REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; electric wires and cables, namely, electric conductors, power cables, power distribution cables, control cables, signal cables, winding wires [electricity], electronic cables, electric wiring harnesses, trolley wires, electrical bus ducts, super-conducting wires and cables, communications cables, optical fibers, and optical fiber cables; resistance wires; fuse wires; accessories for electric wires and cables, namely, sheaths for electric cables, electrical shielding spacers for cables and cable assemblies, cable connectors, strain relief cable glands, junction sleeves for electric cables, cable identification markers for electric cables, and strain clamps; electrical wiring installations, namely, conduit for electric cables, ducts for electric cables, electric cable trunkings, electrical raceways, branch boxes [electricity], junction boxes [electricity], and terminal boxes [electricity]; cable monitoring apparatus, namely, monitoring apparatus for remotely monitoring electric power lines; apparatus for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, bus bars, electric connectors, electric terminals, electric transformers, electrical inductors, electrical resistors, voltage surge protectors, electric reactors, electrical capacitors, electric relays, electric converters, electric inverters, power conditioners, panels for the distribution of electricity, electric circuit breakers, electric fuses, electric switches, electric contacts, electric sockets, electric plugs, wireless battery chargers, and semiconductor power elements; electrically conductive and semiconductive materials; magnetic materials, namely, magnetic cores; electric coils; electromagnetic coils; electromagnets; superconductive magnet apparatus; electric batteries and parts thereof, namely, accumulators [batteries], namely, redox flow batteries, fuel cells, photovoltaic cells and modules, and battery separators; electrodes; electrode wires for electrical discharge machining; electric discharge tubes, other than for lighting; radio communication machines and apparatus, namely, portable radio communication machines and apparatus, point-to-point wireless communications link hardware, point-to-multipoint radio communication machines and apparatus for fixed stations, radio communication machines and apparatus for use in land vehicles, marine radio communication machines and apparatus, aeronautical radio communication machines and apparatus, waveguides, and antennas and antenna apparatus; radar apparatus; mobile telecommunications apparatus, namely, structural parts for mobile phones, namely, mobile phone vibrators, and air vent filters for mobile phones; broadcasting equipment, namely, CATV (community antenna television) equipment and apparatus; apparatus for receiving, recording, transmission, processing and/or reproduction of data, sound and images, namely, video multiplexers, scramblers, descramblers, encoders, decoders, and set-top boxes; computer networking and data communications equipment, namely, network routers, computer network switches, modems, gateway routers, computer network hubs, network converters, and home gateway devices; teleconferencing and video conferencing apparatus; computer hardware and software for content delivery via Internet; optical communications instruments, namely, light-emitting diodes [LED], laser diodes, photodiodes, lenses for optical fiber communication, optical modulators, optical amplifiers, optical repeaters,

optical filters, optical multiplexers, optical demultiplexers, optical circulators, optical couplers, optical splitters, optical combiners, optical interleavers, optical waveguides, optical fiber arrays, optical attenuators, optical isolators, optical dispersion compensators, dynamic gain equalizers, optical transmitters, optical receivers, optical transceivers, optical transponders, optical data links, optical media converters, optical routers, optical switches, optical ferrules, optical connectors, optical jumper cords, optical fiber pigtails, optical adapters, mechanical splice connectors, optical fiber closures, fiber optic outlets, fiber optic connection panels, fiber optic cabinets, fiber optic distribution panels, fiber optic connection boxes, and fiber optic termination boxes; apparatus for splicing optical fibres, namely, optical fiber fusion splicers; optical fibers measuring or testing machines and instruments, namely, optical fiber identifiers, fiber optic visual fault locators, fiber optic talk sets, optical light sources, optical power meters, optical power multimeter, optical wavelength meter, optical spectrum analyzers [not for medical use], and optical time domain reflectometers (OTDRs); instruments for electrically operated remote fiber test system (RFTS); apparatus for distributing video signals across computer networks; display apparatus [electrical or electronic], namely, liquid crystal displays; apparatus for the processing of images; lasers not for medical use; apparatus for laser optics, namely, optical lenses, optical filters, optical mirrors, prisms, partial reflectors, phase retarders, beam splitters, diffraction grating, beam combiners, optical windows and laser beam expanders; parts and accessories for spectacles; electronic components, namely, semiconductors, semiconductor wafers, semiconductor chips, semiconductor devices, heat sinks for use in electronic components, electric lead wires, lead frames for semiconductors, bonding wires for semiconductor devices, integrated circuits, integrated circuits packages, printed circuits, flexible printed circuits, conductive films for mounting electronic components, SAW (surface acoustic wave) filters, transistors, and thermistors; input devices for computers, namely, optical character readers, bar code readers, bar code decoders, image scanners, and data entry terminals; equipments and apparatus for detection and control of vehicles and road conditions on roadways, namely, road condition sensors, vehicle traffic sensors, traffic control center apparatus, traffic signal controllers, traffic signal communication equipments, and electric traffic information signs; computer software development tools; computer software for database management; computer software for use in information technology asset management; computer software for computer security; computer programs for network management; computer software for help desk management; computer software for multimedia content delivery; computer software for electronic data interchange (EDI); computer software for data cleansing; computer software for work flow management; computer software for document management; computer software for business purposes; computer software for use in production management; computer software for use in logistics; computer software for operating geographic information systems; computer software for hospital information systems; computer digital maps; parts for photocopiers, facsimiles, computer printers, namely, paper guides, fuser rollers, pressure rollers, cleaning blades, and transfer belts; electric actuators; electrical components for land vehicles, namely, electrical junction blocks, electric relay boxes, vehicle fuses, electrical fuse boxes for automobiles, electric connectors for automobiles, and electronic control units (ECUs) for controlling automotive engines; sensing apparatus for use in land vehicles, namely, wheel speed sensors, gyro sensors, and impact sensors; optical apparatus for use in land vehicles, namely, CCD (charge-coupled device) cameras; electric and electronic video surveillance installations; disaster prevention equipment, namely, earthquake alarms; life saving apparatus and equipment, namely, life

buoys, life-saving rafts, inflatable lifeboats, and radar reflecting apparatus; meteorological apparatus; measuring and testing machines and instruments, namely, metal hardness testing machines, temperature meters for industrial use, thermocouples, electricity meters, namely, ammeters, voltmeters, power meters, insulation resistance meters, frequency meters, and circuit testers, electric sensors, apparatus for measurement of network traffic, tensiometers, radiation measuring apparatus, water sensors, pressure measuring apparatus, pressure controls, lasers for measuring purposes, fiber optic probes, gyroscopes, optical fiber sensors, and testing apparatus for checking electronic devices; laboratory instruments [other than for medical use], namely, filtration membranes for laboratory use, and crucibles [laboratory]; solar modules; energy storage units; energy monitoring and analysis apparatus; energy control devices; filters for respiratory masks.

Class 12

Vehicles; apparatus for locomotion by land, air or water; parts and fittings for land vehicles, namely, transmission components for land vehicles, namely, transmission shafts for land vehicles, transmission bearings and wheel bearings for land vehicles, gears for land vehicles, gear boxes for land vehicles, transmission chains for land vehicles, sprockets for land vehicles, power transmission belts for land vehicles, pulleys for land vehicles, shaft couplings for land vehicles, clutches for land vehicles, planetary gears for land vehicles, oil pump rotors being transmission components for vehicles, torque converters for land vehicles, and flywheels for land vehicles, power steering apparatus for land vehicles, namely, steering columns for vehicles, steering shafts, steering gears, steering joints, steering racks for vehicles, steering pinions, steering cylinders, and steering hoses, land vehicle suspension parts, namely, suspension members, suspension arms, tie rods, vehicle suspension springs, bushes for vehicles, shock absorbers for vehicles, suspension mounts, stabilizer bars for land vehicle suspensions, and ball joints [vehicle parts], springs for land vehicles, actuators for land vehicles, brakes for land vehicles, hydraulic hoses for land vehicles, vibration dampers for land vehicles, engine covers, components for airbags, namely, airbag sensors, interior panels for vehicles, dashboards, automotive interior trims, head-rests for vehicle seats, arm rests for vehicles, windshield wipers, vehicle wheel spokes, spikes for tires [tyres], balance weights for vehicle wheels, and fuel tanks for land vehicles; structural parts for aircraft, namely, fuel tanks for aircrafts, deicers, and vibration dampers and buffers for use in aircraft; parts and accessories for railway vehicles, namely, traction devices, rubber springs, bushes, protective covers, and hoods.

Class 17

Unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; floating anti-pollution barriers; industrial packaging containers of rubber; flexible pipes, not of metal; non-metal, plastic and rubber hoses for industrial applications, namely, watering hoses, non-metallic air hoses, hydraulic hoses of rubber, radiator hoses [Non-metallic -], non-metallic heater hoses, non-metal fuel oil hoses, non-metal oil hoses, non-metal hoses for air conditioners, and non-metallic refrigerant hoses; hose couplings not of metal for use with non-metallic hoses; flexible tubes [not of metal]; sleeves of rubber for protecting parts of machinery; reinforcing materials not of metal for pipes; non-metallic junctions for pipes; non-metal flanges; sealing materials, namely, O-rings, oil seals, gaskets, bushings, and sealant compounds for joints; articles made of rubber for sealing; adhesive sealant and caulking compound; sealing putty; packing materials; anti-

corrosion protective covering for pipe and structural steel; heat resistant materials in the form of tape and tubes; insulating materials for insulation against heat; flame retardant materials; structures for noise absorption [soundproofing]; acoustic insulation articles and materials; vibration dampers of rubber; vibration insulators (resilient mountings); rubber shock absorbers for industrial machinery; electrical insulating materials, namely, insulating coatings, insulating sleeves for machinery, insulating sleeves for power lines, insulating tapes, insulating tubes, electrical insulating rubber products, insulating papers, insulating oils, insulating compounds, and electric porcelain insulators; non-metallic materials for shielding against electromagnetic radiation; insulation materials for use on splices of electric cables; self-adhesive tapes [other than for stationery, household or medical purposes]; insulating film for use in the manufacture of semiconductors; rubber [raw or semi-worked]; semi-processed plastics; heat shrinkable plastic tubings and sleeveings used with electric wires and cables and other electrical products for bundling, splicing, sealing, insulation, mechanical and corrosion protection, identification and decoration; porous plastic membrane sheets and tubes for use in filtering, insulating, sealing and packing materials; polyurethane foam for use in the further manufacture of cushioning and insulation; reflective plastic films for use on windows; ceramic foams for industrial use, namely, for thermal and acoustic insulation.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; chemical laboratories; testing or research on machines, apparatus and instruments; design of tools; research in the field of automotive technology; research in the field of energy; development of energy and power management systems; design and development of communications technology; technical research in the field of semiconductors and integrated circuits; design of semiconductors and integrated circuits for others; testing of semiconductors and related products; design, development, installation and maintenance of computer software; providing search engines for obtaining data on the Internet and corporate Intranets; Application Service Provider [ASP] services; mapping services.

The German word "Pumpen" appearing in the mark means "Pump".

Class 06

Ironmongery, small items of metal hardware; common metals and their alloys, pipes and tubes of metal, fittings of metal, for installation in pipelines for liquid and gaseous media; tanks; protective sleeves (metal hardware); welding neck flanges (metal hardware).

Class 07

Pumps, motors and engines (except for land vehicles), installations, apparatus and units composed of pumps, motors and engines; machines for the chemical and pharmaceutical industries and for the food industry; housings [parts of machines]; standard pumps, standard chemical pumps, chemical centrifugal pumps, chemical circulating pumps, submersible chemical pumps, unchokeable chemical pumps; axial centrifugal pumps, axially split pumps; magnetic pumps, magnetically coupled pumps; centrifugal pumps, sanitary centrifugal pumps, small centrifugal pumps; impeller pumps; base plate pumps; motor mounted pumps, valveless high-density pumps; densifiers and vacuum pumps [machines], namely rotary compressors; submersible pumps; unchokeable pumps; self-priming pumps; sludge pumps, in particular self-priming sludge pumps; armour-plated pumps; centrifugal pumps; pumps for conveying liquids; pumps (machines) for the chemical and pharmaceutical industries; corrosion-resistant pumps (machines) made of ceramic material; corrosion-resistant vacuum pumps and corrosion-resistant centrifugal pumps; pump impellers; split cases for magnetically coupled pumps; liquid-ring vacuum pumps, namely sliding rings, in particular bearings and shaft and sliding bearings for pumps (machines), sliding rings of metal-ceramic compositions for chemical pumps; bearings; shafts; installations made of ceramic material, namely corrosion-resistant pump systems; auxiliary equipment parts for pumps, namely thermosiphons systems, housings for discharge valves; pumps components, in particular couplings and belts (except for land vehicles); parts for pumps (included in this class); cast parts, namely ferro-silicon cast parts being parts of machines; parts of machines, motors and engines and couplings; seals for pumps, motors and engines; speed governors for machines, engines and motors; mold (machine parts); speed governors for machines, engines and motors; regulators (parts of machines); control mechanisms for machines, engines or motors; valves, clack valves, taps for installation in pipelines for liquid and gaseous media.

Class 09

Electric and electronic apparatus and instruments (included in this class) for content measuring and direction finding apparatus in pump technology, including computer software therefor; electronic switch gears; electric and electronic apparatus and instruments, electric switching apparatus, electric apparatus for monitoring industrial installations and industrial equipment, electric gauges, electric measuring apparatus, in particular flow measuring apparatus for gaseous, liquid and solid machines, electric and electronic apparatus, instruments and switching installations, electric and electronic switching, measuring, control, regulating, testing, diagnostic, checking (supervision) and display

apparatus, including computer software and bus systems therefor, electric cables and wires, electric disc drives, electronic components and modules, computer hardware and computer software, measuring, control, regulating, signalling, checking (supervision) and recording devices, apparatus and instruments, and computer programs therefor, electric evaluation and protection devices for recording and controlling electric signals, display devices, apparatus and instruments, parts for the aforesaid devices, apparatus and instruments, computer programs for the operation of the aforesaid devices, apparatus and instruments, electronic data capture, data evaluation, data transmission, data processing, display, control and regulating devices, apparatus and instruments and computer programs therefor, electrotechnical and electronic measuring apparatus, devices and instruments and installations consisting thereof for filling, pressure, flow meter, temperature, pH, redox, conductivity and analytical measurement technology, automation, electric heating, and measuring, electrotechnical and electronic control, checking (supervision) and regulating apparatus for industrial purposes, electronic sensors, electronic devices and apparatus for recording analogue and digital values, physical variables from electrical engineering and signals, for converting and transforming analogue and digital values, physical variables from electrical engineering and signals, and for outputting analogue and digital values, physical variables from electrical engineering and signals, weighing, counting, testing and electric switching apparatus, electric switch and control cabinets, cable cabinets (electricity), fuse boxes (electricity), junction boxes (electricity), distribution boxes (electricity), control panels (electricity), control engineering apparatus and devices for switching installations and network control engineering apparatus and devices, weighing, counting, testing and electric switching apparatus, electric switch and control cabinets, cable cabinets (electricity), fuse boxes (electricity), junction boxes (electricity), distribution boxes (electricity), control panels (electricity), control engineering apparatus and devices for switching installations and network control engineering apparatus and devices, memory-programmable control devices, apparatus for recording, sending, transmission, receiving, reproduction and processing of sounds and/or characters and/or images, communications apparatus for recording, transmission and reproduction of sound or images and installations composed of the aforesaid, apparatus for remote data transmission and data transfer, electric apparatus and electric instruments for controlling and for automatic maintenance of pumps, in particular lubricating devices, speed control devices and oil pump around coolers, apparatus for the transmission of speech, data and images and installations consisting thereof, modems, distribution, ducting and laying systems for electrical installation, electric and electronic apparatus and installations consisting thereof for process technology and measurement data processing, electric apparatus for the detection and measurement of pollutants in air, water and soil, and of noise, vibrations, meteorological data, electric and electronic control apparatus and installations consisting thereof, testing apparatus and parts therefor and installations consisting thereof for detecting and locating leaks in containers for liquid and gaseous substances, testing apparatus and parts therefor and installations consisting thereof for detecting and locating dirt on sensors and for recording measurement values for solid, liquid and gaseous substances, measuring apparatus for process regulation, electric and electronic apparatus for data recording, data processing, remote data retrieval, data switching, data storage and data output, computers and data processing equipment, in particular data recording installations, data processing programs, in particular database software and software for telemetry, apparatus for the recording, monitoring, remote retrieval, transmission, processing, security and evaluation of measurement data, merchandise management systems, electric apparatus for aligning and adjusting pumps

to individual needs, in particular for smooth start-up, speed control and pump control; manometers.

Class 37

Repair and maintenance and consultancy relating to the installation of units consisting of pumps, valves, motors and engines as well as equipment comprised of a combination of such products, machines for the chemical and pharmaceutical industries and for the food industry, machine housings, standard pumps, standard chemical pumps, chemical centrifugal pumps, chemical circulating pumps, submersible chemical pumps, unchokeable chemical pumps, axial centrifugal pumps, axially split pumps, magnetic pumps, magnetically coupled pumps, centrifugal pumps, sanitary centrifugal pumps, small centrifugal pumps, impeller pumps, base plate pumps, high-density pumps, valveless high-density pumps, compactors and vacuum pumps, namely rotary compressors, submersible pumps, unchokeable pumps; self-priming pumps, dirty water pumps, in particular self-priming sludge pumps, armour-plated pumps, centrifugal pumps, pumps for conveying liquids, pumps (machines) for the chemical and pharmaceutical industries, corrosion-resistant pumps (machines) made of ceramic material, corrosion-resistant vacuum pumps and corrosion-resistant centrifugal pumps, pump impellers, split cases for magnetically coupled pumps, liquid-ring vacuum pumps, namely sliding rings, in particular bearings and shaft and sliding bearings for pumps (machines), sliding rings of metal-ceramic compositions for chemical pumps, protective sleeves, bearings, shafts, installations made of ceramic material, namely corrosion-resistant pump systems, pump protection apparatus, namely loading monitors, pump monitoring apparatus, in particular apparatus for vibration measurement, leak monitoring and temperature control, and other auxiliary apparatus required for the operation of pumps, auxiliary equipment parts for pumps, namely manometers, thermosiphons systems, housings for discharge valves and welding neck flanges, pumps components, in particular couplings and belts (except for land vehicles), parts for pumps (included in Class 7 of this application), cast parts, namely ferro-silicon cast parts being parts of machines, parts of machines, motors and engines and couplings, seals for pumps, motors and engines, speed governors for machines, engines and motors, moulds (parts of machine), speed controlling mechanisms for motors and engines, regulators (part of machines), control mechanisms for machines, motors or engines, electric and electronic apparatus and instruments, electric switching apparatus, electric apparatus for monitoring industrial installations and industrial equipment, electric gauges, electric measuring apparatus, in particular flow measuring apparatus for gaseous, liquid and solid machines, electronic motors and engines (except for land/water vehicles), electric and electronic apparatus, instruments and switching installations, electric and electronic switching, measuring, control, regulating, testing, diagnostic, checking (supervision) and display apparatus, electric cables and wires, electric drives, electronic components and modules, computer hardware, measuring, control, regulating, signalling, checking (supervision) and recording devices, apparatus and instruments, electric evaluation and protection devices for recording and controlling electric signals, display devices, apparatus and instruments, parts for the aforesaid devices, apparatus and instruments for the operation of the aforesaid devices, apparatus and instruments, electronic data capture, data evaluation, data transmission, data processing, display, control and regulating devices, apparatus and instruments, electrotechnical and electronic measuring apparatus, devices and instruments and installations consisting thereof for filling, pressure, flow meter, temperature, pH, redox, conductivity and analytical measurement technology, automation, electric heating, and measuring, electrotechnical and electronic control, checking (supervision) and

regulating apparatus for industrial purposes, electronic sensors, electronic devices and apparatus for recording analogue and digital values, physical variables from electrical engineering and signals, for converting and transforming analogue and digital values, physical variables from electrical engineering and signals, and for outputting analogue and digital values, physical variables from electrical engineering and signals, weighing, counting, testing and electric switching apparatus, electric switch and control cabinets, cable cabinets (electricity), fuse boxes (electricity), junction boxes (electricity), distribution boxes (electricity), control panels (electricity), control engineering apparatus and devices for switching installations and network control engineering apparatus and devices, weighing, counting, testing and electric switching apparatus, electric switch and control cabinets, cable cabinets (electricity), fuse boxes (electricity), junction boxes (electricity), distribution boxes (electricity), control panels (electricity), control engineering apparatus and devices for switching installations and network control engineering apparatus and devices, memory-programmable control devices, apparatus for recording, sending, transmission, receiving, reproduction and processing of sounds and/or characters and/or images, communications apparatus for recording, transmission and reproduction of sound or images and installations composed of the aforesaid, apparatus for remote data transmission and data transfer, electric apparatus and electric instruments for controlling and for automatic maintenance of pumps, in particular lubricating devices, speed control devices and oil pump around coolers, apparatus for the transmission of speech, data and images and installations consisting thereof, modems, distribution, ducting and laying systems for electrical installation, electric and electronic apparatus and installations consisting thereof for process technology and measurement data processing, electric apparatus for the detection and measurement of pollutants in air, water and soil, and of noise, vibrations, meteorological data, electric and electronic control apparatus and installations consisting thereof, testing apparatus and parts therefor and installations consisting thereof for detecting and locating leaks in containers for liquid and gaseous substances, testing apparatus and parts therefor and installations consisting thereof for detecting and locating dirt on sensors and for recording measurement values for solid, liquid and gaseous substances, measuring apparatus for process regulation, electric and electronic apparatus for data recording, data processing, remote data retrieval, data switching, data storage and data output, computers and data processing equipment, in particular data recording installations for telemetry, apparatus for the recording, monitoring, remote retrieval, transmission, processing, security and evaluation of measurement data, electric apparatus for aligning and adjusting pumps to individual needs, in particular for smooth start-up, speed control and pump control.
