General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Class 02

Optical coatings.

Class 04

Fuel propellants for use in rocket motors.

Class 06

Metal ball mats and ball mats comprised primarily of metal for use in cargo loading spaces of aerospace vehicles; roller tracks for loading cargo; metal couplings and manifolds for aerospace construction; metallic seals for gas turbine engines.

Class 07

Impact machines for breaching concrete; rocket motors for use in spacecraft and missiles, structural parts therefor and controls sold as a unit; aircraft jet and marine engines and replacement and structural parts therefor; electric roller devices, namely, roller conveyors used to transport and place portable storage containers; power winches and lifts and hoists for aerospace vehicles; cargo winches; aerospace vehicle parts, namely, transmissions; turbine power systems comprised of a hot gas turbine and a pump for auxiliary and hydraulic power not for land vehicles; ram air turbines not for land vehicles; hydromechanical actuators for aircraft flight controls; air cycle machines and water separators for aircraft; fuel pumps for rocket engines and replacement parts and controls sold as a unit; stationary machine tools, namely, electric duplicating machines for following the contour of an object and or automatically duplicating the same or shaping a work piece in accordance therewith; electric vibratory drilling and/or abrading machines for applying vibration to an object to remove portions of said object or another object therefrom; generators of electricity, namely, wind-powered electricity generators and hydroelectric generators; machine cylinder; engine starters; couplings and belts transmission for machines (except for vehicles); machines for vulcanization of tires; compressors for machines involved in temperature control; industrial machines, namely, electric motors; resistance welding machines; machine parts, namely, dust filters; valves, namely, hydraulic and pneumatic valves being parts of machines for aircraft and spacecraft construction and gas turbine engines; hydraulic and pneumatic valves as machine components; valves for pumps; exhaust nozzles for gas turbine engines, not for land vehicles; metal hydraulic and pneumatic valves for aerospace construction; vacuum generators for aircraft toilets; elevators for aircrafts.

Class 09

Aerospace vehicle sensors; photo-electric cells; military computer mobile systems comprised of computer central processing units and displays; active and passive countermeasure equipment comprising signal transmitters and receivers, and computer central processing units for generating communication data for aircraft and vehicles; electronic data communicators for aircraft and vehicles; electronic transmitters for jamming signals for aircraft and ground vehicles; aerials, namely, radio aerials and satellite aerials; laser perimeter awareness systems comprised of lasers, optical receivers and associated

controls; aerospace ice detectors; aerospace sensors for monitoring angle of sideslip, gas path engine pressure, current-to-heater system interruptions, brake temperatures, air data, altitude, pitot pressure, static pressure, angle of attack, temperature, engine exhaust, inlet pressure, engine temperature, fuel and oil temperature, navigation; aerospace sensors for flight crew safety and security; air traffic control systems comprised of radio equipment, radar transmitters and receivers, global positioning systems, and computer central processing units for image display and analysis; radar transmitters, detectors, receivers; global positioning systems; aircraft navigation and landing systems, namely, automatic direction finders, radio altimeters, distance measuring equipment, global position sensors, navigation receivers, multimode receivers, VHF omni-directional range marker beacon receivers; aerospace communication systems comprised of receivers and transmitters, and computer central processing units for processing communication information; aircraft interior products, namely, emergency oxygen systems for aircraft passengers and flight crews comprised of oxygen masks not for medical use, chemical oxygen generators, empty oxygen storage vessels, gas pressure regulators, oxygen distribution circuits and controls, and protective breathing equipment being oxygen breathing units; aircraft navigation and landing systems comprised of high frequency signal transmitters and receivers, global positioning units and central computer processing units for image display and analysis; aircraft alarm systems comprised of sensors, sound emitting devices and circuitry for aircraft; ally or enemy identification systems comprised of signal transmitters and receivers, data processing equipment for signal identification, coding and decoding of signals, and hardware and downloadable software to process images and sound; antenna tuning apparatus; microwave communications transmitter; battery accumulators; optical fiber; downloadable analysis software for computer software and computer networks; modulators for wireless networks and cellular communication and monolithic microwave integrated circuits; space suits; antennas; downloadable computer programs for the management of battlefields; computerized aircraft engine analyzers; fuel controllers; avionics systems for aircraft and aerospace vehicles consisting of communication and navigation hardware for use in airborne applications comprising computer hardware, software and displays for communications and navigation for aircraft and aerospace vehicles and for head-up display guidance systems, namely, flight situational awareness; batteries; battery eliminators; cabin pressure control systems comprised of cabin pressure controller, control panel, pressure relief valve, outflow valve and structural and replacement parts therefor; calculating machines; data processing equipment and computers; cameras; climate and weather monitoring and forecasting systems comprised of radar transmitters and receivers and computer central processing units for processing climate and weather data; climate control systems for aerospace vehicles consisting of thermostats, air conditioning, heating, ventilation and drying control devices; climatological surveillance systems comprised of radar transmitters and receivers; collective radio communication apparatus for ships, aircraft, vehicles; portable communications equipment, namely, modems, receivers, transceivers for use in air-to-ground secure communication networks; wireless appliances downloadable computer

software for tracking, or disturbing / confusing communication; digital information downloadable computer software for securing storage and use of the computer; global positioning system (GPS); missile launch systems comprising downloadable software for analyzing a target's location and actuating warheads, motors and propulsion systems for deploying warheads, and warheads for destroying targets; communications computers and systems for aircraft, namely, receivers, transmitters, amplifiers, transceivers, jammers, couplers, audio distribution units, satellite communication units, automatic control computer central processing unit for gas turbine engines, radar and GPS systems used for the transmission of interrogation signals and the reception of response signals, and downloadable software for analyzing such signals to enable communication between aircraft; electric compensating cables; computer hardware for telecommunications; downloadable computer programs for military surveillance; downloadable computer programs for organizing and viewing digital images and photos; downloadable computer programs for analyzing computer software and networks; downloadable computer programs for wireless content transfer; downloadable computer programs for integrated bridge control systems; downloadable computer software used in oxygen delivery systems for aircraft; downloadable software for military mobile computers; computerized condition analyzers for life support equipment; computers; electric motor speed and direction controls; electronic controls for engines for aerospace vehicles; electronic throttle controllers; electronic brake monitoring controls and fuel controls for aerospace vehicles; electrical and electronic controls, namely, electro-hydraulic transducers and electrical sensors and replacement parts therefor; data collection and data processing systems comprised of computer central processing units and antennas for military information; deep ocean control systems comprised of sonar; gyroscopes for maritime use; oceanic depth finding systems comprised of pressure sensors, temperature sensors and computer processing unit for signal analysis and image display; digital weapon system interface device for tactical training; echo sounders; electric power distribution units, power supplies, power switches and power distribution and generation sensors for power generation and power distribution for aerospace vehicles; electric power distribution systems comprised of automatic power management apparatus, solid state power controllers and secondary power distribution assemblies; electric power distribution unit for aircraft; electrical circuits; electronic compass for navigation; emergency signal transmitters; weapons locators, namely, acoustic detection and computer-based signal processing unit for sensing and determining the location of weapon detonation; fire extinguishers; laser warning receivers for use in detecting, analyzing and locating the direction of laser; optical communication instruments and components, namely, optical and digital transmitters and receivers; satellite connection systems comprising downloadable security-enhanced software establishing secure connections between ground stations and satellites; satellite navigation devices, namely, GPS receivers for communicating with GPS satellites, and downloadable anti-jamming software providing uninterrupted signal communications; satellite receiver; military training systems, namely, battlefield and flight simulation; submarine surveillance systems, namely,

radar systems used for detection, imaging and classification of underwater submarines; thermal imaging sensors and equipment, namely, sensors for detecting infrared radiation to enable vision in darkness, dust or inclement weather, and sensors used for imaging, targeting and tracking of guided missiles; torpedo components and systems, namely, power supply, namely, batteries, electronic controls, electronic sensors, electronic navigational and positioning apparatus; undersea surveillance systems, namely, systems comprised of hydrophones, optical telemetry devices, and computer central processing unit for image display and analysis; optical telemetry devices for image display and analysis; wireless communications devices for recording, organizing, transmitting, receiving, manipulating, and reviewing voice, text, data, image, and audio files; digital forensics, namely, electronic aircraft integrated data acquisition units for collecting, integrating and recording data for monitoring, diagnosing and prognosticating aircraft subsystems, overall aircraft performance and performance of the aircraft crew; downloadable software for predictive analysis concerning maintenance and repair of individual aircraft engines and fleets of aircraft engines using operational data downloadable computer software for cybersecurity; video modulators; video tape recorders; compass systems, namely, gyroscopes; global positioning systems; imaging and targeting systems for military vehicles and weapon systems comprised of radar transmitters and receivers, and computer central processing unit for image display and analysis; ground-based radar sensors; infrared sensors and infrared sensing systems comprised of infrared transmitters and detectors, optical lenses, video monitors, and computer central processing unit for image display and analysis; thermal vision systems for vehicles comprised of signal transmitters and detectors, cameras, and computer central processing unit for image display and analysis; radar systems comprised of antennas and computer central processing unit; weapon locating systems comprising electro-optical sensors, radar transmitters and receivers, and computer central processing unit for image display and analysis; laser warning systems comprised of laser sensors, computer central processing unit for sensor signal analysis, and alarms; remote sensing and surveillance instruments for aircraft and space applications comprised of satellite receivers and transmitters, optical sensors, spectral filters, and computer central processing unit for image display and analysis; active and passive countermeasure equipment comprising signal transmitters and receivers, and computer central processing unit for generating communication data for aircraft and vehicles; mobile military computer systems comprised of computer central processing unit and displays; satellite communication systems comprised of satellite receivers and transmitters, and computer central processing unit for processing communication information; sonar systems comprised of sonar transducers, and computer central processing unit for sonar signal analysis and image display; undersea surveillance systems comprised of hydrophones, optical telemetry devices, and computer central processing unit for image display and analysis; global positioning systems; air traffic control systems comprised of radar transmitters and receivers, global positioning systems, and computer central processing unit for image display and analysis; aircraft navigation and landing systems comprised of high frequency

signal transmitters and receivers, global positioning systems, and computer central processing unit for image display and analysis; aircraft communication systems comprised of high frequency signal transmitters and receivers, and computer central processing unit for generating communication information; multi-party radio communication systems comprised of radio frequency signal transmitters and receivers, and computer central processing unit for analyzing and modulating frequency signals; roadway toll collection systems comprised of signal transmitters and receivers, cameras, video recorders, and computer central processing unit for performing toll collection; roadway vehicle tracking systems comprised of signal transmitters and receivers, cameras, video recorders, and computer central processing unit for processing and tracking vehicle license plates; identification of friend or foe systems comprised of signal transmitters and receivers, and computer central processing unit for performing signal encryption and decryption; environmental weather and climatological surveillance monitoring and forecasting systems comprised of radar transmitters and receivers, and computer central processing unit for signal analysis and image display; military intelligence data gathering and processing systems comprised of radar transmitters and receivers, and computer central processing unit for signal analysis; wireless network systems comprised of wireless modems and satellite communication receivers and transmitters; integrated circuit systems; oceanic depth finding systems comprised of pressure sensors, temperature sensors, and computer central processing unit for signal analysis and image display; electronic compasses for maritime use; transformers; power supplies; and electronic modulators for wireless networks and cellular communications equipment; monolithic microwave integrated circuits; computer hardware; downloadable computer software, namely, downloadable software for the creation of firewalls; downloadable software for security analytics; downloadable software for use by security analysts to facilitate the search and analysis of data related to cyber and real-world threats; downloadable software for network security, load balancing, and routing; downloadable software for web, hardware, network, computer and internet security; downloadable software for monitoring and/or controlling access to sites and locations on a global computer network; downloadable software that enables safe, secure and simultaneous data movement within and between computer networks; downloadable software that enables, controls and audits sharing of information across computer networks; downloadable software that enables users to enable and control access to computers, computer networks, data, documents and other software applications with multiple and differing access criteria; downloadable software that provides users with simultaneous access to multiple computer networks; downloadable computer software for security and protection, namely, downloadable software for providing web security and protection, providing e-mail messaging security and protection, and for data loss prevention; downloadable computer software for the security and protection of data, networks and communications; downloadable software for analyzing radar system inputs and directing interception of missiles; telecommunications apparatus, namely, radio transmitters, transceivers, and audio-frequency amplifiers; radio monitoring apparatus, namely, monitors

for monitoring radio current and signals; electronic flight control surface actuators; machine, engine or motor control device, namely, electronic engine controls and full authority digital engine controls for aerospace vehicles; battery chargers, electric transformers, and electronic discharge tubes other than for lighting; lights specifically made for protective tactical vests; missile defense systems, namely, radar systems detecting and analyzing incoming missiles and artillery launchers to deploy interceptors to destroy incoming missiles; automatic distribution machines, namely, electrical power distribution units; electronic fluid control valves for gas turbine engines and temperature and pressure sensors for gas turbine engines automatic valves; auxiliary power units for supplying electrical power other than for land vehicles; electronic controllers for toilet valves.

Class 11

Electric lamps; lights for aircraft; lights for aerospace vehicles; aircraft interior products, namely, environmental control equipment in the nature of air cooling apparatus, heat exchangers not being parts of machines, cold plates in the nature of heat sinks for cooling electronic equipment; aircraft interior products, namely, food preparation structures, appliances and equipment in the nature of galley heating and cooling appliances, beverage makers, and galley chillers; electric food and beverage equipment for airplane galleys, namely, coffee makers, water boilers, cooking and warming ovens, refrigerators and freezers, hot water dispensers, beverage dispensers, hot beverage makers, and food and beverage heating units; aircraft toilets and associated systems and components, namely, toilet bowls, toilet seats, toilet frames, toilet flush valves, toilet rinse valves, electronic controllers for toilet valves, vacuum generators, wastewater storage tanks, and wastewater pipes and pipe fittings, sold together as a unit; aircraft interior products, namely, lavatory compartments sold equipped with sanitary facilities in the nature of toilets and sinks; aircraft interior products, namely, aircraft potable water and vacuum waste systems comprised of lavatory compartments, toilets, sinks, plumbing fittings in the nature of valves and couplings and plumbing fixtures in the nature of sinks, sink traps and faucets; aircraft vacuum waste system consisting of a lavatory and waste holding tank.

Class 12

Aircraft and structural parts for aircrafts, namely, seats, brakes, wing, tail, rudder, aileron, and stabilizers, engine bay doors, water tanks, chassis and enclosures; unmanned aircraft; aviation fuel truck joint; aircraft landing gear; aircraft; aircraft propellers and structural parts for aircraft propellers.

Class 13

Missiles, namely, cruise missiles, pyrotechnic missiles, ballistic missiles, guided missiles, ship-to-air missiles; firearms; ammunition and projectiles; explosives; fire flare; fireworks; torpedoes; weapons scopes and sights.

Class 17

Rubber seals for aircrafts and gas turbine engines; weather stripping compositions, packing and insulation in the nature of non-metal weather strips for use in aircrafts.

Class 35

Business management and operations consulting and advisory services; business consulting services in the field of cybersecurity; business consulting services in the field of data security.

Class 37

Aerospace vehicle maintenance, repair and overhaul; maintenance, repair, and servicing of pumps, blowers, and compressors; installation of complex electronic equipment and systems.

Class 38

Emergency and disaster communications services via telephone, wireless network and satellite; aeronautical communications services via telephone, wireless network and satellite; teleprocessing; railroad telecommunications via telephone, wireless network and satellite; satellite communications services; aeronautical air-ground-air-radio service.

Class 39

Providing travel information from an online computer database and an online interactive map.

Class 41

Training in servicing and repair of aircraft and systems and components, in use of electronic equipment/systems, pumps, blowers, and compressors; training on how to operate unmanned aircraft; training in the field of chemical and biological incident response; training of first responders on use of unmanned aerial vehicle equipment and distribution of service manuals and video materials therewith; training in the use of complex electronic equipment and systems.

Class 42

Engineering and computer programming services for aircraft and aerospace vehicles, parts and components; aircraft product development; providing weather and meteorological information; providing Internet search engine services for retrieving data; research consultation services; engineering research services; engineering services; engineering counselling; providing online, non downloadable software to protect users from cyber intrusions; cybersecurity services in the nature of preventing unauthorized computer access; cybersecurity services; providing temporary use of non-downloadable computer software, namely, software for the creation of firewalls, software for security analytics, software for use by security analysts to facilitate the search and analysis of data related to cyber and real world threats, software for network security, load balancing, and routing, software for web,

hardware, network, computer and internet security, software for monitoring and/or controlling access to sites and locations on a global computer network, software that enables safe, secure and simultaneous data movement within and between computer networks, software that enables, controls and audits sharing of information across computer networks, software that enables users to enable and control access to computers, computer networks, data, documents and other software applications with multiple and differing access criteria, and software that provides users with simultaneous access to multiple computer networks; providing temporary use of non-downloadable computer software for security and protection, namely, software for use in maintaining and monitoring web security, data security and e-mail security; software as a service (SaaS) services, namely, hosting cloud and data center infrastructure software for use by others in relation to security and protection computer software; cloud computing services featuring computer software for use in security and protection; providing online non-downloadable computer software services for the security and protection of data, networks, and communications.

Class 45

Airport security control services for persons and luggage.

Tire deflation warning devices; electronic devices for monitoring and diagnosis of tires; tire electronic surveillance system for providing information on the operational parameters of vehicle tires; electronic apparatus for transmission of information and/or data on pressure and temperature of vehicle tires; sensors and detectors; time recording apparatus; fuel cells; fuel cell components and systems for electric, fixed or mobile generators; chargers for electric batteries for vehicles; electric current rectifiers; electric converters and inverters, voltage regulators for vehicles; computer programs and software for querying databases; media for processing, storage of information and data for computers and peripheral apparatus for computers; software and applications for mobile devices; software, databases and computer hardware for vehicle, trailer and tire management; downloadable software and applications for mobile devices for navigation via Global Positioning System [GPS]; social interactive software for the exchange of information between users relating to navigation, meteorology, transport, traffic, travel, restaurants, service stations, parking lots, resting places and vehicle maintenance and repair centers; Global Positioning System [GPS] navigation devices; software and applications for mobile devices especially for the on-line calculation of road itineraries, route planning to follow in all types of vehicles and on foot; downloadable software and applications for mobile devices especially for managing information relating to tourism, transport, traffic, travel, restaurants, service stations, car parks, rest areas and vehicle maintenance and repair centers; downloadable software and applications for mobile devices notably for enabling the provision of information and advice in the field of tourism, transport, travel, traffic, restaurants, service stations, car parks, rest

areas and vehicle maintenance and repair centers; downloadable software and applications for mobile devices for on-line assistance systems in the preparation and planning of travel, travel itineraries and tours; application development software; computer databases in the field of road itineraries, transport and traffic, travel, tourism, restaurant services, service stations, car parks, rest areas and vehicle maintenance and repair centers; computer programs for accessing, browsing and searching databases online; software for website design, creation, publication and hosting; database servers in the field of information concerning traffic, transport, travel, tourism and restaurant services, service stations, car parks, rest areas and vehicle maintenance and repair centers; downloadable electronic publications provided on-line from databases in the field of road itineraries, transport and traffic, travel, tourism, restaurant services, service stations, car parks, rest areas and vehicle maintenance and repair of centers; books, magazines, periodicals, newsletters, newspapers, reviews and other downloadable electronic publications; jump start cables; pressure gauges; clothing for protection against fire; ear plugs for diving; safety gloves for protection against accidents or injury; vehicle breakdown warning triangles; protective helmets, reflectors for clothing, divers' masks, spectacles (optics) and sunglasses; spectacle cases; binoculars; diaries and personal digital assistants, cameras, video game programs; calculator, mouse pads, USB key; USB chargers; USB cables; computer mice; emergency batteries; smart watches; printers; sleeves for laptops; bags designed for laptop computers; telephone accessories, namely covers, casings, facings, wrist straps or neck straps, arm bands for portable telephones; headsets for telephones; bags and cases for mobile telephones; antennas; amplifiers; anti-theft warning apparatus; Chips (integrated circuits); computer memory devices; data processing apparatus; optical disks; laptop computers; magnetic tape units; microprocessors; modems; radiotelephony sets; distance measuring equipment; apparatuses for the storage and transmission of messages and data concerning the position of vehicles; transponders; global positioning systems; mobile communication systems; computer systems incorporating logistics software for vehicles; filters and filter parts of fluorinated plastic and thermoplastic, all these products adapted for use with semiconductor apparatuses and instruments; filters and filter parts of fluoroplastic and thermoplastic, all these products being adapted to scientific apparatuses and instruments; accessories, indicators, probes, high precision machined components adapted for use with semiconductor apparatuses and instruments; batteries and fastening devices, all adapted to scientific apparatuses and instruments; targeting components, antenna housings, radar domes intended for the aerospace industry; computer software used for the management and monitoring of conveyor belts and transport systems; electronically downloaded software and data used for the management and monitoring of conveyor belts and transport systems; devices for reading, recording, storing and transmitting electronically stored data; electronic apparatuses used for computerized inventory control; electronic apparatuses used for electronic inventory keeping.

Class 12

Pneumatic tires for vehicle wheels; inner tubes for pneumatic tires; treads for retreading tires; tracks for tracked vehicles; suspensions, axles, springs, shock absorbers, anti-vibration devices for vehicles, elastic crawler tracks for land vehicles; protection flaps for pneumatic tires; wheels, anti-skid spikes and studs for tires; adhesive rubber parts and patches for repairing tubes or tires; air pumps and their accessories; tire valves; tyre repair outfits; vehicle wheel rims; anti-skid chains for tires; mudguards; luggage carriers for vehicles; safety seats for children, for vehicles; saddles for two-wheeled vehicles and tricycles; anti-theft devices for vehicles; anti-theft devices for vehicles; bags for two-wheeled vehicles and tricycles; strollers for children; tire inflators; windshield wiper blade; bicycle carriers for automobiles; ski carriers for automobiles; covers for tires; covers for bicycles; hub caps for wheels; bicycle handlebar grips; water bottle holders for bicycles; covers for vehicle steering wheels; seat covers for vehicles; shaped mats for vehicles; workshop trolleys [carts]; sun shades for vehicles.

Class 16

Paper; cardboard; printed matter; newspapers; prospectuses; pamphlets; magazines and periodicals; books; albums; road and tourist maps; tourism and travel guides; bookbinding material; photographs; stationery; adhesive materials (stationery); paintbrushes; typewriters and office requisites (other than furniture); instructional and teaching material (other than apparatus); pens; writing instruments; cases for pens and pencils (not of precious metal or coated therewith); cases for road and tourist maps and tourist guides; calendars; paperweights; notebooks, directories; diaries (planners); almanacs; posters; desk mats; notepads; plastic or paper bags for household purposes; stickers; vehicle stickers; stickers for tires.

Class 17

Semi-processed polymer resins; semi-finished or semi-processed glass-reinforced resins; elastomeric polymers; semi-processed or unprocessed natural or synthetic rubber; latex [rubber], gum, asbestos, mica; rubber and plastics in extruded form intended for manufacturing; insulating and anti-vibration tapes; rubber sheets; hose pipes made of rubber; rubber thread not for textile use; gutta-percha; raw or semi-processed elastic gum, balata and substitutes therefor; sheets, plates and rods of plastic (semi-finished goods); materials for packing, stopping and insulating; flexible pipes not of metal; carbon fibers; glass fibers for insulation; mineral wool [insulator]; composite materials of carbon fibers; composite materials of glass fibers for insulation; composite materials of mineral wool [insulator]; insulation fibers; composite materials of aramid and silicone in the nature of sheets, panels, tubes and boards for fire protection; fire resistant seals, sheets, strips and profiles; hose pipes and tubes of rubber and plastic; semi-processed thermoplastic polymers, namely filaments, resins, granules and powders, for use in three-dimensional printing; seals and sealant products; seals made of elastomers, plastics and thermoplastics used for retaining or separating liquids and gases by means of pumps, compressors and valves;

plastic materials (semi-finished); plastics for use in manufacturing, namely plastics in extruded form, plastics in sintered form, plastic in powder form, plastics in granule form; products of fluoroplastic and thermoplastic, namely rods, hose tubes and membranes [semi-finished]; insulating waterproof membranes for use in manufacture of other products; semi-manufactured thermoplastic elastomers in the forms of rings and rods; semi-processed products of plastic; filling materials for expansion joints of fluoroplastic; semi-processed rolled products of thermoplastic.

Class 21

Glassware for domestic use; porcelain and earthenware; tableware [dishes]; cutlery holders; brushes; bottle openers, bottle openers; portable household containers, water bottles for cyclists and other sportsmen, utensils and containers for household and kitchen use (not made of precious metal, or coated therewith and non-electric), non-electric portable coolers, tableware not made of precious metal, thermally insulated household containers.

Class 25

Clothing, sportswear, underwear, windbreakers, tracksuits, raincoats, tank tops, parkas, ponchos, anoraks, fleeces, shirts, sports shirts, blouses, polo shirts, tee-shirts, sweatshirts, pullovers, vests, trousers, dresses, skirts, pareos, shorts, Bermuda shorts, bathing suits, pajamas, costumes, bathing cap, jackets, suit jackets, smocks, aprons, belts (clothing), braces, gloves (clothing), gloves for cyclists, neckties, head foulards, bandannas, scarves, headbands (clothing), ear muffs, hats, berets, beanies, shawls, caps, visors and other headgear, socks, ankle socks, work overalls; boots, half-boots, sandals, footwear and sports shoes, slippers and other footwear; shoe soles.

Class 42

Technological information and advice related to tire management, namely the choice, maintenance, repair, retreading, replacement and pressure monitoring of vehicle fleet tires; expertise services [engineering work] relating to the selection, condition, servicing and/or repair of tires, spare parts and accessories for vehicles; technical advice and information with respect to software for locating vehicles and trailers; testing and quality control of tires and inner tubes; architectural design services for business premises for the tire trade; development, design, maintenance, editing and providing temporary use of web-based software, mobile applications, database software and websites; provision of search engines for enabling the procurement of information via a communication network; design of software for the compilation and retrieval of information regarding vehicle location, route reconstruction, driver activities; updating of the aforementioned software; creation of databases containing information with respect to traffic and travel; evaluations and assessments in the fields of science and technology provided by engineers; scientific and technological research; research and development of new products for third parties; technical project studies; providing technical studies, expertise, assistance in the design and

development of projects for the construction of machines for additive manufacturing, of objects and/or spare parts with a view to their manufacturing by means of additive manufacturing; software design, development and installation services; technical studies and research related to waste treatment; scientific analysis, surveying, research, assistance in the design and development of composite materials of carbon fiber, glass fibers and textile fibers and of machines for manufacturing; safety evaluation of transport systems and belts and their tapes; preparing technical reports and providing quality and safety assessment and technological advice with respect to transport systems and belts and their tapes.

Class 43

Information and advisory services with respect to culinary, gastronomic, restaurant and hotel matters, and to the provision of food products and alcoholic and non-alcoholic drinks; hotel and restaurant reservation services; provision of information and/or data relating to culinary, gastronomic, restaurant and hotel matters.

Fuels; fuel mixtures; fuels derived from hydrogen or predominantly consisting of hydrogen; fuels derived from hydrogen, or predominantly consisting of hydrogen, produced by renewable energy sources; fuels derived from ammonia or predominantly derived from ammonia; fuels derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; energy derived from ammonia or predominantly derived from ammonia; energy derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; fuel and energy derived from direct ammonia conversion, namely combustion or direct ammonia fuel cells; fuel and energy derived from indirect ammonia conversion, namely, hydrogen vector; hydrocarbon gas liquids [HGL] for use as fuel; hydrocarbon fuels; solid, liquid and gaseous fuels; electricity; electrical energy; carbon materials for use as fuels, lubricating graphite or synthetic graphite; graphite as a fuel; liquid fuel; vaporised fuel mixtures; solid fuels; solid oxygen fuel; non-chemical additives for fuels; gaseous fuels; gas mixtures; liquid gases; dissolved gases; combustible gases; natural gas; solidified gas (fuel); synthetic gas (fuel); gases for use as illuminants; fuels and gases for heating and lighting purposes; fuels and gases for automobiles; illuminants and illuminating materials; biofuel; biogas; combustible fuels and gases; renewable energy, namely, solar energy, wind energy and geothermal energy; liquefied gases, other than for medical use.

Class 35

Business services; business administration; business management; business advice and assistance; business consultancy; business analysis; compilation and analysis of statistical information; advertising; marketing; retailing and wholesaling; retailing and wholesaling of hydrogen; retailing and wholesaling of hydrogen produced by renewable energy sources; retailing and wholesaling of ammonia; retailing and wholesaling of ammonia produced by renewable energy sources; retailing and wholesaling of fuels and energy derived from ammonia or predominantly derived from ammonia; retailing and wholesaling of fuels and

energy derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; retailing and wholesaling of renewable energy, namely, solar energy, wind energy and geothermal energy; market surveys; compiling research and statistical data; computerised online ordering services; office functions; cost price analysis; public relations; import-export agency services; procurement services for others; sales promotion for others; computerised stock ordering and control services; computerised file management; foreign trade consultancy; operation of loyalty programs; personnel management; business project management services; business project management services for construction projects; business project management services for ammonia, hydrogen, hydro electrical and solar power systems and plant construction; business information; procurement services for others (purchasing goods and services for other businesses); providing business information via a web site; business and administrative management of utility networks; business and administrative management services relating to the production of energy, solar energy, renewable energy, ammonia, hydrogen, electricity, gas, fuel and water; business and administrative management of hydrogen production and generation plants; business and administrative management of solar power plants; business and administrative management of ammonia production and generation plants; business and administrative management of fuel and energy, production and generation plants; the bringing together, for the benefit of others, of a variety of hydrogen, hydrogen goods, ammonia, ammonia goods, fuel and fuel goods, energy and energy goods, renewable energy and renewable energy goods, enabling customers to conveniently view and purchase those goods; information, advisory and consultancy services in relation to the aforesaid services.

Class 39

Transport; transport by rail, air, land, road, sea and pipeline; packaging and storage of goods; transportation, transmission, storage, supply, distribution and delivery of hydrogen; transportation, transmission, storage, supply, distribution and delivery of hydrogen produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of ammonia; transportation, transmission, storage, supply, distribution and delivery of ammonia produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of fuel; transportation, transmission, storage, supply, distribution and delivery of fuel derived from ammonia or predominantly derived from ammonia, including ammonia produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of energy derived from ammonia or predominantly derived from ammonia, including ammonia produced by renewable energy sources; transportation, transmission, storage, supply and distribution of renewable energy, namely, solar energy, wind energy and geothermal energy; transportation, transmission, storage, supply, distribution and delivery of energy including ammonia energy, hydrogen energy, solar energy, renewable energy, electricity, gas, natural gas, fuel, graphite and/or other hydrocarbon energy; transmission, storage, distribution and supply of electricity; electricity supply services;

storage, transportation, transmission and distribution of ammonia energy and hydrogen energy from production facilities services to end users through pipelines and by transport distribution services; storage, transportation and distribution of water; warehousing services; logistics services consisting of the storage and transport of goods; information, advisory and consultancy services in relation to the aforesaid services.

Class 40

Production and generation of energy; production and generation of hydrogen; production and generation of hydrogen produced by renewable energy sources; production and generation of ammonia; production and generation of ammonia produced by renewable energy sources; production and generation of fuel and energy for others, derived from ammonia or predominantly derived from ammonia; production and generation of solar energy, renewable energy, ammonia energy, hydrogen energy, electricity, gas, water energy and natural gas energy; production and generation of renewable energy, namely, solar energy, wind energy and geothermal energy; processing, separation and fractionating liquids from natural gas; water treatment services; production of gas and electricity and treatment of water via operation of utility networks; electricity generation; production of electricity; electricity generation by power plants; gas processing and treatment; gas processing services; processing and conversion of energy, ammonia, hydrogen, gas and fuels; processing and conversion of fuels and energy; processing and conversion of energy generated from renewable sources; waste water treatment services; water treatment facilities; treatment of materials; heat treatment services; recycling services; recycling of chemicals, batteries, materials, waste and industrial goods; carbon offsetting services (recycling); energy recycling services; operation of hydrogen production and generation plants; operation of solar power plants; custom manufacture of products, equipment, installations and systems associated with energy production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with hydrogen production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with hydrogen produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of hydrogen made by renewable energy sources; operation of ammonia production and generation plants; custom manufacture of products, equipment, installations and systems associated with ammonia production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with ammonia produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of ammonia, made by renewable energy sources; operation of fuel and energy production and generation plants; custom manufacture of products, equipment, installations and systems associated with fuel and energy production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with fuel and energy produced by ammonia and renewable energy sources;

custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of fuel and energy; information, advisory and consultancy services in relation to the aforesaid services.
