General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

OURA

Goods and/or Services:

Class 09

Wearable computers in the nature of smart personal devices, activity trackers, smart rings, and smart jewelry; wearable global positioning system (gps); wearable devices namely wearable computers in the nature of smart data communication personal devices, activity trackers, smart rings, and smart jewellery that transmit data to computers and mobile devices; smart rings; smart jewelry in the nature of smart rings and smart wristbands that communicate data to other electronic devices; wireless chargers; chargers for batteries; chargers for smart rings; battery cases; batteries; biometric identification apparatus; electronic locks incorporating biometric scanners for use with biometric wearable devices; eyewear, namely, blue light blocking glasses; protective covers and cases for wearable devices namely wearable computers in the nature of smart data communication personal devices, activity trackers, smart rings, and smart jewellery; protective covers and cases for mobile telecommunications devices; cryptocurrency hardware wallets; devices and instruments to be placed on the human body and other devices and instruments for measuring and analyzing the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, and for displaying, storing, sending, transmitting and receiving instructions and data relating to any of the above, for purposes other than medical and therapeutic purposes; devices and instruments to be placed on the human body and other devices and instruments for measuring and analyzing recovery from physical and emotional stress, human alertness level and performance, and for displaying, storing, sending, transmitting and receiving instructions and data relating to any of the above, for purposes other than medical and therapeutic purposes; downloadable computer programs for measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance, and for displaying, storing, sending, transmitting and receiving of instructions and data relating to any of the above; downloadable computer databases featuring data from the measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance and for displaying, storing, sending, transmitting and receiving of instructions and data relating to any of the above; downloadable computer software that enables users to enter, access, track, monitor and generate health and medical information and reports; downloadable computer software

through which users may listen to auditory content in the field of meditation, relaxation, breathing exercises, mindfulness, and wellness; downloadable computer software for facilitating commercial transactions through electronic means via wireless networks, global computer networks, and mobile and wearable devices; downloadable computer software for use in contactless transactions with retailers, merchants, and vendors via mobile and wearable devices; downloadable computer software for transmitting, processing, facilitating, verifying, and authenticating credit and debit card information and transaction and payment information; downloadable computer software for ensuring the security of online and mobile payments, of contactless transactions with retailers, merchants and vendors via mobile and wearable devices, and of credit and debit card information; downloadable computer software for use in the capture, storage, management, transmission, verification, and authentication of credit and debit card transactions and payment information; downloadable computer software for enabling the electronic transfer of money between users; downloadable computer software for enabling processing of electronic funds transfers and payments made via automated clearing house (ach), credit card, debit card, prepaid cards, wireless wallets, mobile wallets, electronic wallets, electronic check and electronic, mobile and online payments.

Class 10

Wearable monitors used to measure biometric data for medical use; medical health monitors with built-in biometric sensor hardware and software; medical devices for monitoring health consisting of heart rate monitors, respiration rate monitors, blood oxygen monitors, thermometers, and pedometers; medical device used for the measuring, acquisition of, and displaying of physiologic data, namely, blood oxygen levels, heart rate, respiratory rate, bio-signals, and temperature; medical devices, namely, a device for measuring and analyzing during sleep the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, and for displaying, storing, sending, transmitting and receiving instructions and data relating to any of the above, for medical and therapeutic purposes; devices and instruments to be placed on the human body and other devices and instruments for measuring and analyzing the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, and for displaying, storing, sending, transmitting and receiving instructions and data relating to any of the above, for medical and therapeutic purposes; devices and instruments to be placed on the human body and other devices and instruments for measuring and analyzing recovery from physical and emotional stress, human alertness level and performance, and for displaying, storing, sending, transmitting and receiving instructions and data relating to any of the above, for medical and therapeutic purposes.

Class 14

Rings; boxes and cases for jewelry and jewelry accessories; diamond jewelry; jewelry.

Class 18

Bags, namely, duffel bags, tote bags, backpacks, and all-purpose sports bags.

Class 20

Mattresses; pillows; sleep products, namely, mattresses, spring mattresses, box springs, and mattress foundations; mattress toppers.

Class 24

Bed blankets; lap blankets.

Class 25

Tee shirts; shirts; sweatshirts; pants; hats; pajamas; headwear; jackets; sleep masks.

Class 27

Yoga mats.

Class 28

Exercise equipment, namely, rowing machines, treadmills, elliptical exercise machines, stair-stepping machines, weight-lifting machines, and stationary cycles.

Class 35

Wholesale and retail store services in relation to fitness trackers, medical devices, wearable devices, namely wearable computers in the nature of smart personal devices, activity trackers, smart rings, and smart jewelry, clothing, headwear, protective cases and covers, jewelry, batteries, electric chargers, jewelry boxes, jewelry cases; online retail store services in relation to fitness trackers, medical devices, wearable devices, namely wearable computers in the nature of smart personal devices, activity trackers, smart rings, and smart jewelry, clothing, headwear, protective cases and covers, jewelry, batteries, electric chargers, jewelry boxes, jewelry cases; business administration services related to retail store services and processing sales, including sales made on the internet; business administration services related to subscriptions services for the purposes of data collection, management, and analytics; managed care services, namely, electronic processing of health care information.

Class 36

Financial services, namely, providing, transmitting, processing, facilitating and authenticating mobile payments, and contactless transactions with retailers, merchants, and vendors via mobile and wearable devices; financial services, namely, processing and administration of mobile payments and contactless debit and credit card transactions, electronic wallet payments, loyalty reward card transactions, and bill payment transactions with retailers, merchants, and vendors via mobile and wearable devices; financial services,

namely, providing secure commercial transactions and payment options; electronic payment services, namely, electronic processing and subsequent transmission of bill payment data; electronic payment services, namely, electronic processing and subsequent transfer of electronic funds and payments via automated clearing house (ach), credit card, debit card, prepaid cards, wireless wallets, mobile wallets, electronic wallets, electronic check, and electronic, mobile, and online payments; electronic payment services, namely, providing multiple payment options by means of mobile contact payment systems and digital wallets allowing access to credit and debit card information for facilitating credit and debit card processing services; financial transaction services, namely, providing secure commercial transactions and payment options; financial transaction services, namely, providing secure commercial transactions and payment options using a mobile or wearable device at a point of sale; bill payment services; debit and credit card services; credit card verification services; credit card and transaction processing terminal services using near field communication (nfc) technology; integrated services of mobile electronic wallet and mobile payment, namely, electronic transfer of funds and processing electronic funds transfer via mobile and wearable computing devices; payment verification services; cryptocurrency payment processing.

Class 41

Consulting services in the fields of physical fitness and exercise; providing information about fitness and exercise via a website; entertainment services in the nature of development, creation, production, and post-production of multimedia entertainment content; entertainment services in the nature pre-recorded readings of literary works, music, breathing exercises, and relaxation sounds; coaching in the field of sports; health club services, namely, providing instruction and equipment in the field of physical exercise; physical fitness instruction; meditation training; personal coaching services in the fields of meditation, health, wellness, fitness, and physical exercise; providing information in relation to entertainment and educational services in the nature of health, wellness, sleep, meditation, and mindfulness via a website; weblog [blog] services [online publication of journals or diaries] featuring information, research, stories, and news on topics related to health, wellness, sleep, meditation, and mindfulness; providing educational information in the nature of current research and studies in the field of health, wellness, sleep, meditation, and mindfulness.

Class 42

Providing technology information in the field of wearable technological products; hosting of an interactive website featuring technology that enables users to enter, access, track, monitor and generate health and medical information and reports; hosting computer software applications featuring technology that enables users to enter, access, track, monitor and generate health and medical information and reports; providing temporary use of online non-downloadable computer software for measurement and analysis of the body's

autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance, and for displaying, storing, sending, transmitting and receiving of instructions and data relating to any of the above; providing temporary use of online non-downloadable computer software featuring data from the measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance and for displaying, storing, sending, transmitting and receiving of instructions and data relating to any of the above; providing temporary use of online non-downloadable computer software that enables users to enter, access, track, monitor and generate health and medical information and reports; providing temporary use of online non-downloadable computer software for use in connection with facilitating commercial transactions through electronic means via wireless networks, global computer networks, and mobile and wearable devices; providing temporary use of online non-downloadable computer software for use in contactless transactions with retailers, merchants, and vendors via wireless networks, global computer networks, and mobile and wearable devices; providing temporary use of online non-downloadable computer software for processing electronic payments; providing temporary use of online non-downloadable computer software for use as an electronic wallet; providing online, non-downloadable computer software for use as a cryptocurrency wallet; hosting a website to facilitate commercial transactions through electronic means via wireless networks, global computer networks, and mobile and wearable devices; hosting a website to facilitate contactless transactions with retailers, merchants, and vendors via mobile and wearable devices; providing user authentication services using biometric hardware and software technology for secure entry and exit door access, for operation and management of smart home and auto devices, for operation and management of personal assistant devices, and for controlling personal health information access; providing user authentication services using technology for e-commerce transactions; providing user authentication services using biometric hardware and software technology for e-commerce transactions; provision of online non-downloadable computer software through which users may listen to auditory content in the field of meditation, relaxation, breathing exercises, mindfulness, health and wellness; scientific research relating to the measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance; medical research relating to the measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance.

Class 44

Medical evaluation services for measurement and analysis of the body's autonomic nervous

system, physical parameters and other physiological data and bio-signals for diagnostic or treatment purposes; medical assistance services provided via telecommunication and global computer networks for individuals with health problems through the use of wearable medical devices with automated alert and monitoring capacity; remote monitoring of data indicative of the health or condition of an individual or group of individuals for medical diagnosis and treatment purposes; providing medical advice, consultancy, and information relating to the measurement and analysis of bodily behavior, sleep, recovery from physical and emotional stress, and human alertness levels and performance; providing information in the fields of health and wellness; healthcare services, namely, wellness programs; providing wellness services in the field of healthcare, namely, personalized assessments, personalized routines, and counseling [psychological therapy]; medical testing for fitness evaluation; health counseling; providing health information; health assessment services; consulting services in the field of women's health; internet-based health care information services; providing physical health information via a website; meditation therapy services; meditation therapy services offered in or from a remote location.

RUDOLPH

Goods and/or Services:

Class 07

Lithography machines for the manufacture of microelectronics, integrated circuits, light emitting diodes, and semiconductors on laminar substrates including wafers, glass panels, and packaging panels such as copper plate or plastic; optical metrology, characterization, and inspection systems comprised of a machine, components and operating software therefor sold as a unit for use in the production of laminar substrates including discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, asic devices, cmos image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, system in package, heterogeneous packaging, and other advanced packaging electronics technologies; optical metrology, characterization, and inspection systems comprised of machine, components and operating software therefor sold as a unit for use in the production of

precision machined optical surfaces, optical coatings, and optical assemblies including reference flat, sphere, asphere and assemblies composed of both refractive and reflective components.

Class 09

Optical metrology, characterization, and inspection systems comprised of machine, components and operating software therefor sold as a unit for use in the testing of transmitted wavefront and surface shape of optical components, surface roughness of optics, metals, semiconductors, ceramics, plastics, paints and other finely finished materials, and defects and geometries of parts in aerospace, automotive, power generation, semiconductor, data storage, bearings, additive manufacturing and other precision-machined components; interferometers for use in the testing of transmitted wavefront and surface shape of optical components, surface roughness of optics, metals, semiconductors, ceramics, plastics, paints and other finely finished materials, and defects and geometries of parts in aerospace, automotive, power generation, semiconductor, data storage, bearings, additive manufacturing and other precision-machined components; downloadable software, namely, process control and defect analysis software for use in the production of laminar substrates including discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, asic devices, cmos image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, system in package, heterogeneous packaging, and other advanced packaging electronics technologies; scientific instruments, based principally upon optical microscope, electron microscope, spectrophotometer, ellipsometer and scanning slit densitometer technology, for metrology purposes, namely, apparatus for measuring physical dimensions of samples and thicknesses of deposited films or for analyzing chemical composition of materials.

Class 42

Providing temporary use on online, non-downloadable process control and defect analysis software for use in the production of laminar substrates including discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, asic devices, cmos image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, system in package, heterogeneous packaging, and other advanced packaging electronics technologies.
