The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

GENERAL INFORMATION**Trade Marks Journal**

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules.

It is published weekly on Fridays and on other days when necessary, upon giving notice by way of circulars found on our website.

Requests for past issues of journals published more than three months ago may be made at <https://go.gov.sg/tmgi> and is chargeable at \$12 per issue.

Instructions on payment will be provided to you via email within 7 working days after we receive your online request. Payment shall be made via IP²SG's payment platform. Acceptable modes of payment include Internet Banking, Visa/Master credit and debit cards and GIRO.

The journal(s) will be reproduced in CD-ROM and we will arrange an appointment with you to collect the CD-ROM at the following address:

Address:	Intellectual Property Office of Singapore 1 Paya Lebar Link, #11-03 PLQ 1, Paya Lebar Quarter Singapore 408533
Business Hours:	Monday to Friday: 8:30am to 5:30pm Saturday, Sunday and Public Holiday: CLOSED

REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (a) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 07

Motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; automatic vending machines; pumps [parts of machines, engines or motors]; vacuum pumps [machines]; vacuum pump stands; electric motors, except for land vehicles, in particular for air conditioning apparatus and heating apparatus; compressors for refrigerators; aerators; air condensers; compressed air pumps; compressed air machines; pneumatic transporters; compressed air engines; pressure reducers [parts of machines], extracting machines; vacuum cleaning equipment; machines and installations for

transvasing and processing dusty and gaseous products in closed systems and clean-air systems, in particular for use in the chemical, cosmetics, food and pharmaceutical industries; installations for the extraction of pollutants; grinding installations; apparatus and installations for the supply and disposal of chemicals; filling and sealing machines; filling machines; laminar flow overhead hoods being parts of machines, with heating and/or cooling functions.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; air and climate analysis apparatus and devices; temperature analysis apparatus and devices; temperature indicating apparatus; thermal shock testing apparatus; ozone testing apparatus; corrosion testers; dust and rain testing apparatus; measuring and control devices for air conditioning technology; heat flow meters; data processing apparatus and installations, and components therefor, including monitors, printers, keyboards, scanners, personal computers; electric power supply apparatus; apparatus for measuring, controlling and obtaining physical values, including temperature, pressure, humidity and vibration; special test stands, in particular for environment simulation installations; emission test chambers for characterisation of volatile organic compounds (VOCs); test systems for stability testing in the pharmaceutical industry; apparatus for testing electromagnetic compatibility; electric and/or electronic control and regulating apparatus; heat regulating apparatus; furnaces for laboratory use; testing apparatus not for medical purposes; material testing instruments and machine; gas testing instruments; precision measuring apparatus; computer programs; electric and/or electronic temperature and humidity regulators and sensors; power supply units, data displays (included in this class), apparatus for recording, transmission or reproduction of information; electrical cabling; parts for scientific apparatus and instruments, included in this class; electric and/or electronic control and regulating apparatus; software for installations, machines and apparatus for capturing and siphoning emissions and pollutants; scientific research and laboratory apparatus, educational apparatus and simulators; furniture especially made for laboratories; apparatus for transvasing acids and alkaline solutions for laboratories; laboratory and safety apparatus for captioning of pollutants and extraction of pollutants for the protection of products, persons and rooms; weighing cabinets; weighing apparatus and instruments; negative and positive pressure cabins for personal, product and environment protection, in particular for microbiological laboratories, parenterals plants, solids plants or active substance production; wind tunnels; computer hardware and software for optimisation of energy efficiency and for implementation of energy conservation operating modes for installations and equipment; walk-in and moveable vacuum chambers for testing of goods for research, development and for use in manufacture; environmental simulation chambers and apparatus for research, development and for use in manufacture; chambers for material and equipment testing; chambers for research and environmental tests with plants, animals and human beings; apparatus and equipment for simulating cold, heat, humidity, climate, light, air composition, air speed,

air filtration, corrosion, vacuum, excess pressure, noise and vibration; weighing and transvasing apparatus.

Class 10

Surgical, medical, dental and veterinary apparatus and instruments, artificial limbs, eyes and teeth; orthopedic articles; suture materials; medical apparatus and instruments; veterinary apparatus and instruments; analysers for medical use; incubators for medical purposes; diagnostic apparatus for medical purposes; hot air vibrators for medical purposes; incubation units; compressors [surgical]; lasers for medical purposes; lamps for medical purposes; pumps for medical purposes; quartz lamps for medical purposes; radiological apparatus for medical purposes; x-ray apparatus for medical purposes; protection devices against x-rays, for medical purposes; containers especially made for medical waste; furniture especially made for medical and pharmaceutical purposes.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; air conditioners; cryogenic test and storage chests freezers; refrigerating and freezing apparatus and chambers; freezing and refrigerating cells; equipment and installations for heat treatment for production, research and development purposes; hot cabinets and drying cabinets; ovens with drawers; dryers for continuous drying and heating processes, in particular continuous ovens, paternosters, chest ovens, tempering furnaces and baking ovens; ovens for heat treatment under inert gas; dry heat sterilizers; clean room sterilisers and dryers; walk-in and moveable vacuum dryers; filters for air conditioning; air filtering installations; air heating apparatus; driers (air -); humidifiers; ventilation hoods; air cooling apparatus; air deodorising apparatus; hot air apparatus; hot air ovens; heat pumps; heat regenerators; heat accumulators; heat exchangers, not parts of machines; evaporators; room air conditioners, in particular in cabinet form, including for air conditioning computer rooms, measurement spaces and clean rooms for the food and the pharmaceutical industries, and functional areas in hospitals, including operating theatres or intensive care units; room air humidifiers, humidifiers and dehumidifiers; special purpose air conditioning apparatus, in particular in box form; ceiling coolers; window-mounting air-conditioners; water re-cooling towers; chest freezers; apparatus for refrigerating cooling water; drying apparatus and installations; heating apparatus, electric; apparatus for heating; heating installations; heating apparatus for solid, liquid or gaseous fuels; fireplaces; ovens and microwave ovens for industrial purposes; ovens, other than for laboratory purposes; refrigerating cabinets; refrigerating appliances and installations; cold storage rooms; refrigerating appliances and installations; air purifying apparatus and machines; air sterilisers; clean chambers (sanitary installations); refrigerating appliances and installations; fans (air-conditioning); air conditioning apparatus; apparatus and instruments for generating clean air; air cleaning and filtering installations for removing pollutants and odours from the air; air-conditioning and ventilating apparatus; lighting installations; apparatus and installations for the filtration of gaseous substances; exhaust air collection hoods; exhaust fans; air filtering installations; air purifying apparatus and machines; air sterilisers for personal use; air filters; fans [parts of air conditioning installations]; heated or refrigerating display cabinets.

Class 20

Furniture, mirrors, picture frames; work benches; vertical and horizontal flow workbenches; microbiological safety workbenches; vertical air circulation workbenches; clean room workbenches; clean room wardrobes;

clean room work counters; clean room bench seating; clean room storage boxes.

Class 37

Building construction; repair in the field of environment simulation and air conditioning technology; installation services in the field of environment simulation and air conditioning technology; installation, maintenance and repair of apparatus and equipment for producing cold, heat, moisture, climate, light, air mixture, excess pressure and negative pressure, vacuum, noise and vibration; installation, maintenance and repair of air conditioning installations, freezing equipment, furnaces, heating equipment and machines; assembly, maintenance and repair of machines and installations composed thereof for use in the chemical and pharmaceutical industries for transvasing, weighing and processing dusty and gaseous products in closed systems and in systems in which very stringent clean-air conditions and very strict protection criteria for surroundings, the environment and product are required; construction, assembly and servicing of ventilation installations and apparatus.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; material testing; updating of computer software; maintenance of software; installation of software; software design services; calibration; research in the fields of cold, heat, moisture, climate, light, air mixture, excess pressure and negative pressure, vacuum, noise and vibration; development of apparatus and equipment for producing cold, heat, moisture, climate, light, air mixture, excess pressure and negative pressure, vacuum, noise and vibration.

Date of Protection in Singapore: 11/12/2019

Date of Notification: 11/06/2020

The following claim is made in the International Registration: Colour(s) claimed: Grey, light green, green and dark green.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking [life-saving] and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling

electricity; apparatus for recording, transmitting and reproducing sound and images; magnetic data carriers; sound recording discs; compact discs; DVDs; digital recording media; mechanisms for coin-operated apparatus; cash registers; calculating machines; data processing equipment; computers; computer software; fire-extinguishing apparatus; optical instruments and enhancers and parts therefor; microscopes; magnifying glasses and reading glasses; telescopes; spotting scopes; binoculars; eyeglasses and magnifying eyeglasses; protective goggles; spectacle lenses; thermal imaging apparatus; night-vision apparatus; thermal imaging apparatus for night vision; night vision goggles; telescopes; telescopic sights; interference and polarization filters; photographic recording, projecting and magnifying lenses; image intensifiers; image intensifier tubes; lens hoods; condensers; mirrors (optics); prisms (optics); objective and ocular lenses; observation eyepieces; photogrammetric cameras; digital cameras; digital cameras with an integrated laser rangefinder and a ballistics information system; measuring instruments; measuring apparatus and parts therefor, in particular for geodetic and nautical purposes; rangefinders; laser rangefinders; optical devices, namely optical sights being parts of astronomical telescopes; optical devices, namely daytime and night-time sights being parts of day and night vision apparatus; precision gauges (measuring apparatus); optical equipment for headlights; apparatus, instruments and devices for using the electromagnetic spectrum for warfare (electronic warfare); laser warning sensors for use on an in particular airborne military platform; warning equipment, optoelectronic apparatus, image signal processing apparatus, display apparatus, optoelectronic receivers, optoelectronic detectors, optoelectronic transducers, sensors, optical sensors, image intensifiers, electronic amplifiers, power supply apparatus, optical cables; display apparatus, electronic apparatus and electronic equipment and installations composed thereof, and systems constructed by linking the aforesaid installations, for conducting, distributing, transforming, accumulating, regulating or controlling electric signals, in particular for surveying, monitoring, detecting, processing, evaluating, analysing and displaying radio signals; electronic apparatus for analysing signals, classifying, decoding and/or demodulating purposes, recognising processes, recognising patterns, evaluating patterns and for automating processes for detecting and processing radio signals; apparatus for detecting, recording, sending, receiving, transforming, distributing, transmitting or reproducing data, speech and/or images; software for all the aforesaid goods; electronic apparatus for storing, converting, processing and transmitting data, information and signals; telecommunication terminals; paging equipment; electronic apparatus for satellite telecommunications, in particular airborne; computer software (recorded programs); software (recorded programs) for providing access to an electronic messaging service; remote controls; video recorders; cassette recorders; monitors; radios; portable video cameras with integrated video recorders or DVD burners; cameras; cameras (photography); television apparatus; keyboards; mice; computers; printers; computer memories; electronic memories; modems; computer peripheral devices; display screens; interfaces (information technology) and microprocessors, in particular for accessing multimedia databases; database servers; printed circuits; on-board wireless and satellite data networks; multi-platform interfaces; hardware and software for equipment deployment systems outside the aircraft cell; electronic media, in particular cassettes, USB flash drives, blank audio discs, blank video discs and blank CD-ROMs, audio, video and sound discs; compact discs, optical discs and DVDs containing navigation and flight instructions for helicopters, rotorcraft and drones; computer security systems (software); radar apparatus; antennas; transmitters and receivers; converters; responders; electronic equipment for civil and military purposes (included in this class); electronic locating, detecting, control and

cartography equipment; electric and electronic equipment for radiolocation and radio navigation; airborne electronic detecting and ground monitoring apparatus and installations consisting thereof with radar imaging; navigation apparatus for use at sea, on land, in the air and in space; guidance and navigation apparatus and systems consisting thereof; apparatus for checking flight parameters, namely software (recorded programs) for assisting with the navigation and control of helicopters, rotorcraft and drones, antennas and communications systems for aircraft; apparatus for monitoring flight parameters, namely automatic altitude indicators also being equipment for ground stations or airborne stations; communications equipment, namely multiplex communications systems, radio and television transmission installations which can record, display and transmit all properties and flight parameters of helicopters, rotorcraft and drones, for developing, manufacturing, controlling, flying, steering, navigating, monitoring and securing the aforesaid helicopters, rotorcraft and drones; electronic recording apparatus and systems consisting thereof for apparatus for locomotion by land, air or water; automatic flight control installations; altitude and speed measuring apparatus; adaptable software (recorded programs) for locating aircraft with the aid of inertia values; systems for creating electric commands and electric signals, namely electric signal transmitters, character generators; electronic apparatus for recording parameters and data; computers, flight phase analysers, electronic equipment for counting, managing, locating and identifying vehicles; electronic equipment and systems (hardware and software) for directing combat operations; software (recorded programs) for the bringing together of elementary digital objects depicted in the form of real, moving objects on the basis of cartographic data and algorithms of the examined movements of the aforesaid objects; software (recorded programs) for the bringing together of representative data from moving objects; electronic area observation and monitoring apparatus and systems consisting thereof featuring radar installations on board aircraft; transmitters of radio waves, ultrasound, sound or infrasound waves; optical or infrared transmitters, tuners, radio transmitters and receivers, encoders and decoders, digital sound and image data transmission apparatus, remote controls; software (recorded programs) for recording and processing data for controlling, flying, steering, navigating, monitoring and securing aircraft, rotorcraft and drones, character and alarm generators; software (recorded programs) for displaying flight logs, ground stations for processing flight, steering, navigation and monitoring data from aircraft, rotorcraft and drones, remote transmitters for the transmission of information between aircraft, rotorcraft or drones and at least one ground station; computers and electronic card readers; software (recorded programs) for calculating, reading and applying cartographic data; electronic communication, navigation, collision warning and pilot assistance systems (hardware and software) for manned and unmanned land or air vehicles; electronic mission systems (hardware and software) for land or air vehicles for assisting crew with regard to executing the mission thereof, in particular for displaying the current state of the mission, said current state being ascertained through communications systems and recorded information and being displayed; electronic control and management systems (hardware and software) for land or air vehicles, in particular flight management systems and flight monitoring apparatus; electronic map display systems (hardware and software) for land or air vehicles for graphically displaying the position of the vehicle; electronic recording systems (hardware and software) for land or air vehicles for recording vehicle data and mission data; electronic subsystems (hardware and software) for the aforesaid systems, in particular sensor, computer, database, display, recording and bus systems; sensor-assisted, in particular electro-optical, LADAR and radar systems (hardware and software) for air or land vehicles for recording environmental data, in particular

topographical altitude data, distance data and obstacle data, in the air and on the ground; electronic apparatus for capturing, recording, sending, receiving, transmitting or reproducing data, sound or images for the aforesaid goods; computer software and computer hardware for all the aforesaid goods, included in this class, subsystems and components for all the aforesaid goods, included in this class; control stations comprising application-specific computer software, computer hardware and communications apparatus for mission preparation, mission execution and mission follow-up for manned and unmanned aircraft; application-specific computer software and computer hardware for use in the aforesaid control stations for mission preparation, mission execution and mission follow-up for manned and unmanned aircraft; radar apparatus and radar systems consisting thereof; passive radar apparatus and passive radar systems consisting thereof; speed detectors; location detectors (for determining the azimuth, distance and elevation of an object); motion detectors; high-frequency apparatus; transmitters of electronic signals; radio, radar, television, telegraphic, telephone, testing, measuring and checking (supervision) apparatus and instruments; antennas; signal generators; direction and position finding apparatus; electronic equipment for simulating and analysing radar installations, included in this class; spare parts and fittings, and software and firmware for all the aforesaid goods; apparatus, instruments, equipment and software for the electronic securing and monitoring of borders and protected areas; satellite communications systems (hardware and software), sensor towers for monitoring purposes (hardware and software); alarm systems; Internet and computer security systems; satellite monitoring systems; air monitoring and intervention systems; software for planning and managing requests with regard to intelligence gathering; hardware and software for the surveillance and monitoring of military forces and military and non-military services and agencies; ground systems consisting of control apparatus for satellites; radio transmitters and receivers; on-board electronic systems consisting of electronic equipment for satellites and space vehicles, in particular avionics and service modules; measuring, control, observation and communications apparatus; ground systems (hardware and software) for operating and controlling satellites; radio-electric transceivers and radios; data processing apparatus and computers; data carriers; transmitters (telecommunications), electric wires, fibre optic cables, electronic storage media; observation instruments and systems consisting thereof; infrared monitoring and locating apparatus and systems consisting thereof, in particular localisation systems; equipment (hardware and software) for secure observation and surveillance and systems consisting thereof; airworthy monitoring equipment (hardware and software) and systems consisting thereof, day/night monitoring equipment (hardware and software) and systems consisting thereof; coders or decoders, digital sound and image data transmitters; radar antennas, satellite transmitters and receivers, power converters and transponders; equipment (hardware and software) for electric and electronic tracking, capturing and monitoring, and for determining and locating geographical locations; equipment (hardware and software) for radar-image-based airborne ground monitoring and surveillance, and systems consisting thereof; navigation equipment including steering equipment and systems consisting thereof; fixed or portable computers, telecommunications apparatus and equipment; computer servers, servers and data storage devices, computer workstations (hardware), modems; wireless and satellite-based hardware and software for on-board data networks; multi-platform interfaces, including hardware and software therefor, namely interfaces for computers; electronic equipment for processing geographical information and systems consisting thereof, in particular satellite systems, GPS; electronic apparatus and equipment for capturing, compressing, transmitting, analysing and reproducing satellite images and aerial

photographs; equipment for transmitting images through digital radio and systems consisting thereof; hardware and software (recorded/stored programs) for position determination, observation and monitoring of specific geographical locations; monitoring and control hardware and software (recorded/stored programs); position determination, observation and monitoring equipment, and systems consisting thereof, for specific geographical locations; storage media for data and user terminals (computer terminals) for position determination, navigation, for navigation databases, for radar or satellite navigation, radio navigation and for subsequent applications; mapping information, safety and emergency equipment, instruments and apparatus, research (other than for medical purposes) and life-saving equipment, instruments and apparatus; electric or electronic instruments and apparatus for receiving, processing and/or transmitting navigation signals and elements and components thereof; hardware and software for telecommunications and radio networks; hardware and software for digital telecommunications networks; electric apparatus (hardware and software) for providing telecommunications and radio networks through wire, cable, optical fibre, radio or satellite; electric/electronic apparatus for communicating, transmitting and receiving speech, images, data and multimedia data; electronic devices and installations consisting thereof for the transmission of messages, information, data, sound and images through waves, cable, optical fibre, telephone, satellite, terminals, telecommunications networks and computer networks; telecommunications and desktop automation terminals (computer hardware) for military applications; software programs in a computer-readable format, provided on magnetic or optical media or in a downloadable format for use with the aforesaid goods; software programs for secure communications and for facilitating the authentication, examination, recording and analysis of business relations and transactions using a system of controlled access rights and notifications, equipment and stations consisting thereof for satellite telecommunications, in particular in aircraft; software (recorded/stored programs) for communications and radio communications networks for the transmission of data through wire, cable, optical fibre, radio or satellite; software (recorded/stored programs) for encryption and decryption purposes; simulation, model creation, testing and experimentation software; servers for modelling, simulating, testing and experiments relating to civil and military operations; software for planning, capturing, processing and disseminating intelligence information and data, solely in the fields of secret service information and geography, for defence and security purposes; software (recorded/stored programs) for providing access to an electronic messaging service; transmission security software for intranet and internet data terminals, operating stations and terminals for presenting information in graphic and text form; information technology equipment for the secure processing of information; secure telecommunications devices and equipment consisting thereof; software for synchronising secure data between a remote data station or a remote device and a fixed or remote data station or a device of this kind; electric and electronic instruments and equipment for displaying reports, analyses and measurement results, in particular in the form of graphs, tables and charts, being the outcome of analysing and monitoring the performance of navigation signals and/or data; computer software (recorded/stored programs) for examining and identifying space segments in two or three dimensions; sensors and communications apparatus and equipment; industrial geoproduction systems consisting of software and hardware for a digital process chain for generating satellite, aerial or terrestrial images and 3D data; software for the field of satellite imaging and data; data processing equipment, in particular using satellites; computer software for processing and analysing photographs, including aerial and satellite photographs; computer software for stereographic projections, digital terrain models, orthophotos and thematic maps; database management

software, including for stereographic reproduction, for storing, preparing, processing and analysing drawings, depictions, photographs, maps, aerial and satellite images and surface models; apparatus for processing, analysis, reproduction and storage with the aid of images generated by satellites; computers and computer software for industrial purposes, namely for the fire service and the government, relating to operational systems, client management, installation management systems, geographical information systems, CAD systems, real-time display systems and mobile systems, and the configuration thereof, for use with suitable computer hardware; database management software, in particular for stereographic reproduction, for storing, creating, processing and analysing drawings, images, photographs, graphic representations, aerial and satellite images and surface models; data carriers for computer software (computer programs), computer files and software packages, for stereographic reproduction and for storing, creating, processing and analysing surface models, images and photographs; satellites; satellite navigation apparatus and systems consisting thereof; satellites for scientific purposes, in particular satellites for terrestrial observation and radar satellites; remote control apparatus; aerial imaging sensors; broadcast transmitters (telecommunication); electric and electronic apparatus for generating digital topographical models; databases containing digital topographical models (software); software packages for processing and evaluating photographs, including aerial and satellite images; software packages for stereographic reproduction, for creating digital terrain models, for orthophotos and for thematic maps; computer files and software packages containing geographical, geological, cartographic and topographical content; computer files (software) and software packages containing terrain representations and digital maps; satellite communications apparatus and instruments; terminals for satellite communications; communications apparatus and instruments; telephone apparatus; teleprinters and facsimile transmission machines; data processing and transmission apparatus and instruments; computer terminals and keyboards; monitors; communications and transmission apparatus, instruments and systems consisting thereof and computer software and peripheral devices for providing and managing news, information about weather, sporting events and other information applications, including the internet; systems consisting of computer hardware and software, communications and transmission apparatus and instruments for facilitating real-time communications between users and providers via the internet; computer software for facilitating and for operating business systems, including business systems via the internet and the world wide web; computer software for simulating and analysing satellite communications systems; computer software programs for operating and managing satellite communications systems; television, audio visual, video, sound recording and sound reproduction apparatus and instruments; apparatus and instruments for storing, recording, reproducing, retrieving, reading and transmitting data, images, sound and other information; apparatus and instruments for broadcasting, transmitting, receiving, processing, duplicating, encoding and decoding digital and satellite signals; parts and components for all the aforesaid goods, included in this class; daytime and night-time sights and attachments and targeting apparatus for observation purposes; electronic apparatus and software for target recognition, target identification and target tracking, and for fire control and ballistic correction; sighting apparatus with gyroscopically stabilized biaxial sighting lines for observation purposes; photogrammetric film cameras; electro-optical reconnaissance and observation apparatus and systems, and software therefor, in particular evaluation and display software for use on land, on water, in the air and in space; optical and optoelectronic components and assemblies for controlling self-propelled weapon carriers for use in the air, on water and on land; optical and

optoelectronic components for controlling rockets; periscopes and systems consisting thereof for use in air, water and land vehicles; submarine periscopes; optoelectronic mast systems; optoelectronic mast systems for submarines, including control consoles, and the software required therefor, in particular image processing software; optical apparatus for the direction stabilization of the line of sight on the basis of control signals from mechanical, optical or fibre-optic gyroscopes, accelerometers or from image evaluation algorithms; periscopes with direction-stabilized line of sight for use on land, on water and in the air; gyroscopically and inertially stabilized or scene-based stabilized commander's periscopes and electro-optical observation, monitoring and targeting devices and systems consisting thereof, and electric driver vision devices, driver assistance devices, situational awareness devices and systems composed thereof for armoured vehicles; optoelectronic sensors for air defence systems featuring TV assemblies, thermal imaging apparatus, laser range finding apparatus and laser target illuminators (laser designators); laser rangefinders, laser target illuminators and laser warning systems; laser altimeters, in particular including for use in space; stabilized platforms for electro-optical surveillance cameras, vision equipment and electronic, electro-optical and optical sensors for manned and unmanned air vehicles, land vehicles and water vehicles; adapted containers for tactical and strategic observation, monitoring and reconnaissance apparatus with multi-sensor equipment for air vehicles; missile warning sensors for use on water, on land and in the air; laser warning apparatus, thermal imaging apparatus and daytime vision apparatus and systems consisting thereof for use on land, on water and in the air; imaging electro-optical apparatus and systems in the near infrared (NIR) and short-wave infrared (SWIR) areas for use on land, on water and in the air; thermal imaging apparatus and imaging apparatus in the near infrared (NIR) and short-wave infrared (SWIR) areas for aircraft, helicopters, battle tanks, armoured personnel carriers, armoured scout vehicles and other armoured vehicles and ships; gyroscopically stabilized commander's periscopes with integrated thermal imaging apparatus; submarine periscopes and optoelectronic mast systems with integrated laser range finders, laser target illuminators and integrated thermal imaging apparatus and integrated direction stabilization of lines of sight, in particular with an integrated image processing platform and high-level algorithms, including image fusion and tracking; electro-optical observation and monitoring apparatus and systems consisting thereof, stationary and mobile, for applications on land, on water, in the air and in space; software and programs for operating and controlling apparatus and systems, and for data and image processing; sensors for position regulation and orbit control, in particular for satellites, optical instruments for terrestrial observation and for observing other natural or technical objects in space, star and solar sensors; rendezvous and docking sensors for aerospace; multispectral imaging apparatus; focal plane devices (optics); electronic apparatus and computers for aerospace; inertial and gyro sensors; solar installations for generating power, namely consisting of solar modules for power generation, inverters, electronic apparatus and instruments for control, regulation, acquisition and monitoring; apparatus for recording, transmitting, processing and reproducing sound, images, and software therefor for controlling, recording, transmission, evaluation and processing of images or data; machine-readable data carriers; microwave switches; DC converters; laser transmitters and receivers; electronic amplifiers; power amplifiers; satellite transmitters and receivers for analogue and digital signals; data processing apparatus and computers, and the peripheral devices therefor, memory drives, scanners, screens and installations consisting of data processing apparatus and computers; keyboards and printers; computer programs for providing real-time, multimedia, multi-sensor and multi-user communications via computer networks; communications apparatus and systems consisting thereof,

including systems for receiving and reproducing terrestrial signals and satellite signals, consisting of electric and electronic apparatus and instruments for communications, keyboards and printers; computer programs for providing real-time, multimedia, multi-sensor, multi-user communications via computer networks; laser communications terminals; hardware and software for sensor data fusion, including databases and the object world; hardware and software for augmented reality and virtual reality applications, including presentation media, monitors, tablet computers and smart glasses; hardware and software for displaying maps and positions; electronic signal jammers; direction and position finding apparatus for ships, land vehicles, aircraft, helicopters and drones; sensors (hardware and software) for the detection of electromagnetic, ultraviolet and infrared radiation, and self-defence systems composed thereof for ships, land vehicles, aircraft and helicopters; apparatus for guided and directional infrared counter measures (DIRCM), namely protective systems enabling vehicles, in particular aircraft, for defending against guided missiles equipped with IR [infrared] seeker heads; IR [infrared] lasers and lasers for defending against missile attacks; databases (software) for identifying electronic threats; electric/electronic apparatus and systems consisting thereof for signal encryption and decryption, and test apparatus therefor; IFF (identification friend or foe) receivers (transponders) on airborne platforms; IFF query apparatus, namely directional antennas and radar systems for transponder query, in particular for the identification of aircraft and systems consisting thereof (secondary radars) on ships and land-based platforms; electric, electronic and optical apparatus and systems consisting thereof for assistance in conditions of restricted visibility and for detecting enemy fire; antennas, transmitters and receivers for wide-band data transmission; hardware and software for mission planning and evaluation for airborne platforms; hardware and software for capturing maintenance and diagnostic data from airborne platforms; information technology and audio visual apparatus; communications equipment; antennas and antenna installations consisting thereof being communications apparatus; apparatus for line of sight stabilization being parts of optical apparatus; Satcom antennas; data loggers; apparatus for recording conversations; detectors, rangefinders, range finding apparatus, binoculars, spyglasses, telescopes, filters (photography), photovoltaic cells, computer programs, global positioning system (GPS) apparatus, downloadable computer programs, calipers, directional compasses, correcting lenses (optics), lasers (not for medical purposes), close-up lenses, surveyors' levels, lenses, instruments containing eyepieces, eyepieces, optical apparatus, instruments and equipment, periscopes, prisms (optics), transmitters of electronic signals, stands for photographic apparatus and cameras, telescopes, surveying apparatus, telescopic sights; electronic and optical peepholes (magnifying lenses) for doors; helmet target tracking systems and helmet display systems (optical and electronic apparatus and instruments) for use in air, land and water vehicles; multispectral landing aids (optical apparatus and instruments) for helicopters; laser target illumination systems, namely lasers for marking targets for combat aircraft (laser target devices); sensor platforms for military air vehicles equipped with electronic, electro-optical, optical and radar sensors; driver vision apparatus, namely optical and optronic display devices for driving a vehicle by day/night and restricted visibility; boresight equipment (target line testers), namely instruments used for calibrating a sight on the barrel of a gun; residual light image intensifiers, storage bags and cases for the aforesaid goods, and software for all the aforesaid goods; UCM (uncooled modules) being night vision attachments, including software and map/position display; computer software for encryption; electronic encryption apparatus.

Class 12

Vehicles; apparatus for locomotion by land, air or water; helicopters; rotorcraft; unmanned aircraft and drones; vehicles, including military vehicles, for transport; side cars; pick-up trucks; vehicles and side cars for signal and radio surveillance, location and jamming; jamming and reconnaissance vehicles; spare parts and fittings for all the aforesaid goods, included in this class; air vehicles; space vehicles; transport vehicles adapted for satellites, telecommunications transmission satellites, earth and space exploration systems consisting primarily of space stations equipped with optical measuring and signalling apparatus and instruments; space transport systems consisting of space vehicles with equipment for receiving payloads; vehicles, and parts and fittings therefor, included in this class; masts for ships; roof boxes; vehicles for electronic warfare.

Class 13

Weapons; ammunition and projectiles; explosives; fireworks; firearms, small arms, guns, and parts for the aforesaid goods, included in this class; firearm sights; firing control installations; smoke projectiles; seeker heads, weapons and apparatus for self-defence; apparatus for marking targets (targeting pods); sights, other than telescopic sights, for artillery; sights, other than telescopic sights, for firearms; storage bags and cases for the aforesaid goods; optical sights being parts of firearms; reflex sights being parts of firearms; daytime and night-time sights and attachments and target apparatus for firearms; sighting apparatus with gyroscopically stabilized biaxial sighting lines for firearms.

Class 37

Building construction; installation, repair and maintenance of control stations (hardware) for mission preparation, mission execution and mission follow-up for manned and unmanned aircraft (hardware); installation and maintenance of data processing apparatus and computer hardware; consultancy and information relating to all the aforesaid services, included in this class; commissioning and servicing for the restoration of electro-optical apparatus; servicing and repair of electro-optical apparatus and installations for others; installation and maintenance of vehicles and installations (hardware) and systems (hardware) for electronic warfare; installation and maintenance of radar systems (hardware) on vehicles, ships and fixed installations; installation, cleaning, repair and maintenance of apparatus for electronic warfare and for radar systems (hardware); servicing, repair, maintenance and installation relating to all of the following goods: scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking [life-saving] and teaching apparatus and instruments, optical instruments and enhancers and parts therefor, microscopes, magnifying glasses and reading glasses, telescopes, spotting scopes, binoculars, eyeglasses and magnifying eyeglasses, protective goggles, spectacle lenses, thermal imaging apparatus, night-vision apparatus, thermal imaging apparatus for night vision, night vision goggles, telescopes, telescopic sights, interference and polarization filters, photographic recording, projecting and magnifying lenses, image intensifiers, image intensifier tubes, lens hoods, condensers, mirrors, prisms (optics), objective and ocular lenses, observation eyepieces, photogrammetric cameras, digital cameras, digital cameras with an integrated laser rangefinder and a ballistics information system, measuring instruments, measuring apparatus and parts therefor, in particular for geodetic and nautical purposes, rangefinders, laser rangefinders, optical sights for firearms and astronomical telescopes, reflex sights, daytime and night-time sights, precision gauges, optical parts for headlights; rental of tools, handling apparatus and workshop equipment for repair, installation, commissioning and maintenance purposes.

Class 38

Telecommunications; rental of telecommunications facilities; operation of telecommunications satellites and broadcasting facilities; operation of telecommunications systems and electronic telecommunications networks; electronic mailbox services; communication by electronic means; transmission of images and sounds, in particular via computer; transmission of information and data via online services and the internet for the compilation, delivery and dissemination of messages; rental of telecommunications equipment; information in the field of telecommunications; communications by computer terminals; electronic display services (telecommunications); providing of connections to a global data network via telecommunications services; providing of access to electronic databases and information research centres, including for drawings, images, photographs, graphic representations, aerial and satellite images, surface models; communications relating to data transmission on computer networks; providing of access to databases via the internet; computer aided transmission of data and images, including for global communications networks (internet) or for private or restricted access networks (intranet); providing of user access to service providers on a global computer network; computer aided transmission of messages and images, in particular high and ultra-high resolution images, and geographical information; satellite-assisted transmission of messages and images, in particular high and ultra-high resolution images, and geographical information; providing of access to databases, in particular image databases containing images generated with the aid of satellites or antennas, transmission of data sets containing global digital topographical models and geographical information; providing of access to databases and information research centres, including for aerial and satellite images, geographical, geological, cartographic and topographical data, terrain displays and digital maps; electronic communication services; satellite communications; telecommunication services; voice and data transmission services; telex and facsimile services; providing of access to communications information; consultancy relating to the aforesaid services, included in this class; message collection and transmission services; maritime radio communications via radio satellite; remote transmission of information (including websites), computer programs and other data; providing of user access to the internet and to other online systems; communications and transmission via the internet; communication services for facilitating real-time online communications between internet users and content providers; broadcasting and transmission of data, images, sound, graphics and other information; computer aided transmission of messages and images; transmission of electronic mail in the field of electronic mail; digital and satellite transmission; leasing of broadband and uplink connection facilities for telecommunications; consultancy and information relating to the aforesaid services, included in this class; information services relating to telecommunications and satellite communications; communication services over computer networks; information relating to providing access to electronic messaging systems; rental of access time to databases; providing of access and leasing of access time to computers.

Class 41

Education; providing of training; entertainment; sporting and cultural activities; providing training regarding the operation of control stations for mission preparation, mission execution and mission follow-up for manned and unmanned aircraft, providing of training; sporting and cultural activities; information relating to educational or entertainment events; film production services; publication of books; arranging and conducting of colloquiums in the field of the use of satellite data and products derived therefrom; arranging and conducting of conferences in the field of the use

of satellite data and products derived therefrom; arranging and conducting of workshops in the field of the use of satellite data and products derived therefrom; arranging and conducting of training in the field of the use of satellite data and products derived therefrom; arranging and conducting of seminars in the field of the use of satellite data and products derived therefrom; photography; organization of exhibitions for cultural or educational purposes; photographic reporting; publication of texts, other than for advertising purposes, in the field of the use of satellite data and products derived therefrom; electronic publication of books and magazines in the field of the use of satellite data and products derived therefrom; publication of books; rental of books; rental of motion pictures; rental of sound recordings; arranging and conducting of colloquiums; arranging and conducting of conferences; arranging and conducting of congresses; organization and conducting of exhibitions for cultural or educational purposes; electronic publication of books and magazines online; instruction information, providing of training and training information relating to satellite communications and telecommunications, included in this class; providing of online publications from databases on the internet; electronic publishing; consultancy and information relating to the aforesaid services, included in this class; information relating to sporting events; providing of training regarding the operation of control stations.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research; design and development of computer hardware and software; technical consultancy relating to electro-optical apparatus, monitoring apparatus and monitoring installations; creation (design) of electro-optical apparatus, monitoring apparatus and monitoring installations; setting up (calibration) of electro-optical apparatus, monitoring apparatus and monitoring installations; design of ballistic information systems; scientific and technological services and scientific and technical consultancy relating to all of the following goods: scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking [life-saving] and teaching apparatus and instruments, optical instruments and enhancers and parts therefor, microscopes, magnifying glasses and reading glasses, telescopes, spotting scopes, binoculars, eyeglasses and magnifying eyeglasses, protective goggles, spectacle lenses, thermal imaging apparatus, night-vision apparatus, thermal imaging apparatus for night vision, night vision goggles, telescopes, telescopic sights, interference and polarization filters, photographic recording, projecting and magnifying lenses, image intensifiers, image intensifier tubes, lens hoods, condensers, mirrors, prisms (optics), objective and ocular lenses, observation eyepieces, photogrammetric cameras, digital cameras, digital cameras with an integrated laser rangefinder and a ballistics information system, measuring instruments, measuring apparatus and parts therefor, in particular for geodetic and nautical purposes, rangefinders, laser rangefinders, optical sights for firearms and astronomical telescopes, reflex sights, daytime and night-time sights, precision gauges, optical parts for headlights; quality control and technical tests, checking, analysis and/or monitoring of signals relating to vehicles, apparatus for locomotion by land, air or water, in particular helicopters, rotorcraft and drones; quality control and technical tests, analysis and monitoring relating to the performance of methods, algorithms, processing and software modules and development of the aforesaid software modules for the computer aided processing of signals relating to vehicles, apparatus for locomotion by land, air or water, in particular helicopters, rotorcraft and drones; quality control and technical tests, analysis and/or monitoring of algorithms for data generation systems; engineering relating to monitoring and checking performance parameters relating to vehicles, apparatus for locomotion by land, air or water, in

particular helicopters, rotorcraft and drones; engineering in the field of signal testing; engineering in the field of developing algorithms and methods for the computer aided processing of signals; scientific appraisals and assessments for creating and/or presenting results, in particular in the form of research reports, graphs, tables and charts; scientific and technological services and research and design relating thereto provided by engineers in the fields of data processing, data analysis and data conversion; development (design, preparation) and updating of programs for computer bases; research and development for and calibration of telecommunications networks and radio communications networks relating to vehicles, apparatus for locomotion by land, air or water, in particular helicopters, rotorcraft and drones; design, development and updating (for others) of software (recorded programs) for managing, administering, designing, configuring and securing local or remote communications networks for the transmission of speech, images, data or multimedia data relating to vehicles, apparatus for locomotion by land, air or water, in particular helicopters, rotorcraft and drones; design, preparation and updating (for others) of software (recorded programs) for designing, preparing, managing and securing access to computer networks and IP (internet protocol) networks; design and development of control stations, comprising application-specific computer software, computer hardware and communications apparatus for mission preparation, mission execution and mission follow-up for manned and unmanned aircraft; design and development of application-specific computer software and computer hardware for use in control stations for mission preparation, mission execution and mission follow-up for manned and unmanned aircraft; design and development of computer hardware and software for radar apparatus; computer aided services regarding the evaluation of aerial or satellite images (monochromatic or multispectral); physics (research), engineering or information technology services relating to computer aided services regarding the processing of aerial or satellite images (monochromatic or multispectral), development of databases of global digital topographical models; scientific and technological services, namely providing of terrestrial observation data generated with the aid of satellites, precise relief measurement, precise weather measurements, measurement physics (characterization of objects observed on the ground as a function of their spectral signatures, atmospheric influence, geometric and radiometric model depictions using on-board cameras); scientific services and research, and studies and projects with the purpose of developing and validating geo data relating to digital topographical models; research and design in the field of satellite images, and exploitation of corresponding data, namely technical development of methods for processing corresponding data, namely technical development of methods for processing data from observation satellites, preparation of technical processing protocols for using satellite data to generate geographical information, and engineering in the field of programming aerial images from a network of observation satellites; industrial analysis and research in the fields of displaying images through satellite and using the data relating thereto; industrial analysis and research services based on digital topographical models for applications in the field of processing and orthorectification of other geo data, mapping, creation of models of geophysical processes on earth, calculation of wave propagation in the field of telecommunications, and logistical and security applications in transport (aerospace, vehicles); design and development of computers and software; recovery of computer data; environmental protection consultancy; technological consultancy relating to the planning of crisis interventions; technological consultancy relating to defence and security policy operations; conversion of data and computer programs (other than physical conversion); design of computer software; technical project studies; field measurement; oil field surveying; geological surveys; geological research; analysis for crude oil and natural gas production; land

surveying; oil prospecting; urban planning; computer programming; creation and maintenance of websites for others; geological prospecting; research in the field of cartographic products, land coverage maps and land registries; technical information and research provided by engineers relating to the presentation of images generated with the aid of satellites, in particular geographical images, geographical maps and topographical base maps consisting of images generated with the aid of satellites or antennas; technical information and research provided by engineers relating to the following products: images generated with the aid of satellites, in particular geographical images, geographical maps and topographical base maps consisting of images generated with the aid of satellites or antennas, design and development of computer software in the field of cartography; technical consultancy in the field of cartography; creation of maps and terrain sections, propagation localization of electromagnetic waves, in digital form being a service for research institutes or for others; computer programming for industrial purposes, namely for the fire service, the police and the government, relating to operational systems, client management, installation management systems, geographical information systems, CAD systems, real-time display systems and mobile systems, and the configuration thereof, for use with suitable computer hardware; design and development of systems, apparatus and instruments for providing satellite communications and telecommunications; design and development of computer software and systems, computer infrastructures for operating satellite communications and telecommunications equipment, and for managing satellite communications and telecommunications; design and development of computer software, computer systems, computer infrastructures, communications and transmission apparatus, instruments, systems and infrastructures, all the aforesaid for use relating to news, information about weather, sporting events, business services and other information applications and internet applications; design and development of databases and user interfaces for managing interactive content; technical project management for information and internet applications; technical support, namely technological or engineering consultancy relating to the operation, management and maintenance of satellite communications and telecommunications apparatus and systems; technical support, namely technological or engineering consultancy relating to the operation, management and maintenance of satellite communications and telecommunications; technical support, namely technological or engineering consultancy relating to the operation, management and maintenance of information and Internet application systems; technical consultancy relating to computer software for information and Internet applications; computer services for data analysis; computer services relating to electronic data storage; rental of computer hardware, computer software and computer peripheral devices; maintenance and updating of computer software; creation and maintenance of websites; information and consultancy relating to all the aforesaid, included in this class; providing weather information; encryption, decryption and authentication of information, messages and data; updating and maintenance of computer software for databases; rental of data processing equipment and computers; technical design and planning of telecommunications equipment, IT services for apparatus for electronic warfare and for radar systems; development of online publications from Internet databases, namely interactive hosting to enable users to publish and use content and images online; installation, repair and maintenance of control stations (software) for mission preparation, mission execution and mission follow-up for manned and unmanned aircraft (hardware); computer-aided graphic design services; digitization of images; rental of measuring apparatus for testing the environment and

measuring electromagnetic compatibility (EMC measurements) and services relating thereto.

Collective and Certification Marks Published For Opposition Purposes

Registration has been accepted in respect of the following Collective and Certification Marks filed under the provisions of the Trade Marks Act (Cap. 332, 1992 Ed.), Trade Marks Act (Cap. 332, 2005 Ed.) and the Madrid Protocol.

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.
