v) above are essentially information pertaining to Section 2(7)(b) of the Trade Marks Act (Cap 332) 2005 Rev Ed.

The information provided can be descriptive (e.g. “Our well known mark has been used on clothing and footwear in 20 countries worldwide including the USA, UK, Germany, China and Singapore since 1990”) or quantitative (e.g. actual revenue and promotional figures”).

Any information provided under Rule 30(3) must, however, be more than that which is already required of earlier trade marks which are not registered nor pending registration under Rule 30(2)(c). In other words, the information must go beyond information on the goods or services in respect of which the mark is used.

If Rule 30(3) is not complied with, the opponent will be directed to amend his notice of opposition to comply with the requirement if the parties are not negotiating.

In practice, the above applies to an application for invalidation that is based on “an earlier mark which is well known in Singapore” as well.

Amendments to Form TM 11, Form TM 28 and Form TM 12 (HMD Circular No. 2/2010 dated, 20 August 2010)

Amendments may be made to Form TM 11 (Notice of Opposition), Form TM 28 (Application for Revocation or Declaration of Invalidity of Registration of Trade Mark) and Form TM 12 (Counter-Statement) in the course of opposition/revocation/invalidation proceedings before the Registrar if it is fair and reasonable to do so. Depending on when the request to amend is made, different considerations apply.

A. AMENDMENTS BEFORE CLOSE OF PLEADINGS

The Registrar will in appropriate cases generally allow amendments to Form TM 11 and Form TM 28 before pleadings are deemed to be closed. Pleadings are deemed to be closed immediately upon the filing of Form TM 12 (Counter-Statement), or, in the case of an invalidation action where no Counter-Statement is filed, the last date that the Counter-Statement could have been filed.

For avoidance of doubt, amendments to Counter-Statements are always made after the close of pleadings by the foregoing definition. In such instances, B. below applies.

Where the proposed amendments are allowed, the Registrar may grant an extension of time to the other party to file his Counter-Statement and/or award such costs as may be just against the party seeking the amendments.

B. AMENDMENTS AFTER CLOSE OF PLEADINGS

Where amendments are sought after pleadings are deemed to be closed, consent from the other party must first be sought. If there is consent from the other party, the Registrar will in appropriate cases generally allow the amendment and if necessary, issue such directions on the subsequent procedure as is deemed fit.

Where there is no consent, leave of the Registrar must be obtained for any amendment after the close of pleadings. Whether leave would be granted depends on the facts and circumstances of each case. In considering whether to grant leave for the amendments, the Registrar will conduct a balancing exercise, involving a consideration of the public interest that rules relating to procedure are complied with and the need to ensure that there is proper adjudication of a case based on its merits in the interest of justice between the parties. In particular, the Registrar will carefully weigh the following non-exhaustive factors on a case by case basis:

- (i) whether the party seeking the amendment could have claimed the particular ground/defence or cited the additional “earlier trade mark” earlier, when filing Form TM 11, Form TM 28 or Form TM 12
- (ii) whether the amendment is necessitated by the pleading or evidence filed by the other party
- (iii) whether the other party would suffer any real prejudice which cannot be compensated with costs if the amendment is allowed
- (iv) whether allowing the amendment will facilitate the determination of the real question in controversy between the parties or whether the amendment is only a tactical manoeuvre and allowing the amendment would result in prejudice to the other party

- (v) whether the amendment raises grounds or facts which the applicant need not set out in reply, for example, the ground was not raised by the opponent and is therefore inapplicable to the particular proceedings at hand
- (vi) the substantiality of the amendment
- (vii) the stage of the proceedings the amendment is sought.

If leave to amend is granted, the Registrar may issue such necessary directions on the subsequent procedure as is deemed fit, including but not limited to adjourning the case, allowing amendments to be made to the Counter-Statement by the other party, granting extensions of time for the filing of further evidence by both parties as well as awarding such costs as may be just against the party seeking the amendments.

Using Form TM 28 for Two or More Different Types of Actions (HMD Circular No. 3/2010, dated 20 August 2010)

Form TM 28 is used for 3 different types of actions:

- (i) Application for revocation of registration of a trade mark (Rule 57(1)(a) of the Trade Marks Rules 2008 Rev Ed ("TMR"))
- (iii) Application for declaration of invalidity of registration of a trade mark (Rule 57(1)(b) of the TMR)
- (iii) Application for rectification of the register by persons other than the proprietor of the trade mark (Rule 57(1A)(b) of the TMR)

As each type of action is different in that different grounds are applicable, **one Form TM 28** is required for **each** type of action (revocation / invalidation / rectification) pursued in relation to a trade mark. Thus, should the applicant for invalidation / declaration of invalidity / rectification seek to institute two (or three) different types of actions in relation to a trade mark, two (or three) Form TM 28's are to be filed accordingly.

In the event that two (or three) different types of actions are indicated in one Form TM 28, the form will only be considered to be relevant for **one** of the actions for the particular trade mark. This means that should the applicant for invalidation / declaration of invalidity / rectification still wish to pursue the second (or third) action(s), he will be required to file another Form TM 28 with the consequent costs and filing date implications.

For avoidance of doubt, the above does not affect the existing cost calculation for Form TM 28, which is on a per class basis.

Dealing With Extensions of Time and Case Management Conference Timelines (HMD Circular No. 4/2010, dated 20 August 2010)

To better manage trade mark opposition, invalidation and revocation proceedings, the Registrar has, at case management conferences (CMC) convened under Rule 81A of the Trade Marks Rules 2008 Rev Ed, been issuing timelines for the filing of evidence by both parties. The primary objectives are to ensure that the parties explore the possibility of a settlement through negotiations and that all parties have the same expectations on the amount of time given to each party for the filing of evidence. This circular sets out the Registrar's practice in relation to extensions of time for filing evidence and the application of CMC timelines.

Fast-Track and Slow-Track CMC Timelines

Timelines issued through CMCs are generally of two types – slow-track and fast-track. Slow-track timelines are issued in cases where parties are already exploring or are intending to explore the possibility of settlement through negotiations. In such cases, the objective of issuing a longer timeline for the party initiating the action to file his evidence is to allow parties sufficient time to negotiate and reach an amicable settlement. In other cases, fast-track timelines will be issued.

This table sets out typical timelines for slow-track and fast-track cases:

	Slow-Track Timelines	Fast-Track Timelines
Evidence of initiating party	14 months from Counter-Statement	8 months from Counter-Statement
Evidence of responding party	6 months from evidence of initiating party	6 months from evidence of initiating party

These CMC timelines represent the maximum extent to which the Registrar will generally exercise her discretion in granting extensions of time to parties and they are predicated on the appropriate requests for extensions of time being made.

Extensions of Time Within CMC Timelines

The Registrar will, as a matter of general practice, grant extensions of time where they fall within the CMC timelines.

Extensions of Time Beyond CMC Timelines

1. Slow-Track Cases

Under the slow-track timelines, as the evidence of the party initiating the action can be filed as late as 14 months from the Counter-Statement, parties effectively have a total of 14 months to reach a settlement. This saves parties unnecessary expense in preparing evidence for the adversarial process while they negotiate. As 14 months would provide parties a reasonable opportunity to reach a settlement in most cases, in exercising the discretionary power under Rule 32(9), the Registrar **will most likely refuse to grant** any further extension of time beyond that timeline unless it is shown to the Registrar's satisfaction that there are good and sufficient reasons to do so as required under Rule 32(9).

Once the filing of evidence has started, again, in exercising the discretionary power under Rule 33(9) or Rule 34(9), the Registrar **will most likely refuse to grant** any further extension of time beyond the CMC timelines unless the Registrar is satisfied that there are good and sufficient reasons to do so as required under Rule 33(9) or Rule 34(9) respectively.

2. Fast-Track Cases

Where initially fast-track timelines applied but subsequently parties require more time to negotiate, they may apply to the Registrar to adjust the timelines for the filing of evidence and provide the Registrar with information as to the specific additional period of time that will be needed for parties to fully explore settlement through negotiations. Again, in exercising the discretionary power under Rule 32(9), Rule 33(9) or Rule 34(9), the Registrar **will most likely refuse to grant** any further extension of time beyond the adjusted timelines unless it is shown to the Registrar's satisfaction that there are good and sufficient reasons to do so.

3. Reasons Supporting Extensions of Time beyond CMC Timelines

The Registrar may, in exceptional cases, and in so far as it is substantiated, consider the non-exhaustive list of circumstances below as justifications for the further extension of time to file evidence beyond the CMC timelines:

- (i) parties are negotiating a world-wide settlement agreement involving many jurisdictions
- (ii) parties are negotiating a settlement agreement involving a few other parties other than the parties themselves
- (iii) parties are awaiting the outcome of relevant court or other proceedings (such as proceedings before another IP office or foreign court or WIPO) that has a material bearing on the settlement agreement or on how the parties wish to proceed
- (iv) significant progress has been made but parties still require a specific period of additional time to complete the negotiations
- (v) one party has had a change of agent shortly before the deadline for him to file his evidence
- (vi) a circumstance has arisen that is beyond one party's control, provided that the party has acted promptly and diligently at all times; for example, corporate changes such as merger and bankruptcy; the party's decision-maker has taken ill or left and the party needs more time to make certain decisions; civil war; declaration of state of emergency.

Whenever an extension of time beyond the CMC timeline is sought, the party must provide the reason and information on the specific additional period of time needed. In addition, except for (v) and (vi) above, the party requesting an extension of time beyond the CMC timeline must also obtain the consent of the other party to the further extension of time. If the Registrar accepts the reason for a further extension of time beyond the CMC timeline, it shall not be possible to request any further extension of time based on the same reason beyond the specific additional period of time indicated by the party.

4. Adjustment of CMC Timelines

Where the Registrar has granted an extension of time beyond the original CMC timeline, the latter may also be adjusted as appropriate, to take into account the new circumstances that have set in.

Concurrent Statutory Deadlines and CMC Timelines

Parties should note that statutory deadlines and CMC timelines run concurrently. CMC timelines and any further extensions of time beyond CMC timelines granted do not negate the need for parties to apply for extensions of time in accordance with the Trade Marks Rules, including, where applicable, filing Form TM 50 and fee.

Typically, the Registrar will grant an extension of not more than 2 months each time for each Form TM 50 filed. To illustrate, if a party has specified an additional period of 4 months in addition to the 8 months given for the filing of his evidence pursuant to the fast track timelines under any of the reasons at (i) to (vi) above, and the Registrar has accepted the reason for extending the deadline for 4 months beyond the CMC timeline, the party would have to file one Form TM 50 for the first extension beyond 6 months from the date of the Counter-Statement and, then, two Form TM 50's for the additional 4 months required.

Conclusion

The Registrar will seek to apply these guidelines consistently and in a fair and reasonable fashion so as to ensure that timelines issued through the CMC process are properly tracked and complied with by both parties. This, in turn, will enhance the efficiency, effectiveness and transparency of the hearings process as well as the CMC process. It will also ensure that applications for extensions of time beyond CMC timelines are not made routinely but are the result of and supported by evidence of circumstances that warrant the extension.

HMD 2011 Circulars

Applications to File Further Evidence (HMD Circular No. 1/2011, dated 8 April 2011)

A party may apply to the Registrar for leave to file further evidence after evidence is closed (Rule 35, Trade Marks Rules 2008 Rev Ed). The requesting party should submit a draft statutory declaration setting out the further evidence that is sought to be admitted and state why the evidence is relevant but could not have been adduced earlier. At the same time, the other party must be copied on the request and his consent must be sought.

A. FURTHER EVIDENCE WITH CONSENT

If there is consent from the other party, the Registrar will in appropriate cases generally allow the further evidence and if necessary, issue such directions on the subsequent procedure as is deemed fit, including but not limited to adjourning the hearing, allowing the other party to file further evidence in reply where relevant, as well as awarding such costs as may be just.

B. FURTHER EVIDENCE WITHOUT CONSENT

If there is no consent from the other party, the Registrar does not allow further evidence to be filed simply as a matter of course. Whether leave would be granted depends on the facts and circumstances of each case. In considering whether to grant leave for the further evidence, the Registrar will conduct a balancing exercise, involving a consideration of the public interest that rules relating to procedure are complied with and the need to ensure that there is proper adjudication of a case based on its merits in the interest of justice between the parties. In particular, the Registrar will carefully weigh the following non-exhaustive factors on a case by case basis:

- (i) why the party seeking to file the further evidence did not do so earlier when the main evidence or evidence in reply fell due; it should be shown that the evidence could not have been obtained earlier with reasonable diligence
- (ii) whether the further evidence is necessitated by the evidence filed by the other party
- (iii) whether the other party would suffer any real prejudice which cannot be compensated with costs if the further evidence is allowed
- (vi) whether allowing the further evidence will allow the substantial issues to be satisfactorily and fully considered and determined or whether the application is only a tactical manoeuvre and allowing the further evidence would result in prejudice to the other party
- (v) the stage of the proceedings at which the further evidence is sought (e.g. at the Pre-Hearing Review in contrast to one day before the hearing), considerations of disruption to proceedings and extra costs generated by the delay being relevant.

All relevant factors will be considered, though the main weight is attached to the desirability of having the substantial issues satisfactorily and fully considered and determined. However, this factor may be outweighed by the totality of the other factors in certain cases.

If leave to file further evidence is granted, the Registrar may issue such necessary directions on the subsequent procedure as is deemed fit, including but not limited to adjourning the hearing, allowing the other party to file further evidence in reply where relevant, as well as awarding such costs as may be just.

Proprietor's Evidence in Trade Mark Revocations (HMD Circular No. 2/2011, dated 8 April 2011)

This circular pertains to trade mark revocations on the ground of non-use and the proprietor's obligation to file evidence in defence of his trade mark registration.

Rule 58(3) of the Trade Marks Rules (Cap 332) 2008 Rev Ed requires a proprietor to file evidence of use together with his counter-statement (Form TM 12).

Mode of Giving Evidence

Rule 69(1) provides that "evidence shall be given by way of a statutory declaration, unless otherwise provided by the Act or these Rules or directed by the Registrar."

In both the Trade Marks Act and Rules, there are no exceptions given to Rule 69(1) in terms of how evidence is to be given by a proprietor under Rule 58(3). Hence, Rule 69(1) applies to Rule 58(3).

In practice, this means that if a proprietor intends to defend his trade mark registration against revocation for non-use, he needs to file evidence of use by way of statutory declaration together with his counter-statement.

On the other hand, if a proprietor intends to defend his trade mark registration by giving proper reasons for non-use, there is no issue of evidence of use. Hence, he merely needs to give his reasons for non-use in the counter-statement without a statutory declaration.

Content of Evidence

At the counter-statement stage, a proprietor is only required to show that he has an arguable case. The evidence does not need to comprise the proprietor's entire defence in relation to use. More detailed evidence, if any, can be filed later in the proceedings.

The requirement in Rule 58(3) for a proprietor to file *prima facie* evidence of use upfront reflects the statutory burden on the proprietor of a registered mark to show what use has been made of it, under Section 105.

As a matter of best practice, the proprietor's *prima facie* evidence should comprise:

- (i) some material showing the mark in use e.g. catalogues, product labels, advertisements
- (ii) some indication of sales e.g. invoices, purchase orders

Grace Period

The consequence of not filing evidence in accordance with Rule 58(3) is that the application for revocation will be granted under Rule 59(1). This means that the proprietor's registered mark will be revoked.

As the Registrar has accepted counter-statements containing information on the use of the mark without sworn evidence under past practice, there will be a grace period of 6 months from 1 May 2011 to 31 October 2011 for proprietors to adjust to the change set out in this circular.

Where the proprietor's counter-statement is filed during this grace period, if his information on the use of the mark is not filed by way of a statutory declaration, the Registrar will direct the proprietor at the Case Management Conference to remedy this defect in evidence by re-filing it as a statutory declaration and will allow the proceedings to continue. However, if the counter-statement does not already contain any information on the use of the mark, nor proper reasons for non-use, the Registrar will apply Rule 59(1) to grant the application for revocation.

After the grace period, from 1 November 2011 onwards, the Registrar will apply Rule 59(1) to grant the application for revocation if no evidence by way of statutory declaration is filed with the counter-statement.

Evidential Rounds

After the proprietor's counter-statement and evidence by way of statutory declaration is filed, Rule 59(1) provides that Rules 32 to 40 apply with the necessary modifications to terms of reference.

In effect, this means that the applicant for revocation files his evidence after the counter-statement under Rule 32. This is followed by the proprietor's second set of sworn evidence under Rule 33, and the applicant's evidence in reply, if any, under Rule 34. If the proprietor does not file evidence under Rule 33, Rule 59(2)(d) applies and he is treated as admitting to the facts alleged by the applicant for revocation.

In practice, if the proprietor has already filed evidence of use amounting to his entire defence together with his counter-statement, after the applicant for revocation files his evidence, the proprietor may file a simple statutory declaration to refer to the statutory declaration filed earlier with his counter-statement as his entire evidence in defence. There is no need to adduce all the earlier evidence afresh in such a case. As there is no further evidence for the applicant to reply to in such a case, evidence for the matter will be deemed closed. The matter will move on to the Pre-Hearing Review stage.

On the other hand, if, beyond the evidence of use filed together with his counter-statement, the proprietor has more evidence to adduce after the applicant files his evidence, the usual evidential process in Rules 33 and 34 applies.

Costs (HMD Circular No. 3/2011, dated 15 April 2011)

A. LIABILITY FOR COSTS

Award of Costs

The Registrar has the discretion to award costs against any party to proceedings brought before him in relation to any matter and in the amounts provided for by the Trade Marks Rules (Section 69 of the Trade Marks Act (Cap 332) 2005 Rev Ed). Pursuant to the above discretionary power, the Registrar can also direct the method in which payment is to be made. In general, the successful party in contested proceedings is usually entitled to an award of costs. At any hearing, it is open to the parties to submit arguments on costs, and this should always be done especially if it is claimed that costs should not follow the event.

Consolidation of Proceedings

If the proceedings were consolidated before any evidence had been filed, the cost would normally be awarded for each stage of the evidence as if it was a single set of proceedings. However, if the consolidation had been requested after evidence had been filed, costs would normally be awarded for each set of proceedings separately up to the stage when consolidation was requested, and as though they were one set of proceedings thereafter.

Joint Initiating Parties

Where two or more parties have joined in to oppose / invalidate / revoke / rectify an application and the action is successful, any costs awarded to the joint initiating parties are calculated as being for one party only. If the action is not successful, the default position is that the joint initiating parties are considered to be jointly and severally liable unless otherwise stated.

Taxation

The usual order for costs in an *inter partes* hearing would direct the party and party costs to be taxed if not agreed. Unless they are agreed, no costs are payable unless they have been taxed. "Party and party costs" refer to such costs as are necessary or proper for the attainment of justice or for enforcing or defending the rights of the party whose costs are being taxed. The party and party costs chargeable under a taxation are all that are necessary or proper to enable the party to conduct the proceedings, and no more. Unless the order for costs specifies taxation on some other bases, costs would be taxed on party and party basis.

Applicability of Scale of Costs (Fourth Schedule of the Trade Marks Rules)

The Scale of Costs in the Fourth Schedule applies in relation to taxation hearings / proceedings. The Registrar does not have the discretion to depart from the Scale of Costs provided in the Fourth Schedule (Rule 75(1)). Further, it is to be noted that costs awarded in taxation proceedings are not intended to compensate the parties for the expense to which they may have been put (Rule 75(2)).

Guidelines to the Application of the Scale of Costs

In applying the Scale of Costs, the Registrar will be guided by the factors below:

- (i) In relation to the preparation, drawing, filing and review of the notice of opposition, application for revocation, declaration of invalidity of registration and rectification of an entry in the Register, the Registrar will take into account:
 - (a) the number of grounds raised
 - (b) the complexity of the issues of fact and law will be considered

- (ii) In relation to the preparation, drawing and filing of the evidence, the Registrar will take into account:
 - (a) the complexity of the evidence filed
 - (b) the amount and relevance of the evidence filed
 - (c) the number of deponents involved
- (iii) In relation to the preparation of all types of hearings, the Registrar will take into account:
 - (a) the number of grounds raised
 - (b) the complexity of issues of fact and law
 - (c) the length of written submissions (if any)
 - (d) the amount and relevance of authorities cited (if any)
 - (e) the number of witnesses taking the stand (if any)
- (iv) In relation to the attendance of all types of hearings, the Registrar will take into account:
 - (a) the complexity of issues of fact and law
 - (b) the time taken for the hearing
 - (c) the number of witnesses taking the stand (if any)
- (v) In relation to the general and travelling expenses incurred by witnesses, the Registrar will take into account:
 - (a) the complexity of issues of fact
 - (b) the time taken for the witness' attendance

B. SECURITY FOR COSTS

(This section of the circular updates and replaces HMD Circular No. 1/2009 on Applications for Security for Costs.)

Section 70 of the Trade Marks Act (Cap 332) 2005 Rev Ed provides:

If a person who neither resides nor carries on business in Singapore —

- (a) gives notice of opposition under section 13; or*
 - (b) applies to the Registrar under section 22 or 23 for the registration of a trade mark to be revoked or to be declared invalid, as the case may be,*
- the Registrar may require the person to give security for the costs for the proceedings and may, if security is not given, dismiss the proceedings.*

[Emphasis added]

It is clear from the above that there can be 2 stages involved in proceedings related to security for costs. At the first stage, the Registrar has the discretion whether to require one party to give security upon the fulfillment of the criteria. At the second stage, where security is not given, again the Registrar has the discretion whether to dismiss the proceedings. In general, the Registrar will exercise her discretion as a 2-stage process.

I. Application for Security for Costs

A) Whether to Grant Security for Costs

Condition Precedent

It is only if the Initiating Party¹ neither resides nor carries on business in Singapore that the Registrar has a discretion to require him to provide security for costs of the opposition or revocation or declaration of invalidity proceedings. Thus, the party seeking security for costs must first show that the Initiating Party neither resides nor carries on business in Singapore.

Registrar's Discretion

Once it has been shown that the Initiating Party neither resides nor carries on business in Singapore, the Registrar then has a discretion to require the Initiating Party to provide security for costs. The word "may" makes it clear that security cannot be ordered as a matter of course, but only if the Registrar thinks it is just to do so in the circumstances of the case. The Registrar will exercise this discretionary power judiciously and by considering all the circumstances of the case.

Although the wording of Section 70 differs from that of Order 23 of the Rules of Court, the primary purpose behind Section 70 is similar to that for Order 23, which is to ensure that the defending party ("Defending Party") in any action has some security that, in the event that he wins, the Initiating Party or the party taking out the action will pay his costs.

Thus, the factors that will be taken into consideration by the Registrar in deciding whether to grant security for costs in an opposition or revocation or declaration of invalidity proceedings are similar to the factors that the courts will take into account in deciding whether to grant security for costs in a civil suit.

These factors include, amongst others:

- (i) Whether granting the security would stifle a genuine claim. Impecuniosity of the Initiating Party is inextricably linked to this factor. Where the granting of the security would stifle a genuine claim, the application for security may be denied. One of the ways to moderate the concern of stifling a genuine claim is to reduce the quantum of the security allowed.
- (ii) The ease with which a Singapore decision can be enforced overseas. Generally, if the foreign jurisdiction is covered under either the Reciprocal Enforcement of Commonwealth Judgments Act (Cap 264) or the Reciprocal Enforcement of Foreign Judgments Act (Cap 265), then there is a tendency that the application for security may be refused.
- (iii) The likelihood of the Initiating Party succeeding. However, it is important to note that in coming to her view as to the probability of success of an action, the Registrar is not required to make a detailed examination as to the merits of the case. Indeed, the Registrar would not be in position to do so in particular where the action is still at an early stage. If both parties have an arguable case on the face of it, then this will be a neutral factor.
- (iv) The stage at which the application for security for costs is made. In general, the case is stronger where the application is made at an early stage of the action. This

¹ For clarity, in the context for Security for Costs "Initiating Party" refers to the party initiating the *main action* e.g. an Opposition, and not the application for the security for costs.

because where an application is made at a late stage, the Defending Party would have already expended much costs. This casts doubt as to whether the Defending Party is genuinely concerned about recovering costs from the Initiating Party.

- (v) Whether the Initiating Party is an individual or a corporate entity. This is relevant as the attitude in relation to impecuniosity differs with regard to companies versus individuals. Where the Initiating Party is a natural person, public policy leans much more towards encouraging access to the Registrar.
- (vi) Where the Initiating Party is a limited company, whether there is evidence that it is unable to pay costs. There are 2 potential ways this factor may apply:
 - (a) Where the Initiating Party is impecunious. When one is dealing with a company rather than a natural person, public policy is in favour of limiting, rather than encouraging, uninhibited access to the Registrar.
 - (b) Where the Initiating Party claims that it is fully able to pay the Defending Party's costs if the latter wins. For example, the Initiating Party may be a public listed company with many assets. Since the Defending Party is not able to show that the Initiating Party is unable to pay costs, this factor will work against the Defending Party.

Based on a consideration of the above, the Registrar may then decide whether the application for security for costs should be granted. However, where the circumstances are evenly balanced it would ordinarily be just to order security against a foreign Initiating Party.

B) Mode of the Security

In the event that the Registrar does grant the application for security for costs, the Registrar will also direct the quantum, mode of payment as well as the period within which such security is to be furnished.

There are two generally accepted modes for the provision of the security:

- (i) A solicitor's undertaking
- (ii) A banker's guarantee

If the Initiating Party's agents are a firm of solicitors, the more common mode for the provision of the security would be via a solicitor's undertaking as obtaining a banker's guarantee would entail the foreign Initiating Party opening an account with a Singapore bank if it does not already have one. In comparison, where a solicitor's undertaking is given, the foreign Initiating Party simply needs to make payment to its solicitor agent's account. Where the Initiating Party's agents are not a firm of solicitors, then a solicitor's undertaking is not applicable and a banker's guarantee will be required.

C) Stay of Proceedings

Once the Registrar has made a grant of security, pending the provision of the security, there may be a need to stay the proceedings. Whether or not such a need arises will depend on the stage of the action when the grant is made. If it is the Defending Party's turn to file a document, the proceedings are usually stayed so that the Defending Party does not

have to incur additional costs. However, if it is the Initiating Party's turn to file a document, the proceedings are usually not stayed.

II. Application for Proceedings to be Dismissed

Following the interlocutory hearing, in the event that the party whom the Registrar has ordered to provide security for costs fails to do so, the party to whom security for costs has been granted can then apply, in writing, for the opposition / revocation / declaration for invalidity proceedings to be dismissed.

The Registrar will call for submissions in writing from both parties and exercise her discretion to decide whether the proceedings should be dismissed. If parties request an interlocutory hearing to decide the issue, the Registrar may also fix one to hear the parties in person. Generally, unless there are good and sufficient reasons to justify the default in payment of the security, the Registrar is likely to order that the opposition / revocation / declaration for invalidity proceedings be dismissed.

Applications Published for Opposition Purposes under the Trade Marks Act (Cap.332, 1999 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 1999 Ed.)

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$340).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

BLACKBERRY APP WORLD

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus for recording, transmission or reproduction of data, sound or images; magnetic data carriers, recording discs; calculating machines, data processing equipment and computers; computer software; electronic handheld units for the wireless transmission of data and/or voice signals; accessories for electronic handheld units for the wireless transmission of data and/or voice signals namely batteries, battery doors, car kits, chargers and charging pods, headsets, adapters, desk stands, docking cradles, computer cables, cases, totes and holsters; computer communication software for the synchronization, transmission and sharing of data, calendar, content and messaging between one or more electronic handheld units and data stored on or associated with a computer.

Class 35

Advertising services; the bringing together, for the benefit of others, of a variety of goods, excluding the transport thereof, enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network; providing business information; marketing services; searching, browsing and retrieving information, sites, and other resources available on global computer networks and other communication networks for others.

Class 36

Administration of on-line payments.

Class 37

Repair and installation services; installation, maintenance and repair of computer hardware.

Class 38

Telecommunication; providing access to the Internet; providing access to electronic databases, providing access to GPS (Global Positioning System) navigation services; provision of connectivity services and access to electronic communications networks, for transmission or reception of audio, video or multimedia content; provision of connectivity services and access to electronic communications networks for transmission or reception of computer software and applications; web casting services; e-mail service; delivery of messages by electronic transmission; wireless data messaging services, particularly services that enable a user to send and/or receive messages through a wireless data network; one-way and two-way paging services; transmission and reception

of voice communication services; electronic transmission of computer software and applications via the internet and other computer and electronic communication networks and wireless devices; broadcasting; broadcasting or transmission of radio programs; broadcasting or transmission of streamed and downloadable digital audio and video content via computer and other communications networks; telecommunications consultation, namely providing information to third parties to assist them in developing and integrating one-way or two-way wireless connectivity to data, including corporate and home/personal data, and/or voice communications; consultancy and technical support services relating to telecommunication; internet services namely providing access to search engines for the Internet; providing access to on-line programs and portals, via a global computer network and other computer and electronic communication networks, to enable users to program audio, video, movies, text and other multimedia content.

Class 41

Education; providing of training; entertainment services; sporting and cultural activities; information related thereto; publishing; organization of games; education and training services, namely, classes, seminars and conferences for the purpose of providing information to third parties to assist them in using developing and supporting wireless connectivity devices and related wireless connectivity and computer communication software.

Class 42

Scientific and technological services and research and design services relating thereto; industrial analysis and research services; design and development of computer hardware and software; software as a service (SAAS) services; providing search engines for obtaining data via communications networks; consultancy and technical support services relating to GPS (Global Positioning System) technology; consultancy and technical support services relating to computer software; consultancy and technical support services relating to computer hardware (excluding installation, maintenance and repair of computer hardware); technical support services, namely, updating and maintenance of computer software and troubleshooting support programs for diagnosis, and resolution of wireless connectivity devices and related computer software and hardware problems (excluding installation, maintenance and repair of computer hardware).

Class 45

Licensing of computer software.

Machines and machine tools; Motors and engines (except for land vehicles); Machine coupling and transmission components (except for land vehicles); Agricultural implements other than hand-operated; Incubators for eggs; Electric motors other than for land vehicles; Electric generators; Control apparatus for electric motors and generators; Starters for motors and engines; Capacitor production machines; Alternators; Robots; Elevators; Escalators; Moving stairways; Moving walkways; Mining machines; Civil engineers machine; Cargo working machines, cranes, hoists, winches, conveyors, drag scrapers, loaders, machines for depositing sheet material in stacks, sheet feeders, lifts; Vibration dampers; Pneumatic apparatus for unloading goods; Reclaimers; Magnetic separators; Loading shovels; Elevating apparatus; Tunneling machines; Pile drivers; Excavators; Crawler cranes; Wheel loaders; Earth boring apparatus; Rotary casing drivers; Reverse circulation drills; Foundation machines; Carrier chisels; Gas pipe tunnellers; Back hoes; Steam turbines; Water turbines; Gas turbines; Diesel engines; Internal combustion engines; Speed changers including gears, gear boxes, transmissions; Water wheels; Pumps; Pumps for oil; Vacuum pumps; Centrifuges; Compressors; Blowers and fans; Hysinc hammers; Hydraulic truck cranes; Shield machines; Power driven hand/stationary tools including circular saws, cutters, drills, grass cutters, grinders, hammers, miter saws; Planers, jointers (both being machines); Pneumatic nailers, polishers, rotary bandsaws, routers, sanders, trimmers, thickness planers; Rolling mills; Electric control equipment for rolling mills; Strip mills; Milling machines; Presses; Crushers; Electric welders; Paper making machines; Machines and equipment for the chemical industry; Electrochemical machines; Electric dust collectors; Printing machines; Offset presses; Computer numeric control drilling machines; Computer numeric control routing machines; Electrical discharge machines; Machining centers; Welding machines; Water supplying machines; Mechanical screens; Strainers; Centrifugal separators; Automatic conveying equipment; Silo-plants and feed milling plants; Automotive components, namely, charging generators, pneumatic distributors, electric ignition coils, spark plugs, carburettors, alternators, air pumps, throttle bodies; Household electric appliances, namely, blenders, electric juice extractors, can openers, dish washers, waste disposers, pumps; Sewing machines; Rolls (for rolling mills, printing machine); Machine components made of rubber, namely escalator handrails, conveyor belts made of rubber; Carbon brushes, ceramic tools for machines; Winding machines for coils and capacitors; Friction applying devices, namely, drum brake lining, disc brake pad; Carbon molds (parts of machines); Gears, bearings; Machines and apparatus for

manufacturing semi-conductors; Centrifuges [machines]; Hydroelectric apparatus and installations; Turbine electricity generating machines; Turbines for power generators; Turbines other than for land vehicles; Hoists; Generators; Ink jet printing machines; Welding apparatus, electric [machines]; Gas-operated welding apparatus; Compressors [machines]; Pumps [machines]; Pumps [part of machines, engines or motors]; Apparatus for materials handling; Article storage [conveying] apparatus; Article retrieval [conveying] apparatus; Apparatus for use in construction; Construction machines; Construction vehicles other than for transportation purposes; Drives for elevators; Elevators [lifts]; Vacuum cleaners; Washing machines; Tumble dryers; Piston rings; Electric floor polishers; Electric knife sharpener.

Class 08

Hand tools and implements (hand-operated); Cutlery; Side arms; Razors for personal use; Razors, electric or non-electric; Cutting tool [hand tools]; Spray; Hand pumps [tools]; Hammers [hand tools]; Drills; Hand saws [hand-operated]; Routers [hand-operated tools]; Electric hair clippers for personal use [hand instruments]; Electric shavers.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; Apparatus for recording, transmission or reproduction of sound or images; Magnetic data carriers, recording discs; Automatic vending machines and mechanisms for coin-operated apparatus; Cash registers, calculating machines, data processing equipment and computers; Fire extinguishing apparatus; Controlling apparatus for electric motors and generators namely controller, resistor, contactor, relay, automatic voltage regulator, remote controlling apparatus; Machines and equipment for electric power distribution namely transformer, electric current limiting reactor, arc-suppression coil, mercury rectifier, semiconductor rectifier, rotary converter, magnetic amplifier, circuit breaker, electric switch, electric switch gear, electric switch board and box, relay, frequency charger, lightning arrester, load dispatcher; Charger; Battery; Battery charger; Rechargeable battery; Nickel cadmium battery; Dry battery; Battery box; Battery jar; Power cable; Telecommunication cable; Insulated cable; Submarine cable; Fiber-optic local area network, fiber-optic cable; Bare wire; Magnet wire; Aluminum wire and cable, electronic wire and cable; Magnetic core; Magnet; Electric and magnetic meter namely power meter, ampere meter, volt meter, watt meter, watt-hour meter, insulation resistance meter, industrial measuring instrument namely thermometer, pressure meter, flow meter, dynamometer, wave sweep oscillator, oscillograph, wave form

monitor, ultrasonic inspection and imaging instrument, ultrasonic flaw detector, ultrasonic instrument; Ultrasonic microscope; Electron tube namely picture tube, receiving tube, transmission tube, pickup tube, cathode ray tube, image pickup tube, storage tube, power tube, x-ray tube, magnetron, rectifier tube, vidicon, liquid crystal display device, core memory, bubble memory; Electric circuit parts using semiconductive material namely transistor, diode, photo cell, photo conductive device, thermistory, varister, electric condenser, I.C. (integrated circuit), L.S.I. (large scale integration), L.E.D. (light emitting diode), memory (random access memory, read only memory), stepper, microprocessor, thyristor; Multilayer ceramic products; Telephone set; Attendant console of telephone set; Telephone switchboard; Semiconductor manufacturing apparatus namely dry etching equipment, inspection equipment for dust particles, through-put IC memory test equipment, wafer/mask blanks surface inspection equipment, machines for use in the analysis and monitoring of environmental contaminants (other than medical), electronic beam lithography system; Electronic applied apparatuses namely electronic computer, computer program, data processing apparatus, data-typewriter, line printer, cassette data reader, card reader punch, color copying machine, cathode ray tube display copier, micro fiche retriever, inventory control machine, electronic cash register, mark sheet reader, copying machine, electric plotter, optical character reader, disc (magnetic), drum memory, magnetic tape unit, automatic controlling apparatus, electron microscope, particle accelerator, radar apparatus, electronic calculator, word processor; Printer; Radio telephone equipment; Telephone exchanger; Attendant console of telephone; Telegraph; Carrier telephone; Television conference equipment; Wireless communication apparatus; Facsimile; Voice response system; Interphone; Wave guide; Antenna; Electric controlling equipment for rolling stock namely chopper controller, rectifier, transformer, inverter; Scientific measuring instruments namely mass spectrometer, microanalyzer, microscope, magnetic resonance spectrometer, spectrophotometer, spectrometer, photometer, P.H. meter, toselius electrophoresis apparatus, geiger counter, gas chromatograph, nuclear magnetic resonance, amino acid analyzer, fluorescence spectro photometer, atomic absorption spectrometer, liquid chromatograph; Lifting magnet; Magnetic appliance namely magnetic separator, magnetic filters; Electric precipitator; Equipment and appliances for automobile namely battery, relay; Radio broadcasting equipment; Radio receiving set; Television broadcasting equipment; Freeze-picture transmission system; Television receiving set; Television translator; Television camera, video camera, industrial television equipment, wire broadcasting equipment, electric gramophones, record player, strip projector; Stereo equipment namely receiver, amplifier, tuner, speaker system, speaker unit, disc cartridge, tape deck, headphone, electric

cleaner for record disc, magnetic tape recorder; Stereo modular combination with 8-track player, cassette tape recorder, record auto changer, cassette tape deck, video projector, video monitor; Magnetic recording tape, video tape, magnetic floppy disc; Liquid crystal display and its parts; Cartridge tape; Video tape, video disc, audio disc; Cassette tape; Video tape recorder, video disc player, audio disc player, optical disc player; Cassette player, cassette recorder; Car radio; Transceiver; Household electric appliances namely hair setter, iron, timer switch; Household appliances namely wiring parts in household; Electronic thermometer; Ferrite magnet; Copper and copper alloy namely bus bar, induction coil; Graphite product namely graphite electrode; Ceramic products for electric and electronic parts; Measuring instruments namely electric indicator, indicating controller, sequential controller, recorder, magnetic flow meter, insulation tester, electronic pressure transmitter, pneumatic pressure transmitter, level gauge, thickness gauge, moisture gauge, density gauge, oxygen meter, recording controller; Electric and electronic parts namely printed wiring board, capacitor, coil, resistor, printed circuit board, printed circuit board material, semiconductor material; Anisotropic conductive film; Wiring device; Local area network apparatus; Integrated service digital network apparatus; Electric door bell; Alarm buzzer; Electric dust collector; Digitizer; Computer software; Computer peripherals; Computer servers that provide services to other computers or the software that runs on it, namely, application servers, communication servers, database servers, fax servers, file servers, game servers, standalone servers, web servers, electronic mail servers and print servers; Component parts for computers namely disk arrays, routers and servo motors; Computer network apparatus and installations; Electronic switches; Disk drives [for computers]; Hard disk drives; Storage cards [smart cards]; Ticket issuing machines, automatic payment machines; Automatic teller machines; Scanners [data processing equipment]; Printers for computers; Card readers; Article retrieval apparatus; X-rays producing apparatus and installations, not for medical purposes; Detectors; Electronic controllers; Electric inverters; Transmitters; Traffic control apparatus [electric or electronic]; Security apparatus for elevators; Global positioning apparatus and instruments; Televisions; DVD recorders; DVD players; Video cameras; Projectors; Electronic surveillance apparatus; Cellular phones; Remote control apparatus; Cameras; Cameras for use in broadcasting; Lenses for cameras; Satellite dishes; Microwave devices [other than for cooking]; Encoders and decoders; Semiconductors; Monitors; Display screens (electric or electronic-); Semiconductor manufacturing apparatus; Electron microscopes; Chromatography apparatus for scientific or laboratory use; Spectrophotometers; Centrifuges for laboratory use; Magnetic resonance imaging apparatus and instruments other than for medical purposes; Ultrasound diagnostic apparatus and

ultrasound imaging devices, all not for medical use; Scanning apparatus and instruments, other than for medical use; Clinical chemistry analysers, other than for medical or veterinary use; Power installations [other than generators]; Purification installations [laboratory, other than medical]; Transformers [electricity]; Circuit breakers; Welding apparatus [electric-]; Data compressors; Electrostatic precipitators.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; Nuclear power plants including, nuclear reactors; Boilers [other than parts of machines]; Water purifiers; Heat exchangers [not parts of machines]; Refrigerating machines; Water coolers; Chilling apparatus; Refrigerating cabinets; Air conditioning equipment; Electric portable water coolers; Electric dehumidifiers; Electric furnaces [other than for laboratory use]; Air pollution control apparatus; Water supply apparatus; Water pollution control apparatus; Cookers incorporating grills; Oil and gas stove; Lighting apparatus namely, mercury lamps, infrared lamps for drying the hair, fluorescent lamps, incandescent lamps, lamp fittings, flashlights [torches], electric torches, electric lanterns, underwater lighting apparatus; Blast furnaces; Household electric appliances namely, heaters, foods warmers, toasters, electric rice cookers, egg cookers, electric pots for cooking, roasters, microwave ovens, refrigerators, ice makers, coffee makers, fountains, water purifying apparatus, clothes dryers, dehumidifiers, desk fans, floor fans, ceiling fans, ventilating fans, floor heating apparatus, household appliances namely, bath and bath fittings, sinks, flush water distributors being water flushing installations, solar heaters; Turbine electricity generating installations [power stations]; Gas generators [installations]; Purification installations for waste material; Heat pumps; Humidifiers [other than for medical use]; Chiller units being parts of water cooling installations; Air conditioners; Fans [air-conditioning-]; Tumble dryers [heat dryers]; Hobs; Domestic ovens; Microwave ovens for domestic use; Hair dryers; Light bulbs; Electric lamps; Sterilisers.

Class 12

Vehicles; Apparatus for locomotion by land, air or water; Rolling stock for railways; Electric locomotives; Diesel locomotives; Diesel electric locomotives; Diesel engines for land vehicles; Passenger coaches; Electric cars; Diesel cars; Mono-rail carriages; Cable cars; Locomotives for freight; Wagons; Vans; Tank trucks; Industrial trailers; Dump trucks; Trailers; Hydro torque converters for land vehicles; Unmanned conveying vehicles; Equipment and appliances for automobiles namely starters for land vehicles; Leisure boats, golf carts; Turbines for land vehicles;

Motors and engines for land vehicles; Trains [vehicles]; Railway carriages.

(light emitting diode), memory (random access memory, read only memory), stepper, microprocessor, thyristor; Multilayer ceramic products; Telephone set; Attendant console of telephone set; Telephone switchboard; Semiconductor manufacturing apparatus namely dry etching equipment, inspection equipment for dust particles, through-put IC memory test equipment, wafer/mask blanks surface inspection equipment, machines for use in the analysis and monitoring of environmental contaminants (other than medical), electronic beam lithography system; Electronic applied apparatuses namely electronic computer, computer program, data processing apparatus, data-typewriter, line printer, cassette data reader, card reader punch, color copying machine, cathode ray tube display copier, micro fiche retriever, inventory control machine, electronic cash register, mark sheet reader, copying machine, electric plotter, optical character reader, disc (magnetic), drum memory, magnetic tape unit, automatic controlling apparatus, electron microscope, particle accelerator, radar apparatus, electronic calculator, word processor; Printer; Radio telephone equipment; Telephone exchanger; Attendant console of telephone; Telegraph; Carrier telephone; Television conference equipment; Wireless communication apparatus; Facsimile; Voice response system; Interphone; Wave guide; Antenna; Electric controlling equipment for rolling stock namely chopper controller, rectifier, transformer, inverter; Scientific measuring instruments namely mass spectrometer, microanalyzer, microscope, magnetic resonance spectrometer, spectrophotometer, spectrometer, photometer, P.H. meter, toselius electrophoresis apparatus, geiger counter, gas chromatograph, nuclear magnetic resonance, amino acid analyzer, fluorescence spectro photometer, atomic absorption spectrometer, liquid chromatograph; Lifting magnet; Magnetic appliance namely magnetic separator, magnetic filters; Electric precipitator; Equipment and appliances for automobile namely battery, relay; Radio broadcasting equipment; Radio receiving set; Television broadcasting equipment; Freeze-picture transmission system; Television receiving set; Television translator; Television camera, video camera, industrial television equipment, wire broadcasting equipment, electric gramophones, record player, strip projector; Stereo equipment namely receiver, amplifier, tuner, speaker system, speaker unit, disc cartridge, tape deck, headphone, electric

cleaner for record disc, magnetic tape recorder; Stereo modular combination with 8-track player, cassette tape recorder, record auto changer, cassette tape deck, video projector, video monitor; Magnetic recording tape, video tape, magnetic floppy disc; Liquid crystal display and its parts; Cartridge tape; Video tape, video disc, audio disc; Cassette tape; Video tape recorder, video disc player, audio disc player, optical disc player; Cassette player, cassette recorder; Car radio; Transceiver; Household electric appliances namely hair setter, iron, timer switch; Household appliances namely wiring parts in household; Electronic thermometer; Ferrite magnet; Copper and copper alloy namely bus bar, induction coil; Graphite product namely graphite electrode; Ceramic products for electric and electronic parts; Measuring instruments namely electric indicator, indicating controller, sequential controller, recorder, magnetic flow meter, insulation tester, electronic pressure transmitter, pneumatic pressure transmitter, level gauge, thickness gauge, moisture gauge, density gauge, oxygen meter, recording controller; Electric and electronic parts namely printed wiring board, capacitor, coil, resistor, printed circuit board, printed circuit board material, semiconductor material; Anisotropic conductive film; Wiring device; Local area network apparatus; Integrated service digital network apparatus; Electric door bell; Alarm buzzer; Electric dust collector; Digitizer; Computer software; Computer peripherals; Computer servers that provide services to other computers or the software that runs on it, namely, application servers, communication servers, database servers, fax servers, file servers, game servers, standalone servers, web servers, electronic mail servers and print servers; Component parts for computers namely disk arrays, routers and servo motors; Computer network apparatus and installations; Electronic switches; Disk drives [for computers]; Hard disk drives; Storage cards [smart cards]; Ticket issuing machines, automatic payment machines; Automatic teller machines; Scanners [data processing equipment]; Printers for computers; Card readers; Article retrieval apparatus; X-rays producing apparatus and installations, not for medical purposes; Detectors; Electronic controllers; Electric inverters; Transmitters; Traffic control apparatus [electric or electronic]; Security apparatus for elevators; Global positioning apparatus and instruments; Televisions; DVD recorders; DVD players; Video cameras; Projectors; Electronic surveillance apparatus; Cellular phones; Remote control apparatus; Cameras; Cameras for use in broadcasting; Lenses for cameras; Satellite dishes; Microwave devices [other than for cooking]; Encoders and decoders; Semiconductors; Monitors; Display screens (electric or electronic-); Semiconductor manufacturing apparatus; Electron microscopes; Chromatography apparatus for scientific or laboratory use; Spectrophotometers; Centrifuges for laboratory use; Magnetic resonance imaging apparatus and instruments other than for medical purposes; Ultrasound diagnostic apparatus and

ultrasound imaging devices, all not for medical use; Scanning apparatus and instruments, other than for medical use; Clinical chemistry analysers, other than for medical or veterinary use; Power installations [other than generators]; Purification installations [laboratory, other than medical]; Transformers [electricity]; Circuit breakers; Welding apparatus [electric-]; Data compressors; Electrostatic precipitators.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; Nuclear power plants including, nuclear reactors; Boilers [other than parts of machines]; Water purifiers; Heat exchangers [not parts of machines]; Refrigerating machines; Water coolers; Chilling apparatus; Refrigerating cabinets; Air conditioning equipment; Electric portable water coolers; Electric dehumidifiers; Electric furnaces [other than for laboratory use]; Air pollution control apparatus; Water supply apparatus; Water pollution control apparatus; Cookers incorporating grills; Oil and gas stove; Lighting apparatus namely, mercury lamps, infrared lamps for drying the hair, fluorescent lamps, incandescent lamps, lamp fittings, flashlights [torches], electric torches, electric lanterns, underwater lighting apparatus; Blast furnaces; Household electric appliances namely, heaters, foods warmers, toasters, electric rice cookers, egg cookers, electric pots for cooking, roasters, microwave ovens, refrigerators, ice makers, coffee makers, fountains, water purifying apparatus, clothes dryers, dehumidifiers, desk fans, floor fans, ceiling fans, ventilating fans, floor heating apparatus, household appliances namely, bath and bath fittings, sinks, flush water distributors being water flushing installations, solar heaters; Turbine electricity generating installations [power stations]; Gas generators [installations]; Purification installations for waste material; Heat pumps; Humidifiers [other than for medical use]; Chiller units being parts of water cooling installations; Air conditioners; Fans [air-conditioning-]; Tumble dryers [heat dryers]; Hobs; Domestic ovens; Microwave ovens for domestic use; Hair dryers; Light bulbs; Electric lamps; Sterilisers.

Class 12

Vehicles; Apparatus for locomotion by land, air or water; Rolling stock for railways; Electric locomotives; Diesel locomotives; Diesel electric locomotives; Diesel engines for land vehicles; Passenger coaches; Electric cars; Diesel cars; Mono-rail carriages; Cable cars; Locomotives for freight; Wagons; Vans; Tank trucks; Industrial trailers; Dump trucks; Trailers; Hydro torque converters for land vehicles; Unmanned conveying vehicles; Equipment and appliances for automobiles namely starters for land vehicles; Leisure boats, golf carts; Turbines for land vehicles;

Motors and engines for land vehicles; Trains [vehicles]; Railway carriages.

HIGACHI

Class 07

Machines and machine tools; Motors and engines (except for land vehicles); Machine coupling and transmission components (except for land vehicles); Agricultural implements other than hand-operated; Incubators for eggs; Electric motors other than for land vehicles; Electric generators; Control apparatus for electric motors and generators; Starters for motors and engines; Capacitor production machines; Alternators; Robots; Elevators; Escalators; Moving stairways; Moving walkways; Mining machines; Civil engineers machine; Cargo working machines, cranes, hoists, winches, conveyors, drag scrapers, loaders, machines for depositing sheet material in stacks, sheet feeders, lifts; Vibration dampers; Pneumatic apparatus for unloading goods; Reclaimers; Magnetic separators; Loading shovels; Elevating apparatus; Tunneling machines; Pile drivers; Excavators; Crawler cranes; Wheel loaders; Earth boring apparatus; Rotary casing drivers; Reverse circulation drills; Foundation machines; Carrier chisels; Gas pipe tunnellers; Back hoes; Steam turbines; Water turbines; Gas turbines; Diesel engines; Internal combustion engines; Speed changers including gears, gear boxes, transmissions; Water wheels; Pumps; Pumps for oil; Vacuum pumps; Centrifuges; Compressors; Blowers and fans; Hysinc hammers; Hydraulic truck cranes; Shield machines; Power driven hand/stationary tools including circular saws, cutters, drills, grass cutters, grinders, hammers, miter saws; Planers, jointers (both being machines); Pneumatic nailers, polishers, rotary bandsaws, routers, sanders, trimmers, thickness planers; Rolling mills; Electric control equipment for rolling mills; Strip mills; Milling machines; Presses; Crushers; Electric welders; Paper making machines; Machines and equipment for the chemical industry; Electrochemical machines; Electric dust collectors; Printing machines; Offset presses; Computer numeric control drilling machines; Computer numeric control routing machines; Electrical discharge machines; Machining centers; Welding machines; Water supplying machines; Mechanical screens; Strainers; Centrifugal separators; Automatic conveying equipment; Silo-plants and feed milling plants; Automotive components, namely, charging generators, pneumatic distributors, electric ignition coils, spark plugs, carburettors, alternators, air pumps, throttle bodies; Household electric appliances, namely, blenders, electric juice extractors, can openers, dish washers, waste disposers, pumps; Sewing machines; Rolls (for rolling mills, printing machine); Machine components made of rubber, namely escalator handrails, conveyor belts made of rubber; Carbon brushes, ceramic tools for machines; Winding machines for coils and capacitors; Friction applying devices, namely, drum brake lining, disc brake pad; Carbon molds (parts of machines); Gears, bearings; Machines and apparatus for

manufacturing semi-conductors; Centrifuges [machines]; Hydroelectric apparatus and installations; Turbine electricity generating machines; Turbines for power generators; Turbines other than for land vehicles; Hoists; Generators; Ink jet printing machines; Welding apparatus, electric [machines]; Gas-operated welding apparatus; Compressors [machines]; Pumps [machines]; Pumps [part of machines, engines or motors]; Apparatus for materials handling; Article storage [conveying] apparatus; Article retrieval [conveying] apparatus; Apparatus for use in construction; Construction machines; Construction vehicles other than for transportation purposes; Drives for elevators; Elevators [lifts]; Vacuum cleaners; Washing machines; Tumble dryers; Piston rings; Electric floor polishers; Electric knife sharpener.

Class 08

Hand tools and implements (hand-operated); Cutlery; Side arms; Razors for personal use; Razors, electric or non-electric; Cutting tool [hand tools]; Spray; Hand pumps [tools]; Hammers [hand tools]; Drills; Hand saws [hand-operated]; Routers [hand-operated tools]; Electric hair clippers for personal use [hand instruments]; Electric shavers.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; Apparatus for recording, transmission or reproduction of sound or images; Magnetic data carriers, recording discs; Automatic vending machines and mechanisms for coin-operated apparatus; Cash registers, calculating machines, data processing equipment and computers; Fire extinguishing apparatus; Controlling apparatus for electric motors and generators namely controller, resistor, contactor, relay, automatic voltage regulator, remote controlling apparatus; Machines and equipment for electric power distribution namely transformer, electric current limiting reactor, arc-suppression coil, mercury rectifier, semiconductor rectifier, rotary converter, magnetic amplifier, circuit breaker, electric switch, electric switch gear, electric switch board and box, relay, frequency charger, lightning arrester, load dispatcher; Charger; Battery; Battery charger; Rechargeable battery; Nickel cadmium battery; Dry battery; Battery box; Battery jar; Power cable; Telecommunication cable; Insulated cable; Submarine cable; Fiber-optic local area network, fiber-optic cable; Bare wire; Magnet wire; Aluminum wire and cable, electronic wire and cable; Magnetic core; Magnet; Electric and magnetic meter namely power meter, ampere meter, volt meter, watt meter, watt-hour meter, insulation resistance meter, industrial measuring instrument namely thermometer, pressure meter, flow meter, dynamometer, wave sweep oscillator, oscillograph, wave form

monitor, ultrasonic inspection and imaging instrument, ultrasonic flaw detector, ultrasonic instrument; Ultrasonic microscope; Electron tube namely picture tube, receiving tube, transmission tube, pickup tube, cathode ray tube, image pickup tube, storage tube, power tube, x-ray tube, magnetron, rectifier tube, vidicon, liquid crystal display device, core memory, bubble memory; Electric circuit parts using semiconductive material namely transistor, diode, photo cell, photo conductive device, thermistor, varistor, electric condenser, I.C. (integrated circuit), L.S.I. (large scale integration), L.E.D. (light emitting diode), memory (random access memory, read only memory), stepper, microprocessor, thyristor; Multilayer ceramic products; Telephone set; Attendant console of telephone set; Telephone switchboard; Semiconductor manufacturing apparatus namely dry etching equipment, inspection equipment for dust particles, through-put IC memory test equipment, wafer/mask blanks surface inspection equipment, machines for use in the analysis and monitoring of environmental contaminants (other than medical), electronic beam lithography system; Electronic applied apparatuses namely electronic computer, computer program, data processing apparatus, data-typewriter, line printer, cassette data reader, card reader punch, color copying machine, cathode ray tube display copier, micro fiche retriever, inventory control machine, electronic cash register, mark sheet reader, copying machine, electric plotter, optical character reader, disc (magnetic), drum memory, magnetic tape unit, automatic controlling apparatus, electron microscope, particle accelerator, radar apparatus, electronic calculator, word processor; Printer; Radio telephone equipment; Telephone exchanger; Attendant console of telephone; Telegraph; Carrier telephone; Television conference equipment; Wireless communication apparatus; Facsimile; Voice response system; Interphone; Wave guide; Antenna; Electric controlling equipment for rolling stock namely chopper controller, rectifier, transformer, inverter; Scientific measuring instruments namely mass spectrometer, microanalyzer, microscope, magnetic resonance spectrometer, spectrophotometer, spectrometer, photometer, P.H. meter, toselius electrophoresis apparatus, geiger counter, gas chromatograph, nuclear magnetic resonance, amino acid analyzer, fluorescence spectro photometer, atomic absorption spectrometer, liquid chromatograph; Lifting magnet; Magnetic appliance namely magnetic separator, magnetic filters; Electric precipitator; Equipment and appliances for automobile namely battery, relay; Radio broadcasting equipment; Radio receiving set; Television broadcasting equipment; Freeze-picture transmission system; Television receiving set; Television translator; Television camera, video camera, industrial television equipment, wire broadcasting equipment, electric gramophones, record player, strip projector; Stereo equipment namely receiver, amplifier, tuner, speaker system, speaker unit, disc cartridge, tape deck, headphone, electric

cleaner for record disc, magnetic tape recorder; Stereo modular combination with 8-track player, cassette tape recorder, record auto changer, cassette tape deck, video projector, video monitor; Magnetic recording tape, video tape, magnetic floppy disc; Liquid crystal display and its parts; Cartridge tape; Video tape, video disc, audio disc; Cassette tape; Video tape recorder, video disc player, audio disc player, optical disc player; Cassette player, cassette recorder; Car radio; Transceiver; Household electric appliances namely hair setter, iron, timer switch; Household appliances namely wiring parts in household; Electronic thermometer; Ferrite magnet; Copper and copper alloy namely bus bar, induction coil; Graphite product namely graphite electrode; Ceramic products for electric and electronic parts; Measuring instruments namely electric indicator, indicating controller, sequential controller, recorder, magnetic flow meter, insulation tester, electronic pressure transmitter, pneumatic pressure transmitter, level gauge, thickness gauge, moisture gauge, density gauge, oxygen meter, recording controller; Electric and electronic parts namely printed wiring board, capacitor, coil, resistor, printed circuit board, printed circuit board material, semiconductor material; Anisotropic conductive film; Wiring device; Local area network apparatus; Integrated service digital network apparatus; Electric door bell; Alarm buzzer; Electric dust collector; Digitizer; Computer software; Computer peripherals; Computer servers that provide services to other computers or the software that runs on it, namely, application servers, communication servers, database servers, fax servers, file servers, game servers, standalone servers, web servers, electronic mail servers and print servers; Component parts for computers namely disk arrays, routers and servo motors; Computer network apparatus and installations; Electronic switches; Disk drives [for computers]; Hard disk drives; Storage cards [smart cards]; Ticket issuing machines, automatic payment machines; Automatic teller machines; Scanners [data processing equipment]; Printers for computers; Card readers; Article retrieval apparatus; X-rays producing apparatus and installations, not for medical purposes; Detectors; Electronic controllers; Electric inverters; Transmitters; Traffic control apparatus [electric or electronic]; Security apparatus for elevators; Global positioning apparatus and instruments; Televisions; DVD recorders; DVD players; Video cameras; Projectors; Electronic surveillance apparatus; Cellular phones; Remote control apparatus; Cameras; Cameras for use in broadcasting; Lenses for cameras; Satellite dishes; Microwave devices [other than for cooking]; Encoders and decoders; Semiconductors; Monitors; Display screens (electric or electronic-); Semiconductor manufacturing apparatus; Electron microscopes; Chromatography apparatus for scientific or laboratory use; Spectrophotometers; Centrifuges for laboratory use; Magnetic resonance imaging apparatus and instruments other than for medical purposes; Ultrasound diagnostic apparatus and

ultrasound imaging devices, all not for medical use; Scanning apparatus and instruments, other than for medical use; Clinical chemistry analysers, other than for medical or veterinary use; Power installations [other than generators]; Purification installations [laboratory, other than medical]; Transformers [electricity]; Circuit breakers; Welding apparatus [electric-]; Data compressors; Electrostatic precipitators.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; Nuclear power plants including, nuclear reactors; Boilers [other than parts of machines]; Water purifiers; Heat exchangers [not parts of machines]; Refrigerating machines; Water coolers; Chilling apparatus; Refrigerating cabinets; Air conditioning equipment; Electric portable water coolers; Electric dehumidifiers; Electric furnaces [other than for laboratory use]; Air pollution control apparatus; Water supply apparatus; Water pollution control apparatus; Cookers incorporating grills; Oil and gas stove; Lighting apparatus namely, mercury lamps, infrared lamps for drying the hair, fluorescent lamps, incandescent lamps, lamp fittings, flashlights [torches], electric torches, electric lanterns, underwater lighting apparatus; Blast furnaces; Household electric appliances namely, heaters, foods warmers, toasters, electric rice cookers, egg cookers, electric pots for cooking, roasters, microwave ovens, refrigerators, ice makers, coffee makers, fountains, water purifying apparatus, clothes dryers, dehumidifiers, desk fans, floor fans, ceiling fans, ventilating fans, floor heating apparatus, household appliances namely, bath and bath fittings, sinks, flush water distributors being water flushing installations, solar heaters; Turbine electricity generating installations [power stations]; Gas generators [installations]; Purification installations for waste material; Heat pumps; Humidifiers [other than for medical use]; Chiller units being parts of water cooling installations; Air conditioners; Fans [air-conditioning-]; Tumble dryers [heat dryers]; Hobs; Domestic ovens; Microwave ovens for domestic use; Hair dryers; Light bulbs; Electric lamps; Sterilisers.

Class 12

Vehicles; Apparatus for locomotion by land, air or water; Rolling stock for railways; Electric locomotives; Diesel locomotives; Diesel electric locomotives; Diesel engines for land vehicles; Passenger coaches; Electric cars; Diesel cars; Mono-rail carriages; Cable cars; Locomotives for freight; Wagons; Vans; Tank trucks; Industrial trailers; Dump trucks; Trailers; Hydro torque converters for land vehicles; Unmanned conveying vehicles; Equipment and appliances for automobiles namely starters for land vehicles; Leisure boats, golf carts; Turbines for land vehicles;

Motors and engines for land vehicles; Trains [vehicles]; Railway carriages.

Hand tools and implements (hand-operated); Cutlery; Side arms; Razors for personal use; Razors, electric or non-electric; Cutting tool [hand tools]; Spray; Hand pumps [tools]; Hammers [hand tools]; Drills; Hand saws [hand-operated]; Routers [hand-operated tools]; Electric hair clippers for personal use [hand instruments]; Electric shavers.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; Apparatus for recording, transmission or reproduction of sound or images; Magnetic data carriers, recording discs; Automatic vending machines and mechanisms for coin-operated apparatus; Cash registers, calculating machines, data processing equipment and computers; Fire extinguishing apparatus; Controlling apparatus for electric motors and generators namely controller, resistor, contactor, relay, automatic voltage regulator, remote controlling apparatus; Machines and equipment for electric power distribution namely transformer, electric current limiting reactor, arc-suppression coil, mercury rectifier, semiconductor rectifier, rotary converter, magnetic amplifier, circuit breaker, electric switch, electric switch gear, electric switch board and box, relay, frequency charger, lightning arrester, load dispatcher; Charger; Battery; Battery charger; Rechargeable battery; Nickel cadmium battery; Dry battery; Battery box; Battery jar; Power cable; Telecommunication cable; Insulated cable; Submarine cable; Fiber-optic local area network, fiber-optic cable; Bare wire; Magnet wire; Aluminum wire and cable, electronic wire and cable; Magnetic core; Magnet; Electric and magnetic meter namely power meter, ampere meter, volt meter, watt meter, watt-hour meter, insulation resistance meter, industrial measuring instrument namely thermometer, pressure meter, flow meter, dynamometer, wave sweep oscillator, oscillograph, wave form

monitor, ultrasonic inspection and imaging instrument, ultrasonic flaw detector, ultrasonic instrument; Ultrasonic microscope; Electron tube namely picture tube, receiving tube, transmission tube, pickup tube, cathode ray tube, image pickup tube, storage tube, power tube, x-ray tube, magnetron, rectifier tube, vidicon, liquid crystal display device, core memory, bubble memory; Electric circuit parts using semiconductive material namely transistor, diode, photo cell, photo conductive device, thermistor, varistor, electric condenser, I.C. (integrated circuit), L.S.I. (large scale integration), L.E.D. (light emitting diode), memory (random access memory, read only memory), stepper, microprocessor, thyristor; Multilayer ceramic products; Telephone set; Attendant console of telephone set; Telephone switchboard; Semiconductor manufacturing apparatus namely dry etching equipment, inspection equipment for dust particles, through-put IC memory test equipment, wafer/mask blanks surface inspection equipment, machines for use in the analysis and monitoring of environmental contaminants (other than medical), electronic beam lithography system; Electronic applied apparatuses namely electronic computer, computer program, data processing apparatus, data-typewriter, line printer, cassette data reader, card reader punch, color copying machine, cathode ray tube display copier, micro fiche retriever, inventory control machine, electronic cash register, mark sheet reader, copying machine, electric plotter, optical character reader, disc (magnetic), drum memory, magnetic tape unit, automatic controlling apparatus, electron microscope, particle accelerator, radar apparatus, electronic calculator, word processor; Printer; Radio telephone equipment; Telephone exchanger; Attendant console of telephone; Telegraph; Carrier telephone; Television conference equipment; Wireless communication apparatus; Facsimile; Voice response system; Interphone; Wave guide; Antenna; Electric controlling equipment for rolling stock namely chopper controller, rectifier, transformer, inverter; Scientific measuring instruments namely mass spectrometer, microanalyzer, microscope, magnetic resonance spectrometer, spectrophotometer, spectrometer, photometer, P.H. meter, toselius electrophoresis apparatus, geiger counter, gas chromatograph, nuclear magnetic resonance, amino acid analyzer, fluorescence spectro photometer, atomic absorption spectrometer, liquid chromatograph; Lifting magnet; Magnetic appliance namely magnetic separator, magnetic filters; Electric precipitator; Equipment and appliances for automobile namely battery, relay; Radio broadcasting equipment; Radio receiving set; Television broadcasting equipment; Freeze-picture transmission system; Television receiving set; Television translator; Television camera, video camera, industrial television equipment, wire broadcasting equipment, electric gramophones, record player, strip projector; Stereo equipment namely receiver, amplifier, tuner, speaker system, speaker unit, disc cartridge, tape deck, headphone, electric

cleaner for record disc, magnetic tape recorder; Stereo modular combination with 8-track player, cassette tape recorder, record auto changer, cassette tape deck, video projector, video monitor; Magnetic recording tape, video tape, magnetic floppy disc; Liquid crystal display and its parts; Cartridge tape; Video tape, video disc, audio disc; Cassette tape; Video tape recorder, video disc player, audio disc player, optical disc player; Cassette player, cassette recorder; Car radio; Transceiver; Household electric appliances namely hair setter, iron, timer switch; Household appliances namely wiring parts in household; Electronic thermometer; Ferrite magnet; Copper and copper alloy namely bus bar, induction coil; Graphite product namely graphite electrode; Ceramic products for electric and electronic parts; Measuring instruments namely electric indicator, indicating controller, sequential controller, recorder, magnetic flow meter, insulation tester, electronic pressure transmitter, pneumatic pressure transmitter, level gauge, thickness gauge, moisture gauge, density gauge, oxygen meter, recording controller; Electric and electronic parts namely printed wiring board, capacitor, coil, resistor, printed circuit board, printed circuit board material, semiconductor material; Anisotropic conductive film; Wiring device; Local area network apparatus; Integrated service digital network apparatus; Electric door bell; Alarm buzzer; Electric dust collector; Digitizer; Computer software; Computer peripherals; Computer servers that provide services to other computers or the software that runs on it, namely, application servers, communication servers, database servers, fax servers, file servers, game servers, standalone servers, web servers, electronic mail servers and print servers; Component parts for computers namely disk arrays, routers and servo motors; Computer network apparatus and installations; Electronic switches; Disk drives [for computers]; Hard disk drives; Storage cards [smart cards]; Ticket issuing machines, automatic payment machines; Automatic teller machines; Scanners [data processing equipment]; Printers for computers; Card readers; Article retrieval apparatus; X-rays producing apparatus and installations, not for medical purposes; Detectors; Electronic controllers; Electric inverters; Transmitters; Traffic control apparatus [electric or electronic]; Security apparatus for elevators; Global positioning apparatus and instruments; Televisions; DVD recorders; DVD players; Video cameras; Projectors; Electronic surveillance apparatus; Cellular phones; Remote control apparatus; Cameras; Cameras for use in broadcasting; Lenses for cameras; Satellite dishes; Microwave devices [other than for cooking]; Encoders and decoders; Semiconductors; Monitors; Display screens (electric or electronic-); Semiconductor manufacturing apparatus; Electron microscopes; Chromatography apparatus for scientific or laboratory use; Spectrophotometers; Centrifuges for laboratory use; Magnetic resonance imaging apparatus and instruments other than for medical purposes; Ultrasound diagnostic apparatus and

ultrasound imaging devices, all not for medical use; Scanning apparatus and instruments, other than for medical use; Clinical chemistry analysers, other than for medical or veterinary use; Power installations [other than generators]; Purification installations [laboratory, other than medical]; Transformers [electricity]; Circuit breakers; Welding apparatus [electric-]; Data compressors; Electrostatic precipitators.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; Nuclear power plants including, nuclear reactors; Boilers [other than parts of machines]; Water purifiers; Heat exchangers [not parts of machines]; Refrigerating machines; Water coolers; Chilling apparatus; Refrigerating cabinets; Air conditioning equipment; Electric portable water coolers; Electric dehumidifiers; Electric furnaces [other than for laboratory use]; Air pollution control apparatus; Water supply apparatus; Water pollution control apparatus; Cookers incorporating grills; Oil and gas stove; Lighting apparatus namely, mercury lamps, infrared lamps for drying the hair, fluorescent lamps, incandescent lamps, lamp fittings, flashlights [torches], electric torches, electric lanterns, underwater lighting apparatus; Blast furnaces; Household electric appliances namely, heaters, foods warmers, toasters, electric rice cookers, egg cookers, electric pots for cooking, roasters, microwave ovens, refrigerators, ice makers, coffee makers, fountains, water purifying apparatus, clothes dryers, dehumidifiers, desk fans, floor fans, ceiling fans, ventilating fans, floor heating apparatus, household appliances namely, bath and bath fittings, sinks, flush water distributors being water flushing installations, solar heaters; Turbine electricity generating installations [power stations]; Gas generators [installations]; Purification installations for waste material; Heat pumps; Humidifiers [other than for medical use]; Chiller units being parts of water cooling installations; Air conditioners; Fans [air-conditioning-]; Tumble dryers [heat dryers]; Hobs; Domestic ovens; Microwave ovens for domestic use; Hair dryers; Light bulbs; Electric lamps; Sterilisers.

Class 12

Vehicles; Apparatus for locomotion by land, air or water; Rolling stock for railways; Electric locomotives; Diesel locomotives; Diesel electric locomotives; Diesel engines for land vehicles; Passenger coaches; Electric cars; Diesel cars; Mono-rail carriages; Cable cars; Locomotives for freight; Wagons; Vans; Tank trucks; Industrial trailers; Dump trucks; Trailers; Hydro torque converters for land vehicles; Unmanned conveying vehicles; Equipment and appliances for automobiles namely starters for land vehicles; Leisure boats, golf carts; Turbines for land vehicles;

Motors and engines for land vehicles; Trains [vehicles]; Railway carriages.

HITACTI

Class 07

Machines and machine tools; Motors and engines (except for land vehicles); Machine coupling and transmission components (except for land vehicles); Agricultural implements other than hand-operated; Incubators for eggs; Electric motors other than for land vehicles; Electric generators; Control apparatus for electric motors and generators; Starters for motors and engines; Capacitor production machines; Alternators; Robots; Elevators; Escalators; Moving stairways; Moving walkways; Mining machines; Civil engineers machine; Cargo working machines, cranes, hoists, winches, conveyors, drag scrapers, loaders, machines for depositing sheet material in stacks, sheet feeders, lifts; Vibration dampers; Pneumatic apparatus for unloading goods; Reclaimers; Magnetic separators; Loading shovels; Elevating apparatus; Tunneling machines; Pile drivers; Excavators; Crawler cranes; Wheel loaders; Earth boring apparatus; Rotary casing drivers; Reverse circulation drills; Foundation machines; Carrier chisels; Gas pipe tunnellers; Back hoes; Steam turbines; Water turbines; Gas turbines; Diesel engines; Internal combustion engines; Speed changers including gears, gear boxes, transmissions; Water wheels; Pumps; Pumps for oil; Vacuum pumps; Centrifuges; Compressors; Blowers and fans; Hysinc hammers; Hydraulic truck cranes; Shield machines; Power driven hand/stationary tools including circular saws, cutters, drills, grass cutters, grinders, hammers, miter saws; Planers, jointers (both being machines); Pneumatic nailers, polishers, rotary bandsaws, routers, sanders, trimmers, thickness planers; Rolling mills; Electric control equipment for rolling mills; Strip mills; Milling machines; Presses; Crushers; Electric welders; Paper making machines; Machines and equipment for the chemical industry; Electrochemical machines; Electric dust collectors; Printing machines; Offset presses; Computer numeric control drilling machines; Computer numeric control routing machines; Electrical discharge machines; Machining centers; Welding machines; Water supplying machines; Mechanical screens; Strainers; Centrifugal separators; Automatic conveying equipment; Silo-plants and feed milling plants; Automotive components, namely, charging generators, pneumatic distributors, electric ignition coils, spark plugs, carburettors, alternators, air pumps, throttle bodies; Household electric appliances, namely, blenders, electric juice extractors, can openers, dish washers, waste disposers, pumps; Sewing machines; Rolls (for rolling mills, printing machine); Machine components made of rubber, namely escalator handrails, conveyor belts made of rubber; Carbon brushes, ceramic tools for machines; Winding machines for coils and capacitors; Friction applying devices, namely, drum brake lining, disc brake pad; Carbon molds (parts of machines); Gears, bearings; Machines and apparatus for

manufacturing semi-conductors; Centrifuges [machines]; Hydroelectric apparatus and installations; Turbine electricity generating machines; Turbines for power generators; Turbines other than for land vehicles; Hoists; Generators; Ink jet printing machines; Welding apparatus, electric [machines]; Gas-operated welding apparatus; Compressors [machines]; Pumps [machines]; Pumps [part of machines, engines or motors]; Apparatus for materials handling; Article storage [conveying] apparatus; Article retrieval [conveying] apparatus; Apparatus for use in construction; Construction machines; Construction vehicles other than for transportation purposes; Drives for elevators; Elevators [lifts]; Vacuum cleaners; Washing machines; Tumble dryers; Piston rings; Electric floor polishers; Electric knife sharpener.

Class 08

Hand tools and implements (hand-operated); Cutlery; Side arms; Razors for personal use; Razors, electric or non-electric; Cutting tool [hand tools]; Spray; Hand pumps [tools]; Hammers [hand tools]; Drills; Hand saws [hand-operated]; Routers [hand-operated tools]; Electric hair clippers for personal use [hand instruments]; Electric shavers.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; Apparatus for recording, transmission or reproduction of sound or images; Magnetic data carriers, recording discs; Automatic vending machines and mechanisms for coin-operated apparatus; Cash registers, calculating machines, data processing equipment and computers; Fire extinguishing apparatus; Controlling apparatus for electric motors and generators namely controller, resistor, contactor, relay, automatic voltage regulator, remote controlling apparatus; Machines and equipment for electric power distribution namely transformer, electric current limiting reactor, arc-suppression coil, mercury rectifier, semiconductor rectifier, rotary converter, magnetic amplifier, circuit breaker, electric switch, electric switch gear, electric switch board and box, relay, frequency charger, lightning arrester, load dispatcher; Charger; Battery; Battery charger; Rechargeable battery; Nickel cadmium battery; Dry battery; Battery box; Battery jar; Power cable; Telecommunication cable; Insulated cable; Submarine cable; Fiber-optic local area network, fiber-optic cable; Bare wire; Magnet wire; Aluminum wire and cable, electronic wire and cable; Magnetic core; Magnet; Electric and magnetic meter namely power meter, ampere meter, volt meter, watt meter, watt-hour meter, insulation resistance meter, industrial measuring instrument namely thermometer, pressure meter, flow meter, dynamometer, wave sweep oscillator, oscillograph, wave form

monitor, ultrasonic inspection and imaging instrument, ultrasonic flaw detector, ultrasonic instrument; Ultrasonic microscope; Electron tube namely picture tube, receiving tube, transmission tube, pickup tube, cathode ray tube, image pickup tube, storage tube, power tube, x-ray tube, magnetron, rectifier tube, vidicon, liquid crystal display device, core memory, bubble memory; Electric circuit parts using semiconductive material namely transistor, diode, photo cell, photo conductive device, thermistor, varistor, electric condenser, I.C. (integrated circuit), L.S.I. (large scale integration), L.E.D. (light emitting diode), memory (random access memory, read only memory), stepper, microprocessor, thyristor; Multilayer ceramic products; Telephone set; Attendant console of telephone set; Telephone switchboard; Semiconductor manufacturing apparatus namely dry etching equipment, inspection equipment for dust particles, through-put IC memory test equipment, wafer/mask blanks surface inspection equipment, machines for use in the analysis and monitoring of environmental contaminants (other than medical), electronic beam lithography system; Electronic applied apparatuses namely electronic computer, computer program, data processing apparatus, data-typewriter, line printer, cassette data reader, card reader punch, color copying machine, cathode ray tube display copier, micro fiche retriever, inventory control machine, electronic cash register, mark sheet reader, copying machine, electric plotter, optical character reader, disc (magnetic), drum memory, magnetic tape unit, automatic controlling apparatus, electron microscope, particle accelerator, radar apparatus, electronic calculator, word processor; Printer; Radio telephone equipment; Telephone exchanger; Attendant console of telephone; Telegraph; Carrier telephone; Television conference equipment; Wireless communication apparatus; Facsimile; Voice response system; Interphone; Wave guide; Antenna; Electric controlling equipment for rolling stock namely chopper controller, rectifier, transformer, inverter; Scientific measuring instruments namely mass spectrometer, microanalyzer, microscope, magnetic resonance spectrometer, spectrophotometer, spectrometer, photometer, P.H. meter, toselius electrophoresis apparatus, geiger counter, gas chromatograph, nuclear magnetic resonance, amino acid analyzer, fluorescence spectro photometer, atomic absorption spectrometer, liquid chromatograph; Lifting magnet; Magnetic appliance namely magnetic separator, magnetic filters; Electric precipitator; Equipment and appliances for automobile namely battery, relay; Radio broadcasting equipment; Radio receiving set; Television broadcasting equipment; Freeze-picture transmission system; Television receiving set; Television translator; Television camera, video camera, industrial television equipment, wire broadcasting equipment, electric gramophones, record player, strip projector; Stereo equipment namely receiver, amplifier, tuner, speaker system, speaker unit, disc cartridge, tape deck, headphone, electric

cleaner for record disc, magnetic tape recorder; Stereo modular combination with 8-track player, cassette tape recorder, record auto changer, cassette tape deck, video projector, video monitor; Magnetic recording tape, video tape, magnetic floppy disc; Liquid crystal display and its parts; Cartridge tape; Video tape, video disc, audio disc; Cassette tape; Video tape recorder, video disc player, audio disc player, optical disc player; Cassette player, cassette recorder; Car radio; Transceiver; Household electric appliances namely hair setter, iron, timer switch; Household appliances namely wiring parts in household; Electronic thermometer; Ferrite magnet; Copper and copper alloy namely bus bar, induction coil; Graphite product namely graphite electrode; Ceramic products for electric and electronic parts; Measuring instruments namely electric indicator, indicating controller, sequential controller, recorder, magnetic flow meter, insulation tester, electronic pressure transmitter, pneumatic pressure transmitter, level gauge, thickness gauge, moisture gauge, density gauge, oxygen meter, recording controller; Electric and electronic parts namely printed wiring board, capacitor, coil, resistor, printed circuit board, printed circuit board material, semiconductor material; Anisotropic conductive film; Wiring device; Local area network apparatus; Integrated service digital network apparatus; Electric door bell; Alarm buzzer; Electric dust collector; Digitizer; Computer software; Computer peripherals; Computer servers that provide services to other computers or the software that runs on it, namely, application servers, communication servers, database servers, fax servers, file servers, game servers, standalone servers, web servers, electronic mail servers and print servers; Component parts for computers namely disk arrays, routers and servo motors; Computer network apparatus and installations; Electronic switches; Disk drives [for computers]; Hard disk drives; Storage cards [smart cards]; Ticket issuing machines, automatic payment machines; Automatic teller machines; Scanners [data processing equipment]; Printers for computers; Card readers; Article retrieval apparatus; X-rays producing apparatus and installations, not for medical purposes; Detectors; Electronic controllers; Electric inverters; Transmitters; Traffic control apparatus [electric or electronic]; Security apparatus for elevators; Global positioning apparatus and instruments; Televisions; DVD recorders; DVD players; Video cameras; Projectors; Electronic surveillance apparatus; Cellular phones; Remote control apparatus; Cameras; Cameras for use in broadcasting; Lenses for cameras; Satellite dishes; Microwave devices [other than for cooking]; Encoders and decoders; Semiconductors; Monitors; Display screens (electric or electronic-); Semiconductor manufacturing apparatus; Electron microscopes; Chromatography apparatus for scientific or laboratory use; Spectrophotometers; Centrifuges for laboratory use; Magnetic resonance imaging apparatus and instruments other than for medical purposes; Ultrasound diagnostic apparatus and

ultrasound imaging devices, all not for medical use; Scanning apparatus and instruments, other than for medical use; Clinical chemistry analysers, other than for medical or veterinary use; Power installations [other than generators]; Purification installations [laboratory, other than medical]; Transformers [electricity]; Circuit breakers; Welding apparatus [electric-]; Data compressors; Electrostatic precipitators.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; Nuclear power plants including, nuclear reactors; Boilers [other than parts of machines]; Water purifiers; Heat exchangers [not parts of machines]; Refrigerating machines; Water coolers; Chilling apparatus; Refrigerating cabinets; Air conditioning equipment; Electric portable water coolers; Electric dehumidifiers; Electric furnaces [other than for laboratory use]; Air pollution control apparatus; Water supply apparatus; Water pollution control apparatus; Cookers incorporating grills; Oil and gas stove; Lighting apparatus namely, mercury lamps, infrared lamps for drying the hair, fluorescent lamps, incandescent lamps, lamp fittings, flashlights [torches], electric torches, electric lanterns, underwater lighting apparatus; Blast furnaces; Household electric appliances namely, heaters, foods warmers, toasters, electric rice cookers, egg cookers, electric pots for cooking, roasters, microwave ovens, refrigerators, ice makers, coffee makers, fountains, water purifying apparatus, clothes dryers, dehumidifiers, desk fans, floor fans, ceiling fans, ventilating fans, floor heating apparatus, household appliances namely, bath and bath fittings, sinks, flush water distributors being water flushing installations, solar heaters; Turbine electricity generating installations [power stations]; Gas generators [installations]; Purification installations for waste material; Heat pumps; Humidifiers [other than for medical use]; Chiller units being parts of water cooling installations; Air conditioners; Fans [air-conditioning-]; Tumble dryers [heat dryers]; Hobs; Domestic ovens; Microwave ovens for domestic use; Hair dryers; Light bulbs; Electric lamps; Sterilisers.

Class 12

Vehicles; Apparatus for locomotion by land, air or water; Rolling stock for railways; Electric locomotives; Diesel locomotives; Diesel electric locomotives; Diesel engines for land vehicles; Passenger coaches; Electric cars; Diesel cars; Mono-rail carriages; Cable cars; Locomotives for freight; Wagons; Vans; Tank trucks; Industrial trailers; Dump trucks; Trailers; Hydro torque converters for land vehicles; Unmanned conveying vehicles; Equipment and appliances for automobiles namely starters for land vehicles; Leisure boats, golf carts; Turbines for land vehicles;

Motors and engines for land vehicles; Trains [vehicles]; Railway carriages.

Hand tools and implements (hand-operated); Cutlery; Side arms; Razors for personal use; Razors, electric or non-electric; Cutting tool [hand tools]; Spray; Hand pumps [tools]; Hammers [hand tools]; Drills; Hand saws [hand-operated]; Routers [hand-operated tools]; Electric hair clippers for personal use [hand instruments]; Electric shavers.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; Apparatus for recording, transmission or reproduction of sound or images; Magnetic data carriers, recording discs; Automatic vending machines and mechanisms for coin-operated apparatus; Cash registers, calculating machines, data processing equipment and computers; Fire extinguishing apparatus; Controlling apparatus for electric motors and generators namely controller, resistor, contactor, relay, automatic voltage regulator, remote controlling apparatus; Machines and equipment for electric power distribution namely transformer, electric current limiting reactor, arc-suppression coil, mercury rectifier, semiconductor rectifier, rotary converter, magnetic amplifier, circuit breaker, electric switch, electric switch gear, electric switch board and box, relay, frequency charger, lightning arrester, load dispatcher; Charger; Battery; Battery charger; Rechargeable battery; Nickel cadmium battery; Dry battery; Battery box; Battery jar; Power cable; Telecommunication cable; Insulated cable; Submarine cable; Fiber-optic local area network, fiber-optic cable; Bare wire; Magnet wire; Aluminum wire and cable, electronic wire and cable; Magnetic core; Magnet; Electric and magnetic meter namely power meter, ampere meter, volt meter, watt meter, watt-hour meter, insulation resistance meter, industrial measuring instrument namely thermometer, pressure meter, flow meter, dynamometer, wave sweep oscillator, oscillograph, wave form

monitor, ultrasonic inspection and imaging instrument, ultrasonic flaw detector, ultrasonic instrument; Ultrasonic microscope; Electron tube namely picture tube, receiving tube, transmission tube, pickup tube, cathode ray tube, image pickup tube, storage tube, power tube, x-ray tube, magnetron, rectifier tube, vidicon, liquid crystal display device, core memory, bubble memory; Electric circuit parts using semiconductive material namely transistor, diode, photo cell, photo conductive device, thermistory, varister, electric condenser, I.C. (integrated circuit), L.S.I. (large scale integration), L.E.D. (light emitting diode), memory (random access memory, read only memory), stepper, microprocessor, thyristor; Multilayer ceramic products; Telephone set; Attendant console of telephone set; Telephone switchboard; Semiconductor manufacturing apparatus namely dry etching equipment, inspection equipment for dust particles, through-put IC memory test equipment, wafer/mask blanks surface inspection equipment, machines for use in the analysis and monitoring of environmental contaminants (other than medical), electronic beam lithography system; Electronic applied apparatuses namely electronic computer, computer program, data processing apparatus, data-typewriter, line printer, cassette data reader, card reader punch, color copying machine, cathode ray tube display copier, micro fiche retriever, inventory control machine, electronic cash register, mark sheet reader, copying machine, electric plotter, optical character reader, disc (magnetic), drum memory, magnetic tape unit, automatic controlling apparatus, electron microscope, particle accelerator, radar apparatus, electronic calculator, word processor; Printer; Radio telephone equipment; Telephone exchanger; Attendant console of telephone; Telegraph; Carrier telephone; Television conference equipment; Wireless communication apparatus; Facsimile; Voice response system; Interphone; Wave guide; Antenna; Electric controlling equipment for rolling stock namely chopper controller, rectifier, transformer, inverter; Scientific measuring instruments namely mass spectrometer, microanalyzer, microscope, magnetic resonance spectrometer, spectrophotometer, spectrometer, photometer, P.H. meter, toselius electrophoresis apparatus, geiger counter, gas chromatograph, nuclear magnetic resonance, amino acid analyzer, fluorescence spectro photometer, atomic absorption spectrometer, liquid chromatograph; Lifting magnet; Magnetic appliance namely magnetic separator, magnetic filters; Electric precipitator; Equipment and appliances for automobile namely battery, relay; Radio broadcasting equipment; Radio receiving set; Television broadcasting equipment; Freeze-picture transmission system; Television receiving set; Television translator; Television camera, video camera, industrial television equipment, wire broadcasting equipment, electric gramophones, record player, strip projector; Stereo equipment namely receiver, amplifier, tuner, speaker system, speaker unit, disc cartridge, tape deck, headphone, electric

cleaner for record disc, magnetic tape recorder; Stereo modular combination with 8-track player, cassette tape recorder, record auto changer, cassette tape deck, video projector, video monitor; Magnetic recording tape, video tape, magnetic floppy disc; Liquid crystal display and its parts; Cartridge tape; Video tape, video disc, audio disc; Cassette tape; Video tape recorder, video disc player, audio disc player, optical disc player; Cassette player, cassette recorder; Car radio; Transceiver; Household electric appliances namely hair setter, iron, timer switch; Household appliances namely wiring parts in household; Electronic thermometer; Ferrite magnet; Copper and copper alloy namely bus bar, induction coil; Graphite product namely graphite electrode; Ceramic products for electric and electronic parts; Measuring instruments namely electric indicator, indicating controller, sequential controller, recorder, magnetic flow meter, insulation tester, electronic pressure transmitter, pneumatic pressure transmitter, level gauge, thickness gauge, moisture gauge, density gauge, oxygen meter, recording controller; Electric and electronic parts namely printed wiring board, capacitor, coil, resistor, printed circuit board, printed circuit board material, semiconductor material; Anisotropic conductive film; Wiring device; Local area network apparatus; Integrated service digital network apparatus; Electric door bell; Alarm buzzer; Electric dust collector; Digitizer; Computer software; Computer peripherals; Computer servers that provide services to other computers or the software that runs on it, namely, application servers, communication servers, database servers, fax servers, file servers, game servers, standalone servers, web servers, electronic mail servers and print servers; Component parts for computers namely disk arrays, routers and servo motors; Computer network apparatus and installations; Electronic switches; Disk drives [for computers]; Hard disk drives; Storage cards [smart cards]; Ticket issuing machines, automatic payment machines; Automatic teller machines; Scanners [data processing equipment]; Printers for computers; Card readers; Article retrieval apparatus; X-rays producing apparatus and installations, not for medical purposes; Detectors; Electronic controllers; Electric inverters; Transmitters; Traffic control apparatus [electric or electronic]; Security apparatus for elevators; Global positioning apparatus and instruments; Televisions; DVD recorders; DVD players; Video cameras; Projectors; Electronic surveillance apparatus; Cellular phones; Remote control apparatus; Cameras; Cameras for use in broadcasting; Lenses for cameras; Satellite dishes; Microwave devices [other than for cooking]; Encoders and decoders; Semiconductors; Monitors; Display screens (electric or electronic-); Semiconductor manufacturing apparatus; Electron microscopes; Chromatography apparatus for scientific or laboratory use; Spectrophotometers; Centrifuges for laboratory use; Magnetic resonance imaging apparatus and instruments other than for medical purposes; Ultrasound diagnostic apparatus and

ultrasound imaging devices, all not for medical use; Scanning apparatus and instruments, other than for medical use; Clinical chemistry analysers, other than for medical or veterinary use; Power installations [other than generators]; Purification installations [laboratory, other than medical]; Transformers [electricity]; Circuit breakers; Welding apparatus [electric-]; Data compressors; Electrostatic precipitators.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; Nuclear power plants including, nuclear reactors; Boilers [other than parts of machines]; Water purifiers; Heat exchangers [not parts of machines]; Refrigerating machines; Water coolers; Chilling apparatus; Refrigerating cabinets; Air conditioning equipment; Electric portable water coolers; Electric dehumidifiers; Electric furnaces [other than for laboratory use]; Air pollution control apparatus; Water supply apparatus; Water pollution control apparatus; Cookers incorporating grills; Oil and gas stove; Lighting apparatus namely, mercury lamps, infrared lamps for drying the hair, fluorescent lamps, incandescent lamps, lamp fittings, flashlights [torches], electric torches, electric lanterns, underwater lighting apparatus; Blast furnaces; Household electric appliances namely, heaters, foods warmers, toasters, electric rice cookers, egg cookers, electric pots for cooking, roasters, microwave ovens, refrigerators, ice makers, coffee makers, fountains, water purifying apparatus, clothes dryers, dehumidifiers, desk fans, floor fans, ceiling fans, ventilating fans, floor heating apparatus, household appliances namely, bath and bath fittings, sinks, flush water distributors being water flushing installations, solar heaters; Turbine electricity generating installations [power stations]; Gas generators [installations]; Purification installations for waste material; Heat pumps; Humidifiers [other than for medical use]; Chiller units being parts of water cooling installations; Air conditioners; Fans [air-conditioning-]; Tumble dryers [heat dryers]; Hobs; Domestic ovens; Microwave ovens for domestic use; Hair dryers; Light bulbs; Electric lamps; Sterilisers.

Class 12

Vehicles; Apparatus for locomotion by land, air or water; Rolling stock for railways; Electric locomotives; Diesel locomotives; Diesel electric locomotives; Diesel engines for land vehicles; Passenger coaches; Electric cars; Diesel cars; Mono-rail carriages; Cable cars; Locomotives for freight; Wagons; Vans; Tank trucks; Industrial trailers; Dump trucks; Trailers; Hydro torque converters for land vehicles; Unmanned conveying vehicles; Equipment and appliances for automobiles namely starters for land vehicles; Leisure boats, golf carts; Turbines for land vehicles;

Motors and engines for land vehicles; Trains [vehicles]; Railway carriages.

International Registrations filed under the Madrid Protocol Published for Opposition Purposes under the Trade Marks Act (Cap.332, 1999 Ed.)

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$340).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

QINETIQ

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), lifesaving and teaching apparatus and instruments; apparatus for recording, transmission, or reproduction of sound or images; computer software and hardware; magnetic data carriers; thermal imaging devices and software; optical sensor units for geophysical analysis; security and surveillance equipment; photographic apparatus and equipment; optical devices; communications devices; antenna; wireless communication devices; electronic display apparatus; marine and aeronautical communication devices; telephones; radio and television apparatus and equipment; satellites; closed circuit television surveillance cameras for detecting intruders, fire, smoke, foreign bodies or criminal activity; electronic, optical, satellite and telescopic target surveillance apparatus; radar, radar detectors, radar reflectors; scanners working at optical, radar and millimetric wave frequency; access security apparatus; apparatus for scanning the retina for the security identification of persons; iris recognition security devices; apparatus for use in security control; cards encoded with security features for authentication and identification purposes; cards of plastics bearing magnetically encoded information for security use; counterfeit money and document detecting apparatus; closed circuit television security apparatus; controlled access security apparatus; data security apparatus and instruments; software for information technology security; earth satellites for use in the security surveillance of persons, vehicles and geographical locations; electronic security installations for use in buildings; electronic security tags; heat sensitive cameras and devices for security purposes; tags and labels (magnetic or encoded) for use in marking products for identification, security or stock control; security apparatus for receiving, transmitting, storing and processing video and/or audio signals; telecommunications security instruments; transmitters for use in security; satellite apparatus and equipment; target surveillance apparatus; satellite navigation apparatus and software; satellite tracking and global positioning systems; mine detectors; detectors operating by processing radar, sonar or video signals; radar based system for surveying surfaces such as runways, roads, rail tracks, to detect, locate and identify foreign objects, debris or hazards; sonar apparatus; thermal imaging devices; software and systems for monitoring the movement of vehicles, including aircraft, shipping and submarines; satellite imagery photo interpretation software; training simulators

for aviation purposes; protective clothing, footwear, suits and headgear including that for use by military personnel, aircraft personnel, pilots, astronauts, divers; control devices for turbines; turbine meters; apparatus for signalization underground; electronic instruments for the automatic control of mine hunting operations; explosive mine counter-measure apparatus; bomb sights; solar energy collectors for power generation; solar energy operating apparatus; devices for measuring wind direction and speed; wind tunnels being measuring installations and testing installations; target sights for artillery (laser) and for guns (laser); lasers for guiding and controlling machine tools; airborne apparatus for the calibration of radio navigation equipment; calibration devices; flight control apparatus; flight path controls for missiles and projectiles; flight simulators for aircraft and for space vehicles; sensors for tracking missiles and projectiles in flight; apparatus for the guidance of weapon systems; composite optical apparatus for the aiming of weapons; control apparatus (automatic, electronic) for military weapons; data processors for training operators of weapons systems; day sights for weapons (telescopic); electric cells for providing electric power to weapons systems; electrical impulse generators for the detonating and firing of weapons; electronic apparatus for counter-jamming and jamming weapon systems; encoded programs for weapon systems computers; encryption apparatus for use in weapons guidance systems; radar receivers and transmitters; sight devices (telescopic) for aeronautical and naval and terrestrial weapon uses; simulators for simulating the operation of weapons; simulators for training operators in weapons systems control and operation of weapons; testing apparatus for checking components used in weapons systems; weapon simulators; weapons control apparatus; apparatus for the measurement of body size/shape, foot size/shape or footwear; apparatus for determining fitting information for clothing, footwear or prosthetics; imaging apparatus for imaging bodies, feet and/or footwear especially for size and/or shape measurement; three dimensional imaging apparatus especially for imaging bodies, feet and/or footwear; apparatus for scanning; scanners; frequency scanners; image scanners; optical apparatus for scanning; rapid scan cameras; x-ray scanners (not for medical use); apparatus for scanning materials, vehicles, structures for flaws, corrosion, damage and cracks; control apparatus (automatic, electric or electronic) for robots; digital controls for robots; robots for military and security use, including for explosive detection and handling purposes; operating systems for robots; aircraft cockpit instrumentation; aircraft landing guidance apparatus and instruments; apparatus for testing in the aircraft industry; apparatus for the automatic, remote and directional control of aircraft; armament testing apparatus for use on aircraft; portable communications and testing apparatus for aircraft; scientific apparatus for installation in aircraft; simulators for

training personnel in the ground control of aircraft; stabilizing devices for aircrafts; strategic telecommunication apparatus for aircraft; ultrasonic apparatus for scanning aircraft components for flaws; cameras for military use; metal detectors for industrial or military purposes; military electronic and optical apparatus; topographic apparatus for military use; transformers being electromagnetic devices for military applications; breathing apparatus for protective purposes; electronic protective fences in the nature of activated invisible barriers; protective helmets and masks; protective eyewear; ballistic resistant clothing, footwear and headgear; periscopes for use on vehicles; diving apparatus, breathing apparatus for diving, wet suits for diving, diving goggles; mobile data communications apparatus; shields for protecting body against ballistics, weapons and injury; fibre optic apparatus; fibre optic sensors to detect instability in materials, structures, cables and pipelines, rail tracks, borders and for detecting persons and foreign bodies; camera stabilising equipment; fibre optic cables; fuel cells; batteries; lithium batteries; speakers and sound systems; fibrescopes (other than for medical use); parts and fittings for the aforesaid goods; none of the aforesaid goods being for use in connection with or for factory automation, material handling and or the automotive manufacturing plant industries.

Class 12

Vehicles; military vehicles, space vehicles, armoured vehicles; apparatus for locomotion by land, air or water; aircraft; underwater craft; unmanned vehicles for locomotion by land, air or water; anti-theft and security devices for vehicles (other than locks); helicopter blades; turbines for vehicles; parts and fittings for aircraft, land and sea vehicles; minesweeper towing apparatus; minesweepers (ships); motorised military vehicles for the transportation and launch of weapons; weapon carriage and release apparatus for installation on military craft, land vehicles and water vehicles; unmanned transportation robots; aircraft; aircraft flap braking installations; aircraft interior panels; aircraft landing gear and wheels; aircraft manoeuvring apparatus; alarm systems for aircraft; apparatus for dropping loads from aircraft; bodies for aircraft; vehicle brakes; buoyancy bags adapted for use with aircraft; drag parachutes for aircraft; ejector seats (for aircraft); pilot less aircraft; tyres; unmanned airborne apparatus for causing aircraft to change course; wings for aircraft; apparatus for land locomotion by parachute; parachute apparatus assemblies; parachute canopies, harnesses and packs; parachutes for arresting the motion of vehicles; armour plates (shaped) for vehicles; armour protection apparatus; armoured bodies for vehicles; tracks for armoured vehicles; aerospace apparatus; electric security apparatus (other than locks) for vehicles; parts and fittings for the aforesaid goods.

Class 41

Educational services; training services; arranging and conducting of conferences and exhibitions; flight instruction; advisory services relating to training; arranging and conducting of workshops (training); arranging of conferences relating to training; arranging of demonstrations for training purposes; arranging of displays for training purposes; arranging of presentations for training purposes; certification of education and training awards; computer assisted training services; computer training; conducting training seminars; conducting workshops (training); pilot training; military training; physical fitness training; driver training; language training; training services; provision of training facilities; technical training relating to security, aviation, information security and defence; training in the operation of software systems; training in the use of computers, security equipment, weapons, optical equipment; training services for personnel; training services relating to first aid, fitness, flying, logistics, sub aquatic activities, submarine diving; vocational training services; training services in the fields of aerospace, defence, electronics, information technology security.

Class 42

Engineering, scientific, technical and information and consultancy services; research, development and design services; maritime engineering consultancy; provision of technical consultancy in the field of renewable energy and the environment; aviation engineering consultancy; test evaluation, trials and analytical services; quality control services; project management; design and maintenance of software; rental of scientific and engineering and trials equipment and facilities; data security services (firewalls); professional consultancy relating to computer security; research relating to security; testing of security products; calibration (measuring); calibration of instruments and machines; development of electronic surveillance apparatus; chemical analysis services for use in evaluation; materials evaluation and testing; product evaluation; evaluating weapons systems and security and surveillance systems; testing, evaluating and assessing vehicles, aviation apparatus and instruments; advisory services relating to scientific research; advisory services relating to technological research; bacteriological research; biochemistry research services; biological research; research and development in the field of pharmaceuticals, materials and nano-materials; biotechnological research relating to industry; computer design research; computer research services; computer software research; consultancy services relating to technological research; development of products; electrical research; electro technical research; engineering research; research in the field of environmental protection and environmental impact assessment; laboratory research; management of scientific research projects;

mathematical research services; mechanical research; photographic research; preparation of reports relating to scientific research and technical research; research relating to technology; research relating to telecommunication techniques; research into fire detection equipment, fire fighting equipment; analytical laboratory services; laboratory analysis; laboratory services; laboratory testing of materials; biological development services; computer software development; computer systems development; design and development of vehicles, aircraft, land craft, watercraft and spacecraft; inspection of vehicles for safety, performance and roadworthiness; research facilities and testing facilities including weapons ranges, vehicle and aircraft testing facilities; design and development of computer based networks, computer codes, computer languages; design and development of risk assessment models for use in the insurance market; provision of technical advice to insurance and financial institutions to aid the assessment of risk and claims; management of and conducting of trials for others; encryption of data; research and development of packaging; design and development of electronic surveillance apparatus; development of electronic systems for detecting lost articles or foreign bodies on surfaces; design and development of anti-counterfeiting technologies; development of engines and industrial machinery; design, development and research services relating to protective clothing, footwear and headgear; development of testing methods; industrial development; feet measuring services especially for fitting or adjustment of footwear including children's footwear, fashion and leisure footwear, sports/activity foot aids or prosthetics; human performance test facilities; provision of diving test facilities; engineering services and technological studies relating to robots; rental of scientific, environmental and engineering test facilities, including wind tunnels, climatic test facilities, vehicle emission test facilities, vehicle testing facilities, weapon test facilities, turbine test facilities; advisory services relating to environmental protection, airborne remote monitoring relating to environmental explorations; consultancy services relating to environmental planning; environmental consultancy services; environmental hazard assessment; conducting of botanical and biological surveys; environmental surveys; environmental testing; environmental testing of exhaust emissions; environmental testing of noise pollution; environmental testing of vibration; research in the field of environmental protection and impact; assessing effects of noise, radiation, pollution and emissions; atmospheric analysis, interior and exterior; acoustic analysis; space environment analysis and provision of advice on in-orbit space debris and space radiation hazards; technological advisory services relating to mining and mining machinery; mapping services; environmental mapping services; drift mapping services; seabed mapping services; ocean characteristic and tidal mapping services; terrain mapping

services; architectural project management; design of business management networks; design of information systems relating to management; engineering project management services; management of scientific research projects; off site building project management; project management (design); design of equipment for the transportation, disposal and treatment of waste; architectural consultancy, design and planning; forensic advice relating to damage assessment, explosions and vehicle accidents; computer forensics services; protection of computer networks; testing of network security; design and development of panelling; advisory services relating to design and industrial engineering; biochemical engineering services; computer aided design engineering services; computer engineering and consultancy services; electrical engineering services; engineering; engineering project management services; engineering project studies; engineering services relating to computers, robotics, weapons, vehicles, communications systems, packaging products, electronic systems and security systems; professional consultancy relating to ergonomics; 3D and 4D scanning and modelling services for use in the design, testing and manufacture of scale models and prototypes; none of the aforesaid services in the field of automation for industry or manufacturing; security services relating to computerised data.

Class 45

Control of access for security purposes; consultancy and advisory services relating to security of persons, armed forces, oil and gas installations and pipelines, supply chain, computer systems, networks and databases, military personnel, borders, ports and other transport networks; aircraft and transport system security services; airline passenger and passenger screening (security) services; airport security services; baggage inspection for security purposes; biological security services; scanning and screening of vehicles; biometric security services; security services, namely checking through employment screening services; security services, specifically psychological testing for security purposes and psychometric testing for security purposes; rental of security apparatus; rental of security surveillance apparatus; security assessment of risks; security surveillance; electronic surveillance; arranging licenses for research; licensing of research and development; rental of protective clothing, footwear and headgear; aircraft safety services; consultancy services relating to health and safety; fire safety consultancy services; information services relating to safety; rental of safety apparatus; research relating to safety; safety evaluation; safety assessment services; legal services.
