flashing-light units; electronic power supply devices for discharge lamps; data media, especially magnetic or optical media; integrated circuits; fiber-optic cables; coaxial cables; distance recording apparatus; information processing apparatus; readers (data processing equipment); trial frames; spectacle pads; spectacle lenses; power correcting lenses, spectacle lens filters; signaling system with light-emitting diodes, including high power diodes; scientific, nautical, photographic, cinematographic, optical, weighing, measuring, signaling, position-indicating, detection, checking (supervision), life-saving (rescue), and security apparatus and instruments; magnetic recording media, optical or sound recording disks; compact discs, DVDs and other digital recording media, equipment for data processing and computers; electric batteries; electric wires; electric relays; diagnostic apparatus not for medical use; integrated circuit cards (smart cards); electric and electronic apparatus, instruments, materials and equipment for the driving assistance and navigation of land vehicles; utility trays, optical, electric and electronic wiring systems, including in pre-assembled form particularly for vehicles and all components for transmission by multiplexing, coupling or other means of signals (sounds, images, data) or information on vehicles; wireless monitoring, regulation, control and connection systems between electronic apparatus and a land vehicle; on-board communication networks for vehicles, microphones; earphones; electric

terminals; electric connectors; electric and/or electronic controls for driving assistance, navigation of land vehicles; transponders; alarms, especially with ultrasound sensors; air analysis apparatus; starter cables for motors; fuses; mobile telephones; multimedia equipment for the information and entertainment of passengers of a vehicle; headlight inclination correctors; signaling lights indicators; electronic or digital position indicators for valves and faucets, and parts thereof; capacitors; batteries for vehicles; electric and electronic apparatus, instruments, materials and equipment for the driving assistance and navigation of land vehicles; on-board communication networks for vehicles; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, position-indicating, detection, checking (supervision), life-saving (rescue), security and teaching apparatus and instruments; electric and electronic apparatus, instruments and material and equipment for vehicles, namely, controls for windshield wipers, headlights, heating and air conditioning, seat adjustment, window regulators, sunroofs, radio and navigation, cruise control; combined systems of car radios, navigation and air-conditioning management; optical readers; distance measuring apparatus; modems; monitors (hardware); monitors (computer programs); satellite navigation apparatus; navigation apparatus for vehicles (on-board computers); computers; simulators for vehicle driving or control; electric cards; devices for regulating headlight beams; variators for lighting intensity, especially as a function of braking for brake lights; pre-collision detection and collision avoidance systems; light variation sensors; equipment for communication via Internet link or similar equipment and for data display inside a vehicle; reception antennas, transmission antennas for sound, images and data; head-up display screens; lateral trajectory monitoring systems; road-marking detection apparatus; apparatus and instruments for processing video images; systems and instruments for the remote control of vehicles; systems for blind spot monitoring and lane changing assistance; electronic management systems for lighting and signaling and cameras; lenses for sunglasses, polarizing lenses, tinted lenses, filtering lenses, colored lenses, light-sensitive lenses, light-adjusting lenses; computer software for controlling and monitoring optical and measuring apparatus and instruments; software for measuring and displaying optical parameters; optical measuring apparatus; eyewear; spectacles (optics); spectacle frames; circuit breakers; battery kill-switch (at rest and in the event of collision); electronic battery management devices; traditional semi-conductor fuse boxes, electric interconnection housings; on-board communication networks for vehicles, in particular multiplexed and in particular apparatus and instruments for mobile telephones known as hands-free kits with a microphone, headphones whether wired or wireless; liquid level sensors; oil level sensors; temperature sensors; rain sensors; dirt sensors; pressure sensors; presence detectors; motion and motion analysis detectors; electric or electronic regulators for alternators; electronic power equipment (current inverters and current converters); rectifiers, in particular diode bridges, Peltier-effect modules, exchangers for diodes and modules; software download and software update systems; ignition switches; suppression capacitors; electric and/or electronic clutch controls; electric or electronic gearbox controls; electric control panels; navigation assistance devices comprising a compact disk player or other digital data carrier, a liquid crystal display screen, a microphone, a keyboard, loudspeakers, earphones; parking assistance and automated parking system, namely, parking assistance radars, vehicle reversing sensors, anti-collision and shock-prevention sensors for vehicles, electronic devices, lidars, video cameras, infrared sensors, sonars, anti-collision and shock-prevention radars for vehicles, ultrasound wave transceivers; obstacle detection device; automatic coin or token-operated apparatus, talking machines, cash registers, calculating machines; electronic apparatus for engine thermoregulation; electronic steering apparatus for valved, pumps, ventilation fans; speed checking apparatus for vehicles, speed governors; time recording apparatus; sound recording apparatus; kilometer recorders for vehicles; gasoline gages; computer printers; fire alarms; slope indicators; electric loss indicators; pressure indicator plugs for valves; temperature indicators; speed indicators; barcode readers; electronic notice boards; taximeters; decelerometers; apparatus for checking the efficiency of vehicle braking devices; variators for lighting intensity, especially for brake lights in accordance with braking; electronic control units for electric motors; systems for detecting, processing, signaling and following stationary and moving objects around a vehicle; assistance system for parking, reverse gear and blind spot detection; automatic and remote locking and unlocking system for vehicle apertures; remote control systems for vehicle heating or conditioning by means of a badge, or combined with another apparatus such as a telephone, pocket computer, electronic agenda; system for recovering certain vehicle data on a badge; control monitors; flat screens; compact disk players, including for video compact disks; digital compact disks, including video compact disks and other data media; head-up screens and display devices; signaling light indicators; control devices for torque converters for vehicles; control devices for brakes and braking installations for vehicles; apparatus for checking the efficiency of vehicle braking devices; measuring, signaling, position indication, detection, checking (inspection), life-saving, security apparatus and instruments; electronic apparatus intended for vehicle driving assistance; electronic apparatus for vehicle parking assistance; electronic apparatus for detecting and warning of continuous or discontinuous line crossing for vehicles; electronic apparatus for detecting, recognizing and reading road traffic signs; electronic navigation apparatus for vehicles; GPS receivers, telephones; mobile telephones; systems for the remote control of vehicle heating or air conditioning by means of a badge, or in combination with another device such as a telephone, mobile telephone, pocket computer, electronic agenda; software for retrieving data recorded on a key fob or in combination with other apparatus such as a telephone, mobile phone, pocket computer, electronic agenda; system for

retrieving certain vehicle data on a key fob; equipment for communication via telephone link or the Internet or similar type and displaying of data on handset or other devices such as a telephone, mobile telephone, pocket computer, electronic agenda; video sensors, video cameras; apparatus and instruments for electrical and electronic communication and telecommunication; fixing brackets, power supply devices, electric connection devices, batteries, protective casings for mobile telephones, GPS receivers, video cameras; software for use in vehicle driving assistance; software for vehicle parking assistance; software for detecting and warning of continuous or discontinuous line crossing for vehicles; software for the detection, recognition and reading of road traffic signs; software used for navigation for vehicles; telephones; software used for obstacle detection; software for communication between a motor vehicle and a fixed station; software for communication between a motor vehicle and a mobile telephone; software for the automatic and remote starting of vehicle components; software for the access and starting of a vehicle without a key; software for the automatic opening and closing of the doors, trunk, hood, roof of a vehicle; software for the remote control of vehicle heating or air conditioning by means of a badge, handset or other devices such as a telephone, mobile telephone, pocket computer, electronic agenda; software for recovering some vehicle data on the badge or in combination with other devices such as a telephone, mobile telephone, pocket computer, electronic agenda; voice recognition software, voice synthesis software; integrated systems of car radios, navigation and air-conditioning management; anti-pinching systems for window-lift and sliding roofs; power electronics (current inverter and current variator); electrical and/or electronic power steering device; dashboard instruments, namely revolution counters; systems for the remote control of vehicle heating or air conditioning by means of a fob, or in combination with another device such as a telephone, pocket computer, electronic agenda; combined systems of car radio, navigation and air-conditioning management; battery cut-off switches (at rest and in the event of collision); electronic battery control equipment; traditional semi-conductor fuse boxes, electric interconnection housings; signaling systems with light-emitting diodes, including high-power diodes; direct current converters (for transforming direct current voltage); rectifiers, in particular diode bridges, Peltier-effect modules, exchangers for diodes and modules; software download and update systems; electronic devices for electric and/or electronic power steering; electric devices for electronic assisted suspension; capacitors for radio interference suppression; electric or electronic controls for gearboxes; dashboard instruments, namely revolution counters, speedometers, multi-function displays, liquid crystal displays, on-board vehicle computers, navigation assistance devices comprising a compact disk player or other digital data media, a liquid crystal display screen, a microphone, a keyboard, loudspeakers, earphones; liquid crystal displays; electric control levers; parking assistance systems, namely, parking assistance radars, vehicle reversing sensors, anti-collision and shock-prevention sensors for vehicles, electronic devices, lidars, video cameras, infrared sensors, anti-collision and shock-prevention radars for vehicles, ultrasound wave transceivers; systems for parking assistance and self-parking; obstacle detection devices; systems for communication between a motor vehicle and a fixed station; intermittent light ignition modules (flashers); electronic thermoregulators for motors and engines; electronic pilots for valves, pumps and fans; bar code readers; variators for lighting intensity, especially as a function of braking for brake lights; systems for detecting, processing, signaling and following stationary and moving objects around a vehicle; built-in electronic driver assistance systems, namely electronic systems for parking, reversing and blind spot detection, and electronic automatic braking systems; pre-collision detection and collision avoidance systems; automatic and remote locking and unlocking systems for vehicle apertures; automatic and remote starting for vehicle systems; keyless access and starting systems for vehicles; automatic opening and closing systems for vehicle doors, trunks, hoods and roofs; systems for remote control of heating or air conditioning in vehicles by means of a fob, or in combination with other devices such as a telephone, pocket computer or electronic agenda; systems for recovering some vehicle data on a fob; antennas for reception, antennas for transmission of images, sounds and data; electronic lateral trajectory correction devices in case of accidental deviation of a vehicle; vehicle teleguidance systems and instruments; blind spot monitoring and lane changing assistance systems; electronic management systems for lighting and signaling and cameras; dashboard instruments, namely, tachometers; electronic equipment and software for vehicle location services; downloadable software applications for keyless vehicle access and start; downloadable software applications for automatically opening and closing vehicle doors, trunks, hoods, roofs; downloadable software applications for vehicle rental services; downloadable software applications for vehicle loan services; downloadable software applications for vehicle location services; downloadable software applications for activating and deactivating electronic apparatus and instruments installed on a vehicle; downloadable software applications for traffic condition and accident alerts; downloadable software applications for weather forecast warnings; downloadable software applications for the control from a vehicle and/or delivery to a vehicle of online orders; software for coordinating transportation services, namely software for automated control and dispatch of vehicles; on-board electronic modules for broadcasting, transmitting, receiving, processing, diagnosing, analyzing, correcting vehicle operating status information; embedded electronic module software for the broadcasting, transmission, reception, processing, diagnosis, analysis, correction of vehicle operating status information; apparatus for locating, identification, monitoring, remote control of vehicles; software for collecting and providing information on parking spaces for vehicles; automatic driving systems for vehicles; downloadable software applications for vehicles; photovoltaic cells; lasers not for medical purposes;

computer software and computer hardware, namely, sensors, wireless transceivers providing connectivity within the vehicle, between vehicles, with cell phones, and data centers, with touch, audio and visual interfaces enabling interaction with the driver and passengers of the vehicle; diagnostic apparatus incorporating sensors for testing vehicle operation and for diagnosing electric, electronic and mechanical vehicle problems, anti-theft warning apparatus; warning device for low pressure in vehicle tires; encoded key cards; cell and battery chargers; intercommunication apparatus; meteorological instruments; electronic devices for reading, transmitting and processing of traffic signs data; electronic devices for reading, transmitting and processing data emitted by a vehicle; solar panels for electricity production; vehicle driver facial recognition device; biometric vehicle driver identification system; vehicle driver fingerprint identification apparatus; alcohol interlock for vehicles; software intended for the detection of signs of vehicle driver fatigue; software for the detection of signs of vehicle driver inattention; vehicle passenger fingerprint identification apparatus; wire for aerials, namely connection cables; electromagnets, especially for carrying purposes; equipment for eliminating pollutant gases for vehicles, namely gas-testing apparatus; electric controls for the driving assistance and navigation of land vehicles; electronic actuators for assisting in the driving, navigation of land vehicles; electro-mechanical actuators for driving assistance, navigation of land vehicles; command or control elements and devices and control panel for vehicle heating, cooling, ventilation, conditioning, climate control, and demisting apparatus; apparatus for checking the efficiency of a vehicle braking device, decelerometers; air ozonizers; ozonizers (ozonators); signaling lights for vehicles; electric control apparatus for cleaning and washing vehicle rear windows; electric control apparatus for cleaning and washing vehicle cameras; electrical control apparatus for cleaning and washing front and rear vehicle headlights; electric control apparatus for cleaning and washing vehicle windshields; charging stations for vehicles; organic LEDs; activation system for lighting, heating, cooling, drying, ventilating and water distribution apparatus triggered by electronic devices for reading, transmitting and processing traffic sign data; deactivation system for apparatus for lighting, heating, cooling, drying, ventilating, water supply triggered by electronic devices for reading, transmitting and processing data from signaling panels; dimmers for lighting, heating, cooling, drying, ventilating, water supply apparatus triggered by electronic devices for reading, transmitting and processing traffic sign data; activation system for lighting, heating, cooling, drying, ventilating and water distribution apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle; deactivation system for apparatus for lighting, heating, cooling, drying, ventilating, water supply triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle; dimmers for lighting, heating, cooling, drying, ventilating, water supply apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle; electronic equipment intended for use in servicing, cleaning, charging air conditioning apparatus for vehicles; electronic clutch control systems for vehicles; electronic control systems for the driving assistance and navigation of land vehicles; electric clutch control systems.

CLASS 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water distribution and sanitary installations; lighting installations, headlights for vehicles; headlamp glasses; vehicle headlights; ceiling lights; lamps; installations for heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; hot air ovens; air conditioners; air conditioners; convectors; heat exchangers; radiators, finned tubes for heating vehicles, boilers; central heating equipment; urban heating facilities; apparatus for heating, refrigerating, aeration, ventilation, conditioning, air-conditioning, defogging for vehicles; heat exchangers; ventilator fans for air-conditioning; heat accumulators; air purification apparatus and machines; air deodorizing apparatus; air filters for air conditioning; air filtering installations; light bulbs; light bulbs for directional signals for vehicles; electric light bulbs; demisting heating apparatus for vehicles; anti-glare devices for vehicles (lamp fittings); heating apparatus for defrosting windows of vehicles; radiator caps; solar collectors (heating); heat regenerators; air conditioners for vehicles; air-conditioning installations for vehicles; defrosters for vehicles; liquid coolers (installations); level regulating valves for tanks; pressurized water tanks; evaporators; electric radiators; storage devices for heat or cold; lighting systems, directional lighting systems; anti-glare lighting systems for other drivers; lighting systems for reducing glare from other drivers; air intake control valves on a radiator; installations for heating, ventilation, comprising a device for the distribution of fragrances and perfumes inside a vehicle passenger compartment, apparatus for heating, aeration, ventilation, air conditioning, cooling, demisting for vehicles comprising a device for the distribution of fragrances and perfumes inside a vehicle passenger compartment; installations for heating, ventilation, comprising a device for the distribution of anti-allergic products inside a vehicle passenger compartment, apparatus for heating, aeration, ventilation, air conditioning, cooling, demisting for vehicles comprising a device for the distribution of anti-allergic products inside a vehicle passenger compartment; installations for heating, ventilation, comprising a device for the distribution of air purifying products inside a vehicle passenger compartment, apparatus for heating, aeration, ventilation, air conditioning, cooling, demisting for vehicles comprising a device for the distribution of air purifying products inside a vehicle passenger compartment; installations for heating, ventilation, comprising a device for the distribution of fragrances and perfumes inside a vehicle passenger compartment; air-conditioning installations for vehicles comprising a device for the

distribution of anti-allergen products in the passenger compartment of vehicles; air-conditioning installations for vehicles comprising a device for the distribution of air-sanitizing products in the passenger compartment of vehicles; glass panes for headlamps; air conditioners for land vehicle interiors; turbine blowers for ventilation; lighting systems with light-emitting diodes, including high-power diodes; headlight mirrors (transparent wall for enclosing headlights); lighting and signaling systems with light-emitting diodes, including high-power diodes; lighting systems for automatic activation and deactivation of high beam when approaching another vehicle; lighting systems for automatic activation and deactivation of high beam when approaching a pedestrian; lighting systems for automatic activation and deactivation of high beam when approaching a lit section of road; air reheaters; air driers; air sterilizers; fans (parts of air-conditioning installations); facial sprays; electric fans for personal use; air cooling devices; deodorizing apparatus for diffusing fragrances in motor vehicles; equipment for eliminating pollutant gases for vehicles, namely air filters for air conditioning, thermostatic valves (parts of heating and air conditioning installations), apparatus for purifying pollutant gases to prevent their intrusion into the passenger compartment of motor vehicles; lighting apparatus with light-emitting diodes (LED); electromagnetic light-emitting diode lighting systems, in particular carrying devices; lighting systems with light-emitting diodes, including high-power diodes; directional lighting system; lighting systems for reducing glare from other drivers.

CLASS 12

Driverless cars [autonomous cars]; driverless car; automaton car; self-driving car; robot car; driverless smart vehicle; Motors for land vehicles, transmissions for land vehicles, clutches, clutch mechanisms, friction discs, clutch release bearings, hydraulic clutch control system, electric clutch control system, electronic and hydraulic clutch control system for vehicles, torque converters for vehicles, command or control parts and devices thereof; belt speed drives, for land vehicles; hydrodynamic retarders and brakes and eddy current (Foucault current) retarders and brakes for vehicles as well as component parts thereof, spare parts for mechanical, hydraulic, pneumatic, electrical or electronic fastening, controlling, testing and connecting; safety belts for vehicle passengers; accessories for vehicle equipment or decoration, namely: hoods, doors, bumpers, steering wheels, windshields, windows, hoods for vehicles, gearboxes, axles, wheels, wheel rims, tires, inner tubes, tire nails, hub caps, wheel centering leads, air pumps, chains for automobiles, seats, seat covers, children's safety seats, head rests for seats, trailer couplings, luggage racks, ski racks; correction devices for the inclination of the light beam of headlights for land vehicles; electric and/or electronic power steering; electronic assisted suspension; brake linings for vehicles; steering locks; horns for vehicles; support plates and transmission components for vehicles; electric motors for vehicles; geared motors for land vehicles; compressed air propulsion device for washing vehicle windows; compressed air and water propulsion device for washing vehicle windows; windshield washer bottles; lockless petrol tank caps; hydraulic clutch control brake cylinders for vehicles; master cylinders for brakes or clutches for vehicles; vehicle door handles; motors and engines for land vehicles; transmissions for land vehicles; clutches for land vehicles; clutch mechanisms for land vehicles; friction discs for vehicles; clutch release bearings for vehicles; clutch torsion dampers for vehicles; hydraulic clutch control system for vehicles; electric clutch control system; hydraulic clutch control systems for vehicles; torque converters for vehicles, control or regulating parts and devices thereof; brakes and braking installations for vehicles, their command or control parts and devices; windshield wipers and components thereof such as windshield wiper blades, connectors for windshield wiper blades and systems for attaching windshield wiper blades, arms, deflectors, transmission components for land vehicles; windshield wiper movement transmission assemblies; windshield wiper support plates; electric motors for land vehicles; electric motors for motor vehicles; reversing alarms for vehicles; gearboxes for land vehicles, hydraulic circuits for vehicles; upholstery for vehicles; control devices for torque converters for vehicles; control devices for brakes and braking installations for vehicles; brake shoes, brake pads and shoes, brake disks; robotic gearboxes; windshields comprising a screen for viewing data and images; rearview mirrors with video camera, with display, with signal lights; petrol tank caps with lock; motors and engines for land vehicles; suspension shock absorbers for vehicles; vehicle chassis or bumpers; electric vehicles; hydraulic control systems for the driving assistance and navigation of land vehicles; brakes and braking equipment for vehicles, control and regulation units and devices for the assistance, operation and navigation of land vehicles; equipment for eliminating pollutant gases; windshields; rearview mirrors; dashboards for land vehicles; fly-wheels for land vehicles; fly-wheels with torsional dampers for land vehicles; torque converters for land vehicles, their command or control parts and devices; horns for vehicles; propulsion mechanism for land vehicles; endless electric field motors for vehicles; ionic motors for vehicles; noble gas motors for vehicles; compressed air propulsion motors for vehicles; graphene-powered battery motors for vehicles; fuel cell electric motors for vehicles; solar-powered vehicles; rechargeable electric hybrid vehicles; couplings for land vehicles; anti-theft alarms for vehicles; anti-glare devices for vehicles; bodies for vehicles; civilian drones; headlight wipers; direction signals for vehicles; jet engines for land vehicles; remote-controlled vehicles other than toys; vehicle structural parts of metal; cigar lighters for automobiles; electronic power-suspension devices for land vehicles; robotic gearboxes for land vehicles; hydraulic or pneumatic control systems for hydraulic clutches for land vehicles; clutch mechanisms for land vehicles; friction discs for land vehicles; release bearings for land vehicles; hydraulic clutch control systems for vehicles; torque converters for land

vehicles; brake shoes, brake pads and shoes, brake disks for vehicles; shoes, shoe plates, blocks, washers, sectors, discs, belts, bearing rings, rollers, made of or coated with friction or anti-friction bodies, all as parts of vehicles; electric steering wheel locks for vehicles; compressed air and water propulsion devices for washing vehicle headlights; headlight wipers for vehicles; accessories for vehicle equipment or decoration, namely, hoods, doors, bumpers, steering wheels, windshields, windows, hoods for vehicles, gearboxes, axles, wheels, wheel rims, tires, inner tubes, tire nails, hub caps, wheel centering leads, air pumps, chains for automobiles, seats, seat covers, children's safety seats, head rests for seats, trailer couplings, luggage racks, ski racks; drone; bodies of metal for land vehicles incorporating photovoltaic cells.

telecommunications networks; electric apparatus (hardware and software) for providing telecommunications and radio networks through wire, cable, optical fibre, radio or satellite; electric/electronic apparatus for communicating, transmission and reception of speech, images, data and multimedia data; network applications, in particular apparatus for computer networks and systems consisting thereof for internet networks; electronic devices and installations consisting thereof for the transmission of messages, information, data, sound and images through waves, cable, optical fibre,; telephone, satellite, terminals, telecommunications networks and computer networks; telecommunications and desktop automation terminals [hardware] for military applications; software programs in a computer-readable format, provided on magnetic or optical media or in a downloadable; format for use with the aforesaid goods; software programs for secure communications and for facilitating the authentication, examination, recording and analysis of business relations and transactions using a system of controlled access rights and notifications, equipment and stations; consisting thereof for satellite telecommunications, in particular in air vehicles; software (recorded/stored programs) for communications and radio communications networks for the transmission of data through wire, cable, optical fibre, radio or satellite; software (recorded/stored programs) for encryption and decryption; simulation, model creation, testing and experimental software; servers for modelling, simulating, testing and experiments in connection with civil and military operations; software for planning, capturing, processing and disseminating intelligence information and data, solely in the fields of secret service information and geography, for defense and security purposes; software (recorded/stored programs) for providing access to an electronic messaging service; transmission security software for intranet and internet data terminals, operating stations and terminals for presenting information in graphic and text form; information technology equipment for the secure processing of information; secure telecommunications devices and equipment consisting thereof; software for synchronizing secure data between a remote data station; or a remote device and a fixed or remote data station or a device of this kind; electric and electronic instruments and equipment (audio and visual apparatus) for displaying reports, analysis and measurement results, in particular in the form of graphs, tables and charts, being the outcome of; analyzing and monitoring the performance of navigation signals and/or data; computer software (recorded/stored programs) for examining and identifying space segments in two or three dimensions; sensors and communications apparatus and equipment; industrial geoproduction systems, consisting of software and hardware for a digital process chain for generating satellite, aerial or terrestrial images and 3D data; software for the field of satellite imaging and data; data processing equipment, in particular using satellites; computer software for processing and analyzing photographs, including aerial and satellite photographs; computer software for stereographic projections, digital terrain models, orthophotos and thematic maps; database management software, including for stereographic reproduction, for storing, preparing, processing and analyzing drawings, depictions, photographs, maps, aerial and satellite images and surface models; apparatus for processing, analysis, reproduction and storage with the aid of images generated by satellites; computers and computer software for industrial purposes, namely for the fire service and the government, in connection with operational systems, client management, installation management systems, geographical information systems, CAD systems, real-time display systems and mobile

systems, and the configuration thereof, for use with suitable computer hardware; database management software, in particular for stereographic reproduction, for storing, creating, processing and analyzing drawings, images, photographs, graphic representations, aerial and satellite images and surface models; data carriers for computer software (computer programs), computer files and software packages, for stereographic reproduction and for storing, creating, processing and analyzing surface models, images and photographs; satellites; satellite navigation systems; satellites for scientific purposes, in particular satellites for terrestrial observation and radar satellites; remote control apparatus; aerial imaging sensors; broadcasting systems; electric and electronic apparatus for generating digital topographical models; databases containing digital topographical models (software); software packages for processing and evaluating photographs, including aerial and satellite images; software packages for stereographic reproduction, for creating digital terrain models, for orthophotos and for thematic maps; computer files and software packages featuring geographical, geological, cartographic and topographical content; computer files [software] and software packages featuring terrain representations and digital maps; satellite communications apparatus and instruments; terminals for satellite communications; communications apparatus and instruments; telephone apparatus, teleprinters and facsimile transmission machines; data processing and transmission apparatus and; instruments; computer terminals including keyboards, visual display units; communications and transmission apparatus, instruments and systems consisting thereof and computer software and peripheral devices for providing and managing news, information about weather, sporting events and; other information applications, including the internet; systems consisting of computer hardware and software, communications and transmission apparatus and instruments for facilitating real-time communications between users and providers via the internet; computer software for facilitating and for operating business systems, including business systems via the internet and the world wide web; computer software for simulating and analyzing satellite communications systems; computer software programs for operating and managing satellite communications systems; television, audiovisual, video, sound recording and sound reproduction apparatus and instruments; apparatus and instruments for storing, recording, reproduction, retrieval, reading and transmission of data, images, sound and other information; apparatus and instruments for broadcasting, transmission, reception, processing, duplicating, encoding and decoding of digital and satellite signals; parts and components for all the aforesaid goods, included in this class; daytime and night-time sights and attachments and targeting apparatus for observation purposes; electronic apparatus and software for target recognition, target identification and target tracking, and for fire control and ballistic correction; sighting apparatus with gyroscopically stabilized biaxial sighting lines for observation purposes; photogrammetric film cameras; electrooptical surveillance and observation apparatus and systems, and software therefor, in particular evaluation and display software for use on land, on water, in the air and in space; periscopes and systems consisting thereof for use in air, water and land vehicles, submarine periscopes; optoelectronic mast systems; optoelectronic mast systems for submarines, including control consoles, and software required therefor, in particular image processing software; optical apparatus for the line of sight direction stabilization on the basis of control signals from; mechanical, optical or fibre-optic gyroscopes, accelerometers or from image evaluation algorithms; periscopes with direction-stabilized line of sight for use on land, on water and in the air; gyroscopically and inertially stabilized or scene-based stabilized commander's periscopes and electrooptical; observation, monitoring and targeting devices and systems consisting thereof, and electronic driver vision devices, driver assistance devices, situational awareness devices and systems consisting thereof for armored vehicles; optoelectronic sensors for air defense systems featuring TV assemblies, thermal imaging apparatus, laser rangefinding apparatus and laser target illuminators (laser designators); laser rangefinders, laser target illuminators and laser warning systems; laser altimeters, in particular including for use in space; stabilized platforms for electrooptical surveillance cameras, vision equipment and electronic, electrooptical and optical sensors for manned and unmanned air vehicles, land vehicles and water vehicles; adapted containers for tactical and strategic observation, monitoring and surveillance apparatus with multi-sensor equipment for air vehicles; missile warning sensors for use on water, on land and in the air; laser warning apparatus, thermal imaging apparatus and daytime vision apparatus and systems consisting thereof for use on land, on water and in the air; imaging electrooptical apparatus and systems in the near infrared (NIR) and short-wave infrared (SWIR) areas for use on land, on water and in the air; thermal imaging apparatus and imaging apparatus in the near infrared (NIR) and short-wave infrared (SWIR) areas for aircraft, helicopters, battle tanks, armored personnel carriers, armored scout vehicles and other armored vehicles and ships; gyroscopically stabilized commander's periscopes with integrated thermal imaging apparatus; submarine periscopes and optoelectronic mast systems with integrated laser rangefinding, laser target illuminators and integrated thermal imaging apparatus and integrated line of sight direction stabilization, in particular with an integrated image processing platform and high-level algorithms, including image fusion and tracking; electrooptical observation and monitoring apparatus and systems consisting thereof, stationary and mobile, for applications on land, on water, in the air and in space; software and programs for operating and controlling apparatus and systems, and for data and image processing; sensors for position regulation and orbit control, in particular for satellites, optical

instruments for terrestrial observation and for observing other natural or technical objects in space, star and solar sensors; rendezvous and docking sensors for aerospace, multispectral imaging apparatus; focal plane devices (optics); electronic apparatus and computers for aerospace; inertial and gyro sensors; power supply apparatus, namely power supply aggregates, photovoltaic installations for the production of electricity [photovoltaic power plants], photovoltaic devices and installations for the production of solar electricity and photovoltaic devices for the conversion of solar radiation into electrical energy; solar installations for generating power, namely consisting of solar modules for power generation, inverters, electronic devices and instruments for control, regulation, acquisition and monitoring; apparatus for recording, transmission, processing or reproduction of sound or images, and software therefor for controlling, recording, transmission, evaluation and processing of images or data; machine-readable data carriers; microwave switches; DC converters; laser transmitters and receivers; electronic amplifiers; power amplifiers; satellite transmitters and receivers for analogue and digital signals; data processing apparatus and computers, and their peripheral devices, disk drives, scanners and screens therefor, and installations consisting of data processing apparatus and computers; keyboards and printers; computer programs for providing realtime, multimedia, multi-sensor and multi-user communications via computer networks; communications apparatus and systems consisting thereof, including systems for receiving and reproducing terrestrial signals and satellite signals, consisting of electric and electronic apparatus and instruments for communications, keyboards and printers; laser communications terminals; hardware and software for sensor data fusion, including databases and the object world; hardware and software for augmented reality and virtual reality applications, including presentation media, monitors, tablets and smartglasses; hardware and software for displaying maps and positions; jammers [electronic signals]; direction finding and position finding apparatus for ships, land vehicles, aircraft, helicopters and drones; sensors [hardware and software] for the detection of electromagnetic, ultraviolet and infrared radiation, and self-defense systems composed thereof for ships, land vehicles, aircraft and helicopters; apparatus for guided and directional infrared counter measures (DIRCM), namely protective systems enabling vehicles, in particular aircraft, for defending against guided missiles equipped with IR seeker heads; IR lasers and lasers (DIRCM) for defending against missile attacks; databases [software] for identifying electronic threats; electric/electronic apparatus and systems consisting thereof for signal encryption and decryption, and test apparatus therefor; IFF (identification friend or foe) receivers (transponders) on airborne platforms; IFF query apparatus, namely directional antennas and radar systems for transponder query, in particular for the identification of aircraft and systems consisting thereof (secondary radars) on ships and land-based platforms; electric, electronic and optical apparatus and systems consisting thereof for assistance in conditions of restricted visibility and for detecting enemy fire; antennas, transmitters and receivers for wide-band data transmission; hardware and software for mission planning and evaluation for airborne platforms; hardware and software for capturing maintenance and diagnostic data from airborne platforms; information technology and audiovisual apparatus; communications equipment; antennas and antennas installations consisting thereof being communications apparatus; apparatus for line of sight stabilization being parts of optical apparatus; Satcom antennas, data loggers; apparatus for recording conversations; detectors, rangefinders, rangefinding apparatus, binoculars, spyglasses, telescopes, filters (photography), photovoltaic cells, computer programs, global positioning system (GPS) apparatus, downloadable computer programs, calipers, directional compasses, correcting lenses (optics), lasers (not for medical purposes), close-up lenses, surveyors' levels, lenses, instruments containing eyepieces, eyepieces, optical apparatus, instruments and equipment, periscopes, prisms, transmitters of electronic signals, stands for photographic apparatus and cameras, telescopes, surveying apparatus, sighting telescopes; electronic and optical spyholes for doors and peepholes (magnifying lenses) for doors; helmet target tracking systems and helmet display systems [optical and electronic apparatus and instruments] for use in air, land and water vehicles; multispectral landing aids (optical apparatus and instruments) for helicopters; laser target illumination systems, namely lasers for marking targets for combat aircraft [laser target devices]; sensor platforms for military air vehicles equipped with electronic, electrooptical, optical and radar sensors; driver vision apparatus, namely optical and optronic display devices for driving a vehicle by day/night and restricted visibility; boresight equipment [target line testers], namely instruments used for calibrating a sight on the barrel of a gun; residual light intensifiers; storage bags and cases for the aforesaid goods, and software for all the aforesaid goods; apparatus for target marking (targeting pods); UCM (uncooled modules) being; night vision attachments, including software and map/position display; computer software for encryption, electronic encryption apparatus.

CLASS 12

Vehicles; helicopters, rotorcraft; drones; vehicles, including military vehicles, for transport; side cars; pick-ups; vehicles and side cars for signal and radio surveillance, location and jamming; jamming and surveillance vehicles; parts and fittings for all the aforesaid goods, included in this class; air vehicles; space vehicles; transport vehicles adapted for satellites, telecommunications transmission satellites, earth and space observation systems, consisting primarily of space stations equipped with optical measuring and signalling apparatus and instruments; space transport systems, consisting primarily of

space vehicles with equipment for payload retention; vehicles, and parts and accessories therefor, included in this class; masts for ships; roof boxes; vehicles for electronic warfare.

CLASS 13

Weapons; ammunition and projectiles; explosives; fireworks; firearms, small arms, guns, and parts for the aforesaid goods, included in this class; sighting devices; firing control installations; smoke projectiles; seeker heads, weapons and apparatus for self-defense; sights, other than telescopic sights, for artillery; sights, other than telescopic sights, for firearms; storage bags and cases for the aforesaid goods; daytime and night-time sights and attachments and target apparatus for firearms; optical sights being parts of firearms; reflex sights being parts of firearms; daytime and night-time sights and precision gauges for firearms; sighting apparatus with gyroscopically stabilized biaxial sighting lines for firearms.

CLASS 37

Building construction; installation, repair and maintenance of control stations [hardware] for mission preparation, mission execution and mission follow-up for manned and unmanned air vehicles [hardware]; installation and maintenance of data processing apparatus and computer hardware; consultancy and information services in connection with all the aforesaid services, included in this class; commissioning, repair and maintenance services for the restoration of electrooptical apparatus; maintenance and repair of electrooptical apparatus and installations for others; rental of specialist tools, handling apparatus, transport and storage containers and workshop equipment; installation and maintenance of vehicles and installations [hardware] and systems [hardware] for electronic warfare; installation and maintenance of radar systems [hardware] on vehicles, ships and fixed installations; installation, cleaning, repair and maintenance of apparatus for electronic warfare and for radar systems [hardware]; repair, maintenance and installation in connection with all of the following goods: scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, optical instruments and enhancers and parts therefor, microscopes, magnifying glasses and reading glasses, telescopes, spotting scopes, binoculars and spyglasses, spectacles and loupes, safety eyewear, spectacle lenses, thermal imaging apparatus, night-vision apparatus, thermal image recorders for night-vision purposes, night-vision goggles, telescopes, sighting telescopes, interference and polarization filters, photographic recording, projecting and magnifying lenses, image intensifiers, image intensifier tubes, lens hoods, condensers, mirrors, prisms, objective and ocular lenses, observation eyepieces, photogrammetric cameras, digital cameras, digital cameras with an integrated laser rangefinder and a ballistics information system, measuring instruments, measuring apparatus and parts therefor, in particular for geodetic and nautical purposes, rangefinders, laser rangefinders, optical sights for firearms and astronomical telescopes, reflex sights, daytime and night-time sights, precision gauges, optical parts for headlights; rental of tools, handling apparatus and workshop equipment for repair, installation and maintenance purposes.

CLASS 38

Telecommunications; rental of telecommunications facilities; operation of telecommunication satellites and broadcasting systems; telecommunication services for the operation of telecommunication systems and electronic telecommunication networks; providing of mailboxes; communications, transmission of images and sounds, in particular via computer; transmission of information and data via online services and the internet for the compilation, delivery and dissemination of messages, rental of telecommunications apparatus; information in the field of telecommunications; communications by computer terminals; electronic display services (telecommunications); providing of access to connections to a global data network via telecommunications services; providing of access to electronic databases and information research centres, including for drawings, images, photographs, graphic representations, aerial and satellite images, surface models; communications in connection with data transmission on computer networks; providing of access to databases via the internet; (computerized) transmission of data and images, including for global communications networks (the internet) or for private or restricted access networks (intranets); providing of user access to service providers on a global computer network; computerized transmission of messages and images, in particular high and ultra-high resolution images, and geographical information; satellite-assisted transmission of messages and images, in particular high and ultra-high resolution images, and geographical information; providing of access to databases, in particular image databases containing images generated with the aid of satellites or antennas, transmission of data sets containing global digital topographical models and geographical information; providing of access to databases and information research centres, including for aerial and satellite images, geographical, geological, cartographic and topographical data, terrain displays and digital maps; communication services; satellite communications; telecommunication services; speech and data transmission; telex and facsimile communication services; providing of access to communications information, consultancy in connection with the aforesaid services, included in this class; compilation and transmission of messages; maritime radio via radio satellite (radio services); remote transmission of information (including websites), computer programs and other data; providing of user access to the internet and

to other online systems; communications and transmission via the internet; communication services for facilitating real-time online communications between internet users and content providers; broadcasting and transmission of data, images, sound, graphics and other information; computerized message and image transmission; transmission of electronic mail; digital and satellite transmission; leasing of broadband and uplink connection services; consultancy and information in connection with the aforesaid services, included in this class; information services in connection with telecommunications and satellite communications; communications by computer networks; information in connection with the provision of access to electronic messaging systems; rental of access time to databases; providing of access and leasing of access time to computers.

CLASS 41

Education; provision of training; entertainment; sporting and cultural activities; providing training regarding the operation of control stations for mission preparation, mission execution and mission follow-up for manned and unmanned air vehicles, provision of training, and training; information about educational or entertainment events; film production; digital imaging (photo editing); publication of books, arranging and conducting of colloquiums in the field of the use of satellite data and products derived therefrom; arranging and conducting of conferences in the field of the use of satellite data and products derived therefrom; arranging and conducting of meetings in the field of the use of satellite data and products derived therefrom; arranging and conducting of seminars in the field of the use of satellite data and products derived therefrom; photography, organization of exhibitions for cultural or educational purposes; photographic reporting; publication of texts, other than for advertising purposes, in the field of the use of satellite data and products derived therefrom; electronic publication of books and periodicals in the field of the use of satellite data and products derived therefrom; publication of books; rental of books; rental of motion pictures; rental of sound recordings; arranging and conducting of colloquiums, conferences or congresses; organization and conducting of exhibitions for cultural or educational purposes; electronic publication of books and magazines online; instruction, providing of training and training information in connection with satellite communications and telecommunications, included in this class; providing of online publications from databases on the internet, and services in connection with entertainment; electronic publishing; consultancy and information in connection with the aforesaid services, included in this class; information in connection with sporting events; providing of training regarding the operation of control stations.

CLASS 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; technical consultancy in connection with electrooptical apparatus, monitoring apparatus and monitoring installations; creation (design) of electrooptical apparatus, monitoring apparatus and monitoring installations; setting up (calibration) of electrooptical apparatus, monitoring apparatus and monitoring installations; design of ballistic information systems; scientific and technological services and scientific and technical consultancy in connection with all of the following goods: scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, optical instruments and enhancers and parts therefor, microscopes, magnifying glasses and reading glasses, telescopes, spotting scopes, binoculars and spyglasses, spectacles and loupes, safety eyewear, spectacle lenses, thermal imaging apparatus, night-vision apparatus, thermal image recorders for night-vision purposes, night-vision goggles, telescopes, sighting telescopes, interference and polarization filters, photographic recording, projecting and magnifying lenses, image intensifiers, image intensifier tubes, lens hoods, condensers, mirrors, prisms, objective and ocular lenses, observation eyepieces, photogrammetric cameras, digital cameras, digital cameras with an integrated laser rangefinder and a ballistics information system, measuring instruments, measuring apparatus and parts therefor, in particular for geodetic and nautical purposes, rangefinders, laser rangefinders, optical sights for firearms and astronomical telescopes, reflex sights, daytime and night-time sights, precision gauges, optical parts for headlights; quality control and technical testing, checking, analysis and/or monitoring of signals in connection with vehicles, apparatus for locomotion by land, air or water, in particular helicopters, rotorcraft and drones; quality control and technical tests, analysis and monitoring relating to the performance of methods, algorithms, processing and software modules and development of the above-mentioned performance for the computerized processing of signals in connection with vehicles, apparatus for locomotion by land, air or water, in particular helicopters, rotorcraft and drones; quality control and technical testing, trialling, analysis and/or monitoring of algorithms for data generation systems; engineering in the field of monitoring and checking performance parameters in connection with vehicles, apparatus for locomotion by land, air or water, in particular helicopters, rotorcraft and drones; engineering in the field of signal testing; engineering in the field of developing algorithms and methods for the computerized processing of signals; scientific appraisals and assessments for creating and/or presenting results, in particular in the form of research reports, graphs, tables and charts; scientific and technological services and research and design relating thereto provided by engineers in the fields of data processing, data analysis and data conversion; development (design, preparation) and updating of

programs for computer bases; research and development and adaptation of telecommunications networks and radio communications networks in connection with vehicles, apparatus for locomotion by land, air or water, in particular helicopters, rotorcraft and drones; design, development and updating (for others) of software (recorded programs) for managing, administering, designing, configuring and securing local or remote communications networks for the transmission of speech, images, data or multimedia data in connection with vehicles, apparatus for locomotion by land, air or water, in particular helicopters, rotorcraft and drones; design, preparation and updating (for others) of software (recorded programs) for designing, preparing, managing and securing access to computer networks and IP (internet protocol) networks; design and development of control stations, comprising application-specific computer software, computer hardware and communications apparatus for mission preparation, mission execution and mission follow-up for manned and unmanned air vehicles; design and development of application-specific computer software and computer hardware for use in control stations for mission preparation, mission execution and mission follow-up for manned and unmanned air vehicles; design and development of computer hardware and software for radar apparatus; computerized services regarding the evaluation of aerial or satellite images (monochromatic or multispectral); physics (research), engineering or information technology services in connection with computerized services regarding the processing of aerial or satellite images (monochromatic or multispectral), development of databases of global digital topographical models; scientific and technological services, namely providing of terrestrial observation data generated with the aid of satellites, precise relief measurement, precise weather measurements, measurement physics (characterization of objects observed on the ground as a function of their spectral signatures, atmospheric influence, geometric and radiometric model depictions using on-board cameras); scientific and research applications, studies and projects with the purpose of developing and validating geodata in connection with digital topographical models; research and design in the field of satellite images, and exploitation of corresponding data, namely technical development of methods for processing corresponding data, namely technical development of methods for processing data from observation satellites, preparation of technical processing protocols for using satellite data to generate geographical information, and engineering in the field of programming aerial images from a network of observation satellites; industrial analysis and research services in the fields of displaying images through satellite and using the data in connection therewith; industrial analysis and research services based on digital topographical models for applications in the field of processing and orthorectification of other geodata, mapping, creation of models of geophysical processes on earth, calculation of wave propagation in the field of telecommunications, and logistical and; safety applications in transport (aerospace, vehicles); design and development of computers and software; recovery of computer databases; environmental protection consultancy; technical and/or EDP consultancy regarding the planning of crisis interventions; technical and/or EDP consultancy regarding defense and security policy operations; conversion of data and computer programs (other than physical conversion); design of computer software; technical project studies; field measurement; surveying of oil fields; geological surveys; geological research; analysis for crude oil and natural gas production; land surveying; conducting of exploratory drilling for crude oil; urban planning; computer programming; creation and maintenance of websites for others; geological prospecting; research services in the field of cartographic products, land coverage maps and land registries; technical information and research services provided by engineers in connection with the presentation of images generated with the aid of satellites, in particular geographical images, geographical maps and topographical base maps consisting of images generated with the aid of satellites or antennas; technical information and research services provided by engineers in connection with the following products: images generated with the aid of satellites, in particular geographical images, geographical maps and topographical base maps consisting of images generated with the aid of satellites or antennas, design and development of computer software in the field of cartography; technical consultancy in the field of cartography; processing and evaluation of aerial or satellite images (monochromatic or multispectral) being a service for research institutes or for others; creation of maps and terrain sections, propagation localization of electromagnetic waves, in digital form being a service for research institutes or for others; processing and analysis in connection with stereoscopic images; computer programming for industrial purposes, namely for the fire service, the police and the government, in connection with operational systems, client management, installation management systems, geographical information systems, CAD systems, real-time display systems and mobile systems, and the configuration thereof, for use with suitable computer hardware; design and development of systems, apparatus and instruments for providing satellite communications and telecommunications; design and development of computer software and systems, computer infrastructures for operating satellite communications and telecommunications equipment, and for managing satellite communications and telecommunications; design and development of computer software, computer systems, computer infrastructures, communications and transmission apparatus, instruments, systems and infrastructures, all for use in connection with news, information about weather, sporting events, business services and other information applications and internet applications; design and development of databases and user interfaces for managing interactive content; technical project management for information and internet applications; technical support, namely consultancy in connection with the operation, management and maintenance of satellite communications and telecommunications apparatus and systems; technical

support, namely consultancy in connection with the operation, management and maintenance of satellite communications and telecommunications; technical support, namely consultancy in connection with the operation, management and maintenance of information and internet application systems; technical support in connection with computer software for information and internet applications; computer services for data analysis; computer services in connection with electronic data storage; programming; rental of computer hardware, computer software and computer peripheral devices; maintenance and updating of computer software; creation and maintenance of websites; information and consultancy in connection with all the aforesaid, included in this class; weather information services; encryption, decryption and authentication of information, messages and data; updating and maintenance of software and databases; rental of computer apparatus and data processing facilities; technical design and technical planning of telecommunications equipment, IT services for apparatus for electronic warfare and for radar systems; rental of measuring apparatus for testing the environment and measuring electromagnetic compatibility (EMC measurements) and services relating thereto; digital imaging (IT services); digital imaging (graphics); development of online publications from internet databases, namely interactive hosting to enable users to publish and use content and images online; installation, repair and maintenance of control stations [software] for mission preparation, mission execution and mission follow-up for manned and unmanned aircraft [hardware].
