REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Design and development of computer software for reading, transmitting and organising data; Design and development of software and hardware for signal amplification and transmission; Providing temporary use of non-downloadable software applications accessible via a web site; Providing temporary use of on-line non-downloadable software for importing and managing data; Updating of computer software relating to computer security and prevention of computer risks; Development services in the field of computer software and advisory services relating thereto; User authentication services using single sign-on technology for online software applications; Design and development of operating software for accessing and using a cloud computing network; Development of computer software for logistics, supply chain management and e-business portals; Maintenance of computer software relating to computer security and prevention of computer risks; Programming of computer software for electronic language translation dictionaries and databases; Design and development of software for control, regulation and monitoring of solar energy systems; Providing information about the design and development of computer software, systems and networks; Computer security services [programming and software installation, repair and maintenance services]; Computer security services [design and development of secure computer hardware, software and systems]; Providing information, including online, about design and development of computer hardware and software; Providing user authentication services using single sign-on technology for online software applications; Providing temporary use of non-downloadable software for analyzing financial data and generating reports; Providing temporary use of on-line non-downloadable operating software for computer networks and servers; Design and development of computer software for logistics, supply chain management and e-business portals; Commissioned writing of computer programs, software and code for the creation of web pages on the Internet; Providing temporary use of non-downloadable software to enable content providers to track multimedia content; Consultancy and information services relating to the design, programming and maintenance of computer software; Providing user authentication services using biometric hardware and software technology for e-commerce transactions; Providing temporary use of non-downloadable software to enable sharing of multimedia content and comments among users; Providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; Development of computer programs recorded on data media (software) designed for use in construction and automated manufacturing (cad/cam); Computer hardware design; Design of computer hardware; Rental of computer hardware; Leasing of computer hardware; Testing of computer hardware; Computer hardware development; Designing of computer hardware; Development of computer hardware; Computer hardware design services; Design services for computer hardware; Rental of computer hardware and software; Research in the field of computer hardware; Design and development of computer hardware; Design services relating to computer hardware; Advisory services relating to computer hardware; Rental of computer hardware and computer software; Advice relating to the design of computer hardware; Development of computer hardware for computer games; Rental of computer hardware and computer peripherals; Design and development of computer hardware and software; Design and development of computer hardware architecture; Research relating to the development of computer hardware; Consultancy in the design and development of computer hardware; Research and development services relating to computer hardware; Diagnosis of computer hardware problems through the use of software; Design and development of computer hardware for the manufacturing industry; Design and development of computer hardware for the manufacturing industries; Advisory services relating to the design

and development of computer hardware; Troubleshooting in the nature of diagnosing computer hardware and software problems; Design and development of software and hardware for signal amplification and transmission; Computer security services [design and development of secure computer hardware, software and systems]; Providing information, including online, about design and development of computer hardware and software; Providing user authentication services using biometric hardware and software technology for e-commerce transactions; Business card design; Design of business premises; Business card design services; Computerised business information storage; Providing temporary use of non-downloadable business software; Hosting an online website for creating and hosting micro websites for businesses; Development of computer software for logistics, supply chain management and e-business portals; Design and development of computer software for logistics, supply chain management and e-business portals; Online data storage; Online provision of web-based software; Hosting online web facilities for others; Online provision of web-based applications; Provision of online non-downloadable software; Providing temporary use of online non-downloadable software; Hosting online facilities for conducting interactive discussions; Providing temporary use of online non-downloadable investment software; Providing online information about industrial analysis and research services; Hosting an online website for creating and hosting micro websites for businesses; Planning, design, development and maintenance of online websites for third parties; Providing information, including online, about industrial analysis and research services; User authentication services using single sign-on technology for online software applications; Providing information, including online, about design and development of computer hardware and software; Providing user authentication services using single sign-on technology for online software applications; Interactive hosting services which allow the users to publish and share their own content and images online; Providing information, including online, about scientific and technological services and research and design relating thereto; Hosting of e-commerce platforms on the Internet; Programming of software for e-commerce platforms; Constructing an internet platform for electronic commerce; User authentication services using technology for e-commerce transactions; Consultancy relating to the creation and design of websites for e-commerce; Providing user authentication services using biometric hardware and software technology for e-commerce transactions; Ecological surveys; Research in the field of ecology; Scientific research relating to ecology; Water analysis; Analysis of air; Analysis of water; Chemical analysis; Computer analysis; Toxicity analysis; Biological analysis; Industrial analysis; Laboratory analysis; Scientific analysis; Biochemical analysis; Analysis of materials; Analysis of oil fields; Metallurgical analysis; Tyre analysis services; Blood analysis services; Soil analysing services; Analysis of oil deposits; Bacteriological analysis; Computer system analysis; Analysis for oil research; Analysis of water quality; Computer systems analysis; Seismic analysis services; Analysis of oil reservoirs; Chemical analysis services; Industrial analysis services; Analysis of building materials; Analysis of geological samples; Analytical laboratory services; Chemical research and analysis; Executing of chemical analyses; Materials testing and analysing; Technological analysis services; Analysis of stream water quality; Biological research and analysis; Performance of chemical analyses; Scientific research and analysis; Technical data analysis services; Biochemical research and analysis; Handwriting analysis [graphology]; Scientific and technical analysis; Analysis for oil field exploration; Analysis for oil-field exploitation; Soil sampling for analysis purposes; Product analysis for quality control; Analysis of telecommunication signals; Bacteriological research and analysis; Chemical research and analysis services; Analysis in the field of oil exploration; Analysis of tissues for

medical research; Analysis and evaluation of product design; Analytical services relating to computers; Industrial analysis and research services; Analysis in the field of molecular biology; Analysis services for oil field exploration; Analysis services for oil-field exploration; Computer aided industrial analysis services; Computer aided scientific analysis services; Analysis of human serum for medical research; Structural and functional analysis of genomes; Analysis and evaluation of product development; Analysis of human tissues for medical research; Greenhouse gas emission measuring and analysis; Working on and evaluation of chemical analyses; In vitro analysis for scientific research purposes; Consultancy in the field of computer system analysis; Industrial analysis and industrial research services; Computer security threat analysis for protecting data; Advisory services relating to computer system analysis; Design and development of testing and analysis methods; Testing, analysis and monitoring of navigation signals; Blood analysis services for scientific research purposes; Testing, analysis and monitoring of telecommunication signals; Analysis of the mode of action of chemical combinations on animals; Comparative analysis studies of the performance of computer systems; Computer programming services for commercial analysis and reporting; Industrial analysis and research services in the field of chemistry; Technological analysis relating to energy and power needs of others; Conducting sampling and analysis services to assess pollution levels; Conducting sampling and analysis services to check for contamination; Providing information about industrial analysis and research services; Industrial analysis and research services relating to automobile tires; Industrial analysis, industrial research and industrial design services; Preparation of biological samples for analysis in research laboratories; Technological advisory services relating to machine engineering analysis; Analysis and testing services relating to electrical engineering apparatus; Providing online information about industrial analysis and research services; Preparation of immunohistological samples for analysis in research laboratories; Preparation of biological samples for testing and analysis in research laboratories; Electronic monitoring services for computer security threat analysis for protecting data; Providing information, including online, about industrial analysis and research services; Testing, analysis and evaluation of the goods and services of others for the purpose of certification; Providing temporary use of non-downloadable software for analyzing financial data and generating reports; Online data storage; Online provision of web-based software; Hosting online web facilities for others; Online provision of web-based applications; Provision of online non-downloadable software; Providing temporary use of online non-downloadable software; Hosting online facilities for conducting interactive discussions; Providing temporary use of online non-downloadable investment software; Providing online information about industrial analysis and research services; Hosting an online website for creating and hosting micro websites for businesses; Planning, design, development and maintenance of online websites for third parties; Providing information, including online, about industrial analysis and research services; User authentication services using single sign-on technology for online software applications; Providing information, including online, about design and development of computer hardware and software; Providing user authentication services using single sign-on technology for online software applications; Interactive hosting services which allow the users to publish and share their own content and images online; Providing information, including online, about scientific and technological services and research and design relating thereto; Technical design; Technical drawing; Technical studies; Technical testing; Technical writing; Technical research; Technical measuring; Technical surveying; Technological studies; Technological research; Technical survey services; Technological consultancy; Technical drawing services; Technical project planning;

Technical testing services; Technical research services; Technical inspection services; Technological project studies; Chemical technological research; Computer technology consultancy; Information technology services; Research relating to technology; Technical measuring and testing; Technological advisory services; Technological analysis services; Technological planning services; Benchmarking [technical testing]; Preparation of technical reports; Preparation of technical studies; Provision of surveys [technical]; Technical data analysis services; Scientific and technical analysis; Information technology consultancy; Technological consultation services; Conducting technical project studies; Preparation of technological reports; Scientific and technological services; Technical diagnostic testing services; Information technology [IT] consultancy; Information technology [IT] engineering; Rental of technical drawing instruments; Technical research projects and studies; Development of new technology for others; Telecommunications technology consultancy; Conducting of technical feasibility studies; Information technology security consultancy; Computer software technical support services; Design and development of medical technology; Preparation of technological research reports; Technical research in the field of aeronautics; Information technology [IT] consulting services; Research in the field of information technology; Technical design and planning of power stations; Consultancy in the field of technological design; Technical design and planning of sewerage systems; Technological consultancy in the field of geology; Consultancy in the field of technological research; Research in the field of communications technology; Design and development of new technology for others; Research in the field of data processing technology; Technical advice relating to operation of computers; Advisory services relating to technological research; Preparation of reports relating to technical research; Technical consultancy relating to product development; Engineering services in the field of energy technology; Research in the field of telecommunications technology; Technical design and planning of heating installations; Technical project planning in the field of engineering; Technical project studies in the field of construction; Draftsman's services in the nature of technical drawing; Engineering services relating to information technology; Information services relating to information technology; Engineering services in the field of building technology; Technical consulting in the field of pollution detection; Technical design services relating to electricity plants; Preparation of reports relating to technological research; Technical advisory services relating to computer programs; Technical design and planning of water purification plants; Provision of information relating to information technology; Provision of information relating to technological research; Provision of technical information in relation to computers; Research in the area of semiconductor processing technology; Technical consultancy in the field of environmental science; Technical design services relating to heating installations; Technical project studies in the field of carbon offsetting; Technical consultation in the field of aerospace engineering; Technical design and planning of telecommunications networks; Technological consultancy relating to digital transformation; Engineering services in the field of environmental technology; Technical design and planning of telecommunications equipment; Conducting technical project studies for construction projects; Consultancy services in the field of technological development; Engineering services in the field of communications technology; Technical consulting in the field of environmental engineering; Technological consultancy in the field of aerospace engineering; Technology consultation in the field of artificial intelligence; Information technology services provided on an outsourcing basis; Scientific and technological research relating to patent mapping; Technical design services relating to water supply installations; Outsource service providers in the field of information technology; Technical planning and consulting

in the field of light engineering; Technological analysis relating to energy and power needs of others; Technological consultancy in the fields of energy production and use; Research and development services in the field of antibody technology; Consultancy and information services relating to information technology; Scientific and technological research in the field of natural disasters; Technological advisory services relating to machine engineering analysis; Technical design and planning of pipelines for gas, water and waste water; User authentication services using technology for e-commerce transactions; Technical design services relating to cooling appliances and installations; Technical design services relating to sanitary apparatus and installations; Design and development of computer software for use with medical technology; Providing information on computer technology and programming via a web site; Scientific and technological services and research and design relating thereto; Technical consultancy relating to the application and use of computer software; Technological consulting services in the field of alternative energy generation; Providing information relating to computer technology and programming via a website; Providing information relating to computer technology and programming via a web site; Consultancy relating to technological services in the field of power and energy supply; Preparation of reports relating to technical project studies for construction projects; Conducting research and technical project studies relating to the use of natural energy; Technical consultancy relating to the installation and maintenance of computer software; Providing technological information about environmentally-conscious and green innovations; User authentication services using single sign-on technology for online software applications; Technical consultancy in relation to the technical research in the field of food and beverages; Technical consultancy in relation to research services relating to foods and dietary supplements; Consultancy and information services relating to information technology architecture and infrastructure; Providing user authentication services using single sign-on technology for online software applications; Creating and designing website-based indexes of information for others [information technology services]; Providing on-line information in the field of technological research from a computer database or the Internet; Preparation of technical projects, technical research and consultancy services in the field of carbon offsetting; Provision of information concerning research and technical project studies relating to the use of natural energy; Providing user authentication services using biometric hardware and software technology for e-commerce transactions; Providing information, including online, about scientific and technological services and research and design relating thereto; Design services; Mapping services; Agronomy services; Research services; Chemistry services; Surveying services; Laboratory services; Cake design services; Calibration services; Cartography services; Engineering services; Graphic art services; Logo design services; Measurement services; Biochemistry services; Brand design services; Coin grading services; Dress design services; Gemmological services; Seed testing services; Soil testing services; Well logging services; Architectural services; Closet design services; Cryptanalysis services; Illustrators' services; Retail design services; Tyre analysis services; Tyre research services; Blood analysis services; Data migration services; Drug discovery services; Graphic design services; Photogrammetry services; Product design services; Soil analysing services; Textile design services; Vehicle design services; Website design services; Bathroom design services; Building design services; Clothing design services; Cloud computing services; Computer design services; Computer rental services; Data cryptology services; Data decryption services; Data encryption services; Dress designing services; Footwear design services; Interior design services; Quality control services; Tyre inspection services; Web page design services; Web site design services; Website hosting services; Aerial surveying services; Computer network

services; Drug development services; Jewellery design services; Marine surveying services; Material testing services; Medical research services; Seismic analysis services; Technical survey services; Web site hosting services; Building research services; Chemical analysis services; Chemical research services; Commercial design services; Computer advisory services; Computer firewall services; Computer forensic services; Computer research services; Furnishing design services; Industrial design services; Technical drawing services; Technical testing services; Trade mark design services; Biological cloning services; Demographic survey services; Design services for artwork; Engineering design services; Environment design services; Laboratory testing services; Medical laboratory services; Quality control of services; Scientific testing services; Shopfitting design services; Stem cell research services; Technical research services; Biological research services; Biomedical research services; Chemical laboratory services; Engineering drawing services; Genetic engineering services; Industrial analysis services; Industrial research services; Mineral exploration services; Naval architectural services; Pipeline inspection services; Platform as a service [PaaS]; Scientific advisory services; Scientific research services; Software as a service [SaaS]; Software consulting services; Weather forecasting services; Weather information services; Website development services; Air flow measurement services; Architectural design services; Business card design services; Computer co-location services; Computer programming services; Database development services; Design services for packaging; Geophysical research services; Software consultancy services; Software development services; Software maintenance services; Technical inspection services; Website load testing services; Agricultural research services; Agrochemical research services; Analytical laboratory services; Biochemistry research services; Biological laboratory services; Computer aided design services; Computer time-sharing services; Illustration services [design]; Marine chart updating services; Mathematical research services; Provision of research services; Quality accreditation services; Scientific laboratory services; Services for renting computers; Vehicle engine design services; Veterinary laboratory services; Water quality control services; Architectural advisory services; Architectural planning services; Cloud hosting provider services; Computer aided testing services; Design services for brand names; Design services for trade marks; Electrical engineering services; Electronic data backup services; Geological exploration services; Information technology services; Mechanical engineering services; Oceanographic research services; Product safety testing services; Remote computer backup services; Services for the design of maps; Structural engineering services; Technological advisory services; Technological analysis services; Technological planning services; Town planning advisory services; Biochemical engineering services; Design services for architecture; Electronic data back-up services; Electronic data storage services; Engineering consultancy services; Pharmaceutical research services; Product quality testing services; Ship design consultancy services; Social science research services; Technical data analysis services; Civil engineering design services; Computer graphics design services; Computer hardware design services; Computer software design services; Environmental assessment services; Environmental monitoring services; Local planning authority services; Metallurgical laboratory services; Water quality monitoring services; Architectural consultancy services; Civil engineering drawing services; Computer program advisory services; Computer program updating services; Computer virus protection services; Computerised data storage services; Data security services [firewalls]; Environmental consultancy services; Fashion design consulting services; Infrastructure as a service [IaaS]; Landscape lighting design services; Oceanographic prospecting services; Town planning consultancy services; Website usability testing services; Computer disaster recovery services;

Computer software advisory services; Computer software updating services; Dental research laboratory services; Interior decoration design services; Meteorological information services; Provision of search engine services; Social science consultancy services; Technological consultation services; Theatrical lighting design services; Computer system integration services; Design services relating to printing; Graphic illustration design services; Medical research laboratory services; Providing quality assurance services; Advisory services relating to science; Chemical research laboratory services; Computer program maintenance services; Computer software consulting services; Computer systems integration services; Data encryption and decoding services; Design services for computer hardware; Quality control of goods and services; Scientific and technological services; Technical diagnostic testing services; Architectural and engineering services; Computer software consultancy services; Computer software maintenance services; Computer software programming services; Industrial engineering design services; Advisory services relating to computers; Biological research laboratory services; Chemical research and analysis services; Computer network configuration services; Engineering project management services; Hosting of software as a service [SaaS]; Services for updating computer software; Building inspection services [surveying]; Graphic illustration services for others; Internet cafe services [computer rental]; Pharmaceutical drug development services; Scientific computer programming services; Analytical services relating to computers; Engineering services for the gas industry; Industrial analysis and research services; Underwater structural inspection services; Advisory services relating to architecture; Advisory services relating to biochemistry; Advisory services relating to pharmacology; Certification services relating to quality; Cloud storage services for electronic data; Computer aided diagnostic testing services; Computer-aided engineering design services; Consultancy services relating to computers; Engineering services relating to computers; Information services relating to computers; Services for reproducing computer programs; Web portal services [designing or hosting]; Analysis services for oil field exploration; Analysis services for oil-field exploration; Application service provider [ASP] services; Cloud storage services for electronic files; Computer aided industrial analysis services; Computer aided industrial research services; Computer aided scientific analysis services; Computer aided scientific research services; Quality control and authentication services; Backup services for computer hard drive data; Computer software technical support services; Information services relating to mathematics; Location of utility lines [mapping services]; Advisory services relating to building design; Advisory services relating to interior design; Advisory services relating to product testing; Authentication services for computer security; Computer database design consultancy services; Design and development services in metallurgy; Design services relating to civil engineering; Design services relating to computer hardware; Engineering services relating to architecture; Environmental testing and inspection services; Services for maintenance of computer software; Advisory services relating to material testing; Services for assessing the safety of chemicals; Advisory services relating to computer hardware; Advisory services relating to computer software; Advisory services relating to energy efficiency; Advisory services relating to industrial design; Advisory services relating to pollution control; Advisory services relating to the use of energy; Commissioning [testing and inspection] services; Design services relating to interior decoration; Disaster recovery services for computer systems; Information technology [IT] consulting services; Consultancy services relating to quality control; Pharmaceutical research and development services; Advisory services relating to scientific research; Diamond authentication and certification services; Electronic data storage and data back-up services; Engineering services in the field of motive power; Testing services for alarm and

monitoring systems; Advisory services relating to computer programming; Architectural services for the design of buildings; Computer programming services for data warehousing; Design services in the field of naval shipbuilding; Gemstone authentication and certification services; Information services relating to quality standards; Layout design services for clean room environments; Security assessment services for computer networks; Services for assessing the efficiency of chemicals; Advisory services relating to gene therapy research; Advisory services relating to planning applications; Animal semen testing services for research purposes; Architectural services relating to land development; Consultation services relating to computer software; Consulting services in the field of cloud computing; Design services relating to the layout of documents; Electronic storage services for archiving databases; Programming services for search engine optimisation; Programming services for search engine optimization; Quality control services for certification purposes; Advisory services relating to computer system design; Advisory services relating to technological research; Industrial analysis and industrial research services; Services for assessing the safety of pharmaceuticals; Advisory services relating to environmental pollution; Engineering services relating to computer programming; Services for assessing the safety of veterinary drugs; Advisory services relating to computer system analysis; Advisory services relating to environmental protection; Advisory services relating to the planning of premises; Computer-aided engineering design and drawing services; Engineering services in the field of energy technology; Engineering services relating to energy supply systems; Research and development services relating to vaccines; Services for assessing the safety of consumer products; Computer aided design services relating to architecture; Draftsman's services in the nature of technical drawing; Engineering services relating to information technology; Information services relating to information technology; Quality control services for certifying product quality; Quality control testing services for forestry equipment; Research and development services relating to medicines; Architectural services for the design of retail premises; Authentication services [product certification services]; Blood analysis services for scientific research purposes; Consultation services relating to architectural planning; Engineering services in the field of building technology; Laboratory research services relating to pharmaceuticals; Services for assessing the efficiency of pharmaceuticals; Technical design services relating to electricity plants; Architectural services for the design of office buildings; Architectural services for the design of shopping centers; Electronic storage services for archiving electronic data; Quality control testing services for industrial machinery; Research and development services relating to fertilisers; Services for assessing the efficiency of veterinary drugs; Technical advisory services relating to computer programs; Architectural services relating to the development of land; Computer programming services for electronic data security; Disaster recovery services for data communications systems; Research and development services in the field of cytology; Software engineering services for data processing programs; Authentication services for electronic documents and e-mail; Quality control testing services for agricultural machinery; Research and development services in the field of chemistry; Technical design services relating to heating installations; Advisory services relating to the safety testing of products; Computer aided design services relating to building projects; Quality control testing services for horticultural equipment; Research and development services in connection with physics; Research and development services in the field of antibodies; Research and development services in the field of immunology; Architectural services for the design of commercial buildings; Architectural services for the design of industrial buildings; Certification services for the energy efficiency of buildings; Engineering services in the

field of environmental technology; Consultancy services in the field of technological development; Engineering services in the field of communications technology; Planning and layout design services for cleanroom environments; Research and development services in the field of bacteriology; Research and development services relating to automobile tires; Security risk assessment services relating to computer systems; Testing services for the certification of quality or standards; Advisory and information services relating to computer software; Computer services in the nature of hosting web sites for others; Research and consultancy services relating to computer software; Research and development services relating to computer hardware; Information technology services provided on an outsourcing basis; Technical design services relating to water supply installations; DNA testing services to determine paternity [laboratory services]; Engineering services relating to gas transport and supply systems; Research and development services in the field of immunohistology; Advisory and information services relating to computer peripherals; Advisory services relating to the preparation of quality standards; Designing computer software for controlling self-service terminals; Interior design services incorporating the principles of feng shui; Outsource service providers in the field of information technology; Services for monitoring industrial processes for quality assurance; Computer programming services for commercial analysis and reporting; Industrial analysis and research services in the field of chemistry; Locksmithing services being the design of locks and locking systems; Conducting sampling and analysis services to assess pollution levels; Conducting sampling and analysis services to check for contamination; Design and planning services relating to telecommunication equipment; Consultancy and information services relating to computer programming; Providing information about industrial analysis and research services; Research and development services in the field of antibody technology; Cell culture services for scientific and research purposes, for others; Industrial analysis and research services relating to automobile tires; Programming and software installation, repair and maintenance services; Accreditation services relating to the application of quality standards; Consultancy and information services relating to information technology; Exploration services in the field of the oil, gas and mining industries; Industrial analysis, industrial research and industrial design services; Computer security services for protection against illegal network access; Digital signature verification services [electronic cryptology services]; Occupational health and safety services [ergonomics and design services]; Professional consulting services and advice about agricultural chemistry; Technological advisory services relating to machine engineering analysis; Consultancy and information services relating to computer software design; Research and development services in the field of gene expression systems; User authentication services using technology for e-commerce transactions; Analysis and testing services relating to electrical engineering apparatus; Technical design services relating to cooling appliances and installations; Technical design services relating to sanitary apparatus and installations; Electronic signature verification services [electronic cryptology services]; Consultancy and information services relating to computer system integration; Providing online information about industrial analysis and research services; Advisory services relating to the design and development of computer hardware; Computer security services [testing and risk assessment of computer networks]; Computer security services in the nature of administering digital certificates; Network security services [testing and risk assessment of electronic networks]; Scientific and technological services and research and design relating thereto; Technological consulting services in the field of alternative energy generation; Consultancy services relating to research in the field of environmental protection; Hosting electronic memory space on the Internet

for advertising goods and services; Electronic storage services for archiving databases, images and other electronic data; Consultancy relating to technological services in the field of power and energy supply; Electronic monitoring services for computer security threat analysis for protecting data; Providing information, including online, about industrial analysis and research services; Scientific services relating to the isolation and cultivation of human tissues and cells; Advisory services in the field of product development and quality improvement of software; Inspection services for new and used vehicles for persons buying or selling their vehicles; Development services in the field of computer software and advisory services relating thereto; User authentication services using single sign-on technology for online software applications; Technical consultancy in relation to research services relating to foods and dietary supplements; Computer security services [programming and software installation, repair and maintenance services]; Building and structural inspection services [engineering, quality assessment, and surveying services]; Computer security services [design and development of secure computer hardware, software and systems]; Testing, analysis and evaluation of the goods and services of others for the purpose of certification; Consultancy and information services relating to information technology architecture and infrastructure; Providing user authentication services using single sign-on technology for online software applications; Creating and designing website-based indexes of information for others [information technology services]; Electronic monitoring services for computer security services for protection against illegal network access; Interactive hosting services which allow the users to publish and share their own content and images online; Consultancy and information services relating to the design, programming and maintenance of computer software; Preparation of technical projects, technical research and consultancy services in the field of carbon offsetting; Electronic monitoring services being IT security services in the nature of protection and recovery of computer data; Providing user authentication services using biometric hardware and software technology for e-commerce transactions; Accreditation services [certification of competence and quality] in the area of expertise of an organization or a person; Providing information, including online, about scientific and technological services and research and design relating thereto; Platform as a service [PaaS]; Development of computer platforms; Hosting platforms on the Internet; Hosting of platforms on the Internet; Programming of software for Internet platforms; Hosting of e-commerce platforms on the Internet; Programming of software for e-commerce platforms; Constructing an internet platform for electronic commerce; Programming of software for information platforms on the Internet; Cross-platform conversion of digital content into other forms of digital content; Retail design services; Planning and design of retail premises; Architectural services for the design of retail premises; Food research; Research on food; Food product safety testing; Quality control relating to the hygiene of food; Provision of information on safety testing of food products; Inspecting foods for the purpose of certifying the kosher quality thereof; Technical consultancy in relation to the technical research in the field of food and beverages; Technical consultancy in relation to research services relating to foods and dietary supplements; Online data storage; Electronic data storage; Computerised data storage; Design of storage systems; Electronic storage of data; Electronic storage of images; Electronic storage of videos; Electronic storage of documents; Electronic data storage services; Electronic storage of audio files; Electronic storage of photographs; Computerised data storage services; Electronic storage of digital music; Electronic storage of digital images; Electronic storage of medical records; Electronic storage of archived e-mails; Computerised business information storage; Electronic storage of digital audio files; Electronic storage of digital photographs; Electronic storage of digital video files; Electronic storage of files and documents;

membrane filters, adapters, valves, bellows, cell pack, power suppliers; replacement parts and accessories for pipette leak tightness testers, in particular single-channel or multi-channel pipette adapters, filters, power suppliers; pycnometers, hydrometers, laboratory desiccator [laboratory apparatus]; laboratoryware; laboratory items of glass and/or plastic, namely reactor vessels, lids for reactor vessels, stands for reactor vessels, refrigerating containers for reactor vessels, PCR single vessels, PCR vessel strips made of several single vessels, with and without lids, PCR single lids and PCR lid strips, PCR plates, microtiter plate, receptacles for PCR vessels, strips and plates, PCR sealing films, deep-well plates; laboratory items of glass and/or plastic, namely cuvettes, cuvette stands, stirring tools, pipette tips with and without filter, receptacles for pipette tips, dispenser-tips (pd-tips), reagent containers, containers for samples, volume measuring containers, measuring flasks with and without stoppers, graduated cylinders, mixing cylinders, tilt dispensers, bulb pipettes, graduated pipettes, supply bottles, oxygen tanks, centrifuge tubes, sedimentation cones, racks for sedimentation cones, sample tubes, disposal bags; laboratory items of glass and/or plastic, namely storage boxes, dispenser boxes, petri dishes, vaccination slings, test tubes, culture tubes, centrifuge tubes, PE stoppers, sample tubes, sedimentation tubes, dropping pipettes, pasteur pipettes, test tube frames, pipette bellows, counting chambers, microscope slides, slide boxes, staining troughs, spotting tiles, erlenmeyer flasks, evaporating dishes, watch glass; laboratory items of glass and/or plastic, namely mortars, funnels, filter crucibles, filter flasks, wash bottles, hoses, hose connectors, pinch valves, hose spigots, ground joint sleeves, ground sockets, stoppers, stirrers, magnetic stir bars, spatulas, forceps, measuring scoops, weighing dishes, storage bottles, wash bottles, dropper bottles, pulverising mills, sealing films; software and interfaces for use in laboratory automation, in particular for conducting, evaluating and presenting chemical and biochemical analyses and processes; software and interfaces for use in laboratory automation, in particular for simulations, virtual reality applications or augmented reality applications; software and interfaces for use in laboratory automation, in particular for the purpose of operation, control, operating, user communication, presentation, verification, calibration, adjustment, maintenance, repair, in particular for automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dispensing systems, bottle filling machines, pipetting installations, pipetting systems; software and interfaces for use in laboratory automation, in particular laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; software for providing and administration of licences, in particular for software of the aforesaid areas of application and in connection with automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dosing systems, filling machines, pipetting installations, pipetting systems, and/or with laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; laboratory apparatus and laboratory apparatus, namely robotic pipetting installations, robotic pipetting systems and pipetting robots; automated dosing dispenser systems; all the aforesaid products in particular for the use in scientific research and laboratories.

Class 35

Retailing and wholesaling relating to automated, semi-automated or robotic machines and systems, namely dispensing machines, dispensing systems, charging machines, pipetting installations, pipetting systems; retailing and wholesaling relating to apparatus for use in scientific research and laboratories, in particular laboratory apparatus, laboratory instruments, automatic metering apparatus, replacement parts and accessories for automated dosage apparatus, dispensing apparatus,

burettes, pipetting apparatus, replacement parts and accessories for pipetting apparatus, laboratory items of glass and/or plastic; retailing and wholesaling relating to software for use in laboratory automation, in particular software, integrated software packages and interfaces for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; computerised file management in connection with laboratory automation, in particular compiling, induction, systemization of information and data in databases, and/or in particular updating and maintenance of data in computer databases, mainly relating to software, integrated software packages and interfaces for use in laboratory automation, in particular for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology.

Class 37

Installation, cleaning, repair and maintenance relating to automated or robotic machines and systems, namely dispensing machines, dispensing systems, filling machines, pipetting installations, pipetting systems; installation, cleaning, repair and maintenance relating to apparatus for use in scientific research and laboratories, in particular laboratory apparatus, laboratory instruments, automated dosage apparatus, replacement parts and accessories for automated dosage apparatus, dispensing apparatus, burettes, pipetting apparatus, replacement parts and accessories for apparatus, laboratory items of glass and/or plastic.

Class 41

Arranging of continuing training and further training in the field of handling scientific instruments and apparatus for laboratory research, in particular training, continuing training and further training, tuition, coaching, training, courses and online seminars for handling automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dispensing systems, filling machines, pipetting installations, pipetting systems; arranging of continuing training and further training in the field of handling scientific instruments and apparatus for laboratory research, in particular laboratory apparatus, laboratory instruments, consumables, industrial production facilities, automated dosage apparatus, replacement parts and accessories for automated dosage apparatus; arranging of continuing training and further training in the field of handling scientific instruments and apparatus for laboratory research, in particular of dispensing apparatus, burettes, pipetting apparatus, replacement parts and accessories for pipetting apparatus, laboratory items of glass and/or plastic; arranging of continuing training and further training in the field of handling scientific instruments and apparatus for laboratory research, in particular software, integrated software packages and interfaces for use in laboratory automation, in particular for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology.

Class 42

Consultancy relating to computer technology and software for use in laboratory automation, in particular for selecting hardware, software, software packages and interfaces for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; consultancy relating to computer technology and software for use in laboratory automation, in particular for software installation, adaptation and activation; consultancy relating to computer technology and software for use in laboratory automation, in particular for updating existing software versions; consultancy relating to computer technology and software for use in laboratory automation, in particular for operating, process optimisation, calibration, adjustment and control of

hardware and software; consultancy relating to computer technology and software for use in laboratory automation, in particular for design and planning, development, programming of computer software for use in laboratory automation; software design and development for laboratory automation, in particular software design, development, planning, programming for use for automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dispensing systems, filling machines, pipetting installations, pipetting systems, and/or for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; software customisation services for laboratory automation, in particular creating customer-specific programme sequences, illustrating laboratory or process analytical or industrial applications, data storage or data processing in accordance with customer specifications; custom software engineering, in particular requirements engineering; software implementation and software tests for laboratory automation; monitoring of software for the purpose of laboratory automation, namely, for detecting malfunctions of software or related peripheral devices and for detecting unauthorised access to data files and system components; monitoring of software for the purpose of laboratory automation, namely, for detecting hardware malfunctions or maintenance requirements [as part of quality control] of automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dispensing systems, filling machines, pipetting installations, pipetting systems, and/or with laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; software consultancy relating to laboratory applications, in particular to process analytics, compilation, input, systematisation of information and data in databases and/or to updating and maintenance of data in computer databases, in particular relating to software, integrated software packages and interfaces for use in laboratory automation, in particular for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; software consultancy relating to laboratory applications, in particular to process analytics, compilation, input, systematisation of information and data in databases and/or to updating and maintenance of data in computer databases, in particular relating to software, integrated software packages and interfaces for use in laboratory automation, in particular for automated, semi-automated and/or robotic machines and systems; consultancy in the field of software as a service for the purpose of laboratory automation, in particular rental of software for electronic data storage; consultancy in the field of software as a service for the purpose of laboratory automation, in particular as cloud or hosting services or other current methods relating to software, integrated software packages and interfaces for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology, and/or to automated, semi-automated and/or robotic machines and systems; calibration services of laboratory apparatus or laboratory instruments in conformity with relevant norms, standards and guidelines, in particular being an accredited testing laboratory of the german accreditation body (dakks), in particular for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology, and/or for automated, semi-automated and/or robotic machines and systems; technical consultancy in the field of laboratory applications, in particular relating to automated, semi-automated or robotic machines and systems, dispensing machines, dispensing systems, filling machines, pipetting installations, pipetting systems; technical consultancy in the field of laboratory applications, in particular relating to apparatus for use in scientific research and laboratories, laboratory utensils, laboratory instruments, automated dosage apparatus; technical consultancy in the field of laboratory

applications, in particular relating to replacement parts and accessories for automated dosage apparatus, dispensing apparatus, burettes, pipetting apparatus, technical consultancy in the field of laboratory applications, in particular relating to replacement parts and accessories for pipetting apparatus, laboratory items of glass and/or plastic; technical consultancy in the field of laboratory applications, in particular relating to software, integrated software packages and interfaces for use in laboratory automation; calibration [measuring], in particular of automated, semi-automated or robotic machines and systems, dispensing machines, dispensing systems, filling machines, pipetting installations, pipetting systems; calibration [measuring], in particular apparatus for use in scientific research and laboratories, laboratory apparatus, laboratory instruments, automated dosage apparatus, replacement parts and accessories for automatic dosage apparatus, dispensing apparatus, burettes, pipetting apparatus, replacement parts and accessories for pipetting apparatus, laboratory items of glass and/or plastic; installation and maintenance relating to software for use in laboratory automation, in particular software, integrated software packages and interfaces for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology.
