General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

database software; Rental of software for data processing; Providing information in the field of product development; Rental of software for Internet access; Research and development services relating to fertilisers; Writing and updating computer software; Research relating to the development of computer hardware; Programming of software for Internet portals, chatrooms, chat lines and Internet forums; Research relating to the development of computer software; Testing of apparatus; Chemistry services; Analysis of tissues for medical research; Architectural services relating to the development of land; Surveying services; Research and development of new products; Design and development of electronic data security systems; Design and writing of computer software; Scientific research for medical purposes; Design and development of software for database management; Hosting of software as a service [SaaS]; Scientific research relating to genetics; Design and development of software for website development; Services for updating computer software; Development and design of digital sound and image carriers; Research and development services in the field of cytology; Design and development of software for inventory management; Research and development services in the field of chemistry; Bacteriological consultation and research; Electronic monitoring of personally identifying information to detect identity theft via the internet; Industrial analysis and research services; Research in the field of pharmacogenetics; Research and development services in connection with physics; Diagnosis of faults in computer software; Research relating to computer programming; Research and development services in the field of antibodies; Commissioned writing of computer programs, software and code for the creation of web pages on the Internet; Installation of Internet access software; Research relating to industrial machinery; Research and development services in the field of immunology; Rental of computer hardware and software; Scientific research relating to chemistry; Software development in the framework of software publishing; Rental of computer software and programs; Scientific research relating to cosmetics; Consultancy in the design and development of computer hardware; Updating and design of computer software; Consultancy services in the field of technological development; Technical design and planning of telecommunications networks; Providing on-line information in the field of technological research from a computer database or the Internet; Updating of software for data processing; Management of scientific research projects; Design and development of wireless data transmission apparatus; Electronic storage of digital music; Research in the field of computer hardware; Research and development services in the field of bacteriology; Research on the subject of pharmaceuticals; Research and development services relating to automobile tires; Computer aided industrial research services; Design and development of computer software for process control; Rental of operating software for computer networks and servers; Developing and updating computer software; Computer aided scientific research services; Research and development services relating to computer hardware; Programming of energy management software; Research relating to mechanical engineering; Design and development of regenerative energy generation systems; Rental of computers and computer software; Research and development in the field of diagnostic preparations;

Rental of video game development software; Allergy testing for research and science use; Research, development, design and upgrading of computer software; Analysis of human serum for medical research; DNA sequencing for medical research purposes; Scientific research in the field of pharmacy; Developing computer programs for electronic cash register systems; Scientific research relating to bacteriology; Development of data processing programs by order of third parties; Laboratory research in the field of chemistry; Research and development in the field of microorganisms and cells; Programming of telecommunications software; Laboratory research in the field of cosmetics; Research and development services in the field of immunohistology; Rental of software for website development; Preparation of technological research reports; Design and development of software for importing and managing data; Research and development of computer software; Design, maintenance, development and updating of computer software; Research in the reduction of carbon emissions; Research relating to environmental protection; Designing and planning of real estate subdivisions and developments; Consultancy in the field of software design; Development and creation of computer programmes for data processing; Design and development of computer software; Analysis of human tissues for medical research; Providing information in the field of computer software development; Programming of operating software for computer networks and servers; Maintenance of software for Internet access; DNA screening for scientific research purposes; Development and testing of computing methods, algorithms and software; Rental and maintenance of computer software; Research in the field of building construction; Research and development services in the field of antibody technology; Consulting in the field of cloud computing networks and applications; Rental of software for inventory management; Technical research in the field of aeronautics; Design and development of software in the field of mobile applications; Development of computer programs for simulating laboratory experiments; Development of computer software for use with programmable controllers; Development, updating and maintenance of software and database systems; Research relating to the development of computer programs and software; Research in the field of information technology; Design and development of computer software for supply chain management; Computer software technical support services; Genetic testing for scientific research purposes; Research and development services in the field of gene expression systems; Providing search engines for obtaining data via communications networks; Consultancy relating to software maintenance; Mechanical research in the field of motor sports; Design and development of computer hardware for the manufacturing industry; Pharmaceutical research and development services; Design and development of virtual private network (VPN) operating software; Research in the area of environmental protection; Design and development of computer software for use with medical technology; Research in the field of artificial intelligence; Design and development of software for electronic television program guides; Computer security services for protection against illegal network access; Research in the field of manufacturing machinery; Design and development of computer hardware for the manufacturing industries; Design and development of virtual

private network (VPN) operating software; Advisory services relating to the design and development of computer hardware; Consultancy relating to research and development in the field of therapeutics; Advisory services relating to scientific research; Design and development of computer game software and virtual reality software; In vitro testing for scientific research purposes; Design and development of operating software for computer networks and servers; Preparation of statistics for scientific research; Providing temporary use of on-line non-downloadable software development tools; Consultancy in the field of computer software; Research in the field of environmental protection; Consultancy relating to the design and development of computer software programs; Consultancy in the field of security software; Scientific research relating to chemical products; Maintenance and updating of computer software; Computer security services [testing and risk assessment of computer networks]; Providing temporary use of web-based software; Design and development of computer software for evaluation and calculation of data; Provision of online non-downloadable software; Development of computer software for creating electronic television program guides; Research and development of computer software; Consultancy in the field of technological research; Development, maintenance and updating of a telecommunication network search engine; Design and development of operating software for computer networks and servers; Services for maintenance of computer software; In vitro analysis for scientific research purposes; Planning, design, development and maintenance of online websites for third parties; Network security services [testing and risk assessment of electronic networks]; Troubleshooting of computer software problems; Research and development of vaccines and medicines; Development of computer software for use with computer-controlled switching systems; Rental of operating software for accessing and using a cloud computing network; Updating and maintenance of computer software; Research in the field of communications technology; Research on building construction or city planning; Design and development of electronic language translation dictionaries and databases; Advisory services relating to gene therapy research; Providing temporary use of on-line non-downloadable software for web site development; Animal semen testing services for research purposes; Computer software installation and maintenance; Consultancy in the field of pharmaceutical research; Configuration of computer networks by software; Culturing of cells for scientific research purposes; Advisory services in the field of product development and quality improvement of software; Maintenance and upgrading of computer software; Laboratory research in the field of gene expression; Design and development of computer software for reading, transmitting and organising data; Laboratory services; Programming of software for Internet platforms; Research and development of new products for others; Design and development of software and hardware for signal amplification and transmission; Rental of computer software relating to travel; Research in the field of data processing technology; Design and development of systems for data input, output, processing, display and storage; Upgrading and maintenance of computer software; Research in the field of environmental conservation; Design and development of wireless data transmission apparatus, instruments

and equipment; Research and development of new products for third parties in the field of plastic materials; Development services in the field of computer software and advisory services relating thereto; Development, maintenance and updating of a telecommunication network search engine; Advisory services relating to technological research; Provision of information and data relating to medical and veterinary research and development; Hosting the web sites of others on a computer server for a global computer network; Industrial analysis and industrial research services; Design and development of operating software for accessing and using a cloud computing network; Preparation of reports relating to chemical research; Development of computer software for logistics, supply chain management and e-business portals; Design and development of software for control, regulation and monitoring of solar energy systems; Programming of operating software for accessing and using a cloud computing network; Preparation of reports relating to technical research; Providing information about the design and development of computer software, systems and networks; Computer security services [design and development of secure computer hardware, software and systems]; Software development in the framework of software publishing; Providing information, including online, about design and development of computer hardware and software; Advisory services relating to computer software; Design and development of computer software for logistics, supply chain management and e-business portals; Programming of software for database management; Preparation of reports relating to scientific research; Programming of software for website development; Research and development in the field of biotechnology; Developing computer programs for simulating experiments or series of experiments in a virtual optical laboratory; Research and development services relating to vaccines; Development of computer programs recorded on data media (software) designed for use in construction and automated manufacturing (cad/cam); Research in the field of telecommunications technology; Scientific research relating to hair care preparations; Preparation of biological samples for research purposes; Research and development services relating to medicines; Consultancy relating to the updating of software; Research in the field of computer programs and software; Design and development of computer game software; Blood analysis services for scientific research purposes; Design and development of operating software for accessing and using a cloud computing network; Development and maintenance of computer software; Laboratory research services relating to pharmaceuticals; Programming of software for e-commerce platforms; Provision of information relating to scientific research; Programming of software for inventory management; Research and development for the pharmaceutical industry; Scientific research into the development of new products; Providing information about the design and development of computer software, systems and networks; Preparation of reports relating to technological research; Research and development services relating to fertilisers; Research relating to the development of computer hardware; Research relating to the development of computer software; Research and development services in the field of cytology; Genetic testing of laboratory animals for research purposes; Providing temporary use of on-line non-downloadable operating software for computer networks and

servers; Provision of information relating to technological research; Configuration of computer networks using software; Research and development services in the field of chemistry; Design and development of data retrieval software; Research in the area of semiconductor processing technology; Design and development of route planning software; Research in the field of artificial intelligence technology; Electronic monitoring services for computer security services for protection against illegal network access; Design and development of single sign-on software; Research and development services in connection with physics; Design of software for use with printing machines; Research and development services in the field of antibodies; Hosting of software for use in library management; Research and development services in the field of immunology; Installation and maintenance of computer software; Installation and maintenance of database software; Research and development services in the field of bacteriology; Rental of computer hardware and computer software; Research and development services relating to automobile tires; Providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; Software engineering services for data processing; Research and consultancy services relating to computer software; Research and development services relating to computer hardware; Research and development in the field of diagnostic preparations; Research, development, design and upgrading of computer software; Scientific and technological research relating to patent mapping; Design and development of virtual reality software; Research and development in the field of microorganisms and cells; Design and development of word processing software; Research and development services in the field of immunohistology; Design, development and implementation of software; Industrial analysis and research services in the field of chemistry; Developing of driver and operating system software; Scientific research in the field of genetics and genetic engineering; Rental of software for importing and managing data; Providing information about industrial analysis and research services; Research and development services in the field of antibody technology; Cell culture services for scientific and research purposes, for others; Industrial analysis and research services relating to automobile tires; Consultation services relating to computer software; Research relating to the development of computer programs and software; Interactive hosting services which allow the users to publish and share their own content and images online; Industrial analysis, industrial research and industrial design services; Preparation of biological samples for analysis in research laboratories; Providing information in the field of plant genetics research resources; Scientific and technological research in the field of natural disasters; Research and development services in the field of gene expression systems; Integrated scientific research on vermin for greenhouses and harvest crops; Scientific research for medical purposes in the area of cancerous diseases; Design and development of energy management software; Providing online information about industrial analysis and research services; Consultancy relating to research and development in the field of therapeutics; Scientific and technological services and research and design relating thereto; Creating, maintaining, and updating computer software; Preparation of immunohistological samples

for analysis in research laboratories; Design, maintenance and updating of computer software; Design, updating and maintenance of computer software; Consultancy services relating to research in the field of environmental protection; Development of software for secure network operations; Preparation of biological samples for testing and analysis in research laboratories; Design of printed matter; Design of printed matter; Design of printed matter; Conducting research and technical project studies relating to the use of natural energy; Providing information, including online, about industrial analysis and research services; Design and development of electronic database software; Research and development of new products for third parties in the field of plastic materials; Development of computer software application solutions; Provision of information and data relating to medical and veterinary research and development; Programming of software for importing and managing data; Technical consultancy in relation to the technical research in the field of food and beverages; Research in the field of computer programs and software; Technical consultancy in relation to research services relating to foods and dietary supplements; Providing information relating to scientific research in the fields of biochemistry and biotechnology; Design and development of computer hardware and software; Providing medical and scientific research information in the field of pharmaceuticals and clinical trials; Design and development of computer software architecture; Providing on-line information in the field of technological research from a computer database or the Internet; Cake design services; Design and development of software for instant messaging; Preparation of technical projects, technical research and consultancy services in the field of carbon offsetting; Calibration services; Design, development and programming of computer software; Provision of information concerning research and technical project studies relating to the use of natural energy; Cartography services; Installation and maintenance of Internet access software; Providing information, including online, about scientific and technological services and research and design relating thereto; Engineering services; Graphic art services; Logo design services; Measurement services; Design and development of computer software for logistics; Development and maintenance of computer database software; Installation, maintenance and repair of computer software; Installation, repair and maintenance of computer software; Research relating to the development of computer software; Consultancy relating to software for communication systems; Design and development of software for database management; Design and development of software for website development; Software engineering services for data processing programs; Design and development of software for inventory management; Installation, maintenance and updating of computer software; Installation, maintenance and updating of database software; Providing temporary use of online non-downloadable software; Software development in the framework of software publishing; Design of computer programs and software relating to aircraft; Design, maintenance, rental and updating of computer software; Providing temporary use of non-downloadable business software; Maintenance and updating of software for communication systems; Providing information in the field of computer software design; Rental of operating software for computer networks and servers;

Advisory and information services relating to computer software; Design and development of computer software for process control; Research and consultancy services relating to computer software; Research, development, design and upgrading of computer software; Programming of software for information platforms on the Internet; Design and development of software for importing and managing data; Design, maintenance, development and updating of computer software; Designing computer software for controlling self-service terminals; Diagnosis of computer hardware problems through the use of software; Programming of operating software for computer networks and servers; Providing information in the field of computer software development; Development and testing of computing methods, algorithms and software; Installation, maintenance and repair of software for computer systems; Design and development of software in the field of mobile applications; Development of computer software for use with programmable controllers; Development, updating and maintenance of software and database systems; Installation, maintenance, updating and upgrading of computer software; Programming and software installation, repair and maintenance services; Providing temporary use of online non-downloadable investment software; Research relating to the development of computer programs and software; Design of printed materials; Design of printed materials; Design of printed materials; Design and development of computer software for supply chain management; Programming of computer software for evaluation and calculation of data; Consultancy and information services relating to computer software design; Design and development of virtual private network (VPN) operating software; Design and development of computer software for use with medical technology; Design and development of software for electronic television program guides; Providing temporary use of on-line non-downloadable single sign-on software; Design and development of computer game software and virtual reality software; Design and development of operating software for computer networks and servers; Programming of computer software for reading, transmitting and organising data; Providing temporary use of on-line non-downloadable software development tools; Rental of operating software for accessing and using a cloud computing network; Technical consultancy relating to the application and use of computer software; Consultancy relating to the design and development of computer software programs; Design and development of computer software for evaluation and calculation of data; Development of computer software for creating electronic television program guides; Biochemistry services; Maintenance of computer software used for operating filling apparatus and machines; Brand design services; Development of computer software for use with computer-controlled switching systems; Coin grading services; Programming of operating software for accessing and using a cloud computing network; Dress design services; Troubleshooting in the nature of diagnosing computer hardware and software problems; Gemmological services; Providing temporary use of on-line non-downloadable software for database management; Seed testing services; Providing temporary use of on-line non-downloadable software for inventory management; Soil testing services; Providing temporary use of on-line non-downloadable software for web site development; Well

logging services; Programming of software for Internet portals, chatrooms, chat lines and Internet forums; Technical consultancy relating to the installation and maintenance of computer software; Advisory services in the field of product development and quality improvement of software; Design and development of computer software for reading, transmitting and organising data; Design and development of software and hardware for signal amplification and transmission; Providing temporary use of non-downloadable software applications accessible via a web site; Providing temporary use of on-line non-downloadable software for importing and managing data; Updating of computer software relating to computer security and prevention of computer risks; Development services in the field of computer software and advisory services relating thereto; User authentication services using single sign-on technology for online software applications; Design and development of operating software for accessing and using a cloud computing network; Development of computer software for logistics, supply chain management and e-business portals; Maintenance of computer software relating to computer security and prevention of computer risks; Programming of computer software for electronic language translation dictionaries and databases; Design and development of software for control, regulation and monitoring of solar energy systems; Providing information about the design and development of computer software, systems and networks; Computer security services [programming and software installation, repair and maintenance services]; Computer security services [design and development of secure computer hardware, software and systems]; Providing information, including online, about design and development of computer hardware and software; Providing user authentication services using single sign-on technology for online software applications; Providing temporary use of non-downloadable software for analyzing financial data and generating reports; Providing temporary use of on-line non-downloadable operating software for computer networks and servers; Design and development of computer software for logistics, supply chain management and e-business portals; Commissioned writing of computer programs, software and code for the creation of web pages on the Internet; Providing temporary use of non-downloadable software to enable content providers to track multimedia content; Consultancy and information services relating to the design, programming and maintenance of computer software; Providing user authentication services using biometric hardware and software technology for e-commerce transactions; Providing temporary use of non-downloadable software to enable sharing of multimedia content and comments among users; Providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; Development of computer programs recorded on data media (software) designed for use in construction and automated manufacturing (cad/cam); Design of test apparatus; Architectural services; Closet design services; Cryptanalysis services; Illustrators' services; Retail design services; Tyre analysis services; Tyre research services; Design services relating to printing; Design services relating to printing; Design services relating to printing; Blood analysis services; Data migration services; Drug discovery services; Graphic design services; Photogrammetry services;

Product design services; Soil analysing services; Textile design services; Vehicle design services; Website design services; Bathroom design services; Building design services; Clothing design services; Cloud computing services; Computer design services; Computer rental services; Data cryptology services; Data decryption services; Data encryption services; Dress designing services; Footwear design services; Interior design services; Quality control services; Tyre inspection services; Web page design services; Web site design services; Website hosting services; Design of medical apparatus; Computer aided design for manufacturing operations; Developing of driver and operating system software; Technical advice relating to operation of computers; Design of software for use with printing machines; Design of software for use with printing machines; Design of software for use with printing machines; Development of software for secure network operations; Aerial surveying services; Computer network services; Drug development services; Jewellery design services; Marine surveying services; Material testing services; Medical research services; Seismic analysis services; Technical survey services; Web site hosting services; Rental of computer apparatus; Rental of operating software for computer networks and servers; Programming of operating software for computer networks and servers; Building research services; Chemical analysis services; Design and development of virtual private network (VPN) operating software; Chemical research services; Commercial design services; Computer advisory services; Computer firewall services; Computer forensic services; Computer research services; Furnishing design services; Industrial design services; Technical drawing services; Creation of control programs for electric operation control and drive modules; Technical testing services; Trade mark design services; Design and development of operating software for computer networks and servers; Rental of operating software for accessing and using a cloud computing network; Maintenance of computer software used for operating filling apparatus and machines; Programming of operating software for accessing and using a cloud computing network; Design and development of operating software for accessing and using a cloud computing network; Providing temporary use of on-line non-downloadable operating software for computer networks and servers; Providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; Leasing of computer apparatus; Rental of measuring apparatus; Biological cloning services; Design services for artwork; Engineering design services; Environment design services; Laboratory testing services; Medical laboratory services; Quality control of services; Scientific testing services; Shopfitting design services; Stem cell research services; Technical research services; Rental of application software; Biological research services; Biomedical research services; Chemical laboratory services; Engineering drawing services; Genetic engineering services; Industrial analysis services; Industrial research services; Mineral exploration services; Naval architectural services; Pipeline inspection services; Platform as a service [PaaS]; Scientific advisory services; Scientific research services; Software as a service [SaaS]; Software consulting services; Weather forecasting services; Weather information services; Website development services; Air flow measurement services; Architectural design services; Business card design services;

Computer co-location services; Computer programming services; Database development services; Design services for packaging; Geophysical research services; Software consultancy services; Software development services; Software engineering services; Software maintenance services; Technical inspection services; Website load testing services; Calibration of medical apparatus; Agricultural research services; Agrochemical research services; Analytical laboratory services; Biochemistry research services; Biological laboratory services; Computer aided design services; Computer time-sharing services; Illustration services [design]; Marine chart updating services; Mathematical research services; Provision of research services; Quality accreditation services; Scientific laboratory services; Services for renting computers; Vehicle engine design services; Veterinary laboratory services; Water quality control services; Architectural advisory services; Architectural planning services; Cloud hosting provider services; Computer aided testing services; Design services for brand names; Design services for trade marks; Electrical engineering services; Electronic data backup services; Geological exploration services; Information technology services; Mechanical engineering services; Oceanographic research services; Product safety testing services; Remote computer backup services; Services for the design of maps; Structural engineering services; Technological advisory services; Technological analysis services; Technological planning services; Town planning advisory services; Video game development services; Design of manufacturing apparatus; Inspection [testing] of apparatus; Biochemical engineering services; Design services for architecture; Electronic data back-up services; Electronic data storage services; Engineering consultancy services; Pharmaceutical research services; Product quality testing services; Ship design consultancy services; Social science research services; Technical data analysis services; Calibration of measuring apparatus; Design of communications apparatus; Civil engineering design services; Computer graphics design services; Computer hardware design services; Computer software design services; Environmental assessment services; Environmental monitoring services; Local planning authority services; Metallurgical laboratory services; Water quality monitoring services; Architectural consultancy services; Civil engineering drawing services; Computer program advisory services; Computer program updating services; Computer virus protection services; Computerised data storage services; Data security services [firewalls]; Environmental consultancy services; Fashion design consulting services; Infrastructure as a service [IaaS]; Landscape lighting design services; Oceanographic prospecting services; Town planning consultancy services; Website usability testing services; Calibration of laboratory apparatus; Hiring of data processing apparatus; Rental of data processing apparatus; Computer disaster recovery services; Computer software advisory services; Computer software updating services; Dental research laboratory services; Interior decoration design services; Meteorological information services; Provision of search engine services; Social science consultancy services; Technological consultation services; Theatrical lighting design services; Computer system integration services; Design services relating to printing; Graphic illustration design services; Medical research laboratory services; Providing quality assurance services; Advisory services relating to science; Chemical research laboratory

services; Computer program maintenance services; Computer software consulting services; Computer systems integration services; Data encryption and decoding services; Design services for computer hardware; Quality control of goods and services; Scientific and technological services; Technical diagnostic testing services; Architectural and engineering services; Computer software consultancy services; Computer software maintenance services; Computer software programming services; Industrial engineering design services; Advisory services relating to computers; Biological research laboratory services; Chemical research and analysis services; Computer network configuration services; Engineering project management services; Hosting of software as a service [SaaS]; Services for updating computer software; Building inspection services [surveying]; Graphic illustration services for others; Internet cafe services [computer rental]; Pharmaceutical drug development services; Scientific computer programming services; Analytical services relating to computers; Engineering services for the gas industry; Industrial analysis and research services; Underwater structural inspection services; Design of telecommunications apparatus; Programming of multimedia applications; Advisory services relating to architecture; Advisory services relating to biochemistry; Advisory services relating to pharmacology; Certification services relating to quality; Cloud storage services for electronic data; Computer aided diagnostic testing services; Computer-aided engineering design services; Consultancy services relating to computers; Engineering services relating to computers; Information services relating to computers; Services for reproducing computer programs; Web portal services [designing or hosting]; Analysis services for oil field exploration; Analysis services for oil-field exploration; Application service provider [ASP] services; Cloud storage services for electronic files; Computer aided industrial analysis services; Computer aided industrial research services; Computer aided scientific analysis services; Computer aided scientific research services; Quality control and authentication services; Backup services for computer hard drive data; Computer software technical support services; Information services relating to mathematics; Location of utility lines [mapping services]; Advisory services relating to building design; Advisory services relating to interior design; Advisory services relating to product testing; Authentication services for computer security; Computer database design consultancy services; Design and development services in metallurgy; Design services relating to civil engineering; Design services relating to computer hardware; Engineering services relating to architecture; Environmental testing and inspection services; Services for maintenance of computer software; Advisory services relating to material testing; Services for assessing the safety of chemicals; Advisory services relating to computer hardware; Advisory services relating to computer software; Advisory services relating to energy efficiency; Advisory services relating to industrial design; Advisory services relating to pollution control; Advisory services relating to the use of energy; Commissioning [testing and inspection] services; Design services relating to interior decoration; Disaster recovery services for computer systems; Information technology [IT] consulting services; Consultancy services relating to quality control; Pharmaceutical research and development services; Advisory services relating to scientific research; Computer programming services for data

Mark Clause(s):

The following claim is made in the International Registration: Colour(s) claimed: The color(s) blue, black and white is/are claimed as a feature of the mark. The mark consists of the

words "QUALITY VALVE". The "Q" is white with its center filled in blue. The white "Q" is surrounded by a black ring. Smaller solid white circles are formed along the black ring to provide the appearance of a pipe flange. The remainder of the word "QUALITY", that is, the lettering "UALITY", is in blue. The word "VALVE" is in black and appears in a smaller font under the blue lettering "UALITY". A continuous black line extends across the top, the right side and the bottom of the combined lettering and word, "UALITY" and "VALVE".
