GENERAL INFORMATION II

TRADEMARKS ACT 2019 (Act 815)

PUBLICATION OF APPLICATION FOR REGISTRATION OF TRADEMARKS

Pursuant to **section 31** of the Trademarks Act 2019, the following applications for registration of trademarks have been accepted and are hereby published in Intellectual Property Official Journal under **paragraph 148(1)(a)** of the Trademarks Act 2019

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Pursuant to subsections 35(1) and 35(2) of the Trademarks Act 2019 and subregulation 23(1) of the Trademarks Regulations 2019, a notice of opposition to oppose the registration of the application for registration of trademark which shall include the statement of the grounds of such opposition may be filed together with payment of the prescribed fee with the Registrar of Trademarks within two months from the date of the publication of the acceptance of such application for registration of trademark.

Notwithstanding the above paragraph, pursuant to subsection 153(1) of the Trademarks Act 2019 and subregulation 23(2) of the Trademarks Regulations 2019, the request for an extension of time may be allowed at the discretion of the Registrar of Trademarks for not more than two months after the expiry of the period for filing the notice of opposition.

Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphone; Digital video eyewear; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yaw sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Glasses with the function of wireless communication; Software to view virtual images in creating augmented reality; Head mounted video display; Smart glasses with wired and wireless audio capability; Wearable digital electronic devices; Wearable digital electronic devices, namely, glasses; Computer software for setting up, configuring, operating and controlling wearable devices, computers, and computer peripherals; Electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; Wearable computer hardware; Wearable computer peripherals; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for

creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for use in building software applications; Augmented reality software; Augmented reality software for interactive entertainment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for object tracking, motion control and content visualization; Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer operating system software; Computer operating systems; Computer search engine software; Computer software; Computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; Computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software and computer application software for mobile phones and personal digital devices for communicating with personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; Computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; Computer software development tools; Computer software for accessing, browsing and searching online databases; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for controlling the operation of audio and video devices; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content and electronic publications; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; Computer software for creating, managing, and interacting with an online community; Computer software for fitness and weight management; Computer software for fitness, fitness assessments, and sport activities; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; Computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; Computer software for processing images, graphics, audio, video,

and text; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; Computer software for sending and receiving electronic messages, alerts, notifications and reminders; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; Computer software for social networking and interacting with online communities; Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Computer software for the redirection of messages, Internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; Computer software for tracking and managing information regarding health, fitness, and wellness programs; Computer software for use as an application programming interface (API); Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; Computer software for wireless content, data and information delivery; Computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; Computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; Computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software that monitor, track, and compare sport activity and fitness level; Computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; Computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; Computer software, namely, an application providing social networking functionalities; Computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Software and firmware for displaying electronic media and images; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the

speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for finding content and content publishers, and for subscribing to content; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; Downloadable computer software, namely, downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Gesture recognition software; Software for detecting objects, user gestures and commands; Software for operating sensor devices; Software to view virtual images in creating virtual, augmented and mixed reality; Interactive entertainment software; Location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; Messaging software; Mixed reality software; Mixed reality software for interactive entertainment; Mixed reality software for navigating a mixed reality environment; Mixed reality software for object tracking, motion control and content visualization; Mixed reality software for operating mixed reality headsets; Mixed reality software for users to experience mixed reality visualization, manipulation and immersion; Mobile application software for creating personalized fitness training programs; Near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; Near eye display systems comprising computer software specifically adapted for goggles; Near eye display systems comprising software for the generation and display of standard reality, augmented reality, and mixed reality content; Personal assistant software; Social assistant software; Software and firmware for controlling, configuring and managing controllers; Software and firmware for displaying electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; Software and firmware for operating system programs; Software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; Software and firmware for enabling electronic devices to share data and communicate with each other; Software development tools; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Software for advertisers to communicate and interact with online communities; Software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; Software for converting natural language into machine-executable commands; Software for creating and managing social media profiles and user accounts; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; Software for creating, managing and accessing groups within virtual communities; Software for creating, managing, and interacting with an online community; Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for generating images to be displayed in near-eye display system; Software for integrating electronic data with real world environments for the purposes of entertainment, education, communicating, and social networking; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software for online charitable fundraising services and financial donation services; Software for ordering and/or purchasing goods and services; Software for organizing, searching for and managing events; Software for planning activities with other users, making recommendations; Software for processing images, graphics, audio, video, and text; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; Software for smart phones and other computer systems to receive data from near-eye display systems; Software for social

and destination mapping; Software for social networking; Software for streaming multimedia entertainment content; Software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; Software for use as an application programming interface (API); Software for use in creating and designing virtual reality, augmented reality and mixed reality software; Software for wireless content, data and information delivery; Software in the nature of a mobile application; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Software and firmware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Video display software; Virtual reality software; Virtual reality software for interactive entertainment; Virtual reality software for navigating a virtual reality environment; Virtual reality software for object tracking, motion control and content visualization; Virtual reality software for operating virtual reality headsets; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Virtual, augmented, and mixed reality software for use in enabling computers, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; Waterproof near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; Computer software for social networking; Computer software for organizing, searching for and managing events; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; Virtual reality game software; Augmented reality game software; Augmented reality game computer hardware; Virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Electronic game software for wireless devices; Electronic game software for handheld electronic devices; Electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; Video game software; Interactive multimedia computer game programs; Downloadable electronic game programs; Computer game software; Headsets for use with computers; Computer software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Computer software for converting natural language into machine-executable commands; Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Computer software, downloadable computer software and mobile application software for ordering and/or purchasing goods and services; Virtual reality game computer hardware; Virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Augmented reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide augmented reality experiences; Headsets for virtual reality games; Headsets for augmented reality games; Handheld virtual reality controllers; Handheld augmented reality controllers; Video and computer game programs; Earphones; Computer software for navigating a virtual reality environment; Computer software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones to provide virtual reality and augmented reality experiences; Headsets; Computer software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Computer software for use in creating and designing virtual reality and augmented reality software; Computer software and firmware for operating system programs; Computer software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; Computer software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Computer hardware and software for operating sensor devices; Computer hardware and software for detecting objects, user gestures and commands; Computer

software and firmware for controlling, configuring and managing controllers; Computer software and firmware for enabling electronic devices to share data and communicate with each other; Computer software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Cameras; Batteries; Battery packs; Remote controls for mobile electronic devices; Electrical audio and speaker cables and connectors; Audio speakers; Docking stations for mobile electronic devices; Loudspeakers; Electronic cables parts and fittings; Electric cables; Connection cables; Cables for optical signal transmission; Power cables and cable connectors; Microphones; Audio receivers; Audio transmitters; Wireless computer peripherals; Head-mounted video display; Receivers of electronic signals; Video receivers; Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; Downloadable software in the nature of a mobile application; Downloadable computer software for processing images, graphics, audio, video, and text.

CLASS 28

Virtual, augmented and mixed reality headsets and helmets adapted for use in playing video games; Virtual reality headsets for playing video games for connection to computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones in order to enable virtual reality experiences; Video game consoles; Video game interactive remote control units; Wearable peripherals for playing video games specially adapted for computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones; Controllers for computer games; Audio and visual headsets for use in playing video games; Hand-held units for playing electronic, computer, interactive, and video games; Gaming devices, mobile gaming devices, namely, gaming machines with or without video output for playing computer games and video games; Computer game consoles for use with an external display screen or monitor; Apparatus for electronic games other than those adapted for use with an external display screen or monitor; Apparatus for electronic games adapted for use with an external display screen or monitor; Bags specially adapted for handheld video games and video game consoles; Computer and video game joysticks; Computer gaming consoles for recreational game playing; Fitted plastic films known as skins for covering and protecting electronic game playing apparatus, namely, video game consoles and hand-held video game units; Game controllers in the nature of keyboards for computer games; Games adapted for use with television receivers; Gaming headsets adapted for use in playing video games; Hand held joy stick units for playing video games; Handheld game consoles; Hand-held electronic games adapted for use with television receivers only; Hand-held games with liquid crystal displays; Hand-held units for playing electronic games for use with external display screen or monitor; Video game machines; LCD game machines; Player-operated electronic controllers for electronic video game machines; Protective carrying cases specially adapted for handheld video games and video game consoles; Standalone video game machine; Stands for electronic game playing apparatus, namely, video game consoles and hand-held video game units; Tabletop units for playing electronic games other than in conjunction with a television or computer; Video game interactive hand held remote controls for playing electronic games; Controllers for game consoles; Arcade video game machines; Home video game machines; Stand alone video game machine.

CLASS 35

Marketing, advertising and promotion services, namely, providing information regarding discounts, coupons, rebates, vouchers, links to retail websites of others, and special offers for the goods and services of others; Provision of market research and information services; Promoting the goods and services of others via computer and communication networks; Business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; Facilitating the exchange and sale of services and products of third parties via computer and communication networks; Providing online marketplaces for sellers of goods and/or services; Providing online facilities for connecting sellers with buyers; Business networking; Employment and recruiting services; Advertising and information distribution services, namely, providing classified advertising space via the internet and communications networks; Pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; Charitable services, namely, promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; Organizing exhibitions and events in the field of software and hardware development for commercial or advertising purposes; Association services that

promote the interests of professionals and businesses in the field of mobile software application development; Online advertising and promoting the goods and services of others via the internet; Marketing and advertising consultation services; Arranging and conducting special events for commercial, promotional or advertising purposes; Advertising via electronic media; Organizing, promoting and conducting exhibitions, tradeshow and events for business purposes; Online retail store services featuring computer software and virtual reality and augmented reality headsets, games, content and digital media, namely, pre-recorded music, video, images, text, and audiovisual works; Retail store services featuring computer software and virtual reality and augmented reality headsets, games, content and digital media, namely, pre-recorded music, video, images, text, and audiovisual works; Dissemination of advertising for others via the internet and communication networks; Promoting the goods and services of others by means of distributing video advertising on the internet and communication networks; Advertising services, namely, targeting and optimization of online advertising; Business management in the field of marketing, advertising, telecommunications and technology development; Business administration, office functions; Business consulting; Brand consulting; Design of advertising materials for others; Providing online business directories featuring the businesses, products and services of others; Providing online facilities [or: online network environment [or: providing online interfaces [or: providing online interfaces, namely web interfaces and mobile interfaces [or: providing online software platform services] for connecting sellers with buyers; Online retail store services featuring virtual reality and augmented reality headsets, games, content and digital media, namely, pre-recorded music, video, images, text, and audiovisual works.

CLASS 38

Telecommunication services; Providing access to computer, electronic and online databases; Providing equipment for video conferencing; Teleconferencing; Mobile phone communication services; Telecommunications services, namely, offering personal communications services via wireless networks; Electronic transmission of voice, data, images, music, audio, video, multimedia, television, and radio by Internet and cellular telephone transmission broadcasting; Providing access to websites, databases, electronic bulletin boards, on-line forums, directories, music, and video and audio programs by means of Internet and cellular telephone transmission; Communication by computer, namely, electronic transmission of data, sounds, images and documents among computer users; Photo sharing and video sharing services, namely, electronic transmission of digital photo files, videos and audio visual content among internet users; Telecommunication services, namely electronic transmission of data, messages, graphics, images, audio, video and information; Providing access to computer, electronic and online databases in the field of virtual reality, augmented reality and social networking; Telecommunications services, namely, electronic transmission of data, messages, graphics, images, audio, video and information; Providing online forums for communication on topics of general interest; Providing online communications links which transfer mobile device and internet users to other local and global online locations; Facilitating access to third party websites or to other electronic third party content via a universal login; Providing online chat rooms, email and instant messaging services, and electronic bulletin boards; Audio, text and video broadcasting services over the internet or other communication networks; Voice over internet protocol (VOIP) services; Telephony communication services; Providing access to computer databases in the fields of social networking, social introduction and dating; Peer-to-peer photo and data sharing services, namely, electronic transmission of digital photo and video files, graphics and audio content among internet users; Telecommunications and peer-to-peer network computer services, namely, electronic transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Streaming and live streaming of video, audiovisual, and interactive audiovisual content via the internet; Telecommunications services, namely, electronic transmission of virtual and augmented reality content and data; Providing electronic bulletin boards for transmission of messages among users in the field of general interest; Video conferencing services; Providing technical support services regarding the usage of communications equipment; Providing facilities and equipment for video conferencing; Audio and video teleconferencing services; Providing an online community forum for users to share and stream information, audio, video, real-time news, entertainment content, or information, to form virtual communities, and to engage in social networking; Electronic exchange of voice, data, audio, video, text and graphics via the internet and telecommunications networks; Telecommunication services, namely electronic transmission of data, messages, graphics, images, audio, video and information; Providing access to computer, electronic and online databases in the field of virtual reality, augmented reality and social networking; Audio, text

and video broadcasting services over the internet or other communication networks; Voice over internet protocol (VOIP) services [transmission of voice information via the internet]; Telephony communication services [communications by telephone]; Audio and video teleconferencing services; Electronic exchange of voice, data, audio, video, text and graphics via the internet and telecommunications network.

CLASS 41

Entertainment services; electronic publishing services; entertainment services, namely, providing virtual reality interactive entertainment and virtual reality content; entertainment services, namely, providing augmented reality interactive entertainment and augmented reality content; entertainment services, namely, providing mixed reality interactive entertainment and mixed reality content; entertainment services, namely, providing augmented reality interactive entertainment content; entertainment services, namely, providing online virtual reality environments; providing entertainment information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information and communication networks; arranging and conducting of workshops; entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, participate in sports activities, engage in health-promoting activities, make achievements in exercise and sports activities, and reach personal goals regarding exercise, sports activities, and fitness; providing information regarding sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks, and via computer software for personal computers, personal digital devices, and smart phones; providing pre-recorded athletic challenges, training, fitness sessions and challenges, and workouts via an online website, other computer and electronic communication networks, and via computer software for personal computers, personal digital devices, and smart phones; Arranging and conducting of workshops; augmented reality video production; conduct and providing access to on-line live workouts, fitness instructions and sessions; conducting fitness classes; entertainment services, namely, providing non-downloadable movies, television shows, webcasts, audiovisual, and multimedia works via the internet, as well as information, reviews, and recommendations regarding movies, television shows, webcasts, audiovisual, and multimedia works; entertainment services; entertainment services, namely, arranging and conducting of competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics, and entertainment software and hardware; entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, participate in sports activities, engage in health-promoting activities, make achievements in exercise and sports activities, and reach personal goals regarding exercise, sports activities, and fitness; entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, make healthy eating choices, and engage in other health-promoting activities; entertainment services, namely, incentive award programs designed to reward program participants who exercise; entertainment services, namely, providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; entertainment services, namely, providing an online forum for the dissemination of content, data, and information for entertainment and social and business networking purposes; entertainment services, namely, providing online augmented reality environments; entertainment services, namely, providing online facilities for streaming entertainment content and live streaming video of entertainment events; entertainment services, namely, providing online mixed reality environments; mixed reality video production; multimedia production services; online journals, namely blogs featuring commentary, advice and information in the fields of health, wellness, sleep, fitness and nutrition; online journals, namely, blogs; online journals, namely, weblogs (blogs) featuring user-defined content; organizing contest and incentive award programs for software developers; organizing exhibitions and events for entertainment purposes; organizing live exhibitions and conferences in the fields of culture, entertainment and social networking for non-business and non-commercial purposes; personal coaching services in the field of sports, exercise, health, and fitness; photosharing and video sharing services; pre-recorded athletic and fitness sessions; providing a fitness assessment and a fitness score, and a personalized workout program based on that assessment and score; providing a website featuring fitness coaching, instructions, and sessions; providing a website featuring fitness instructions and sessions; providing a website featuring information regarding fitness training, and athletic skill development; providing a website featuring information regarding fitness training, fitness coaching,

fitness goals, and athletic skill development; providing a website featuring information regarding sports, athletic skill development, and fitness training; providing a website featuring pre-recorded athletic and fitness sessions; providing access to pre-recorded athletic and fitness sessions; providing computer, electronic and online databases in the field of entertainment; providing entertainment information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and communication networks; providing group coaching in the field of sports, exercise, health, and fitness; providing information regarding sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks, and via computer software for personal computers, personal digital devices, and smart phones; providing of training; providing online resources for software developers; providing pre-recorded athletic challenges, training, fitness sessions and challenges, and workouts via an online website, other computer and electronic communication networks, and via computer software for personal computers, personal digital devices, and smart phones; recreation information; rental of photography and videography kiosks for capturing, uploading, editing and sharing of pictures and videos; sporting and cultural activities; virtual reality video production; Electronic publishing services for others; Entertainment services, namely, facilitating interactive and multiplayer and single player game services for games played via the internet or communications networks; Providing information about video games, electronic or interactive multimedia games via the internet or communications networks; Arranging and conducting competitions and facilitating events for players of electronic or interactive multimedia games; Online journals, namely, blogs about virtual reality and augmented reality; Entertainment services, namely, providing augmented reality games, interactive entertainment and augmented reality content; Providing a computer game for use network-wide by network users; Providing online virtual reality games; Providing online augmented reality games; Entertainment services, namely, providing online video games; Organizing exhibitions and events in the field of interactive entertainment, virtual reality, and augmented reality, consumer electronics and video game entertainment industries for cultural or educational purposes; providing online computer and video games; Entertainment services, namely, providing virtual reality games, interactive entertainment and virtual reality content; virtual reality game services provided online from a computer network; augmented reality game services provided online from a computer network; providing online computer games and interactive games; production of video and computer game software; entertainment services, namely, providing augmented reality games and interactive entertainment content; Providing information about online computer games and video games via computer or communication networks.

CLASS 42

Application service provider (ASP); Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; Application service provider (ASP) featuring software for mapping services; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Computer software consultation; Computer software, application, and network consulting services; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; Computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage

in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing search engines for obtaining data via the internet and communications networks; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Mapping services; Mobile computer and mobile communications device software consultation; Non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Non-downloadable software for streaming multimedia entertainment content; Online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; Online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing online non-downloadable software; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; Providing social assistant software; Providing software for facilitating and arranging for the financing and distribution of fundraising and donations; Providing software for online charitable fundraising services and financial donation services; Providing temporary access to non-downloadable computer software for mapping services; Providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Providing temporary use of non-downloadable computer software for social and destination mapping; Providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Providing temporary use of non-downloadable software for advertisers to communicate and interact with online communities; Providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; Providing temporary use of non-downloadable software for electronic messaging; Providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Providing temporary use of non-downloadable software for processing electronic payments; Providing temporary use of non-downloadable software for social networking, creating a

virtual community, and transmission of audio, video, images, text, content, and data; Providing temporary use of non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing temporary use of non-downloadable software for streaming multimedia entertainment content; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, social networks, text files, and multimedia files; Providing temporary use of online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices; Software as a service (SAAS) featuring computer software for use as an application programming interface (API); Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Technical support services, namely, troubleshooting in the nature of diagnosing computer software problems; Technical support, namely, troubleshooting of computer software problems and mobile computer and mobile communications device software problems; Computer services, namely, hosting electronic facilities for others for organizing and conducting meetings, events and interactive discussions via communication networks; Computer services in the nature of customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; Computer services, namely, providing search engines for obtaining data on the internet and communication networks; Application service provider (ASP) services; Providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; Providing non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; Providing online sites that give users the ability to upload, modify and share virtual reality content, information, experiences and data; Providing online sites that give users the ability to upload, modify and share augmented reality content, information, experiences and data; Providing online sites that give users the ability to upload, modify and share mixed reality content, information, experiences and data; Non-downloadable software for processing electronic payments; Platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; Software for electronic messaging; Non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; Non-downloadable computer software for social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; Non-downloadable software for ordering and/or purchasing goods and services; Application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; Non-downloadable software for providing a virtual marketplace; Non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Providing personal assistant software; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, and augmented reality content and data; Maintenance and repair of computer software; Non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology via the internet; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Computer services, namely, cloud hosting provider services; Online non-downloadable

cloud computing software for use in electronic storage of data; Online non-downloadable cloud computing software for virtual, augmented reality applications and environments; File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; Hosting of digital content on the internet; Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; Providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing temporary use of non-downloadable software applications for providing location-based weather information; Providing temporary use of non-downloadable software applications for providing, linking to, or streaming news or current events information; Providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; Providing temporary use of non-downloadable software for organizing images, video, and audio-visual content using metadata tags; Providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; Providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message and instant message; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message and instant message; Providing temporary use of non-downloadable computer software for use in taking and editing photographs and recording and editing videos; Application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; Data encryption services; Encrypted electronic transmission and delivery of recovered data; Providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring computer software platforms for personal assistant software; Platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; Platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service (SAAS) featuring computer software for personal information management; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for use to connect and control internet of things (IoT) electronic devices; Software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Providing customized computer

searching services, namely, searching and retrieving information at the user's specific request via the internet; Computer services, namely, providing remote management of devices via computer networks, wireless networks or the Internet; Provision of Internet search engine services; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; Providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; Technological services, namely, data warehousing services; Application service provider (ASP), namely, hosting computer software applications through the internet of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Software as a service (SAAS) services, namely, hosting software for use by others for use providing an online database featuring a wide range of general interest information via the internet; Providing temporary use of on-line non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; Providing internet search engines; Providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; Computer consulting, computer programming; Providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; Computer hardware, software, application, and network consulting services; Providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and download computer software; Application service provider (ASP), namely, remote hosting of computer applications of others; Application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, text files, and multimedia files; Application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; Providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; Computer online services, namely, providing information, online links and electronic resources related to sports, health, and fitness; Creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; Non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; Non-downloadable computer software for tracking fitness, health and wellness goals and statistics; Non-downloadable software for creating personalized fitness training programs; Non-downloadable software for providing personal training services, workouts and fitness assessments; Provide an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; Providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; Software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting;

Software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; Design and development of computer hardware and software; Providing online facilities [or: online network environment [or: providing online interfaces [or: providing online interfaces, namely web interfaces and mobile interfaces [or: providing online software platform services] featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities [or: online network environment [or: providing online interfaces [or: providing online interfaces, namely web interfaces and mobile interfaces [or: providing online software platform services]; Providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Development of hardware for use in connection with electronic and interactive multimedia games; Electronic and interactive multimedia game development services; Providing temporary use of non-downloadable software for ordering and/or purchasing goods and services; Providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Providing temporary use of non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Platform as a service (PAAS) featuring computer software platforms for social networking and transmission of images, audio-visual content, video content and messages; Design and development of computer game hardware and software; Design and development of virtual reality hardware and software; Design and development of video game hardware and software; Design and development of augmented reality hardware and software; Computer software development; Design and development of interactive multimedia software; Providing temporary use of non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology and software development via the internet; Providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; Hosting of digital [virtual reality and augmented reality] content on the internet; Scientific and technological services and research and design relating thereto.

CLASS 45

Identification verification services; Online social networking services; Personal concierge services for others comprising making requested personal arrangements and reservations and providing customer-specific information to meet individual needs; Providing access to computer databases and online searchable databases in the fields of social networking; Social introduction and networking services; Social networking services related to sports, fitness, and coaching activities provided through a community website online and other computer and electronic communication networks; User verification services; Social introduction, networking and dating services.

GENERAL INFORMATION II

TRADEMARKS ACT 2019 (Act 815)

PUBLICATION OF ACCEPTANCE OF INTERNATIONAL REGISTRATION DESIGNATING
MALAYSIA

Pursuant to regulation 71 of the Trademarks Act 2019, the following international registrations designating Malaysia have been accepted and are hereby published in Intellectual Property Official Journal under section 148 of the Trademarks Act 2019.

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Pursuant to subsections 35(1) and 35(2) of the Trademarks Act 2019 and subregulation 72(1) of the Trademarks Regulations 2019, a notice of opposition to oppose the registration of the international registrations designating Malaysia which shall include the statement of the grounds of such opposition may be filed together with payment of the prescribed fee with the Registrar of Trademarks within two months from the date of the publication of the acceptance of such international registrations designating Malaysia in the Intellectual Property Official Journal.

Notwithstanding the above paragraphs, pursuant to subsection 153(1) of the Trademarks Act 2019 and subregulation 72(2) of the Trademarks Regulations 2019, the request for an extension of time may be allowed at the discretion of the Registrar of Trademarks for not more than two months after the expiry of the period for filing the notice of opposition

Chemicals used in industry and science, in particular hydrocarbons, alkanes, isobutyl, olefins, paraffins, aromatics; catalysts, in particular synthesis gas for use in production processes, in particular in processes for producing hydrogen, ammonia, motor fuels and methanol, catalysts for breaking down nitrogen compounds, including nitrogen oxides (NOx) and dinitrogen oxide (N₂O), in particular containing precious and common metals and/or metallic or non-metallic oxides, in the form of unsupported or supported catalysts.

CLASS 7

Machines operating under high pressure and high-pressure apparatus for producing mouldings for the chemical, ceramic and electrotechnical industries, the plastics industry and for powder metallurgy; conveyors (machines) and metering machines; high-pressure pumps; metering pumps; piston compressors; fittings for high-pressure apparatus; high-pressure valves; high-pressure fittings; high pressure attachment and connection components; high-pressure extraction installations, in particular for extraction using supercritical gases, in particular extraction of extracts from natural substances, for refining raw materials, for purifying substances; isostatic presses; apparatus and devices for high-pressure extraction, and installations composed thereof; high-pressure water jet systems, in particular for water jet cutting installations; high-pressure textile dyeing installations; conveyors, in particular with an imbalance drive, solenoid actuator and slider-crank drive; sifters and sifting machines, and installations composed thereof, in particular with an imbalance drive, solenoid actuator and slider-crank drive; vibratory mixers; vibratory crushers; vibrators (machines) for loosening and compacting, for industrial purposes; apparatus and devices for producing or processing urea under high pressure; apparatus and devices to produce gas, carburettors, in particular for generating synthesis gas from carbonaceous fuels.

CLASS 11

Containers and reactors, in particular pressure vessels and high-pressure reactors for polymerisation reactions, in particular for producing polyethylene, for generating synthesis gas, for reforming processes, for synthesising ammonia and urea, for hydrogenation and dehydrogenation processes, for oxidation processes, in particular for producing nitric acid, for processing oil and gas flows, for gas purification, in particular for denitrification of process and exhaust gases, for biological processes, in

particular fermentation processes, for high-pressure extraction and pasteurisation in the food and pharmaceutical industries, tubular reactors and autoclaves, pressure vessels for water jet cutting; apparatus and devices for processing hydrocarbons, in particular for hydrogenation and dehydrogenation of hydrocarbons, in particular alkanes, and installations composed thereof; sterilisers, in particular high pressure sterilising installations; refrigerators, in particular coolers; heaters; burners, furnaces, loading apparatus for furnaces, for apparatus and devices to produce gas, for heat regenerators and for steam generating apparatus in the form of parts for gasification installations, in particular in the form of parts for installations for producing chemical substances, predominantly synthesis gas; gas purification devices and apparatus, and installations composed thereof and structural parts or components, for breaking down environmentally harmful nitrogen compounds in exhaust gases, in particular for reducing and/or removing nitrogen oxides (NO_x), in particular for combined breaking down of nitrogen oxides (NO_x) and dinitrogen oxide (N₂O), namely by means of catalytic chemical decomposition of nitrogen oxides (NO_x) and/or dinitrogen oxide (N₂O), in particular using ammonia (NH₃), hydrogen (1-12), hydrocarbons, carbon monoxide or mixtures thereof as reducing agents; shell and tube heat exchangers; heat exchangers, in particular multi tube heat exchangers, double tube heat exchangers; autoclaves, in particular with agitators; heat exchangers, in particular fin tube heat exchangers, apparatus for heating, cooling, drying and reacting chemicals; immersion heaters; fluidised bed dryers and fluidised bed coolers; vibrating plate dryers and vibrating plate coolers; cyclone dryers; degassers for physical degassing of substances, in particular trickling degassers and spray degassers, degassers using membrane contactors for removing gases from liquids; degassers for chemical degassing of oxygen using chemicals; converter inserts, in particular for synthesis gas converters in the field of catalysts and reactors for generating synthesis gas, in particular for generating ammonia; vibratory coolers with a vibration exciter, for cooling by means of increased heat exchange through vibrations, in particular for cooling bulk goods; polyethylene reactors for producing polyethylene from ethylene by means of high pressure or low pressure processes, incorporating a reactor vessel, a catalytic converter and a compressor, in particular for low pressure polymerisation by means of a suspension process carried out in the reactor vessel or by means of a solution process carried out in the reactor vessel or by means of a gas phase process carried out in a fluidised bed reactor.

CLASS 37

Installation, assembly, repair, servicing and maintenance of apparatus and devices, and installations composed thereof and structural parts or components for converting carbonaceous substances, in particular high pressure apparatus; installation, assembly, repair, servicing and maintenance of installations for processing hydrocarbons, in particular for hydrogenation and dehydrogenation of hydrocarbons, in particular alkanes; installation, assembly, repair, servicing and maintenance of apparatus and devices, and installations composed thereof and structural parts or components for breaking down environmentally harmful nitrogen compounds in exhaust gases, in particular for catalytic conversion of nitrogen oxides (NO_x), in particular for combined catalytic conversion of nitrogen oxides (NO_x) and dinitrogen oxide (N₂O).

CLASS 40

Textile dyeing, in particular by means of processes using high-pressure technology; custom assembling of materials for others, in particular by means of water jet cutting; processing of natural and chemical substances by means of processes using high-pressure technology, in particular by means of high pressure extraction of natural substances using supercritical gases, during the refining of raw materials and for purifying substances; generation of heat energy, in particular by means of generating synthesis gas; treatment of materials, namely processing of workpieces, production of profiles, production of split strips, cutting of sheets and plates of metal, boards or trapezoids, material hardening and surface finishing, in particular by means of hot-dip galvanisation, hot-dip aluminisation, electrolytic galvanisation or organic coating; metalworking (metal treating); wood-working.

CLASS 42

Scientific and technological services, in particular engineering and industrial design, predominantly consultancy and planning for constructing, expanding or dismantling, and operation, of chemical installations or parts for chemical installations, in particular chemical installations for producing synthesis gas; research and development in the field of chemistry and technology, in particular with regard to chemical production processes and chemical installations relating thereto or parts therefor, predominantly chemical installations for producing synthesis gas; engineering, relating to data processing programs for controlling and operating high pressure apparatus and installations composed thereof, sterilisers, in particular high pressure sterilising installations, refrigerators, in particular coolers, and heaters; engineering, including engineering consultancy relating to the design, planning, assembly monitoring, use, operation, inspection, maintenance, repair, modification and demolition of high-pressure apparatus; engineering relating to regulatory approval planning and environmental surveys; computer programming for processing information accumulated through the aforesaid services and engineering work; computer programming for operating high pressure apparatus, and installations

composed thereof; development of processes, for others, and engineering, for others, in the field of high pressure apparatus; engineering, relating to process technology for the aforesaid goods; engineering, namely engineering consultancy relating to the design, planning, assembly monitoring, use, operation, inspection, maintenance, repair, modification, expansion and demolition of chemical installations and other industrial installations; engineering relating to regulatory approval planning and environmental surveys occurring during the course of the aforesaid services and engineering work; computer programming for operating apparatus and devices for processing hydrocarbons, in particular for hydrogenation and dehydrogenation of hydrocarbons, in particular alkanes, and installations composed thereof; development of processes and planning and designing of installations, for others, and engineering, for others, in the field of processing hydrocarbons, and installations composed thereof, for catalytic conversion of nitrogen oxides (NOx) and combined catalytic conversion of nitrogen oxides (NOx) and dinitrogen oxide (N2O), and installations composed thereof; engineering, for others, in the field of high pressure apparatus, in particular for generating synthesis gases.

computer software for managing systems, software and processes existing within an information technology environment; computer systems combining computer hardware and software for use in the management and analysis of data and instruction manuals in electronic format sold with these products; cloud computing systems, namely networks integrating computer hardware and software for dynamic provisioning, virtualization and consumption metering of computer resources; downloadable and recorded cloud computing software for deploying and managing virtual machines on a cloud computing platform; computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which are capable of collecting, organizing and analyzing data; computer systems, namely computer hardware and computer software that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) functions and capable of understanding general human queries and formulating responses; software for development, construction and operation of blockchain technology applications; computer hardware and computer software for developing and testing quantum algorithms; documentation and instruction manuals recorded on electronic data media that can be operated by machine and relating to computers or computer programs; electronic publications; electronic publications on computer media, namely, user manuals, guide books, brochures, information sheets, written presentations and teaching materials in the field of computing, computer networks, computer storage, computer operating systems, information

technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing.

CLASS 35

Advertising; sales promotion services (for third parties); commercial business management and advice regarding commercial business management; business information; distribution of prospectuses; distribution of samples; arranging newspaper subscriptions for others; accounting; document reproduction; systematization of data in a central file; organization of exhibitions for commercial or advertising purposes; company management consulting services and commercial business consulting services; commercial business development service; market study statistic and data analysis; computer data processing services; computer data processing services for artificial intelligence; computer data processing services for cognitive computing; computer data processing services for cloud computing; computer data processing services for blockchain technology; computer data processing services for information management; computer data processing services for quantum computing and quantum programming; setting up and conducting commercial exhibitions in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management and electronic business transactions via a global computer network; business consulting services for companies regarding artificial intelligence; business consulting services for companies regarding computer systems that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) functions and capable of understanding general human queries and formulating responses; business consulting services for companies relating to cloud computing; business consulting services for companies regarding blockchain technology; business consulting services for companies regarding quantum computing, quantum programming and for developing and testing quantum algorithms; business consulting services for companies regarding information technology; analyzing and compiling business data; systemization of data in computer databases.

CLASS 37

Building construction; computer repair and installation services; computer hardware maintenance services; computer support services provided by computer specialists; design, installation and maintenance of computer hardware for computer networks; technical support services, namely troubleshooting of computer hardware problems

CLASS 38

Telecommunication services; electronic message transmission; communication by computer terminals; electronic mail services; news and information agencies; telecommunication and electronic messaging services via computer networks; computer-aided transmission of data; telecommunication services enabling commercial interaction over a global computer network; provision of multiple access to information, data, communications, content, goods and services via a global network and wireless communication apparatus; electronic transmission of data and documents via computer terminals; teleconferencing and web conferencing services; providing multiple access to global information networks for the transfer and dissemination of a wide range of information; providing access to online forums for transmission of messages among computer users; providing access to private and secured electronic communications in real time within a computer network.

CLASS 41

Education; entertainment; training; organization and conducting of conferences, seminars and congresses; organization of exhibitions for cultural or educational purposes; production of radio and television programs; sporting and cultural activities; educational services, namely organization and conducting of classes, seminars, conferences, webinars and workshops in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, image and audio processing technology, global computer and telecommunication networks; training in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, image and audio processing technology, global computer and telecommunication networks; conducting fun exhibitions in the form of information technology demonstrations; entertainment services, namely, online computer game services; conducting fun exhibitions, namely, sports competitions in real time via a global computer network; conducting fun exhibitions, namely, provision of demonstrations on websites featuring museum exhibitions, sporting events, art gallery exhibitions, concerts and musical recordings; publishing of books and newspapers; production of shows and films; conducting of exhibitions for cultural or educational purposes; booking of seats for shows.

CLASS 42

Computer programming; Software as a Service (SaaS) services featuring software for data management; Software as a Service (SaaS) services featuring software for cloud computing; Software as a Service (SaaS) services featuring software for artificial intelligence; Software as a Service (SaaS) services featuring software for cognitive computing; Software as a Service (SaaS) services featuring software for blockchain technology; Software as a Service (SaaS) services featuring software for quantum computing and quantum programming; Software as a Service (SaaS) services featuring software for constructing, analyzing and executing quantum programs and quantum algorithms; Software as a Service (SaaS) services featuring software for developing and testing quantum algorithms; computer programming and computer consulting services for artificial intelligence; computer programming and computer consulting services for cognitive computing; computer programming and computer consulting services for information management; computer programming and computer consulting services for data management; computer programming and computer consulting services for cloud computing; computer programming and computer consulting services for blockchain technology; computer programming and computer consulting services for quantum computing; computer programming and computer consulting services for software as a service (SaaS); design, installation, updating and maintenance of software; design of computer software and hardware for third parties and consulting services in the field of computers; technical support services, namely, solving problems with computer software and programs; computer services, namely, design, creation and maintenance of websites for third parties; analysis of computer systems, integration of computer networks and databases, computer programming for third parties, all relating to commercial interactions on global computer networks; design of computer and software interconnection systems, namely, electronic interconnection of computers and software; testing of computer programs (software) and hardware (quality control and technical control); technical project studies in the field of computer hardware and software; computer consulting in connection with computer hardware, namely consulting in computer research and development; computer advice and assistance concerning Internet use; rental of computers and software; scientific and industrial research, namely research and development of new products, biological research, bacteriological research, chemical research, cosmetology research, mechanical research, geological research, technical research, pharmaceutical research, scientific research for medical purposes; information technology services; computer system integration services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for third parties; technical support services, namely, diagnosing problems with computer hardware and computer programs; computer system design services for third parties; design of systems for interconnection of computer hardware and software, namely, integration of computer systems and networks; computer software and hardware testing services, namely, testing of computer software, computers and servers to assure proper functioning; cloud computing services, namely, network integrated computer hardware and software services for dynamic provisioning, virtualization, and consumption metering of computer resources; providing virtual computer systems and virtual computer environments through cloud computing; design and development of computer software for cloud storage of data; cloud computing hosting provider services; electronic data storage and data recovery services; data security service.

Computers; quantum computers; computer hardware and software; computer hardware and software for information technology analysis and data management; computer hardware and software for application development; computer hardware and software for cloud computing; computer hardware and software for cognitive computing; computer hardware and software for artificial intelligence; computer hardware and software for blockchain technology; computer hardware and software for quantum computing and quantum programming; computer hardware, namely, magnetic tape units (data processing), magnetic tapes, printed circuits, integrated circuits, computer keyboards, compact discs (audio-video), optical disks, couplers (data processing), floppy disks, magnetic data media; computer hardware, namely, video screens, scanners, computer printers, interfaces (data processing), readers (data processing), software (recorded programs), microprocessors, modems, monitors (hardware), computers, computer memories, computer peripherals; computer adapters; computer components; data processing equipment; computer equipment for data and information management;

semi-conductors; electronic data media that can be processed by machine; magnetic disks; hard disk drives; tape recorders; calculating machines; cash registers; facsimile machines; video recorders; videotapes; electric cells and electric batteries; computer chips; boards for integrated circuits; computer accessories, namely, computer communication servers; carrying cases for computers; interface cards for computers; computer cables and computer cable parts; fax modem cards for computers; computer accessories, namely, screen filters, computer mouse pads, pagers, computer control grips; electric converters, namely, digital-to-analog, analog-to-digital and step-by-step voltage steppers; computer mice; integrated circuit cards and smart cards, adapters for integrated circuits and adapters for smart cards; readers for integrated circuit cards and smart cards; microcomputers; electric power supply apparatus; projectors (projection apparatus); remote controllers for computers; inverters, surge protectors and uninterruptible power supplies; point-of-sale terminals; computer servers; computer storage devices, namely high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunication network; recorded and downloadable computer programs and software; video game software; operating system software and programs; software for accessing a global computer network; document management software; database management software; software for locating, recovering and receiving text, electronic documents, graphic illustrations and audiovisual information on company-scale internal computer networks and on local, wide-area and global computer networks; software for developing and software for designing websites and user manuals, in electronic format, sold as a set; computer software for controlling the operations and execution of computer systems, programs and computer networks; computer software for connecting disparate computer networks and systems, servers and storage devices; computer programs for linking computers together and for enabling computer activities across a global computer network; computer software for managing systems, software and processes existing within an information technology environment; computer systems combining computer hardware and software for use in the management and analysis of data and instruction manuals in electronic format sold with these products; cloud computing systems, namely networks integrating computer hardware and software for dynamic provisioning, virtualization and consumption metering of computer resources; downloadable and recorded cloud computing software for deploying and managing virtual machines on a cloud computing platform; computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which are capable of collecting, organizing and analyzing data; computer systems, namely computer hardware and computer software that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) functions and capable of understanding general human queries and formulating responses; software for development, construction and operation of blockchain technology applications; computer hardware and computer software for developing and testing quantum algorithms; documentation and instruction manuals recorded on electronic data media that can be operated by machine and relating to computers or computer programs; electronic publications; electronic publications on computer media, namely, user manuals, guide books, brochures, information sheets, written presentations and teaching materials in the field of computing, computer networks, computer storage, computer operating systems, information technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing.

CLASS 35

Advertising; sales promotion services (for third parties); commercial business management and advice regarding commercial business management; business information; distribution of prospectuses; distribution of samples; arranging newspaper subscriptions for others; accounting; document reproduction; systematization of data in a central file; organization of exhibitions for commercial or advertising purposes; company management consulting services and commercial business consulting services; commercial business development service; market study statistic and data analysis; computer data processing services; computer data processing services for artificial intelligence; computer data processing services for cognitive computing; computer data processing services for cloud computing; computer data processing services for blockchain technology; computer data processing services for information management; computer data processing services for quantum computing and quantum programming; setting up and conducting commercial exhibitions in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management and electronic business transactions via a global computer network; business consulting services for companies regarding artificial intelligence; business consulting services for companies regarding computer systems that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) functions and capable of understanding general human queries and formulating responses; business consulting services for companies relating to cloud computing; business consulting services for companies regarding blockchain technology; business consulting services for companies regarding quantum computing, quantum programming and for developing and testing quantum algorithms; business consulting services for companies regarding information technology; analyzing and compiling business data; systemization of data in computer databases.

CLASS 37

Building construction; computer repair and installation services; computer hardware maintenance services; computer support services provided by computer specialists; design, installation and maintenance of computer hardware for computer networks; technical support services, namely troubleshooting of computer hardware problems.

CLASS 38

Telecommunication services; electronic message transmission; communication by computer terminals; electronic mail services; news and information agencies; telecommunication and electronic messaging services via computer networks; computer-aided transmission of data; telecommunication services enabling commercial interaction over a global computer network; provision of multiple access to information, data, communications, content, goods and services via a global network and wireless communication apparatus; electronic transmission of data and documents via computer terminals; teleconferencing and web conferencing services; providing multiple access to global information networks for the transfer and dissemination of a wide range of information; providing access to online forums for transmission of messages among computer users; providing access to private and secured electronic communications in real time within a computer network.

CLASS 41

Education; entertainment; training; organization and conducting of conferences, seminars and congresses; organization of exhibitions for cultural or educational purposes; production of radio and television programs; sporting and cultural activities; educational services, namely organization and conducting of classes, seminars, conferences, webinars and workshops in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, image and audio processing technology, global computer and telecommunication networks; training in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, image and audio processing technology, global computer and telecommunication networks; conducting fun exhibitions in the form of information technology demonstrations; entertainment services, namely, online computer game services; conducting fun exhibitions, namely, sports competitions in real time via a global computer network; conducting fun exhibitions, namely, provision of demonstrations on websites featuring museum exhibitions, sporting events, art gallery exhibitions, concerts and musical recordings; editing of books and journals; production of shows and films; conducting of exhibitions for cultural or educational purposes; booking of seats for shows.

CLASS 42

Computer programming; Software as a Service (SaaS) services featuring software for data management; Software as a Service (SaaS) services featuring software for cloud computing; Software as a Service (SaaS) services featuring software for artificial intelligence; Software as a Service (SaaS) services featuring software for cognitive computing; Software as a service (SaaS) services featuring software for blockchain technology; Software as a Service (SaaS) services featuring software for quantum computing and quantum programming; Software as a Service (SaaS) services featuring software for constructing, analyzing and executing quantum programs and quantum algorithms; Software as a Service (SaaS) services featuring software for developing and testing quantum algorithms; computer programming and computer consulting services for artificial intelligence; computer programming and computer consulting services for cognitive computing; computer programming and computer consulting services for information management; computer programming and computer consulting services for data management; computer programming and computer consulting services for cloud computing; computer programming and computer consulting services for blockchain technology; computer programming and computer consulting services for quantum computing; computer programming and computer consulting services for software as a service (SaaS); design, installation, updating and maintenance of software; design of computer software and hardware for third parties and consulting services in the field of computers; technical support services, namely, solving problems with computer software and programs; computer services, namely, design, creation and maintenance of websites for third parties; analysis of computer systems, integration of computer networks and databases, computer programming for third parties, all relating to commercial interactions on global computer networks; design of computer and software interconnection systems, namely, electronic interconnection of computers and software; testing of computer programs (software) and hardware (quality control and technical control); technical project studies in the field of computer hardware and software; computer consulting in connection with computer hardware, namely consulting in computer research and development; computer advice and assistance concerning Internet use; rental of computers and software; scientific and industrial research, namely research and development of new products, biological research, bacteriological research, chemical research, cosmetology research, mechanical research, geological research, technical research, pharmaceutical research,

scientific research for medical purposes; information technology services; computer system integration services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for third parties; technical support services, namely, diagnosing problems with computer hardware and computer programs; computer system design services for third parties; design of systems for interconnection of computer hardware and software, namely, integration of computer systems and networks; computer software and hardware testing services, namely, testing of computer software, computers and servers to assure proper functioning; cloud computing services, namely, network integrated computer hardware and software services for dynamic provisioning, virtualization, and consumption metering of computer resources; providing virtual computer systems and virtual computer environments through cloud computing; design and development of computer software for cloud storage of data; cloud computing hosting provider services; electronic data storage and data recovery services; data security service.

Pedometers; chips [integrated circuits]; USB cables; animated cartoons; downloadable computer application software for mobile phones, namely, software for games; computer game software, downloadable; rulers [measuring instruments]; downloadable emoticons for mobile phones; safety goggles; goggles for sports; cases for smartphones; cameras [photography]; battery chargers; eyeglasses; stands adapted for laptops; mouse pads; portable media players; downloadable image files; downloadable ring tones for mobile phones; electronic sheet music, downloadable; downloadable music files; phonograph records; headphones; coin-operated musical automata [juke boxes]; audio- and video-receivers.

CLASS 14

Retractable key chains; brooches [jewellery]; watch bands; presentation boxes for watches; works of art of precious metal; split rings of precious metal for keys; key rings [split rings with trinket or decorative fob]; charms for key rings; chains [jewellery]; jewellery boxes.

CLASS 16

Printed publications; printed matter; song books; bookbinding material; architects' models; paper tapes and cards for the recordal of computer programmes; document files [stationery]; photographs (printed); paper; books; calendars; comic books; hygienic paper; ink; gummed tape [stationery]; pens [office requisites]; coasters of paper; advertisement boards of paper or cardboard; paintings [pictures], framed or unframed.

CLASS 20

Stuffed animals; containers, not of metal [storage, transport]; slatted indoor blinds; furniture; nesting boxes for household pets; work benches; sleeping pads; mirrors [looking glasses]; identification bracelets, not of metal; nameplates, not of metal.

CLASS 25

Sleep masks; scarfs; hats; gloves [clothing]; clothing; girdles; hosiery; waterproof clothing; boots; shoes.

CLASS 28

Machines for physical exercises; boxing gloves; swimming pools [play articles]; gym balls for yoga; action figure toys; ornaments for christmas trees, except lights, candles and confectionery; playing cards; playing balls; fishing tackle; arcade video game machines; portable games with liquid crystal displays; apparatus for games; scratch cards for playing lottery; stuffed toys; parlor games; games; toys; toy figures; toy models.

CLASS 35

Rental of vending machines; sponsorship search; business auditing; compilation of information into computer databases; marketing; advertising; business management of performing artists; pay per click advertising; online advertising on a computer network.

CLASS 38

Rental of message sending apparatus; message sending; transmission of greeting cards online; transmission of digital files; streaming of data; radio broadcasting; transmission of electronic mail; television broadcasting; video-on-demand transmission; computer aided transmission of messages and images.

CLASS 41

Providing online music, not downloadable; providing online electronic publications, not downloadable; songwriting; providing television programmes, not downloadable, via video-on-demand services; production of music; providing information in the field of entertainment; entertainment services; karaoke services; arranging and conducting of concerts; organization of competitions [education or entertainment]; production of radio and television programmes; videotape editing; production of shows; television entertainment; providing recreation facilities; amusement park services; entertainer services; games equipment rental; organization of cosplay entertainment events; game services provided online from a computer network.

CLASS 42

Information technology [IT] consultancy; packaging design; providing search engines for the internet; dress designing; website design consultancy; consultancy in the design and development of computer hardware; rental of computer software; maintenance of computer software; computer software design; Software as a service [SaaS]; technological research; research and development of new products for others; cloud computing; chemical research; medical research; geological research; interior design; material testing; electronic data storage.

CLASS 45

Leasing of internet domain names; dating services; online social networking services; planning and arranging of wedding ceremonies; personal wardrobe styling consultancy; pet sitting; monitoring of burglar and security alarms; evening dress rental; clothing rental; escorting in society [chaperoning].

Bikes; electric bicycles; tricycles; delivery tricycles; scooters [vehicles]; motorbikes; motor scooters; side cars; cars; electric vehicles; golf carts; snowmobiles; caravans; trailers [vehicles]; vans; trucks; motor buses; tractors; locomotives; canoes; boats; oars for boats; yachts; helicopters; airplanes; parachutes; hot-air balloons; dirigible balloons (airships); aircraft; drone cameras; civilian drones; carts; shopping carts; wheelbarrows; prams; strollers; hoods for strollers; covers for strollers; bags designed for strollers; bicycle frames; bicycle handlebars; bicycle saddles; bicycle bells; bicycle pedals; bicycle kickstands; mudguards; dress guards for bicycles; rims for bicycle wheels; baskets adapted for bicycles; saddlebags adapted for bicycles; special boxes for bicycles; saddle covers for bicycles; motorcycle frames; motorcycle handlebars; motorbike kickstands; special boxes for motorcycles; saddle covers for motorbikes; vehicle bodies; steering wheels for vehicles; rearview mirrors; hub caps; vehicle wheel rims; windshield wipers; air bags [safety devices for automobiles]; cigar lighters for automobiles; cup holders for vehicles; sun-blinds for automobiles; seat covers for vehicles; covers for vehicle steering wheels; covers for spare wheels; fitted vehicle covers; hoods for vehicles; luggage carriers for vehicles; anti-theft devices for vehicles; delivery drones.

CLASS 15

Musical boxes; musical instruments; electronic musical instruments; string instruments [music]; guitars; violins; harps; pianos; accordions; harmonicas; flutes; trumpets; drums [musical instruments]; drumsticks; cymbals; xylophones; tuning forks; plectrums; cases for musical instruments; straps for musical instruments; bridges for musical instruments; music stands.

CLASS 16

Stationery; writing or drawing books; notebooks; indexes; coloring books; sheets [stationery]; pads [stationery]; writing paper; envelopes [stationery]; labels of paper or cardboard; shields [paper seals]; stickers [stationery]; adhesives [glues] for stationery or household purposes; transfers (decalcomanias); cards; greeting cards; postcards; trading cards other than for games; announcement cards [stationery]; calendars; blueprints; books; albums; periodicals; magazines [periodicals]; catalogs; pamphlets; flyers; printed publications; posters; pictures; photographs [printed]; photograph stands; framed or unframed paintings [pictures]; writing materials; writing cases [stationery]; pencils; electric or non-electric pencil sharpeners; rubber erasers; pens; balls for ball-point pens; ink; inkwells; nibs; pen cases; inking pads; stamps [seals]; paintbrushes; paint boxes [articles for use in school]; boxes

for pens; cabinets for stationery [office requisites]; office requisites except furniture; desk mats; paper knives [letter openers]; paperweights; covers of paper for flower pots; letter trays; bookmarks; page holders; bookends; figurines of papier mâché; terrestrial globes; passport holders; holders for checkbooks; money clips; boxes made of cardboard or paper; cardboard hat boxes; bags [envelopes, pouches] of paper or plastics, for packaging; wrapping paper; packaging [padding] materials of paper or cardboard; drawer liners of paper, perfumed or not; pennants (flags) of paper; table linen of paper; toilet paper.

CLASS 20

Bag hangers not of metal; non-metallic split rings for keys; cupboards; art objects of wood, wax, plaster or plastic; benches [furniture]; cradles; bookcases [furniture]; non-metallic empty tool boxes; boxes of wood or plastic; sideboards; desks; padlocks, other than electronic, not of metal; picture frames; couches; lockers; chairs [seats]; easy chairs; trolleys [furniture]; hangers for clothing; keys made of plastic; toy chests; chests not of metal; chests of drawers; console tables [furniture]; baskets, not of metal; cushions; tea carts; divans; racks [furniture]; non-electric fans for personal use; armchairs; figurines made of wood, wax, plaster or plastic; mirrors [looking glasses]; garment covers [storage]; flower-stands [furniture]; bedding except linen; beds; mattresses; furniture; office furniture; inflatable furniture; mobiles [decoration]; dog kennels; pillows; screens [furniture]; clothes hooks, not of metal; flower-pot pedestals; table tops; non-metallic trays; book rests; magazine racks; coat stands; display stands; display units for jewelry; standing desks; sofas; bed bases; statues of wood, wax, plaster or plastic materials; indoor blinds [furniture]; display boards; tables; stools; trestles [furniture]; plate racks.

CLASS 21

Tableware; table plates; porcelain ware; bowls; egg cups; salt cellars; pepper pots; cake molds; drinking vessels; drinking glasses; mugs; cups; saucers; tea services; teapots; sugar bowls; tea caddies; coffee services; non-electric coffeepots; non-electric kettles; drinking straws; cocktail stirrers; ice-cube tongs; mixers for beverages [shakers]; drinking bottles; pocket flasks; bottles; decanters; corkscrews, electric and non-electric; bottle openers, electric and non-electric; wine aerators; wine pourers; liqueur sets; trays for household use; place mats, neither made of paper nor of textile materials; fitted picnic baskets, including dishes; vases; candlesticks; candle holders (candlesticks); candle extinguishers; electric and non-electric aromatic oil diffusers, other than reed diffusers; perfume burners; perfume vaporizers; toilet utensils; toilet cases; shaving brushes; shaving brush holders; combs; brushes; toothbrushes; eyelash brushes; eyebrow brushes; cosmetic utensils; make-up brushes; make-up sponges; powder puffs; empty powder compacts; shoe brushes; shoe trees; shoe horns; pots; flower pots; flowerpot cover not of paper; window-boxes; watering cans; waste paper baskets; coin banks (piggy banks); decorative glass bowls; art objects made of porcelain, ceramic, earthenware, terracotta or glass; figurines of porcelain, ceramic, earthenware, terracotta or glass; statues of porcelain, ceramic, earthenware, terracotta or glass.

CLASS 27

Flooring coverings; carpets; floor mats; yoga mats; rugs; doormats; bath mats; carpets for automobiles; mats; wall coverings of textile materials; wall hangings, not of textile materials; wallpapers; textile wallpaper.

CLASS 28

Play balloons; balls for games; play balls; marbles for games; billiard balls; shuttlecocks; quoits; rackets; billiard cues; skittles; ninepins; gloves [accessories for games]; baseball gloves; boxing gloves; punching bags; dumbbells; barbells; jump ropes [sports articles]; targets; archery implements; darts; boomerangs; flying disks [toys]; kites; paragliders; billiard tables; table football games; tables for table tennis; swimming pools [play articles]; inflatable objects to float in the pool; trampolines; swings; slide [game]; play tents; golf bag carts; golf bags, with or without wheels; golf sticks [golf clubs]; skateboards; roller skates; ice skates; snowshoes; covers especially designed for rackets; skis; bags especially designed for skis; snowboards; sledges [sports articles]; waterskis; surfboards; surfboard leashes; bags especially designed for surfboards; paddleboards; sailboards; flippers for swimmers; water wings; elbow guards [sports articles]; knee guards [sports articles]; shin guards [sports articles]; protective cups for sports; tricycles for infants [toys]; scooters [toys]; toy vehicles; toys; rocking horses; play mats; mobiles being toys; rattles; plush toys; security blankets [plush toys]; dolls; dolls' clothes; dolls' houses; figurines [toys]; puppets; masks [toys]; spinning tops [toys]; robots as toys; remote-controlled toy vehicles; video game consoles; controllers for game consoles; drones [toys]; games; building games; building blocks [toys]; parlor games; board games; jigsaw puzzles; chessboards; checkerboards; card decks; trading cards for games; counters [discs] for games; cups for dice; dice; toys for household pets; snow globes; soap bubbles [toys]; confetti; novelties for parties; Christmas crackers [party novelties]; balloons for parties; Christmas trees of synthetic materials; ornaments for Christmas trees, except illumination articles and confectionery.

CLASS : 11,42

TM2021033054 28 October 2021

International Registration Number : 1106080

CLASS 11

Environmental control equipment for removing pollutants from liquids and gases, namely, ionized particulate scrubbers for removing particulate from the air, countercurrent scrubbers, crossflow scrubbers, fluidized-bed scrubbers, ionizing wet scrubbers, packaged scrubbers, venturi scrubbers, sieve tray scrubbers, tower and scrubber packing made of polypropylene, polyethylene, PVC and PVDF for use in air and water purifying equipment such as packed towers, gas absorption towers and liquid desorption towers, mist eliminators for collecting liquid droplets from gas streams; aerosol removal systems comprised of high-density media filters for sticky, oily and VOC laden gas streams; industrial air filter machines; air purification units; air purifiers; air purifying units for commercial use; air purifying units for industrial use; ventilating exhaust fans; electric fans for commercial and industrial use, namely, centrifugal fans and axial fans for ventilation of corrosive air; electrically augmented packed scrubber system comprised of high voltage transformer, control cabinet, charged particle scrubber, sump, flushing mechanism, recycle pump and piping designed for simultaneous removal of particulate and pollutant gases from an air or gas stream; thermal treatment and incineration equipment, namely, rotary kiln incinerators, liquid and gas incinerators, controlled air incinerators, and thermal oxidizers for the processing of industrial, hazardous waste comprising a broad range of solid, liquid and gas waste stream components as well as specialized system for the disposal of clinical waste; energy recovery systems comprised of heat recovery boilers for combustion of waste materials to produce steam; product recovery systems comprised of incinerators, ionizing wet scrubbers, venturi scrubbers, packed towers, tray towers, distillation towers, condensers, and baghouses to recover usable materials from the combustion and processing of hazardous industrial wastes; materials handling equipment, namely, ram feeders, sludge feed systems, and liquid injection systems for the storage and feeding of various waste materials to the thermal treatment and incineration equipment; specialized ash removal systems comprised of augers, drag conveyers, and hoppers for handling the solids discharge from thermal treatment and incineration systems.

CLASS 42

Design for others in the field of pollution control equipment and thermal treatment and incineration of a broad range of industrial hazardous wastes; engineering services for the construction of water treatment and purification plants, solid waste treatment plants and other municipal infrastructure facilities; engineering services in the field of environmental compliance; environmental services, namely, engineering services and consultation for the detection of contaminants in air and environmental permitting studies associated with the installation of thermal treatment and incineration systems; testing or research on prevention of pollution; engineering services related to the optimization and improvement of existing thermal treatment and incinerator systems.
