GENERAL INFORMATION

Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules.

It is published weekly on Fridays and on other days when necessary, upon giving notice by way of circulars found on our website.

Requests for past issues of journals published more than three months ago may be made at <https://go.gov.sg/tmgi> and is chargeable at \$12 per issue.

Instructions on payment will be provided to you via email within 7 working days after we receive your online request. Payment shall be made via IP²SG's payment platform. Acceptable modes of payment include Internet Banking, Visa/Master credit and debit cards and GIRO.

The journal(s) will be reproduced in CD-ROM and we will arrange an appointment with you to collect the CD-ROM at the following address:

Address: Intellectual Property Office of Singapore
1 Paya Lebar Link, #11-03
PLQ 1, Paya Lebar Quarter
Singapore 408533

REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

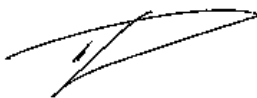

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

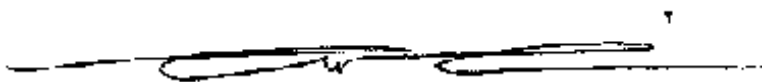

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (a) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 09

Answering machines; Apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; apparatus for checking the authenticity of banknotes; apparatus for data storage; apparatus for electronic payment processing; apparatus for recording, transmission or reproduction of sound or images; apparatus for verifying data on magnetically encoded cards; audiovisual teaching apparatus; augmented reality software; automated bank note sorting machines; automated banking machines; automated cash machines; automated teller machines [atm]; automatic cash sorting and counting machines; automatic paying-in and deposit machines; Automated teller machines; ticket dispensers; bags adapted for laptops; Apparatus for processing banknotes; bar code labels, encoded; bar code printers; bar code readers; bar code scanners; barcode readers; barcode scanners; battery chargers; Computer apparatus for remote billing; biometric fingerprint readers; blank magnetic data carriers; blank magnetic discs; Data buffers; Computer buffers; Calculating apparatus; card readers for credit cards; card readers; card reading equipment; cash dispensers; cash dispensing machines; Cash registers, calculating devices; Data processing equipment; cash registers; cds; cell phone straps; chip card readers; chips [integrated circuits]; coin changers; coin counting or sorting machines; colour printers; Laser color printers for documents; communication software for connecting computer network users; communication software for connecting global computer networks; communication software; communications servers [computer hardware]; compact discs; computer apparatus; computer application software for mobile phones; computer communication software to allow customers to access bank account information and transact bank business; computer firewall software; Computer programs for use in database management; Database management software; Remote access online electronic information apparatus; computer hardware; computer interface boards; computer interface cards; computer interface software; computer memory devices; computer peripherals; computer programs and software for image processing used for mobile phones; Computer programs for connecting remotely to computers or computer networks; computer programs for enabling access or entrance control; computer programs for the management of sales; computer programs used for electronic cash register systems; computer programs, downloadable; computer programs, recorded; computer servers; Communication modems; Connectors for telecommunication apparatus; computer software development tools; Computer software for use in providing multiple user access to a global computer information network; Communication software for connecting global computer networks; computer software for communicating with users of hand-held computers; computer software for controlling and managing access server applications; computer software for controlling self-service terminals; computer software for encryption; Computer software for use in programming facsimile machines; Voice mail systems; Software for ensuring the security of electronic mail; Software for optical character recognition; Software for processing images, graphics and text; Computer programs for the management of sales; computer software for use in providing multiple user access to a global computer information network; Electronic apparatus for the transmission of data; computer software for wireless content delivery; computer software for wireless network communications; computer software platforms, recorded or downloadable; computer software platforms; computer software to enable the transmission of photographs to mobile telephones; computer software;

computer systems; computer terminals for banking purposes; computer terminals; counterfeit coin detectors; couplers [data processing equipment]; credit card encoding machines [computer peripherals]; credit card terminals; credit card-style usb flash drives; currency authentication apparatus and equipment; currency counting machines; currency sorting machines; Data carriers containing stored typographic typefaces; Data communications apparatus; Data communications instruments; Data processing apparatus for use with computers; data processing programs recorded on machine-readable data carriers; data processing software; data storage apparatus; Magnetic data carrying tapes; data storage devices; database management software; desktop publishing software; digital color printers; digital indicators; digital telecommunications apparatus; digital transmitters; Digitizers for use with computers; display monitors; display screens; dot matrix printers; downloadable applications for use with mobile devices; downloadable electronic publications in the nature of magazines; downloadable electronic publications; dvds; education software; electric cables and wires; electrical access control apparatus; electrical adapters; electrical connectors; electronic advertising displays; Information storage apparatus, electric or electronic; Electronic apparatus for the transmission of data; electronic card readers; electronic cash registers; electronic chip cards; Electronic visual display units; electronic docking stations; electronic identification cards; electronic locking mechanisms for safes; electronic machines for reading credit cards; electronic mail servers; electronic navigational and positioning apparatus and instruments; electronic payment terminals; Interactive touch screen terminals; Bank cards being encoded; encoded cards; encoded charge cards; encoded credit cards; encoded debit cards; encoded electronic chip cards; encoded loyalty cards; encoded magnetic cards; Magnetically encoded payment cards; encoded prepaid payment cards; encoded reward cards; facial recognition software; memory card readers; gesture recognition software; Handheld computers; Handheld personal computers; hard disc drives; Hard discs; headphones; headsets; identity cards, encoded; identity cards, magnetic; illuminated advertising signs; image analyzers; image recognition software; impact printers; instructional and teaching apparatus and instruments; integrated circuit cards [smart cards]; interactive touch screen terminals; Intercoms; interface cards for data processing apparatus; interfaces for computers; internal modems; internet access software; internet messaging software; internet phones; internet servers; invoicing machines; Identification labels, machine readable; lan [local area network] computer cards for connecting portable computer devices to computer networks; lan computer cards; lanyards [straps] for mobile phones; Light emitting diode [LED] displays; Machine readable data carriers incorporating programs; Magnetic data carriers; Optical data carriers; magnetic coded card readers; Optical data carriers in disc form; magnetic data media; magnetic encoders; magnetic identification cards; magnetic identifying cards; magnetic strip readers; magnetically encoded bank cards; magnetically encoded cards for carrying data; magnetically encoded debit cards; magnetically encoded payment cards; mechanisms for coin operated apparatus; memory card readers; memory devices for use with data processing apparatus; Computer memory storage apparatus; microchips; microprocessors; mobile data receivers; mobile phone cases; mobile telephones; money counting and sorting machines; non-impact printers; operating system programs; personal digital assistants [pdas]; point-of-sale terminals; portable computers; prepaid telephone calling cards, magnetically encoded; pre-recorded data carriers for use with computers; printed circuit boards incorporating integrated circuits; private branch exchanges; processors [central processing units]; quantity indicators; readers [data processing equipment]; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; recorded computer

operating programs; recorded computer programs; recorded computer software; secure digital [sd] card readers; secure digital [sd] memory cards; secure terminals for electronic transactions; smart card readers; smart cards; smartphones; tablet computers; software and applications for mobile devices; software for facilitating secure credit card transactions; software for searching and retrieving information across a computer network; speech recognition software; telecommunication apparatus; Telecommunications devices; Telecommunication apparatus; Telecommunications apparatus for use with digital signals; Telecommunications apparatus for use with analogue signals; telecommunications cables; telecommunications equipment; Computer hardware for telecommunications; telecommunications switchboards; telephones; terminals for electronically processing credit card payments; ticket dispensers; ticket printers; transmitters [telecommunication]; usb [universal serial bus] operating software; visual display units; voice recognition software; wireless computer peripherals; Wireless transmitters and receivers; wireless receivers; wireless routers; wireless telephony apparatus; word processing apparatus; word processing equipment.

Application for a series of four marks.

Class 35

Accounting; Preparation of payrolls for others; advertising; Advertising services provided over the internet; advertising and marketing services; Social media marketing; Advertising services provided by television; Radio advertising; Advertising by mail order; advertising services to promote public awareness in the field of social welfare; advertising services to promote public awareness of environmental matters; advertising through all public communication means; Advertisement via mobile phone networks; advisory services for business management; advisory services relating to commercial transactions; affiliate marketing; analysis of market research data and statistics; arranging and concluding commercial transactions for others; arranging and conducting auctions; real estate auctions; arranging commercial transactions, for others, via online shops; Arranging exhibitions for advertising purposes; Arranging exhibitions for commercial purposes; auction services; auctioneering; auditing of financial statements; automated data processing; business administration; business appraisal; business appraisals; business data analysis; business efficiency expert services; business inquiries; business intermediary services relating to the matching of potential private investors with entrepreneurs needing funding; business investigations; Business investigations; Business evaluation services; Business information and research services; business management and organization consultancy; business management assistance; business management consultancy; business research; business research and surveys; collating of data in computer databases; Market

research data collection services; Compilation and systemization of information into computer databases; Compilation of statistics for business or commercial purposes; Compiling indexes of information for commercial or advertising purposes; commercial administration of the licensing of the goods and services of others; commercial information agency services; commercial intermediation services; commercial or industrial management assistance; compilation and systemization of information into computer databases; Compilation of business data; compilation of information into computer databases; compilation of statistics; Computerised accounting; Market opinion polling studies; conducting, arranging and organizing trade shows and trade fairs for commercial and advertising purposes; consultancy regarding public relations communication strategies; Business management of call centres; cost price analysis; Advisory services relating to customer service; data processing services; data processing services in the field of payroll; data search in computer files for others; demonstration of goods; Demonstration of goods and services by electronic means, also for the benefit of the so-called teleshopping and homeshopping services; development of marketing strategies and concepts; digital advertising services; direct marketing; dissemination of advertisements and of advertising material [flyers, brochures, leaflets and samples]; dissemination of advertising for others via the internet; dissemination of advertising material; Distribution and dissemination of advertising materials [leaflets, prospectuses, printed material, samples]; drawing up of statements of accounts; economic forecasting; electronic billboard advertising; electronic data processing; Electronic publication of publicity texts; financial auditing; financial statement preparation and analysis for businesses; Business management consultancy, also via the Internet; Compilation of information into computer databases; Management and compilation of computerised databases; invoicing; market research data collection services; market surveys; marketing; marketing research; marketing studies; media relations services; merchandising; negotiation and conclusion of commercial transactions for third parties; office functions; online advertising on a computer network; On-line advertising on computer communication networks; online data processing services; opinion polling; organisation and management of customer loyalty programs; organisation and management of discount card loyalty schemes; Organisation of exhibitions and events for commercial or advertising purposes; organization of exhibitions for commercial or advertising purposes; organization of trade fairs for commercial or advertising purposes; outdoor advertising; payroll preparation; personnel management consultancy; personnel recruitment; preparation of public opinion surveys; price comparison services; procurement services for others [purchasing goods and services for other businesses]; production of teleshopping programmes; promoting the goods and services of others over the internet; promoting the goods and services of others via a global computer network; promoting the sale of goods and services of others by awarding purchase points for credit card use; promotion of goods and services through sponsorship of sports events; providing business information in the field of social media; providing business information via a web site; Provision of information and advice to consumers regarding the selection of products and items to be purchased; providing information in the field of marketing; provision of an online marketplace for buyers and sellers of goods and services; public relations; Publication of publicity material; Publication of publicity texts; publicity; publicity material rental; rental of advertising space; sales promotions at point of purchase or sale, for others; search engine optimization for sales promotion; sponsorship advertising; sponsorship search; statistical evaluations of marketing data; tax preparation; telemarketing services; television advertising; updating and maintenance of data in computer databases; Updating of advertising

material; web indexing for commercial or advertising purposes; web site traffic optimization; writing of publicity texts.

Class 09

Computer hardware; aircraft cockpit voice recorders and flight data recorders; flight parameter data recorders and transmitters; semiconductors; radio frequency switches; radar detectors; flight testers, namely, computer hardware and software for performing flight simulation; computer software for aircraft flight simulation; telephonic transmitter; telecommunication network hubs; telecommunication network connectors; telecommunication network receivers; telephonic network interface hardware; telephonic security control hardware; telephonic multimedia control hardware; telephonic switching, routing, and subscriber interface hardware for use in computer and communications networks and systems; computer software for use in command and control in the field of satellite communications; computer software for data mining in the field of strategic and tactical intelligence; computer telemetry software for use in data collection and transmission from satellites, aircraft, missiles, moving surface-based systems and remotely configured fixed site installations; computer software for use in data collection and transmission in medical in x-ray machines, magnetic sensing machines, acoustic sensing machines, chemical tracing machines; computer software for use in control and operation of real-time equipment; computer software for operating and controlling x-ray machines; computer software for operating and controlling magnetic sensing machines; computer software for operating and controlling medical imaging machines; computer software for operating and controlling acoustic sensing machines; computer software for operating and controlling chemical tracing machines; flight navigation controls; flight safety equipment, namely, voice recorders and telemetry systems for use on aircraft; computer software for operating and controlling aircraft maintenance systems on aircraft; computer software for operating and controlling telemetry scanners; intrusion detection systems; computer software for operating and controlling combat scoring systems and pictures, computer software for operating and controlling air traffic handling systems; computer software for operating and controlling monitors, still cameras and video cameras; computer software for operating and controlling radar systems; computer software for use in vehicle status and monitoring systems; computer software for system situational awareness and representation in a communication and data link control system; telecommunications channel amplifiers; frequency filters for use in telecommunications; computer hardware for electronic key information processing, namely, the processing of information related to electronic encryption and other security technologies; radio frequency limiters; harmonic generators; satellite transponders; transponder controllers; secure communications systems consisting of digital processors, modulators, antennas, transmitters, receivers, and encryption hardware and software for secure algorithm processing devices for use with airborne, satellite, ground and sea-based information collection, transmission and analysis; communications systems consisting of high data rate microwave communications links and computer hardware; communications systems consisting of telephonic and high data rate microwave radio components, digital processors, computer hardware, software containing algorithms for use in processing secure communications and software for the secure broadcast and/or receipt of communications and information or data; on-board satellite equipment providing subsystem capabilities, namely, electronic modules and circuit cards for digital solid-state recording of electronic data, video signal processing, communications signal processing and translation; microwave devices, equipment, products and components, namely, frequency transmitters, frequency converters, frequency synthesizers, frequency modulators, frequency filters, frequency power amplifiers, passive

components, mechanical switches, wireless frequency monitors; radio navigation equipment comprised of recording transmission and receiving microwave equipment, namely, microprocessors, electronic displays, digital storage devices, radio transmitters and receivers, providing the following capabilities: navigation, vehicle command and control, vehicle indications and warning, data and telemetry recording; surveillance equipment and devices, namely, ISR (Intelligence surveillance reconnaissance) subsystems which use computer hardware and software to provide a sampling of the electromagnetic spectrum in prescribed frequencies to extract information content available for analysis, for use in military and civilian aircraft; electronic sensors that provide in real time the ability to collect electronic data and information; electronic computer hardware and software that allow for the collection, monitoring, analysis, storage, and presentation of medical images; hardware that allows for the interfacing of analog or digital signals into the existing PSTN (Public Switch Telephone Network) or global Information network and create the ability to take those same signals into a mobile communications system; telephonic computer hardware that allows for creation of a wireless last mile, namely, wireless radio connections between a central source and destination with the telephony and data system having fixed site or mobile operational capability; communications terminals which consist of computer hardware that provides for the creation and connection of multimedia communication signals including analog, voice, data, and video and allow signals to be connected to other communications terminals or other network nodes; Radio and television transmission systems comprising transmitters, monitors, signal mixers, audio and video signal encoders and decoders and editing equipment, namely, signal processors; transmitters and receivers for satellite communications; computer operated network systems comprising computer hardware and software for transmitting data between computers connected in a network and for managing the computers and the transmission of the data on said network; computer information systems comprising computers and software for processing data, word processing and displaying of data; avionics systems comprising digital maps, fiber-optic and wire data busses, memory devices, instrumentation for displaying, storing, processing, and retrieving weather, tactical, strategic and secure data, aircraft cockpit controls and data displays; phased array antennas; global positioning equipment comprising data processors and displays; Computer software and computer hardware for use in air traffic control communications systems for displaying transporting, transmitting voice, data and images, controlling, switching, routing, and receiving air traffic information; computers and computer software for converting images into data, and for analyzing, displaying and printing the data in the field of two and three-dimensional image extraction, manipulation, display, and geographic registration; secure computer operated systems consisting of computer hardware and computer software, and encrypted databases, all used for ensuring and controlling the security and access of a computer network and the information contained therein namely, tracking air traffic and transmitting encrypted messages to pilots data base management, file transfer, and for connecting computers and data bases in a network and for air traffic circulation management; airline management system comprising computers and software for database management and for exchanging aircraft and aircraft operations information; Television signal analysis processors, namely, electronic display panels for displaying signals, signal evaluation terminals primarily comprised of customized signal analysis hardware with integrated displays and software analysis components running on industry standard computers and monitors for evaluating the quality of analog and digital signals, media analysis servers for verifying the quality of digital media content, signal interface modules, handheld signal analyzers, optical signal analyzers, circuit testers for monitoring broadcast signals, and video monitoring tools,

namely, software based video monitoring tools, namely, computer software for monitoring and logging the loudness of media content; timing reference generators, namely, time reference signal generators for broadcast system timing signal and test signal generation; hardware and computer software for television production, post production and broadcast, namely, demodulators, digital signage, namely, dynamic electronic displays and networking computer servers and computer software for managing and controlling dynamic electronic displays, distribution amplifiers, audio/video editors, namely, computer workstations equipped with computer software for editing audio and video program material, computer hardware and computer software sold as a unit for generating characters and graphics, computer software for generating visual effects, computer hardware and computer software sold as a unit for generating and inserting on-air branding, emergency alert modules, namely, computerized electronic modules and associated computer software for implementing the broadcasting of public emergency alert messages, fiber optic signal transports, electronic master control switchers for audio and video signals, audio and video signal compressors and audio and video signal decompressors, multiplexers and de-multiplexers, multiviewers, broadcast computer network monitoring and control application software, electronic network control panels, audio, video and data receivers and decoders, electronic routing switchers for audio and video signals, video servers, NTP timing modules comprised primarily of computer hardware and computer software for carrying out NTP timing, signal timing clocks, signal transport modules, audio/video sync and timing managers primarily comprised of high precision clock generation circuitry for synchronization of audio with video, computer software for creating and displaying timecode markers, up/down signal frequency converters, signal format cross converters, all for use in the media and entertainment industry; broadcast operations software for advertising, sales, traffic and billing, automation, digital asset management, programming and rights management, namely, computer software for managing, monitoring and automating the buying, selling, scheduling, research, inventory management, production tracking and accounting processes for advertising, and general content for the media and entertainment industry; computer software for controlling and monitoring switching systems for television and radio signals; computer software for managing, monitoring and automating the creation, movement, location, archiving, retrieval and use of digital media assets; business process management and messaging software, for managing and controlling human and automated workflows and multisystem communications for use in the media and entertainment industry; network management centers primarily comprised of mobile and portable radios and also containing electrical base station controllers, electrical communication controllers and electrical network controllers; mobile and nonmobile two-way communications radios; portable two-way communications radios; radio network gateways comprising computers, computer switches and associated computer software for voice and data communications; Internet protocol-based networks comprising computer hardware and computer software for interoperable communications; telecommunications equipment, namely, trunked radio communication systems for public service and industrial applications comprised of portable communications radios, electrical base station controllers, electrical communication controllers and circuit switches; control equipment for two-way mobile and two-way fixed radios, namely, base station equipment for fixed and mobile networking and communications, cell sites primarily comprised of electronic hardware, computer software, antennae, and base stations, control stations primarily comprised of, radio hardware and associated computer software, desktop control stations primarily comprised of radios, radio hardware and associated computer software, dispatch and console hardware, namely, dispatch consoles and software for carrying out emergency and

nonemergency communications and carrying out command and control of public safety personnel and assets, site management computer hardware and software for managing communications radios and base stations, and network monitoring computer hardware and software for monitoring communications radios and base stations; radio data communications systems primarily comprised of mobile communications radios and also containing non-mobile communications radios, portable communications radios, base station controllers, communication controllers, and network controllers; communications radio network gateways comprised primarily of computers, computer switches and associated computer software for providing a gateway between networks; space deployable reflectors for satellite communications; computers and computer software for processing geographic elevation data representing the elevations of locations on the earth to generate, display and print three-dimensional geographically registered representations of those locations; computers and computer software for managing, cataloging and retrieving geospatial imagery, imagery derived products and other intelligence products, through the synchronization of data catalogs across disparate storage locations; computers and computer software for managing, processing, exploiting and disseminating motion imagery intelligence; computers and computer software for managing, processing, exploiting and disseminating flight planning presentations to general aviation pilots and air traffic controllers; networking communications radios; shipboard communication terminals primarily comprised of antennae, pedestals, positioners, modems, up converters, down converters, amplifiers and user interfaces; ground communication terminals primarily comprised of antennae, pedestals, positioners, modems, up converters, down converters, amplifiers and user interfaces; computer information systems comprised mainly of computers and computer software for processing data, word processing and displaying of data in the fields of census information systems, healthcare information systems, intelligent electrical power distribution systems, weather reporting and forecasting systems and environmental reporting and forecasting systems; avionics equipment, namely, video signal compressor and decompressors, power supplies, mounting racks specially adapted for mounting and interconnecting electronic apparatus, airborne signal processors for network interoperability and for targeting, of weapons secure network switches, computer software in the nature of networking protocols for facilitating the exchange of electronic messages and data, radio frequency (RF) data links for weapons, UHF/VHF wireless data links, beam former electronics primarily consisting of power amplifiers and also containing low noise amplifiers, phase shifters, time delay units, transmit and receive switches, array dividers, array combiners, frequency up-converters, frequency down-converters, array controllers and array power supplies and control equipment, antenna control units, attitude and heading reference units, transmit/receive control units, antenna position controllers and frequency band select switches; air traffic control communications systems consisting of computer hardware and computer software for displaying, transmitting, controlling, switching, routing, and receiving weather data; two-way radios for communication of voice, data, images and video for use by military and other government agencies; two-way communications radios, namely, voice and data communications radios operable across multiple frequency bands for enabling public safety officials and first responders such as law enforcement agencies, paramedics, firefighters and military personnel to communicate interoperably with one another even though their respective pre-existing communications infrastructures might otherwise be mutually incompatible; trunked radio communication systems for public service and industrial applications, namely, cellular base stations and mobile radio base stations for two-way mobile and fixed communications radios; loudspeakers for mobile two-way communications radios; loudspeakers for

non-mobile two-way communications radios; battery chargers for two-way communications radios; Internet protocol-based communication networks comprised primarily of computer hardware and computer software for implementing interoperable communications; cryptographic modules namely, electronic modules with embedded firmware for data encryption; encryption engines; radio frequency wireless communications adapters, namely, network interface cards; software for operating radio frequency wireless network interface cards; communications software for connecting radio frequency wireless network interface cards to a local area communications network; radio network gateways comprised primarily of computers, computer switches and computer software in the field of voice and data communications; computer software for use in the field of air traffic control, namely, for the supervision, maintenance, administration, troubleshooting and configuration of computer software for monitoring the performance of air traffic control systems, mapping definition, uploading software updates and releases, access control, user definition, recovery and diagnostic reporting.

Class 35

Business management advice and consultation in the field of telecommunications logistics; Business consultation and assistance in the operation of telecommunication systems and networks for others; Business consultation and assistance in the field of telecommunications namely, the operation and administration of telecommunication networks and communication links for others.

Class 37

Technical consultation in the field of building construction of fixed site earth-based facilities; Technical consultation and assistance in the field of construction, repair and maintenance of submarines and ships; Technical consultation concerning the installation, repair and maintenance of mobile and fixed site earth-based facilities, satellites and related computer information systems; Technical consultation and assistance in the field of deployment of computer hardware equipment and systems; IT and communication infrastructure upgrade services, namely, updating of computer hardware for IT and communication systems; Telecommunications system maintenance services, namely, maintenance of radio, television and digital communications equipment for others.

Class 38

Technical consultation in the field of satellite communications and communications by related communication information systems, namely, communications via satellite transmission, microwave products and telemetry and instrumentation; Consultation and technical assistance in the fields of secure communications and telemetry.

Class 42

Technical consultation and assistance in the field of avionics; Information technology consultation in the fields of submarines and ships, mobile and fixed site earth-based facilities, satellites and related information systems, namely, information security, communications, microwave products and telemetry and instrumentation; Designing computer systems for software integration, maintenance and user-information services, operation support systems for software integration, maintenance and planning support services and provisioning, and provisioning control support services for satellite control networks, real-time defense communications systems, and real time defense intelligence collection systems; Designing computer systems for engineering support for satellite launches, deployed communication systems and deployed intelligence collection systems;

Consultation and technical assistance in the fields of customization of computer hardware and software products; Computer consultation and assistance relating to computer program management services and computer site management services; Technical support services, namely, troubleshooting in the nature of diagnosing and testing computer hardware and software problems; Providing an interactive web site that enables users to enter, access, monitor and generate designed strategic and tactical signal intelligence information reports; IT services; technical support services, namely, data migration of datacentre and computer network server; technical design of telecommunication networks and computer networks for others; deployment of computer software for telecommunication networks and computer networks for others; technical support services for migration of datacenter, server and database applications; data migration services; IT software applications management, enterprise services management, namely, management of software applications, management of restricting network, data, maintenance of computer software relating to computer security and prevention of computer risks; computer hardware and software consulting services; technical consulting in the field of telecommunications technology; technical consulting in the field of information technology (IT); updating and maintenance of computer software, information technology (IT) integration services; technical support, namely, monitoring of computer networks by remote access; remote computer network technical monitoring and software maintenance services; remote management of the information technology (IT) systems of others; planning, design and management of information technology (IT) systems; computer hardware and software design; computer network design for others; digital security services, namely designing and deploying software to secure communications systems and information networks, for safeguarding the confidentiality, integrity and availability of information systems and critical business data of others; design of radio, television and digital communications equipment for others; design and technological consultation services on the integration of telephone systems, communications systems, and information display systems; consultation and technical assistance in the fields of information security and intelligence security services for secure and non-secure voice, data, and video communications, user authorization, recognition and message encryption.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 06

Common metals and their alloys; ores of metal; metal materials for building and construction purposes; buildings, transportable, of metal; non-electric cables and wires of common metal; metal hardware; metal containers for transport or storage; safes.

Class 07

Machines, namely machines for humidifying tobacco and tobacco products, filling machines, machines for handling material to be conveyed, machines for the pharmaceutical industry, machines for applying codes on pharmaceutical products and pharmaceutical packagings, machines for processing of filtering materials for tobacco products, machines for picking up goods, machines for loading and unloading goods, machines for filling cartridges for electronic smoking equipment, machines for inserting prospectuses in packagings, machines for depalletising goods, product labelling machines, machines for gripping goods, machines for lifting goods, machines for palletising goods, machines for sorting pharmaceutical products and in particular for sorting tablets, dragees and capsules, machines for transporting pharmaceutical products, pharmaceutical containers and packagings, machines for transporting goods, machines for filling electronic cigarettes, machines for the labelling and printing of containers and packaging, machines for manufacturing and filling inhalers and/or components thereof, machines for manufacturing and filling smokers' articles, machines for manufacturing electronic cigarettes and parts thereof, machines for manufacturing tissue paper products, machines for manufacturing paper products, machines for manufacturing pharmaceutical products, machines for manufacturing toilet paper, machines for manufacturing drinking straws, machines for manufacturing vaporizers, machines for manufacturing packagings for pharmaceutical products, machines for producing cigarettes, machines for producing cigarillos, machines for producing cigars, machines for the commissioning of goods, machines for cleaning pharmaceutical containers, machines for processing tissue papers, machines for processing paper, machines for processing tobacco leaves, mixing machines, cross belt sorter machines, rack operating machines, cutting machines, sifting machines, sorting machines, tobacco cutting machines and tobacco processing machines; machine tools; power operated tools; motors, other than for land vehicles; propulsion mechanisms, other than for land vehicles; machine coupling and transmission components (except for land vehicles); machines and components thereof for the tobacco processing and cigarette and cigar industry; machines for the treatment of tobacco; machines for the manufacture of filters for tobacco products; conveyors [machines]; packaging machines; machines for manufacturing paper, including machines for manufacturing cardboard, tissue and non-woven material; machines and machine apparatus for processing plastics; die-cutting machines; die-stamping machines; machines for the graphic industry, especially printing machines; machines for processing print products; stapling presses [other than for surgical or stationery use]; stacking machines [other than fork-lift trucks]; printing machines; palletizers; palletising robots (machines); electric discharge machines; laser machines; tool grinding machines; production grinding machines; sorting machines for tobacco products and cigarette filters.

Class 12

Vehicles; apparatus for locomotion by land, air or water.

Class 16

Paper; cardboard; printed matter; bookbinding material; photographs [printed]; stationery; office requisites, except furniture; adhesives for stationery or household purposes; drawing materials; artists' materials; paintbrushes; instructional and teaching materials; foils and bags of plastic for wrapping and packaging; printing fonts; printing blocks.

Class 35

Advertising; business management; business administration; office functions; retail services, wholesale services, mail order retail services, online retail services, online wholesale services and online mail order retail services in relation to the above-mentioned goods in classes 6, 7, 12 and 16 of this application; business consultancy and advisory services; data processing; business project management, also in the field of IT; professional business consultancy; business organization consultancy; compilation of information into computer databases; business organization consultancy with regard to production planning for third parties.

Class 37

Building construction; installation and repair services relating to machines for humidifying tobacco and tobacco products, filling machines, machines for handling material to be conveyed, machines for the pharmaceutical industry, machines for applying codes on pharmaceutical products and pharmaceutical packaging, machines for processing of filtering materials for tobacco products, machines for picking up goods, machines for loading and unloading goods, machines for filling cartridges for electronic smoking equipment, machines for inserting prospectuses in packagings, machines for depalletising goods, product labelling machines, machines for gripping goods, machines for lifting goods, machines for palletising goods, machines for sorting pharmaceutical products and in particular for sorting tablets, dragees and capsules, machines for transporting pharmaceutical products, pharmaceutical containers and packagings, machines for transporting goods, machines for filling electronic cigarettes, machines for the labelling and printing of containers and packaging, machines for manufacturing and filling inhalers and/or components thereof, machines for manufacturing and filling smokers' articles, machines for manufacturing electronic cigarettes and parts thereof, machines for manufacturing tissue paper products, machines for manufacturing paper products, machines for manufacturing pharmaceutical products, machines for manufacturing toilet paper, machines for manufacturing drinking straws, machines for manufacturing vaporizers, machines for manufacturing packaging for pharmaceutical products, machines for producing cigarettes, machines for producing cigarillos, machines for producing cigars, machines for the commissioning of goods, machines for cleaning pharmaceutical containers, machines for processing tissue papers, machines for processing paper, machines for processing tobacco leaves, mixing machines, cross belt sorter machines, rack operating machines, cutting machines, sifting machines, sorting machines, tobacco cutting machines, tobacco processing machines and external and internal thread grinding machines, banding machines, belt conveyors, pneumatic transporters, conveyor belts, conveying chains, conveyors, transporters, bobbin splicing and changeover machines, printing machines, plunge grinding machines, electric discharge machines, filter attachment machines, staplers, machines for manufacturing hygiene products and hygienic paper products, machines for manufacturing paper, machines for manufacturing paper goods, high-speed grinding machines, power operated tools, machine coupling and transmission components, agricultural implements, laser machines, mechanical conveyor belts for

loading machines with goods and articles for further processing, mechanical tray fillers and dischargers, machines for the graphics industry, machines and installations consisting thereof for treating and processing tobacco, machines and mechanical apparatus for processing cardboard, tissue or plastic, machines and mechanical apparatus for manufacturing and/or processing flat material cuts, folded box cuts, envelopes, mailing bags, labels, sanitary articles, tissue articles and household cloths, machines and machines parts for the food, paper, cardboard and hygienic goods processing industries, machines and machines parts for the tobacco processing, cigarette and cigar industries, machines for manufacturing packaging materials, machines for arranging and aligning packaged goods, machines for manufacturing filters for tobacco products, machines for processing print products, material roll replacement devices, engines, palletising robots, palletising machines, polygon grinding machines, embossing machines, production grinding machines, groove grinding machines, grinding machines, laser machining machines, sorting machines for tobacco products and cigarette filters, stamping presses, stacking machines, propulsion mechanisms, vehicles for use on land, universal cylindrical grinding machines, vending machines, packaging machines, roll grinding machines, machine tools, tool grinding machines, scientific, research, navigation, surveying, photographic, film, audio-visual, optical, weighing, measuring, signalling, detection, testing, checking, life saving and teaching apparatus and instruments, apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling the distribution and use of electricity, apparatus and instruments for recording, transmission, reproduction or processing of sound, images or data, computers, computer peripheral devices, material testing and measuring instruments and machines, sensors, optical control apparatus, metal detectors, lasers, weighing machines, electric apparatus for commutation, control panels and control cabinets, electrical and electronic controls, material testing instruments, devices, apparatus and machines, quantity indicators, measuring instruments and apparatus, temperature indicators, thermometers, camcorders, counters, measuring and sorting instruments for tobacco products and cigarette filters, chips [integrated circuits], devices and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating and water supply as well as sanitary purposes, vehicles, apparatus for locomotion by land, air or water, furniture, containers for storage or transport as well as industrial robots for appliances relating to the movement and transport of goods.

Class 41

Education; training; entertainment services; sporting activities; cultural activities; training services; arranging and conducting seminars, workshops and conferences; publishing services; publication of printed matter.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis; industrial research; industrial design; quality control; authentication services; design and development of computer hardware and software; engineering services; information technology [IT] engineering; technical research projects and studies; design, development and servicing of computer software; advisory services relating to computer programming; preparation of data processing programmes; surveying; mechanical research; technical project planning, products development and technological consultancy; updating, rental and servicing of computer software; technical project management in the field of IT; software as a service (SaaS); rental of computers, computer software and web servers; design of program and database systems for data processing; implementation of IT programs on networks; server administration for

software-based systems; technical consultation services in the field of packaging technology and packaging design; packaging design services of a packaging designer; quality control of pharmaceutical products; conducting medical studies for pharmaceuticals; development of pharmaceutical preparations and medicines; research on the subject of pharmaceuticals; technological consultancy in the field of the packaging of pharmaceutical products.
