General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

enerlytics

Goods and/or Services:

Class 09

Interfaces for computers; computer programs, downloadable; computer programs, recorded; computer software; downloadable software applications; electronic catalogues and search engines to enable searching of data; computer software and computing systems for monitoring, organizing, maintaining, risk assessing and managing, optimizing, technically assessing and administering energy production plants; computer programs and computing systems for collecting, systemizing, analyzing and evaluating data; computer programs and computing systems, namely, digital platforms for generating and providing of customized analytical solutions to customers in connection with energy generating assets and technologies, in particular advance condition monitoring.

Class 35

Business investigations; commercial information agency services; providing customer product information via the Internet; consumer advice services; preparation of expert business evaluations and business reports, business risk assessments, economic forecasting and preparation of business statistics; arranging of business contracts for others, in particular via e-commerce and via the Internet; arranging of business contracts for others, for the provision of business services, in particular via e-commerce and via the Internet; presentation of business services in a computer database with interactive access and direct ordering option; online business services provided via a computer network relating to preparation and provision of customized business analytical solutions to customers in connection with energy generating assets and technologies, in particular advance condition monitoring; database services, namely collection, updating and systematization of data in

local, regional, national and international computer networks; computerized data management; customer and subscriber support services [customer service management]; market analysis.

Class 38

Providing access to an online-portal enabling remote access and evaluation of technical, commercial and scientific data via the Internet; providing access to an online-portal enabling remote access to instruments and apparatus for the collection, systematization, analyzation and evaluation of data; providing online access to software, data, images and audio and video information; network operator and provider services, namely, rental of access to computer databases; services in relation to providing users access to an online platform that offers solutions for emerging or existing issues with regards to the operation, maintenance, optimization and risk assessment of energy generating assets and technologies on the basis of pre-collected and analyzed data; online services, namely providing access to an Internet platform for accessing collected and systematized data; network operator and provider services, namely leasing of access time to computer databases; services with regards to providing access to an online platform that allows its users a remote evaluation and analysis of data as well as the development customer-specific solutions.

Class 42

Hosting of databases; computer services, namely, storage of software, data, images and audio and video information; providing Internet search engines to collect data; preparation of technical reports (catalogues) containing engineering data, information and knowledge; computer software design and development, in particular software as a service (saas), also in the form of a digital platform enabling remote access to pre-collected data in order to enhance the early detection and solution of existing and emerging technical issues with regards to the operation, maintenance, optimization and risk assessment of energy production plants, the optimization of costs resulting therein, as well as the optimization of administration and centralization of technical data for analytical purposes to improve the energy efficiency, performance and the comfort during handling and operating energy production plants, for example via remote access; design and development of computer software, in particular software as a service (saas), also in the form of a digital platform for providing analytical solutions to customers in connection with energy generating assets and technologies, in particular advance condition monitoring; design and development of computer software, in particular software as a service (saas), for collecting, systemizing, analyzing and evaluating data; development of data processing programs; rental of computer software; design of computer software; services of an Internet agency, namely design, processing, care and maintenance of Internet websites; design of homepages, websites, multimedia and online presences; internet services, namely providing memory space; technological maintenance of online presences; development and maintenance of systems accessible via computer networks for administrating and centralizing technical data

in connection with energy production plants for analytical purposes to improve their energy efficiency, risk optimisation, marketability, performance and the comfort while operating energy production plants, for example via remote access, as well as to enable customer service related thereto; administration of websites with customized or user-specific information, text and data; services with regards to the audit of the usage of computing system and their associated resources as well as to the audit of information needs of third parties, namely, energy auditing; industrial analysis and research services; environmental analysis; preparation of technical reports; technical analysis, assessment and evaluation of all relevant costs of production plants and assets in planning, construction, operation or maintenance-phase of their lifecycle, for plant optimization or risk assessment; technical analysis and evaluation of technical structures and data with regards to comfort, function, life cycle, reliability, operational safety, power demand and operational characteristics performed via recording, simulation optimization of the aforesaid technical structures and data; evaluation of measured data, in particular technical measured data; scientific and technical research in databases and via the internet for science and research; hosting of servers; computer services with regards to customized websites with user-defined information and personal profiles and information; provision of an internet platform granting interactive access for procurement of goods and services; technical and technological consultancy (except business consultancy) in the field of energy saving and energy efficiency.

ANTYLIA SCIENTIFIC

Goods and/or Services:

Class 01

Chemicals, namely, buffer and standard solutions used in analytical chemistry; reagents for scientific and research use; chemical preservatives for use in the environmental testing field, being sold as a unit with sample containers.

Class 07

Pumps, namely, peristaltic, diaphragm, dispensing, centrifugal, filling, piston, rotary piston,

syringe, and bellows metering pumps, positive displacement pumps, peristaltic pumps, roller pumps, diaphragm pumps, microfluidic pumps, centrifugal pumps, gear pumps, hose pumps, single-use pumps, flexible liner pumps, magnetic levitation pumps, lobe pumps, rotary vane pumps, quaternary diaphragm pumps, oscillating pumps, bellows pumps, nutating disc pumps, and progressive cavity pumps; component parts for pumps, namely, pump heads, pump drives, fittings, connectors, gaskets, calibration columns, and valves; parts of fluid transfer assemblies [machines], namely, tubing, connectors, clamps, filters, capsule filters, and containers; filters for pumps, namely, filter membranes and filter papers, being parts of pumps.

Class 09

Scientific and electrical apparatuses and weighing, measuring, monitoring and process control instruments all in the nature of laboratory equipment, namely, bottles, dishes, vials, tubes, measuring glassware, flask for laboratory use, beakers, cylinders, tubing, connectors, clamps, fluid leak detectors, fluid leak sensors, funnels, gloves for laboratory use, filters, pressure gauges, sensors for measuring liquid levels, sensors for measuring gas levels, sensors for measuring pressure, flow controllers, level switches, level indicators, sampling containers, rubber septums, desiccators, homogenizers, cuvettes for laboratory use, calibration devices for thermometers, calibration devices for laboratory evaporators, calibration devices for rotators, calibration devices for scales and balances, digital pH meters and temperature indicators, electrochemical oxygen monitors and sensors for laboratory use, sensors for measuring pH, sensors for measuring dissolved oxygen content in laboratory samples, sensors for measuring conductivity, spectrophotometers for use in identifying and measuring colors, fluorimeters, dissolved oxygen meters for laboratory use, chromatography apparatus for laboratory use, portable and bench dissolved oxygen meters for laboratory use, conductivity meters, portable and bench conductivity meters, conductivity cells in the nature of electrical conductivity sensors, photometers for laboratory use, flame photometers, pH meters, portable and bench pH meters, pH meter components in the nature of pH electrodes, combined pH and conductivity meters, colorimeters, humidity meters, flowmeters for measuring gas, air, and water for industrial or laboratory use, digital and thermocouple thermometers, thermocouple probes, thermistor probes, resistance temperature device (RTD) probes, thermocouple meters, infrared temperature measuring devices, luxometers, instruments for testing gas, liquids, and solids, instruments for measuring properties of light, instruments for measuring pressure, pressure meters, carbon dioxide meters, manometers, barometers, tachometers, instruments for measuring rotational speed of objects in the fields of science, calibration, research, quality control, industry, manufacturing and maintenance of equipment, meters for measuring sound level, weather stations comprised of thermometers and barometers, instruments and equipment for measuring weather conditions, including temperature, barometric pressure, humidity, wind speed, wind direction and precipitation, udometers, pluviometers, ombrometers, instruments for measuring magnitude of precipitation, stroboscopes, accelerometers,

instruments for measuring vibration, timers, countdown timers, micrometers, instruments for measuring small distances or dimensions, protractors, durometers, instruments for measuring hardness in polymers, elastomers and rubbers, tools for measuring the amount of torque applied to fasteners, gauges for measuring thickness of coatings, thickness gauges, gauges for measuring torque or force, torque gauges, hydrometers, refractometers, thermal imaging and displace devices, temperature transmitters and panel meters, temperature data logger and recorders, thermostats and other temperature switches, instruments for measuring total dissolved solids, pipettes and tips therefor, pipettors, pipets for laboratory use, electric motor driven stirrers and mixers primarily for laboratory use, count-down timers, water baths, thermal immersion circulators, calibration baths, cell culture stirrers, stirrers, ovens, incubators, furnaces, nucleic acid sequencing instruments, DNA analysis instruments, vortex mixers, mixers incubators, flask shakers, rollers, roller mixers, rockers, platform rockers and rockers providing a gyratory motion, orbital shaker incubators, temperature controlled shaking water baths, orbital shakers and reciprocating shakers and platforms therefor, equipment for measuring the melting points of products, handheld tally counters, colony counters and digital counters for measuring bacteria and mold colonies, water, air, and histological baths, apparatus for Soxhlet and Kjeldahl tests, solid phase extraction (SPE) cartridges for laboratory use, testing sample collection equipment, namely, swabs for use in diagnostic testing, air monitoring, sampling, and testing devices, namely, indoor and outdoor air quality sampling cassettes, digestion vessels for determining metal content in samples for environmental testing purposes, test tubes, specimen cups not for medical purposes, electronic controllers for laboratory apparatus, pyrometers and energy regulators for control of such apparatus and equipment; downloadable computer software for mobile phones and mobile computing devices, namely, software for controlling, measuring, monitoring, and evaluating laboratory measuring instruments and laboratory equipment from a remote location; downloadable computer software for mobile phones and mobile computing devices, namely, software for accessing, storing, retrieving, and measuring data; downloadable cloud-based software for controlling, measuring, monitoring, and evaluating laboratory measuring instruments and laboratory equipment; downloadable cloud-based software for accessing, storing, and retrieving measurement data.

Class 14

Stopwatches.

Class 17

Non-metal tubing and hoses for use with fluid pumps for moving liquids and gases.

Class 35

Distributorships in the field of scientific and electrical apparatus and weighing, measuring, monitoring and process control instruments.

Class 42

Calibration services in the field of scientific equipment and instrumentation used for research; providing a website featuring technology that allows users to control, measure, monitor, and evaluate laboratory measuring instruments and laboratory equipment from a remote location; providing a website featuring technology that allows users to access, store, and retrieve measurement data; providing on-line non-downloadable software for controlling, measuring, monitoring, and evaluating laboratory measuring instruments and laboratory equipment; providing on-line non-downloadable software for accessing, storing, and retrieving measurement data.

TERLET

Goods and/or Services:

Class 07

Machines and apparatus for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, and parts and fittings for the aforesaid machines and apparatus, included in this class; machines and apparatus for the paint and lacquer, the ceramic, chemical, pharmaceutical, cosmetic, textile and rubber industries, and for use for chemical and/or biological reactions and powder processing; machines and apparatus for processing and treating, in particular for peeling, comminuting, cutting, chopping, crushing, pureeing, milling, separating, breaking, stirring, mixing, blending, kneading, beating, conching, homogenising, negative and positive pressure treating, aerating, dispersing, emulsifying and preparing of foodstuffs, and parts and fittings of the aforesaid machines and apparatus, included in this class; machines and apparatus for processing and treating, in particular for peeling, comminuting, cutting, chopping, crushing, pureeing, milling, separating, breaking, stirring, mixing, blending, kneading, beating, conching, homogenising, negative and positive pressure treating, aerating, dispersing, emulsifying and preparing of cosmetic, pharmaceutical and chemical bases, intermediates and end products, and parts and fittings for the aforesaid machines and apparatus, included in this class; installations, consisting of machines for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products; feeding machines, dispensing machines, spraying machines, bottling machines, filling machines, industrial centrifugal decanting machines, mechanical settling machines, mechanical

insertion machines for inserting parts or goods into predetermined places, mechanical relocating machines for relocating parts or goods to predetermined places, packing machines, pumps, mills, filtering machines, separators and centrifuges, included in this class; butchers' machines, namely, meat and sausage processing machines and meat and sausage slicing machines, bakers' and confectioners' machines, namely, confectionery making machines, machines for the bread and baking industries, namely, cutting machines for bread and baked goods, machines for the fish industry, namely, fish and seafood processing machines and fish and seafood slicing machines as well as machines for flaking dried fish meat and fish paste, machines for producing delicatessen goods, namely, meat and fish chopper [machines], meat and fish processing machines as well as sausage and paste making machines, machines for producing ready-to-eat, fast-food, prepared and semi-prepared dishes from foodstuffs and meals; machines for dairy farming, machines for making confectionery and chocolate for confectionery and chocolate industry; machines for producing prepared foodstuffs, namely, machines for processing foodstuffs and electric food processors; machines for producing sauces, pastes, creams and spices; chemical processing machines for use in relation to cosmetics, pharmacy and chemistry, and parts and fittings for the aforesaid machines, included in this class, machines for producing sauces, pastes, creams and spices, and machines for use in relation to cosmetics, pharmacy and chemistry, and parts and fittings for the aforesaid machines, included in this class; electromechanical machines and apparatus for the preparation of foodstuffs and beverages for industrial kitchens and mass catering, included in this class; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; heat exchangers (parts of machines); valves [parts of machines]; machine tools and tools therefor; grinding machines, corundum stone mills, toothed colloid mills, perforated disc mills, vacuum pumps [machines], apparatus for mixing liquid and paste substances for the food, pharmaceutical and cosmetic industries; mills and mechanical equipment for preparing pastes and/or liquids, including salves, creams and lotion, in particular for the cosmetic and pharmaceutical industries; mechanical apparatus for mixing and/or emulsifying pastes; parts and functional combined groups of the aforesaid goods; machines, namely process installations for the production of emulsions in the cosmetics, pharmaceutical, chemical and food industries; machines, namely process installations for the production of suspensions in the cosmetics and pharmaceutical industries; machines, namely vacuum process installations for the production of emulsions and suspensions; apparatus for preparing liquid or paste substances, including ointments, creams, lotion, sauces, in particular for the cosmetic, pharmaceutical, chemical and food industries; mixing, emulsifying and homogenising apparatus, included in this class; apparatus for homogenising and deaerating liquid and paste material for the food, pharmaceutical and cosmetic industries; mechanical apparatus for homogenising paste substances.

Class 11

Warming, heating, cooking, refrigerating and freezing machines and apparatus for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, and parts and fittings for the aforesaid machines and apparatus, included in this class; installations, consisting of machines for warming, heating, cooking, refrigerating and freezing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products; warming, heating, cooking, refrigerating and freezing machines and apparatus for meat and sausage production, meat and sausage processing, vegetable processing, fruit processing, cereal processing, processing milk goods, pastry and confectionery production, bread and baked goods production, fish processing and parts and fittings for the aforesaid machines and apparatus, included in this class; warming, heating, cooking, refrigerating and freezing machines and apparatus for production of ready-to-eat, fast-food, prepared and semi-prepared dishes of food, dishes and meals, and delicatessen goods, confectionery and chocolate production, and parts and fittings for the aforesaid machines and apparatus, included in this class; warming, heating, cooking, refrigerating and freezing machines and apparatus for food production, production of sauces, pastes, creams and spices, and production of cosmetics, pharmaceuticals and chemicals, and parts and fittings for the aforesaid machines and apparatus, included in this class; electric ovens for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, and parts and fittings for the aforesaid machines and apparatus, included in this class; air conditioning apparatus and installations for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, and parts and fittings for the aforesaid machines and apparatus, included in this class; apparatus and equipment for cooking, heating, cooling and treatment of foodstuffs and beverages, included in this class; sterilisers and sterilizing installations; drying apparatus and installations; pasteurising apparatus and installations; steam generating apparatus; burners; installations for humidifying; microwave ovens; heat exchangers, other than parts of machines; heat accumulators; heat accumulators; heat regenerators; heating apparatus and heat regenerators; cooling elements; coils for cooling; cooling evaporators; heat sinks for refrigerating apparatus, ventilating apparatus and heating apparatus; electric fans with evaporative cooling devices, not for automobile engines; commercial refrigeration units; industrial cooling installations; cooling tanks for furnaces; apparatus and installations for cooling gases and liquids; separators for removing condensation by refrigeration; refrigerating machines; refrigerant condensers (parts of refrigerating machines); lighting installations, equipment, devices and lamps; computerised lighting installations, devices and apparatus; filters and colour filters for lighting; louvres for light deflection; diffusers being parts of lighting installations; reflectors for luminaires; suspension rails [not electrified] for electrical lighting fixtures; vacuum installations and systems for air extraction; continual scrape cooler for toothed colloid mills and dosing pumps, namely, continuously working

scraping apparatus and equipment for cooling toothed colloid mills and dosing pumps; parts and fittings of the aforesaid goods.

SOFREL NEO

Goods and/or Services:

Class 09

Electric and electronic devices for the control and management of energy and water

networks; remote control and software package (recorded computer program); remote monitoring software; information transmission software; software for measuring, counting, calculating; software for centralizing and using information; geo-tracking software; processors [central processing units]; computer programs [downloadable software]; recorded computer operating system programs; detectors; sensors; detection devices for the control and management of water and energy networks; testing apparatus not for medical use; electric control units for the management and monitoring of water and energy networks; diagnostic apparatus not for medical use; level indicators, water and/or energy level indicators; electric loss indicators; pressure measuring apparatus; slope indicators; temperature indicators; quantity indicators; vacuum gauges; electric measuring apparatus; measuring instruments; remote data collection apparatus; data recording apparatus; data transmission and/or reception apparatus; devices for the reception and/or transmission of warning signals; data encryption apparatus; data processing apparatus; real-time data processing apparatus; data exchange devices; media containing data; data storage media; computer memory hardware; apparatus and instruments for inspecting installations; level-measuring apparatus and instruments; pressure gauges; apparatus for calculating information; electric and electronic monitoring and/or remote monitoring apparatus; alarms; electric regulating apparatus; alarm signalling receivers; wireless transmitters and receivers; mobile data receivers; optical receivers; electrical receivers; transmitters (telecommunications); transmitters (telecommunications); electric installations for the remote control of installations; computer servers; cloud servers; network servers; Internet servers; electronic display board; touch display board; signaling apparatus and instruments except those using pyrotechnic means; electronic-control signaling panels; light or mechanical signs (except those using pyrotechnic means).

Class 38

Provision of access to databases; digital file and/or message reception and/or transmission services; communication by computer terminals; communication of data via computer terminals; radio communications; communications by telegrams; telephone communications; satellite communications; communications by fiber-optic networks; electronic messaging; voice messaging services; message transmission services; satellite transmission; digital file transmissions; provision of access to databases.

Class 42

Software consultancy; software installation, maintenance and/or updating; design and/or development of computer software; consulting in the field of remote control software; installation, maintenance, and/or updating of remote control software; recovery of data and/or documents from physical to electronic media; conversion of documents and/or data other than physical conversion; data security and hosting; electronic data storage; hosting of servers; cloud computing network; remote assistance relating to software; rental of computer software; Web server rental; programming for computers; monitoring of

computer systems by remote access; computer system analysis; design of computer systems in the field of remote monitoring, surveillance; consulting relating to the design and development of computers; software consultancy; advice related to energy saving; quality control; conversion of computer programs and data, other than physical conversion; conversion of data or documents from physical to electronic media; duplication of computer programs; software development [design]; technical project study; surveying [engineering work]; hosting of computer sites [Web sites]; software installation; rental of computer software; rental of web servers; maintenance of computer software; updating of software; programming for computers; computer data recovery; monitoring of computer systems by remote access; research and development of new products for third parties; development of mechanical, electronic, and mechatronic products for third parties; technical research; advice related to energy saving; hosting of servers; data hosting; quality control, namely qualification and certification of products and equipment; signalling, security and measurement software installation, servicing, maintenance and repair services.

Classes: 09 42

ID WAVE

Goods and/or Services:

Class 09

Downloadable software to receive, issue, accept, exchange, transmit, store, manage, secure, control, encrypt, decrypt, share, and verify digital credentials, digital tokens, digital payments, digital identity information and data, digital representations of qualifications, digital representations of certifications, digital representations of memberships, and digital representations of entitlements; downloadable software for verification of personal identification, secure authentication, digital identification, fraud prevention, identity verification, user onboarding, passwordless login, single-sign-on across multiple platforms, cryptographic and other forms of key management services, agency management services, credential issuing, and verification services on behalf of others; downloadable blockchain software; downloadable distributed ledger technology (DLT) software; downloadable software to consolidate and manage social networks, accounts and connections to existing and emerging application programming interfaces (APIs) including APIs to biometric use cases; parts, fittings, and accessories for the aforementioned.

Class 42

Cloud software as a service being the provision of non-downloadable software to receive,

issue, accept, exchange, transmit, store, manage, secure, control, encrypt, decrypt, share, and verify digital credentials, digital tokens, digital payments, digital identity information and data, digital representations of qualifications, digital representations of certifications, digital representations of memberships, and digital representations of entitlements; cloud software as a service being the provision of non-downloadable software for verification of personal identification, secure authentication, digital identification, fraud prevention, identity verification, user onboarding, passwordless login, single-sign-on across multiple platforms, cryptographic and other forms of key management services, agency management services, credential issuing, and verification services on behalf of others; cloud software as a service being the provision of non-downloadable software to consolidate and manage social networks, accounts and connections to existing and emerging application programming interfaces (APIs) including APIs to biometric use cases; cloud software as a service being the provision of non-downloadable blockchain software; cloud software as a service being the provision of non-downloadable distributed ledger technology (DLT) software; software as a service (SaaS) to receive, issue, accept, exchange, transmit, store, manage, secure, control, encrypt, decrypt, share, and verify digital credentials, digital tokens, digital payments, digital identity information and data, digital representations of qualifications, digital representations of certifications, digital representations of memberships, and digital representations of entitlements; software as a service (SaaS) for verification of personal identification, secure authentication, digital identification, fraud prevention, identity verification, user onboarding, passwordless login, single-sign-on across multiple platforms, cryptographic and other forms of key management services, agency management services, credential issuing, and verification services on behalf of others; software as a service (SaaS) to consolidate and manage social networks, accounts and connections to existing and emerging application programming interfaces (APIs) including APIs to biometric use cases; software as a service (SaaS) being the provision of non-downloadable blockchain software; software as a service (SaaS) being the provision of non-downloadable distributed ledger technology (DLT) software; hosting of software to receive, issue, accept, exchange, transmit, store, manage, secure, control, encrypt, decrypt, share, and verify digital credentials, digital tokens, digital payments, digital identity information and data, digital representations of qualifications, digital representations of certifications, digital representations of memberships, and digital representations of entitlements; platform as a service (PaaS) to receive, issue, accept, exchange, transmit, store, manage, secure, control, encrypt, decrypt, share, and verify digital credentials, digital tokens, digital payments, digital identity information and data, digital representations of qualifications, digital representations of certifications, digital representations of memberships, and digital representations of entitlements; platform as a service (PaaS) for verification of personal identification, secure authentication, digital identification, fraud prevention, identity verification, user onboarding, passwordless login, single-sign-on across multiple platforms, cryptographic and other forms of key management services, agency management services, credential issuing, and verification services on behalf of others; platform as a service (PaaS) to consolidate and

manage social networks, accounts and connections to existing and emerging application programming interfaces (APIs) including APIs to biometric use cases; platform as a service (PaaS) being the provision of non-downloadable blockchain software; platform as a service (PaaS) being the provision of non-downloadable distributed ledger technology (DLT) software; hosting of software for verification of personal identification, secure authentication, digital identification, fraud prevention, identity verification, user onboarding, passwordless login, single-sign-on across multiple platforms, cryptographic and other forms of key management services, agency management services, credential issuing, and verification services on behalf of others; hosting of software to consolidate and manage social networks, accounts and connections to existing and emerging application programming interfaces (APIs) including APIs to biometric use cases; hosting of blockchain software; hosting of distributed ledger technology (DLT) software; rental and leasing of software to receive, issue, accept, exchange, transmit, store, manage, secure, control, encrypt, decrypt, share, and verify digital credentials, digital tokens, digital payments, digital identity information and data, digital representations of qualifications, digital representations of certifications, digital representations of memberships, and digital representations of entitlements; rental and leasing of software for verification of personal identification, secure authentication, digital identification, fraud prevention, identity verification, user onboarding, passwordless login, single-sign-on across multiple platforms, cryptographic and other forms of key management services, agency management services, credential issuing, and verification services on behalf of others; rental and leasing of software to consolidate and manage social networks, accounts and connections to existing and emerging application programming interfaces (APIs) including APIs to biometric use cases; rental and leasing of blockchain software; rental and leasing of distributed ledger technology (DLT) software; development, support, repair, programming, coding, design, maintenance, integration, and installation, of software; development, support, repair, programming, coding, design, maintenance, integration, and installation, of software to receive, issue, accept, exchange, transmit, store, manage, secure, control, encrypt, decrypt, share, and verify digital credentials, digital tokens, digital payments, digital identity information and data, digital representations of qualifications, digital representations of certifications, digital representations of memberships, and digital representations of entitlements; development, support, repair, programming, coding, design, maintenance, integration, and installation, of software for verification of personal identification, secure authentication, digital identification, fraud prevention, identity verification, user onboarding, passwordless login, single-sign-on across multiple platforms, cryptographic and other forms of key management services, agency management services, credential issuing, and verification services on behalf of others; development, support, repair, programming, coding, design, maintenance, integration, and installation, of software to consolidate and manage social networks, accounts and connections to existing and emerging application programming interfaces (APIs) including APIs to biometric use cases; development, support, repair, programming, coding, design, maintenance, integration, and installation, of

blockchain software; development, support, repair, programming, coding, design, maintenance, and installation, of distributed ledger technology (DLT) software; verification of personal identification [computer]; computer and internet security consultancy services; integration of computer systems and networks; advice, consultancy, and information relating to the aforesaid.

SINGAPORE 902143

National Trade Mark No: 40202124672U

International Registration No: 1618431

Date of Protection in Singapore: 11 March 2021

Classes: 04 07 09 37 40 42 44

Goods and/or Services:

Class 04

Electrical energy from renewable sources; electrical energy from solar power; electrical energy from wind power; electrical energy from wave, tidal and water power.

Class 07

Hydroelectric systems for generation of electricity, namely hydroelectric electricity generators for use in water power plants, fluid flow power plants, tidal power plants, wave power plants as well as parts and components thereof included in this class; electricity generators and electricity generator systems; turbines, rotors, turbine impellers, turbine blades and rotor blades for fluid flow machines, tidal power plants and wave power plants; hydrodynamic screws; controllable pitch mechanism being part of a machine, consisting of couplings, sliders, mechanical shafts, passive adaptive blades and control motors, for the pitch adjustments of rotors [not for land vehicles], turbine impellers [not for land vehicles], turbine blades [not for land vehicles] or rotor blades [not for land vehicles]; motors and generators for the generation of electricity; machine parts of motors [not for land vehicles], gear boxes [not for land vehicles], generators [not for land vehicles], turbines [not for land vehicles], rotors [not for land vehicles] and dynamos [not for land vehicles]; uninterrupted power supply apparatuses [machines] for the generation of electric energy; drive trains [not for land vehicles] for generators, machines and motors and parts of such drive trains; mechanical bearings and hubs [power transmission apparatus for machines].

Class 09

Electronic and electric controls, computer hardware and software for controlling water, fluid flow, tidal, wind, wave, solar, geothermal energy and solar heat power plant; electronic and electric controls, computer hardware and software for controlling power generation means and systems; electronic and electric controls, computer hardware and software for controlling electricity generators and electricity generator systems; electronic and electric controls, computer hardware and software for controlling turbines, rotors, turbine impellers, turbine blades and rotor blades for fluid flow, tidal, wave power plants; energy controller, apparatuses and instruments for the switching, transformation, storage, control and conduction of energy; photovoltaic solar modules; solar cell boards; solar battery charging apparatuses; solar cells, solar batteries for industrial purposes; solar collectors for the power generation; monitoring and controlling apparatus and systems consisting thereof for condition, operation and performance of water, fluid flow, tidal, wind, wave, solar, geothermal energy and solar heat power plants, comprising computer software, computer hardware, sensors, transmitters and receivers; monitoring and controlling apparatus and systems consisting thereof for condition, operation and performance of power generation means and systems, including electricity generators and electricity generator systems, comprising computer software, computer hardware, sensors, transmitters and receivers;

monitoring and controlling apparatus and systems consisting thereof for condition, operation and performance of turbines, rotors, turbine impellers, turbine blades and rotor blades for fluid flow, tidal and wave power plants, comprising computer software, computer hardware, sensors, transmitters and receivers; computer hardware and software for use with monitoring and controlling equipment of water, fluid flow, tidal, wave, wind, wave, solar, geothermal energy and solar heat power plants, for receiving, storing, processing, transmitting and displaying data; computer hardware and software for use with monitoring and controlling equipment of power generation means and systems, including electricity generators and electricity generator systems, for receiving, storing, processing, transmitting and displaying data; computer hardware and software for use with monitoring and controlling equipment of turbines, rotors, turbine impellers, turbine blades and rotor blades for fluid flow and tidal power plants, for receiving, storing, processing, transmitting and displaying data; computer hardware and software for monitoring and controlling the condition, operation and performance of water, fluid flow, tidal, wind, solar, geothermal energy and solar heat power plants, on site and remote; computer hardware and software for monitoring and controlling power generation means and systems, including electricity generators and electricity generator systems, on site and remote; computer hardware and software for monitoring and controlling turbines, rotors, turbine impellers, turbine blades and rotor blades for fluid flow and tidal power plants, on site and remote; error recording and storing devices for recording and storing data resulting from monitoring and controlling the condition, operation and performance of water, fluid flow, tidal, wind, wave, solar, geothermal energy and solar heat power plants, power generation means and systems, electricity generators and electricity generator systems, turbines, rotors, turbine impellers, turbine blades and rotor blades for fluid flow and tidal power plants; electric and electronic sensors for measuring data for monitoring and controlling the condition, operation and performance of water, fluid flow, tidal, wave, wind, solar, geothermal energy and solar heat power plants, power generation means and systems, electricity generators and electricity generator, turbines, rotors, turbine impellers, turbine blades and rotor blades for fluid flow and tidal power plants; vibration sensors; electric sensors; industrial calibration sensors; fluid level sensors; optical sensors; photoelectric sensors; pressure sensors; proximity sensors; sensors for the determination of temperatures, positions, distances, velocity and acceleration; timing sensors; ultrasonic sensors; security equipment for water, fluid flow, tidal, wind, solar, geothermal energy and solar heat power plants, power generation means and systems, electricity generators and electricity generator systems, turbines, rotors, turbine impellers, turbine blades and rotor blades for fluid flow, wave and tidal power plants, namely security sensors and cameras; environment monitoring system, comprising counters and sensors measuring pressure, water flow, humidity and temperature; nautical sensor and navigation systems for positioning, setting, aligning, controlling, securing and tracing fluid flow, wave and tidal power plants; frequency inverters; frequency converters; electric transformers; current converters; power supply converters; power supply filters; inverters for power supply devices; anodes; housings for electronic and electrical controls, control

modules, apparatuses, circuitry, switches and measurement devices; watertight housings for electronic and electrical controls, control modules, apparatuses, circuitry, switches and measurement devices; pressure-resistant housings for electronic and electrical controls, control modules, apparatuses, circuitry, switches and measurement devices; power supplies for electronic and electrical controls, control modules, apparatuses, circuitry, switches and measurement devices; capsulated electronic and electrical controls, control modules, apparatuses, circuitry and switches; capsulated measurement devices; watertight electrical connectors, connection modules, plugs and sockets; internal cooling elements as parts of electronic and electrical controls, control modules and apparatus, switches and measurement devices; temperature controls for electronic and electrical controls, control modules, apparatuses, circuitry, switches and measurement devices; uninterrupted power supply devices; power supply aggregates; power supply units; electronic power supply devices; controlled power supply apparatuses; apparatuses for the uninterrupted power supply; uninterrupted power supplies in the form of batteries.

Class 37

Mounting, installation, maintenance and repair of water, fluid flow, tidal, wave, wind, solar, geothermal energy and solar heat power plants, energy generation means and systems; mounting, installation, maintenance and repair of electricity generators and electricity generator systems, turbines, rotors, turbine impellers, turbine blades and rotor blades, especially for fluid flow, wave and tidal power plants; mounting, installation, maintenance and repair of electronic and electric controls and computer hardware for controlling water, fluid flow, tidal, wind, solar, geothermal energy and solar heat power plants and energy generation means and systems, electricity generators and electricity generator systems, turbines, rotors, turbine impellers, turbine blades and rotor blades for fluid flow and tidal power plants as well as for power generation with the use of fluid flows and tides; mounting, installation, maintenance and repair of containers and housings made of metal, including watertight, gastight and/or pressure-resistant containers and housings made of metal, as well as of metal constructions and metal frames as construction and support parts; information relating to installation of power plants, especially water, fluid flow, tidal, wind, solar, geothermal energy and solar heat power plants; construction of power plants, especially water, fluid flow, wave, tidal, wind, solar, geothermal energy and solar heat power plants; installation, maintenance and repair of aquaculture farms and infrastructure.

Class 40

Energy generation; information and consultancy relating to energy production; production of energy from renewable sources in particular from hydrokinetic, hydroelectric, wave-powered and tide-powered energy; consultancy and information in the field of the production of energy from hydrokinetic, hydroelectric, wave-powered and tide-powered energy; rental of equipment for energy production.

Class 42

Technological information relating to environmental protection, renewable energy and sustainable development; technological consultancy relating to energy saving and production; technological consultancy in the field of the production, distribution, storage and transport of energy; technological evaluations, assessments and research in the fields of science and technology, carried out by engineers, in particular in the field of production, distribution, storage and transport of energy; technical project studies in the field of production, distribution, storage and transport of energy; scientific research and development of technology in the field of hydrokinetic, hydroelectric, wave-powered and tide-powered energy.

Class 44

Aquaculture services; rental of equipment for aquaculture.

XTRASTORIS

Goods and/or Services:

Class 06

Metal hardware; metal materials for building and construction and building and construction elements of metal; partitions of metal; space dividers [structures], of metal; niches [structures] of metal, also being lockable; wall niches [structures] of metal, also being lockable; the aforesaid niches and wall niches being metallic building structures with integrated lighting, with integrated heating, with integrated electricity supply, in particular with charging function and/or with integrated water supply, including with water irrigation function; metal sheets; cladding and cladding parts of metal; metal pipe fittings; furniture fittings of metal; metal hose fittings for fastening; metal handles, namely, handles of metal for doors, windows and drawers; grab handles of metal, in particular for showers and bath tubs; handles of metal, in particular for showers and bath tubs; grab rails of metal, in particular for showers and bath tubs; handle bars of metal; hooks of metal; wall hooks of metal; clothes hooks of metal; coat hooks of metal; clothes rails of metal; cloakroom rails of metal; towel dispensers of metal; containers, boxes and bins of metal; baskets of metal; metal hoses for plumbing use; water-pipes of metal; pipes and pipe connecting parts of metal; metal valves for water pipes; metal coverings [structures] and cladding of metal for construction and building; stoppers and chains of metal, metal pipe rosettes and plug-in pipe couplings of metal.

Class 09

Electronic databases, also recorded; downloadable digital music; electronic publications, downloadable; downloadable electronic brochures; downloadable electronic manuals; audio and image recordings; application software, in particular for mobile devices (mobile apps); software downloadable from the internet; software (recorded); firmware; data carriers, also containing data recorded thereon; computer hardware; monitors; loudspeakers; sound reproduction apparatus; magnets; holding magnets; decorative magnets; measuring, detecting and monitoring instruments; checking (supervision) apparatus and instruments; electronic controllers; electronic lighting controllers; electronic acoustic controllers; electronic voice controllers; programmable controllers; sensors and detectors; water detectors; control elements, control panels; all of the aforesaid goods in particular in

connection with sanitary goods, in particular for bath and kitchen.

Class 11

Water supply equipment and sanitary installations; sanitary fittings; mixing valves being part of sanitary installations; manually and automatically controlled fittings for water inlets and outlets; taps for washstands, for bidets and for sink units, taps for tubs and for showers; showers, shower bars [shower fittings], shower holders [shower fittings], overhead showers, lateral-jet showers, hand held showers, all the aforesaid fittings and showers, also being electronically controlled, being digital and/or being touch-controlled fittings and showers; shower heads, water-saving showerheads; shower hoses; shower sets consisting of hand shower, shower bar [shower fittings] and shower hose; shower combinations consisting of overhead shower and/or hand shower, shower bar [shower fittings], shower hose and mixer tap; showers, floor-level showers; shower cubicles; shower systems; shower systems having equipment for providing, selecting and controlling water jets, water flow and water temperature and, lighting, acoustic signals, such as music and scents; non-metallic screens for shower baths; screens [partitions] adapted for use with shower installations; bath installations; sauna bath installations, sauna cabins, steam cabins; infrared heat cabins; bath equipment, in particular bath spraying equipment, incorporated in a shower system, for dispensing scents, essential oils and cosmetics; inflow and outflow fittings, and drainage and overflow fittings for sanitary basins, for washstands, for sink units, for bidets, for bathtubs and for shower trays; shower drains, shower drains for floor-level showers, shower drainage channels; regulating apparatus for water supply apparatus and sanitary installations; control equipment for water supply apparatus and sanitary installations; sanitary ware, sanitary tubs and sanitary basins, bath tubs, shower trays, floor level shower trays, whirlpool tubs, wash basins, urinals, bidets; vanity units incorporating basins [connected to the water supply]; toilets, toilets with washing functions, toilet installations, toilet bowls, toilet seats, toilet lids, flushing tanks; irrigation installations, automatic irrigations installations, in particular for plants; water treatment installations, water purifying installations; apparatus and equipment for the treatment of water and greywater; disinfectant apparatus; equipment, apparatus and installations for filtering, softening or chilling of water and drinking water; equipment, apparatus and installations for carbonating water and drinking water, being parts of water supply equipment and sanitary installations; filters for treatment of water and drinking water; filters for water purifiers; filters for water and drinking water, water filters for water pipes; ultra-violet (UV) light apparatus for the treatment of water (not for medical purposes); lighting apparatus; lighting apparatus including light-emitting diodes [LED] lights; dispensing apparatus and tap devices for water and drinking water; kitchen sinks; sinks and built-in sinks; sink units; drip trays for kitchen sinks; flow shapers and flow regulators for sanitary water outlets; water sockets for sanitary installations; sanitary installations and fastening parts for sanitary installations, not of metal, as far as included in this class; fittings, not of metal, for sanitary installations; parts and accessories for the aforesaid goods; hoses for sanitation; housings and linings of metal for water supply

equipment and sanitary installations.

Class 19

Building and construction materials and building and construction elements, not of metal; prefabricated building components (non-metallic -); tiles, floor tiles; building slabs, not of metal; floors, not of metal; niches, also being lockable, not of metal; wall niches, also being lockable, not of metal; the aforesaid niches and wall niches, also with integrated lighting, with integrated heating, with integrated electricity supply, in particular charging possibilities for mobile apparatus, and/or with integrated water supply apparatus, including water irrigation installations; partitions, not of metal; cladding and cladding parts, not of metal, for building purposes.

Class 20

Furniture, bathroom furniture; mirrored cabinets and small furniture for bathrooms; furniture for kitchens; cabinets, tall cabinets and wall cabinets, in particular for bathroom and kitchen; stools; shower stools; shower seats; bath rails, not made of metal; room dividers [furniture]; partitions [furniture]; niches [display furniture and storage furniture], also being lockable [furniture], wall niches, also being lockable [furniture]; the aforesaid niches and wall niches, also with integrated lighting, with integrated heating, with integrated electricity supply, in particular charging possibilities for mobile apparatus, and/or with integrated water supply apparatus, including water irrigation installations; racks; wall racks; rack units; countertops; furniture panels; washstands [furniture]; vanity units [furniture] for sanitary basins, for wash basins and for kitchen sinks; vanity units [furniture] with integrated sanitary basin, wash basin or sink; consoles [furniture]; storage modules [furniture]; towel racks and racks for storing cosmetics [furniture]; cosmetic storage racks [furniture]; mirrors; shaving mirrors; cosmetic mirrors; fittings, not of metal, for furniture; non-metal hooks; furniture sliders; wall hooks not of metal; coat hooks; garment rails; non-metallic grab rails; handles for shower doors, not of metal; inserts for furniture, in particular for bathroom furniture [parts of furniture]; towel stands [furniture]; storage boxes [furniture]; containers, not of metal, for storage; fixed towel dispensers, not of metal; fixed dispensers for sanitary bags, not of metal; support rails for curtains, rods for curtains, curtain rails, curtain rings; parts and accessories for all of the aforesaid goods.

Class 21

Soap holders; soap trays; soap dishes; soap dispensers; detergent dispensers; storage containers for cosmetics; mugs, tooth mugs; holders for mugs and tooth mugs; towel holders; towel rails; rings for towels [bathroom fittings]; wall bars for towels and bath towels; holders for paper towel and paper napkin rolls and toilet paper rolls; paper towel dispensers; toilet brushes; toilet brush holders; toilet brush sets; toothbrush holders; holders for toilet utensils; cosmetic utensils; tissue box covers; containers for household or kitchen use; laundry containers; covers for household containers and for kitchen containers;

rails and rods adapted to hold utensils for household, kitchen and bathroom use; wall rails and wall rods, also magnetic, adapted to hold utensils for household, kitchen and bathroom use; baskets for household purposes; towel baskets; dustbins; pedal bins; toilet paper dispensers of metal.

EVERYWHERE WORKPLACE

Goods and/or Services:

Class 09

Downloadable computer software for information technology (IT) administration, monitoring, and management; downloadable computer software for information technology (IT) security in the nature of patch software and user authentication software; downloadable computer software for providing information technology (IT) help desk

services and technology support services, namely, troubleshooting in the nature of diagnosing computer software and hardware problems; downloadable computer software for locally and remotely accessing, modifying, and controlling information technology (IT) infrastructure, networks, systems, computer devices, servers and applications; downloadable computer software for automating the administration, monitoring, and management of information technology (IT) infrastructure, networks, systems, computer devices, servers, and applications; downloadable computer software for information technology (IT) data analytics; computer hardware with embedded computer software platforms for security, management, collaboration and application services for mobile devices; downloadable computer software platforms for security, management, collaboration and application services for mobile devices; downloadable computer software platform for process and workflow automation; downloadable computer programs and software application development tools for developing, customizing, and combining computer software applications and user interfaces for use in the information technology services management field; downloadable computer software applications and computer programs for creating content and metadata for use in the information technology services management field; downloadable computer programs for measuring and reporting on the programs and data files present on computer storage devices; downloadable VPN (virtual private network) operating software; downloadable software for computers, mobile devices and smartphones to secure remote access via the Internet to private computer networks; network access server hardware and downloadable operating software for network access servers; downloadable computer software, namely, network client that provides connectivity, access, security and acceleration of secure network information, data, and applications through computers, mobile devices and smartphones; downloadable computer software and hardware for use in the transmission and sharing of global network traffic, data and information among computers, network servers and routers in the fields of providing network security, secure remote access, application traffic management and application acceleration; computer hardware containing network security functionalities, namely, firewalls, data encryption, and interoperability with network security protocols; downloadable computer software for traffic prioritization, secure access control, user identification, encryption, security management and intrusion prevention, and computer maintenance; downloadable computer software for the back-up, storage, restoration and recovery of data, folders and files; downloadable computer software and hardware for providing network, Internet and computer security; downloadable internet security software, namely, computer software for use in the monitoring and control of computer and online activity; downloadable computer software for providing intrusion detection and prevention; downloadable computer software for providing online identity protection, authentication of users, and privacy control; downloadable computer software and devices for encrypting and authenticating data; downloadable computer software for enabling security and IT management systems to exchange information and mitigate network, security and operational issues; downloadable computer software for network security and

network security management and monitoring; downloadable computer software for scanning mobile communications devices, and for assessing, reporting and preventing security risks and privacy risks on mobile communication devices; downloadable internet security software, namely, mobile communication device firewall, and intrusion prevention, and anti-phishing software; downloadable computer software for implementing security policies, spyware policies and privacy policies on a mobile communication device.

Class 38

Providing remote user Internet access to archived data for mobile communication devices; providing remote user Internet access to mobile communication devices featuring firewalls, data encryption, and interoperability with network security protocol functions.

Class 42

Software as a service (SAAS) services featuring enterprise software used to track, analyze and improve the performance and availability of applications and business services; software as a service (SAAS) services featuring enterprise software for use in managing computer-based information systems; cloud computing services, namely, cloud computing featuring online non-downloadable software for use in developing, configuring, customizing and deploying software applications, managing business processes, and managing computer-based information systems; cloud computing services for others, namely, cloud computing featuring online non-downloadable software for information technology service management (ITSM), managing computer-based information systems for businesses, information technology service automation, workflow and business process automation; computer services, namely, remote management of the information technology (IT) systems of others; consulting and technical support services in the field of design, selection, implementation and use of computer software for others; platform as a service (PAAS) featuring a computer software platform for use by others to develop, configure, customize, and deploy software applications; consulting in the fields of cloud computing, software as a service (SAAS) and platform as a service (PAAS); technical support services, namely, troubleshooting in the nature of diagnosing computer software and hardware problems in the fields of cloud computing, software as a service (SAAS) and platform as a service (PAAS); software as a service (SAAS) services featuring software for information technology (IT) administration, monitoring, and management; software as a service (SAAS) services featuring software for information technology (IT) security in the nature of patch software and user authentication; software as a service (SAAS) services featuring software for providing information technology (IT) help desk services and technology support services; software as a service (SAAS) services featuring software for locally and remotely accessing, modifying, and controlling information technology (IT) infrastructure, networks, systems, computer devices, servers and applications; software as a service (SAAS) services featuring software for automating the administration, monitoring, and management of information technology (IT) infrastructure, networks, systems, computer devices, servers, and

applications; software as a service (SAAS) services featuring software for information technology (IT) data analytics; software as a service (SAAS) services featuring software for the remote assessment, management, and deployment of software and supporting data; providing temporary use of non-downloadable software, namely, an enterprise mobility software platform for security, management, collaboration and application services for mobile devices; computer services, namely, hosting a website featuring cloud-based technology enabling users to upload and download electronic files for sharing; providing non-downloadable computer software for uploading, transferring, downloading, storing encryption and sharing data, documents, files, text, photos, images, graphics, music, audio, video and multimedia content with others via networks, computers, smart phones, tablet computers and other devices; computer services, namely, online scanning, detecting, quarantining and eliminating of viruses and malware; providing non-downloadable software in the field of risk, vulnerability analysis and security for computers, computer systems and computer networks; providing non-downloadable software for operating and maintaining computer networks and servers and for network security; application service provider (ASP) featuring software for use in network management of an enterprise fleet of wireless devices in a cross-platform environment comprising multiple mobile device third party operating systems; application service provider featuring software for the detection, monitoring, and removal of security risks and privacy risks, for monitoring, protecting, and securing mobile communication devices and networks; computer services for others in the fields of mobile communication device data, network data, network security, and privacy, security risks, and privacy risks, namely, software development and maintenance for managing mobile communication device data, security risks, and privacy risks; services for others in the fields of mobile communication device data, security risks, and privacy risks, namely, troubleshooting mobile communication device software problems and diagnosing mobile communication device hardware problems; platform as a service (PAAS) featuring computer software platform for process and workflow automation; computer services, namely, software integration, configuration, customization, implementation, maintenance, technical support and hosting services.
