General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Goods and/or Services:

Class 07

Injection moulding machines for processing plasticisable masses, in particular plastic injection moulding machines; machines for producing prototypes and small series from plastic or other plasticisable materials, in particular in a process for additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling; injection moulding plants comprising predominantly of injection moulding machines for producing injection moulded parts, in particular from plastic; parts of the aforementioned goods.

Class 09

Electronic control systems and computer-controlled numerical control systems, electronic control devices and electronic monitoring instruments as special devices and instruments for injection moulding machines, in particular for plastic injection moulding machines or for machines for the production of prototypes and small series of plastic or other plasticisable materials; programmed components for interactive control devices and monitoring instruments as special devices and instruments for the control and/or operation of injection moulding machines, in particular of plastic injection moulding machines or of machines for the production of prototypes and small series of plastic or other plasticisable materials; computer software [stored] for controlling injection moulding machines, in particular plastic injection moulding machines or machines for producing prototypes and small series made of plastic or other plasticisable materials; scientific, photographic, optical, weighing, measuring, signalling, control apparatus and instruments; devices for recording, transmitting and reproducing sound and images; computer programs, in particular for industrial production and for production planning; computer programs for machines, in particular for operating and programming machines, for calculating piece times of machines; computer programs for operating control systems for industrial production and/or for operating equipment and programs for industrial production; interface software; computer interfaces; information

technology equipment and audiovisual equipment; data communication equipment; remote monitoring equipment; recording equipment; audiovisual equipment, equipment for processing digital signals; electrical remote control equipment; wireless radio transmission equipment; host computer systems [software], in particular for recording, exchanging and archiving data; data processing, data input and data output devices for use in connection with devices and controls for industrial production; information technology devices for the representation and acquisition of information, in particular mobile information technology devices for the representation and acquisition of information, for the operation, maintenance and programming of devices for industrial production, parts of the aforementioned goods; terminals for the collection, processing and transmission of data; data processing equipment delivering results in real time or otherwise; detection instruments; sensors and detectors; wireless transmitters and receivers; electronic positioning equipment; voice processing systems; computer software for automatic identification, network management and file transfer; supply chain management software; computer software for planning and monitoring machinery and business processes; software; apps; application software for use in implementing the Internet of Things; parts of the aforementioned goods; all of the aforementioned goods for injection moulding machines or injection moulding plants, in particular plastic injection moulding machines, and for use in a process for the additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling.

Class 17

Plastics for injection moulding; plastics as semi-finished products; plastic fibres, not for textile purposes; reprocessed plastic material for use in production; goods made of plastics or resins in extruded form for use in manufacturing processes; all of the aforementioned goods for use in or with injection moulding machines or injection moulding plants, in particular plastic injection moulding machines, and for use in a process for additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling.

Class 35

Presentation in communication media of and/or retail services with the following goods: injection moulding machines for processing plasticisable masses, in particular plastic injection moulding machines, machines for the production of prototypes and small series from plastic or other plasticisable materials, in particular in a process for the additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling, injection moulding plants comprising injection moulding machines for the production of injection moulded parts, in particular of plastic, accessories for, spare parts for and parts of the aforementioned goods; presentation in communication media of and/or retail services with the following goods: electronic control systems and computer-controlled numerical control systems, data processing, data input and data output devices for use in

connection with equipment and control systems for industrial production, information technology devices for the presentation and recording of information, in particular mobile information technology devices for displaying and collection of information, for the operation, maintenance and programming of industrial manufacturing equipment, parts of the aforementioned goods, programs for the industrial production and for production planning, computer programs, especially for industrial production and for production planning, computer programs for machines, in particular for the operation and programming of machines, the calculation of piece times of machines, computer programs for the operation of control systems for industrial production and/or for the operation of equipment and programs for industrial production, host computer systems (software), in particular for the collection, exchange and archiving of data; presentation of services in communication media, and services relating to the procurement of spare parts for others; procurement services for spare parts, including spare parts for repair of machines, machine accessories and machine control systems, and for repair of failed products or processes on machines, machine accessories and machine control systems for others; all of the above services for injection moulding machines or injection moulding systems, in particular plastic injection moulding machines, and for use in a process for additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling; services relating to the registration, transcription, writing, compilation or systematic arrangement of written communications and records, as well as the compilation of mathematical or statistical data; services relating to the registration, transcription, writing, compilation or systematic arrangement of written communications and records, as well as to the compilation of mathematical or statistical data; services provided by advertising agencies, as well as distribution of publicity brochures (directly or by post) or the distribution of samples of goods (product samples); all of the aforementioned services for injection moulding machines or injection moulding plants, in particular plastic injection moulding machines, and for use in a process for the additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling; presentation in communication media of and/or retail services with the following goods for use in injection moulding machines or injection moulding plants, in particular plastic injection moulding machines, and for use in a process for the additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling: chemical products for industrial purposes, adhesives for industrial purposes, chemical products for the manufacture of products, in particular building materials and supporting materials, plastics in their raw state in all their forms, plastics in powder form, plastics in bulk, plastics as raw materials, chemical additives for plastics, chemical additions for plastics, plastics in the form of granules, plastics in the form of foam; presentation in communication media of and/or retail services with the following goods for injection moulding machines or injection moulding plants, in particular plastic injection moulding machines, and for use in a process for the additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling: terminals for the acquisition, processing and transmission of

data, data processing equipment delivering results in real time or otherwise, detection instruments, sensors and detectors, wireless transmitters and receivers, electronic positioning equipment, voice processing systems, computer software for automatic identification, network management and file transfer, software for supply chain management, computer software for the planning and monitoring of machines and business processes, software, apps, application software for use in the implementation of the Internet of Things, parts of the aforementioned goods; presentation in communication media of and/or retail services with the following goods for use in or with injection moulding machines or injection moulding plants, in particular plastic injection moulding machines, and for use in a process for the additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling: plastics for injection moulding, plastics as semi-finished products, plastic fibres, not for textile purposes, recycled plastic material for use in production, goods made of plastics or resins in extruded form for use in manufacturing processes; presentation in communication media of and/or retail services with the following goods for use with injection moulding machines or injection moulding plants, in particular plastic injection moulding machines, and for use in a process for the additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling: materials, not of metal, for construction purposes.

Class 36

Hire purchase or lease purchase financing; insurance services, insurance brokerage services, administration services relating to the conclusion of insurance policies; all of the aforementioned services for injection moulding machines or injection moulding plants, in particular plastic injection moulding machines, and for use in a process for additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling.

Class 37

Consulting services relating to the maintenance and repair of machines; consulting services for fault detection and identification of spare parts [maintenance]; all of the aforementioned services for injection moulding machines or injection moulding plants, in particular plastic injection moulding machines, and for use in a process for additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling.

Class 40

Surface treatment and surface finishing in the nature of laser and heat treatment; treatment of plastics; 3D printing; plastic injection moulding; custom manufacture by direct metal laser sintering; custom manufacture of moulded components; sample production being custom manufacture for others; metal working, powder injection moulding in the manufacture of a substance or article, all the aforesaid excluding construction work; material treatment in the

form of cutting to size, trimming, polishing by grinding or coating with plastics; all of the aforementioned services for injection moulding machines or injection moulding plants, in particular plastic injection moulding machines, and for use in a process for additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling.

Class 42

Creation of programs for industrial production and for production planning, in particular for the production and production planning of machine and plant components; installation of updates of computer programs for machines, maintenance of and error correction in computer programs for machines; creation of programs for the operation of machines; development and hosting of a database for the provision of technical information with user examples, documentation, instructions for the operation of machines and computer programs for machines, computing and calculation schemes and media data; provision of technical reports and analysis relating to machine status and process data; prediction of maintenance and repair work [technical planning]; configuration of machines [calibration]; technical consulting services with regard to the operation and configuration of machines and the production process of products to be manufactured on machines; consulting services relating to the programming of machines; technical consulting services relating to machine documentation, machine life cycles and programs for the representation of products to be manufactured on machines; all of the aforementioned services for injection molding machines or injection molding plants, in particular plastic injection molding machines, and for use in a process for the additive three-dimensional shaping of objects, in particular stereolithography, rapid prototyping and rapid tooling; technological consultancy and engineering services in the field of injection moulding technology and the production of prototypes and small series in plastic or other plasticisable materials, in particular with regard to the application and use of the aforementioned goods indicated in Classes 7 and 9 of this international registration.

LIVEO RESEARCH

Goods and/or Services:

Class 16

Paper or cardboard packaging materials for the pharmaceutical industry; plastic materials for packaging; plastic sheets, films and bags for wrapping and packaging; plastic films used as packaging for food products; laminated plastic film packaging materials; laminated and film blister packs for packaging; packaging materials in the form of paper layers in a multi-

layer composite as a component of sealing films; plastic films for packaging used as a barrier against moisture and gases; single layer or multilayer paper-based film or film blister packaging; plastic packaging films for pharmaceutical products and ampoules; plastic film blister packaging for pharmaceutical and medical products.

Class 42

Scientific and technological services as well as research and design services relating thereto; research and development in the field of packaging for medicines; industrial research and industrial drawing; packaging design; design and development of computers and software; scientific laboratory services; quality control services; consultancy concerning the design and development of pharmaceutical packaging.

Priority Details:

Class Number: 05

Priority Date: 30/09/2020

Country/Territory: SWITZERLAND

Priority Application Number:

Goods and/or Services: All goods and/or services claimed in this class

Class Number: 16

Priority Date: 31/03/2020

Country/Territory: UNITED STATES OF AMERICA

Priority Application Number:

Goods and/or Services: single layer or multilayer polymer films for use in the preparation of packaging for consumer goods; single layer or multilayer polymer film, paper-based film or film blister packaging; polypropylene film for packaging.

Class Number: 16

Priority Date: 30/09/2020

Country/Territory: SWITZERLAND

Priority Application Number:

Goods and/or Services: packaging materials for the pharmaceutical industry; plastic materials for packaging; sheets, films and bags of plastic materials for wrapping and packaging; films used as packaging for food products; laminated plastic film packaging materials; film laminated blister packaging; paper capsules and all other packaging materials included in this class; protective films for blister packs and pharmaceutical packaging for ampoules.

Class Number: 17

Priority Date: 30/09/2020

Country/Territory: SWITZERLAND

Priority Application Number:

Goods and/or Services: packing, stopping and insulating materials; plastic film, other than for wrapping; pharmaceutical and medical blister packs; plastic films intended for use as laminates; layers of plastic for laminates; plastic in extruded form for industrial use; films for use as a barrier against moisture and gas; polypropylene film other than for packaging; shrink film for labels and soft capsules; foils of metal for insulating; multilayer aluminum sheets.

Class Number: 17

Priority Date: 31/03/2020

Country/Territory: UNITED STATES OF AMERICA

Priority Application Number:

Goods and/or Services: multilayer composite films and sheets made of polymer, film and paper layers, coated or non-coated, for use in the manufacturing industry; biodegradable polymer films for use in the manufacturing industry; stiff polymer films for use in the manufacture of credit cards, debit cards, customer cards and other similar cards; polymer coating films, coated and non-coated, for use in the manufacturing industry; rolls and sheets of polymer films for use in the manufacturing industry; transparent, translucent, opaque and colored polymer films for use in the manufacturing industry; printed films for the manufacturing industry.

Class Number: 42

Priority Date: 30/09/2020

Country/Territory: SWITZERLAND

Priority Application Number:

Goods and/or Services: scientific and technological services as well as research and design services relating thereto; research in the field of packaging for medicines; industrial research and industrial drawing; design and development of computers and software.

Class Number: 42

Priority Date: 31/03/2020

Country/Territory: UNITED STATES OF AMERICA

Priority Application Number:

Goods and/or Services: development in the field of packaging; packaging design; laboratory services; quality control services; consultancy concerning the design and development of pharmaceutical packaging.

Date of Protection in Singapore: 16 March 2021

Classes: 12

Goods and/or Services:

Class 12

Vehicles for locomotion by land, air, water or rail; undercarriages for vehicles; vehicle covers [shaped]; casters for trolleys [vehicles]; forklift trucks; remote control vehicles, other than toys; electric vehicles; cable transport apparatus and installations; handling carts.

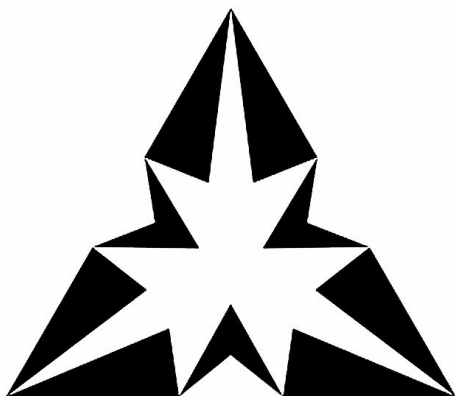

Mark Clause(s):

Registration of this mark shall give no right to the exclusive use of the words “We are partners”.

Applicant/Proprietor Details:

WAP Intelligence Storage Equipment (Shanghai) Corp., Ltd.
FLOOR 12, BUILDING 7,
NO. 7001, ZHONGCHUN ROAD,
MINHANG DISTRICT 201101 SHANGHAI CHINA

National Trade Mark No:	40202115749T
International Registration No:	1599780
Date of Protection in Singapore:	18 February 2021
Classes:	01 05 42

Goods and/or Services:

Class 01

Diagnostic preparations for scientific research; biological tissue cultures for scientific research; antibodies for scientific research; combinations of biological tissue cultures for scientific research; and combinations of antibodies for scientific research.

Class 05

Biologics for medical use, namely, biological preparations for the treatment or prophylaxis of cancer; biologics for medical use, namely, biological preparations for the treatment or prophylaxis of infectious diseases; pharmaceutical preparations, biologics and antibodies for the treatment of oncological, infectious disease, and immune system related diseases, disorders and conditions; diagnostic agents, preparations and substances for medical purposes; diagnostic kits consisting primarily of monoclonal antibodies, buffers, and reagents for use in disease testing; diagnostic preparations, biologics and antibodies for medical purposes, namely, for detecting the presence of malignant, inflammatory, infectious and autoimmune diseases, disorders and conditions in humans; diagnostic preparations for clinical use; biological tissue cultures for clinical use; antibodies for clinical use; combinations of biological tissue cultures for clinical use; and combinations of antibodies for clinical use.

Class 42

Biological and pharmaceutical research and development, in the field of cancer, infectious disease, and immunotherapy; research, design and development of diagnostic systems and products for predicting the response of patients to therapeutics; research, design and development of biologics; research, design and development of combinations of diagnostic systems and products for predicting the response of patients to therapeutics and biologics; molecular biology research for diagnostic preparations, biologics, combinations of diagnostic preparations and biologics, and diagnostic kits for scientific research use; scientific research in the field of cancer and infectious disease treatment and diagnosis; providing laboratory

research services in the field of cancer biology and infectious disease biology; testing, inspection, research and development of pharmaceutical preparations for cancer and infectious diseases; providing laboratory research services in the field of cancer biology and infectious diseases; research and development services in the field of antibodies; providing medical and scientific research information in the fields of cancer research, infectious disease research and disease classification; providing medical and scientific research information in the field of pharmaceuticals and clinical trials.

PIO

Goods and/or Services:

Class 06

Grids, frameworks and structures of metal or predominantly made of metal, namely, rails and rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval; bins, boxes and containers of metal or predominantly made of metal for storage and transportation of goods; metal hoisting straps; metal lifting rope for handling heavy loads; parts and fittings for all the aforementioned goods.

Class 07

Conveying machines, apparatus and installations; conveying machines, apparatus and installations, namely conveyors and roller conveyors for conveying goods for storage and retrieval, for use in warehousing and storage depots; electronically controlled machines for storage and retrieval of goods; electronically controlled machines, apparatus and

installations for use for storage and retrieval of goods, namely, automated warehouse storage and retrieval machines and systems comprised primarily of carts with lifting function and continuous tracks therefor, for repositioning storage bins or boxes from one location to another location; boxes and containers adapted for use with the aforementioned machines and apparatus; machine coupling and transmission components, except for land vehicles; conveying machines, apparatus and installations specifically designed for performing service, installation and maintenance; electronically controlled machines and robots for performing tasks and for use in electric installations and maintenance; lifts, other than ski lifts; mechanical hoists; robot lifting machine; parts and fittings for all the aforementioned goods.

Class 09

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; computers and computer peripheral devices; software; software applications; data processing apparatus and appliances, namely, data processing equipment for use in or in connection with computerized storage and retrieval machines, robots, apparatus, and instruments; computer software for operating, surveillance and controlling of conveying machines, roller conveyors, robots and apparatus for use for management of storage depots and warehouses; computer programs, software and software applications for management, controlling, surveillance and/or operation of storage depots and warehouses; computer programs, software and software applications for condition based maintenance and external surveillance and control of roller conveyors, robots and storage depots and warehouses; humanoid robots with artificial intelligence, namely, for operating, surveillance and controlling conveying machines, roller conveyors, robots and apparatus for use for management of storage depots and warehouses as well as management, controlling, surveillance and/or operation of storage depots and warehouses; humanoid robots with artificial intelligence, namely, for condition based maintenance and external surveillance and control of roller conveyors, robots and storage depots and warehouses; software for compiling and analyzing data; software for control, service, predictive maintenance and surveillance, related to computerized storage and retrieval machines, robots, apparatus, instruments, grids, frameworks and structures of metal or predominantly made of metal, including rail structures for conveying machines and roller conveyors for conveying goods for storage and retrieval, for use in warehousing.

Class 35

Advertising; business management assistance; business administration; office task services; administration of consumer loyalty programs; analysis of cost prices; business assistance; compilation of statistics for trade or commercial purposes; online retail services for cosmetics and beauty products, food, beverages, clothing and accessories; retail and

wholesale services, including online, of alcoholic beverages, clothing, footwear, headgear, mobile phones, furniture, food, toys, jewelery, computer programs, coffee, dairy products, seafood; retail sale and whole sale of grids, frames and structures of metal or mainly made of metal, including rail and rail structures for transport machinery and rolling or wheeled means of transport for use in the storage and retrieval of goods and boxes, containers and containers made of metal or mainly made of metal for storage and transport of goods; retail sale and whole sale of transport machinery, apparatus and installations and transport machinery, apparatus and installations, including conveyors and rolling or wheeled goods transport machinery and apparatus for use in storage and retrieval of goods and storage and retrieval machinery, apparatus and installations and dispatch and reception installations and units for all the aforesaid machines, apparatus and installations; retail sale and whole sale of electronically controlled machines and apparatus for use in storage and retrieval of goods and boxes and containers (parts and / or accessories) adjusted for use with the aforesaid machines, apparatus and installations; retail sale and whole sale of power transmission couplings and devices (except for land vehicles); retail sale and whole sale of transport machinery, apparatus and installations specially designed for service, installation and maintenance; retail sale and whole sale of electronically controlled machines, robots, apparatus and installations specially designed for service, installation and maintenance; retail sale and whole sale of lifts, other than ski lifts and mechanical lifts, and robot lifts; retail sale and whole sale of automated storage systems, storage systems and equipment for the aforesaid; retail sale and whole sale of software, software applications, data processing apparatus and equipment, namely, data processing equipment for use in or in connection with computerized storage and retrieval machines, robots, apparatus and instruments; retail sale and whole sale of computer software for the operation, monitoring and control of transport machinery, roller conveyors, robots and apparatus for use in the management of warehouse and storage depots and computer programs, software and software applications for the management, control, monitoring and / or operation of warehousing and storage and retrieval machines and computer programs; retail sale and whole sale of software and software applications for condition-based maintenance and remote monitoring and control of storage and retrieval machines, roller conveyors, robots, warehouses and storage depots; retail sale and whole sale of artificial intelligence humanoid robots, namely, for operation, monitoring and control of storage and retrieval machines, transport machines, roller conveyors, robots and apparatus for use in storage management and control, monitoring, monitoring and / or operation of storage depots and storage; retail sale and whole sale of artificial intelligence humanoid robots, namely, for condition-based maintenance and remote monitoring and control of storage and retrieval machines, roller conveyors, robots, warehouses and storage depots; retail sale and whole sale of control, service, predictive maintenance and monitoring software, relating to computerized storage and retrieval machines, robots, apparatus, instruments, grids, frames and constructions of metal or mainly made of metal, including rail structures for transport machines and rolling or wheeled means of transport for the transport of goods for storage and retrieval, for use in

warehouses.

Class 37

Providing information relating to the repair or maintenance of machinery and equipment in the field of conveying machines, apparatus and installations, including conveyors, roller conveyors, robots and apparatus for use in the storage and retrieval of goods, as well as storage and retrieval machines, apparatus and installations; providing information in connection with the repair or maintenance of grids, frames and structures of metal or predominantly made of metal, including rail and rail structures for conveying machines and roller conveyors for use in the storage and retrieval of goods and boxes, containers and containers made of metal or predominantly made of metal for the storage and transportation of goods; inspection prior to maintenance and repair for conveying machines, apparatus and installations, including conveyors and roller conveyors robots and apparatus for the use of storage and retrieval of goods and storage and retrieval machines, apparatus and installations; inspection prior to maintenance and repair for grids, frames and structures of metal or predominantly made of metal, including rail and rail structures for conveying machines and rolling conveyors for use in the storage and retrieval of goods as well as bins, boxes and containers of metal or predominantly made of metal for storage and transport of goods; installation, maintenance and repair of grids, frames and structures of metal or predominantly made of metal, including rail and rail structures for conveying machines and roller conveyors for use in the storage and retrieval of goods as well as bins, boxes and containers of metal or predominantly made of metal for storage and transport of goods; installation, maintenance and repair of conveying machines, apparatus and installations, including conveyors and roller conveyors, robots and apparatus for the use of storage and retrieval of goods and storage and retrieval machines, apparatus and installations; installation, maintenance and repair of robots, trolleys, wagons, crates, metal frames, structures of metal, robots for shipping, moving and transporting all kinds of goods, trolleys for use in shipping, moving and transporting all types of goods, boxes for use in storing and shipping, moving and transporting all types of goods.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; design and development of computer hardware and software, namely, for management, controlling, surveillance and/or operation of storage depots and warehouses as well as for service, condition based maintenance and external surveillance and control of roller conveyors, robots and storage depots and warehouses; software as a service [saas], namely for operating, surveillance and controlling of conveying machines, roller conveyors, robots and apparatus for use for management of storage depots and warehouses; platform as a service [paas]; design and development of computer hardware and software, namely, for

service, operating, surveillance and controlling conveying machines, roller conveyors, robots and apparatus for use for management of storage depots and warehouses; maintenance and consultancy services relating to software used in the field of e-commerce; installation, maintenance and repair of software for computer systems; technological consultancy in the field of storage depots and warehouse storing systems; cloud computing; providing temporary use of on-line nondownloadable operating software for accessing and using a cloud computing network.

Goods and/or Services:

Class 09

Computers; quantum computers; computer hardware and software; computer hardware and software for information technology analysis and data management; computer hardware and software for application development; computer hardware and software for cloud computing; computer hardware and software for cognitive computing; computer hardware and software for artificial intelligence; computer hardware and software for blockchain technology; computer hardware and software for quantum computing and quantum programming; computer hardware, namely, magnetic tape units (data processing), magnetic tapes, printed circuits, integrated circuits, computer keyboards, compact discs (audio-video), optical disks, couplers (data processing), floppy disks, magnetic data media; computer hardware, namely, video screens, scanners, computer printers, interface cards for

data processing apparatus, readers (data processing), microprocessors, modems, monitors (hardware), computers, computer memories, computer peripherals; computer adapters; computer components; data processing equipment; computer equipment for data and information management; semi-conductors; electronic data media that can be processed by machine; magnetic disks; hard disk drives; tape recorders; calculating machines; cash registers; facsimile machines; video recorders; videotapes; electric cells and electric batteries; computer chips; boards for integrated circuits; computer accessories, namely, computer communication servers; carrying cases for computers; interface cards for computers; computer cables and computer cable parts; fax modem cards for computers; computer accessories, namely, screen filters, computer mouse pads, pagers, computer control grips; computer mice; integrated circuit cards and smart cards, adapters for integrated circuits and adapters for smart cards; readers for integrated circuit cards and smart cards; microcomputers; electric power supply apparatus; projectors (projection apparatus); remote controllers for computers; inverters, surge protectors and uninterruptible power supplies; point-of-sale terminals; computer servers; computer storage devices, namely high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunication network; recorded and downloadable computer programs and software; video game software; operating system software and programs; software for accessing a global computer network; document management software; database management software; software for locating, recovering and receiving text, electronic documents, graphic illustrations and audiovisual information on company-scale internal computer networks and on local, wide-area and global computer networks; software for developing and software for designing websites and user manuals, in electronic format, sold as a set; computer software for controlling the operations and execution of computer systems, programs and computer networks; computer software for connecting disparate computer networks and systems, servers and storage devices; computer programs for linking computers together and for enabling computer activities across a global computer network; computer software for managing systems, software and processes existing within an information technology environment; computer systems combining computer hardware and software for use in the management and analysis of data and instruction manuals in electronic format sold with these products; cloud computing systems, namely networks integrating computer hardware and software for dynamic provisioning, virtualization and consumption metering of computer resources; downloadable and recorded cloud computing software for deploying and managing virtual machines on a cloud computing platform; computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which are capable of collecting, organizing and analyzing data; computer systems, namely computer hardware and computer software that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) functions and capable of understanding general human queries and formulating responses; software for

development, construction and operation of blockchain technology applications; computer hardware and computer software for developing and testing quantum algorithms; documentation and instruction manuals recorded on electronic data media that can be operated by machine and relating to computers or computer programs; electronic publications; electronic publications on computer media, namely, user manuals, guide books, brochures, information sheets, written presentations and teaching materials in the field of computing, computer networks, computer storage, computer operating systems, information technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing.

Class 35

Advertising; sales promotion services (for third parties); commercial business management and advice regarding commercial business management; business information; distribution of prospectuses; distribution of samples; arranging newspaper subscriptions for others; accounting; document reproduction; systematization of data in a central file; organization of exhibitions for commercial or advertising purposes; company management consulting services and commercial business consulting services; commercial business development service; market study statistic and data analysis; computer data processing services; computer data processing services for artificial intelligence; computer data processing services for cognitive computing; computer data processing services for cloud computing; computer data processing services for blockchain technology; computer data processing services for information management; computer data processing services for quantum computing and quantum programming; setting up and conducting commercial exhibitions in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management and electronic business transactions via a global computer network; business consulting services for companies regarding artificial intelligence; business consulting services for companies regarding computer systems that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) functions and capable of understanding general human queries and formulating responses; business consulting services for companies relating to cloud computing; business consulting services for companies regarding blockchain technology; business consulting services for companies regarding quantum computing, quantum programming and for developing and testing quantum algorithms; business consulting services for companies regarding information technology; analyzing and compiling business data; systemization of data in computer databases.

Class 37

Building construction; computer repair and installation services; computer hardware maintenance services; computer support services being installation, repair and maintenance of computers provided by computer specialists; computer support services provided by

computer specialists, namely maintenance of computer hardware; installation and maintenance of computer hardware for computer networks; technical support services, namely troubleshooting of computer hardware problems being maintenance and repair of computer hardware.

Class 38

Telecommunication services; electronic message transmission; communication by computer terminals; electronic mail services; telecommunication and electronic messaging services via computer networks; computer-aided transmission of data; telecommunication services enabling commercial interaction over a global computer network; provision of multiple-user telecommunication access to a global network for access to information, data, communications, content, goods and services; electronic transmission of data and documents via computer terminals; teleconferencing and web conferencing services; providing multiple access to global information networks for the transfer and dissemination of a wide range of information; providing access to online forums for transmission of messages among computer users; providing access to private and secured electronic communications in real time within a computer network.

Class 41

Education; entertainment; training; organization and conducting of conferences, seminars and congresses; organization of exhibitions for cultural or educational purposes; production of radio and television programs; sporting and cultural activities; educational services, namely organization and conducting of classes, seminars, conferences, webinars and workshops in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, image and audio processing technology, global computer and telecommunication networks; training in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, image and audio processing technology, global computer and telecommunication networks; conducting fun exhibitions in the form of information technology demonstrations; entertainment services, namely, online computer game services; conducting fun exhibitions, namely, sports competitions in real time via a global computer network; conducting fun exhibitions, namely, provision of demonstrations on websites featuring museum exhibitions, sporting events, art gallery exhibitions, concerts and musical recordings; publishing of books and newspapers; production of shows and films; conducting of exhibitions for cultural or educational purposes; booking of seats for shows.

Class 42

Computer programming; Software as a Service (SaaS) services featuring software for data management; Software as a Service (SaaS) services featuring software for cloud computing; Software as a Service (SaaS) services featuring software for artificial intelligence; Software as

a Service (SaaS) services featuring software for cognitive computing; Software as a service (SaaS) services featuring software for blockchain technology; Software as a Service (SaaS) services featuring software for quantum computing and quantum programming; Software as a Service (SaaS) services featuring software for constructing, analyzing and executing quantum programs and quantum algorithms; Software as a Service (SaaS) services featuring software for developing and testing quantum algorithms; computer programming and computer consulting services for artificial intelligence; computer programming and computer consulting services for cognitive computing; computer programming and computer consulting services for information management; computer programming and computer consulting services for data management; computer programming and computer consulting services for cloud computing; computer programming and computer consulting services for blockchain technology; computer programming and computer consulting services for quantum computing; computer programming and computer consulting services for software as a service (SaaS); design, installation, updating and maintenance of software; design of computer software and hardware for third parties and consulting services in the field of computers; technical support services, namely, solving problems with computer software and programs; computer services, namely, design, creation and maintenance of websites for third parties; analysis of computer systems, integration of computer networks and databases, computer programming for third parties, all relating to commercial interactions on global computer networks; design of computer and software interconnection systems, namely, electronic interconnection of computers and software; testing of computer programs (software) and hardware (quality control and technical control); technical project studies in the field of computer hardware and software; computer consulting in connection with computer hardware, namely consulting in computer research and development; computer advice and assistance concerning Internet use; rental of computers and software; scientific and industrial research, namely research and development of new products, biological research, bacteriological research, chemical research, cosmetology research, mechanical research, geological research, technical research, pharmaceutical research, scientific research for medical purposes; information technology services; computer system integration services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for third parties; technical support services, namely, diagnosing problems with computer hardware and computer programs; computer system design services for third parties; design of systems for interconnection of computer hardware and software, namely, integration of computer systems and networks; computer software and hardware testing services, namely, testing of computer software, computers and servers to assure proper functioning; cloud computing services provided via network integrated computer hardware and software services for dynamic provisioning, virtualization, and consumption metering of computer resources; providing virtual computer systems and virtual computer environments through cloud computing; design and development of computer software for cloud storage of data;

cloud computing hosting provider services; electronic data storage and data recovery services; data security service.
