Information Contained in This Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

GENERAL INFORMATION**Trade Marks Journal**

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules.

It is published weekly on Fridays and on other days when necessary, upon giving notice by way of circulars found on our website.

Requests for past issues of journals published more than three months ago may be made at <http://bit.ly/paymentipos> and is chargeable at \$12 per issue.

Instructions on payment will be provided to you via email within 7 working days after we receive your online request. Payment shall be made via IP²SG's payment platform. Acceptable modes of payment include Internet Banking, Visa/Master credit and debit cards and GIRO.

The journal(s) will be reproduced in CD-ROM and we will arrange an appointment with you to collect the CD-ROM at the following address:

Address:	Intellectual Property Office of Singapore 1 Paya Lebar Link, #11-03 PLQ 1, Paya Lebar Quarter Singapore 408533
Business Hours:	Monday to Friday: 8:30am to 5:30pm Saturday, Sunday and Public Holiday: CLOSED

REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

machines, data processing equipment and computers; computer software;
computer programs; computer software in the form of an application for
mobile devices and computers; software applications for use with mobile
devices; software for processing electronic payments to and from others;
computer software and software applications used in relation to financial
services, financial transactions, electronic commerce, electronic payments,
foreign currency exchange, trading and brokerage services and investment
advisory services; authentication software; computer software and
computer software applications (downloadable); instant messaging
software; file sharing software; communications software for electronically
exchanging data, audio, video, images and graphics via computer, mobile,
wireless, and telecommunication networks; computer software for
processing images, graphics, audio, video, and text; downloadable
computer software to facilitate the electronic transmission of information,
data, documents, voice, and images over the Internet; downloadable
computer software which allows users to participate in web-based meetings
and classes, with access to data, documents, images and software

applications through a web browser; downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable cloud-computing software; downloadable cloud-based software; computer software for tracking and evaluating customer and personal behaviour in relation to purchasing decisions; computer software application for use in relation to environmental conservation, climate change and carbon offsetting; online electronic publications (downloadable from the Internet or a computer network or a computer database); downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, information materials, instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; computer peripherals; notebook computers; laptop computers; portable computers; handheld computers; personal digital assistants; personal media players; mobile telephones; smart phones; digital cameras; batteries, battery chargers; computer workstations; computer servers; computer and telecommunications networking hardware; computer network adaptors, switches, routers and hubs; wireless and wired modems and communication cards and devices; laptop holders, computer bags; fire-extinguishing apparatus; computer hardware and firmware; automobile navigation system; compact discs; digital music (downloadable from the Internet); telecommunications apparatus; mouse mats; mobile phone handsets; mobile phone accessories; downloadable games, pictures, motion pictures, movies and music; alarm systems; security cameras; mobile radio and television broadcasting units; television broadcasting equipment; cameras; video cameras; headphones; earphones; speakers; Global Positioning System (GPS) apparatus and equipment; computer, electronic and video games programmes and software (including software downloadable from the Internet); liquid crystal displays for telecommunications and electronic equipment; set top box; remote control; data storage programs; spectacles and sunglasses; electronic signboards; encoded or magnetic bank credit, debit, cash, charge, telephone and identification cards; automatic teller machines, cash dispensers; electronic book readers; toner cartridges, unfilled, for printers and photocopiers; baby monitors; video baby monitors; lens hoods; tablet computers; encoded key cards; 3D spectacles; memory cards for video game machines; wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices; wearable computers, smartphones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices, all for facilitating payment transactions by electronic means and to allow customers to access financial and bank account information and to transact bank business; wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices, all capable of providing access to wireless communications networks, telecommunications networks and the Internet; downloadable mobile applications for use with wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices; computer application software for use with wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices, all capable of providing access to wireless communications networks, telecommunications networks and the Internet; downloadable mobile applications for use with wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices, all capable of providing access to wireless communications networks, telecommunications networks and the Internet.

media players and digital electronic communication devices; encoded or magnetic pre-paid payment, bank, credit, debit, cash and identification cards.

Class 36

Insurance; financial affairs; monetary affairs; real estate affairs; clearing and reconciling financial transactions via a global computer network; online banking services and financial services; credit card services, processing of bill payments, and providing insurance for financial transactions; funds transfer services; transfer of funds by electronic means for others; transfer of payments for others via the internet; financial services in the nature of bill payment services and payment processing services; arrangement and management of leases and tenancy of real estate; renting and leasing of real estate; real estate appraisal; real estate valuation, real estate financing, real estate investment; real estate brokerage services; real estate agency services; housing agency services; actuarial services; real estate management and consultancy services; rent collection; rental of offices (real estate); rental of apartments and flats; provision of financial information via the Internet; safety deposit and issuing of travel vouchers services; capital investments; financial evaluation [insurance, banking, real estate]; financial and asset management services; insurance and financial services; financial services provided by telecommunication means; financial consultancy and advisory services; online banking; banking services provided on-line from a computer databases or the Internet; securities brokerage services, stock exchange quotation services; stocks and bonds brokerage, financial analysis; debit card services, charge card services and cheque guarantee services; banking, savings account and investment services; financial clearing services; credit verification via global computer information network; electronic credit risk management services; electronic purchase payment and electronic bill payment services; financial accounts debiting and crediting services; electronic banking services; issuance of stored value cards, charge cards and debit cards; telephone credit cards services; information services relating to finance and insurance, provided online from a computer database or Internet; agency for collection of gas and electricity fees; antique appraisal; art appraisal; jewellery appraisal; used car appraisal; tax information supply (financial services); charitable fund raising; organizing of charitable collections; charitable collections; rental of paper money and coin counting or processing machines; rental of cash dispensers or automated-teller machines; online payment services; arranging finance for construction projects; issuing of vouchers; provision of electronic funds transfer services; monetary exchange services, cash dispensing services, provision of prepaid cards and tokens, money transfer services; including all of the aforementioned services provided by electronic means; consultancy, information and advisory services relating to the electronic transfer of funds; foreign currency transfer services; foreign currency exchange; currency trading; currency dealing; brokerage of currency; financial transactions via blockchain; provision of charitable fundraising services in relation to carbon offsetting; brokerage of carbon offsets; financial sponsorship of carbon offset programmes; funding of and investment in emissions reduction projects; investment in carbon offset programmes and projects; investment in emissions reduction funds; provision of loans; providing temporary loans; consultancy, information and advisory services relating to the aforesaid services.

Class 42

Scientific and technological services and research and design relating thereto, industrial analysis and research services; design and development of computer hardware and software; software as a service (SaaS); blockchain as a service (BaaS); encryption, decryption and authentication

of information, messages and data; providing user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; data security services; IT security, protection and restoration; computer security threat analysis for protecting data; provision of security services for computer networks, computer access and computerised transactions; certification (quality control) of data via blockchain; data authentication via blockchain; including all of the aforementioned services for use in connection with payment systems; computer services in connection with transmitting information, data, documents, and images over the Internet; application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services providing software in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; technical support services relating to computer software and applications provided online, by email and by telephone; computer services, namely, creating an online community in the form of a website for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; computer technology advice provided to Internet users by means of a support hotline; computer service relating to creating indexes of information, sites and resources on computer networks; providing search engines; design of computers, notebook computers, laptop computers, portable computers and handheld computers; design of personal digital assistants and personal media players; design of mobile telephones and smart phones; design of digital cameras; computer services; computer programming; computer integration services; computer analysis services; computer programming in relation to the defence against virus; computer system software services; computer software design; computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for searching and retrieving information from databases and computer networks; providing technical information at the specific request of end-users by means of telephone or global computer network; consultancy services in relation to computer software; computer services relating to customized searching of computer databases and websites; computer and electronic signal coding and decoding; conversion of physical data and documents into electronic media format; product testing and evaluation services; architectural and design services; interior designs of buildings, offices and apartments; computer information services; network information services, namely, providing technical information relating to computers and networks in the field of business and e-commerce; provision of computer security risk management programs; computer security information, knowledge, and testing services; quality assurance services; computer services relating to certification of business transactions and preparation of reports therefor; access control to (security services for-) computers, electronic networks and databases; security of data transmission services and of transactions via computer networks services; consultancy in the field of data security; technological consultancy concerning securing telecommunications; computerized communication network security services; providing information in the fields of Internet, world wide web and computerized communication network security and the secure transmission of data and information; consulting services in the fields of Internet, world wide web and computerized communication network security services, information security services; authentication services for computer security; online authentication of electronic signatures; off-site data backup; electronic data

storage; providing information on computer technology and programming via a web site; cartography services; cloud computing; cloud hosting provider services; providing temporary use of non-downloadable cloud-based software and cloud computing software; electronic storage of data; providing virtual computer systems and virtual computer environments through cloud computing; rental of entertainment software; technical research in the field of carbon offsetting; provision of information, advice and consultancy in relation to carbon offsetting and environmental protection; providing technological information about environmentally-conscious and green innovations; environmental testing, assessment and monitoring services; research in the fields of environmental protection and conservation; research and provision of scientific information in the field of climate change; scientific and industrial consultation services relating to fuels, fuel and carbon dioxide emissions and environmental issues; scientific and technological services relating to recommendation of courses of action to reduce carbon dioxide emission in a cost effective manner; scientific and technological services relating to management of carbon offset programmes; environmental research, management and protection services; consultancy, information and advisory services relating to the aforesaid services.

Class 01

Chemicals used in industry, mining; chemicals for use in the production and/or treatment of metals; dry ash; floating fly ash; bauxite; dolomite for industrial purposes; alumina; chemicals and minerals such as, aluminium, alumina, bauxite, magnesium; industrial minerals; cobalt chemicals; cobalt acetate; cobalt chloride; cobalt zirconate; cobalt oxide for industrial

purposes; cobalt oxide for industrial use; cobalt hydroxide; cobalt carbonate; copper chemicals; copper carbonate; copper phosphates; copper sulphate; copper sulfate; manganese acetate; manganese alum; manganese carbonate; manganese chloride; manganese dioxide; manganese dioxide catalysts; manganese fertilisers; manganese metaphosphate; manganese nitrate; manganese phosphate.

Class 04

Fuels; light oil; coal; thermal coal; long flame coal; semi coke; industrial oils and greases; mineral fuel; biofuels; kerosene; diesel oil; fuel oil; fuel gas; natural and synthetic fuel gases; gasoline; raw and refined petroleum; crude oil; crude oil products derived from the refining of crude; coal and carbonaceous fuels for power generation use; coke; coal tar oil; electrical energy; industrial lubricants; petroleum (raw and refined).

Class 06

Common metals and their alloys; metal ores, including crude or processed ores; iron ores; chrome ores; cobalt, raw; cobalt [metal]; cobalt concentrates being metal ores; copper, unwrought or semi-wrought; copper concentrate being metal ores; manganese concentrate being metal ores; iron, unwrought or semi-wrought and its ferroalloys, including ferrochrome, ferrosilicon, ferrosilicon chrome and silicomanganese; aluminum and its alloys, including liquid aluminum; metal building materials; metal hardware; metals in powder form; scrap metals (ferrous and non-ferrous); materials of metal for railway tracks; nonelectric cables and wires of common metal; zinc; lead; steel; nickel; chromium.

Class 14

Precious metals and their alloys in particular gold, unwrought or beaten, platinum [metal] and other precious metals; precious and semi-precious stones; palladium; rhodium; silver; ruthenium; iridium; osmium; diamonds.

Class 37

Construction, repair and maintenance services, in particular of industrial facilities, transport vehicles and constructions; repair and maintenance of railcars and locomotives; extraction of natural resources; mining services; mining; oil-field exploitation; mine exploitation; oil extraction; gas extraction; drilling of wells; drilling of deep oil or gas-wells; demolition services; construction of railways; construction of roads; gas exploitation; information, consultancy and advisory services relating to the aforesaid services.

Class 39

Transport; railway transport; water vessel transport; car transport; transportation of passengers by bus or cars; freight (shipping of goods); collection, removal, storage, handling and delivery of goods; transport and distribution of electricity; transport and distribution of heating; packaging and storage of goods; ship brokerage; transport brokerage; freight and cargo transportation; unloading cargo; collection of goods; consignment services; delivery of goods; distribution of goods [transportation]; information, consultancy and advisory services relating to the aforesaid services.

Class 40

Production and generation of electricity; production and generation of heating; treatment of materials; treatment of ores and of common metals and their alloys; treatment of metals, including upgrading and refinement; refining services; custom manufacture and assembly services; energy

production; treatment and transformation of materials; processing of ferroalloys, ferrochrome, manganese, chrome ore, iron ore, limestone, dolomite and construction gravel, alumina, aluminum, bauxite, copper, cobalt, coal, platinum, fluorspar, coke, semi-coke; forging of ferroalloys, ferrochrome, manganese, chrome ore, iron ore, limestone, dolomite and construction gravel, to the order and specification of others; processing of metallic materials extracted from minerals; information, consultancy and advisory services relating to the aforesaid services.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services in particular in relation to production technologies, including material testing, quality control, technical project studies, engineering work; geophysical exploration for the mining industry; mining services, namely, mining exploration; analysis for oil-field exploitation; oil prospecting; oil exploration; oil field exploration; underwater exploration; analysis for oil-field exploration; geological research; ore and metals prospecting; land surveying; analysis, testing and research services associated with oil fields, oil workings, gas and oil installations, power stations, mines, steel mills, aluminum smelters, copper smelters and nickel smelters, including providing the services of analysis, testing and research laboratories in the aforementioned fields; research in the field of treatment of materials, mining, oil exploration, gas exploration, processing of ores and metals, treatment of ores and metals, processing of petroleum, treatment of petroleum, processing of coal, treatment of coal, processing of industrial oils, treatment of industrial oils, processing of crude oil, treatment of crude oil, processing of metal alloys, treatment of metal alloys, processing of chemicals and treatment of chemicals; engineering consulting in the field of treatment of materials, mining, oil exploration, gas exploration, processing of ores and metals, treatment of ores and metals, processing of petroleum, treatment of petroleum, processing of coal, treatment of coal, processing of industrial oils, treatment of industrial oils, processing of crude oil, treatment of crude oil, processing of metal alloys, treatment of metal alloys, processing of chemicals and treatment of chemicals; technical project studies in the field of treatment of materials, mining, oil exploration, gas exploration, processing of ores and metals, treatment of ores and metals, processing of petroleum, treatment of petroleum, processing of coal, treatment of coal, processing of industrial oils, treatment of industrial oils, processing of crude oil, treatment of crude oil, processing of metal alloys, treatment of metal alloys, processing of chemicals and treatment of chemicals; technical research in the field of treatment of materials, mining, oil exploration, gas exploration, processing of ores and metals, treatment of ores and metals, processing of petroleum, treatment of petroleum, processing of coal, treatment of coal, processing of industrial oils, treatment of industrial oils, processing of crude oil, treatment of crude oil, processing of metal alloys, treatment of metal alloys, processing of chemicals and treatment of chemicals; information, consultancy and advisory services relating to the aforesaid services.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

40201906852W (09 10 24 35 41 42 44)
(International Registration No. 1416397)

Date of International Registration: 15/03/2018

Date of Protection in Singapore: 16/01/2019

Date of Notification: 28/03/2019

Class 09

Recorded content; computer programmes for data processing; computer software; downloadable publications in the field of genetics; computer software for recording, analysis, storage, manipulation and organization of genetic and molecular data; computer software for providing access to multiple databases that contain aggregated results of genotyping; downloadable publications in the fields of genetic testing, genotyping technologies, genetic screening, phenotyping, molecular analytics, and ancestry; information technology and audio-visual, multimedia and photographic devices; scientific research and laboratory apparatus, educational apparatus and simulators; apparatus, instruments and cables for electricity; magnets, magnetizers and demagnetizers; measuring, detecting and monitoring instruments, indicators and controllers; navigation, guidance, tracking, targeting and map making devices; optical devices, enhancers and correctors; safety, security, protection and signalling devices; diving equipment; scientific and laboratory devices for treatment using electricity; mobile apps; phonograph records; dvds; compact discs; digital recording media; mechanisms for coin-operated apparatus; cash registers; calculators; fire-extinguishing apparatus; sound transmitting apparatus; apparatus for the transmission of images.

Raw and unprocessed grains; raw and unprocessed seeds; fresh fruits, nuts, vegetables and herbs; natural plants; flowers; onions; seedlings; animal foodstuffs; beverages for pets; bird food; live animals; malt.

Class 32

Beer; soft drinks; kvass [non-alcoholic beverage]; mineral water [beverages]; aerated water; non-alcoholic beverages; fruit drinks; juices; fruit juice concentrates; syrups for making non-alcoholic beverages.

Class 33

Alcoholic beverages (except beer); alcoholic preparations for making beverages; spirits and liquors; brandy; aperitifs.

Class 35

Business analysis, research and information services; business assistance, management and administrative services; cost price analysis regarding waste disposal, removal, handling and recycling; consultancy services relating to the procurement of goods and services; goods or services price quotations; providing consumer information relating to goods and services; commercial information and advice for consumers [consumer advice shop]; business administration; clerical services; advertising, marketing and promotional services; advertising, marketing and promotional consultancy, advisory and assistance services; marketing studies; market analysis; collection and systematization of business data; business consultancy and advisory services; professional business consultancy; auctioneering services; provision of an on-line marketplace for buyers and sellers of goods and services; business management of wholesale and retail outlets; public relations services; product demonstrations and product display services; trade show and commercial exhibition services; loyalty, incentive and bonus program services; retail services in relation to disposable paper products; retail services in relation to clothing; retail services in relation to furniture; retail services connected with stationery; retail services relating to food; retail store services in the field of clothing; retail services in relation to computer hardware; retail services in relation to computer software; retail services in relation to cleaning articles; retail services in relation to sporting equipment; retail services in relation to fabrics; retail services in relation to headgear; retail services in relation to foodstuffs; retail services in relation to printed matter; retail services in relation to footwear; retail services in relation to bags; retail services in relation to sporting articles; retail services in relation to construction equipment; retail services in relation to building materials; retail services in relation to clothing accessories; retail services in relation to gardening products; retail services in relation to wearable computers; retail services relating to horticultural equipment; retail services in relation to horticulture products; retail services in relation to recorded content; retail services in relation to information technology equipment; wholesale services in relation to disposable paper products; wholesale services in relation to clothing; business management of wholesale outlets; wholesale services in relation to furniture; wholesale services in relation to stationery supplies; wholesale services in relation to foodstuffs; wholesale services in relation to computer hardware; wholesale services in relation to computer software; wholesale services in relation to cleaning articles; wholesale services in relation to sporting equipment; wholesale services in relation to fabrics; wholesale services in relation to headgear; wholesale services in relation to printed matter; wholesale services in relation to footwear; wholesale services in relation to bags; wholesale services in relation to sporting articles; wholesale services in relation to construction equipment; wholesale services in relation to horticulture equipment; wholesale services in relation to horticulture products; wholesale services in relation to information technology equipment; compilation of environmental information.

Class 37

Trash collection [refuse clean-up]; repair of transport containers; repair information; repair of ironmongery; maintenance and repair of storage tanks; repair of industrial waste treatment machines; repair of machines for treating organic waste; repair or maintenance of waste crushing machines and apparatus; repair or maintenance of loading-unloading machines and apparatus; repair and maintenance of containers, and transportation and packaging articles, of metal; repair and maintenance of waste bins [skips] of metal for industrial use; repair and maintenance of refuse skips of metal; repair and maintenance of waste paper bins of metal for industrial use; repair and maintenance of storage pallets of metal; repair and maintenance of structures and transportable buildings of metal;

repair and maintenance of metal pallets; repair and maintenance of containers, and closures and holders therefor, non-metallic; repair and maintenance of crates and pallets, non-metallic; repair and maintenance of mobile pallets made of non-metallic materials; construction services; building, construction and demolition; rental of tools, plant and equipment for construction, demolition, cleaning and maintenance; extraction of natural resources; extermination, disinfection and pest control; furniture maintenance and repair; lift and elevator installation, maintenance and repair; cleaning and care of fabric, textile, leather, fur and goods made thereof; providing information relating to the repair or maintenance of waste crushing machines and apparatus; waste removal [cleaning]; repair or maintenance of waste compacting machines and apparatus; installation of solar powered systems; maintenance and repair of solar power installations; installation of wind power systems; repair services for electric generators and wind turbines; electric appliance installation and repair; repair of electrical equipment and electrotechnical installations; repair of biogas plants and machines.

Class 39

Transport; packaging and storage of goods; storage of goods; storage of waste; transportation of waste; waste disposal [transportation]; removal of waste (transportation); hire of waste storage containers; collection of commercial waste; collection and transport of electronic scrap; tracking and tracing of shipments; paper and cardboard collection for recycling; information services relating to methods of transport; consultancy services relating to transportation; services for the arranging of transportation; dumping [transportation] of waste; transport and storage of waste; bulk storage; transportation and storage; hire of pallet cages; providing information relating to warehousing services; providing information relating to the rental of warehouse space; transportation information; storage information; navigation services; transportation and delivery of goods; rental of means of transportation; rescue, recovery, towing and salvage services; filling of machines and containers; loading and unloading of vehicles; rental of recycling containers; refuse collection services; collection of containers for waste materials; vehicle parking and storage; arranging of transportation for travel tours.

Class 40

Recycling and waste treatment; treatment and recycling of packaging; textile, leather and fur treatment; consultancy relating to the recycling of waste and trash; providing information relating to the recycling of waste; waste management services [recycling]; information, advice and consultancy services relating to the recycling of waste and trash; recycling services; sorting of waste and recyclable material; recycling of waste and trash; destruction of waste and trash; incineration of waste and trash; consultancy relating to the incineration of waste and trash; consultancy relating to the destruction of waste and trash; sorting of waste and recyclable material [transformation]; treatment of waste; treatment [reclamation] of material from waste; waste treatment [transformation]; treatment [recycling] of waste; recycling of valuable materials; air and water conditioning and purification; food and beverage treatment; energy production; printing, and photographic and cinematographic development; duplication of audio and video recordings; treatment of waste materials in the field of environmental pollution control; treatment of waste materials; treatment [reclamation] of industrial waste; providing information relating to the rental of waste crushing machines and apparatus; providing information relating to the rental of waste compacting machines and apparatus; recycling of plastics; recycling of

paper; reclamation of material from waste; rental of waste compacting machines and apparatus; destruction of trash; recycling of clothing.

Class 41

Teaching; academic mentoring of school age children; training; development of educational courses and examinations; consultancy services relating to the development of training courses; provision of training courses; exercise instruction; entertainment services; sporting and cultural activities; coaching services for sporting activities; provision of educational entertainment services for children in after school centers; cultural services.

Class 42

Scientific and technological services; industrial analysis and research services; technological research; scientific services and design relating thereto; technological services and design relating thereto; scientific research; industrial analysis services; industrial research; software design and development; design and development of computer hardware; research relating to waste analysis; design of equipment for the transportation of waste; environmental monitoring of waste treatment areas; design and development of regenerative energy generation systems; technological consultancy; design and development of engineering products; development of industrial machinery; engineering services in the field of environmental technology; engineering services in the field of building technology; engineering services relating to robotics; design of storage systems; programming of software for inventory management; energy auditing; providing technical advice relating to energy-saving measures; engineering services in the field of energy technology; research in the field of energy; designing of packaging and wrapping materials; provision of information, advice and consultancy in relation to carbon offsetting; research in the field of environmental protection; environmental testing and inspection services; technical consultancy in the field of environmental science; design services relating to plant for the biotechnology industry; research in the field of ecology; biological development services; IT programming services; hosting services, software as a service, and rental of software; Scientific services relating to natural sciences.

Class 44

Medical services; animal healthcare services; human hygiene and beauty care; hygienic and beauty care for animals; agriculture, horticulture and forestry services; farming (crops); tree planting for carbon offsetting purposes; providing online information about agriculture, horticulture, and forestry services; advisory and consultancy services relating to the use of non-chemical treatments for sustainable agriculture and horticulture.

Class 09

Downloadable computer software for cybersecurity, detecting and mitigating network attacks using artificial intelligence, machine learning

and/or deep learning; downloadable computer software for continuous monitoring, identifying, verifying, analyzing, comparing, classifying, sorting and scoring of collected or acquired data from network traffic, network communication, network flow data, and network intercommunication using artificial intelligence, machine learning and/or deep learning; downloadable computer software for providing initiation, distribution, delivery and response tracking of emergency notifications to users via personal communication devices and public mass communication devices; downloadable computer software for supporting exchange of information and collaboration processes amongst organizations and people during emergency and crisis situations; downloadable computer software for the purposes of data collection, monitoring, and mass notification services for managing emergency, and crisis and business critical situations and improving crisis communications capability; downloadable computer software for the secure transmission of mass notification emergency information via audio, video and electronic communications networks and devices, including social networks; downloadable computer software for managing and analyzing data feeds and data inputs in the field of crisis reporting, communication and management, and for sending notifications through multiple IP network channels and delivery services; downloadable computer software for loading data from personnel directories, and managing users for purpose of crisis communication; downloadable computer software for managing organization directories and connections across organizations for the purpose of connecting them and facilitating collaboration before, during and after crisis situations; downloadable computer software for locating personnel for security and safety purposes using a global positioning system, user self-reporting, and other locating means; downloadable computer software for electronically monitoring, detecting and reporting on alarms, alerts, emergencies, hazards, security threats, and dangerous weather; downloadable computer software for notifying individuals and organizations of a changed status or condition of a sensing device or input feed via network based message alerts; downloadable software in the nature of a mobile application for sending, receiving, confirming and responding to alerts, messages, and notifications via wireless communications networks or the Internet; downloadable computer software in the nature of desktop software applications for providing desktop notifications that capture the user's attention with audio-visual signals and allow users to confirm, respond to notifications or receive additional information related to notifications; downloadable computer software for use in threat prevention, detection, investigation, response, remediation and analysis for computers, computer systems, servers, computer networks, endpoints, mobile devices, enterprise of things (EOT) and internet of things (IoT) enabled devices; computer software for managing computer network endpoint security and predicting and monitoring security threats to computer networks; downloadable computer operating system programs; downloadable computer software for performing data security functions in the field of cryptographic network security; downloadable computer software for automating a process for authentication of identity using existing databases in connection with the issuance and management of digital certificates used for authentication or encryption of digital communications over the Internet and other computer networks; downloadable computer software, namely, encryption software to enable secure transmission of digital information; downloadable computer software to integrate managed security, namely, virtual private network (VPN), public key infrastructure (PKI), digital certificate issuance, verification and management; cloud computing software; downloadable Internet of things (IOT) management software platform consisting of downloadable cloud-based software, mobile and desktop applications, and premise-based gateway agent software; downloadable computer software for use in managing device-to-device, device-to-cloud and cloud-to-device

communications; downloadable computer software for machine-to-machine (M2M) communication, remote data collection and process control; downloadable computer software for asset tracking; downloadable computer software to track and manage IP-enabled machines and other connected devices; downloadable software Development Kits (SDKs), Application Programming Interface (API) software, and Enterprise Application Integration (EAI) software for creating software and applications related to machine to machine (M2M) devices, network and Internet connected devices, and IOT devices; downloadable computer software for sending, receiving and analyzing data from network and Internet-connected devices; downloadable computer software, namely, software and middleware used to allow software applications to interface with mobile and remote devices and to allow connectivity, memory storage, and device management, all via a computer network; downloadable computer software and hardware for fleet asset tracking in the transportation industry; downloadable computer software and hardware for tracking and managing IP-enabled machines; downloadable computer software and hardware to collect, filter and process electronic data, namely, audio, voice, video, images, text, electronic mail and messaging, documents, and vehicle and driver telematics and analytics concerning driver behavior, vehicle diagnostics, maintenance, performance, location, and downtime; downloadable computer software systems for use in dispatch, video monitoring, driver compliance, driver performance, driver scorecards, document management, trailer tracking, asset tracking, vehicle tracking, telematics, fuel economy tracking, driver workflow, integrations with third party software, vehicle utilization, temperature tracking, vehicle inspection reports; mobile phones, smart phones, tablet computers and wireless communication devices for voice, data, or image transmission; accessories for mobile phones, smart phones, tablet computers and wireless communication devices, namely, headsets and earphones, phone chargers, battery chargers, mounts, cradles and holders for hands-free phone use, charging and docking stations, cell phone and tablet computer protective cases, protective covers and cases for handheld electronic devices, cell phone holsters, and speakers; downloadable computer software for mobile phones, portable media players, and handheld computers, namely, software for sending digital photos, videos, images, and text to others via the global computer network; downloadable computer software in the fields of Mobile Device Management (MDM), Mobile Applications Management (MAM), Mobile Security Management (MSM), Mobile Information Management (MIM), and mobile Identity and Access Management (IAM); downloadable computer software to allow network administrators to monitor, manage, and quarantine devices that are granted access to a network.

Class 38

Providing secure mass notification services through all communication devices, telephones, tablets, smartphones, email, text messaging, and instant messaging; providing electronic transmission of data and digital messaging via mobile handheld devices and via wired and wireless communication devices before, during and after critical situations; telecommunications services that enable users and organizations to electronically transmit messages, text, multimedia content, videos, audio, animation and images via a global computer network before, during and after critical situations; providing multiple user access to interactive databases through web sites on a global computer network to manage, administrate and use crisis communication capabilities; providing electronic transmission of converged data, address location information, text, pictures, and streaming media, all for use in crisis communications; providing telecommunication connectivity services for transfer of messages, audio, visual, and data information for crisis communications; secure electronic messaging services, namely, providing services to access,

and transmit critical, time-sensitive notifications to individuals and organizations; telecommunication services, namely, data transmission and reception services via telecommunications networks; electronic exchange of voice, data, audio, video, text and graphics accessible via computer and telecommunications networks; instant messaging services; providing electronic transmission of secure message alerts via the Internet, global computer and telecommunications networks.

Class 42

Providing temporary use of non-downloadable computer software for measuring, assessing, identifying, detecting, analyzing, preventing, and responding to cybersecurity threats, attacks, risks, and vulnerabilities; providing temporary use of non-downloadable software for artificial intelligence, analytics-based machine learning, and deep learning software, all for the purpose of measuring, detecting, analyzing, preventing and responding to cybersecurity attacks; design and development of crisis communication systems comprised of computer hardware and software; engineering and systems analysis in the field of crisis communication systems; computer services, namely, providing online computer system management services that allow users to remotely view, monitor, program, operate and control crisis communication systems; research in the field of crisis communication technology; testing of crisis communication systems comprised of computer software and hardware; cloud computing featuring software for providing crisis communication through multiple IP network channels and delivery services; computer services, namely, integration of private and public cloud computing environments for crisis communication; computer services, namely, cloud hosting provider services for crisis communication; computer services, namely, installation of computer software for private cloud computing for crisis communication; consulting services in the field of cloud computing for crisis communication; computer services, namely, creating an online community in the form of a website for registered users to participate in discussions, get feedback from their peers, form virtual communities, invite other organizations to the community and engage collaboration in the field of security and crisis communication and management; providing temporary use of online non-downloadable software featuring software for use in sending, receiving, confirming and responding to alerts, messages, and notifications in the field of crisis communication and management; providing temporary use of online non-downloadable software featuring software for use in sending, receiving, confirming and responding to alerts, messages, and notifications in the field of crisis communication and management; providing temporary use of online non-downloadable software, namely, hosting software for use by others for use in sending, receiving, confirming and responding to alerts, messages, and notifications in the field of crisis communication and management; providing online non-downloadable computer software for the purposes of data collection, monitoring, and mass notification services for managing emergency and crisis situations and improving crisis communications capability; providing temporary use of on-line non-downloadable computer software for endpoint security, malware analysis, vulnerability testing, penetration testing, and vulnerability assessment; providing temporary use of online non-downloadable computer software for endpoint security, malware analysis, vulnerability testing, penetration testing, and vulnerability assessment; providing temporary use of online non-downloadable software for use in threat prevention, detection, investigation, response, remediation and analysis for computers, computer systems, servers, computer networks, endpoints, mobile devices, and internet of things (IoT) enabled devices; providing temporary use of online non-downloadable software for predicting and monitoring security threats to computer networks; providing temporary use of online non-downloadable software for

preventing unauthorized access to computers and computer networks; providing temporary use of online non-downloadable software for data analytics; design, development and maintenance of online computer software systems and software for operation and control of autonomous-driving vehicles; providing temporary use of online non-downloadable software for operation and control of autonomous-driving vehicles; providing temporary use of non-downloadable software applications and software development tools and platform as a services (PAAS) featuring computer software platforms that enable software developers to program and users to build and configure software applications that work in conjunction with such non-downloadable software applications and platforms to transfer, share, format, manipulate and integrate data, information and such developer software applications working in conjunction with and between such non-downloadable software applications and platforms and third party services; providing temporary use of online non-downloadable software featuring computer software in the field of electronic file security to allow users to encrypt, electronically watermark, provide restricted access to, and provide secure transmission and tracking of electronic documents and other electronic and digital files; platform as a services (PAAS) featuring computer software platforms for creating, managing, and deploying cloud computing infrastructure services; design and development of on-line computer software systems, computer hardware and computer software; technical support services, namely, installation, administration, and troubleshooting of web and database applications; providing machine-to-machine (M2M) and Internet of Things (IoT) communication integration services, namely, the integration of disparate computer systems, networks, hardware and software through the application of wireless communication, artificial intelligence, machine learning and/or deep learning technology to facilitate M2M and IoT communication via web based browsers, personal digital assistants, mobile phones, embedded microprocessors, sensors and other electronic devices; providing temporary use of online non-downloadable software applications, software developer kits (SDKs) and software development tools, and platform as a service (PAAS) featuring computer development platforms that enable software developers to design, test, deploy, manage, and monitor internet of things (IoT) and machine-to-machine (m2m) devices; computer software services, namely, development, maintenance, repair, installation, and troubleshooting of computer software problems, support in the nature of diagnosing computer software problems, upgrade and updating computer software, authoring computer software, provision of computer software information, and consultation, design and customization of computer software and middleware; computer security consultancy; technical consulting and assistance with computer machine (m2m) devices; computer software services, namely, development, maintenance, repair, installation, and troubleshooting of computer software problems, support in the nature of diagnosing computer software problems, upgrade and updating computer software, authoring computer software, provision of computer software information, and consultation, design and customization of computer software and middleware; computer security consultancy; technical consulting and assistance with computer-based information systems and components, namely, technical consulting services in the fields of Mobile Device Management (MDM), Mobile Applications Management (MAM), Mobile Security Management (MSM), Mobile Information Management (MIM), mobile Identity and Access Management (IAM), datacenter architecture, public and private cloud computing solutions, cybersecurity, and evaluation and implementation of internet technology and services; Software-as-a-service (SAAS) in the nature of a secure web hosting platform for allowing users and enterprise software applications to interface with remote devices and to allow connectivity, memory storage, device management, device monitoring,

device tracking, and device auditing via a computer network and providing temporary use of on-line non-downloadable software related thereto; providing temporary use of online non-downloadable software featuring software for Enterprise Mobility Management (EMM), Unified Endpoint Management (UEM), Mobile Device Management (MDM), Mobile Applications Management (MAM), Mobile Security Management (MSM), Mobile Information Management (MIM), and mobile Identity and Access Management (IAM); providing temporary use of online non-downloadable software for the operation, management, security and maintenance of enterprise networks, data center management, resource management and performance optimization.

Priority Claims:

Class 09

23/07/2019

United States of America

Downloadable computer software for cybersecurity, detecting and mitigating network attacks using artificial intelligence, machine learning and/or deep learning; downloadable computer software for continuous monitoring, identifying, verifying, analyzing, comparing, classifying, sorting and scoring of collected or acquired data from network traffic, network communication, network flow data, and network intercommunication using artificial intelligence, machine learning and/or deep learning; downloadable computer software for providing initiation, distribution, delivery and response tracking of emergency notifications to users via personal communication devices and public mass communication devices; downloadable computer software for supporting exchange of information and collaboration processes amongst organizations and people during emergency and crisis situations; downloadable computer software for the purposes of data collection, monitoring, and mass notification services for managing emergency, and crisis and business critical situations and improving crisis communications capability; downloadable computer software for the secure transmission of mass notification emergency information via audio, video and electronic communications networks and devices, including social networks; downloadable computer software for managing and analyzing data feeds and data inputs in the field of crisis reporting, communication and management, and for sending notifications through multiple IP network channels and delivery services; downloadable computer software for loading data from personnel directories, and managing users for purpose of crisis communication; downloadable computer software for managing organization directories and connections across organizations for the purpose of connecting them and facilitating collaboration before, during and after crisis situations; downloadable computer software for locating personnel for security and safety purposes using a global positioning system, user self-reporting, and other locating means; downloadable computer software for electronically monitoring, detecting and reporting on alarms, alerts, emergencies, hazards, security threats, and dangerous weather; downloadable computer software for notifying individuals and organizations of a changed status or condition of a sensing device or input feed via network based message alerts; downloadable software in the nature of a mobile application for sending, receiving, confirming and responding to alerts, messages, and notifications via wireless communications networks or the Internet; downloadable computer software in the nature of desktop software applications for providing desktop notifications that capture the user's attention with audio-visual signals and allow users to confirm, respond to notifications or receive additional information related to notifications; downloadable computer software for use in threat prevention, detection, investigation, response, remediation and analysis for computers, computer systems, servers, computer networks, endpoints, mobile devices, enterprise of things (EOT)

and internet of things (IoT) enabled devices; computer software for managing computer network endpoint security and predicting and monitoring security threats to computer networks; downloadable computer operating system programs; downloadable computer software for performing data security functions in the field of cryptographic network security; downloadable computer software for automating a process for authentication of identity using existing databases in connection with the issuance and management of digital certificates used for authentication or encryption of digital communications over the Internet and other computer networks; downloadable computer software, namely, encryption software to enable secure transmission of digital information; downloadable computer software to integrate managed security, namely, virtual private network (VPN), public key infrastructure (PKI), digital certificate issuance, verification and management; cloud computing software; downloadable Internet of things (IOT) management software platform consisting of downloadable cloud-based software, mobile and desktop applications, and premise-based gateway agent software; downloadable computer software for use in managing device-to-device, device-to-cloud and cloud-to-device communications; downloadable computer software for machine-to-machine (M2M) communication, remote data collection and process control; downloadable computer software for asset tracking; downloadable computer software to track and manage IP-enabled machines and other connected devices; downloadable software Development Kits (SDKs), Application Programming Interface (API) software, and Enterprise Application Integration (EAI) software for creating software and applications related to machine to machine (M2M) devices, network and Internet connected devices, and IOT devices; downloadable computer software for sending, receiving and analyzing data from network and Internet-connected devices; downloadable computer software, namely, software and middleware used to allow software applications to interface with mobile and remote devices and to allow connectivity, memory storage, and device management, all via a computer network; downloadable computer software and hardware for fleet asset tracking in the transportation industry; downloadable computer software and hardware for tracking and managing IP-enabled machines; downloadable computer software and hardware to collect, filter and process electronic data, namely, audio, voice, video, images, text, electronic mail and messaging, documents, and vehicle and driver telematics and analytics concerning driver behavior, vehicle diagnostics, maintenance, performance, location, and downtime; downloadable computer software systems for use in dispatch, video monitoring, driver compliance, driver performance, driver scorecards, document management, trailer tracking, asset tracking, vehicle tracking, telematics, fuel economy tracking, driver workflow, integrations with third party software, vehicle utilization, temperature tracking, vehicle inspection reports; mobile phones, smart phones, tablet computers and wireless communication devices for voice, data, or image transmission; accessories for mobile phones, smart phones, tablet computers and wireless communication devices, namely, headsets and earphones, phone chargers, battery chargers, mounts, cradles and holders for hands-free phone use, charging and docking stations, cell phone and tablet computer protective cases, protective covers and cases for handheld electronic devices, cell phone holsters, and speakers; downloadable computer software for mobile phones, portable media players, and handheld computers, namely, software for sending digital photos, videos, images, and text to others via the global computer network; downloadable computer software in the fields of Mobile Device Management (MDM), Mobile Applications Management (MAM), Mobile Security Management (MSM), Mobile Information Management (MIM), and mobile Identity and Access Management (IAM); downloadable

computer software to allow network administrators to monitor, manage, and quarantine devices that are granted access to a network.

Class 38

23/07/2019

United States of America

Providing secure mass notification services through all communication devices, telephones, tablets, smartphones, email, text messaging, and instant messaging; providing electronic transmission of data and digital messaging via mobile handheld devices and via wired and wireless communication devices before, during and after critical situations; telecommunications services that enable users and organizations to electronically transmit messages, text, multimedia content, videos, audio, animation and images via a global computer network before, during and after critical situations; providing multiple user access to interactive databases through web sites on a global computer network to manage, administrate and use crisis communication capabilities; providing electronic transmission of converged data, address location information, text, pictures, and streaming media, all for use in crisis communications; providing telecommunication connectivity services for transfer of messages, audio, visual, and data information for crisis communications; secure electronic messaging services, namely, providing services to access, process, and transmit critical, time-sensitive notifications to individuals and organizations; Telecommunication services, namely, data transmission and reception services via telecommunications networks; electronic exchange of voice, data, audio, video, text and graphics accessible via computer and telecommunications networks; instant messaging services; Providing secure electronic message alerts via the Internet, global computer and telecommunications networks

Class 42

23/07/2019

United States of America

Providing temporary use of non-downloadable computer software for measuring, assessing, identifying, detecting, analyzing, preventing, and responding to cybersecurity threats, attacks, risks, and vulnerabilities; providing temporary use of non-downloadable software for artificial intelligence, analytics-based machine learning, and deep learning software, all for the purpose of measuring, detecting, analyzing, preventing and responding to cybersecurity attacks; Design and development of crisis communication systems comprised of computer hardware and software; engineering and systems analysis in the field of crisis communication systems; computer services, namely, providing online system management services that allow users to remotely view, monitor, program, operate and control crisis communication systems; research in the field of crisis communication technology; testing of crisis communication systems comprised of computer software and hardware; cloud computing featuring software for providing crisis communication through multiple IP network channels and delivery services; computer services, namely, integration of private and public cloud computing environments for crisis communication; computer services, namely, cloud hosting provider services for crisis communication; computer services, namely, installation of computer software for private cloud computing for crisis communication; consulting services in the field of cloud computing for crisis communication; computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, invite other organizations to the community and engage collaboration in the field of security and crisis communication and management; providing temporary use of online non-downloadable software featuring software for use in sending, receiving,

confirming and responding to alerts, messages, and notifications in the field of crisis communication and management; providing temporary use of online non-downloadable software, namely, hosting software for use by others for use in sending, receiving, confirming and responding to alerts, messages, and notifications in the field of crisis communication and management; providing online non-downloadable computer software for the purposes of data collection, monitoring, and mass notification services for managing emergency and crisis situations and improving crisis communications capability; providing temporary use of on-line non-downloadable computer software for endpoint security, malware analysis, vulnerability testing, penetration testing, and vulnerability assessment; providing temporary use of online non-downloadable software for use in threat prevention, detection, investigation, response, remediation and analysis for computers, computer systems, servers, computer networks, endpoints, mobile devices, and internet of things (IoT) enabled devices; providing temporary use of online non-downloadable software for predicting and monitoring security threats to computer networks; providing temporary use of online non-downloadable software for preventing unauthorized access to computers and computer networks; providing temporary use of online non-downloadable software for data analytics; Design, development and maintenance of online computer software systems and software for operation and control of autonomous-driving vehicles; providing temporary use of online non-downloadable software for operation and control of autonomous-driving vehicles; Providing temporary use of non-downloadable software applications and software development tools and platform as a services (PAAS) featuring computer software platforms that enable software developers to program and users to build and configure software applications that work in conjunction with such non-downloadable software applications and platforms to transfer, share, format, manipulate and integrate data, information and such developer software applications working in conjunction with and between such non-downloadable software applications and platforms and third party services; providing temporary use of online non-downloadable software featuring computer software in the field of electronic file security to allow users to encrypt, electronically watermark, provide restricted access to, and provide secure transmission and tracking of electronic documents and other electronic and digital files; platform as a services (PAAS) featuring computer software platforms for creating, managing, and deploying cloud computing infrastructure services; Design and development of on-line computer software systems, computer hardware and computer software; Technical support services, namely, installation, administration, and troubleshooting of web and database applications; providing machine-to-machine (M2M) and Internet of Things (IoT) communication integration services, namely, the integration of disparate computer systems, networks, hardware and software through the application of wireless communication, artificial intelligence, machine learning and/or deep learning technology to facilitate M2M and IoT communication via web based browsers, personal digital assistants, mobile phones, embedded microprocessors, sensors and other electronic devices; providing temporary use of online non-downloadable software applications, software developer kits (SDKs) and software development tools, and platform as a service (PAAS) featuring computer development platforms that enable software developers to design, test, deploy, manage, and monitor internet of things (IoT) and machine-to-machine (m2m) devices; computer software services, namely, development, maintenance, repair, installation, and troubleshooting of computer software problems, support in the nature of diagnosing computer software problems, upgrade and updating computer software, authoring computer software, provision of computer software information, and consultation, design and customization of computer software and middleware; computer

security consultancy; technical consulting and assistance with computer-based information systems and components, namely, technical consulting services in the fields of Mobile Device Management (MDM), Mobile Applications Management (MAM), Mobile Security Management (MSM), Mobile Information Management (MIM), mobile Identity and Access Management (IAM), datacenter architecture, public and private cloud computing solutions, cybersecurity, and evaluation and implementation of internet technology and services; providing a secure website in the nature of a web hosting platform for, and providing temporary use of on-line non-downloadable software for allowing users and enterprise software applications to interface with remote devices and to allow connectivity, memory storage, device management, device monitoring, device tracking, and device auditing, all via a computer network; providing temporary use of online non-downloadable software featuring software for Enterprise Mobility Management (EMM), Unified Endpoint Management (UEM), Mobile Device Management (MDM), Mobile Applications Management (MAM), Mobile Security Management (MSM), Mobile Information Management (MIM), and mobile Identity and Access Management (IAM); providing temporary use of online non-downloadable software for the operation, management, security and maintenance of enterprise networks, data center management, resource management and performance optimization

Class 07

Bending machines; bending presses; press brake; stamping machines; presses (machines for industrial use); straighteners; deep-drawing presses; forming machines; drills; drilling heads (parts of machines); drill bits (machine parts), drill holders (machine parts), chisels for machines; engraving machines; hole punching machines; saws (machines); cutting machines; machines for cutting (milling tools); filters (parts of machines, motors or engines); pumps (machines); pumps (parts of machines, motors or engines); sludge collectors (machines); guides for machines; bearings (machine parts); machine housings; machinery gears; machine stands; machine tables; machine shafts; tools (parts of machines); tool holders (parts of machines); roller bearings; chucks (parts of machines); machine bearings; gas-operated cutting torches; plasma cutting and welding machines; gas-operated welding apparatus; gas-operated welding machines; machines for working glass; machine tools for glass processing, namely for the manufacture of structural glazing and glazing and glass plates for land vehicles and aircraft; glass cutting machines; lifting and hoisting platforms; loading machines, specifically for shipping installations and storage for raw material and semi-finished and finished products; automatic lifting devices and magazines as machine parts for storage, for accumulating, storing and providing raw materials, semi-finished or

finished products and tools; cylinders for machines; cylinder pistons; welding apparatus (electric); welding machines (electric); automatic welding machines (electric); metal processing machines; machine tools; robots (machines); machine tools for beam machining of workpieces; water jet cutting machines; laser cutting machines; laser welding machines; accessories and auxiliary equipment (machines and machine parts) for beam machining of workpieces, spare parts for these items; parts and accessories of the above machines and tools, insofar as included in this class, in particular machine tools, handling equipment; spare parts for machines; laser welding and processing machines, particularly for material machining.

Class 09

Distance measuring apparatus; range finders (telemeters); distance measuring equipment; measuring machines, measuring apparatus and instruments; frequency meters; speed indicators; length meters; goniometers; computers; computer operating programs (recorded); computer programs (recorded); computer programs (downloadable); computer software (recorded); data processing apparatus; data transmission devices; electronic publications (downloadable); data input and display apparatus; screens; video projectors; monitors (computer hardware); monitors (computer programs); interfaces (interface apparatus or interface programs for computers); holograms; control devices for loading apparatus; numerical controls for machine tools; electronic controllers; sensors, electrical and electronic apparatus for remote control of industrial operations; electronic signal transmitters and receivers; detectors; dosing devices; pressure gages; pressure recorders; laser, for non-medical use; light conductors, namely fiber optics (light guide); laser sources, not for medical use; hydraulic, electric, pneumatic and optical regulating devices for lasers and laser beams and laser guidance and mirror guidance, positioning components, light-conducting fiber components, beam forming devices and the processes and sensors therefor; objectives (lenses) (optics); optical fiber cables; optical lenses; prisms (optics); mirrors (optics); actinometers (beam meters); logs; magnifiers (optics); barcode readers; compasses (measuring instruments); lasers capable of producing laser beams, other than for medical use.

Class 11

Pneumatic apparatus for controlling pressure in gas apparatus; refrigeration installations and machines; refrigeration apparatus; cooling apparatus and installations; cooling apparatus and machines; cooling devices for lasers; control and safety accessories for gas apparatus; heat exchangers; water filtration apparatus; water cooling installations.

Class 37

Installation and repair of electric apparatus; installation and repair of refrigerating apparatus; installation, maintenance and repair of machines; repair of pumps; installation of machine tools and associated auxiliary equipment; maintenance work on machine tools and laser installations; repair services; installation services to provide Internet access on machinery control systems and to provide Internet applications on machinery control systems; installation of hardware for Internet access.

Class 40

Information about material processing; milling; engraving; cutting of materials; cutting with water jet; cutting with laser beam; laser engravings; metal machining; sawing; sand blasting; welding; water jet machining; water treatment; custom assembly of materials for third parties; material processing, namely identifying and marking; rental of machines for

material machining; providing information in the field of material processing, especially of machine-specific information, on the Internet and on screen.

Class 41

Recording of video recordings; demonstration lessons in practical exercises; on-line providing of electronic, non-downloadable publications; on-line publication of electronic books (and magazines); organization of fairs for cultural and entertainment purposes, conferences, congresses, meetings and symposiums; organization and conducting of seminars; organization and conducting of workshops (training); training in the operation and maintenance of machine tools; training in the creation of computer programs for machine tools; education and further training, in particular in the field of material processing, IT and business organization; organization of contests; organization of exhibitions for courses; production of video films.

Class 42

Updating of computer software; consultancy in the field of energy saving; computer software consulting; computer system analyses; design of computer software; computer system design; provision of engineering services; creation of programs for data processing; preparation of technical expert reports; research in the field of technology; research in the field of mechanical engineering; hosting of Web sites; installation of computer programs; conversion of computer programs and data (other than physical conversion); copying of computer programs; testing of materials; quality control (tests); research and development services for others regarding new products; technical project planning; rental of computer software; maintenance of computer software; water analysis; recovery of computer data; scientific and industrial research; technical development and engineering activities; preparation of computer programming aids and tools (programming tools) and programs for machine tools; monitoring, control, maintenance of computer software via data lines (teleservice), also via the Internet, in particular remote control, remote malfunction diagnosis, troubleshooting, including remote programming of machine controls for troubleshooting, maintenance and installation of machinery control software, installation of firmware updates in machine controls for troubleshooting; development, installation, maintenance, copying, conversion, updating of computer programs and computer software including via the Internet; remote programming of machine controls; hosting of online services in the field of machines, specifically providing software via data rows/computer networks and providing information relating to the design of machinery on the Internet; provision of software for machine control on the Internet; design and planning of telecommunication solutions in the field of machinery, especially of telecommunication solutions for remote diagnostics of machine malfunctions and for machinery services using telecommunication technology; design, planning and development of software for controlling, regulating and monitoring water jet and laser beam installations as well as press brakes; consultancy and information relating to the design and development of computer hardware and software; technical assistance namely, computer software technical support services and technical project planning and technical project management; construction planning; scientific and industrial research, especially in the field of mechanical engineering; computer specialist services, namely project management and technical planning of internet access on machine controls as well as technological planning and providing Internet applications on machine controls.
