CLASS 7

Manipulators and micromanipulators for forging presses and for forging machines; Motorized actuators, namely, linear actuators and rotational actuators; Machine elements not for land vehicles, namely, manual and Motorized Translation and Rotation Stages for use in positioning components; Machine elements not for land vehicles, namely, benchtop and Rackbased Motion Controllers; Fiber optic components and supplies for the purpose of creating terminated fiber patch cables, namely, power tools for fiber polishing and fiber fusing.

CLASS 8

Fiber optic components and supplies for the purpose of creating terminated fiber patch cables, namely, fiber termination tools in the nature of fiber buffer stripping tools, tubing cutters, synthetic fiber cutting shears, tubing cutters, connector crimping tools, fiber polishing hand tools in the nature of fiber polishing film, pads, and plates, fiber cleaving tools, hand tools for fusing fibers.

CLASS 9

Opto-mechanical positing components, namely, opto-mechanical laboratory hardware and hardware devices for use in laser positioning; lasers not for medical purposes; fiber optics; electro-optical devices to measure or manage light; microscopes; microscopes and parts thereof; microscope objectives; lenses for microscopes; fluorescence imaging filters in the nature of optical excitation filters, optical emission filters, optical dichroic filters; microscope condensers; imaging platforms in the nature of optical and electronic imaging platforms in the field life-science, optical and electronic imaging platforms in the field of materials inspection; objective lens turret in the nature of a rotating device used to hold multiple optical lenses and allow switching between them; microscope illuminating devices; filters for microscopy; microscope sample holders; precision instruments for manipulation and positioning of microscopic objects; microscope adapters for the purpose of connecting optical components to a microscope; manipulators and micromanipulators for manual and or remote manipulations for electrophysiology and life sciences research; optogenetic and photostimulation systems for exciting biological samples using electromagnetic radiation and analyzing such samples; multiphoton and confocal imaging systems comprised of devices for delivering optical radiation to scientific samples, user configurable microscope components in the nature of epi-illumination modules, widefield viewing modules, trans-illumination modules for differential interference contrast imaging, brightfield fluorescence modules, laser scanning modules, illumination sources, scientific cameras, imaging objectives, microscopy filters, optical components, sample holders, and microscope bodies and associated optomechanical hardware and full microscope systems comprised of epi-illumination modules, widefield viewing modules, trans-illumination modules for differential interference contrast imaging, brightfield fluorescence modules, laser scanning modules, illumination sources, scientific cameras, imaging objectives, microscopy filters, optical components, sample holders, and microscope bodies and associated optomechanical hardware for use in excitation microscopy; motorized platforms for use with micro-titer plate readers; software for digital image acquisition settings for acquiring, processing and analyzing digital images for use with microscopes; optical tweezer systems comprised of lasers not for medical purposes, multi-axis positioning stage, camera, and or force measurement sensors and or fluorescence microscopy modules, for the purpose of trapping and manipulating microscopic-sized objects to be imaged; educational kits sold as a unit that include the components and instructional materials to carry out classic experiments in physics, optics, and photonics comprised primarily of microscope objective, camera, tube-lens, a laser source for trapping microscopic-sized objects, and optics to direct the laser radiation to the sample containing objects to be trapped, and also including printed educational guides in the field of microscopic objects; interferometric-based systems comprised of computer hardware and software for imaging; optical coherence tomography systems comprised of optical scanners, light sources, scan lenses, optical sensors, and software for analyzing digital images; cytometers and research laboratory and non-research laboratory analyzers providing cell and particle analysis, detection, or counting for scientific, laboratory, and general research uses; optical tables; optical breadboards; vibration isolators for laboratory equipment that limit or eliminate

vibration between the ground and the work surface; laboratory furniture; manual and motorized optomechanical positioning components, namely, optical mounts, mirror mounts, microscope slide and test target mounts; kinematic mounts used to direct light and hold samples of optical material; optomechanical components that enable positioning of optical components, light sources, or sensors, namely, optical post assemblies consisting of an optical post, post holder, and base; lens tubes for mounting optical components, namely, lenses and optical filters; optomechanical cage components that allow mounts and cage rods to be joined together to provide a cage assembly with a common optical axis; optical rails and optical rail components for building optomechanical assemblies with long, parallel beam paths in 1d, 2d, or 3d; angle brackets for mounting optical components and optical platforms; optomechanical mounts offered for scientific and or research goods, namely, electronic devices with optical elements in the nature of cameras, optical sensors, and computers; camera irises; camera apertures; optical shutters; nano-positioning systems comprised of component for use in positioning samples of optical material, namely, extension platforms, kinematic platforms, adapter plates, diodes, waveguide mounts, fiber chucks, fiber clamps, and fiber rotators; motorized platforms used to move samples of optical material and optical wave guides; electric micrometer actuators; electric motorized actuators; manual actuators specifically designed for use with optomechanical systems being scientific apparatuses; manual and motorized translation and rotation stages specifically designed for use in positioning components in optomechanical systems being scientific apparatuses; benchtop and rack-based motion controllers specifically designed for use with optomechanical devices being scientific apparatuses; non-polarizing optical components and assemblies, namely, optical lenses and microscopes; polarizing optical components and assemblies, namely, linear polarizers, wave plates, beam splitters and bandpass filters; optical lenses; optical lens blanks; optical components and assemblies that alter the phase, focus, attenuation, or birefringence of light, namely, optical lenses and microscopes; beam steering devices in the nature of mirrors used in connection with optomechanical devices being scientific apparatuses; fabry-perot interferometers; adaptive optical apparatus, namely, wavefront sensors and deformable optical mirrors that dynamically control the phase of an incident light field; free space and fiber-based optical isolators; optical fibers; nonlinear optical fibers; optical fiber cables; optical fiber cables and components thereof, namely, patch cables and cable connectors; fiber optic components and supplies for the purpose of creating terminated fiber patch cables, namely, fiber optic connectors, furcation tubing, ferrules in the nature of wire connectors, fiber connector caps, fiber termination tools in the nature of wire connectors and caps, and fiber inspection tools in the nature of fiber inspection scope and digital precision measuring instrument; fiber optic components that enable light to be coupled into or out of free space or fiber-based optical systems, namely, fiber collimators, fiber couplers, wave division multiplexers, fiber circulators in the nature of electronic components, fiber optic switches, and fiber mating sleeves in the nature of junction sleeves; fiber optic components that alter the properties of light, namely, direction of light propagation or polarization, namely, fiber optic retroreflectors, fiber optic partial retroreflectors, and wavelength division multiplexers; optical fiber processing equipment with operating software sold as a unit for the purpose of processing optical fiber, namely, cleaving, cleaning, recoating, strength testing, splicing, tapering, coupling, combining, and end capping; lasers for non-medical purposes; laser diodes; fiber coupled laser source device comprised of laser diodes and fiber optic cables; optical gain chips, namely, electronic chips used to intensify the output of laser source; leds; leds, namely, collimated leds; leds, namely, thermally stabilized leds; fiber coupled leds devices comprised of leds and fiber optic cables; superluminescent diodes; devices emitting electromagnetic radiation over a broad wavelength range for the purpose of illumination, namely, plasma light sources, tungsten light sources, tungsten-halogen light sources, and glow bars; lamps for microscopy; electronic liquid light guide devices comprised of liquid-filled conduits for guiding light, an adapter to interface the guide to a light source, and a light source used for transmitting light for scientific research purposes; semiconductor optical amplifiers; electro-optic modulators; optical transmitters; spatial light modulators; fiber lasers not for medical use; current controllers for laser diodes; current controllers for leds; temperature controllers for laser diodes; optoelectronics mounts for leds; optoelectronics mounts for laser diodes; laser safety equipment, namely, curtains, rigid protective screens, blackout materials in the nature of rubberized fabric, flocked paper, hardboard and posterboard, beam alignment tools in the nature of apertures, targets, and laser beam viewing cards, beam dumps in the nature of beam traps that absorb and or scatter laser radiation, beam blocks in the nature of mechanically or electronically controlled shutters, aluminum screens, and optical enclosures in the nature of mobile structural panels, all specially designed to protect against laser radiation; benchtop and rack-based devices and instrumentation used to detect and characterize the properties of light, namely, power meters, photodiodes, integrating spheres, position sensing detectors, spectrometers, optical spectrum analyzers, wavefront sensors, photomultiplier tubes, and photon counters; photomultiplier modules in the nature of electrical amplifiers used to amplify optical signals into larger electrical signals in order to measure the number of photons present; scientific cameras; digital cameras; fiber optic components and supplies for the purpose of creating terminated fiber patch cables, namely, fiber connectors and fiber termination inspection tools in the nature of optics and software for viewing an image of fiber endface quality; fiber cable terminations components in the nature of wire connectors and protective electrical wire plastic caps for protection against electricity;

fiber optic components and supplies for the purpose of creating terminated fiber patch cables, namely, fiber termination inspection tools in the nature of fiber optics and software for viewing an image of fiber endface quality; fiber terminations components in the nature of fiber connectors; fiber terminations components kit for use in terminating fiber optic cables comprised of fiber optic connectors, ferrules, adhesives, and protective caps; educational kits sold as a unit comprised of optomechanical components for experiments in physics, optics, and photonics, namely, the light sources, screens, optical components, optomechanical mounts, alignment tools, and electro-optic detectors necessary to repeat well-known scientific experiments and printed educational guides; opto-mechanical positioning components, namely, opto-mechanical laboratory software and hardware and hardware devices for use in laser positioning; nano-positioning systems and components therefor for use in positioning samples of optical material, namely, extension platforms, kinematic platforms, adapter plates, diode and waveguide mounts, fiber chucks, fiber clamps, fiber rotators, kinematic mounts and optical tables for providing a stable surface to minimize vibration, namely, a platform used to direct light and hold samples of optical material, lasers non for medical purposes; microscopy tools, namely, xyz piezoelectric control in the nature of a motor to allow one to control the position of samples of optical material, motorized platforms for use as a micro-titer plate reader, motorized platforms used to move samples of optical material and optical wave guides, remote controls used to control the lighting, temperature and position of motorized platforms, optical filters, namely, fluorescence imaging filters, collimated leds, mounted leds, microscopy led driver, microscope objectives in the nature of optical lenses used for imaging and fine focusing of light, microscope adapters in the nature of adapters that allow various optical components to be connected to a microscope, objective lens turret in the nature of a rotating device used to hold multiple optical lenses and allow switching between them, photomultiplier modules in the nature of electrical amplifiers used to amplify optical signals into larger electrical signals in order to measure the number of photons present, laboratory furniture for use in microscopy, namely, platforms for holding optical samples which are designed to minimize vibration, vibration isolators for laboratory equipment which limit or eliminate vibration between the ground and the work surface, and imaging software and hardware, all for use with microscopes; electro-optical software and devices to measure or manage light; opto-mechanical computer hardware and software for medical imaging and medical imaging processing.

CLASS 10

Lasers for medical and clinical purposes; opto-mechanical software and hardware for medical imaging and inspection.

CLASS 16

Printed educational guides for well-known scientific experiments in the fields of physics, optics, and photonics which involve the use of light sources, screens, optical components, optomechanical mounts, and alignment tools.

computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; computer software and computer application software for mobile phones and personal digital devices for communicating with personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; computer software development tools; computer software for accessing, browsing and searching online databases; computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; computer software for controlling the operation of audio and video devices; computer software for creating, authoring, distributing,

downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content and electronic publications; computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; computer software for creating, managing, and interacting with an online community; computer software for fitness and weight management; computer software for fitness, fitness assessments, and sport activities; computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; computer software for processing images, graphics, audio, video, and text; computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; computer software for sending and receiving electronic messages, alerts, notifications and reminders; computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; computer software for social networking and interacting with online communities; computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; computer software for the redirection of messages, internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; computer software for tracking and managing information regarding health, fitness, and wellness programs; computer software for use as an application programming interface (api); computer software for use in creating, managing, measuring, and disseminating advertising of others; computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; computer software for wireless content, data and information delivery; computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; computer software that monitor, track, and compare sport activity and fitness level; computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; computer software, namely, an application providing social networking functionalities; computer software, namely, an interpretive interface for facilitating interaction between humans and machines; computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; software and firmware for displaying electronic media and images; downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; downloadable computer application

software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and gps receivers, controlling the speed of the cpu, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; downloadable computer software for finding content and content publishers, and for subscribing to content; downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; downloadable computer software, namely, downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; gesture recognition software; software for detecting objects, user gestures and commands; software for operating sensor devices; software to view virtual images in creating virtual, augmented and mixed reality; interactive entertainment software; location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; messaging software; mixed reality software; mixed reality software for interactive entertainment; mixed reality software for navigating a mixed reality environment; mixed reality software for object tracking, motion control and content visualization; mixed reality software for operating mixed reality headsets; mixed reality software for users to experience mixed reality visualization, manipulation and immersion; mobile application software for creating personalized fitness training programs; near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; near eye display systems comprising computer software specifically adapted for goggles; near eye display systems comprising software for the generation and display of standard reality, augmented reality, and mixed reality content; personal assistant software; social assistant software; software and firmware for controlling, configuring and managing controllers; software and firmware for displaying electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; software and firmware for operating system programs; software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; software and firmware for enabling electronic devices to share data and communicate with each other; software development tools; software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; software for advertisers to communicate and interact with online communities; software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; software for converting natural language into machine-executable commands; software for creating and managing social media profiles and user accounts; software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; software for creating, managing and accessing groups within virtual communities; software for creating, managing, and interacting with an online community; software for facilitating and arranging for the financing and distribution of fundraising and donations; software for generating images to be displayed in near-eye display system; software for integrating electronic data with real world environments for the purposes of entertainment, education, communicating, and social networking; software for modifying and enabling transmission of images, audio, audio visual and video content and data; software for online charitable fundraising services and financial donation services; software for ordering and/or purchasing goods and services; software for organizing, searching for and managing events; software for planning activities with other users, making recommendations; software for processing images, graphics, audio, video, and text; software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems;

software for smart phones and other computer systems to receive data from near-eye display systems; software for social and destination mapping; software for social networking; software for streaming multimedia entertainment content; software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; software for use as an application programming interface (api); software for use in creating and designing virtual reality, augmented reality and mixed reality software; software for wireless content, data and information delivery; software in the nature of a mobile application; software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; software and firmware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; software, namely, an interpretive interface for facilitating interaction between humans and machines; video display software; virtual reality software; virtual reality software for interactive entertainment; virtual reality software for navigating a virtual reality environment; virtual reality software for object tracking, motion control and content visualization; virtual reality software for operating virtual reality headsets; virtual reality software for users to experience virtual reality visualization, manipulation and immersion; virtual, augmented, and mixed reality software for use in enabling computers, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; waterproof near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; computer software for social networking; computer software for organizing, searching for and managing events; computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; virtual reality game software; augmented reality game software; augmented reality game computer hardware; virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; electronic game software for wireless devices; electronic game software for handheld electronic devices; electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; video game software; interactive multimedia computer game programs; downloadable electronic game programs; computer game software; headsets for use with computers; computer software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; computer software for converting natural language into machine-executable commands; artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; computer software, downloadable computer software and mobile application software for ordering and/or purchasing goods and services; virtual reality game computer hardware; virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; augmented reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide augmented reality experiences; headsets for virtual reality games; headsets for augmented reality games; handheld virtual reality controllers; handheld augmented reality controllers; video and computer game programs; earphones; computer software for navigating a virtual reality environment; computer software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones to provide virtual reality and augmented reality experiences; headsets; computer software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; computer software for use in creating and designing virtual reality and augmented reality software; computer software and firmware for operating system programs; computer software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; computer software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; computer hardware and software for operating sensor devices; computer hardware and software for detecting objects, user gestures and commands; computer software and firmware for controlling, configuring and managing controllers; computer software and firmware for enabling electronic devices to share data and communicate with each other; computer software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; cameras; batteries; battery packs; remote controls for mobile electronic devices; electrical audio and speaker cables and connectors; audio speakers; docking stations for mobile electronic devices; loudspeakers; electronic cables parts and fittings; electric cables; connection cables; cables for optical signal transmission;

power cables and cable connectors; microphones; audio receivers; audio transmitters; wireless computer peripherals; head-mounted video display; receivers of electronic signals; video receivers; wireless transmitters and receivers for reproduction of sound and signals; electric sensors; sensors for monitoring physical movements; downloadable software in the nature of a mobile application; downloadable computer software for processing images, graphics, audio, video, and text.

CLASS 28

Virtual, augmented and mixed reality headsets and helmets adapted for use in playing video games; Virtual reality headsets for playing video games for connection to computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones in order to enable virtual reality experiences; Video game consoles; Video game interactive remote control units; Wearable peripherals for playing video games specially adapted for computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones; Controllers for computer games; Audio and visual headsets for use in playing video games; Hand-held units for playing electronic, computer, interactive, and video games; Gaming devices, mobile gaming devices, namely, gaming machines with or without video output for playing computer games and video games; Computer game consoles for use with an external display screen or monitor; Apparatus for electronic games other than those adapted for use with an external display screen or monitor; Apparatus for electronic games adapted for use with an external display screen or monitor; Bags specially adapted for handheld video games and video game consoles; Computer and video game joysticks; Computer gaming consoles for recreational game playing; Fitted plastic films known as skins for covering and protecting electronic game playing apparatus, namely, video game consoles and hand-held video game units; Game controllers in the nature of keyboards for computer games; Games adapted for use with television receivers; Gaming headsets adapted for use in playing video games; Hand held joy stick units for playing video games; Handheld game consoles; Hand-held electronic games adapted for use with television receivers only; Hand-held games with liquid crystal displays; Hand-held units for playing electronic games for use with external display screen or monitor; Video game machines; LCD game machines; Player-operated electronic controllers for electronic video game machines; Protective carrying cases specially adapted for handheld video games and video game consoles; Standalone video game machine; Stands for electronic game playing apparatus, namely, video game consoles and hand-held video game units; Tabletop units for playing electronic games other than in conjunction with a television or computer; Video game interactive hand held remote controls for playing electronic games; Controllers for game consoles; Arcade video game machines; Home video game machines; Stand alone video game machine.

CLASS 35

Marketing, advertising and promotion services, namely, providing information regarding discounts, coupons, rebates, vouchers, links to retail websites of others, and special offers for the goods and services of others; Provision of market research and information services; Promoting the goods and services of others via computer and communication networks; Business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; Facilitating the exchange and sale of services and products of third parties via computer and communication networks; Providing online marketplaces for sellers of goods and/or services; Providing online facilities for connecting sellers with buyers; Business networking; Employment and recruiting services; Advertising and information distribution services, namely, providing classified advertising space via the internet and communications networks; Pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; Charitable services, namely, promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; Organizing exhibitions and events in the field of software and hardware development for commercial or advertising purposes; Association services that promote the interests of professionals and businesses in the field of mobile software application development; Online advertising and promoting the goods and services of others via the internet; Marketing and advertising consultation services; Arranging and conducting special events for commercial, promotional or advertising purposes; Advertising via electronic media; Organizing, promoting and conducting exhibitions, tradeshow and events for business purposes; Online retail store services featuring computer software and virtual reality and augmented reality headsets, games, content and digital media, namely, pre-recorded music, video, images, text, and audiovisual works; Retail store services featuring computer software and virtual reality and augmented reality headsets, games, content and digital media, namely, pre-recorded music, video, images, text, and audiovisual works; Dissemination of advertising for others via the internet and communication networks; Promoting the goods and services of others by means of distributing video advertising on the internet and communication networks; Advertising services, namely, targeting and optimization of online advertising; Business management in the field of marketing, advertising, telecommunications and technology development; Business administration, office functions;

Business consulting; Brand consulting; Design of advertising materials for others; Providing online business directories featuring the businesses, products and services of others; Providing online facilities [or: online network environment [or: providing online interfaces [or: providing online interfaces, namely web interfaces and mobile interfaces [or: providing online software platform services] for connecting sellers with buyers; Online retail store services featuring virtual reality and augmented reality headsets, games, content and digital media, namely, pre-recorded music, video, images, text, and audiovisual works.

CLASS 38

Telecommunication services; Providing access to computer, electronic and online databases; Providing equipment for video conferencing; Teleconferencing; Mobile phone communication services; Telecommunications services, namely, offering personal communications services via wireless networks; Electronic transmission of voice, data, images, music, audio, video, multimedia, television, and radio by Internet and cellular telephone transmission broadcasting; Providing access to websites, databases, electronic bulletin boards, on-line forums, directories, music, and video and audio programs by means of Internet and cellular telephone transmission; Communication by computer, namely, electronic transmission of data, sounds, images and documents among computer users; Photo sharing and video sharing services, namely, electronic transmission of digital photo files, videos and audio visual content among internet users; Telecommunication services, namely electronic transmission of data, messages, graphics, images, audio, video and information; Providing access to computer, electronic and online databases in the field of virtual reality, augmented reality and social networking; Telecommunications services, namely, electronic transmission of data, messages, graphics, images, audio, video and information; Providing online forums for communication on topics of general interest; Providing online communications links which transfer mobile device and internet users to other local and global online locations; Facilitating access to third party websites or to other electronic third party content via a universal login; Providing online chat rooms, email and instant messaging services, and electronic bulletin boards; Audio, text and video broadcasting services over the internet or other communication networks; Voice over internet protocol (VOIP) services; Telephony communication services; Providing access to computer databases in the fields of social networking, social introduction and dating; Peer-to-peer photo and data sharing services, namely, electronic transmission of digital photo and video files, graphics and audio content among internet users; Telecommunications and peer-to-peer network computer services, namely, electronic transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Streaming and live streaming of video, audiovisual, and interactive audiovisual content via the internet; Telecommunications services, namely, electronic transmission of virtual and augmented reality content and data; Providing electronic bulletin boards for transmission of messages among users in the field of general interest; Video conferencing services; Providing technical support services regarding the usage of communications equipment; Providing facilities and equipment for video conferencing; Audio and video teleconferencing services; Providing an online community forum for users to share and stream information, audio, video, real-time news, entertainment content, or information, to form virtual communities, and to engage in social networking; Electronic exchange of voice, data, audio, video, text and graphics via the internet and telecommunications networks; Telecommunication services, namely electronic transmission of data, messages, graphics, images, audio, video and information; Providing access to computer, electronic and online databases in the field of virtual reality, augmented reality and social networking; Audio, text and video broadcasting services over the internet or other communication networks; Voice over internet protocol (VOIP) services [transmission of voice information via the internet]; Telephony communication services [communications by telephone]; Audio and video teleconferencing services; Electronic exchange of voice, data, audio, video, text and graphics via the internet and telecommunications network.

CLASS 41

Entertainment services; electronic publishing services; entertainment services, namely, providing virtual reality interactive entertainment and virtual reality content; entertainment services, namely, providing augmented reality interactive entertainment and augmented reality content; entertainment services, namely, providing mixed reality interactive entertainment and mixed reality content; entertainment services, namely, providing augmented reality interactive entertainment content; entertainment services, namely, providing online virtual reality environments; providing entertainment information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information and communication networks; arranging and conducting of workshops; entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, participate in sports activities, engage in health-promoting activities, make achievements in exercise and sports activities, and reach personal goals regarding exercise, sports activities, and fitness; providing information regarding sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks, and via computer software for

personal computers, personal digital devices, and smart phones; providing pre-recorded athletic challenges, training, fitness sessions and challenges, and workouts via an online website, other computer and electronic communication networks, and via computer software for personal computers, personal digital devices, and smart phones; Arranging and conducting of workshops; augmented reality video production; conduct and providing access to on-line live workouts, fitness instructions and sessions; conducting fitness classes; entertainment services, namely, providing non-downloadable movies, television shows, webcasts, audiovisual, and multimedia works via the internet, as well as information, reviews, and recommendations regarding movies, television shows, webcasts, audiovisual, and multimedia works; entertainment services; entertainment services, namely, arranging and conducting of competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics, and entertainment software and hardware; entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, participate in sports activities, engage in health-promoting activities, make achievements in exercise and sports activities, and reach personal goals regarding exercise, sports activities, and fitness; entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, make healthy eating choices, and engage in other health-promoting activities; entertainment services, namely, incentive award programs designed to reward program participants who exercise; entertainment services, namely, providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; entertainment services, namely, providing an online forum for the dissemination of content, data, and information for entertainment and social and business networking purposes; entertainment services, namely, providing online augmented reality environments; entertainment services, namely, providing online facilities for streaming entertainment content and live streaming video of entertainment events; entertainment services, namely, providing online mixed reality environments; mixed reality video production; multimedia production services; online journals, namely blogs featuring commentary, advice and information in the fields of health, wellness, sleep, fitness and nutrition; online journals, namely, blogs; online journals, namely, weblogs (blogs) featuring user-defined content; organizing contest and incentive award programs for software developers; organizing exhibitions and events for entertainment purposes; organizing live exhibitions and conferences in the fields of culture, entertainment and social networking for non-business and non-commercial purposes; personal coaching services in the field of sports, exercise, health, and fitness; photosharing and video sharing services; pre-recorded athletic and fitness sessions; providing a fitness assessment and a fitness score, and a personalized workout program based on that assessment and score; providing a website featuring fitness coaching, instructions, and sessions; providing a website featuring fitness instructions and sessions; providing a website featuring information regarding fitness training, and athletic skill development; providing a website featuring information regarding fitness training, fitness coaching, fitness goals, and athletic skill development; providing a website featuring information regarding sports, athletic skill development, and fitness training; providing a website featuring pre-recorded athletic and fitness sessions; providing access to pre-recorded athletic and fitness sessions; providing computer, electronic and online databases in the field of entertainment; providing entertainment information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and communication networks; providing group coaching in the field of sports, exercise, health, and fitness; providing information regarding sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks, and via computer software for personal computers, personal digital devices, and smart phones; providing of training; providing online resources for software developers; providing pre-recorded athletic challenges, training, fitness sessions and challenges, and workouts via an online website, other computer and electronic communication networks, and via computer software for personal computers, personal digital devices, and smart phones; recreation information; rental of photography and videography kiosks for capturing, uploading, editing and sharing of pictures and videos; sporting and cultural activities; virtual reality video production; Electronic publishing services for others; Entertainment services, namely, facilitating interactive and multiplayer and single player game services for games played via the internet or communications networks; Providing information about video games, electronic or interactive multimedia games via the internet or communications networks; Arranging and conducting competitions and facilitating events for players of electronic or interactive multimedia games; Online journals, namely, blogs about virtual reality and augmented reality; Entertainment services, namely, providing augmented reality games, interactive entertainment and augmented reality content; Providing a computer game for use network-wide by network users; Providing online virtual reality games; Providing online augmented reality games; Entertainment services, namely, providing online video games; Organizing exhibitions and events in the field of interactive entertainment, virtual reality, and augmented reality, consumer electronics and video game entertainment industries for cultural or educational purposes; providing online computer and video games; Entertainment services, namely, providing virtual reality games, interactive entertainment and virtual reality content; virtual reality game services provided online from a computer network;

augmented reality game services provided online from a computer network; providing online computer games and interactive games; production of video and computer game software; entertainment services, namely, providing augmented reality games and interactive entertainment content; Providing information about online computer games and video games via computer or communication networks.

CLASS 42

Application service provider (ASP); Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; Application service provider (ASP) featuring software for mapping services; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Computer software consultation; Computer software, application, and network consulting services; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; Computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing search engines for obtaining data via the internet and communications networks; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Mapping services; Mobile computer and mobile communications device software consultation; Non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Non-downloadable software for streaming multimedia entertainment content; Online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; Online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing online non-downloadable software; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; Providing social assistant software; Providing software for facilitating and arranging for the financing

and distribution of fundraising and donations; Providing software for online charitable fundraising services and financial donation services; Providing temporary access to non-downloadable computer software for mapping services; Providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Providing temporary use of non-downloadable computer software for social and destination mapping; Providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Providing temporary use of non-downloadable software for advertisers to communicate and interact with online communities; Providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; Providing temporary use of non-downloadable software for electronic messaging; Providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Providing temporary use of non-downloadable software for processing electronic payments; Providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; Providing temporary use of non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing temporary use of non-downloadable software for streaming multimedia entertainment content; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, social networks, text files, and multimedia files;
