General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

National Applications Published For Opposition Purposes

National Trade Mark No: 40201820092S
Filing Date: 04 October 2018
Classes: 09 16 35 41 42

Goods and/or Services:

Class 09

Computer software, namely, software related to product and service standards, standards and standards development, factory inspections, emergency response planning in the fields of business and quality management standards, climate change standards, construction products and materials standards, construction design standards, design and installation standards, electrical standards, energy and power standards, energy storage system standards, environmental standards, health care standards, medical and laboratory equipment and related operational standards, oil and gas equipment and related operation standards, information technology standards, telecommunication standards, namely, standards relating to the components, installation and design of telecommunications and computer networks, infrastructure and public works standards, mechanical and industrial equipment standards, occupational health and safety standards, public and community safety standards for industrial, commercial and domestic goods and services, materials, equipment, processes and systems, as well as software related to cybersecurity concerning all of the foregoing standards, namely, software used to protect the user against the criminal or unauthorized use of electronic data relating to all of the foregoing standards; downloadable electronic publications setting out standards, namely voluntary or mandatory (as required by regulations) business management and quality management standards, climate change standards, construction products and materials standards and construction design standards, design and installation standards, electrical standards, energy and power standards, energy storage system standards, environmental standards, health care standards, medical and laboratory equipment and related operation standards, oil and gas equipment and operation standards, information technology standards, telecommunication standards, namely standards relating to the components, installation and design of telecommunications and computer networks, infrastructure and public works standards,

mechanical and industrial equipment standards, occupational health and safety standards and public and community safety standards for industrial, commercial and domestic goods, services, processes and systems; downloadable electronic publications other than standards which define requirements to which products are certified; downloadable electronic publications, namely codes which organize and categorize standards and printed and electronic handbooks, pocket guides and guides in the field of technical, safety, performance, quality, management, dimension and environmental standards relating to industrial, commercial and domestic goods, services, processes and systems including explanations of standards and amendments thereto.

Class 16

Educational and training materials, namely, workbooks, text books, guides, tests, examinations and answer guides in the field of product and service standards, standards development, testing, certifications, inspections, auditing, management system products and services; Printed matter, namely, fact sheets, newsletters, pamphlets, periodicals, and brochures to promote and educate; Printed documents setting out standards, namely voluntary or mandatory (as required by regulations) business management and quality management standards, climate change standards, construction products and materials standards and construction design standards, design and installation standards, electrical standards, energy and power standards, energy storage system standards, environmental standards, health care standards, medical and laboratory equipment and related operation standards, oil and gas equipment and operation standards, information technology standards, telecommunication standards, namely standards relating to the components, installation and design of telecommunications and computer networks, infrastructure and public works standards, mechanical and industrial equipment standards, occupational health and safety standards and public and community safety standards for industrial, commercial and domestic goods, services, processes and systems; Publications, namely printed documents other than standards which define requirements to which products are certified; Printed guides in the field of the performance and quality of goods and services that meet particular technical and quality standards in a wide variety of fields; Printed publications, namely codes which organize and categorize standards and printed and electronic handbooks, pocket guides and guides in the field of technical, safety, performance, quality, management, dimension and environmental standards relating to industrial, commercial and domestic goods, services, processes and systems including explanations of standards and amendments thereto.

Class 35

The bringing together, for the benefit of others, of labels featuring certification information (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet; retail services relating to the sale of labels featuring certification information; Association services, namely business advisory services relating to

the development of voluntary or mandatory (as required by regulations) business management and quality management standards, climate change standards, construction products and materials standards and construction design standards, design and installation standards, electrical standards, energy and power standards, energy storage system standards, environmental standards, health care standards, medical and laboratory equipment and related operation standards, oil and gas equipment and related operation standards, information technology standards, telecommunication standards, namely standards relating to the components, installation and design of telecommunications and computer networks, infrastructure and public works standards, mechanical and industrial equipment standards, occupational health and safety standards, public and community safety standards for industrial, commercial and domestic goods, services, processes and systems; Association services, namely, promoting public and industry awareness about the importance of the acceptance, use, conformity and certification to programs and standards related to technical, safety, performance, quality, management and dimension standards for industrial, commercial and domestic goods and services in a wide variety of fields via print media, the Internet, social media and public speaking forums; business administrative services in the establishment, assessment and registration of emissions and sustainability programs of others, namely, greenhouse gas and emissions control, environmental sustainability and economically sustainable practices and programs; Promotion [advertising] of the establishment, assessment and registration of emissions and sustainability programs of others, namely, greenhouse gas and emissions control, environmental sustainability and economically sustainable practices and programs; market assessment services in relation to events, facilities, organizations and products of others for conformity to environmental and sustainability practices and programs; Promoting public and industry awareness of the importance of carbon and emissions reduction and management; Promoting registration services for conformance to green house gas emissions standards; On-line retail store services featuring handbooks, user guides, product catalogues, print material, and CD-ROMs in the fields of business and quality management standards, climate change standards, construction standards, electrical standards, energy and power standards, energy storage system standards, environmental standards, health care standards, medical and laboratory equipment and related operation standards, oil and gas equipment and related operation standards, information technology and telecommunication standards, infrastructure and public works standards, mechanical and industrial equipment standards, occupational health and safety standards, public and community safety standards, product catalogues, quality management, privacy, reliability, and risk management standards; provision of administrative services for on-line registration for training courses, seminars and memberships in the field of the development and application of voluntary and mandatory (as required by regulations) technical, safety, performance, quality, management, dimension and environmental standards relating to industrial, commercial and domestic goods, services, processes and systems, factory audits and emergency response training; providing business administrative services in the field of facilitating the online management and

monitoring of customers of information relating to the certification status of products and services to certain voluntary and mandatory (as required by regulations) technical, safety, performance, quality, management, dimension and environmental standards; Advertising the goods and services of others; providing business information for others via a website; providing an online commercial information directory on the internet; Business audits and factory audits to assess manufacturing capabilities, and quality, social, and environmental processes and systems, to prescribed requirements of retailers, manufactures and others and to particular standards; operation of a registry to record and track emissions and greenhouse gas emissions information of others; operation of a registry to record and track environmental sustainability, social responsibility and economic sustainability practices of others; business advisory services relating to the management and operation of a business supply chain, namely, design consulting, specification writing, performance testing, claims verification, factory assessments, product and production inspections, returns and defect analysis, and recall support.

Class 41

Educational services, namely providing training and instruction regarding the use, interpretation and application of voluntary or mandatory (as required by regulations) business management and quality management standards, climate change standards, construction products and materials standards and construction design standards, design and installation standards, electrical standards, energy and power standards, energy storage system standards, environmental standards, health care standards, medical and laboratory equipment and related operation standards, oil and gas equipment and related operation standards, information technology standards, telecommunication standards, namely standards relating to the components, installation and design of telecommunications and computer networks, infrastructure and public works standards, mechanical and industrial equipment standards, occupational health and safety standards and public and community safety standards for industrial, commercial and domestic goods, services, processes and systems via workshops, seminars, CD-ROMs, on-line training, a web site, and interactive communications provided via the worldwide web and training manuals.

Class 42

Advisory and consulting services in the fields of quality and safety management systems, environmental management systems, occupational health and safety management systems; Development of protocols in the field of testing, inspecting and auditing third party products, services, processes and systems; Consulting services regarding voluntary or mandatory (as required by regulations) quality standards in the field of business management and quality management standards, climate change standards, construction products and materials standards and construction design standards, design and installation standards, electrical standards, energy and power standards, environmental standards, health care standards, medical and laboratory equipment and related operation standards, oil and gas equipment

and related operation standards, information technology standards, telecommunication standards, namely standards relating to the components, installation and design of telecommunications and computer networks, infrastructure and public works standards, mechanical and industrial equipment standards, occupational health and safety standards and public and community safety standards for industrial, commercial and domestic goods, services, processes and systems; Hosting online facilities for conducting interactive discussions relating to the use in the standards development field to facilitate online collaboration in the development of standards; research, testing, and quality evaluation services and generation of the related reports services relating to home and commercial appliances; research, testing, quality evaluation services and generation of the reports services relating to industrial and hazardous location equipment; research, testing, quality evaluation services and generation of the reports relating to consumer products; research, testing, quality evaluation services and generation of the reports services relating to medical and laboratory equipment; research, testing, quality evaluation services and generation of the reports services relating to energy and power products and systems; research, testing, quality evaluation services and generation of the reports services relating to energy storage systems; research, testing, quality evaluation services and generation of the reports services relating to oil and gas appliances and operation thereof; research, testing, quality evaluation services and generation of the reports services relating to construction and building products and installation thereof; research, testing, quality evaluation services and generation of the reports services relating to information technology equipment, components, telecommunications and computer networks and systems; providing evaluation of products in terms of performance, energy efficiency, reliability, safety and misuse; certification services of industrial, commercial and domestic goods and services to criteria in the fields of safety, performance, quality, management and dimension standards as provided by third parties; Consumer product testing, evaluations and inspections; Advisory and consulting services relating to environment assessment services, namely, the assessment and registration of carbon neutrality and emissions management and reduction programs of others; Hosting, managing and maintaining a website for others to record and view emissions information; Providing a website featuring information in the field of the management, control and reduction of greenhouse gas emissions; operation of a website to record and track emissions and greenhouse gas emissions information of others; operation of a website to record and track environmental sustainability, social responsibility and economic sustainability practices of others; Providing a website for customers to manage accounts and information regarding new standards, to track orders for products and to provide information in the fields of voluntary or mandatory (as required by regulations) business management and quality management standards, climate change standards, construction products and materials standards and construction design standards, design and installation standards, electrical standards, energy and power standards, energy storage system standards, environmental standards, health care standards, medical and laboratory equipment and related operation standards, oil and gas equipment and related operation

standards, information technology standards, telecommunication standards, namely standards relating to the components, installation and design of telecommunications and computer networks, infrastructure and public works standards, mechanical and industrial equipment standards, occupational health and safety standards and public and community safety standards for industrial, commercial and domestic goods, services, processes and systems; Providing a website that enables third parties to access data profiles that contain information as to the certification status of a product; providing online information on quality standards, namely, voluntary and mandatory (as required by regulations) technical, safety, performance, quality, management, dimension and environmental standards relating to industrial, commercial and domestic goods, services, processes and systems and assessment and training programs in the field of such standards; Testing, analysis and evaluation of goods and services of others for the purposes of certification relating to voluntary or mandatory (as required by regulations) business management and quality management standards, climate change standards, construction products and materials standards and construction design standards, design and installation standards, electrical standards, energy and power standards, energy storage system standards, environmental standards, health care standards, medical and laboratory equipment and related operation standards, oil and gas equipment and related operation standards, information technology standards, telecommunication standards, namely standards relating to the components, installation and design of telecommunications and computer networks, infrastructure and public works standards, mechanical and industrial equipment standards, occupational health and safety standards and public and community safety standards for industrial, commercial and domestic goods and services, devices, materials, equipment, processes and system.

International Registration No: 1605122

Date of Protection in Singapore: 04 June 2021

Classes: 05 10 35

Prostrolane

Goods and/or Services:

Class 05

Fillers for inflammation of the knee joint [pharmaceuticals]; medicines for human purposes; pharmaceuticals; non-prescription medicines; skin care preparations for medical purposes; pharmaceutical products for bone diseases; acne medication; implants comprising living tissue; medicines for dental purposes; prosthesis material for dental purposes; filled syringes for medical purposes [containing pharmaceuticals].

Class 10

Implants consisting of artificial materials; injection syringes for medical purposes, namely, syringes for injecting fillers for inflammation of the knee joint; medical prostheses; medical apparatus for injecting fillers; implantable subcutaneous drug delivery devices.

Class 35

Retail store services featuring chemical preparations for use in industry; wholesale store services featuring chemical preparations for use in industry; sales agency services for chemical preparations for use in industry; retail store services featuring medical apparatus and instruments other than for dental purposes; wholesale store services featuring medical apparatus and instruments other than for dental purposes; sales agency services featuring medical apparatus and instruments other than for dental purposes; retail store services featuring human and animal drugs; sales agency services featuring human and animal drugs; wholesale store services featuring human and animal drugs; promoting the goods and services of others by means of operating an on-line comprehensive shopping mall; business intermediary services relating to mail order by telecommunications; wholesale store services featuring cosmetics; retail store services featuring cosmetics; retail store services featuring biochemical additive for cosmetics manufacturing; wholesale store services featuring biochemical additive for cosmetics manufacturing; sales agency services featuring biochemical additive for cosmetics manufacturing; retail store services featuring peptide for cosmetics manufacturing; wholesale store services featuring peptide for cosmetics manufacturing; sales agency services featuring peptide for cosmetics manufacturing; sales agency services for cosmetics.

EUROFINS

Goods and/or Services:

Class 01

Chemical preparations not for medical use; chemical preparations for scientific use; reagents for chemical analyses; diagnostic preparations and materials for scientific and research use; diagnostic preparations and materials for laboratory or industrial use; analytical and diagnostic testing kits for laboratory and industrial use (diagnostic test materials other than for medical use); analytical and diagnostic testing kits for scientific and research use (diagnostic test materials other than for medical use); analytical and diagnostic testing kits for scientific and research use namely reagents and buffers; analytical and diagnostic testing kits for industrial and laboratory use namely reagents and buffers; PCR kits namely diagnostic test materials other than for medical use; PCR kits namely reagents and control samples not for medical diagnostic or veterinary diagnostic use; chemical compounds for laboratory or industrial use namely oligonucleotides, polynucleotides, synthetic genes; chemical compounds for scientific use and non-medical research use namely oligonucleotides, polynucleotides, synthetic genes; oligonucleotide sets for DNA microchips of a chemical nature namely chemical compositions and materials for scientific, laboratory, industrial or research use; oligonucleotide sequences for DNA microchips namely chemical compositions and material for scientific use; gene libraries as collections of DNA and RNA fragments, fragments, variants or combination of genes, of a chemical nature, prepared and offered for sale, for scientific or research use, for industrial or laboratory use not for medical or veterinary use; genetic engineering materials, including genes, fragments and combinations thereof, all these products being chemical compositions and materials for scientific use, laboratory use, industrial use or research; ELISA-based and other antibody-based kits not for medical use (diagnostic test materials other than for medical use); ELISA-based and other antibody-based kits for detection of chemical and biochemical and biological molecules or parts thereof for scientific, laboratory and industrial use and not for medical diagnostic use; analytical standard solutions for detection of chemical or biochemical molecules for scientific, laboratory and industrial use and not for medical diagnostic use; reagent kits comprised of proteins, polypeptides and chemical reagents not for medical use.

Class 05

Diagnostic preparations for medical and veterinary use; diagnostic reagents for medical and veterinary use; diagnostic test materials for medical and veterinary use; chemical analysis test reagents for medical and veterinary use; chemical reagents for medical and veterinary use; chemical preparations for medical and veterinary use; biological reagents for medical or veterinary use; analytical and diagnostic testing kits for medical and veterinary use; PCR kits namely analysis and diagnostic tests kits for medical use; PCR kits namely reagents and control samples for medical diagnostic or veterinary diagnostic use; oligonucleotides for medical or veterinary use; polynucleotides for medical or veterinary use; synthetic genes for medical or veterinary use; oligonucleotide sets for DNA microchips for medical and veterinary use; gene libraries such as collections of DNA and RNA fragments, variants or combination of genes, for medical and veterinary use; genetic engineering materials, including genes, fragments and combinations thereof, all these goods for medical and veterinary use; analytical standard solutions for detection of chemical and biochemical molecules for medical diagnostic and veterinary diagnostic use; chemical, biological and biochemical substances for use as pharmaceutical drugs; chemical, biological and biochemical substances for therapeutic use in the fields of genomics, proteomics, chemical sciences, pharmacology, biology, biotechnology, bioscience, structural biology, all these products included in class 5; diagnostic test kits including proteins, polypeptides and chemical reagents for medical and veterinary use.

Class 09

Apparatus for diagnosis, measurement and analysis, not for medical use; laboratory equipment namely scientific research and laboratory apparatus; sample containers and sampling devices for scientific laboratory use; software for establishment, systematization, evaluation and/or collection of analytical or diagnostic data; DNA microchips; peptide microchips; DNA microarrays; peptide microarrays; biochips; Computer software for database management; electronic databases recorded on computer media; electronic publications downloadable from databases or the Internet; laboratory instruments for analysis and diagnosis not for medical use, namely test kits for analysis and diagnosis not for medical use, namely test tubes; scientific instruments and apparatus, namely test strip readers, magnetic separators, automated assay apparatus comprising a microplate optical reader; scientific instruments and apparatus, namely non-automated assay apparatus comprising a microplate optical reader, a microplate strip reader, a test strip reader, a tube reader, a photometer, a microplate reader, for scientific, laboratory or industrial use and not for medical diagnostic use; scientific instruments and apparatus for the measurement of the concentrations of analytes from aqueous samples for scientific, laboratory or industrial use not for medical diagnostic use.

Class 10

Apparatus for diagnosis, measurement and analysis, for medical and veterinary use; sample

containers and sampling devices for medical and veterinary use; test kits for analysis and diagnosis for medical and veterinary use, namely tubes, test strips, lancets, testing cartons, blotters for Guthrie tests; scientific instruments and apparatus, namely test strip readers, magnetic separators, automated assay apparatus comprising a microplate optical reader for medical and veterinary use; a test strip reader, a tube reader, a photometer, a microplate reader for medical and veterinary use; scientific apparatus and instruments for the measurement of the concentrations of analytes from aqueous samples for medical diagnostic and veterinary diagnostic use; ELISA-based and other antibody-based kits for medical and veterinary use; ELISA and other antibody-based kits, namely test bands and strips, microtiter plates, coated test tubes and magnetic particles for the detection of chemical and biochemical and organic molecules or parts thereof for medical and veterinary use; cardboard cartons [apparatus] for medical testing purposes or testing cartons [apparatus] for medical use.

Class 35

Providing scientific staffing services to support analytical testing in the fields of research and development in the field of chemical analysis, physical chemistry, physics, biochemistry, molecular biology, virology, cell biology, microbiology and clinical trials; consulting and assistance services related to the commercialization of products manufactured by pharmaceutical, agrochemical, chemical, biotechnology, aerospace, automobile, consumer products, semiconductor, electronics, energy, magnetic storage and other science-oriented industries; commercialization consulting services for others; database management; database marketing; computerized file management services; computerized file management services; data collection services in computer databases; online data collection.

Class 40

On order manufacturing of chemical and biotechnological materials for others namely manufacturing of organisms, compounds and materials in the pharmaceutical, agrochemical, chemical, biotechnology, aerospace, automobile, consumer products, semiconductor, electronics, energy, magnetic storage and other science-oriented industries; on order manufacturing consulting and assistance services for others in the field of pharmaceutical, agrochemical, chemical, biotechnology, aerospace, automobile, consumer products, semiconductor, electronics, energy, magnetic storage and other science-oriented industries.

Class 41

Providing online tutorials, seminars, online newsletters and blogs in the fields of analytical techniques, regulatory requirements and product development processes; providing online tutorials, seminars, online newsletters and blogs related to the development, commercialization, life cycle management, improvement and regulatory compliance of products manufactured by pharmaceutical, agrochemical, chemical, biotechnology, aerospace, automobile, consumer products, semiconductor, electronics, energy, magnetic

storage and other science-oriented industries; training services rendered to companies and their employees in the field of quality control, quality assurance and regulatory standards and national or international standards and regulations in the consumer product, food, feed, environment and healthcare industries.

Class 42

Scientific and industrial research; research and development in the fields of animal and plant biology, physical chemistry, food chemistry, microbiology, molecular biology, epidemiology, immunology, chemistry, biochemistry; research and development in the food and feed industries; research and development for environment testing and field sampling for air, soil, sediment, water, waste, gas, soil gas; carrying out physical, chemical, physical-chemical, biochemical, biological, epidemiological, microbiological, molecular biological or immunological analyses in the fields of plant and animal products; carrying out physical, chemical, physical-chemical, biochemical, biological, epidemiological, microbiological, molecular biological or immunological analyses, clinical and in-vitro studies in the food and feed, agro-food, chemical, pharmaceutical, cosmetic, health, environmental, agrochemical, biotechnology, aerospace, automobile, consumer products, semiconductor, electronics, energy, magnetic storage and any science-oriented industries; carrying out genetic analyses in the fields of plant and animal products; carrying out genetic analyses in the food, feed, agro-food, chemical, pharmaceutical, cosmetic, health, biotechnology and consumer product industries and in environmental testing; carrying out nuclear magnetic resonance analyses in the food, feed, agro-food, chemical, pharmaceutical, cosmetic industries and in environmental testing; scientific and industrial research; development of methods namely establishment and carrying out of physical, chemical, physical-chemical, biochemical, biological, epidemiological, microbiological, molecular biological, immunological and biomolecular testing methods; preparing scientific reports for scientists and engineers; technical project studies; professional consultancy in the field of scientific research and medical treatments research; DNA, RNA and virus analyses for scientific purposes; technical project studies; design of gene libraries such as collections of DNA and RNA fragments, variants or combination of genes, of chemical nature or for medical or veterinary use; scientific and technological services namely, research, analysis, inspection, quality audit, design, engineering, development and laboratory testing services for others; sample taking services and services for the collection of material for environmental, agro-food, food and feed and genetic testing; on-line data provision, data interpretation, consultancy and advisory services related to environmental, agro-food, food and feed testing services; scientific and technological services related to the development, commercialization, life cycle management, improvement and regulatory compliance of products manufactured by pharmaceutical, agrochemical, chemical, biotechnology, aerospace, automobile, consumer products, semiconductor, electronics, energy, magnetic storage and other science-oriented industries; consulting and advisory services related to the development of products manufactured by pharmaceutical, agrochemical, chemical, biotechnology, aerospace,

automobile, consumer products, semiconductor, electronics, energy, magnetic storage and other science-oriented industries; product development, monitoring inspections of manufactured goods and manufacturing machinery for quality control purposes for others; database design and development; analysis and provision of online information about industrial analysis and research services; provision of scientific research information, data analysis and results from an online searchable database; information technology (IT) services including online searchable databases and algorithms, for managing and providing scientific analysis results based on genomics data; analysis and provision of online information in the field of technological research from a computer database or the Internet; food product and beverage certification services [quality control]; accreditation services [certification of competence and quality] in the field of food and drink industries; accreditation services [certification of competence and quality] in the field of scientific analysis; testing, analysis and evaluation of the goods and services of others for the purpose of certification; testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards; testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards in the field of scientific analysis; carrying out experts test panels namely sensory analysis; carrying out consumer test panels namely sensory analysis; product testing including digital testing and cyber security testing; consumer product safety testing; product quality control testing; product safety testing; testing of new products; consultancy relating to consumer product safety testing; design and testing for new product development; design and testing of new products; development and testing of chemical production methods; quality control testing of products for certification purposes; scientific and technical research for others for pharmaceuticals, biotech products and chemicals; scientific and technical research for others in the field of physical testing, acoustic testing, flowability, atmosphere testing, electric and electronic safety testing; pharmaceutical drug discovery services; development and research in the pharmaceutical, biotechnological, chemical and agro-chemical fields; clinical trials for pharmaceutical drugs; research services in the areas of genomics, proteomics, chemistry, pharmacology, biology, epidemiology, medicinal chemistry, organic and inorganic chemistry, synthetic chemistry, analogue chemistry and computational chemistry; providing information in the field of epidemiology, genomics and proteomics of living organisms including human beings based on existing biological data by using information technology tools and techniques; clinical trials for pharmaceutical, products, cosmetics and personal care products; services for ensuring safety and efficiency of pharmaceutical drugs; computer services, namely use of information technology tools and techniques to work with existing biological data and to generate information on the epidemiology, genomics and proteomics of living organisms including human beings through research and study, all these services included in this class; scientific and technological services namely scientific and medical laboratory services, laboratory research and development in the fields of epidemiology, biomedicine and biobanking; quality audit (quality control) in the field of hygiene in hospitals, food industry, restaurants, hotels and

retailers' sites or any public places; technical and scientific audits and consultancy in the consumer product industry, food industry, hospitality industry and in retailers' sites; product quality inspection for consumer products, food and feed industry and healthcare industry; quality audit services in the field of systems and certification according to national and international standards in the consumer product industry, food and feed industry, hospitality industry and healthcare industry; environmental impact studies; environmental impact studies for pharmaceuticals, veterinary products, agrochemicals and chemicals; consultation and analysis services in the fields of biotechnology, pharmaceutical research and development; pharmaceutical, biopharmaceutical and clinical research and development for others; testing services related to the development of veterinary products and their applications; DNA, RNA and virus testing for scientific purposes; DNA and RNA examination for scientific purposes.

Class 44

Medical services for blood testing, saliva, urine, tissue, hair and body fluid testing services; serological and urinary testing services for medical and veterinary purpose; medical testing services in the field of epidemiology and genetics; DNA, RNA and virus analyses for medical purposes; DNA and RNA screening for medical purposes; medical and health services in connection with DNA and RNA; genetic testing for medical use; hospital services; medical assistance and medical services in the field of epidemiology and genetics; medical clinic services; medical consultation services; genetic consultation; medical equipment rental; provision of medical record services online except in the dentistry field; human fertility treatment services; hygiene and beauty care for human beings and animals; collection, sampling and preservation of human blood, saliva, urine, tissue, hair and body fluids, for medical purpose; medical testing for diagnostic and epidemiological use; testing, monitoring and reporting of medical diagnosis in the field of cardiovascular diseases; providing information relating to cardiovascular health and cardiovascular health examination; medical services, namely health and well-being programs in the field of cardiovascular disease; medical testing for diagnostic and treatment purposes, namely for genetic causes of lipid abnormalities; medical diagnostic testing in the field of diabetes; medical testing for diagnostic purposes in the field of preventive medicine; carrying out test panels in the field of preventive medicine; medical services namely preventive medicine and tests in the field of micro-nutrition; medical diagnostic testing in the field of sports; medical diagnostic testing in the field of anti-ageing medicine; medical assistance services in the field of preventive medicine; carrying out medical biology test panels, interpretation of medical biology test results; bio-pathological information and advice relating to medical biology tests; testing for assessing immunogenicity, hypersensitivity and adverse immune stimulation; allergy and immunology testing; infectious disease screening; prenatal diagnostic testing for medical use; prenatal diagnostic testing; genetic counselling; human fertility treatment services; agricultural services, namely, seed phenotyping, seed breeding, providing agricultural advice in the field of seed breeding for others.

Class 45

Regulatory compliance consulting of products manufactured by food, feed, agro-food, cosmetics, pharmaceutical, agrochemical, chemical, biotechnology, aerospace, automobile, consumer products, semiconductor, electronics, energy, magnetic storage and other science-oriented industries; expert witness services [legal service] in the fields of materials science, electronics, failure analysis, metallurgical testing, residual gas analysis and destructive physical analysis; scientific litigation legal support services in the fields of materials science, electronics, failure analysis, metallurgical testing, residual gas analysis and destructive physical analysis; legal services rendered by lawyers, legal assistants and personal advocates to organizations and enterprises in the field of food and feed labelling and food, feed and environmental regulations.

B I P R O G Y

Goods and/or Services:

Class 09

Photocopying apparatus; cameras; mobile phones; smartphones; Global Positioning System (GPS) apparatus; digital cameras; digital video cameras; electronic apparatus for monitoring machines; computer hardware; network servers; point-of-sale (POS) terminals; computer software; data processing apparatus; optical data media; magnetic data media; downloadable image files; electronic publications, downloadable; downloadable music files.

Class 35

Advertising; business management analysis or business consultancy; marketing research, market studies; providing information concerning commercial sales; administration of business affairs; procurement of contracts for the purchase and sale of goods; customer service management; consumer research; business evaluations; business enquiries and investigations; business research consultancy; economic forecasting; compilation of business statistics; cost analyses; public opinion surveys; office functions, namely filing, in particular documents or magnetic tapes; computerized file management; systematization of data in computer databases; systemization of information into computer databases; computer data entry services; systematization of information in databanks; updating and maintenance of data in computer databases; collating of data in computer databases; retail services or wholesale services for electrical machinery and apparatus; data processing service; data collection, data management of personal health information; data management of healthcare information with computer terminals.

Class 37

Installation of hardware for computer systems; telecommunication wiring; information services relating to construction; construction; consultancy relating to the installation of computer hardware; construction consultation; repair and maintenance of computers; repair or maintenance of electronic machines and apparatus; providing information relating to the repair or maintenance of electronic machines and apparatus; installation, maintenance and repair of computer hardware for electronic data processing systems; repair or maintenance of telecommunication machines and apparatus; providing information relating to the repair or maintenance of telecommunication machines and apparatus; installation, repair or maintenance of agricultural machines or forestry machines and providing information relating thereto.

Class 38

Communications by computer terminals; provision of access to a worldwide computer network; teleconferencing services; electronic bulletin board services [telecommunications services]; computer aided transmission of messages, data and images; providing access to databases; telecommunications routing and junction services; broadcasting services; rental of telecommunication equipment including telephones and facsimile apparatus; communications by cellular phones; transmission of electronic mail; leasing access time to computer databases; providing information relating to leasing access time to computer databases.

Class 39

Railway transport; car transport; providing road and traffic information; GPS navigation services; air transport; physical storage of electronically stored archived data.

Class 41

Educational services; training in the use and operation of computers; vocational education and training services; providing educational examinations; arranging, conducting and organization of seminars; providing electronic publications; entertainment services; entertainment information; movie theatre presentations or movie film production and distribution; presentation of live show performances; direction or presentation of plays; presentation of musical performances; production of videotape film in the field of education, culture, entertainment or sports (not for movies or television programs and not for advertising or publicity); game services provided online from a computer network; production and distribution of audio and video recordings, still and moving images, movie films; online game services provided via a computer network; organization of entertainment events excluding movies, shows, plays, musical performances, sports, horse races, bicycle races, boat races and auto races; organization, production and presentation of events for educational, cultural or entertainment purposes.

Class 42

Design of computers; design of telecommunication apparatus and equipment; designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; creating, designing and maintaining web sites; monitoring of computer systems by remote access; fault diagnosis and computer virus protection services for computer program; consultancy in the field of the recovery of load and disaster of computer program on computer; data analysis services for detecting, preventing and eliminating computer virus; data back-up services for computer, providing information and consultation therefor; recovery of computer data; computerized conversion of a digital document to another format; data conversion of electronic information; data encryption services; providing technical information about configuration of computers; configuration of networked computer systems; configuration of program for computer server; providing search engines for the internet; user authentication services for e-commerce transactions; installation of computer programs and consultation thereof; installation of computer programs into computers and consultation thereof; design, development and programming of computer system and consultation thereof, maintenance of software for computer system and consultation thereof; consultancy in the field of programming of web pages; design of computer databases; development of computer database; computer system integration services; consultancy in the field of computer system integration; troubleshooting of computer software problems [technical support]; programming of software for Internet platforms; data migration services; updating of computer database software; installation, maintenance and updating of database software; computer programming services; technological advice relating to computers, automobiles and industrial machines; consultancy in the field of testing or research on information and communications technology; testing or research on machines, apparatus and instruments; testing or inspection in the fields of communication networks; testing, inspection and research services in the fields of computer system analysis services; computer system analysis and providing information relating thereto; information technology [IT] consultancy; rental of electronic memory space on the server and providing information thereof; hosting of websites on the Internet and providing information relating thereto; hosting of e-commerce platforms on the Internet; hosting platforms on the Internet; hosting computer databases; providing online non-downloadable software [application service provider]; providing on-line non-downloadable programs for communication networks; providing information and consultancy in the field of providing on-line non-downloadable programs via the internet; rental of computer and computer software; cloud computing; software as a service [SaaS]; computer software design; computer system design; testing, inspection and research services in the fields of agriculture and forestry; scientific and technological research in the field of natural disasters.

Class 44

Beauty salon services; consultancy in the field of beauty salon services and barber shop services, providing information relating to beauty salon services and barber shop services; providing medical information; physical examination; medical analysis services; medical consultations; nutritional and dietetic consultancy; providing information relating to nutritional and dietetic consultancy; health counselling, providing information relating to health care; medical analysis of personal health information for diagnostic or treatment purposes, providing health care information; advisory and consultancy services relating to the use of fertilizers in agriculture, horticulture and forestry; pest control services for agriculture, horticulture or forestry; vermin exterminating services for agriculture, horticulture or forestry; operation of agricultural machines or forestry machines and providing information relating thereto.
