REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Class 06

Anti-vibration mountings made of metal and rubber or of metal and artificial rubber, the metal predominating; architectural hardware made of common metals and alloys thereof; bellows expansion joints; chains of metal including chain cables, chain couplings, chains of links, flat link chains and sprockets for chains; clamps, attaching means, for tubes and for repair of tubes; common metals and their alloys; fabricated wire reinforcing material; goods of common metal not included in other classes; ironmongery, small items of metal hardware; manually operated valves made wholly or predominantly of common metal; materials of metal for railway tracks including railway switches, railway points, rails of metal, railway sleepers of metal, railroad ties of metal; metal building materials; non-electric cables and wires of common metal; pipes and piping equipment made of metal, including pipe supports; pipes and tubes of metal; tubes, corner pieces and t pieces, couplings for meters, reducers, manifold headers, pressure plugs, bolts, nuts and connection sleeves or tapping sleeves, all as special parts or as repair-sets, and all of metal; parts and fittings for the above goods.

Class 07

Actuators; advanced control valves; air compressors (machines); anti-vibration mountings for machinery, for motors and engines, and for pumps, and mountings for instruments; automatic closing valves being regulating and safety accessories for pipes; motors and engine parts, namely, bearings, bearing housings, seals, races, rollers, retainers, drive chains, conveying and elevating chains, sprockets, gears, gear drives, couplings, fixed and variable speed reducers; brakes and clutches and controls for brakes and clutches; butterfly valves, gate valves, plug valves, rotary valves, control valves; compressed air apparatus and installations; compressors; control valves; controllers; controls for machine tools; conveyor belts and conveyor components; conveyors; electric drills; dynamo electric machines, parts thereof and starters for electric motors; electric control valves; electric motors; electric generators; electronic, pneumatic, and steam operated metal valves for control of fluids; elements for low friction journal and axial thrust bearings; ball and socket bearing assemblies; felts for paper making machines, de-watering units for use in paper making

machines; gear units, geared motors, variable speed drives and couplings for power transmissions, disc brakes and drum brakes all for use in industrial machines; hydraulic and gas operated tools; hydraulic intensifiers and pneumatic intensifiers; lifting and lowering machinery; lubricating apparatus; machines and machine tools; machines coupling and belting (except for land vehicles); machines couplings and parts of machines and machine tools, all made of rubber and metal or of artificial rubber and metal; machines for collecting, exhausting, controlling or filtering dust, powdery materials or waste products, machines and apparatus for the handling and conveying of materials, mist collectors, fume, gas and smoke extracting or exhausting machines; motors (except for land vehicles); paper making machine parts, namely, fourdrinier woven wire cloth, fourdrinier wire cloth, fourdrinier wires and synthetic wires; paper making machinery, namely, hydrofoil units, hydrofoil blades, suction boxes and covers therefor and uhlé box covers; pneumatic suspension systems for machines, namely, diaphragms or bellows air spring assemblies, leveling valves and mechanical linkages; pneumatically operated lifting apparatus and installations, apparatus for use in the control of machine tools (pneumatic or hydraulic) and apparatus for use in the control of machines (pneumatic or hydraulic); pneumatically operated rotary and linear actuators, electrically and pneumatically operated valves being parts of machines, silencers and pneumatically operated filters and connectors for use therewith; power operated actuators, for use with such valves; power operated valves for the control of fluid flow; power transmissions for machines; presses; pumps; regulators; shaft couplings, roller chain couplings; silencers and silencing apparatus for machinery, for engines, and for motors; vacuum pumps; valves; valves; taps; vibrating, feeding, locating, damping and ejecting apparatus; wheel fitting and removing machines; air reservoirs (parts of machines); apparatus for transporting or exhausting grain material or particle material; belt and machinery driven air compressors; brake linings and segments other than for vehicles; chain drives; compressors and parts therefor including compressors for brake systems; draft gear; electronic control units controlling electropneumatic air suspension valves; exhaust brakes and components; maintenance tools, included in this class for compressors; electric maintenance tools included in this class for valves; motor driven air compressors for direct current and alternating current operation; pneumatic air suspension valves; power tools, namely, power-operated rail drills, grinders, wrenches, and rail saws; revolvable valves (parts of machines); steam driven air compressors for railway brake service (single acting, compound, duplex and 3 stage types); steam driven boiler feed pumps; steam driven water pumps for general purposes; valves and valve parts including valves for brake systems; belts for motors and engines, pulleys and universal joints; comminuting, triturating, grinding and waste disposal apparatus;

drain cocks; parts and fittings for the above goods, included in this class.

Class 09

Alarms; anti-vibration mountings for electrical apparatus and instruments; scientific, nautical, surveying, photographic and cinematographic apparatus; apparatus and analytical instruments for measuring, indicating and recording chemical properties, pH and conductive properties of solutions; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for monitoring, controlling and regulating valves and parts of valves; apparatus for recording, transmission or reproduction of sound or images; apparatus for supplying power, for controlling the supply of electricity and for speed regulating; apparatus for testing of lead acid batteries and lead acid electric cells, rectifying apparatus, inverters, converters and frequency changers, all being electric; automatic and manual controls which monitor, adjust, and regulate a building's heating, air conditioning, and ventilation systems; automatic controls of security access, fire management and lighting of buildings; automatic train operation apparatus; automatic train protection apparatus; automatic train regulation apparatus; automatically operated safety barriers; calculating machines, data processing equipment and computers; combination fluid control valve and temperature responsive control mechanism therefor, and combination temperature responsive mechanism for controlling automatic refrigerators, and electric timers for automatically effecting start of defrosting cycles; combined electric batteries and electric battery charging apparatus being automatically operated apparatus for supplying power; communication apparatus for communicating data between trackside apparatus or a control centre and railway vehicles; computer based information and control systems comprising differential pressure transmitters, level transmitters, temperature transmitters, vortex meters, magnetic meters, coriolis mass flow meters, controllers and recorders for sensing, measuring and managing industrial process variables such as temperature, pressure, liquid level, flow and composition of materials; computer hardware; computer peripherals, industrial control computers, industrial controllers, programming workstations, operator consoles, computer programs for use in the field of industrial control, and computer systems comprising the same; computer software and computer programs; computers; controllers and computers for recording industrial process variables, namely flow of materials, temperature, pressure and liquid level, electrical forces, and gas analysis, and for factory automation; drives; inverters; electric actuators; electric batteries; electric accumulators; electric positioners; electric storage batteries, industrial battery chargers, hydrometers, hydrometer floats, thermometers and voltmeters; electric transformers, voltage

regulators, electric current meters, voltmeters, alarms and indicators, all for use in indicating variations in the condition of electric circuits from pre-set conditions; electric vacuum cleaners for industrial use; electrical and electronic apparatus for control or supervision of railway vehicles; electrical and electronic apparatus for use in railway signaling; electrical and electronic communication apparatus for use in railway signaling or for the control or supervision of railway vehicles; electrical and electronic management, control, supervision or display apparatus for use in railway systems; electrical apparatus for collecting, exhausting, controlling or filtering dust, powdery materials or waste products, and for air cleaning and air purifying; electric control apparatus for machines; electrically operated door closing apparatus; electronic and electromechanical timers; electronic controls for vacuum-dewatering papermaking machinery; electronic apparatus for processing, input, output, display and communication of data and signals, parts, interconnections and fittings for the aforesaid goods; electronic control systems; electronic current rectifiers; electronic controllers; solenoids; microelectronic circuits; electronic interlocking apparatus for use in railway systems; electronic switch circuitry and switches for electric motors; electronic time controllers for minimization of energy consumption and for maximization of efficiency of heat pumps; electrostatic precipitators; fluid flow control apparatus; indicating and recording meters and transmitters for management, monitoring and measuring industrial process variables and for communicating with controllers and computer networks; installations and apparatus for use as emergency and auxiliary electric power supply, all for operation by electric batteries; instruments and apparatus for measuring pressure (using pressure sensitive and semiconductor sensors) and fluid density; magnetic data carriers, recording discs; peripheral apparatus for use with computers; photo-electric apparatus, electric switches for incorporation into mats; power supply systems adapted for the telecommunication industry; railway level crossing systems; railway points condition monitoring apparatus; railway points operating machines; railway signal lights; railway vehicle detection apparatus; railway vehicle detection apparatus for use in railway level crossing systems; relays, controllers, regulators, electronic timers, electric igniters for fuel burners, electric switches, and valves operated by an electromagnet, gas and electric cooker controls, self clean oven controls, graduated switches, digital and analog timers, throttle position sensors, vacuum amplifiers, electronic governors and potentiometers, solid state relays and light dimmers, combination electric motor starting relay and temperature responsive overload controls for electric motors, motor speed controls; and renewable dials for chart recorders which monitor temperature and pressure namely charts; scientific, nautical, surveying, electric, photographic, cinematographic, optical, weighing, measuring,

signaling, checking (supervision), life-saving and teaching apparatus and instruments; sealed recombination electric storage batteries, all for use in standby or emergency power applications; sensing, measuring, monitoring, and data recording apparatus and instruments; sensors; solenoid valves; tank level monitoring; tapes; discs; ROMs; data storage media; temperature responsive mechanisms for controlling automatic refrigerators, and controlling heaters for passenger compartments of automobiles, for controlling heaters for stoves or ovens; thermostats, thermometers, thermocouplers, thermographs, thermostatic water mixers, thermostatic systems for automatic temperature control, thermostatic tank regulators and thermostatic safety control devices, and ignition systems for fuel burners; trackside apparatus and train mounted apparatus for controlling railway vehicles; valve monitoring and control apparatus; apparatus, mainly of computers, for operation and control of stations of classification carriages and for supervision traffic railway; control apparatus and instruments; electrical apparatus including power rectifiers and passenger information systems; electrically operated door closing apparatus; electrically operated safety barriers; electronic interlocking apparatus for use in railway systems; electronic controls primarily for the railroad industry, namely, speed limiter testers, speed and event recorders, hump speed controllers, strobe light controller and strobe lights therefor, engineer alerters and alarms, fuel consumption measurers, speed controllers, magnetic tape players and speed indicator calibrators; electronic equipment for rail networks, including control devices, signalling location, telecommand and piping, protection and braking automatic; gauges; lightning protection devices; on-board paging systems for transit and passenger railroads comprising transmitters and receivers; railroad signals and electrical controls therefor; rail-highway grade crossing control systems comprising railroad highway grade crossing flashing lights, gates, and cantilevers, all sold as a unit; railway points condition monitoring apparatus; railway points operating machines; railway vehicle detection apparatus; telecommunications systems for railroads and public utilities comprising transmitters and receivers; trackside apparatus and train mounted apparatus for controlling railway vehicles; all the foregoing relating to railways or railway vehicles; computer software for use with the aforesaid goods; energy regulators for electric cooking; parts and fittings for the above goods.

Class 11

Anti-vibration mountings made of rubber and metal and of artificial rubber and metal and being fittings for air conditioning installations and for electric lighting installations; dampers; electric lamps for miners; filters and filtering apparatus for filtering gases and liquids; gas burners; installations and apparatus for air conditioning, air purifying, air cleaning, ventilating,

heating, cooling, humidifying, drying and aerating, installations and apparatus for collecting, exhausting, controlling or filtering dust, powdery materials or waste products, electrostatic precipitators, filters; installations and apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; installations and apparatus for use as emergency and auxiliary lighting, all for operation by electric batteries; liquid separators; water purification systems; parts being made of rubber, artificial rubber or combinations of rubber, artificial rubber and metal; settling, collecting, removing, washing, flocculating and agglomerating apparatus for liquid clarification, for water treatment, and for waste water treatment; taps and cocks; thermostatic valves; filtration filters and apparatus; machines and apparatus for air cleaning and air purifying; parts and fittings for the aforesaid goods; parts and fittings for the above goods.

Class 12

Brakes and brake parts for vehicles; brake systems, brake kits and parts for brake systems, brake linings, brake segments, brake shoes, brake piston rods, brake system air dryers, brake chambers, brake valves, brake actuators, slack adjusters for brakes, cut-out cocks, hydraulic circuits for vehicles and hoses, tubing and fittings therefor; compressors and parts for vehicles; hydraulic and pneumatic circuits and devices for controlling vehicle braking apparatus; pneumatic, electropneumatic and hydraulic brakes and brake parts; pneumatic and electro-pneumatic brakes for railway, tramway, and motor vehicles; railway vehicle braking apparatus; vehicles, apparatus for locomotion by land; vehicle braking apparatus; vehicle brake actuating apparatus; vehicle parts, namely, drive shafts and idler arms drive shafts; parts and fittings for the above goods.

Class 16

Instructional and teaching material (except apparatus); paper for recording data; printed matter, printed publications, books, magazines, brochures, catalogues, booklets, pamphlets, maintenance and operational manuals, instructional and teaching materials; printed publications, leaflets and brochures, instruction and user manuals.

Class 35

Analysis and assessment of business performance.

Class 37

Building construction and repair; installation services, maintenance services, repair services, all relating to railways, railway systems and railway vehicles; installation, maintenance and repair services, all relating to engineering, engineering

apparatus, electrical and electronic apparatus and instruments, safety apparatus, industrial machinery and control apparatus and instruments; maintenance, repair and upgrade (maintenance services) of electrical and electronic apparatus, of control apparatus and instruments, and of measuring apparatus and data acquisition apparatus; recalibration of measuring apparatus; repair and maintenance, including repair and maintenance of analytical and industrial process control instruments and computer hardware; vehicle maintenance services, maintenance services for apparatus for locomotion by land, and automatic driving and protecting devices for these goods.

Class 41

Education; education and training, including education and training in the field of theory of operation and repair and maintenance of instruments and computers for industrial process management and control and in the field of industrial process management and control; providing of training.

Class 42

Advisory services relating to computer systems; consultancy services relating to computer systems; development of computer hardware and software; analysis and quality assessment of industrial process plant operation; computer programming; computer services; computer systems analysis; programming; design and development of computer software and hardware; computer hardware and software support services; design and installation of software relating to asset and operational performance solutions in industrial process plants; design services, consultancy services, project management (design) services, software design services, all relating to railways, railway systems and railway vehicles; maintenance of computer software; rental of computer software; scientific and industrial research; technical inspection and consultation in the fields of science and technology; updating of computer software; advisory services in the industrial and automation field, design and testing services in this class; customized electrical, electronic, computer and mechanical engineering modification services.

Class 07

Machines and machine tools; electronic components for machines and machine tools; machines for producing and for assembling printed circuit cards; labelling machines; finishing machines, setting machines and machines for creating bundles; thermal devices as parts of the abovementioned goods, namely ventilators, compressor impellers, heat sinks.

Class 08

Hand tools and implements, hand-operated; hand tools; parts and components for hand tools; all included in Class 8.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking [supervision], life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines; data processing equipment and computer hardware and peripheral equipment for computers; computer software; computer wiring systems; electromechanical systems and parts and components related thereto; electrical connectors and connection systems; electrical connectors, components of connectors, particularly containers; connectors for equipment ("plug-in" connections); electrical couplings, electrical connections and joints; connector housings; components of wiring systems, particularly punchdown blocks (bars for multiple connections); jacks, plugs, connecting cords, connecting panels; wires and cables, cables of fiber optics; underwater cables, telecommunications cables, fiber optic and electric harnesses, electrically conductive cable terminations; collars for wiring not of metal; housings for ground connections and guard shields for high voltage cables; parts for high voltage cables for industry in aerial and underground installations, including external oil bath terminals, dry external terminals; electric cables for lighting installations; ducting for electrical wiring, cassettes for managing fiber optic cables (plug and play cassettes), components of cabling for improving transmission of signals, particularly plates, divider coils, blocks, brackets, wiring gutters, rings and clips, housing for outlets and panels, and overvoltage protector devices;

communication equipment, particularly electric jacks, plugs, blocks, terminal strips, connection panels, connectors for couplings and cords, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wavelength-division multiplexers/demultiplexers, connection modules, interface modules, test modules, disconnection modules, connection and switching chassis, patchings; devices for switching and monitoring electric power supplies; control modules for connection and switching, data line emulators and monitors, transmission test kits, test cards for network switches (PBX), controllers for switching and controllers for networks, switching cards, switching cables, digital signal cross-circuit modules, transmission circuit boards, signalling sub-boards, transmission setting plates and connection designation bands; test equipment for private lines for carrying out tests on communication systems comprising test modules, service modules, signal test modules, cable reels, electrical panels and cable cages, particularly with the option of oscillation, amplification, attenuation, and comprising kits, electrical terminals, repeating reels, terminal signal converters, signal relays, cords with plugs, monitor loudspeakers, control devices for transmission buffers, automatic level control devices, bridge transformers, pulse generators, external impellers, loopbacks and control devices for test baseplates, sold as a modular unit; electrical apparatus used as components of a private line test system for carrying out tests on communication systems, particularly test modules, service modules, signal test modules, cable reels, electrical panels and cable cages, particularly with the option of oscillation, amplification, attenuation, and comprising kits, electrical terminals, repeating reels, terminal signal converters, signal relays, cords with plugs, loudspeakers, control devices for transmission buffers, automatic level control devices, bridge transformers, external impellers, loopbacks and control devices for test baseplates; electrical apparatus used as components of a private line test system for carrying out tests on loopbacks, for controlling and testing two-wire communication lines, comprising a sender and a receiver, sold as a unit; electrical apparatus used as components of a private line test system for carrying out tests on sender and receivers, used in loopback test systems, for controlling and testing two-wire communication lines; electrical apparatus used as components of a private line test system for carrying out tests on fuse panels; electrical apparatus used as components of a private line test system for carrying out tests on systems for status monitoring, for controlling circuits and supplying information and diagnostics telemetry in a remote communication network system, particularly principal display terminals sold as a unit; electrical apparatus used as components of a private line test system for carrying out tests on systems for condition monitoring for controlling circuits and supplying information and diagnostics telemetry in a remote communication network system, particularly

principal display terminals; electrical apparatus used as components of a private line test system for carrying out tests on audio distribution amplifiers; electrical apparatus used as components of a private line test system for carrying out tests on loudspeaker monitors; electrical apparatus used as components of a private line test system for carrying out tests on serial loop access systems, for providing access to serial loop circuits comprising access panels to serial loops and control panels relating thereto, sold as a unit; switching panels (patching); components of apparatus for communication and communication devices, particularly terminal blocks, conference bridges, jack panels, jacks, transfer switches, coupling leads, plugs, reels for telephones, repeating reels, connector cables, solid state telegraphic relays; battery chargers, particularly battery chargers for aircraft and battery chargers for industrial and leisure vehicles; ammeters for direct current, transformers; private line test equipment for carrying out tests on communication systems comprising access modules, line selection modules, signal and/or composition modules, test modules and ohmmeters, sold as a unit, current sensors, magnetic amplifiers, diffusion filters, speed controllers for motors for controlling the speed of electric motors, power units for providing a power supply to electric apparatus, particularly computers; mechatronic systems, namely synergistic and systematic combinations of mechanics, electronics and computing in real-time, relays, automobile telecommunication devices, computing and industrial relays, electronic apparatus, electric apparatus, namely electric apparatus used in relation with the aerospace industry and the defence industry (except arms), with computing, electronics, electric tools, gardening tools, switches, fixed stations, network interface cards, cards for computers, systems for the distribution of electric power including rail transportation systems, network wiring for buildings, automobiles, transportation namely all kinds of water, air and land vehicles particularly aircraft, cars, trucks, boats, motor cycles, bicycles, telecommunications networks, industrial engines, lighting, machine tools and production control equipment, heating, ventilation and air-conditioning, components for security systems, instrumentation and medical equipment as well as in relation with devices for assisting mobility and medical diagnostic devices and railway devices; electrical terminals; splices, support sockets for chips; linear, digital, analogue, electronic, electric circuits; bridge circuits; integrated circuits; electric adapters, hybrid adapters; sensors, magnetic sensors, radar sensors, inductive sensors; gas sensors; wireless components and subsystems; antennas; aerial systems; audio- and video-receivers; GPS receivers; circuit boards; electric distribution boxes; multi-circuit electric bands; touch screens; tactile computers, interactive screens; monitors for computers; computer monitor bezels, computer network nodes, switches and routers; apparatus for computer networking;

apparatus for linking computers in networks, apparatus for protecting computers against electric power supply problems; electrical components intended for single use in computer wiring ducts, electrical components intended for a single use in supporting computer cables, emergency controls for computers; broadband data interconnection computer installations; electronic components for computers; fiber optic computer installations for use with computers; components of ("plug-in") connections for computer modems; electric processing equipment, namely connectors between wires and boards, boards and boards, cables and boards and cables and cables; inductors, high current inductors, cable wind indicators, electronic chokes, high current indicators, drum core indicators, shielded cable reel inductors, non shielded reel inductors, electric inductors; magnetic LAN protocol elements; magnetic modules; resistors; resistances, electric; commutators; switches, electric; chip cards; fiber optic products; electro-optical products; circuit board assemblies for multiple connectors; circuit board assembly interconnections for multiple connectors; attenuators; multiplexers; amplifiers; data communication systems; heat-shrink sheaths mainly for use with electrical cables, electrical wires and electrical conductors; filters being electrical components, electric line filters; signal filters, duplexers; capacitors; transformers; couplers; batteries; battery terminals; microwave connectors, cables, components and parts thereof, circuit mixers, frequency modulators; electrical signals converters; heat sinks for conducting heat away from electrical components; heat sinks intended for electronic apparatus; measuring devices; controllers; radio frequency identification tags for radio frequency identification (RFID), protective devices against short circuits; switches, electric; fuses; radar systems; components of radio frequencies (RF); cabinets for loudspeakers, switchboxes (electricity), distribution boxes (electricity), cabinets intended for computers; electrical and electronic components for identification and labelling; electronic and electric panels; fiber optic panels; radios; parts for radios; converters, electric; keyboards; video and monitor screens; touch responsive systems, namely touchscreens, touchscreen monitors, computer keyboards, touch responsive computers, electronic components for touch responsive technology, particularly micro controllers and electronic accessories, particularly magnetic bands or credit card readers, small display devices for frontal display, for use with touchscreens and touch responsive computers; electric sleeves, electric connectors, electric spacers, voltage surge protectors, electric equipment for applying voltage and grounding; link boxes; electric control cabinets; vibration indicators; electrical fuses, light-emitting diodes [LED]; telecommunication equipment, particularly connection blocks for cables for moving and insulating; electric protection devices (except for insulators) and against voltage surge for electric and electronic telecommunications systems and data

telecommunication systems; connectors, namely voltage surge protectors, fuses, diodes for fuses, thermo-protective switches and varistors; cable systems for telecommunication; power dividers (electric); optical dividers; residential wall and floor cabinets for cabled or optical links; computer equipment such as gateways, switches, bridges, routers, concentrators, repeaters and network adapters, equipment and components for use in data, text, video, audio and voice transfer or transmission by broadband, radio broadcasting, cable broadcasting, coaxial cable, copper wires, fiber optics, radio, telephone, twisted pairs, wire, wireless and other telecommunication technology; computer software for use in operation and management of telecommunications systems, in equipment and in communications on such systems; electric metal connectors and couplings, accessories for wiring for electric distribution networks, electric terminals and junctions, electric locking devices; lighting controllers; systems for cables for vehicles, wiring harnesses for vehicles; controls with LEDs; systems for electric cable harnesses and connectors; accessories namely, clamps being electrical connections, electrical terminals and crimp terminals for electricity conduits which distribute electricity; devices for managing cables, electric lines; acoustic products, namely surface waves, sonic and ultrasonic waves traveling on the surface of a screen, systems for recognizing audio impulses, audio microphones; electrical and electronic interfaces such as parts of the abovementioned goods; acoustic pick-ups, particularly audio microphones, micro controllers for tactile recognition of acoustic waves, software for tactile recognition of acoustic waves.

Class 17

Rubber, gutta-percha, gum, vinyl and products made of semi-processed plastics; packing, stopping and insulating materials; flexible tubes, not of metal; tubing, namely tubing and connection pieces not of metal for pipes, tubing of rubber, heat-shrink tubes, tubing for nuclear applications, sheaths for tubing; rubber products; electric insulating products and electric insulating materials; non-metallic tube fittings; casings for cables of plastic; insulating tape, tapes for cable links, tapes for securing cables, adhesive tapes (other than for household, medical or stationery use); insulating sealants, insulating tape and insulating sealing products, tapes for tying cables and for fitting cables (other than for household, medical or stationery use); films made of polyester; thermoretractable sheaths; shrinkable sheaths; adhesives other than for medical, stationery or household purposes; thermal devices as parts of the abovementioned goods, namely thermal ducting.

Class 37

Construction; repair, installation services; installation and repair of telecommunication networks; installation, maintenance and

repair of telecommunication apparatus; installation, maintenance and repair of telecommunication installations, communications networks, computer networks and data networks; wiring buildings for transmitting telecommunication, wiring for telecommunication; construction; installation, maintenance and repair; installation, maintenance and repair of electric systems and equipment; machinery installation, maintenance and repair; services involving maintenance and repair of technical products; installation and repair of telecommunications systems and equipment (computer hardware), computer hardware and computer peripherals; installation and repair of household infrastructure and equipment systems (computer hardware); consultancy on installing of data cable systems; repair, maintenance and installation consultancy services relating to the performance of data cable systems; consultancy on installing telecommunication systems and networks; all above-mentioned services particularly relating to products under guarantee.

Class 38

Telecommunications; services involving terrestrial, wireless and underwater communications; consultancy on telecommunication.

Class 04
Electrical energy.

Class 09
Electricity conduits; electric wiring systems; electricity distribution installations; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electric current; electric storage cells; apparatus for recharging electric storage cells; electric storage cells for vehicles; ignition batteries; high tension batteries; electric batteries; electricity terminals; material for electricity conduits (wires, cables); electricity meters; measuring, signaling, controlling and inspection apparatus and instruments particularly used in the electricity sector; fire alarms; smoke detectors; circuit breakers; electricity distribution boards; computer software (recorded programs) in relation to energy, downloadable computer software (computer programs) in relation to energy.

Class 11
Lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, air conditioning and water distributing apparatus and instruments; heat pumps; solar collectors for heating; solar sensors for heating.

Class 35
Business management and organization consultancy in relation to energy; business information or inquiries; document reproduction; computer file management; business management assistance; business management and organization consultancy; business management consultancy; business appraisals; business information particularly in relation to the energy, environmental protection and new energies sectors; cost-price analyses; services for the procurement of energy for third parties (purchasing energy for other businesses); sales promotion for third parties; economic forecasting in the energy sector; market research; market studies in the energy sector; business information and advice in connection with the production, supply and consumption of electrical energy, particularly conducting consumption price simulation; operation (business management) of power plants for energy supply; export agencies in the field of energy; commercial information agencies in the energy sector.

Class 37

Construction project management; repair, upkeep and maintenance (particularly via telecommunications networks) of electricity networks, electrical installations and energy production installations; construction engineering services; information on the building and installation of plumbing, heating, air-conditioning, steam-generating, drying, ventilating and sanitary apparatus.

Class 39

Water and electricity conveyance and distribution; energy fuel storage; energy supply for third parties (energy distribution); heat and energy distribution; rental of meters for the distribution of electricity.

Class 42

Engineering and technical research services in connection with the energy sector; industrial analysis and research services relating to energy; design, updating and installation of computer software in the energy sector; engineering services (expert appraisals); technical appraisals relating to energy; technical and engineering advice relating to energy distribution and heating installations; technical evaluations and estimates relating to energy consumption; technical services for remote reading of energy consumption meters; research and development of new products for third parties relating to the energy sector; drafting of construction plans particularly of electricity distribution networks; land surveying; expert appraisals (engineering); professional advice and consulting for the management of electricity, heat and energy distribution networks, namely technical consulting on the computer security of electricity, heat and energy distribution networks and technical appraisals of electricity, heat and energy distribution networks; technical consulting for energy savings; rental of computer software relating to the energy sectors via all types of communications networks; rental of computer software for checking energy meters via all types of communications networks; providing technical support, assistance and maintenance in relation to computer software in connection with the energy sectors; providing information on energy-related computer software, on the rental of energy-related computer software via all types of communication networks, on computer software rental for checking energy meters via all kinds of communication networks and on services for the technical support, assistance and maintenance of energy-related computer software.

Class 45

Monitoring of security systems of electricity, heat and energy distribution networks; electricity network security consultancy; services for the protection of electric installations particularly inside buildings and in public spaces so as to protect buildings, properties and individuals.

Pfeiffer Vacuum

Class 04

Industrial oils, namely mineral oils, silicone oils; lubricants.

Class 06

Metal flanges, especially for the connection of vacuum components; metal conduits for liquids and gases; metal conduits as vacuum-tight and non-vacuum-tight feedthroughs for liquids and gases.

Class 07

Vacuum pumps including gas-transfer vacuum pumps, positive displacement pumps, oscillation displacement vacuum pumps, diaphragm vacuum pumps, piston vacuum pumps, rotary displacement vacuum pumps, rotary vane vacuum pumps, rotary plunger pumps, roots vacuum pumps, kinetic vacuum pumps; mechanical kinetic vacuum pumps, turbopumps, molecular vacuum pumps, turbomolecular vacuum pumps; jet pumps, diffusion vacuum pumps; gas-binding vacuum pumps, adsorption vacuum pumps, getter vacuum pumps, cryo vacuum pumps, condensers as machine parts; vacuum pumping stations, comprising multiple vacuum pumps of the type mentioned above; valves, connectors, separators, filters, the preceding goods as machine parts; manipulators, especially for the mechanical movement of components within a chamber moved from the outside; mechanical manipulators in which a motion from outside the chamber results in a motion inside the chamber; vacuum chambers as machine parts; vacuum chambers as machine parts for installation in a process technology or to accommodate process technology; sight glass fittings as parts of machines; vacuum chambers with integrated view ports as machine parts.

Class 09

Measuring, regulating, controlling and monitoring devices, vacuum measuring instruments; laboratory devices with vacuum chambers for experimenting, etching, coating applications under a vacuum; monitoring devices, namely leak detectors, helium leak detectors for identifying leaks in vacuum tanks and in air-tight containers, leak detection instruments and the leak detection systems consisting thereof; power lines; sight glass fittings as monitoring and measuring instruments.

Class 19

Non-metallic conduits for liquids and gases; non-metallic conduits

as vacuum-tight and non-vacuum-tight feedthroughs for liquids and gases.

Class 35

Sales promotions for third parties; arranging contracts for third parties for the buying and selling of goods and the provision of services.

Class 37

Repair, maintenance and servicing (overhaul) of vacuum technology machines and devices.

Class 41
