REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
- (a) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

The logo for HiCi, featuring the letters 'HiCi' in a bold, sans-serif font. The 'i' is stylized with a dot that curves upwards and to the right, resembling a swoosh or a stylized 'C'.**Class 09**

Communications networks; Smartphones; Computers; Laptop computers; Tablet computers; Mobile phones; Laptop carrying cases; Mobile phone cases; Telecommunications devices; Audiovisual apparatus; Televisions; Electric cables; Electronic cables; Sync generators; Signal generators; Function generators; Particle generators; Password generators; Character generators; Time data generators; Time-code generators; Axle pulse generators; Functional generators; Time delay generators; Data networks; Network cards; Network boards; Network routers; Network servers; Optical networks; Computer networks; Resistor networks; Wide area networks; Local area networks; Computer network hubs; Communications networks; Computer network server; Computer network bridges; Computer network routers; Interface network modems; Linked computer networks; Computer network adapters; Computer network switches; Network facsimile servers; Packet switching networks; Computer network apparatus; Data transmission networks; Telecommunications networks; Computer networking hardware; Local optical fibre networks; Network management apparatus; Computer networking apparatus; Network controlling apparatus; Value added network apparatus; Computer network installations; Network access server hardware; Capacitance resistance networks; Wide area network (WAN) routers; Apparatus for telephone networks; Local area network installations; WAN [wide area network] hardware; Computer networking installations; Fiber-to-the-home [FTTH] networks; Fibre-to-the-home [FTTH] networks; Network anti-interference filters; Network operating system programs; Modems for communications networks; Apparatus for network communication; Network connector for radio networks; Network management computer software; Network management control apparatus; Network protection devices, electric; Repeaters for use in data networking; Video local area network controllers; Crossover networks for audio apparatus; Network

protection devices, electronic; Radio for radio communication networks; VPN [virtual private network] hardware; Aerials for telecommunications networks; USB dongles [wireless network adapters]; Antennas for telecommunications networks; Computer network operating installations; Computer programs for network management; Network access server operating software; Computer networks for the storage of data; WAN [wide area network] operating software; LAN [local area network] operating software; Apparatus for use in communications networks; Computer networks for the processing of data; Network controllers being computer apparatus; Apparatus for linking computers into networks; Operating software for network access servers; Voice apparatus for digital network apparatus; Computer programs for the creation of networks; Connecting elements for communication networks; Devices for use in the networking of computers; Integrated services digital network components; Voice apparatus for analogue network apparatus; Computer networks for the communication of data; Computer programs relating to computer networks; Computer network-attached storage (NAS) hardware; Integrated service digital network installations; VPN [virtual private network] operating software; Computer apparatus for use in local area networks; Computer apparatus for use with computer networks; Computer programs relating to local area networks; Sampling network analysers [scientific apparatus]; Installations for use in forming computer networks; Communication devices for linking computer networks; Telecommunications network management installations; Installations for use in the networking of computers; Computer software for wireless network communications; Electronic networking apparatus for telephone systems; Network terminating apparatus, electric or electronic; Access interfaces for managed private circuit networks; Memory apparatus for telecommunications network design; Network junction points for telephone exchange networks; Apparatus for transmitting data by the telephone network; Local area networking apparatus for the switching of data; Networks for the interconnection of communication systems; Telecommunications apparatus for use with mobile networks; Integrated circuits for networks for use in identification; Memory apparatus for telecommunications network management; Receiving devices for connection to communication networks; Computer software for administration of local area networks; Intercom key apparatus for connection to telephone networks; Communication software for connecting computer network users; Intercom key terminals for connection to a telephone network; Local area networking apparatus for the transmission of data; Communication software for connecting global computer networks; Telecommunications apparatus for use in cellular radio networks; Cabling networks [installations] incorporating fibre optic cables; Telecommunications instruments for use in cellular radio networks; Computer game software downloadable from a global computer network; Installations for use in the networking of communications apparatus; Electronic industrial network apparatus for high speed data transmission; Computer programs for connecting remotely to computers or computer networks; Diagnostic viewing transceivers for evaluating local area network apparatus; Software for searching and retrieving information across a computer network; LAN [local area network] access points for connecting network computer users; Diagnostic viewers for evaluating the condition of local area network installations; Downloadable computer game software via a global computer network and wireless devices; Computer programs for searching remotely for content on computers and computer networks; Computer programs for searching the contents of computers and computer networks by remote control; Computer software for use in providing multiple user access to a global computer information network; LAN [local area network] computer cards for connecting portable computer devices to computer networks; Electronic devices used to locate

lost articles employing the global positioning system or cellular communication networks; Battery jars; Battery boxes; Battery cases; Battery leads; Battery packs; Battery cables; Battery holders; Battery testers; Battery adaptors; Battery chargers; Battery starters; Battery terminals; Battery separators; Battery jump starters; Battery booster cables; Battery charge devices; Battery housing covers; Battery starter cables; Auxiliary battery packs; Battery charge monitors; Battery powered beacons; Battery charge indicators; Battery testing apparatus; Electric battery chargers; Wireless battery chargers; Battery tie down connectors; Cell phone battery chargers; Smartphone battery chargers; Solar-powered battery chargers; Battery ground strap connectors; Battery chargers for mobile phones; Battery chargers for laptop computers; Battery chargers for tablet computers; Battery charging apparatus for vehicles; Battery chargers for use with telephones; Power supply devices for battery chargers; Battery chargers for electronic cigarettes; Battery charging devices for motor vehicles; Battery chargers for home video game machines; Consumer type nickel cadmium battery chargers; Battery testing apparatus for sale in kit form; Cell phone battery chargers for use in vehicles; Charging systems for battery operated appliances; Uninterruptible power supply apparatus [battery]; Electrical apparatus for detecting battery voltage; Communications networks; Modems for communications networks; Apparatus for network communication; Radio for radio communication networks; Apparatus for use in communications networks; Connecting elements for communication networks; Computer networks for the communication of data; Communication devices for linking computer networks; Computer software for wireless network communications; Networks for the interconnection of communication systems; Receiving devices for connection to communication networks; Communication software for connecting computer network users; Communication software for connecting global computer networks; Installations for use in the networking of communications apparatus; Electronic devices used to locate lost articles employing the global positioning system or cellular communication networks; Air traffic control radio equipment; Software; BIOS software; Games software; Decoder software; Software drivers; Compiler software; Computer software; Packaged software; Education software; Accounting software; Video game software; Application software; Video games software; Downloadable software; Pre-recorded software; Communication software; Computer game software; Software for computers; Bioinformatics software; Computer games software; Data processing software; Electronic game software; Facial analysis software; Internet access software; Printer spooler software; Tax preparation software; Virtual reality software; Credit screening software; Data compression software; Speech analytics software; Augmented reality software; Computer firewall software; Computer graphics software; Computer software packages; Computer software products; Computer software programs; Image recognition software; Interactive video software; Music-composition software; Recorded computer software; Satellite imagery software; Voice recognition software; Computer interface software; Computer operating software; Computer software platforms; Computer software, recorded; Computer telephony software; Desktop publishing software; Embedded operating software; Engineering design software; Facial recognition software; Internet messaging software; Privacy protection software; Speech recognition software; Computer video game software; Computer whiteboard software; Data communications software; Database management software; Gesture recognition software; Integrated software packages; Process controlling software; Website development software; Interactive computer software; Table representation software; Virtual reality game software; Web site development software; Computer screen saver software; Downloadable computer software; Augmented reality

game software; Children's educational software; Computer chess games [software]; Computer search engine software; Recorded computer game software; Artificial intelligence software; Computer bridge games [software]; Computer game software, recorded; Computer software for encryption; Downloadable video game software; Anti-virus software, downloadable; Graphical user interface software; Programmed video games [software]; Computer operating system software; Computer software for time control; Anti-spyware software, downloadable; Computer software development tools; Downloadable computer game software; Industrial process control software; Software for GPS navigation systems; Computer backgammon games [software]; Computer game software, downloadable; Computer games programmes [software]; Network management computer software; Cartridges for video games [software]; Computer games entertainment software; Games software for use with computers; Industrial computer software programs; Downloadable computer utility software; Multimedia software recorded on CD-ROM; Security devices for computer software; Software for processing digital images; Computer software for business purposes; Downloadable computer security software; Video games on disc [computer software]; Cartridges for computer games [software]; Computer software for accounting systems; Magnetic cards bearing computer software; Network access server operating software; Video games programs [computer software]; Cards encoded to access computer software; Computer programs [downloadable software]; Computer software for database management; Computer software for document management; Software for satellite navigation systems; Controlling software for computer printers; Electronic game software for mobile phones; Industrial controls incorporating software; Software for optical character recognition; WAN [wide area network] operating software; Communications processing computer software; Downloadable computer software applications; LAN [local area network] operating software; Augmented reality software for creating maps; Cartridges [software] for use with computers; Computer software applications, downloadable; Computer software designed to estimate costs; Data processing software for word processing; Software and applications for mobile devices; Software for diagnostics and troubleshooting; Computer software for analysing address files; Computer software for the analysis of defects; Computer software to enable searching of data; Electronic game software for wireless devices; Operating software for network access servers; USB [universal serial bus] operating software; Virtual reality software for medical teaching; Application development software, downloadable; Computer software downloaded from the internet; Computer software for processing address files; Computer software to automate data warehousing; Computer application software for mobile phones; Computer software for processing digital images; Computer software for the creation of firewalls; Computer software for wireless content delivery; Magnetic tapes for memorising software programs; Computer software for producing financial models; Downloadable computer software for ordering food; Simulation software for use in digital computers; VPN [virtual private network] operating software; Boxes adapted for storing computer software disks; Computer software for use in controlling machines; Interactive multimedia software for playing games; Magnetic storage materials incorporating software; Software applications for use with mobile devices; Software for processing images, graphics and text; Computer software for analysing market information; Computer software programs for database management; Personal computers incorporating computer software; Computer application software for mobile telephones; Computer software for processing market information; Augmented reality software for use in mobile devices; Computer games programs recorded on tapes [software]; Computer software for processing digital music files; Computer software

for use in computer access control; Data processing software for graphic representations; Operating computer software for main frame computers; Artificial intelligence and machine learning software; Computer software for authorising access to databases; Computer software for wireless network communications; Computer software platforms, recorded or downloadable; Computer software programs for spreadsheet management; Personal computer software applications, downloadable; Software for ensuring the security of electronic mail; Boxes adapted for transporting computer software disks; Computer chatbot software for simulating conversations; Computer screen saver software, recorded or downloadable; Computer software for controlling self-service terminals; Electronic game software for handheld electronic devices; Computer software to maintain and operate computer system; Installations for the remote loading of computer software; Interactive entertainment software for use with computers; Programmed video games contained on cartridges [software]; Software for facilitating secure credit card transactions; Computer programs and recorded software distributed online; Computer software for application and database integration; Downloadable computer software for use as a digital wallet; Computer software for administration of local area networks; Computer software for creating and editing music and sounds; Computer software for use in programming facsimile machines; Computer software to enable searching and retrieval of data; Installations for the remote unloading of computer software; Communication software for connecting computer network users; Computer game software for use on mobile and cellular phones; Computer software designed to estimate resource requirements; Computer software for use in creating and designing websites; Computer software for use in processing semiconductor wafers; Data carriers for computers having software recorded thereon; Software for dosimetry purposes in the field of radiotherapy; Downloadable computer software for food ordering and delivery; Software to control and improve audio equipment sound quality; Communication software for connecting global computer networks; Computer games programs downloaded via the internet [software]; Computer software for communication between computer processes; Downloadable computer software for use as an electronic wallet; Computer software adapted for use in the operation of computers; Downloadable computer software for remote monitoring and analysis; Games software for use with an external display screen or monitor; Computer game software downloadable from a global computer network; Computer hardware for use in computer-assisted software engineering; Computer software for communicating purposes between microcomputers; Computer software for communicating with users of hand-held computers; Downloadable interactive entertainment software for playing video games; Computer software for converting document images into electronic formats; Computer software for controlling and managing access server applications; Computer programs and software for image processing used for mobile phones; Computer software for controlling the operation of audio and video devices; Downloadable interactive entertainment software for playing computer games; Computer software for organizing and viewing digital images and photographs; Recorded software and programmes for use with electronic games of all kinds; Software for searching and retrieving information across a computer network; Computer software to enable the transmission of photographs to mobile telephones; Software for the operational management of portable magnetic and electronic cards; Game programmes [programs] and software for use with electronic games of all kinds; Downloadable computer game software via a global computer network and wireless devices; Computer software for use in relation to digital animation and special effects of images; Electronic sports training simulators [computer hardware and software-based teaching apparatus]; Computer software for use in providing multiple user

access to a global computer information network; Recorded and downloadable media, computer software, blank digital or analogue recording and storage media; Computer communication software to allow customers to access bank account information and transact bank business; Computer software that assists computers in deploying parallel applications and performing parallel computations; Augmented reality software for use in mobile devices for integrating electronic data with real world environments; Charging stations for electric vehicles; Bell transformers; Transformer units; Current transformers; Flyback transformers; Step up transformers; Step-up transformers; Voltage transformers; Welding transformers; Acoustic transformers; Dry-type transformers; Electric transformers; Frequency transformers; Impedance transformers; Step down transformers; Step-down transformers; Electrical transformers; Electronic transformers; Regulating transformers; Electricity transformers; Distribution transformers; High voltage transformers; Power packs [transformers]; Power units [transformers]; Transformers [electricity]; Electric mains transformers; Electric current transformers; Electric voltage transformers; Electronic power transformers; Transformer breakdown testers; Capacitive voltage transformers; Electric toy train transformers; Encased air-cooled transformers; Electrical reducing transformers; Power supply units [transformers]; Power supply devices [transformers]; Power transformers for amplification; Transformers operating as rectifiers; Power supply apparatus [transformers]; Tap changers for electric transformers; Power supply units comprising transformers; Sliding contacts for variable transformers; Electrical transformers for use with lighting; Test benches for pressure tests on transformers; Auto transformer starters being control apparatus; Electrical transformers for telecommunication apparatus; Electric power supplies being transformers for marine use; Electrical transformers [for telecommunication apparatus]; Electrical power packs comprising transformers and rectifiers; Transformers being electromagnetic devices for military applications; Transformers being electromagnetic devices for industrial applications.

WUHAN HEKANG INTELLIGENT ELECTRIC CO., LTD

HIGH PRESSURE WORKSHOP FLOOR 1, ONE-STORIED FACTORY BUILDING HEKANG FREQUENCY CONVERSION (WUHAN) INDUSTRIAL PARK, NO. 6, FOZULINGSANLU, WUHAN EAST LAKE HIGH-TECH DEVELOPMENT ZONE

ADDRESS FOR SERVICE: RSIN GROUP PTE. LTD., 111 NORTH BRIDGE ROAD, #29-06A PENINSULA PLAZA, SINGAPORE 179098

40202122061U 16/09/2021 (09 36 42)

Application for a series of two marks.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; computer software; computer programs; computer software in the form of an application for mobile devices and computers; software applications for use with mobile devices; software for processing electronic payments to and from others; computer software and software applications used in relation to financial services, financial transactions, electronic commerce, electronic payments, foreign currency exchange, trading and brokerage services and investment advisory services; authentication software; computer software and computer software applications (downloadable); instant messaging software; file sharing software; communications software for electronically exchanging data, audio, video, images and graphics via computer, mobile, wireless, and telecommunication networks; computer software for processing images, graphics, audio, video, and text; downloadable computer software to facilitate the electronic transmission of information, data, documents, voice, and images over the Internet; downloadable computer software which allows users to participate in web-based meetings and classes, with access to data, documents, images and software applications through a web browser; downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable cloud-computing software; downloadable cloud-based software; computer software for tracking and evaluating customer and personal behaviour in relation to purchasing decisions; computer software application for use in relation to environmental conservation, climate change and carbon offsetting; online electronic publications (downloadable from the Internet or a computer network or a computer database); downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, information materials, instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; computer peripherals; notebook computers; laptop computers; portable computers; handheld computers; personal digital assistants; personal media players; mobile telephones; smart phones; digital cameras; batteries, battery chargers; computer workstations; computer servers; computer and telecommunications networking hardware; computer network adaptors, switches, routers and hubs; wireless and wired modems and communication cards and devices; laptop holders, computer bags; fire-extinguishing apparatus; computer hardware and firmware; automobile navigation system; compact discs; digital music (downloadable from the Internet); telecommunications apparatus; mouse mats; mobile phone handsets; mobile phone accessories; downloadable games, pictures, motion pictures, movies and music; alarm systems; security cameras; mobile radio and television broadcasting units; television broadcasting equipment; cameras; video cameras; headphones; earphones; speakers; Global Positioning System (GPS) apparatus and equipment; computer, electronic and video games programmes and software (including software downloadable from the Internet); liquid crystal displays for telecommunications and electronic equipment; set top box; remote control;

data storage programs; spectacles and sunglasses; electronic signboards; encoded or magnetic bank credit, debit, cash, charge, telephone and identification cards; automatic teller machines, cash dispensers; electronic book readers; toner cartridges, unfilled, for printers and photocopiers; baby monitors; video baby monitors; lens hoods; tablet computers; encoded key cards; 3D spectacles; memory cards for video game machines; wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices; wearable computers, smartphones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices, all for facilitating payment transactions by electronic means and to allow customers to access financial and bank account information and to transact bank business; wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices, all capable of providing access to wireless communications networks, telecommunications networks and the Internet; downloadable mobile applications for use with wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices; computer application software for use with wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices; encoded or magnetic pre-paid payment, bank, credit, debit, cash and identification cards.

Class 36

Insurance; financial affairs; monetary affairs; real estate affairs; clearing and reconciling financial transactions via a global computer network; online banking services and financial services; credit card services, processing of bill payments, and providing insurance for financial transactions; funds transfer services; transfer of funds by electronic means for others; transfer of payments for others via the internet; financial services in the nature of bill payment services and payment processing services; arrangement and management of leases and tenancy of real estate; renting and leasing of real estate; real estate appraisal; real estate valuation, real estate financing, real estate investment; real estate brokerage services; real estate agency services; housing agency services; actuarial services; real estate management and consultancy services; rent collection; rental of offices (real estate); rental of apartments and flats; provision of financial information via the Internet; safety deposit and issuing of travel vouchers services; capital investments; financial evaluation [insurance, banking, real estate]; financial and asset management services; insurance and financial services; financial services provided by telecommunication means; financial consultancy and advisory services; online banking; banking services provided on-line from a computer databases or the Internet; securities brokerage services, stock exchange quotation services; stocks and bonds brokerage, financial analysis; debit card services, charge card services and cheque guarantee services; banking, savings account and investment services; financial clearing services; credit verification via global computer information network; electronic credit risk management services; electronic purchase payment and electronic bill payment services; financial accounts debiting and crediting services;

electronic banking services; issuance of stored value cards, charge cards and debit cards; telephone credit cards services; information services relating to finance and insurance, provided online from a computer database or Internet; agency for collection of gas and electricity fees; antique appraisal; art appraisal; jewellery appraisal; used car appraisal; tax information supply (financial services); charitable fund raising; organizing of charitable collections; charitable collections; rental of paper money and coin counting or processing machines; rental of cash dispensers or automated-teller machines; online payment services; arranging finance for construction projects; issuing of vouchers; provision of electronic funds transfer services; monetary exchange services, cash dispensing services, provision of prepaid cards and tokens, money transfer services; including all of the aforementioned services provided by electronic means; consultancy, information and advisory services relating to the electronic transfer of funds; foreign currency transfer services; foreign currency exchange; currency trading; currency dealing; brokerage of currency; financial transactions via blockchain; provision of charitable fundraising services in relation to carbon offsetting; brokerage of carbon offsets; financial sponsorship of carbon offset programmes; funding of and investment in emissions reduction projects; investment in carbon offset programmes and projects; investment in emissions reduction funds; provision of loans; providing temporary loans; financial customs brokerage services; consultancy, information and advisory services relating to the aforesaid services.

Class 42

Scientific and technological services and research and design relating thereto, industrial analysis and research services; design and development of computer hardware and software; software as a service (SaaS); blockchain as a service (BaaS); encryption, decryption and authentication of information, messages and data; providing user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; data security services; IT security, protection and restoration; computer security threat analysis for protecting data; provision of security services for computer networks, computer access and computerised transactions; certification (quality control) of data via blockchain; data authentication via blockchain; including all of the aforementioned services for use in connection with payment systems; design, development and programming of computer software for transmitting information, data, documents, and images over the Internet; application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services providing software in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; technical support services relating to computer software and applications provided online, by email and by telephone; computer services, namely, creating an online community in the form of a website for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; computer technology advice provided to Internet users by means of a support hotline; computer advisory, design, development, network and programming services relating to creating indexes of information, sites and resources on computer networks; providing search engines; design of computers, notebook computers, laptop computers, portable computers and handheld computers; design of personal digital assistants and personal media players; design of mobile

telephones and smart phones; design of digital cameras; computer advisory services; computer co-location services; computer engineering; computer research services; computer programming; computer systems integration services; computer analysis services; computer programming in relation to the defence against virus; computer system software advisory, design, development, network and programming services; computer software design; computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for searching and retrieving information from databases and computer networks; providing technical information about computers and computer software at the specific request of end-users by means of telephone or global computer network; consultancy services in relation to computer software; provision of search engine services relating to customized searching of computer databases and websites; computer and electronic signal coding and decoding; conversion of physical data and documents into electronic media format; product testing and quality evaluation services; architectural and design services; interior designs of buildings, offices and apartments; computer information services; network information services, namely, providing technical information relating to computers and networks in the field of business and e-commerce; provision of computer security risk management programs; computer security information, knowledge, and testing services; quality assurance services; computer advisory, design, development, network and programming services relating to certification of business transactions and preparation of reports therefor; access control to (security services for-) computers, electronic networks and databases; security of data transmission services and of transactions via computer networks services; consultancy in the field of data security; technological consultancy concerning securing telecommunications; computerized communication network security services; providing information in the field of computerized communication network security; providing technological information in the field of secure transmission of data and information; consulting services in the fields of computerized communication network security services and information security services; authentication services for computer security; online authentication of electronic signatures; off-site data backup; electronic data storage; providing information on computer technology and programming via a web site; cartography services; cloud computing; cloud hosting provider services; providing temporary use of non-downloadable cloud-based software and cloud computing software; electronic storage of data; providing virtual computer systems and virtual computer environments through cloud computing; rental of entertainment software; technical research in the field of carbon offsetting; provision of information, advice and consultancy in relation to carbon offsetting and environmental protection; providing technological information about environmentally-conscious and green innovations; environmental testing, assessment and monitoring services; research in the fields of environmental protection and conservation; research and provision of scientific information in the field of climate change; scientific consultation services and industrial analysis services relating to fuels, fuel and carbon dioxide emissions and environmental issues; scientific and technological services relating to recommendation of courses of action to reduce carbon dioxide emission in a cost effective manner; scientific and technological services relating to management of carbon offset programmes; environmental research, management and protection services; consultancy, information and advisory services relating to the aforesaid services.

ADVANCED NEW TECHNOLOGIES CO., LTD.

CAYMAN CORPORATE CENTRE, 27 HOSPITAL ROAD, GEORGE TOWN, GRAND CAYMAN KY1-9008, CAYMAN ISLANDS

40202112478Q 28/05/2021 (29 30 32)

Class 29

Abalone, meat, fish, poultry and game; meat extracts; preserved, dried and cooked fruits and vegetables; jellies; jams; eggs; milk and milk products; edible oils and fats; preserved food products of fish, fruits, game, meat, poultry and vegetables; bacon; sliced pork; barbecued pork; pork floss; preserved meats; sausages; anchovy; dates; roasted, processed or prepared nuts; processed or preserved peas; satay fish; preserved cuttlefish; processed seaweed; potato chips; potato crisps; potato fritters; raisins; processed fruits; fruit peel; fruit jellies; fruit chips; frosted fruits; crystallised fruits; preserved mushrooms; processed meat; cooked meat; sliced meat, sliced beef, sliced chicken, sliced fish; barbecued meat, barbecued beef, barbecued chicken, barbecued fish; meat floss, beef floss, chicken floss, fish floss; dried pork; grilled pork; minced pork; shredded pork; tinned meats; salted meats; food products made from fish; foods prepared from fish; salmon; preserved fish; salted fish; sardines; preserved onions; pickles; sauerkraut; bird's nest; bird's nest with rock sugar included in Class 29; essences of chicken; essences of abalone; dairy products; preserved pickles; potato-based snack foods and chips; soy-based snack foods and chips; vegetable based snack foods and chips; nut-based snack foods and chips; ready to eat snack foods consisting primarily of potatoes and containing chips, nuts, nut products, seeds, vegetables or combinations thereof; potato chips, potato crisps, vegetable chips, taro chips, crisps, pork snacks, beef snacks, soy-based snacks, legume-based snacks and spreads, dairy-based dips, cheese; snack mixes made principally from potatoes; garlic-based spreads, all included in Class 29.

Class 30

Farinaceous products, cereals included in Class 30 and preparations made from cereals, rice and rice gruel (rice porridge), pilaf, butter rice, paella, risotto, dry curry rice, fried rice, rice ball, French rice, rice cake gratin, flour, pastry cream powder, pastry stuffing pastes namely, chocolate pastes, pastries, pudding powder, sweets and candy (for food), honey, sugar, chocolates, cocoa, ice-cream, sauces, tea and tea extracts, coffee, coffee extracts and coffee essences, vinegar, flavourings (other than essential oils), condiments, spices, mayonnaise; noodles; instant noodles; flavorings for beverages (other than essential oils); instant coffee; instant tea; instant cocoa mix; ready to eat snack foods consisting primarily of grains, corn, cereal or combinations thereof, including corn chips, tortilla chips, pita chips, rice chips, rice cakes, rice crackers, crackers, pretzels, puffed snacks, popped popcorn, snack food dipping sauces; grain-based snack foods; bread snacks; corn-based snack foods and chips; flour-based snack foods and chips; bagel chips; all included in Class 30.

Class 32

Non-alcoholic cocktails, fruit juices, lemonades, mineral water [beverages], non-alcoholic beverages, non-alcoholic fruit extracts, non-alcoholic fruit juice beverages, powders for effervescing beverages, tomato juice [beverage] and waters [beverages]; beverages containing bird's nest in Class 32; non-alcoholic drinks, syrups and preparations for making beverages, all containing bird's nest with rock sugar; beverages containing essences of chicken; beer, ale and porter; aerated waters, lemonades; tomato juice [beverage]; vegetable juices [beverages]; isotonic beverages; all included in Class 32.

Class 09

Computer hardware; computer networking hardware; telecommunications devices; computer hardware for telecommunications; telecommunications apparatus; computer peripherals; computer peripheral devices; computer peripheral equipment; computer components; computer hardware peripherals, namely, computer cables, audio/video cables, audio/video cable connectors, power cords, computer display screens, touch screens, projection screens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files, computer scanners, computer printers, computer speakers, computer stands, computer joysticks, microphones, webcams, digital cameras, blank USB flash drives, CD-ROM drives, digital disc drives, disk drives for computers, DVD drives, hard disk drives, electronic pens, touch screen pens, stylus pens for use with touch-screens; tablet computers; computer mice and wireless computer mice; multifunction keyboards; computer keyboards; mobile phones; cellular telephones; mobile phone peripherals, namely keyboards for mobile phones, mobile phone chargers, stands adapted for mobile phones, hands free kits for mobile phones, headsets for mobile telephones, dustproof plugs for jacks of mobile phones, in-car telephone handset cradles; set-top boxes; electronic docking stations; mobile phone accessories, namely cases adapted for mobile phones, straps for mobile phones; smart phones; parts for mobile telephones; computer network routers; network communication apparatus, namely computer network adapters, computer network switches, computer network bridges, computer network server, network routers, network interface cards; electronic communication equipment, namely modems, ethernet adapters, ethernet switches, video cable adapters, fibre-optic cables, fibre optic light and image conduits; telephones; pedometers; computer chatbot software for simulating conversations; computer software for business purposes; downloadable software for mobile phones; downloadable software applications for mobile phones, smart phones, notebook computers, notebook computers, laptop computers, tablet computers, handheld computers for use in digital painting, drawing and sketching, for use in graphic arts design, for organizing and viewing digital images and photographs, for processing digital images, for digital animation, for creating, sending and receiving e-mail, for optical character recognition, for word processing, for computer aided mechanical design, for playing computer games, video games, virtual reality games, and interactive video games, for transmission of graphics and photographs to mobile telephones, smart phones, computers for predictive and corrective text entry for use with mobile phones, smart phones, and computers; computer video control devices, namely, trackballs, joysticks and peripheral control devices for computers; computer programs for playing games; computer programs, namely, game software for use on computers and video game players; computer game software; computer game software downloaded from global computer network; computer software for data and video capture, storage and analysis; video game

software; video and computer game programs; downloadable computer games; downloadable video games; computer programs for controlling the display of television programs, delivered over global information networks; computer programs for managing communications and data exchange between handheld computers and desktop computers; computer programs for use in telecommunications; computer software; computer software applications (downloadable); computer software platforms; computer software to maintain and operate computer systems; computer software downloaded from the internet; computer software packages; computer software application software for use in collaborative work; computer software for collecting, processing, monitoring, analyzing, transmitting, storing and managing data; computer programs magnetically recorded on discs or tapes; computer user manuals in electronic format; computers; computers, namely computers for use in automobiles and computer operating systems and computer software programs, namely mapping software, systems monitoring software, and wireless communication software for use in automobiles; wallet-sized personal computers and computer operating systems and computer software programs, namely word processing, scheduling, e-mail administration, and Internet access and navigation software for wallet-sized personal computers; optical disc players and computer operating system software for optical disc players; computer hardware, computer operating systems and computer software programs for sending and receiving television and global communication network transmissions; telephones and computer programs for controlling the operation thereof; telephones for use in telecommunications over global communication networks and computer programs for controlling the operation thereof; entertainment consoles comprising computer hardware and software developed to provide audio, video and multimedia programs such as material from the Internet, and television programs; electronic pagers and software for electronic paging; handheld computers; handheld computers for playing games and operating system software for use therewith; microcomputers; computer software for communicating purposes between microcomputers; computer software for communicating purposes between computer processes; computer software for word processing, spread sheets, database management, e-mail, scheduling, games, electronic reference materials, financial management, and Internet access and navigation; computer application programs and operating system programs for use with communications servers; computer application programs providing connectivity over wide area networks and local area networks for mobile phones, smart phones, computers, televisions, and video game consoles; computer application software to enable uploading, downloading, accessing, posting, displaying, tagging, blogging, streaming, linking, and sharing electronic media and information, namely, photographs, videos, graphical images, text and email messages, text documents, music, and audio recordings, all via the internet; computer network operating software and utilities; computer network server software for managing user content on computer networks and global computer networks; computer software development tools for network servers and applications; computer software for developing, managing and operating intranet sites; computer software for inventorying and monitoring computer hardware and software assets and use within an organization; computer software for use by computer network administrators to deploy and manage application software and network server software; computer software for wireless telecommunications for use with wireless devices, namely software for enabling smart phone, portable computers, mobile phones to connect to wide area networks; operating systems software for use in playing electronic games; security software, namely computer software for managing secure communications over computer networks and global computer networks; computer software for use in browsing, accessing, searching, reviewing, purchasing, downloading,

and providing ratings on digital content, namely digital images, television shows, movies, computer games, and gift cards; downloadable computer software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing information, data, images and digital files; computer software for use in searching and making purchases in online marketplaces for software applications; computer software for electronic transmission via the Internet and display of digital content, namely digital images, television shows, computer games, movies; computer software, namely computer operating system programs and utilities, namely, computer utility file compression and synchronization programs and backup software; video game operating system software for use with televisions and computers; computer software for viewing, searching and playing pre-recorded audio and Internet radio; computer software and computer programs for database management, data storage and backup, database integration, document management, creating virtual reality and mixed reality environments on a computer network, business and social networking, online business and social collaboration between individuals and organizations, remote Internet access, remote technical support, cloud computing, data sharing, data security, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, text messages, emails, digital images and photographs, documents, publications, videos, comments and multimedia content among users, for content management, for online project management, for web conferencing, for creating, offering, hosting and delivering online meetings, demonstrations, audiovisual presentations, and interactive discussions for others, operating system programs; computer software for use in enterprise resource planning (ERP) and customer relationship management (CRM) in the fields of business operations, business management, accounting, marketing, ecommerce; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer operating system software; computer software for playing video games and computer games, computer network security, computer network management, anti-virus protection, and intrusion detection and prevention; computer graphics and graphical user interface software; computer software for running development programs and application programs in a common development environment; website development software; computer software that provides web-based access to applications and services through a web operating system or portal interface; computer software for developing and operating cloud computer networks and applications; computer software for computer system and application development, deployment and management; hardware for telecommunications for connecting devices via in home phone and electrical wiring, namely, computer networks hubs, computer servers, set-top boxes, computer switches and computer routers designed to provide in-home voice over internet protocol (voip) communications; computer and video game systems devices, namely, motion sensors and biometric sensors, cameras, projectors, headphones, and microphones; electronic visual display apparatus for use with computers, peripheral devices, namely, monitor stands, stands for peripheral control devices for computers, glasses, headsets, headphones, microphones, keypads, and styluses for communicating with a television or computer for playing electronic games; computer software for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; wireless computer peripherals; trackers [computer apparatus]; computerized personal organisers; wearable computers, namely smart rings, smartwatches, smart glasses, wearable video display monitors, wireless headsets for use with smartphones, wireless headsets for use with mobile phones, smart bands [measuring instruments], wearable activity trackers, virtual reality and mixed reality

glasses and headsets; wearable computer peripherals, namely wireless computer scanners, wireless computer mice, wireless keyboards for mobile telephones, wireless keyboards for computers; virtual reality headsets for use in visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; keyboards, mice, styluses, monitors, scanners, cameras, microphones, projectors, electric cables and cords for mobile devices for remotely accessing and transmitting data; computer display monitors; computer software, namely, software for setting up, operating, configuring, and controlling wearable computer hardware and wearable computer peripherals; carrying cases and holders for use with virtual reality headsets; eyeglasses; optical devices, namely, eye pieces for helmet mounted displays; optical glasses; optical lenses; spectacles; 3d spectacles; hologram apparatus, namely hologram projectors, headsets and glasses; holographic apparatus, namely holographic projectors, screens, headsets and glasses, for projecting holographic video, still images, graphics and multimedia files; computer hardware and software for automobiles, namely, computer programs for monitoring automobile performance, for mapping and navigation, for electronic mail and wireless digital messaging, mobile phone communication, cellular phone communication for maintaining personal directories, contact lists, address and telephone number lists; Computer software and computer programs for virtualization, networking, collaboration, remote access, creating, offering, hosting, and delivering online conferences, tours, presentations and interactive discussions; computer software, namely, a full line of computer software for business productivity, business IT service management, business computer devices management, business IT security management, business administration and management, accounting, and marketing in the fields of business, and computer software to facilitate e-commerce business transactions via a global computer network; computer operating system software; network access server operating software; computer programs for managing communications and data exchange between computers and electronic device; computer and video game systems devices, namely, electronic sensor devices for capturing gesture, facial, voice, and object recognition, cameras, projectors, headphones, and microphones; computer software for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; facial recognition apparatus; facial recognition software; computer peripherals for mobile devices for remotely accessing and transmitting data; computer peripherals for displaying data and video; apparatus for recording, transmission or reproduction of sound, images, or data; electronic and optical communications instruments and components, namely, flat panel display screens, display video screens for video games, and touchscreens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; downloadable computer software and mobile software applications for data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, data sharing, data security, access to applications and services through a web operating system or portal interface; downloadable cloud computing software for data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, data sharing, data security, access to applications and services through a web operating system or portal interface; computer software for monitoring cloud and application performance; downloadable computer software for use in automating the allocation of data processing and computing tasks between computer hardware resources and in private and public cloud environments; downloadable computer software for security information and event management (siem) employing artificial intelligence and machine learning to enable automated responses in real time to security vulnerabilities,

threats and events; microcontrollers; computer chipsets; microcontrollers and chipsets for the secure transmission of data; computer hardware modules for use with the internet of things (iot); computer software and telecommunications apparatus to enable a data connection between internet of things (iot) devices or mobile connected computing devices and the internet or secure networks; software application platform for connecting people, services and devices to the internet; home or industrial process automation software; mobile application software for home or industrial process automation; operating system software for cloud computing services and internet of things (iot) devices; cloud computing software; application software for cloud computing services; operating software for cloud computing devices and the control and secure management of cloud computing devices; computer software for artificial intelligence (ai) processing; computer chips for artificial intelligence (ai) processing; computers and computer servers for artificial intelligence (ai) processing; computer operating system software; computer operating system software that may be embedded in other software; computer software development tools, for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software for general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software runtime systems, namely, computer software systems comprised of computer software for general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software, namely, application programming interface (api) software for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; artificial intelligence and machine learning software; computer software, namely, software for implementing a computer programming language, and computer software development tools, for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; integrated circuit modules; integrated circuit cards and components; computer hardware for processing math; computer chips; silicon chips; application data processors; central processing units; software programmable microprocessors; downloadable computer software for collection, storage, analysis and presentation of data for forensic analysis of security events and for security compliance; downloadable computer software for use in data storage and management; downloadable computer software, namely, computer software for real-time analytics and debugging, computer software for user authentication, customer engagement, customer relationship management, computer software for providing messages, push notifications and information in the field of video games, computer software for user data capture, storage, and analysis, computer software for allowing users to perform electronic business transactions via a global computer network, computer software for generating coupon codes, payment processing, payment fraud detection, and computer software for creating, using and managing virtual currency; computer programs for connecting computers to one another and for enabling activities via the internet; computer programs that provide web-based access to applications and services through a web operating system or portal interface; downloadable computer software for use in assessing, monitoring, administration and management of data centers and datacenter devices, and public and private cloud computing IT and

application systems and resources; downloadable cloud-computing software for managing cloud computing resources; software for creating and managing cloud, high performance computing, cluster or grid computing resources, hybrid operating system environment and computing networks; software interface for accessing cloud, high performance computing, cluster or grid computing resources, hybrid operating system environment and computing networks for workload management by administrators, managers and end-users; software for policy-based governance, workload scheduling, resource and energy monitoring, control, management and provisioning by administrators, managers, and end users in the nature of automated allocation of computing resources, analysis of computing resource availability and status information, installation of software and provisioning operating system changes, power management, software upgrades management, accounting and usage management for reporting and billing, third-party application integration management, workload policy management, and job scheduling for both batch and interactive jobs across cloud, high-performance computing, cluster or grid computing resources, hybrid operating system environments, and computing networks; software for governance, monitoring, managing, profiling, and indicating available computing and associated resources, namely, for intelligent automation and management of multiple resources, scheduling, operating system provisioning, power management, and computing resource policy implementation that enables administrators, managers, and end users to automate, control, and utilize multiple computing resources across cloud, high-performance computing, cluster or grid computing resources, hybrid operating system environments and computing networks; software for statistical diagnostic and performance monitoring, namely, analysis of utilization of computing resources, analysis of efficiency of use of computer resources, analysis of optimization of computing resources, analysis of fair sharing of computing resources, analysis of load balancing of computer systems, analysis of hybrid operating system environments, and analysis of power consumption in compute environments by organizations, entities, individuals, classifications of quality of service, queues, and computing nodes; software for providing a quality of service for submitted jobs and for scheduling guarantees and job reservations for users, groups, classes, accounts, and levels of quality of service; software for command-line and graphical resource and workload simulation, including simulation of simultaneous instances to explore the effects of configurations and policies on clusters, grids, high-performance computing environments, and computing networks; software for dynamic command-line and graphical management of computing resources, namely, management of software licenses within a single computer administrative domain or across multiple heterogeneous computer administrative domains, hybrid operating system environments, file spaces, network-attached storage media, tape drives, processors, memory, disks, network bandwidth, and other hardware resources; software for interface with and collection of end-user commands for job, queue, operating system, power consumption, and system management, for internal diagnostic and logging facilities, and for integration of provisioning managers, billing systems, identity and security managers and databases, and translation of resource manager job submissions; software for peer-to-peer collaboration of multiple instances to provide domain-specific policies and to provide native resource management support; downloadable software development kits (SDK); downloadable employee platform and software featuring articles, education, engagement, wellbeing, insight, collaboration, communication, artificial intelligence, and deep learning components; downloadable computer programs for assisting developers in creating program code for use in internal computer networks and global communication networks; computer software development tools; downloadable computer programs for running development programs and

application programs in a common development environment; computer programs for assisting developers in creating program code for use in multiple application program; computer software development tools for network servers and applications; downloadable software that enables users to share and collaboratively develop software, computer code and user-generated content; computer programs for developing server applications; computer servers; computer software development tools; downloadable computer software development tools; downloadable computer software, namely, software development tools for the creation of mobile internet applications and client interfaces; computer software for browsing the internet; downloadable computer search engine software; computer browsing software, namely, software for browsing the global computer network and private networks; search engine software; graphical user interface software; voice-recognition software; computer search engine software to enable searching and retrieval of data; software for designing business processes in a visual form; software for accessing and integrating data from multiple databases, business software applications, and software as a service (saas) services; software for designing and automating workflows within and between business software applications and business software as a service (saas) services; graphical user interface software, namely, toolbar software for use with search engine software and websites; downloadable computer software, namely, downloadable computer software featuring software in the field of advertising; downloadable computer software featuring software for managing and controlling product display on websites and on-line retail stores; downloadable computer software featuring software for product merchandising; computer application software for advertisers, marketers, and content providers to reach, engage, and interact with online users for the purposes of promotion or advertising; computer software for the design, execution and management of advertising and marketing campaigns; computer software for generating reports and analytics for advertising and marketing campaigns; Data processors; data processing apparatus; memories for data processing equipment; mobile data terminal (MDT); downloadable computer software for creating searchable databases of information and data; computer chipset for use in transmitting data to and from a central processing unit; downloadable enterprise software in the nature of a database for non-transactional data and a search engine for database content; Network servers; internet servers; intranet servers; video servers; digital media servers; IP video servers; servers for web hosting; communications servers [computer hardware]; Downloadable computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; downloadable computer software for managing cryptocurrency transactions using blockchain technology; downloadable computer software for managing and verifying cryptocurrency transactions on a blockchain; transceivers for television and global communication network transmissions that transmit them to a television or other display device, and computer operating programs for use therewith; entertainment system comprising a computer, multiple image display screen and multiple input devices; hand held computers; computer operating system software for use with electronic equipment for playing games; computer programs for managing communications and data exchange between hand held computers and desktop computers; computer software for the transmission, recording, reproduction, display, organization, management, manipulation and review of messages, text, images, files, audio, video and audio-visual content for the facilitation of communications between multiple users via computer networks, communication networks and the Internet; communications software for connecting peer professionals on computer networks or the Internet; computer software for use as an application programming interface (API) for facilitating voice over internet protocol (VOIP) calls,

phone calls, video calls, text messages, instant messages and online social networking services; communication software for connecting computer network users; computer communication software which enables multiple users to post messages and memoranda, share files, and synchronize calendars; application programming interface (API) software which facilitates online social networking; electronic devices for communications, namely, telephones, handsets, headsets, speakers, microphones, earphones, webcams and video cameras; headphones; multifunctional electronic devices for displaying, measuring and uploading information to the internet; downloadable electronic publications; data processing programmes for the production of newspapers; newspapers downloaded via the internet; downloadable electronic newspapers; data exchange units, namely, data exchange platforms; computer hardware modules for use in security and secure power management for internet connected devices; security processors, namely, computer hardware for protecting data against unauthorized access, disclosure, alteration, duplication and substitution; security subsystems comprised of a microprocessor core, memory, cryptographic hardware accelerators, access control apparatus, security state control apparatus, and parts and fittings thereof; software for the booting of computer systems; hardware for supporting remote attestation and certificate-based security; computer software for remote attestation and certificate-based security; computer software for use in access control, identification, authentication, security and safety; authentication application software for cloud computing services; downloadable computer software for finding and displaying a user's location; downloadable computer software for global positioning system (GPS) tracking devices; Global positioning system (GPS); Global positioning system (GPS) apparatus; GPS tracking devices; GPS navigation device; GPS receivers; Vehicle mounted GPS sensor for determining the rate of motion for a vehicle; Computerized vehicle engine analyzers; Electronic speed controllers; software for tracking, creating lists, and organizing information and digital content; video analytics software; downloadable files and software featuring video analytics technology; computer software for artificial intelligence, deep learning, computational kernel optimization, and sparse attention kernels.

Class 42

Non downloadable computer software for artificial intelligence, deep learning, computational kernel optimization, and sparse attention kernels; Computer software rental; rental of computer software and programs; computer software design; software design and development; updating of computer software; developing and updating computer software; rental of application software; software authoring; computer software development; computer software consultancy; consultancy relating to software for communications systems; technical consultancy relating to the installation, maintenance, application and use of computer software; software development in the framework of software publishing; maintenance of computer software; maintenance of software for Internet access; customizing computer software; developing computer software; smartphone software design; installation of computer software; rental of software for Internet access; research and development of computer software; debugging computer software for others; computer hardware and software design; design and development of computer hardware and software; advisory and information services relating to computer software; computer software repair; provision of online non-downloadable software; design and development of software in the field of mobile applications; programming of software for e-commerce platforms; providing temporary use of non-downloadable business software; Computer services, namely, providing on-line non-downloadable software for database management, data storage and backup, virtualization, networking, collaboration, remote

access, remote support, cloud computing, data sharing, data security, access, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for content management, online project management, creating, offering, hosting, and delivering online conferences, meetings, demonstrations, tours, presentations and interactive discussions, word processing programs, operating system programs; data as a service (DaaS) services; data encryption services; data decryption services; data migration services; electronic data back-up services; cloud storage services for electronic data; cloud storage services for electronic files; consulting services in the field of cloud computing, infrastructure as a service (IaaS) cloud computing technology, software as a service (SaaS) cloud computing technology, platform as a service (PaaS) cloud computing technology and mobile backend as a service (MBAAS) cloud computing technology; computer services, namely, cloud hosting provider services; website hosting services; design and development of software for website development; hosting of software as a service (SaaS) and infrastructure as a service (IaaS) services, namely, hosting servers for use by others; platform-as-a-service (paas), infrastructure-as-a-service (iaas) and software-as-a-service (saas) services featuring computer software platforms for creating web applications, data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, cloud computing, data sharing, data security, access, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for content management, online project management, creating, offering, hosting, and delivering online conferences, meetings, demonstrations, tours, presentations and interactive discussions; online non-downloadable software for computer operating systems; providing online non-downloadable computer programs for accessing global communication networks; online non-downloadable software for downloading, streaming, and playing music, audio, videos, multimedia content, podcasts, and internet radio broadcasts; update, installation and maintenance of computer software; computer services, namely, updating computer software for others via the internet and wireless networks; computer hardware and software testing services; design and development of computer hardware, computer software and software architecture in the field of machine learning, deep learning, and artificial intelligence solutions; software as a service (saas) featuring artificial intelligence, machine learning, and deep learning applications and computer software platforms; software as a service (saas) featuring software for executing deep learning, machine learning, hierarchical learning, artificial intelligence, automatic speech recognition, and natural language processing programs; providing a web site that gives users the ability to upload images; providing a web site featuring technology that enables online users to create personal profiles featuring social networking information; computer services, namely hosting of a website for virtual communities of registered users to participate in discussions and engage in social, business and community networking; application service provider (ASP), namely, hosting computer software applications of others; application service provider (asp) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, blogging, linking, sharing or otherwise providing electronic media or information over communication networks; software as a service (saas) services featuring software for sales management, customer service management, business operations management, financial and finance operations management, remote and field service operations management, project service automation management, marketing campaign planning and management, customer relationship management, enterprise resource management, sales and marketing information

management, personnel and project management, facilities management, internet of things management, software development and customization, the analysis, warehousing, processing and management of data, big data management, security and authentication, social media management, peer-to-peer communications, email account management, word processing, and cloud computing for use with all of the foregoing; hosting the software, websites, and other computer applications of others on a virtual private server; provision of cloud-based software technological services for intelligent natural language understanding purposes; user authentication services using single sign-on technology for online software applications; providing temporary use of online, non-downloadable enterprise software for customer relationship management, enterprise risk management, security, datacenter, data warehousing, cloud, hosting, mobile application, artificial intelligence, machine learning, word processing, and multimedia functions; cloud services, namely, providing on-line non-downloadable operating software for accessing and using a cloud computing network; design and development of operating software for computer networks and servers; cloud hosting provider services; providing virtual computer systems and virtual computer environments through cloud computing; cloud computing services; providing cloud computing services, namely, cloud hosting provider services and cloud computing featuring software for uploading, downloading, integrating, encoding, decoding, formatting, organizing, caching, transferring and streaming of text; providing virtual computer systems, graphics processing units (gpus), and virtual computer environments through cloud computing; providing information in the fields of the development of computer systems, cloud computing environments, networks and software over computer networks, wireless networks and global communications networks; computer services, namely, remote hosting of operating systems and computer applications for others on a virtual private server; rental of computing and data storage facilities of variable capacity; providing, developing, and designing on-line non-downloadable software accessible over a global computer network for managing computer applications; designing and developing electronically stored web pages for online services on the internet; data warehousing; elaboration and maintenance of web sites for third parties; managing web sites for others; rental of web servers; server hosting; rental of a database server to third parties; hosting of websites for the display of images of others on a computer server; computer services, namely, hosting and maintaining an on-line web site for others to collaboratively develop software; hosting an on-line community web site featuring a distributed control system for the collaborative development of software; platform as a service (paas) and software as a service (saas) services featuring computer software platforms for the collaborative development of software; design and development of networks and network software and applications; computer hardware and software development; providing temporary use of on-line non-downloadable software development tools; troubleshooting of computer software problems; technical support services, namely, troubleshooting of computer hardware, software, web, database and mobile applications; computer services, namely, providing technical support, information and consultation services, namely, troubleshooting in the nature of diagnosing problems in computer hardware, computer software and computer operating systems; consulting in the field of information technology; information services relating to information technology; software consulting services; consulting in the field of cloud computing networks and applications; development of software for secure network operations; design and development of computer game software; design and development of virtual reality software; design and development of computer hardware in the field of games, video games, and game content; platform as a service (paas) featuring computer software platforms for use in software development in the field of gaming and graphic design;

providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, text, games, game content, digital media, images, music, audio, video and animations; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for purchasing and subscribing to digital media content; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for developing and publishing applications for interactive streaming; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for television (tv) programming; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for management and storage of digital media; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for parental control for enabling access to games, namely, electronic, computer, and video games; computer software consulting services in the field of gaming technology and graphics software; consulting services in the field of software as a service (SAAS); computer software development in the field of mobile applications; platform as a service (paas) featuring computer software platforms for gaming and graphic design; online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; provision of search engines for customized searching and retrieval of information at the user's specific request via the internet; providing temporary use of non-downloadable software for mapping and directions, language translation, and accessing information related to entertainment, travel, finance, news, sports, weather, food and drink, and health and fitness consisting mainly of links to other websites; providing internet search engine services; providing a website featuring a media aggregator and search engine for internet content; providing customized on-line web pages featuring user-defined information, which includes search engines and on-line web links to other web sites; providing temporary use of non-downloadable computer software applications for business related news and information; providing temporary use of non-downloadable computer software applications for non-business related news and information that mainly consists of links to other websites in the fields of entertainment, travel, finance, news, sports, weather, food and drink, maps, language translation, and health and fitness; provision of computer technology services for provision of specific information as requested by customers via the internet; computer network design and computer software design in the field of the telecommunications industry; non-downloadable software for wireless network management; design, development, and implementation of software in the field of white space telecommunications and internet connectivity; research, development, design and upgrading of computer software; research services in the field of white space telecommunications and internet connectivity; Platform-as-a-service (PAAS), infrastructure-as-a-service (IAAS), software-as-a-service (SAAS) services, provision of non-downloadable artificial intelligence software, and mobile-backend-as-a service (MBAAS) services, namely, provision of non-downloadable software for employee engagement, employee collaboration, employee messaging and communication, sharing information, well-being features, providing training, skill enhancement features, skill development features, and education; design, deployment and management of wireless internet computer networks for others; hosting of websites for creating and hosting online communities for business and technology professionals, entrepreneurs, researchers, investors, service providers, academics, students, experimenters, and others who are involved

in internet of things business and/or technology; computer services, namely, hosting and maintaining an on-line web site for others for educational purposes in the fields of reading, writing, science, technology, engineering and math for use by teachers and students; provision of non-downloadable software for testing, analysis, and evaluation of the knowledge, skills and abilities of others for purposes of credentialing in the field of computers, software development, artificial intelligence, security and information technology, cloud solutions, and electronic business transactions via a global computer network; research services in the field of information and telecommunications technology; development, maintenance, and updating of a telecommunication network search engine; telecommunications technology consultancy; research in the field of telecommunications technology; computer programming services to create online facilities that will provide telecommunications support; programming of telecommunications software; technological research of computer software and hardware; research and development of advanced learning technologies for developing artificial intelligence and machine learning capacities; product research and development; research and development of computer software; research, development and consultancy services relating to information technology, computer hardware and computer software; artificial intelligence research and consultancy; scientific research on the topics of the advancement of artificial intelligence, computing technology, human interactions with technology and digital security, data mining and management, accountability and personal responsibility; charitable services, namely, providing computer software for those in need; updating of computer software relating to computer security and prevention of computer risks; computer security consultancy; computer security services [programming and software installation, repair and maintenance services]; providing information in the fields of technology and software development via an on-line website; providing temporary use of non-downloadable computer anti-virus software; application service provider featuring application programming interface (API) software; services for developing and providing application programming interface (API); electronic storage of cryptocurrency for others; providing technology information in the field of cryptocurrency; providing on-line non-downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; providing temporary use of non-downloadable web-based decentralized applications (DApps) for blockchain contracts, cloud storage of data, web browsing, and cryptocurrency trading; computer security services in the nature of administering digital certificates; computer security services in the nature of administering digital keys; providing temporary use of on-line non-downloadable software development tools; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and web sites, of others in the fields of advertising and marketing; online non-downloadable computer software for security information and event management (siem) employing artificial intelligence and machine learning to enable automated responses in real time to security vulnerabilities, threats, and events; provision of artificial intelligence (ai) processing online non-downloadable software; Computer diagnostic services; computer programming services; computer software integration; configuration of computer software; computer consultancy and technical support, all relating to the design and use of computer programs, computers, computer hardware and computer systems; providing temporary use of on-line non-downloadable software for instant messaging, enabling and managing multiple modes of communication over local area networks and the Internet via instant messaging, voice over internet protocol (VOIP), video conferencing, audio conferencing, electronic spreadsheets, designing, creating, editing and publishing documents, note taking, email, calendaring, contacts management, presentation graphics,

desktop publishing, document management, word processing, computer desktop sharing, file transfer, sensing and providing user presence information, and telephony; computer software consultancy which provides technical information; hosting of digital content on the Internet; consulting services in the field of software as a service (SAAS); computer software rental; platform as a service (PAAS) featuring computer software platforms which enable multiple users to post messages and memoranda, instant message, share files and synchronize calendars; online non-downloadable software for microprocessors; online non-downloadable software development kits (SDK); cloud computing services; Software as a service (SaaS); Platform as Service (Paas); Infrastructure as a Service (IaaS); Data as a Service (DaaS); Platform-as-a-service (PAAS), infrastructure-as-a-service (IAAS), software-as-a-service (SAAS) services, and mobile-backend-as-a-service (MBAAS) featuring computer software platforms for deploying virtual machines to a cloud computing platform, diagnostics and analysis, syncing, storing, and archiving data, analyzing data, database design and development, creating web applications, data storage, and archiving and backup of data, electronic media, and digital content; computer services, namely, creating cloud-based indexes of information; software as a service (saas) services featuring non-downloadable software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing information, data, images, and digital files; platform as a service (paas) services featuring non-downloadable computer software platforms for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing information, data, images, and digital files; Online computer security services provided via online scanning, detecting, managing and authenticating security and log in credentials for users of mobile digital electronic devices and computing devices; software as a service (SaaS) services featuring security software, user authentication software, password and log in management and protection software; non downloadable online software for buying and selling photographs; hosting of online websites for buying and selling photographs; non downloadable software for consumers; non downloadable safety software for consumers; non downloadable security processing software; non downloadable global positioning system (GPS) software; non downloadable vehicle tracking and monitoring software; non downloadable video analytics software; provision of video analytics technological services.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 01

Chemicals used in industry, science, as well as in agriculture, horticulture and forestry; unprocessed artificial resins; laboratory chemicals; biochemical and biological reagents, preparations and materials; chemical or biological products for use in imaging, spectroscopy, electrophoresis, labelling, conjugation, chromatography and purification; chemicals, namely, marker reagents and indicators for scientific or research purposes; chemical or biological products for use in modifying the spectral or luminescent properties of other materials; solvents, acids, bases, salts, chemical solutions, biological solutions and organics for research, analysis, synthesis and testing; antibodies for scientific and research use; proteins; peptides; enzymes; antigens for scientific and research use; ligands; chemical reagents and biological reagents, namely, agonists, antagonists, activators and inhibitors; nucleotides and other nucleic acid derivatives or constituents; deoxyribonucleic acid kits; deoxyribonucleic acids; biological or chemical reagents, namely, lysates; cell lines; biological or chemical reagents, namely, vectors; lipids, monosaccharides; disaccharides; polysaccharides; assay kits consisting of chemical reagents or antibodies; reagents; assays; stem cells for scientific and research use; loading controls in the nature of loading control antibodies and proteins; tags and markers, namely, tag and marker antibodies and proteins; biomolecules; biomolecules having detectable labels, in particular labels that are particles, fluorophores or chromophores; luminescent chemicals; fluorescent chemicals; luminescent chemicals for use as a luminescent label; fluorescent chemicals for use as a fluorescent label; fluorogenic chemicals; colorimetric chemicals; biomolecule conjugates; luminescent conjugates; fluorescent conjugates; fluorogenic conjugates; colorimetric conjugates; metal conjugates; microscopic particles for scientific and research use, in particular microscopic polymer, gold and magnetic particles, whether or not derivatised or labelled; cell line for use in arrays and tissue materials for use in arrays, all for medical and scientific research purposes; kits comprising reagents for single- and multiplexed detection, quantification or identification of proteins, nucleic acids and small molecules for scientific or research use; labelling kits comprising reagents for use in colorimetric, metallic or luminescent labelling, for example fluorescent labelling; biomolecule labelling kits comprising reagents for use in scientific research; diagnostic kits consisting primarily of reagents, particles and buffers for scientific or research use, in particular for monitoring, identifying, detecting or quantifying biological molecules and small molecules; assays for monitoring, identifying, detecting or quantifying biological molecules and small molecules for scientific or research use; single- and multiplexed assays for analysis of proteins, nucleic acids and small molecules for scientific or research use.

Class 05

Medical diagnostic preparations, chemical and biological materials, reagents and assays; kits comprising diagnostic preparations for single- and multi-plexed detection, quantification or identification of biological molecules, proteins, nucleic acids and small molecules for medical or clinical use; diagnostic kits consisting primarily of reagents, particles and buffers for medical or clinical use; assays for monitoring, identifying, detecting, or quantifying biological molecules or small molecules for medical or clinical use; diagnostic kits consisting primarily of reagents,

particles and buffers for monitoring, identifying, detecting, or quantifying biological molecules or small molecules for medical or clinical use; single- and multi-plexed assays for analysis of proteins, nucleic acids and small molecules for medical or clinical use.

Class 09

Scientific, laboratory or research apparatus and instruments; apparatus and instruments for scientific research in laboratories; computer software for scientific and laboratory apparatus and instruments; computer software for detecting, identifying, reading, quantifying, decoding, tracking or analyzing nucleic acids, proteins, cells, molecules or encoded particles, and for processing, managing, tracking displaying, and creating reports of generated data; computer software for scientific, laboratory, clinical or medical analysis of cells, molecules or encoded particles.

Class 35

Retail and wholesale services connected with the sale of unprocessed artificial resins, laboratory chemicals, biochemical and biological reagents, preparations and materials, chemical or biological products for use in imaging, spectroscopy, electrophoresis, labelling, conjugation, chromatography and purification, dyes, stains and indicators for scientific or research purposes, chemical or biological products for use in modifying the spectral or luminescent properties of other materials, solvents, acids, bases, salts, solutions and organics for research, analysis, synthesis and testing, antibodies, proteins, peptides, enzymes, antigens, ligands, agonists, antagonists, activators, inhibitors, nucleotides and other nucleic acid derivatives or constituents, deoxyribonucleic acid kits, deoxyribonucleic acids, lysates, cell lines, and vectors, lipids, monosaccharides, disaccharides, polysaccharides, assay kits consisting of chemical reagents or antibodies, reagents, assays, stem cells, loading controls in the nature of loading control antibodies and proteins, tags and markers, namely, tag and marker antibodies and proteins, biomolecules, biomolecules having detectable labels, in particular labels that are particles, fluorophores or chromophores, luminescent chemicals, fluorescent chemicals, luminescent chemicals for use as a luminescent label, fluorescent chemicals for use as a fluorescent label, fluorogenic chemicals, colorimetric chemicals, biomolecule conjugates, luminescent conjugates, fluorescent conjugates, fluorogenic conjugates, colorimetric conjugates, metal conjugates, microscopic particles, in particular microscopic polymer, gold and magnetic particles, whether or not derivatised or labelled, cell line arrays, and tissue arrays, all for medical and scientific research purposes, kits for single- and multiplexed detection, quantification or identification of proteins, nucleic acids and small molecules for scientific or research use, labelling kits containing reagents for use in colorimetric, metallic or luminescent labelling, for example fluorescent labelling, biomolecule labelling kits comprising reagents for use in scientific research, diagnostic kits consisting primarily of reagents, particles, vials and buffers for scientific or research use, in particular for monitoring, identifying, detecting or quantifying biological molecules and small molecules, assays for monitoring, identifying, detecting or quantifying biological molecules and small molecules for scientific or research use, single- and multiplexed assays for analysis of proteins, nucleic acids and small molecules for scientific or research use, medical diagnostic preparations, materials, reagents and assays, kits for single- and multi-plexed detection, quantification or identification of biological molecules, proteins, nucleic acids and small molecules for medical or clinical use, diagnostic kits consisting primarily of reagents, particles, vials and buffers for medical or clinical use, assays for monitoring, identifying, detecting, or quantifying biological molecules or small molecules for medical or clinical use, diagnostic kits consisting primarily of reagents, particles, vials and buffers

for monitoring, identifying, detecting, or quantifying biological molecules or small molecules for medical or clinical use, single- and multi-plexed assays for analysis of proteins, nucleic acids and small molecules for medical or clinical use, scientific, laboratory or research apparatus and instruments, apparatus and instruments for scientific research in laboratories, computer software for scientific and laboratory apparatus and instruments, computer software for detecting, identifying, reading, quantifying, decoding, tracking or analyzing nucleic acids, proteins, cells, molecules or encoded particles, and for processing, managing, tracking displaying, and creating reports of generated data, computer software for scientific, laboratory, clinical or medical analysis of cells, molecules or encoded particles, including sale thereof via mail order and the Internet.

Class 41

Education, training, teaching, organisation of conferences, seminars, educational meetings and workshops in the research and development, medical and clinical, diagnostic, science and life sciences fields, including on antibodies, proteins, nucleic acids, cell lines, lysates, biomolecules, biological materials, chemical substances, kits, assays and protocols; consultancy and information services related to all of the aforesaid.

Class 42

Scientific and technological services and research and design relating thereto; scientific laboratory services; laboratory services, including analyzing and profiling biological material, stem cells, lysates, lipids, nucleic acids, antibodies, proteins and small molecules; industrial analysis and research services; providing analysis, testing, authentication, purification, development, design or information services for research and development, scientific, chemical, biological, medical research and clinical trials; providing analysis, testing, authentication, purification, development, design or information services relating to antibodies, peptides, enzymes, lysates, vectors, lipids, assay kits, reagents, stem cells, loading controls, tags and markers, cell line arrays, cell line slides, tissue arrays, and tissue slides for scientific and medical research purposes; providing scientific and medical research information on immune response and protocols relating to antibody use; providing scientific information on the selection, production, purification, application, structure, labelling and activities of antibodies, proteins, nucleic acids, cell lines, lysates, biological materials or chemical substances; providing technological support and consultation services relating to all of the aforesaid, including antibody selection and use; online computer services in the nature of providing a search engine for obtaining data, namely, for searching, retrieving, and providing information on research and development, chemicals, biological materials, medical and clinical studies and matters, antibodies, proteins, nucleic acids, cell lines, lysates, biomolecules, biological materials, chemical substances and research topics pertaining to any of the aforesaid, on a global computer network; design and development of computer hardware and software in relation to use for all of the aforesaid.
