GENERAL INFORMATION

TRADE MARKS ACT 1976

(Act 175)

PUBLICATION OF APPLICATION FOR REGISTRATION OF TRADE MARKS

Pursuant to section 27 of the Trade Marks Act 1976, the following applications for registration of trade marks have been accepted and hereby published in Intellectual Property Official Journal according to subregulation 120 (3) of the Trademarks Regulation 2019.

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Notice of opposition to an application for registration of a trademark may be filed unless extended at the discretion of the Registrar, within two months from the date of publication accompanied by prescribed fee.

GENERAL INFORMATION II

TRADEMARKS ACT 2019 (Act 815)

PUBLICATION OF APPLICATION FOR REGISTRATION OF TRADEMARKS

Pursuant to **section 31** of the Trademarks Act 2019, the following applications for registration of trademarks have been accepted and are hereby published in Intellectual Property Official Journal under **paragraph 148(1)(a)** of the Trademarks Act 2019

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Pursuant to subsections 35(1) and 35(2) of the Trademarks Act 2019 and subregulation 23(1) of the Trademarks Regulations 2019, a notice of opposition to oppose the registration of the application for registration of trademark which shall include the statement of the grounds of such opposition may be filed together with payment of the prescribed fee with the Registrar of Trademarks within two months from the date of the publication of the acceptance of such application for registration of trademark.

Notwithstanding the above paragraph, pursuant to subsection 153(1) of the Trademarks Act 2019 and subregulation 23(2) of the Trademarks Regulations 2019, the request for an extension of time may be allowed at the discretion of the Registrar of Trademarks for not more than two months after the expiry of the period for filing the notice of opposition.

Computer controlled installations of liquid crystal display screens, computer controlled installations of video display apparatus, simulators incorporating digital computers for industrial training purposes, broadband, data interconnecting computer installations, computer software for delivery of broadcast - quality video and television programming over broadband, cable, satellite and wireless networks; computer software for providing video-on-demand services; downloadable films and tv programs provided via video-on-demand; computer software for transmitting personal photos, video and music over broadband, cable, satellite and wireless networks; computer software for digital video recording; and computer software for providing a programming guide to display available video and television broadcasts and downloads.

CLASS 37

Information services relating to repair or installation, provided on-line from a computer database or the Internet; computer installation and repairs; installation and repair of burglar and fire alarms; installation and repair of electric appliances; installation and repair of telecommunication equipment; installation, maintenance and repair of business and office machinery and equipment.

CLASS 42

Development of computer software application solutions, advisory services relating to computer based information systems, advisory services relating to computer hardware, advisory services relating to computer hardware design, services for the testing of computer installations, installation and maintenance of computer software, research relating to the computerised automation of industrial processes, services for the industrial design of computers, providing search engines for the Internet, hosting the computer sites (web sites) of others.

V-SERIES INTERNATIONAL SDN BHD; No.17, Jalan Anggerik Mokara 31/53 Kota Kemuning, Shah Alam 40460 SELANGOR, MALAYSIA

TYME PTE LTD ; 6 BATTERY ROAD, #38-04, 049909, SINGAPORE**AGENT** : Lim Pui Keng, Advanz Fidelis IP Sdn. Bhd., Suite 609, Block D, Phileo Damansara 1, No. 9, Jalan 16/11, Petaling Jaya 46350 Selangor

CLASS 9

Computer hardware; computer software; computer programs; mobile telephone applications and other downloadable software; downloadable computer programs; electronic financial transaction apparatus; electronic funds transfer machines; automated teller machines; credit and debit card verification machines; apparatus for payment with magnetically encoded cards; active electronic labels containing coded information; storage materials for data in electronic form; machine readable devices for cashless payment systems; computer programs for commercial transactions; electronic point of sale transaction terminals; machines for executing remote financial transactions; application software; personal computer application software; cards carrying magnetically, optically or electronically recorded or encoded information or data; smart cards; chip cards; machine readable cards; charge cards, bank cards, credit cards, debit cards, stored credit cards, and payment cards; cards for financial services; apparatus for use with smart cards or cards used in financial transactions; apparatus for recording, transmission or reproduction of sound or images; apparatus for network communication; apparatus for processing data; apparatus for receiving information from a computer; touch sensitive electronic screens; apparatus for the transmission of data; data storage apparatus; data processing equipment; telephone handsets; cash registers; electronic cash registers; calculating machines; computers; electronic publications (downloadable) including electronic publications (downloadable) with financial education content; scientific, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), and teaching apparatus and instruments.

CLASS 35

Advertising including advertising in relation to educational and financial literacy activities and causes; online advertising on a computer network; promotional advertising services; radio advertising; television advertising; advertising and promotion services provided via video broadcasts and other experiential media; collecting business information; collecting information for business; collection of commercial information; compilation of business information; compilation of commercial information; organising of business competitions; promotion (advertising) of business; promotional marketing; business management services; inventory management services; business administration services; preparation of business reports; business consultancy; accounting services, database compilation services; preparation of statistical information for business; organisation and management of customer loyalty programmes; information and advisory services regarding the aforementioned services; the bringing together, for the benefit of others, of a variety of goods, excluding the transport thereof, enabling customers to conveniently view and purchase those goods.

CLASS 36

Banking; banking services in relation to the electronic transfer of funds; banking and financial services in relation to payment services using an electronic exchange platform; electronic payment services; financial payment services; collection of fees, payments or tolls (for others); transfer of funds; computerised banking services; electronic banking; financial banking; Internet banking; information services relating to banking; investment banking; personal banking services; personal financial banking services; financial services; financial information; pension and retirement and superannuation plans and funds; provision of mortgages; investment advice; investment management of funds; insurance services; monetary affairs; transactional and deposit banking home loans; superannuation services; funds management; financial planning services; general investment advice; investment management; mortgage and superannuation trusteeship; superannuation advice; provision of credit rating; payment administration services; and consultancy and ancillary services related to banking and financial services.

CLASS 38

Provision of a computer network for processing debit or credit transactions including over a telephone link or other telecommunication means; provision of access to databases, being databases of financial

information or information regarding financial transactions; information and advisory services related to the aforementioned services.

MICROSOFT

TM2020031233

23 December 2020

CLASS 9

Computer software; computer hardware; telecommunication and conferencing hardware; software for tracking, creating lists, and organizing information and digital content; conferencing software; collaboration software; downloadable collaboration portal; computer hardware peripherals, namely, computer cables, audio/video cables, audio/video cable connectors, power cords, computer display screens, touch screens, projection screens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files, computer scanners, computer printers, computer speakers, computer stands, computer joysticks, microphones, webcams, digital cameras, blank usb flash drives, cd-rom drives, digital disc drives, disk drives for computers, DVD drives, hard disk drives, electronic pens, touch screen pens, stylus pens for use with touch-screens; tablet computers; computer mice and wireless computer mice; computer keyboards; mobile phones; cellular telephones; mobile phone peripherals, namely keyboards for mobile phones, mobile phone chargers, stands adapted for mobile phones, hands free kits for mobile phones, headsets for mobile telephones, dustproof plugs for jacks of mobile phones, in-car telephone handset cradles; mobile phone accessories, namely cases adapted for mobile phones, straps for mobile phones; smart phones; parts for mobile telephones; network communication apparatus, namely computer network adapters, computer network switches, computer network bridges, computer network server, network routers, network interface cards; electronic communication equipment, namely modems, ethernet adapters, ethernet switches, video cable adapters, fibre-optic cables, fibre optic light and image conduits; telephones; pedometers; downloadable software applications for mobile phones, smart phones, notebook computers, laptop computers, tablet computers, handheld computers for use in digital painting, drawing and sketching, for use in graphic arts design, for organizing and viewing digital images and photographs, for processing digital images, for digital animation, for creating, sending and receiving e-mail, for optical character recognition, for word processing, for computer aided mechanical design, for playing computer games, video games, virtual reality games, and interactive video games, for transmission of graphics and photographs to mobile telephones, smart phones, computers for predictive and corrective text entry for use with mobile phones, smart phones, and computers; and computer video control devices, namely, trackballs, joysticks and gamepads; computer programs, namely operating system programs; computer programs for playing games; computer programs, namely, game software for use on computers and video game players; computer game software; video game software; video and computer game programs; downloadable computer games; downloadable video games; computer programs for controlling the display of television programs, delivered over global information networks; computer programs for managing communications and data exchange between handheld computers and desktop computers; computer programs magnetically recorded on discs or tapes; computer user manuals in electronic format; computers; computers, namely computers for use in automobiles and computer operating systems and computer software programs, namely mapping software, systems monitoring software, and wireless communication software for use in automobiles; wallet-sized personal computers and computer operating systems and computer software programs, namely word processing, scheduling, e-mail administration, and Internet access and navigation software for wallet-sized personal computers; optical disc players and computer operating system software for optical disc players; computer hardware, computer operating systems and computer software programs for sending and receiving television and global communication network transmissions; telephones and computer programs for controlling the operation thereof; telephones for use in telecommunications over global communication networks and computer programs for controlling the operation thereof; entertainment consoles comprising computer hardware and software developed to provide audio, video and multimedia programs such as material from the Internet, and television programs; electronic pagers and software for electronic paging; handheld computers; handheld computers for playing games and operating system software for use therewith; microcomputers; computer software for word processing, spread sheets, database management, e-mail, scheduling, games, electronic reference materials, financial management, and Internet access and navigation; computer application programs and operating system programs for use with communications servers; computer application programs providing connectivity over wide area networks and local area networks for mobile phones, smart phones, computers, televisions, and video game consoles; computer application software to enable uploading, downloading, accessing, posting, displaying, tagging, blogging, streaming, linking, and sharing electronic media and information, namely, photographs, videos, graphical images, text and email messages, text documents, music, and audio recordings, all via the Internet; computer network operating software and utilities; computer network server software for managing user content on computer networks and global computer networks; computer software development tools for network servers and applications; computer software for developing, managing and operating intranet sites; computer software for inventorying and monitoring computer hardware and software assets and use within an organization; computer software for use by computer network administrators to deploy and manage application software and network server software; computer software for wireless telecommunications for use with wireless devices, namely software for enabling smart phone, portable computers, mobile phones to connect to wide area networks; operating systems software for use in playing electronic games; security software,

namely computer software for managing secure communications over computer networks and global computer networks; computer software for use in browsing, accessing, searching, reviewing, purchasing, downloading, and providing ratings on digital content, namely digital images, television shows, movies, computer games, and gift cards; computer software for use in searching and making purchases in online marketplaces for software applications; computer software for electronic transmission via the Internet and display of digital content, namely digital images, television shows, computer games, movies; computer software, namely computer operating system programs and utilities, namely, computer utility file compression and synchronization programs and backup software; video game machines for use with televisions and computers, and operating system software for use therewith; computer software for viewing, searching and playing pre-recorded audio and Internet radio; computer software and computer programs for database management, data storage and backup, creating virtual reality and mixed reality environments on a computer network, business and social networking, online business and social collaboration between individuals and organizations, remote Internet access, remote technical support, cloud computing, data sharing, data security, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, text messages, emails, digital images and photographs, documents, publications, videos, comments and multimedia content among users, for content management, for online project management, for web conferencing, for creating, offering, hosting and delivering online meetings, demonstrations, audiovisual presentations, and interactive discussions for others, operating system programs; computer software for use in enterprise resource planning (erp) and customer relationship management (crm) in the fields of business operations, business management, accounting, marketing, ecommerce; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer operating system software; computer software for playing video games and computer games, computer network security, anti-virus protection, and intrusion detection and prevention; computer graphics and graphical user interface software; computer software for running development programs and application programs in a common development environment; website development software; computer software that provides web-based access to applications and services through a web operating system or portal interface; computer software for developing and operating cloud computer networks and applications; computer software for computer system and application development, deployment and management; hardware for telecommunications for connecting devices via in home phone and electrical wiring, namely, computer networks hubs, computer servers, set-top boxes, computer switches and computer routers designed to provide in-home voice over Internet protocol (voip) communications; computer and video game systems devices, namely, motion sensors and biometric sensors, cameras, projectors, headphones, and microphones; electronic game equipment, namely, display video screens adapted for video games, peripheral devices, namely, monitor stands, controller stands, glasses, headsets, headphones, microphones, floor mats, keypads, and styluses for communicating with a television or computer for playing electronic games; computer software for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; wearable computers, namely smart rings, smartwatches, smart glasses, wearable video display monitors, wireless headsets for use with smartphones, wireless headsets for use with mobile phones, smart bands [measuring instruments], wearable activity trackers, virtual reality and mixed reality glasses and headsets; wearable computer peripherals, namely wireless computer scanners, wireless computer mice, wireless keyboards for mobile telephones, wireless keyboards for computers; virtual reality headsets for use in visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; keyboards, mice, styluses, monitors, scanners, cameras, microphones, projectors, electric cables and cords for mobile devices for remotely accessing and transmitting data; computer display monitors; computer software, namely, software for setting up, operating, configuring, and controlling wearable computer hardware and wearable computer peripherals; carrying cases and holders for use with virtual reality headsets; eyeglasses; optical devices, namely, eye pieces for helmet mounted displays; optical glasses; optical lenses; spectacles; 3D spectacles; hologram apparatus, namely hologram projectors, headsets and glasses; holographic apparatus, namely holographic projectors, screens, headsets and glasses, for projecting holographic video, still images, graphics and multimedia files; computer hardware and software for automobiles, namely, computer programs for monitoring automobile performance, for mapping and navigation, for electronic mail and wireless digital messaging, mobile phone communication, cellular phone communication for maintaining personal directories, contact lists, address and telephone number lists; computer software and computer programs for virtualization, networking, collaboration, remote access, creating, offering, hosting, and delivering online conferences, tours, presentations and interactive discussions; computer software, namely, a full line of computer software for business productivity, business it service management, business computer devices management, business it security management, business administration and management, accounting, and marketing in the fields of business, and computer software to facilitate e-commerce business transactions via a global computer network; computer operating system software; network access server operating software; computer programs for managing communications and data exchange between computers and electronic device; computer and video game systems devices, namely, electronic sensor devices for capturing gesture, facial, voice, and object recognition, cameras, projectors, headphones, and microphones; computer software for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; downloadable employee platform and software featuring articles, education, engagement, wellbeing, insight, collaboration, communication, artificial intelligence, and deep learning components; computer peripherals for mobile devices for remotely accessing and transmitting data; computer peripherals for displaying data and video; apparatus for recording, transmission or reproduction of sound, images, or data; electronic and optical communications instruments and components, namely, flat panel display screens, display video screens for video games, and touchscreens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; downloadable computer software and mobile software applications for data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, data sharing, data security, access to applications and services through a web operating system or portal interface; downloadable cloud computing software for data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, data sharing, data security, access

to applications and services through a web operating system or portal interface; computer software for monitoring cloud and application performance; downloadable computer software for use in automating the allocation of data processing and computing tasks between computer hardware resources and in private and public cloud environments; downloadable computer software for security information and event management (siem) employing artificial intelligence and machine learning to enable automated responses in real time to security vulnerabilities, threats and events; microcontrollers; computer chipsets; microcontrollers and chipsets for the secure transmission of data; computer hardware modules for use with the Internet of things (iot); computer software and telecommunications apparatus to enable a data connection between Internet of things (iot) devices or mobile connected computing devices and the Internet or secure networks; software application platform for connecting people, services and devices to the Internet; home or industrial process automation software; mobile application software for home or industrial process automation; operating system software for cloud computing services and Internet of things (iot) devices; cloud computing software; application software for cloud computing services; operating software for cloud computing devices and the control and secure management of cloud computing devices; computer software for artificial intelligence (ai) processing; computer chips for artificial intelligence (ai) processing; computers and computer servers for artificial intelligence (ai) processing; computer operating system software; computer operating system software that may be embedded in other software; computer software development tools, for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software for general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software runtime systems, namely, computer software systems comprised of computer software for general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software, namely, application programming interface (api) software for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software, namely, software for implementing a computer programming language, and computer software development tools, for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; integrated circuit modules; integrated circuit cards and components; computer hardware for processing math; computer chips; silicon chips; application data processors; central processing units; software programmable microprocessors; downloadable computer software for collection, storage, analysis and presentation of data for forensic analysis of security events and for security compliance; downloadable computer software for use in data storage and management; downloadable computer software, namely, computer software for real-time analytics and debugging, computer software for user authentication, customer engagement, customer relationship management, computer software for providing messages, push notifications and information in the field of video games, computer software for user data capture, storage, and analysis, computer software for allowing users to perform electronic business transactions via a global computer network, computer software for generating coupon codes, payment processing, payment fraud detection, and computer software for creating, using and managing virtual currency; computer programs for connecting computers to one another and for enabling activities via the Internet; computer programs that provide web-based access to applications and services through a web operating system or portal interface; downloadable computer software for use in assessing, monitoring, administration and management of data centers and datacenter devices, and public and private cloud computing it and application systems and resources; downloadable cloud-computing software for managing cloud computing resources; software for creating and managing cloud, high performance computing, cluster or grid computing resources, hybrid operating system environment and computing networks; software interface for accessing cloud, high performance computing, cluster or grid computing resources, hybrid operating system environment and computing networks for workload management by administrators, managers and end-users; software for policy-based governance, workload scheduling, resource and energy monitoring, control, management and provisioning by administrators, managers, and end users in the nature of automated allocation of computing resources, analysis of computing resource availability and status information, installation of software and provisioning operating system changes, power management, software upgrades management, accounting and usage management for reporting and billing, third-party application integration management, workload policy management, and job scheduling for both batch and interactive jobs across cloud, high-performance computing, cluster or grid computing resources, hybrid operating system environments, and computing networks; software for governance, monitoring, managing, profiling, and indicating available computing and associated resources, namely, for intelligent automation and management of multiple resources, scheduling, operating system provisioning, power management, and computing resource policy implementation that enables administrators, managers, and end users to automate, control, and utilize multiple computing resources across cloud, high-performance computing, cluster or grid computing resources, hybrid operating system environments and computing networks; software for statistical diagnostic and performance monitoring, namely, analysis of utilization of computing resources, analysis of efficiency of use of computer resources, analysis of optimization of computing resources, analysis of fair sharing of computing resources, analysis of load balancing of computer systems, analysis of hybrid operating system environments, and analysis of power consumption in compute environments by organizations, entities, individuals, classifications of quality of service, queues, and computing nodes; software for providing a quality of service for submitted jobs and for scheduling guarantees and job reservations for users, groups, classes, accounts, and levels of quality of service; software for command-line and graphical resource and workload simulation, including simulation of simultaneous instances to explore the effects of configurations and policies on clusters, grids, high-performance computing environments, and computing networks; software for dynamic command-line and graphical management of computing resources, namely, management of software licenses within a single computer administrative domain or across multiple heterogeneous computer administrative domains, hybrid operating system environments, file spaces, network-attached storage media, tape drives, processors, memory, disks, network bandwidth, and other hardware resources; software for interface with and

collection of end-user commands for job, queue, operating system, power consumption, and system management, for internal diagnostic and logging facilities, and for integration of provisioning managers, billing systems, identity and security managers and databases, and translation of resource manager job submissions; software for peer-to-peer collaboration of multiple instances to provide domain-specific policies and to provide native resource management support; downloadable software development kits (sdk); downloadable computer programs for assisting developers in creating program code for use in internal computer networks and global communication networks; computer software development tools; downloadable computer programs for running development programs and application programs in a common development environment; computer programs for assisting developers in creating program code for use in multiple application program; computer software development tools for network servers and applications; downloadable software that enables users to share and collaboratively develop software, computer code and user-generated content; computer programs for developing server applications; computer servers; downloadable computer software development tools; downloadable computer software, namely, software development tools for the creation of mobile Internet applications and client interfaces; computer software for browsing the Internet; downloadable computer search engine software; computer browsing software, namely, software for browsing the global computer network and private networks; search engine software; graphical user interface software; voice-recognition software; computer search engine software; software for designing business processes in a visual form; software for accessing and integrating data from multiple databases, business software applications, and software as a service (SaaS) services; software for designing and automating workflows within and between business software applications and business software as a service (SaaS) services; graphical user interface software, namely, toolbar software for use with search engine software and websites; downloadable computer software, namely, downloadable computer software featuring software in the field of advertising; downloadable computer software featuring software for managing and controlling product display on websites and on-line retail stores; downloadable computer software featuring software for product merchandising; computer application software for advertisers, marketers, and content providers to reach, engage, and interact with online users for the purposes of promotion or advertising; computer software for the design, execution and management of advertising and marketing campaigns; computer software for generating reports and analytics for advertising and marketing campaigns; data processors; data processing apparatus; memories for data processing equipment; mobile data terminal (MDT); downloadable computer software for creating searchable databases of information and data; computer chipset for use in transmitting data to and from a central processing unit; downloadable enterprise software in the nature of a database for non-transactional data and a search engine for database content; network servers; Internet servers; intranet servers; video servers; digital media servers; ip video servers; servers for web hosting; communications servers; downloadable computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; downloadable computer software for managing cryptocurrency transactions using blockchain technology; downloadable computer software for managing and verifying cryptocurrency transactions on a blockchain; transceivers for television and global communication network transmissions that transmit them to a television or other display device, and computer operating programs for use therewith; entertainment system comprising a computer, multiple image display screen and multiple input devices; hand held computers; computer operating system software for use with electronic equipment for playing games; computer programs for managing communications and data exchange between hand held computers and desktop computers; computer software for the transmission, recording, reproduction, display, organization, management, manipulation and review of messages, text, images, files, audio, video and audio-visual content for the facilitation of communications between multiple users via computer networks, communication networks and the Internet; communications software for connecting peer professionals on computer networks or the Internet; computer software for use as an application programming interface (API) for facilitating voice over Internet protocol (voip) calls, phone calls, video calls, text messages, instant messages and online social networking services; computer communication software which enables multiple users to post messages and memoranda, share files, and synchronize calendars; application programming interface (API) software which facilitates online social networking; electronic devices for communications, namely, telephones, handsets, headsets, speakers, microphones, earphones, webcams and video cameras; headphones; downloadable computer software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing information, data, images, and digital files; computer software for use in access control, identification, authentication, security and safety; authenticating application software for cloud computing services; downloadable computer software for managing, filtering, and monitoring access to mobile devices, console and portable gaming devices; downloadable computer software for finding and displaying a user's location; downloadable computer software for global positioning system (GPS) tracking devices; news software and applications; software for buying and selling photographs; consumer safety hardware; consumer safety software; global positioning system (GPS) hardware; global positioning system (GPS) software; vehicle tracking and monitoring software; vehicle tracking and monitoring hardware; video analytics software; downloadable video analytics technology; computer software for artificial intelligence, deep learning, computational kernel optimization, and sparse attention kernels.

CLASS 41

Entertainment; education; training; providing online computer games; providing online non-downloadable game software; electronic games services provided by means of the Internet; games (not downloadable) played via a global computer network; Internet games (non-downloadable); provision of Internet based games; providing computer games and video games for on-line play over computer networks and global communications networks; providing a website featuring non-downloadable game software; providing temporary use of non-downloadable game software; entertainment services, namely, providing temporary use of non-downloadable electronic games, computer games, on-line computer games and video games; entertainment services, namely providing a website featuring information in the field of computer games, games, and home entertainment; entertainment services, namely, providing interactive multiplayer game services for games played over computer networks and global communications networks; providing non-downloadable movies about

social, entertainment, cultural and general interest via a global computer network; providing non-downloadable music and video game sound effects; entertainment services, namely, providing 3D virtual reality environments that allow multiple participants to interact for entertainment purposes; entertainment information; providing entertainment information on the video game and computer game industries; entertainment services, namely, providing interactive entertainment and virtual reality, mixed reality, and augmented reality content, namely, online and non-downloadable audio, video, text, binary, still images, graphics, multimedia files and computer games; providing information, news and commentary in the field of entertainment; providing online augmented reality games; virtual reality game services provided on-line from a computer network; entertainment services, namely, an ongoing series featuring sports provided through television and webcasts; providing information on-line relating to computer games and computer enhancements for games; providing information in relation to computer games, namely, game players information including information regarding a player's identity and preferences, via a website; providing information on the video game and computer game industries, general video game and computer game information, and providing information on computer games, video games and related products and accessories via the Internet; organizing of games; arranging, organizing and conducting conferences and seminars for promotional purposes; entertainment services in the form of television programs, radio, cable, satellite and Internet programs; organization, production and presentation of events for educational, cultural or entertainment purposes; organization and arrangement of video game events for entertainment purposes; organizing e-sports competitions; organizing video game competitions; organizing, arranging, and conducting esports events; organizing, arranging, and conducting esports tournaments; arranging and conducting exhibitions in the nature of computer gaming tournaments and developer conferences for entertainment purposes; providing interactive and/or educational entertainment services; entertainment and education services, in the form of electronic, computer and video games provided by means of the Internet, mobile telecommunications and other remote communications devices; education and entertainment services provided by computer networks, television, mobile telephone, cable and other electronic means; information relating to entertainment or education, provided on-line from a computer database or the Internet or by communications satellite, microwave or other electronic, digital or analogue media; promotional sponsorship of competitions in the field of applying and implementing technology to advance and improve sports games; presentation, preparation, editing and production of cinematographic, televisual, digital and motion picture films, radio and television programs; publishing of computer and video games and computer and video games software; publishing of entertainment and/or educational software; providing non-downloadable online electronic publications, namely, online non-downloadable journals, and interactive online blogs featuring user generated or specified contents about social, entertainment, cultural and general interest; production and presentation of television programs, shows, films, videos and dvds; provision of games, online games, educational services relating to entertainment; organization, production and presentation of competitions, contests, games, game shows, quizzes, fun days, exhibitions, shows, roadshows, staged events, live performances and participation events; booking of tickets for entertainment events; information and advisory services relating to any of the aforesaid; electronic message and chat services for use in connection with interactive games played over computer networks and global communications networks; providing temporary use of non-downloadable images featuring images of characters and scenes from a computer game; providing a website featuring non-downloadable videos in the field of electronic games via communication by cellular phones; software-as-a-service featuring software for playing video games; education services, namely, providing 3D virtual reality environments, avatars, and user interfaces that allow multiple participants to interact for training and educational purposes; providing non-downloadable instructional materials and guidelines in the field of computer software application and user interface design via a website; design and development of instructional and educational materials and guidelines for others in the field of design for computer software, mobile applications, and user interface; providing education and training services, namely, classes, seminars, workshops, and non-downloadable webinars in the field of computers and computer technology; arranging and conducting educational conferences and exhibitions in the field of computer technology; providing information over computer networks and global communication networks in the fields of entertainment, music, interactive games, movies, sports, news relating to current events, and arts and culture; information, advice and consultancy services relating to the aforesaid services; education services, namely, conducting seminars, classes, workshops, online courses, and conferences in the fields of technology, computers, computer software, computer networks, web services, mobile computing, artificial intelligence, cloud computing, software as a service (SaaS), platform as a service (paas), mobile-backend as a service (mbaas), artificial intelligence, software development, game development, databases, and mobile computing; online blog featuring information in the fields of technology, cloud computing, web services, software as a service (SaaS), platform as a service (paas), mobile-backend as a service (mbaas), artificial intelligence, software development, game development, databases, and mobile computing; Internet of things, databases, and mobile computing; educational services, namely, providing conferences, workshops and seminars in the fields of information technology, cloud computing, data analytics, and digital transformation that are accessible live, online, or by recording; organizing seminars, events, conferences, training sessions for educational purposes, namely, promoting and fostering blood plasma donation; arranging and conducting educational conferences, events, programs, seminars, and training sessions for educational purposes, namely, promoting and fostering blood plasma donation; educational services, namely, arranging and conducting educational conferences, events, programs, seminars, workshops and training sessions for promoting and fostering diversity and inclusion in the workplace and distributing course materials and publications in connection therewith; educational services, namely, providing symposiums, conferences, educational speakers, and training in the fields of business management, technology, computer software and hardware, cloud technology, cybersecurity, software application development, data analytics, and digital transformation and distributing course materials and publications in connection therewith; education, namely, drone, aerial and land vehicle data collection education training; providing of training to farmers and agricultural workers in the field of connecting, operating and managing farms and agricultural projects, data collection for agricultural improvements, mapping and monitoring farm equipment and devices, and the usage of computer and technical hardware for farms and agricultural projects; sporting and cultural activities; education services, namely, providing classes, workshops and seminars in the field of business consulting, computer consulting, data collection, data analysis and data management in the field of

agriculture; training services in the field of business consulting, computer consulting, data collection, data analysis and data management relating to the agricultural industry; providing online non-downloadable software for online chat services; software as a service (SaaS) featuring software for use with online chat messaging; providing temporary use of online non-downloadable computer software for providing for interaction of a user with a conversational user interface; providing temporary use of online non-downloadable computer software for retrieving information from a user and delivering to the user context-sensitive information and user-specific information; providing temporary use of online non-downloadable computer software for providing information to a user from an adaptive, artificially intelligent software agent; providing temporary use of online non-downloadable computer software in the field of artificial intelligence, namely, software for converting natural language voice and text into machine executable commands; providing temporary use of online non-downloadable computer software featuring an interpretive interface for facilitating interaction between humans and machines via voice and text message-enabled conversational agents and chat bots; providing temporary use of online non-downloadable computer software for accessing, browsing and searching online databases; providing temporary use of online non-downloadable computer software for converting verbal speech to text; educational services, namely, providing a series of podcasts in the field of cybersecurity, cybercrimes, and the security and vulnerabilities affecting Internet-connected devices, artificial intelligence (AI), Internet of things devices, and emerging technologies; entertainment services, namely, providing a series of podcasts in the field of cybersecurity, cybercrimes, and the security and vulnerabilities affecting Internet-connected devices, artificial intelligence (AI), Internet of things devices, and emerging technology; education services, namely, conducting summits, seminars, classes, workshops, online courses, and conferences in the fields of computers, technology, computer programming, computer software, computer games, artificial intelligence, machine learning, cloud-based technology, Internet technology, big data analytics, business management, business development, entrepreneurship and venture capital financing; providing a website featuring blogs and non-downloadable publications in the nature of articles and newsletters in the fields of computers, technology, computer programming, computer software, computer games, artificial intelligence, machine learning, cloud-based technology, Internet technology, big data analytics, business management, business development, entrepreneurship and venture capital financing; education services, namely, conducting summits, seminars, classes, workshops, online courses, and conferences in the field of innovation; providing a website featuring blogs and non-downloadable publications in the nature of articles and newsletters in the field of innovation; business training consultancy services; teaching and training in business, industry and information technology; business training consultation services, namely, training in the fields of business management, cost reductions, and business models for technology deployment and provision of telecommunications, iot technologies, ai-enabled devices, computer technologies, Internet connectivity, and energy; providing information for youths in the fields of youth education, employment training and entrepreneurship training; providing training programs relating to opportunities for youth in the fields of education, employment, and entrepreneurship; education services, namely, providing training to retail stores in the field of computers of all forms, their accessories and means of providing information about these goods to consumers on the Internet and in retail locations; publication of blogs and non-downloadable publications in the nature of articles and newsletters in the fields of computers, technology, computer software; publication of blogs and non-downloadable publications in the nature of articles and newsletters in the field of computers via a website; education services, namely, arranging, organizing, conducting, and presenting educational seminars, workshops, classes, non-downloadable webinars, educational conferences, online instruction, and distance learning programs, all in the field of technology, computing, productivity, mixed reality, education, gaming, and creative arts; production, distribution, and presentation of radio programs, television programs, motion pictures, sound recordings; entertainment services, namely, providing ongoing television, radio, audio, non-downloadable video, podcast, and webcast programs, all in the field of entertainment, sports, musical, current events, art, culture, technology, computing, productivity, mixed reality, education, gaming, and creative arts; entertainment services, namely, providing entertainment, sports, music, news, and current events continuing programs by means of telecommunications networks, computer networks, the Internet, satellite, radio, wireless communications networks, television, and cable television; entertainment services, namely, providing a continuing program featuring educational, entertainment, sports, music, news, current events, and arts and culture accessible by means of the Internet and web-based computer applications; entertainment services, namely, providing a continuing program featuring information in the field of education, entertainment, music, sports, news, and arts and culture accessible by means of the Internet and web-based computer applications; entertainment services, namely, providing temporary use of non-downloadable computer games, electronic games, interactive games, and video games; providing a website and web-based applications featuring non-downloadable books, periodicals, newspapers, newsletters, manuals, blogs, journals, and magazines and articles in the field of entertainment, sports, musical, current events, art, culture, technology, computing, productivity, mixed reality, education, gaming, and creative arts; providing information in the fields of entertainment, music, movies, videos and interactive games; education services, namely, on-line tutorials in the field of computers, computer networks, cloud computing, computer software and mobile computer; providing information in the fields of education, pop culture, cultural activities and exhibitions, sports, and other non-business and non-commercial fields, namely, the arts, television, films and performance art over computer networks, wireless networks and the Internet and wireless networks; on-line magazine in the field of computers, computer networks, computer software, cloud computing and mobile computing and applications; providing information and training programs relating to opportunities for youth in the field of education, training, employment, and entrepreneurship; education services, namely, providing online tutorials and instruction in the field of design for computer software, mobile applications, and user interface; educational services, namely, providing online instruction in the fields of elementary, secondary, and university-level subjects; providing classes, workshops, and instruction in using voice-enabled software applications; providing non-downloadable prerecorded music; educational services, namely, providing symposiums, conferences, educational speakers, and training in the fields of business management, technology, computer software and hardware, cloud technology, cybersecurity, software application development, data analytics, and digital transformation; educational services, namely, providing educational programs to build and grow sustainable computer science programs through partnerships between classroom teachers and technology industry volunteers in the fields of

technology education and literacy in schools; educational services, namely, training educators in the fields of computer science through partnerships between classroom teachers and technology industry volunteers in the fields of technology education and literacy in schools and providing curricula in connection therewith; developing curriculum for others in the fields of science, technology, engineering and math; providing education information in the fields of science, technology, engineering and math for teachers and students; developing educational lesson plans for others in the fields of science, technology, engineering and math; educational services and entertainment, namely, providing incentives to students to demonstrate excellence through the issuance of awards and recognition, all in the fields of innovation and technology; arranging and conducting educational competitions for students and participants in the fields of innovation and technology; educational and training services, namely, providing classes, workshops, seminars, conferences, non-downloadable videos and webinars in the field of computers, software, technological developments and information technology; providing a website featuring non-downloadable articles, videos, and blogs featuring information in the fields of computers, software, technological developments and information technology; educational services, namely, providing a web video series for an enterprise audience in the field of computing and digital transformation; educational services and entertainment, namely, sponsoring competitions and providing incentives to students to demonstrate excellence through the issuance of awards, all in the fields of computers, computer programming, computer coding, web design, graphic design, animation, video game design and development and application software development; providing live and on-line classes, seminars, and workshops in the fields of computers, computer science, computer programming, web design, computer coding, graphic design, animation, video game design and development, and application software development; providing a website featuring resources, namely, a website featuring primarily non-downloadable publications in the nature of blogs, articles and catalogs in the field of computers, computer science, computer programming, web design, computer coding, graphic design, animation, video game design and development, and application software development and also featuring non-downloadable software for use in software development in the fields of computers, computer science, computer programming, web design, computer coding, graphic design, animation, video game design and development, and application software development; education, namely, providing training and tutorials in the field of computer searching and online advertising; entertainment services, namely, providing interactive on-line computer games via local computer networks and global communication networks; providing information in the fields of movies and sports via local computer networks and global communication networks; providing educational information for use in preparing lesson plans in the fields of art, foreign languages, health, information technology, language arts, math, philosophy, physical education, religion, science, social studies and vocational education via computer networks and global communication networks; on-line education services, namely, providing information on specific educational programs, namely, information in the fields of academic programs such as adult and continuing education programs, information on specific colleges and universities, community colleges, information on online educational courses, information on financial aid programs provided by educational institutions, information on graduate studies programs, information on programs featuring courses of instruction for k-12 education, information on educational exchange programs, information on programs featuring theory and methods of education, information on home schooling programs, all offered via computer networks and global communication networks; education services, namely, providing training for software developers in the field of software development; education services, namely, providing training for software developers in the field of software development via the use of non-downloadable and downloadable training software; entertainment services, namely, providing an interactive website featuring information and links relating to entertainment news, music, movies, video, games, news, sports, language translation and fitness and that mainly consists of links to other websites; entertainment services, namely, the production of television programs and distribution of television programs for transmission by others; providing information, news and commentary in the fields of entertainment, popular culture, recreation and leisure activities, sports and sporting events, educational services, concerts, cultural events, and live theatrical productions; providing information relating to the organizing of educational, cultural, sporting, and entertainment exhibitions, and community festivals, sporting and cultural activities, contests and games; on-line information services, namely, providing reference and encyclopedic information in the fields of science, technology, geography, history, social science, religion, philosophy, art, language, literature, performing arts, sports, hobbies and pets; providing non-downloadable audio publications over computer networks, namely, books, periodicals, and reports on the subjects of education, entertainment, popular culture, recreation and leisure activities, sports and sporting events, technology, concerts, cultural events, and live theatrical productions; providing advice and information in the field of educational and entertainment activities and events for children; education services, namely, conducting and promoting exhibitions, tradeshow, summits, seminars, classes, workshops, online courses, and conferences in the fields of computers, technology, computer programming, computer software, computer games, artificial intelligence, machine learning, cloud based technology, Internet technology, big data analytics, business management, business development, the Internet of things, entrepreneurship and venture capital financing; research in the field of education; computer education training services; providing information in the field of education; organizing conventions for cultural or educational purposes; providing information on-line relating to educational opportunities; providing current event news via a global computer network; advisory and information services related to the foregoing.

CLASS 42

Cloud computing services; as a service (SaaS); platform as a service (paas); computer software rental; rental of computer software and programs; computer software design; software design and development; updating of computer software; developing and updating computer software; rental of application software; software authoring; computer software development; computer software consultancy; software development in the framework of software publishing; maintenance of computer software; maintenance of software for Internet access; customizing computer software; developing computer software; software design and development; smartphone software design; installation of computer software; rental of software for Internet access; research and development of computer software; debugging computer software for others;

computer hardware and software design; design and development of computer hardware and software; advisory services relating to computer software; computer services, namely, providing on-line non-downloadable software for database management, data storage and backup, virtualization, networking, collaboration, remote access, remote support, cloud computing, data sharing, data security, access, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for content management, online project management, creating, offering, hosting, and delivering online conferences, meetings, demonstrations, tours, presentations and interactive discussions, word processing programs, operating system programs; data as a service (DaaS) services; data encryption services; data decryption services; data migration services; electronic data back-up services; cloud storage services for electronic data; cloud storage services for electronic files; consulting services in the field of cloud computing; computer services, namely, cloud hosting provider services; infrastructure as a service (IAAS) services, namely, hosting servers for use by others; platform-as-a-service (PaaS), infrastructure-as-a-service (IAAS) and software-as-a-service (SaaS) services featuring computer software platforms for creating web applications, data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, cloud computing, data sharing, data security, access, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for content management, online project management, creating, offering, hosting, and delivering online conferences, meetings, demonstrations, tours, presentations and interactive discussions; online non-downloadable software for computer operating systems; providing online non-downloadable computer programs for accessing global communication networks; online non-downloadable software for downloading, streaming, and playing music, audio, videos, multimedia content, podcasts, and Internet radio broadcasts; update, installation and maintenance of computer software; computer services, namely, updating computer software for others via the Internet and wireless networks; computer hardware and software testing services; design and development of computer software and software architecture in the field of machine learning, deep learning, and artificial intelligence solutions; software as a service (SaaS) featuring artificial intelligence, machine learning, and deep learning applications and computer software platforms; software as a service (SaaS) featuring software for executing deep learning, machine learning, hierarchical learning, artificial intelligence, automatic speech recognition, and natural language processing programs; providing a web site that gives users the ability to upload images; providing a web site featuring technology that enables online users to create personal profiles featuring social networking information; computer services, namely, creating virtual communities for registered users to participate in discussions and engage in social, business and community networking; application service provider (ASP), namely, hosting computer software applications of others; application service provider (ASP) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, blogging, linking, sharing or otherwise providing electronic media or information over communication networks; software as a service (SaaS) services featuring software for sales management, customer service management, business operations management, financial and finance operations management, remote and field service operations management, project service automation management, marketing campaign planning and management, customer relationship management, enterprise resource management, sales and marketing information management, personnel and project management, facilities management, Internet of things management, software development and customization, the analysis, warehousing, processing and management of data, big data management, security and authentication, social media management, peer-to-peer communications, email account management, word processing, and cloud computing for use with all of the foregoing; hosting the software, websites, and other computer applications of others on a virtual private server; intelligent natural language understanding services using cloud-based software technology; user authentication services using single sign-on technology for online software applications; providing temporary use of online, non-downloadable enterprise software for customer relationship management, enterprise risk management, security, datacenter, data warehousing, cloud, hosting, mobile application, artificial intelligence, machine learning, word processing, and multimedia functions; intelligent natural language understanding services using cloud-based software technology; cloud services, namely, providing on-line non-downloadable operating software for accessing and using a cloud computing network; cloud hosting provider services; providing virtual computer systems and virtual computer environments through cloud computing; providing cloud computing services, namely, cloud hosting provider services and cloud computing featuring software for uploading, downloading, integrating, encoding, decoding, formatting, organizing, caching, transferring and streaming of text; providing virtual computer systems, graphics processing units (GPUs), and virtual computer environments through cloud computing; providing information in the fields of the development of computer systems, cloud computing environments, networks and software over computer networks, wireless networks and global communications networks; computer services, namely, remote hosting of operating systems and computer applications for others on a virtual private server; rental of computing and data storage facilities of variable capacity; providing, developing, and designing on-line non-downloadable software accessible over a global computer network for managing computer applications; designing and developing electronically stored web pages for online services on the Internet; data warehousing; elaboration and maintenance of web sites for third parties; managing web sites for others; rental of web servers; server hosting; rental of a database server to third parties; displaying the web sites and images of others on a computer server; computer services, namely, hosting and maintaining an on-line web site for others to collaboratively develop software; hosting an on-line community web site featuring a distributed control system for the collaborative development of software; platform as a service (PaaS) and software as a service (SaaS) services featuring computer software platforms for the collaborative development of software; design and development of networks and network software and applications; computer hardware and software development; providing temporary use of on-line non-downloadable software development tools; troubleshooting of computer software problems; technical support services, namely, troubleshooting of computer hardware, software, web, database and mobile applications; computer services, namely, providing technical support, information and consultation services, namely, troubleshooting in the nature of diagnosing problems in computer hardware, computer software and computer operating systems; consulting in the field of information technology; consulting in the field of cloud computing networks and

applications; development of software for secure network operations; design and development of computer game software; design and development of virtual reality software; design and development of computer hardware in the field of games, video games, and game content; platform as a service (paas) featuring computer software platforms for use in software development in the field of gaming and graphic design; providing temporary use of online non-downloadable software and software as a service (SaaS) services featuring software for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, text, games, game content, digital media, images, music, audio, video and animations; providing temporary use of online non-downloadable software and software as a service (SaaS) services featuring software for purchasing and subscribing to digital media content; providing temporary use of online non-downloadable software and software as a service (SaaS) services featuring software for developing and publishing applications for interactive streaming; providing temporary use of online non-downloadable software and software as a service (SaaS) services featuring software for television (TV) programming; providing temporary use of online non-downloadable software and software as a service (SaaS) services featuring software for management and storage of digital media; providing temporary use of online non-downloadable software and software as a service (SaaS) services featuring software for parental control for enabling access to games, namely, electronic, computer, and video games; computer software consulting services in the field of gaming technology and graphics software; consulting services in the field of software as a service (SaaS); computer software development in the field of mobile applications; platform as a service (PaaS) featuring computer software platforms for gaming and graphic design; online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the Internet; providing temporary use of non-downloadable software for mapping and directions, language translation, and accessing information related to entertainment, travel, finance, news, sports, weather, food and drink, and health and fitness consisting mainly of links to other websites; providing Internet search engine services; providing a website featuring a media aggregator and search engine for Internet content; providing customized on-line web pages featuring user-defined information, which includes search engines and on-line web links to other web sites; providing temporary use of non-downloadable computer software applications for business related news and information; providing temporary use of non-downloadable computer software applications for non-business related news and information that mainly consists of links to other websites in the fields of entertainment, travel, finance, news, sports, weather, food and drink, maps, language translation, and health and fitness; computer services, namely, providing specific information as requested by customers via the Internet; computer network design and computer software design in the field of the telecommunications industry; non-downloadable software for wireless network management; design, development, and implementation of software in the field of white space telecommunications and Internet connectivity; research, development, design and upgrading of computer software; research services in the field of white space telecommunications and Internet connectivity; design, deployment and management of wireless Internet computer networks for others; creating and hosting online communities for business and technology professionals, entrepreneurs, researchers, investors, service providers, academics, students, experimenters, and others who are involved in Internet of things business and/or technology; computer services, namely, hosting and maintaining an on-line web site for others for educational purposes in the fields of reading, writing, science, technology, engineering and math for use by teachers and students; testing, analysis, and evaluation of the knowledge, skills and abilities of others for purposes of credentialing in the field of in the field of computers, software development, artificial intelligence, security and information technology, cloud solutions, and electronic business transactions via a global computer network; research services in the field of information and telecommunications technology; development, maintenance, and updating of a telecommunication network search engine; telecommunications technology consultancy; research in the field of telecommunications technology; computer programming services to create online facilities that will provide telecommunications support; technological research of computer software and hardware; research and development of advanced learning technologies and teaching methods for developing artificial intelligence and machine learning capacities; product research and development; research and development of computer software; scientific research on the topics of the advancement of artificial intelligence, computing technology, human interactions with technology and digital security, data mining and management, accountability and personal responsibility; charitable services, namely, providing computer software for those in need; updating of computer software relating to computer security and prevention of computer risks; providing information in the fields of technology and software development via an on-line website; providing temporary use of non-downloadable computer anti-virus software; application service provider featuring application programming interface (API) software; electronic storage of cryptocurrency for others; providing technology information in the field of cryptocurrency; providing on-line non-downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; providing temporary use of non-downloadable web-based decentralized applications (DAPPs) for blockchain contracts, cloud storage of data, web browsing, and cryptocurrency trading; computer security services in the nature of administering digital certificates; computer security services in the nature of administering digital keys; providing temporary use of on-line non-downloadable software development tools; platform-as-a-service (PaaS), infrastructure-as-a-service (IAAS), software-as-a-service (SaaS) services, artificial intelligence software, and mobile-backend-as-a-service (MBAAS) services, namely, employee hubs featuring software for employee engagement, employee collaboration, employee messaging and communication, sharing information, well-being features, providing training, skill enhancement features, skill development features, and education; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and web sites, of others in the fields of advertising and marketing; online non-downloadable computer software for security information and event management (SIEM) employing artificial intelligence and machine learning to enable automated responses in real time to security vulnerabilities, threats, and events; artificial intelligence (AI) processing online non-downloadable software; computer diagnostic services; computer programming services; computer consultancy and technical support, all relating to the design and use of computer programs, computers, computer hardware and computer systems; providing temporary use of on-line non-downloadable software for instant messaging, enabling and managing

multiple modes of communication over local area networks and the Internet via instant messaging, voice over Internet protocol (VOIP), video conferencing, audio conferencing, computer desktop sharing, file transfer, sensing and providing user presence information, and telephony; computer software consultancy which provides technical information; hosting of digital content on the Internet; computer software rental; platform as a service (PaaS) featuring computer software platforms which enable multiple users to post messages and memoranda, instant message, share files and synchronize calendars; online non-downloadable software for microprocessors; online non-downloadable software development kits (SDK); hosting of memory space on the Internet for storing digital photographs; providing temporary use of online non-downloadable software for managing, filtering, and monitoring access to mobile devices, console and portable gaming devices, applications, games software and Internet usage; providing temporary use of online non-downloadable software for finding and displaying a user's location and global positioning system (GPS) tracking devices; platform-as-a-service (PaaS), infrastructure-as-a-service (IAAS), software-as-a-service (SaaS) services, and mobile-backend-as-a-service (MBAAS) featuring computer software platforms for deploying virtual machines to a cloud computing platform, diagnostics and analysis, syncing, storing, and archiving data, analyzing data, database design and development, creating web applications, data storage, data storage, and archiving and backup of data, electronic media, and digital content; computer services, namely, creating cloud-based indexes of information; consulting services in the field of cloud computing technology, infrastructure-as-a-service (IAAS) cloud computing technology, software-as-a-service (SaaS) cloud computing technology, platform-as-a-service (PaaS), and mobile-backend-as-a-service (MBAAS) cloud computing technology; online software for buying and selling photographs; online websites for buying and selling photographs; software for consumers; safety software for consumers; security processing software; vehicle tracking and monitoring software; computer software for artificial intelligence, deep learning, computational kernel optimization, and sparse attention kernels; software as a service (SaaS) services featuring non-downloadable software for use in connection with developing video analytics applications; platform as a service (PaaS) services featuring non-downloadable computer software platforms for use in connection with developing video analytics applications; software as a service (SaaS) services featuring non-downloadable computer software used for data and video capture, storage and analysis; platform as a service (PaaS) featuring non-downloadable computer software platforms used for data and video capture, storage and analysis; providing information in the field of development of video analytics software via a website; providing information about video analytics software via a website; information, consultancy and advisory services relating to the foregoing.

GENERAL INFORMATION II

TRADEMARKS ACT 2019 (Act 815)

PUBLICATION OF ACCEPTANCE OF INTERNATIONAL REGISTRATION DESIGNATING
MALAYSIA

Pursuant to regulation 71 of the Trademarks Act 2019, the following international registrations designating Malaysia have been accepted and are hereby published in Intellectual Property Official Journal under section 148 of the Trademarks Act 2019.

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Pursuant to subsections 35(1) and 35(2) of the Trademarks Act 2019 and subregulation 72(1) of the Trademarks Regulations 2019, a notice of opposition to oppose the registration of the international registrations designating Malaysia which shall include the statement of the grounds of such opposition may be filed together with payment of the prescribed fee with the Registrar of Trademarks within two months from the date of the publication of the acceptance of such international registrations designating Malaysia in the Intellectual Property Official Journal.

Notwithstanding the above paragraphs, pursuant to subsection 153(1) of the Trademarks Act 2019 and subregulation 72(2) of the Trademarks Regulations 2019, the request for an extension of time may be allowed at the discretion of the Registrar of Trademarks for not more than two months after the expiry of the period for filing the notice of opposition

CLASS 6

Iron and steel; nonferrous metals and their alloys; copper and its alloys; copper alloys containing beryllium; copper alloys containing nickel and tin; wires made of copper alloys; cermets; metal materials for building or construction; metal pulleys, springs and valves [not including machine elements]; metal junctions for pipes; metal flanges; reservoirs of metal; metal hardware.

CLASS 7

Metalworking machines and tools and apparatus and their parts and fittings; moulds and dies for metal forming; chemical processing machines and apparatus and their parts and fittings; agitators for chemical processing and their parts and fittings; blending machines for chemical processing and their parts and fittings; dust collecting machines for chemical processing and their parts and fittings; sintering machines for chemical processing and their parts and fittings; calcining machines for chemical processing and their parts and fittings; cleaning apparatus for chemical processing and their parts and fittings; reaction vessels being parts of machines for chemical processing and their parts and fittings; separating machines for chemical processing and their parts and fittings; filtering machines for chemical processing and their parts and fittings; separation membrane for chemical processing machines and apparatus; separation membrane for gas separation apparatus for chemical processing; separation membrane being parts of machines for separating carbon dioxide or nitrogen from gas for chemical processing; separation membrane being parts of machines for water separators; separation membrane for machines for pharmaceutical processing industry; food or beverage processing

machines and apparatus and their parts and fittings; plastic processing machines and apparatus and their parts and fittings; moulds being parts of machines for processing plastics; semiconductor manufacturing machines and systems and their parts and fittings; ultrapure water antistatic device for semiconductor manufacturing process; ultrapure water antistatic device for liquid crystal panel manufacturing process; machines and apparatus for manufacturing rubber goods and their parts and fittings; moulds being parts of machines for use in the manufacture of rubber goods; non-electric prime movers, not for land vehicles; parts of non-electric prime movers; a catalyst carrier for exhaust gas purifiers of internal combustion engines; a filter for exhaust gas purifiers of internal combustion engines; a catalyst carrier to be incorporated into a catalytic converter; pneumatic or hydraulic machines and instruments and their parts and fittings; pumps [machines]; vehicle washing installations; shafts, axles or spindles, machine elements other than land vehicles; bearings, machine elements not for land vehicles; shafts, couplings or connectors, machine elements not for land vehicles; valves, machine elements not for land vehicles; waste compacting machines and apparatus for industrial purposes; waste crushing machines for industrial purposes.

CLASS 8

Tweezers; hoes [hand tools]; digging forks [spading forks]; rakes [hand tools]; bladed or pointed hand tools and swords; edge tools [hand tools]; hand tools, hand operated, other than bladed or pointed hand tools.

CLASS 9

Ozonisers [ozonators]; electrolyzers [electrolytic cells]; fire extinguishers; fireplugs; fire hoses; fire hose nozzles; sprinkler systems for fire protection; fire alarms; gas alarms; anti-theft warning apparatus; burglar alarms; laboratory apparatus and instruments; furnaces for laboratory experiments and their parts and fittings; DNA chips; separation membrane for laboratory apparatuses and instruments; projectors and their parts and fittings; photographic apparatus and instruments; cinematographic apparatus and instruments; optical apparatus and instruments; lenses to narrow irradiation range of LED, such as UV-LED and IR LED; lenses for LED; measuring or testing machines and instruments; sensors for measuring nitrogen oxide concentration in exhaust gas; measuring instruments for genetic analysis; apparatus for analysing gases; solar batteries; fuel cells; power distribution or control machines and apparatus; rotary converters; phase modifiers; electric switches; electric circuit closers; lightning arresters; cut-out switches; bushings for use in insulating and supporting high voltage conductors; batteries and cells; electrical cells and batteries; accumulators, electric; electric power storage equipment utilizing sodium-sulfur; lithium-ion secondary batteries; nickel-zinc secondary batteries; zinc battery; electric or magnetic meters and testers; detectors [electric or magnetic meters and testers]; resistance measuring instruments; electric wires and cables; personal digital assistants in the shape of a watch; smartphones; covers for smartphones; covers for cell phones; smartphone straps; cell phone straps; telecommunication machines and apparatus and their parts and fittings; repeater housings or enclosures for submarine optical communication cables; electronic machines, apparatus and their parts; semi-conductor elements; light-emitting diodes [LED] and their parts and fittings; laser diodes and their parts and fittings; electronic circuits and their parts and fittings; integrated circuits and their parts and fittings; circuit boards and their parts and fittings; wafers for semi-conductor and their substrates; wafers for an electronic device and their substrates; packages for semiconductor and their parts; packages for LED [light-emitting diodes] and their parts; gallium nitride wafers and their substrates; wafers for surface acoustic wave filters and their substrates; actuators for inkjet printers; hard disc drive actuators; piezoelectric actuators for cameras; wavelength conversion elements utilizing cyclic polarization inversion; wavelength conversion apparatuses utilizing cyclic polarization inversion; ultrasonic sensors; magnetic cores; resistance wires; electrodes.

CLASS 11

Drying apparatus for chemical processing; recuperators for; chemical processing; steamers for chemical processing; evaporators for chemical processing; distillers for chemical; processing; heat exchangers for chemical processing; gas; purification apparatus [as parts of industrial installation]; for chemical processing; separation membrane for gas; purification apparatus [as parts of industrial installation] for; chemical processing; separation membrane for natural gas; purification apparatus [as parts of industrial installation] for; chemical processing; milk sterilizers; pasteurisers; industrial;

furnaces or kilns and their parts and fittings; nuclear reactors; boilers, other than parts of non-electric prime movers or engines; air conditioners for industrial purposes; tap water faucets; level controlling valves in tanks; pipe line cocks; waste water treatment tanks for industrial purposes; septic tanks for industrial purposes; separation membrane for waste water treatment apparatus for industrial purposes; garbage incinerators; garbage incinerators for industrial; purposes; incinerators to treat industrial waste; water purifying apparatus for industrial purposes and their parts and fittings; separation membrane for water purifying apparatus for industrial purposes; disinfectant apparatus for medical purposes; electric lamps and other lighting apparatus and their parts and fittings; luminous tubes for lighting and their parts and fittings; arc tubes for lighting and their parts and fittings; lighting apparatus for vehicles; household electrothermic appliances; electric water purifiers for household purposes; household tap-water filters, non-electric; apparatus for filtering drinking water; fittings, shaped, for industrial furnaces and kilns.

CLASS 16

Pastes and other adhesives for stationery or household purposes; containers of paper, for packaging; bags [pouches] of plastics, for packaging; food wrapping plastic film for household use; tablemats of paper; banners of paper; flags of paper; hygienic hand towels of paper; paper towels; table napkins of paper; hand towels of paper; handkerchiefs of paper; paper and cardboard; stationery; pocket memorandum books; day planners; notepads; writing instruments; seals [stationery]; bookmarks; staplers for offices, non-electric; stickers [stationery]; stationery notes containing adhesive on one side for attachment to surfaces; masking tape (stationery); clear letter files; name badge holders [office requisites]; printed matter; picture postcards; calendars; diaries; photographs [printed]; photograph stands.

CLASS 17

Valves of rubber or vulcanized fiber [not including machine elements]; gaskets; non-metal pipe couplings and joints; joint packings; electrical insulating materials; electrical insulators; hollow insulators; rubber [raw or semi-worked].

CLASS 18

Industrial packaging containers of leather; bags; folding brief cases; shoulder bags; gladstone bags; Japanese wicker trunks [kori]; briefcases; suitcases; carry-on bags; tote bags; trunks; handbags; boston bags; schoolchildren's backpacks; rucksacks; pouches; shopping bags, including wheeled shopping bags; purses; money pouches; business card cases; card cases [notecases]; commutation ticket holders of leather; credit card holders of leather; card holders of leather; key cases; wallets; commutation-ticket holders; luggage tags; vanity cases, not fitted; umbrellas and their parts.

CLASS 19

Ceramic building materials, bricks and refractory products; refractory mortars; insulating refractory bricks; refractory construction materials, not of metal, for industrial furnaces or kilns; water-pipe valves, not of metal or plastic.

CLASS 20

Cushions [furniture]; Japanese floor cushions [zabuton]; pillows; mattresses; hand-held flat fans; hand-held folding fans; furniture; wind chimes; pocket mirrors; pocket mirror bags.

CLASS 24

Woven fabrics; woven textile goods for personal use; towels [of textile]; Japanese cotton towels [tenugui]; handkerchiefs; Japanese ceremonial wrapping cloth (fukusa); Japanese general wrapping cloth (furoshiki); table napkins of textile; coasters of textile; dish towels for drying.

CLASS 28

Amusement machines and apparatus for use in amusement parks; toys; dolls; paper toys; assorted pieces of folding paper [origami]; plush toys; stuffed toys; toy construction sets; go games; Japanese chess (shogi games); Japanese playing cards (utagaruta); dice; Japanese dice games (sugoroku); cups for dice; chinese checkers [games]; chess games; checkers games; conjuring apparatus; dominoes; playing cards; Japanese playing cards (hanafuda); mah-jong; sports equipment; golf equipment; golf balls; head covers for golf clubs; fishing tackle; butterfly nets.
