GENERAL INFORMATION

TRADE MARKS ACT 1976

(Act 175)

PUBLICATION OF APPLICATION FOR REGISTRATION OF TRADE MARKS

Pursuant to section 27 of the Trade Marks Act 1976, the following applications for registration of trade marks have been accepted and hereby published in Intellectual Property Official Journal according to subregulation 120 (3) of the Trademarks Regulation 2019.

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Notice of opposition to an application for registration of a trademark may be filed unless extended at the discretion of the Registrar, within two months from the date of publication accompanied by prescribed fee.

Engineering services; engineering services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; engineering services relating to the extraction, processing, treatment and utilisation of oils sands; scientific and technological services; research and design services; industrial analysis and research services; engineering design services; concept and realisation design services; engineering and feasibility studies; concept development and design evaluation services; engineering services in the fields of structural engineering, process engineering, instrumentation and telecommunications,

electrical and electronics, mechanical engineering, piping layout, power generation and industrial plants; design and development of computer hardware and software; design and development of computer hardware and software for use in the oil and gas industries and for oil field exploration and searching; oil and gas exploration and production services; provision of technical research and support for the oil and gas industries; operation support and logistic services for the oil and gas industries; provision of engineering workshop facilities; calibration services; measurement services; provision of quality control services; certification services; acceptance testing and commissioning; system integration testing; authentication testing; testing of apparatus and equipment; technical testing services; safety testing of products and apparatus; provision of testing and inspection facilities for oil and gas equipment and apparatus; material testing services; scientific testing services; engineering testing services; laboratory services for testing purposes; industrial testing of engineering projects; rental, hiring and leasing of equipment and apparatus for use in the oil and gas industries; commissioning services (engineering and technology); commissioning of oil wells and gas wells; decommissioning of oil wells and gas wells; welding research services; surveying; provision of analysis, testing and research facilities for engineering projects; environmental protection services; environmental planning services; environmental design services; concept design services; geological research and exploration services; operation and control of oil and gas exploration and production; engineering drawing services; cad services; technical documentation and reports for engineering projects; graphic design services and graphic services for technical and engineering drawing; engineering design, research and development services for others; technical research for others; civil engineering design services; technical validation services; engineering validation services; appraisal and selection of licensors and licensor coordination; engineering design services relating to planning, architecture, civil engineering, mechanical engineering, design engineering, fire engineering, petrochemical engineering and industrial plants; mechanical systems design services; provision of safety advice in relation to engineering or production projects and industrial plants and processes; provision of hazard and operability studies; control system design services; software engineering services; design of it systems; design and planning services associated with equipment and plant layout; engineering and technological assistance for procurement of environmental permits; materials handling systems design services; geotechnical engineering services; environmental engineering services; piping systems design and layout services; design of ventilation, heating and air conditioning systems and apparatus; instrument and control engineering services; design of engineering project specifications; planning services; engineering design and coordination and consultancy services; industrial plant optimisation services; industrial plant operation services; engineering modelling and process modelling services; computer modelling services; finite element modelling; finite element analysis services; thermodynamic modelling; laboratory measurement interpretation and modelling; computerised process evaluation services; process simulation and optimisation of industrial plants and projects; process troubleshooting services; hazard identification services including the aforesaid services provided by means of computer modelling; computational fluid dynamics engineering services; engineering and technological services for the automation of systems and industrial plants; process engineering services; energy auditing services; seismic analysis services; product design services; plant and site safety and safety management services; engineering and technical due diligence services; environmental due diligence services; engineering and technical assessment services; benchmarking (technical) testing; plant, apparatus and equipment inspection and testing; consultancy services relating to environmental issues; preparation of technical and engineering operating manuals; engineering and technical development of projects and industrial plants; evaluation and testing of materials; engineering operational support services; remote well control system design services; engineering feasibility studies; conceptual engineering design services; technical commissioning supervision; engineering automation and control services; system engineering services; engineering specification, integration and implementation services; project certification services; technical supervision and inspection; technical handover services; engineering permit to work coordination; engineering audit reviews for integrity process status; data collection and document management; technical writing and illustration; civil infrastructure engineering and construction; decommissioning, dismantling, reengineering, installation and commissioning of engineering projects and plants; engineering and technical consultancy services in the fields of oil and gas production, pipeline and processing facilities; design of information systems relating to management; technical information and knowledge management; laser scanning services; plant and installation surveying services; engineering plant design management systems; development of interactive multi-media software; software design services for the design and data management of subsea systems, pipelines and risers; valve engineering services; process optimisation, asset integrity management and project document control; provision of computerised engineering management systems; technical and software authoring; editing of computer programmes; engineering lifecycle integrity services; technical and engineering advice relating to fire engineering services; engineering project management relating to the design, commissioning and engineering operations for industrial and process plants; design and development of lifecycle management software; inspection and calibration of safety systems, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; technical project planning and design engineering; design engineering in relation to

material handling systems for use in mines; electrical engineering services; mechanical engineering; geotechnical engineering; process engineering; industrial process engineering; thermal engineering; instrument control engineering; fire engineering, energy and flare surveys; design services; mechanical systems design; electrical systems design; packaging systems design; piping systems design; materials handling systems design; heating, ventilating and air conditioning systems design; production design, software engineering; provision of technical information; data analysis and conversion; data mining; computer services; providing non-downloadable software; technological studies and technical studies relating to projects, products and industrial processes, including industrial process development; technological and technical studies, namely studies relating to electricity grid codes and the connection of facilities to electricity networks; technological services for the automation of systems; preparing, designing and conducting energy studies; preparing, designing and conducting audits including audits in the field of mining reserves and in the field of energy; preparing, designing and conducting energy surveys; conducting of technical feasibility studies; technical consultation in the field of delayed coking; technical consultation in the field of energy and emissions management, including solvent deasphalting, visbreaking, hydrogen production and sulphur/tail gas treatment; seismic analysis services; architectural services; structural design services; building condition surveys; landscape management and design; surveying services including the surveying of land, quantity surveying, conducting engineering surveys, conducting geological surveys and oil and gas field surveys; environmental inspection, planning, engineering, assessments, testing and surveys; energy optimisation services; process optimisation services; yield improvement services; system integration services; project validation services; plant audits and surveys; equipment inspection and assessment including the assessment of plant and machinery; quality control of installations; product quality assessment services; materials testing services, including product testing, material testing; industrial process evaluation, simulation and modelling; industrial process troubleshooting, industrial process simulation and optimisation, industrial hazard identification; safety advice in relation to engineering or production projects or processes, hazard and operability studies; oil and gas exploration services; technical consultancy services in relation to all of the aforementioned services; all included in class 42.

GENERAL INFORMATION II

TRADEMARKS ACT 2019 (Act 815)

PUBLICATION OF APPLICATION FOR REGISTRATION OF TRADEMARKS

Pursuant to **section 31** of the Trademarks Act 2019, the following applications for registration of trademarks have been accepted and are hereby published in Intellectual Property Official Journal under **paragraph 148(1)(a)** of the Trademarks Act 2019

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Pursuant to subsections 35(1) and 35(2) of the Trademarks Act 2019 and subregulation 23(1) of the Trademarks Regulations 2019, a notice of opposition to oppose the registration of the application for registration of trademark which shall include the statement of the grounds of such opposition may be filed together with payment of the prescribed fee with the Registrar of Trademarks within two months from the date of the publication of the acceptance of such application for registration of trademark.

Notwithstanding the above paragraph, pursuant to subsection 153(1) of the Trademarks Act 2019 and subregulation 23(2) of the Trademarks Regulations 2019, the request for an extension of time may be allowed at the discretion of the Registrar of Trademarks for not more than two months after the expiry of the period for filing the notice of opposition.

GENERAL INFORMATION II

TRADEMARKS ACT 2019 (Act 815)

PUBLICATION OF ACCEPTANCE OF INTERNATIONAL REGISTRATION DESIGNATING
MALAYSIA

Pursuant to regulation 71 of the Trademarks Act 2019, the following international registrations designating Malaysia have been accepted and are hereby published in Intellectual Property Official Journal under section 148 of the Trademarks Act 2019.

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Pursuant to subsections 35(1) and 35(2) of the Trademarks Act 2019 and subregulation 72(1) of the Trademarks Regulations 2019, a notice of opposition to oppose the registration of the international registrations designating Malaysia which shall include the statement of the grounds of such opposition may be filed together with payment of the prescribed fee with the Registrar of Trademarks within two months from the date of the publication of the acceptance of such international registrations designating Malaysia in the Intellectual Property Official Journal.

Notwithstanding the above paragraphs, pursuant to subsection 153(1) of the Trademarks Act 2019 and subregulation 72(2) of the Trademarks Regulations 2019, the request for an extension of time may be allowed at the discretion of the Registrar of Trademarks for not more than two months after the expiry of the period for filing the notice of opposition
