REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

consisting of glass; Building materials made of rock fibres; Building materials of plastic material; Fence panels of non-metallic materials; Finials made of non-metallic materials; Floor boards of non-metallic materials; Floor drains of non-metallic materials; Garages made of non-metallic materials; Garden sheds of non-metallic materials; Materials for making and coating roads; Materials of mortar for coating floors; Panel boards of non-metallic materials; Roofing compounds [building materials]; Aggregate materials for use in concrete; Amphibole for use as building materials; Building materials made of fibre cement; Building materials made of glass fibres; Building materials made of mineral wool; Construction materials of natural stone; Curtain walls of non-metallic materials; Facing panels of non-metallic materials; Hand railings of non-metallic materials; Non-metallic materials for construction; Non-metallic materials for making roads; Parapets made of non-metallic materials; Protective surface [building materials]; Boundary posts of non-metallic materials; Boundary rails of non-metallic materials; Channel covers of non-metallic materials; Fired refractory materials, not of metal; Industrial coatings [building materials]; Interior walls of non-metallic materials; Materials of concrete for coating floors; Non-metallic materials for coating roads; Non-metallic materials for making floors; Non-metallic materials for use in paving; Pavements made of non-metallic materials; Pavilions made of non-metallic materials; Protective coatings [building materials]; Roof windows made of inorganic materials; Serpentine for use as building materials; Thermoplastic materials for making roads; Archways made from non-metallic materials; Building materials for rendering purposes; Ceiling coffers of non-metallic materials; Curtain walling of non-metallic materials; Facade elements of non-metallic materials; Furnace linings of non-metallic materials; Hen-houses made of non-metallic materials; Non-metallic building materials for roofs; Non-metallic jointless flooring materials; Non-metallic sheet materials for building; Panel mouldings of non-metallic materials; Plant espaliers of non-metallic materials; Structures made of non-metallic materials; Agalmatolite for use as building materials; Building elements made of wooden materials; Building materials of expanded polystyrene; Cement based coatings [building materials]; Coloured stone materials for use in paving; Construction materials of artificial stone; Flooring of plastic materials for building; Insulating doors of non-metallic materials; Materials produced from blast-furnace slag; Non-metallic building materials for floors; Non-metallic materials for repairing roads; Non-metallic materials for surfacing roads; Non-metallic materials for use in building; Patio doors made of non-metallic materials; Pontoon supports of non-metallic materials; Projection walls of non-metallic materials; Road marking sheets of synthetic materials; Road marking strips of synthetic materials; Rock crystal for use as building materials; Scaffolding made of non-metallic materials; Bars of non-metallic materials for railings; Bulkhead fittings of non-metallic materials; Cementitious materials for surfacing floors; Coatings being inorganic building materials; Floor panels made of non-metallic materials; Inspection covers of non-metallic materials; Laminated building materials [non-metallic]; Non-metallic building materials for slating; Non-metallic materials for use as underlays; Overflow channels of non-metallic materials; Path edgings made of non-metallic materials; Rainwater hoppers of non-metallic materials; Security shutters of non-metallic materials; Sheet glazing materials for use in building; Sluice gates made of non-metallic materials; Wall windows made of non-metallic materials; Builders' hardware of non-metallic materials; Coloured stone materials for use in building; Complete buildings of non-metallic materials; Composite materials of plywood and chipboard; Concrete poles for use as building materials; Foam glass in the form of building materials; Ground marking sheets of synthetic materials; Materials made from foam for use in building; Non-metallic building materials for flooring; Non-metallic building

materials for furnaces; Non-metallic materials for building purposes; Paving blocks made of non-metallic materials; Racks [structures] of non-metallic materials; Radiator surrounds of non-metallic materials; Translucent building materials for skylights; Wooden building materials in fabricated form; Barriers of plastic materials for marking out; Bituminous materials for use in making floors; Building materials made of crystallized glass; Building requisites of non-metallic materials; Composite materials of plywood and fibreboard; Fitted windows made of non-metallic materials; Floor sections made of non-metallic materials; Moveable walls made of non-metallic materials; Non-metallic building materials for screeding; Non-metallic building materials in sheet form; Non-metallic building materials in strip form; Non-metallic surfacing materials for building; Particle board made of non-metallic materials; Plastic materials for constructional purposes; Fibrous materials for use in road construction; Foam glass beads for use as building materials; Inspection lids made of non-metallic materials; Marking materials for roads, other than paints; Non-metallic materials for building decoration; Non-metallic materials for repairing buildings; Non-metallic materials for use in construction; Non-metallic materials for use in making paths; Non-metallic materials for use in making roads; Non-metallic materials for use in making roofs; Partition walls made of non-metallic materials; Podiums [structures] of non-metallic materials; Shelves of non-metallic materials [structures]; Access chamber covers of non-metallic materials; Architectural louvres of non-metallic materials; Armour door sheetings of non-metallic materials; Bastion defence walls of non-metallic materials; Bitumen containing materials for use in roofing; Canopies [structures] of non-metallic materials; Coloured stone materials for use in road making; Construction elements of non-metallic materials; Indoor hothouses made of non-metallic materials; Non-metallic materials for use in making floors; Panels made of wooden materials [semi-finished]; Playground structures of non-metallic materials; Refractory construction materials, not of metal; Spray painting booths of non-metallic materials; Bituminous binding materials for use in building; Bituminous materials for use in making footpaths; Bituminous materials for use in repairing floors; Building elements made of non-metallic materials; Ground sealing materials incorporating bentonite; Interior wall cladding of non-metallic materials; Internal wall cladding of non-metallic materials; Materials made from foam for use in construction; Modular wall panelling of non-metallic materials; Mouldings of non-metallic materials for cornices; Non-metallic materials for construction purposes; Non-metallic materials for use as floor coatings; Non-metallic materials for use in patching roads; Partitions being non-metallic building materials; Ramps being structures of non-metallic materials; Thermoplastic materials for the marking of roads; Air ducts of non-metallic materials for buildings; Domestic buildings made of non-metallic materials; Domestic dwellings made of non-metallic materials; Extrusions of non-metallic materials for building; Flooring or wall claddings of synthetic materials; Foam glass granules for use as building materials; Materials of mortar for coating building elements; Non-electric ducting made from plastics materials; Non-metallic materials for use in repairing paths; Non-metallic materials for use in repairing roads; Non-metallic materials for use in repairing roofs; Non-metallic materials for use in surfacing paths; Non-metallic materials for use in surfacing roads; Non-metallic materials for use in surfacing roofs; Non-metallic reinforcement materials for building; Plaster materials for exterior walls of buildings; Plaster materials for interior walls of buildings; Portable buildings made of non-metallic materials; Rainwater drainage apparatus of plastic materials; Reinforcing materials, not of metal, for building; Walling panels formed from non-metallic materials; Woven non-metallic materials for use in buildings; Bituminous materials for use in making playgrounds; Inspection chambers made of non-metallic materials; Non-metallic building materials made of balsa wood; Non-metallic embedding

materials for ground cables; Non-metallic fabrics for use with paving materials; Non-metallic materials for repairing roof flashing; Non-metallic materials for use in making pavements; Non-metallic materials for use in repairing floors; Non-metallic materials for use in surfacing floors; Plaster materials for exterior walls of structures; Plaster materials for interior walls of structures; Potable water reservoirs of non-metallic materials; Protective coatings for roofs [building materials]; Roof fanlights [windows] of non-metallic materials; Bituminous binding materials for use in road-making; Bituminous materials for use in repairing footpaths; Boards of cellulose materials for building purposes; Fireproof seals in the nature of building materials; Materials of concrete for coating building elements; Materials of glass for use in building construction; Non-electric ducting made of non-metallic materials; Non-metallic building materials for fire protection; Non-metallic building materials for use in cladding; Non-metallic coating materials [building materials]; Non-metallic composite materials for use in roofing; Non-metallic materials for use in civil engineering; Resinous flooring materials resistant against steam; Bicycle sheds [structures] of non-metallic materials; Bituminous materials for use in making tennis courts; Boards made of plastic materials for use in building; Corrugated polypropylene sheets [building materials]; Formless non-metallic materials for surfacing floors; Internal partitioning made of non-metallic materials; Movable partitions [walls] of non-metallic materials; Non-metallic building materials for draught proofing; Non-metallic building materials for flood protection; Non-metallic building materials in the form of beams; Non-metallic building materials in the form of foils; Non-metallic building materials in the form of slabs; Non-metallic building materials in the form of tapes; Non-metallic composite materials for use in building; Non-metallic impact resistant construction materials; Non-metallic materials for the surfacing of roadways; Planks of non-metallic materials for use in building; Posts of non-metallic materials for use as bus-stops; Reinforcement of non-metallic materials for concrete; Sheets of non-metallic materials for use in building; Storage rails [structures] of non-metallic materials; Storage units [structures] of non-metallic materials; Surface coatings in the nature of building materials; Bituminous materials for use in repairing playgrounds; Building materials in the nature of slates for tiling; Changing rooms [structures] of non-metallic materials; Conservatories [structures] of non-metallic materials; Drywall corner bead not of metal [building materials]; Flooring of reinforced plastic materials for building; Inorganic mineral bound materials for use in building; Materials of synthetic non-metallic foam for building; Non-metallic building materials for civil engineering; Non-metallic building materials for covering ceilings; Non-metallic building materials in the form of blocks; Non-metallic building materials in the form of boards; Non-metallic building materials in the form of panels; Non-metallic building materials in the form of planks; Non-metallic building materials in the form of strips; Non-metallic materials for use in building decoration; Non-metallic materials for use in repairing pavements; Non-metallic materials for use in surfacing pavements; Non-metallic reinforcement materials for construction; Protective coatings for walkways [building materials]; Racks [structures] of non-metallic materials for kegs; Roses [ceiling decorations] of non-metallic materials; Tiles made of ceramic materials for building purposes; Acoustic building materials, other than for insulation; Arches of non-metallic materials for supporting plants; Building materials for coating walls, other than paint; Cement based materials for use in preserving buildings; Cement based materials for use in protecting buildings; Corrugated sheets made of plastic [building materials]; Floor drainage channels made of non-metallic materials; Materials, not of metal, for building and construction; Non-metallic building materials made of vinyl plastics; Non-metallic materials for use in ceiling construction; Non-metallic surfacing materials in the nature of

bark; Non-metallic waterproofing materials, other than paint; Polystyrene flooring materials for use in construction; Racks [structures] of non-metallic materials for casks; Rigid foam materials being inserts for use in building; Sheets of non-metallic materials for use as cofferdams; Sheets of non-metallic materials for use in cofferdams; Storage shelves [structures] of non-metallic materials; Barriers of plastic materials for construction purposes; Bituminous materials for use in repairing tennis courts; Building materials of expanded polystyrene in slab form; Cement based materials for use in maintaining buildings; Curtain walling installations of non-metallic materials; Facing elements made of wood based materials for floors; Laminates of non-metallic materials for use in building; Laying batteries [structures] of non-metallic materials; Mouldings of non-metallic materials for use in building; Non-metallic building materials for use in cavity walls; Non-metallic materials for use in building construction; Non-metallic woven mats for use as geotextile materials; Panels made of wooden materials for use in construction; Sealants in the nature of coatings [building materials]; Translucent building panels made from plastic materials; Access platforms [scaffolding] of non-metallic materials; Archways of non-metallic materials for supporting plants; Bituminous binding materials for use in road maintenance; Building materials of expanded polystyrene in block form; Building materials of expanded polystyrene in sheet form; Bus shelters [structures] made of non-metallic materials; Components of non-metallic materials for modular fencing; Facade cladding sheets of mortar coated foamed materials; Facade construction components of non-metallic materials; Fibrous materials for use civil engineering construction; Materials of cement mixed with asbestos fibre for floors; Mobile partitions [doors] made of non-metallic materials; Mobile platforms [scaffolding] of non-metallic materials; Monocellular glass microspheres being building materials; Mouldings of non-metallic materials for casing buildings; Mouldings of non-metallic materials for facing buildings; Non-metallic building materials for ground consolidation; Non-metallic composite materials for use in construction; Planks of non-metallic materials for use in construction; Portable assembly staging made of non-metallic materials; Shelters [building structures] of non-metallic materials; Storage apparatus [structures] of non-metallic materials; Substances for filling [non-metallic building materials]; Building materials for coating ceilings, other than paint; Coatings to protect stone from water [building materials]; Facing elements made of wood based materials for ceilings; Fixed scaffolding of non-metallic materials for buildings; Handrails of non-metallic materials for baths and showers; Interior decorative panels made of non-metallic materials; Marking sheets of synthetic materials for use on roadways; Marking strips of synthetic materials for use on roadways; Non-metallic building materials for the covering of walls; Non-metallic woven covers for use as geotextile materials; Paddling pools [structure] made of non-metallic materials; Sheets of synthetic plastic materials for use in building; Building extensions [structures] of non-metallic materials; Coatings for the finishing of masonry [building materials]; Materials of cement mixed with asbestos fibre for ceilings; Mouldings of non-metallic materials for cladding buildings; Non-metallic building materials for waterproofing purposes; Non-metallic building materials having acoustic properties; Non-metallic fire protection materials for use in building; Non-metallic materials for constructing under floor layers; Non-metallic woven fabrics for use as geotextile materials; Skylights made from plastic materials for use in buildings; Transportable constructions made of non-metallic materials; Blocks made of non-metallic materials for building purposes; Coatings for the finishing of surfaces [building materials]; Consignment shelving [structures] of non-metallic materials; Materials for use in coating buildings [building materials]; Materials in the nature of renderings for building purposes; Mobile display units [structures] of non-metallic

materials; Mobile homes [portable buildings] of non-metallic materials; Mouldings of non-metallic materials for panelling buildings; Mouldings of non-metallic materials for surfacing buildings; Non-metallic building materials for use in setting manholes; Non-metallic composite materials for use in building repair; Non-metallic materials for use in the construction of roads; Non-metallic materials for use in the construction of walls; Panelling of non-metallic materials for use in construction; Polystyrene flooring materials having insulating properties; Barriers of plastic materials for civil engineering purposes; Blocks made of non-metallic materials for coastal protection; Cages of non-metallic materials, other than for domestic use; Cantilevered brackets of non-metallic materials for building; Coatings to protect concrete from water [building materials]; Fibrous materials for use as aggregates in concrete products; Marking sheets of non-metallic materials for use on roadways; Marking strips of non-metallic materials for use on roadways; Mobile pedestals [structures] made of non-metallic materials; Non-metallic building materials having a honeycomb structure; Non-metallic building materials having insulating properties; Non-metallic surfacing materials in the nature of wood fibre; Protective coatings for repelling water [building materials]; Delineators [fixed road cones] made of non-metallic materials; Mineral based building materials having insulating properties; Mobile partitions [structures] made of non-metallic materials; Non-metallic building materials for use in relation to floors; Non-metallic materials for use in the construction of tunnels; Sheets of synthetic plastic materials for use in construction; Barrier materials [non-metallic] for the construction of safes; Composite panels of non-metallic materials for use in building; Expansion joints of non-metallic materials for use in building; Non-metallic building materials in the form of shaped sections; Non-metallic surfacing materials in the nature of wooden chips; Rigid foam materials being moulding pieces for use in building; Blocks made of non-metallic materials for river-bank protection; Commercial buildings made principally of non-metallic materials; Non-metallic building materials having waterproofing properties; Partitions [structures] made principally of synthetic materials; Plastic coatings for construction purposes [building materials]; Plastic materials for use in the construction of swimming pools; Portable outdoor security cabins made of non-metallic materials; Shelters made of prefabricated non-metallic insulated materials; Barrier materials [non-metallic] for the construction of coffer; Intumescent building materials for preventing the spread of fire; Marking strips of synthetic materials for vehicular environments; Non-metallic building materials having sound deadening properties; Non-metallic building materials in the form of plastic extrusions; Poster advertising pillars [structures] of non-metallic materials; Expansion joints of non-metallic materials for use in construction; Materials of synthetic non-metallic foam for construction purposes; Mineral based building materials having fire protection properties; Non-metallic marking materials for marking playing areas for games; Skylights [windows] of non-metallic materials for use in buildings; Assembled display units [structures] made of non-metallic materials; Cable ducts made of non-metallic materials [other than electricity]; Marking sheets of non-metallic materials for vehicular environments; Marking strips of non-metallic materials for vehicular environments; Racking [structures] of non-metallic materials for storage purposes; Racking [structures] of non-metallic materials for supporting pipes; Racking [structures] of non-metallic materials for supporting tubes; Road signs of non-metallic materials [non-mechanical, non-luminous]; Non-electric ducting conduit installations of non-metallic materials; Non-metallic building materials having thermal insulation properties; Non-metallic materials for use in the construction of swimming pools; Racking [structures] of non-metallic materials for supporting cables; Venetian blinds [outdoor] made of non-metallic, non-textile materials; Assemblies [structures] of non-metallic materials for display purposes;

Display signs of non-metallic materials [non-luminous, non-mechanical]; Non-metallic composite materials of non-woven fabrics for construction; Non-metallic marking materials for marking spaces in car parking areas; Assembled exhibition stands [structures] made of non-metallic materials; Channels of non-metallic materials for transmitting air for ventilation; Building construction materials in the nature of aromatic cedar planking; Building materials of concrete reinforced with plastics and glass fibres; Non-metallic building materials for the construction of office interiors; Non-electric ducting made of non-metallic materials reinforced with metal; Stages for musical performances composed of primarily non-metal materials; Coatings to protect masonry building walls from water [building materials]; Non-metallic composite materials of woven fabrics for construction purposes; Natural refractory materials for forming linings in high temperature vessels; Non-metallic building materials for construction of flood protection barriers; Materials in the nature of coatings for building purposes [building materials]; Natural refractory materials for repairing linings in high temperature vessels; Marking materials [road] in the form of sheets and strips of synthetic material; Non-metallic woven fabrics for use as geotextile materials for building purposes; Modular prefabricated building units of non-metallic materials for the construction of buildings; Modular portable building units of non-metallic materials for construction into relocatable buildings.

Downloadable e-commerce computer software to allow users to perform electronic business transactions via a global computer and communication networks; Software for sending and receiving electronic messages, alerts, notifications and reminders; Search engine software; Magnetically encoded gift cards; Software for use in creating, managing, measuring, and disseminating advertising of others; Ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; Virtual reality game software; Augmented reality game software; Mixed reality game software; Virtual reality game computer hardware; Augmented reality game computer hardware; Mixed reality game computer hardware; Computer peripheral devices; Virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Electronic game software for wireless devices; Electronic game software for handheld electronic devices; Electronic game software; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; Virtual reality software; Augmented reality software; Mixed reality software; Video game software; Interactive multimedia computer game programs; Downloadable electronic game programs; Computer game software; Headsets for use with computers; Laser equipment for non-medical purposes; Computer peripherals; Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; Software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Software for converting natural language into machine-executable commands; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Artificial intelligence software; Personal assistant software; Social assistant software; Software development tools to enable mobile software applications to access backend services, namely, data storage, push notifications, and user management; Software for mapping services; Software for planning activities with other users and making recommendations; Software for social and destination mapping; Software for making reservations and bookings; Software for ordering and/or purchasing goods and services; Location-aware software for searching, determining and sharing locations; Software for wireless content, data and information delivery; Software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; Software, namely, an application providing social networking functionalities; Software for creating, managing and accessing groups within virtual communities; Software for location-based searching and alerts; Software for searching and identifying employment opportunities; Software for identifying and allowing users to contact government representatives; Software providing a virtual marketplace; Software providing location-based weather information; Software providing, linking to, or streaming news or current events information; Parental control software; Software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Software in the nature of a mobile application for creating, sharing, disseminating and posting advertising; Software for geo-location based advertising and product and service promotion; Application programming interface (API) software for allowing data retrieval, upload, access and management; Software for viewing and interacting with a feed of images, audio-visual and video content, and associated text and data; Downloadable computer software for finding content and content publishers, and for subscribing to content; Software for organizing images,

video, and audio-visual content using metadata tags; Software for creating and managing social media profiles and user accounts; Software for uploading, downloading, streaming, archiving, transmitting, and sharing images, audio-visual and video content and associated text and data; Interactive photo and video equipment, namely, kiosks for capturing, uploading, editing, printing and sharing digital images and video; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Software for advertisers to communicate and interact with online communities; Software for streaming multimedia entertainment content; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Software for organizing events; Computer software, downloadable computer software and mobile application software for use in taking and editing photographs and recording and editing videos; Virtual reality computer hardware; Virtual reality game computer hardware; Virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Computer game software for home video game consoles; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Headsets for use with video game consoles; Computer software; Augmented reality computer hardware; Virtual reality headsets; Augmented reality headsets; Virtual reality glasses; Augmented reality glasses; Virtual reality software for navigating a virtual reality environment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide augmented reality experiences; Headsets for virtual reality games; Headsets for augmented reality games; Handheld virtual reality controllers; Handheld augmented reality controllers; Video and computer game programs; Interactive entertainment software; Gesture recognition software; Motion tracking sensors for virtual reality technology; Motion tracking sensors for augmented reality technology; Computer software for controlling the operation of audio and video devices; Digital media streaming devices; Earphones; Headphones; Video display software; Video display hardware, namely, video drivers for video eyewear; Software for navigating a virtual reality environment; Software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; Virtual reality software for object tracking, motion control and content visualization; Augmented reality software for object tracking, motion control and content visualization; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Virtual reality software for operating virtual reality headsets; Augmented reality software for operating augmented reality headsets; Virtual reality software for interactive entertainment; Augmented reality software for interactive entertainment; Headsets; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Goggles for enabling virtual reality, augmented reality world experiences; Software for use in creating and designing virtual reality and augmented reality software; Application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; Software and

firmware for operating system programs; Computer operating systems; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; Software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Computer hardware and software for operating sensor devices; Electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; Computer hardware and software for detecting objects, user gestures and commands; Software and firmware for controlling, configuring and managing controllers; Software and firmware for enabling electronic devices to share data and communicate with each other; Computer operating system software; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Cameras; Batteries; Battery chargers; Battery cases; Battery packs; Power charging and power management devices for mobile electronic devices; Charging docks; Charging stands for mobile electronic devices; Base chargers for mobile electronic devices; portable power supplies; External chargers; Wireless charging cases; Rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; Rechargeable external battery packs for use with mobile electronic devices; Chargers for batteries; Power adapters; Electrical adapters; Electrical and electronic connectors; Power adapters; Bags and cases specially adapted for mobile electronic devices; Briefcases, backpacks and carrying cases for mobile electronic devices; Cases for mobile electronic devices; faceplates, namely, non-metal faceplates for electronic devices; Protective covers and cases for mobile electronic devices; Protective sleeves for mobile electronic devices; Holders, armbands, clips and carrying cases specially adapted for mobile electronic devices; Wall mounts for mounting mobile electronic devices; Stands for mobile electronic devices; Holders for mobile electronic devices; Remote controls for mobile electronic devices; Electrical audio and speaker cables and connectors; Audio speakers; Docking stations for mobile electronic devices; Loudspeakers; Electronic cables, parts and fittings; Electric cables; Connection cables; Cables for optical signal transmission; Power cables and cable connectors; Microphones; Audio receivers; Audio transmitters; Wireless computer peripherals; Head-mounted video display; Receivers of electronic signals; Video receivers; Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; Software for sending and receiving electronic messages, graphics, images, audio and audio visual content via the internet and communication networks; Software in the nature of a mobile application; SIM cards; Software for processing images, graphics, audio, video, and text; Software, namely, instant messaging software, file sharing software, communications software for electronically exchanging data, audio, video images and graphics via computer, mobile, wireless, and communication networks; Software for personal information management, and data synchronization software; Software for managing social networking content, interacting with a virtual community, and transmission of images, audio, audio-visual and video content, photographs, videos, data, text, messages, comments, advertisements, media advertising communications and information; Software for displaying and sharing a user's location and finding, locating, and interacting with other users and places; Software for use in customer relationship management (CRM); Software for providing consumer information; Messaging software; Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for online charitable fundraising services and financial donation services; Software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Telecommunications equipment for providing third

party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and portals for collection, transmission and management of data, voice and video; Communication software and communication computer hardware for providing access to the Internet; Ring tones featuring music and voice messages; microphones; video game programs and computer games; prerecorded discs, tapes and downloadable audiovisual media featuring musical, comedy, dramatic and theatrical performances, comedy; electronic devices, namely, cellular telephones, CD players, cassette players, digital audio file players, DVD players, headphones, hand-held personal digital assistants (PDAs) and/or diaries (electronic organisers); video game software; computer game programs; computer game equipment containing memory devices, namely, discs and cartridges; prerecorded discs, tapes and downloads, all in the field of music, dance, dramatic, theatrical, comedic and audiovisual long- and short-form animated and live-action entertainment; magnetic data carriers; apparatus for recording, transmission or reproduction of sound or images; recording discs, audio and visual recordings, prerecorded audio and visual discs, tapes and downloadable media, eyewear, prepaid magnetically encoded calling cards; Downloadable software that enables video creators to monitor and analyze video and channel performance; downloadable software that enables video creators to view, filter, and respond to video comments, receive notifications, update video details, and manage playlists; downloadable mobile applications providing ongoing children's programs featuring a wide range of information on topics of interest to children and their parents and caregivers; downloadable computer software for broadcasting, electronic transmission, and streaming of gaming digital media content; downloadable computer software for playing and recording music; downloadable computer software for transmitting, streaming, and downloading music, video, and audiovisual content, namely, music, videos and movies; music, video, and audiovisual content in the field of entertainment, downloadable from the Internet via a subscription service; Software for providing an electronic financial platform that facilitates the transaction of payments and financial transactions over a computer network; Computer software; computer programs; computer software for artificial intelligence, machine learning, deep learning, statistical learning, data mining, contextual prediction, personalization, predictive analytics, predictive modeling and business intelligence; Computer software, namely, software that allows users to interact online with information and media content that other users share, and software that allows users to discover and access media content and share information concerning goods, services, and experiences; computer software and software applications that enable electronic communications network users to create, upload, bookmark, view, annotate, and share data, information and media content; software, downloadable or prerecorded, in the nature of a mobile application that enables electronic communications network users to create, upload, bookmark, view, annotate, share and discover data, information and media content; software downloadable via electronic communications networks and wireless devices that enables electronic communications network users to create, upload, bookmark, view, annotate, share and discover data, information and media content; software to facilitate business promotion, connecting social network users

with businesses; downloadable electronic publications in the nature of blogs, photographs, and graphic art in the field of general human interest; computer e-commerce software to allow users to perform electronic business transactions via a global computer network.

Class 42

Providing software for organizing images, video, and audio-visual content using metadata tags; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying of a user's location, planning activities with other users and making recommendations; Providing searchable databases of information, text, electronic documents, graphics, electronic media, photographic images and audio visual information on computer and communications networks; Design and development of computer hardware and software; computer services, namely, design and development of computer hardware and software for creating virtual communities for registered users to organize groups, meetings, and events, participate in discussions and engage in social, business and community networking; Computer services, in particular, hosting electronic facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; computer services in the nature of programming customised webpages featuring electronic personal and group profiles, user-defined or specified information, including, audio, video, images, text, content, and data; Computer services, namely, providing search engines for obtaining data via the internet and communications networks; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities to engage in social networking, and to manage their social networking accounts; Providing software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; Application service provider (ASP) services, namely, hosting software applications of others; Application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; hosting of online network service which enables users whom are granted access to be able to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet and communications networks; Computer services, in particular, application service provider featuring application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; Providing software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Application service provider featuring application programming interface (API) software for managing, tracking, reporting and measuring media planning, media buying and advertising of others; Online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting,

analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) featuring software for use in designing and managing online advertising and marketing campaigns; Designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; Development of hardware for use in connection with electronic and interactive multimedia games; Electronic and interactive multimedia game development services; Providing online sites that gives users the ability to upload, modify and share virtual reality content, information, experiences and data; Providing online sites that gives users the ability to upload, modify and share augmented reality content, information, experiences and data; Providing online sites that gives users the ability to upload, modify and share mixed reality content, information, experiences and data; Design, engineering, research, development and testing services in the field of mobile application software development related to the use and functionality of hyperlinks; Technical consultation in the field of mobile application software development related to the use and functionality of hyperlinks; Providing software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices; Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Providing software for processing electronic payments; Platform as a service (PAAS) services featuring computer software to allow users to perform business and e-commerce transactions; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; Platform as a service (PAAS) featuring computer software platforms for electronic messaging and transmission of audio, video, photographic images, text, graphics and data; Providing software for electronic messaging; Mapping services; Providing software for mapping services; Application service provider (ASP) featuring software for mapping services; Providing software for sharing and displaying a user's location, planning activities with other users and making recommendations; Providing software for social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; Providing software for making reservations and bookings; Application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; Providing software for ordering and/or purchasing goods and services; Application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; Providing location-aware software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Providing software for creating, managing and accessing user-created and administered private groups within virtual communities; Providing software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing software for searching and identifying employment opportunities; Providing software for identifying and allowing users to contact government representatives; Providing software for providing a virtual marketplace; Providing software for providing location-based weather information; Providing software for providing, linking to, or streaming news or current events information; Providing software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application service

provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms; Design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; Providing online sites that gives users the ability to upload, modify and share virtual reality content and data; Providing online sites that gives users the ability to upload, modify and share augmented reality content and data; Providing online sites that gives users the ability to upload, modify and share mixed reality content and data; Online video ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online video advertising to purchase and sell video advertising inventory; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Application service provider (ASP) featuring software for use in buying, selling, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) featuring software for use in designing and managing online video advertising and marketing campaigns; Providing a website online facilities that give users the ability to engage in social networking and manage their social networking content; Providing software for creating and managing social media profiles and user accounts; Providing software for modifying photographs, images and audio, video, and audio-video content with photographic filters and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; providing software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing software for finding content and content publishers, and for subscribing to content; computer services, namely, design and development of computer hardware and software for creating a virtual community for registered users to share, view, subscribe to and interact with images, audio-visual and video content and related data and information; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; Platform as a service (PAAS) featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Rental of software that gives users the ability to upload, edit, and share images, videos and audio-visual content; computer services, namely, providing software as a service for curating online user-defined content and advertisements and creating social media feeds; Providing software for taking photographs and recording audio, audio-visual and video content; Providing software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Providing software for streaming multimedia entertainment content; Providing software for creating and maintaining an online presence for individuals, groups, companies, and brands; Providing software for advertisers to communicate and interact with online communities; providing personal assistant software; providing social assistant software; Providing online facilities featuring temporary use of non-downloadable software for sending and receiving electronic messages, instant messages, electronic message alerts and reminders, photographs, images, graphics, data, audio, videos and audio-visual content via the internet and

communication networks; providing E-commerce software to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Computer services, namely, providing information in the fields of technology and software development via the internet and communication networks; Providing software for use in taking and editing photographs and recording and editing videos; Application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; Design and development of computer game hardware and software; Design and development of virtual reality hardware and software; Design and development of mixed reality hardware and software; Design and development of video game hardware and software; Providing temporary use of non-downloadable software applications for social networking, creating a virtual community, and transmission of virtual reality content and data; computer software services, namely, providing software as a service and providing a website for customised online pages featuring user-defined or specified information, personal profiles, virtual reality, and augmented reality content and data; Computer programming services for creating virtual reality videos and games; Design and development of augmented reality hardware and software; Software development; Development of interactive multimedia software; Maintenance and repair of computer software; Providing temporary use of non-downloadable computer software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology and software development via a global computer network; Computer services, namely, cloud hosting provider services; Providing temporary use of online non-downloadable cloud computing software for use in electronic storage of data; Providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; Computer services, namely, hosting electronic facilities for others for interactive discussions via communication networks; Providing online non-downloadable software; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Application service provider (ASP); Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; computer services, namely, design and development of computer hardware and software to create an online community for registered users to engage in social networking; Data encryption services; Providing software and applications for customer relationship management (CRM); Application service provider (ASP) featuring software for customer relationship management (CRM); Providing online software platform services that give users the ability to post ratings, reviews, referrals and recommendations relating to businesses, restaurants, service providers, events, public services and government

agencies; computer services, namely, application service provider featuring application programming interface (API) software for customer relationship management (CRM); Hosting of digital [virtual reality and augmented reality] content on the internet; Scientific and technological services and research and design relating thereto; Industrial analysis and research services; Computer services, namely, providing remote management of devices via computer networks, wireless networks or the internet; Providing software for facilitating and arranging for the financing and distribution of fundraising and donations; Providing software for online charitable fundraising services and financial donation services; Providing online computer databases and online searchable databases in the field of classifieds; Providing online facilities featuring user comments concerning business organizations, service providers, and other resources; Providing computer, electronic and online databases in the field of entertainment; Production of video and computer game software; providing online non-downloadable software; Multimedia entertainment software production services; providing online web facilities for live streaming video of promotional events; Providing a video sharing portal, namely, a web site featuring temporary use of non-downloadable software allowing web site users to upload on-line videos for sharing with others for entertainment and educational purposes; software as a service (SAAS) services featuring software for enabling uploading, capturing, posting, showing, editing, playing, streaming, viewing, previewing, displaying, tagging, blogging, sharing, manipulating, distributing, publishing and reproducing electronic media, multimedia content, videos, movies, pictures, images, text, photos, user-generated content, audio content, and information via the Internet and other communications networks; providing temporary use of non-downloadable software for transmitting, streaming, and downloading music, videos, and audiovisual content; providing a website available on subscription that allows users to transmit, stream, and download music, video, and audiovisual content featuring entertainment; Computer services, namely, providing a search engine for obtaining data, graphics, files and images using non-downloadable image recognition software; provision of Internet search engines; providing online non-downloadable character recognition software; providing online non-downloadable image recognition software; providing online non-downloadable software for extracting and retrieving information and data for others by means of global computer networks; providing online non-downloadable software for searching a user's mobile phone, computer, tablet, or other electronic communication device, namely, wearable computer peripherals, for data, graphics, files and images; Providing on-line non-downloadable software for providing a personal voice-enabled digital assistant; Providing on-line non-downloadable voice recognition software; computer services, namely, providing a voice-controlled search engine for obtaining data, images, audio and video via a global computer network; provision of Internet search engines; Providing on-line non-downloadable software used to provide voice-controlled information and communications; providing a website that provides technology that enables users to sign up for job alerts online and apply for jobs; providing a website that provides technology that enables employers to select which candidates best meet their job vacancy criteria based on resumes and word searches; Providing geographic information, interactive geographic maps [geographic information], software for accessing satellite and aerial images of earth and space, and ocean bathymetry, via a website; providing online non-downloadable computer software for displaying geographic information, interactive geographic maps, satellite and aerial images of earth and space, and ocean bathymetry; Design and development of computer hardware and software; Providing temporary use of online non-downloadable software for streaming and playing audio, video, and multimedia content, and for controlling televisions, monitors, gaming

systems, DVD players, portable media players, and digital media streaming devices; Providing temporary use of online non-downloadable software for use in providing personal concierge services for others by voice-controlled commands via a mobile phone, computer, tablet, smart phone, handheld computer, portable computer, namely, adding and accessing calendar appointments, alarms, timers, reminders, and making restaurant, travel, and hotel reservations; Providing temporary use of online non-downloadable software for controlling home automation systems, namely, lighting, appliances, heating and air conditioning units, alarms and other safety equipment, home monitoring equipment; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Computer technology support services, namely, help desk services; Technical support services, namely, troubleshooting of computer software problems; Computer services, namely, cloud hosting provider services; Computer services, namely, integration of private and public cloud computing environments; Consulting services in the field of cloud computing technology, infrastructure-as-a-service (IAAS) cloud computing technology, software-as-a-service (SAAS) cloud computing technology, and platform-as-a-service (PAAS) cloud computing technology; Providing virtual computer systems and virtual computer environments through cloud computing; Technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; Application service provider (ASP), namely, hosting computer software applications of others; Cloud computing featuring software for use in creating web applications, syncing, storing, archiving and backing-up data to cloud servers; Providing non-downloadable computer software for managing, networking, collaborating within and providing remote access to databases; Cloud computing featuring software for use in deploying virtual machines to a cloud computing platform; Cloud computing featuring software for use in sharing data, creating data visualizations, data processing, and analyzing data; Cloud computing featuring software for use in administration of computer local area networks management of computer applications and computer hardware, and computer application distribution; Cloud computing featuring software for use in managing online projects, developing predictive digital marketing models, managing and facilitating online conferences, meetings, demonstrations, tours, presentations and interactive discussions; Platform-as-a-service (PAAS), Infrastructure-as-a-service (IAAS) and Software-as-a-service (SAAS) services featuring computer software platforms for creating web applications syncing, storing, archiving and backing-up data to cloud servers; Platform-as-a-service (PAAS), Infrastructure-as-a-service (IAAS) and Software-as-a-service (SAAS) services featuring computer software platforms for managing, networking, collaborating within and providing remote access to databases; Platform-as-a-service (PAAS), Infrastructure-as-a-service (IAAS) and Software-as-a-service (SAAS) services featuring computer software platforms for deploying virtual machines to a cloud computing platform; Platform-as-a-service (PAAS), Infrastructure-as-a-service (IAAS) and Software-as-a-service (SAAS) services featuring computer software platforms for sharing data, creating data visualizations, data processing, and analyzing data; Platform-as-a-service (PAAS), Infrastructure-as-a-service (IAAS) and Software-as-a-service (SAAS) services featuring computer software platforms for administration of computer local area networks management of computer applications and computer hardware, and computer application distribution; Platform-as-a-service (PAAS), Infrastructure-as-a-service (IAAS) and Software-as-a-service (SAAS) services featuring computer software platforms for managing online projects, developing predictive digital marketing models, managing and facilitating online conferences, meetings, demonstrations,

tours, presentations and interactive discussions; Computer services, namely, creating cloud-based indexes of information; Providing non-downloadable computer software for use as an application programming interface (API) for use in the fields of artificial intelligence, natural language processing, image content analysis, speech recognition, deep learning, high performance computing, distributed computing, virtualization, machine learning, cluster computing, internet of things, and container management; Electronic data storage, namely, storage and archival of data, electronic media, and digital content; Cloud computing and data center services for data backup and disaster recovery purposes, namely, electronic storage of data and storage services for archiving electronic data; Electronic data storage services, namely, providing websites for the storage of digital content; Electronic data storage services, namely, providing remote cloud-based server storage to others; Technical consulting services in the field of electronic data storage and electronic storage of electronic data for others; Infrastructure as a service (IAAS), namely, providing remotely accessible electronic data storage; Electronic data storage services in the nature of technical management of virtual infrastructure storage services; providing temporary use of non-downloadable computer software for browsing and accessing digital content, computer software programs, audio works, visual works, audiovisual works, electronic publications, books, movies, and music; providing temporary use of non-downloadable computer software for transmission and display of digital content, audio works, visual works, audiovisual works, electronic publications, books, movies, and music; hosting of an online searchable database featuring employment opportunities and content about employment; hosting an online resume database featuring information relating to job seekers; hosting an online searchable database relating to job vacancies, the location of such vacancies, and the identity of employers and recruiters searching for candidates; hosting an online searchable database of resumes of prospective employees; hosting an interactive web site featuring information about job seeking; technical consulting services in the field of electronic storage of data for others in the nature of historical records and documents; Software as a service, featuring software for providing an electronic financial platform that facilitates transaction of payments over a computer network; Application service provider featuring application programming interface (API) software for use in processing cross-border financial transactions and payment processing; application service provider featuring application programming interface (API) software enabling financial institutions and payment processors to communicate and coordinate with currency and digital asset exchanges over electronic computer networks in order to effect financial transactions and payments; computer software services, namely, providing online non-downloadable computer software for facilitating payments over electronic communications networks; providing online non-downloadable computer software for facilitating payments over electronic communications networks; application service provider featuring application programming interface (API) software for enabling communication with currency and digital asset exchanges over electronic computer networks; providing online non-downloadable software to serve as an application programming interface (API) enabling communication of payment information to financial institutions and payment processors for processing and settlement; providing online non-downloadable computer software for facilitating payments over electronic communications networks; Software as a service (SaaS) services; software as a service (SaaS) services featuring software for artificial intelligence (AI), machine learning and deep learning; software as a service (SaaS) featuring software for a framework of intelligent data science-based services using artificial intelligence (AI) and machine learning for improving digital experiences in the fields of design, document management and delivery and marketing and
