General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at https://www.ipos.gov.sg. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Alarm instruments, other than for vehicles; Alarm management apparatus; Alarm management installations; Alarm monitoring systems; Alarm systems; Anti-spyware software, downloadable; Anti-virus software, downloadable; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; Apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; Apparatus designed to monitor the performance of apparatus; Apparatus for automatically placing messages via telecommunications equipment; Apparatus for collecting encoded data for supply to computers; Apparatus for communication; Apparatus for computing; Apparatus for converting digital values into graphic information; Apparatus for data collection; Apparatus for data communications between computers; Apparatus for data entry; Apparatus for data processing; Apparatus for data storage; Apparatus for data transmitting; Apparatus for decoding encoded signals; Apparatus for decoding magnetically recorded information; Apparatus for digital signal processing; Apparatus for digitising geometric data contained in documents; Apparatus for electronic digital processing; Apparatus for electronic image reception; Apparatus for electronic image transmission; Apparatus for electronic information processing; Apparatus for electronic mail; Apparatus for electronic payment processing; Apparatus for electronic publishing; Apparatus for information processing; Apparatus for information teleprocessing; Apparatus for information transmission; Apparatus for inputting information into a computer; Apparatus for processing data; Apparatus for processing data programmes; Apparatus for processing data relating to images; Apparatus for processing digital data; Apparatus for processing digital video signals; Apparatus for processing electronic payments; Apparatus for programming data; Apparatus for reading encoded data; Apparatus for reading encoded information; Apparatus for recording, transmission or reproduction of sound or images; Apparatus for remote data transmission; Apparatus for retrieving data; Apparatus for searching electronic information; Apparatus for sending data; Apparatus for the acquisition of data; Apparatus for the acquisition of information; Apparatus for the communication of data; Apparatus for the conversion of data; Apparatus for the conversion of information; Apparatus for the graphic display of data; Apparatus for the processing of data; Apparatus for the processing of digital information; Apparatus for the processing of information; Apparatus for the storage of data; Apparatus for the storage of information; Apparatus for the transmission of data; Apparatus for verifying data on magnetically encoded cards; Appliances for communication; Application development software, downloadable; Application software; Artificial intelligence and machine learning software; Artificial intelligence software; Augmented reality software; BIOS software; Cable installations for the transmission of data; Cable management installations for data signal transmission; Cards bearing data for use in data processing apparatus; Cards carrying magnetically, optically or electronically recorded or encoded information; Cards encoded to access computer software; Cards encoded with security features for authentication purposes; Cards encoded with security features for identification purposes; Cellular telecommunications apparatus; Cellular telecommunications instruments; Coding apparatus;

Communication apparatus; Communication devices; Communication devices for linking computer networks; Communication hubs; Communication installations; Communication instruments; Communication interface units; Communication modems; Communication routing apparatus; Communication routing instruments; Communication software; Communications networks; Communications processing computer software; Communications systems; Computer apparatus; Computer apparatus for filing information; Computer apparatus for gathering information; Computer apparatus for plain language text recognition; Computer apparatus for remote meter reading; Computer apparatus for use with computer networks; Computer application software for mobile phones; Computer chatbot software for simulating conversations; Computer controlled telecommunications exchange apparatus; Computer controls; Computer firmware; Computer hardware; Computer hardware for telecommunications; Computer heat sinks; Computer housings; Computer installations; Computer installations incorporating a central processing unit; Computer interface apparatus; Computer interface devices; Computer interface instruments; Computer interface software; Computer interface units; Computer interfaces; Computer mainframes; Computer monitoring apparatus; Computer monitoring instruments; Computer network adapters; Computer network bridges; Computer network hubs; Computer network operating installations; Computer network switches; Computer network-attached storage (NAS) hardware; Computer networking apparatus; Computer networking hardware; Computer networking installations; Computer networks; Computer operated digitisers; Computer operating programs, recorded; Computer operating software; Computer operating system software; Computer operating systems; Computer operating systems programs; Computer peripheral apparatus; Computer peripheral devices; Computer peripheral equipment; Computer peripherals; Computer programmes for document management; Computer programmes for use in telecommunications; Computer programs [downloadable software]; Computer programs and recorded software distributed online; Computer programs for analysing computer hardware; Computer programs for designing control systems; Computer programs for searching remotely for content on computers and computer networks; Computer programs for the control of telecommunication apparatus; Computer programs for the control of telecommunication instruments; Computer programs relating to computer networks; Computer shareware; Computer software; Computer software adapted for use in the operation of computers; Computer software applications, downloadable; Computer software development tools; Computer software downloaded from the internet; Computer software for administration of local area networks; Computer software for the creation of firewalls; Computer software for use in providing multiple user access to a global computer information network; Computer software for wireless content delivery; Computer software for wireless network communications; Computer software packages; Computer software platforms; Computer software products; Computer software programs; Computer software, recorded; Computer systems; Computer utility programs; Computer utility programs for file management; Computers and computer peripheral devices; Computing apparatus; Computing apparatus for handling information; Computing

installations; Data being electrically recorded for computers; Data being magnetically recorded for computers; Data being optically recorded for computers; Data cables; Data capture apparatus; Data capture instruments; Data carriers bearing machine readable programs; Data carriers containing computer programs; Data carriers equipped with controlling programs; Data carriers incorporating computer programs written in machine code; Data carriers incorporating controlling programs; Data carriers incorporating programs; Data carriers recorded with programs to enable data to be displayed; Data collecting machines; Data collection apparatus; Data collection computer installations; Data collection instruments; Data collectors; Data compression software; Data conversion apparatus; Data encoding apparatus; Data encryption apparatus; Data entry apparatus; Data entry terminals; Data exchange units; Data exit terminals; Data feeders; Data feeders for use with artificial intelligence; Data feeders linked with artificial intelligence; Data files, downloadable; Data in machine readable form; Data input apparatus for use with computers; Data interconnecting computer installations; Data processing apparatus for use in information storage; Data processing apparatus for use with computers; Data processing input devices; Data processing installations incorporating expandable architecture; Data sorting apparatus; Data terminals for the validation of data; Data transfer apparatus; Data transfer instruments; Data transmission apparatus; Data transmission installations; Data transmission networks; Data transmitting instruments; Downloadable applications for use with mobile devices; Electrical data converters; Electrical data input apparatus for use with computers; Electrical data input devices; Electrical data output apparatus for computers; Electrical data processing apparatus; Electronic instruments for monitoring systems associated with buildings; Firmware; Hard drives; Integrated software packages; Interactive computer software; Local area computer installations; Local area networks; Memory devices; Memory devices for use with computer apparatus; Memory expansion cards; Memory expansion modules; Memory modules; Memory programmes; Microcomputer apparatus; Microcomputer assemblies; Microcomputers; Microcomputing apparatus; Microcomputing instruments; Microelectronic components; Microprocessors; Miniature hard disk drive storage units; Minicomputers; Multiplexers; Multiplexers for recording data; Multiplexers for use in the alternate transmission of voice signals; Network management apparatus; Network management computer software; Network operating system programs; Network protection devices, electric; Network protection devices, electronic; Networks for the interconnection of communication systems; Operating system programs; Optical data carriers; Optical data media; Optical data receiving apparatus; Optical data recording apparatus; Optical data reproducing apparatus; Optical data storage apparatus; Optical data storage drives; Optical data transmission systems; Portable computers; Power stabilisers; Power supplies for computers; Power switches; Power system meters; Power testers; Power units for supplying electrical current; Privacy protection software; Private automatic branch exchanges; Private branch exchanges; Recorded data, magnetic; Regulated power supply apparatus; Regulating apparatus, electric; Regulating transformers; Remote monitoring apparatus; Repeaters; Secure microprocessors; Secure transmission apparatus; Secure

transmission instruments; Security devices for computer hardware; Security devices for computer software; Security surveillance apparatus; Security surveillance robots; Security systems for buildings; Security tokens [encryption devices]; Security warning apparatus; Software; Software and applications for mobile devices; Software drivers; Software for computers; Software for diagnostics and troubleshooting; Software for ensuring the security of electronic mail; Software for processing images, graphics and text; Software for searching and retrieving information across a computer network; Solid state drives; Solid-state component relays; Solid-state devices; Solid-state electrical apparatus for storing computer programs; Solid-state integrated circuits; Solid-state memories; Solid-state memory devices; Telecommunication exchangers; Telecommunication machines and apparatus; Telecommunication switches; Telecommunications equipment; Uninterruptible electrical power supplies; Uninterruptible power supply apparatus [battery]; Uninterruptible power supply instruments; Units for converting information received in machine readable format; Units for decoding information received in machine readable format; Units for displaying information received in machine readable format; USB [universal serial bus] operating software; USB adapters; USB dongles [wireless network adapters]; USB flash drives; USB hardware; USB hubs; USB modems; USB port cards; USB web keys; Utility programs for performing computer system diagnostics; Webcams; Wide area networks; Wired communication apparatus; Wireless communication apparatus; Wireless transmission apparatus; Wireless transmission apparatus for remote control; Work stations [computer apparatus]; Work stations [computers].

Class 35
Advice relating to personnel management; Advisory services relating to data processing; Analysis of business data; Analysis of market research data and statistics; Automated data processing; Business consultancy relating to the administration of information technology; Business consultancy services relating to data processing; Business data analysis; Business efficiency advice; Business management and administration services supporting utilisation of a global computer network; Business organisation and management consultancy in the field of personnel management; Business process management and consulting; Business risk assessment services; Business risk management consultancy; Business risk management services; Collating of data in computer databases; Collection of data; Collection of personnel information; Commercial information services provided by access to a computer database; Company data information services; Company record-keeping; Compilation and systemization of information into computer databases; Compilation of business data; Compilation of business statistics and commercial information; Compilation of indexed addresses; Compilation of information into computer databases; Compiling of information into computer databases; Computer data entry services; Computer data processing; Computerised business records keeping; Computerised data processing; Computerised data verification; Computerised database management; Computerised file management; Computerised office management; Consultancy of personnel recruitment; Consultancy

relating to business efficiency; Consultancy relating to data processing; Consultancy relating to personnel management; Consultancy relating to personnel recruitment; Consultancy relating to the selection of personnel; Data collection for others; Data compilation for others; Data entry services; Data handling; Data management; Data management advice; Data management consultancy; Data preparation [office functions]; Data processing; Data processing for the collection of data for business purposes; Data processing verification; Data retrieval [office functions]; Data search in computer files for others; Data transcription; Database management; Database marketing; Electronic data processing; Evaluation of personnel requirements; Information retrieval [office functions]; Maintenance of personnel records for others; Management and compilation of computerised databases; Market research data collection services; Market research data retrieval services; Online data processing services; Providing business information, also via internet, the cable network or other forms of data transfer; Provision of business data; Recruitment and personnel management services; Registration of written communications and data; Selection of staff; Statistical analysis and reporting services for business purposes; Systematization of data in computer databases; Systemization of information into computer databases; Tracking and monitoring energy consumption for others for account auditing purposes; Updating and maintenance of data in computer databases.

Class 36
Building leasing; Land leasing; Lease financing of telecommunication equipment; Lease of real estate; Leasing of buildings; Leasing or renting of buildings; Management of buildings; Providing information relating to the leasing of land; Providing information relating to the rental of buildings; Providing online financial information; Real estate investment services; Real estate management services relating to building complexes; Real estate management services relating to commercial buildings; Real estate management services relating to industrial premises; Rental of buildings; Providing financial information by electronic means; Financial information processing; Financial information provided by electronic means; Financial information services; Financial data analysis; Providing financial information by means of a computer database; Providing online information about insurance from a computer database or the Internet; Providing on-line stock exchange information from a computer database or the Internet; Provision of information and data concerning stock exchanges.

Class 37
Advisory services relating to the installation of security and safety equipment; Installation of data network apparatus; Installation of data processing apparatus; Installation of electric light and power systems; Installation of electronic and digital connection to a call centre; Installation of security and safety equipment; Installation of security systems; Maintenance and repair of data communications networks; Maintenance and repair of data processing apparatus; Maintenance and repair of hardware for data processing apparatus;

Maintenance and servicing of data processing installations; Building and construction of real estate subdivisions and developments; Building maintenance and repair; Civil engineering construction consultancy; Commissioning [installation and maintenance] services; Computer installation and repair; Consultancy services relating to the construction of buildings; Custom construction of buildings; Diagnostic maintenance services; Electric appliance installation and repair; Electrical wiring services; Installation and repair of telecommunication apparatus; Installation of apparatus for air-conditioning; Installation of apparatus for ventilating; Installation of clean room environmental control systems; Installation of clean room systems; Installation of communication equipment; Installation of communications network apparatus; Installation of communications network instruments; Installation of computer hardware; Installation of computer systems; Installation of computerised information systems; Installation of computers; Installation of electricity generators; Installation of electronic apparatus; Installation of energy-saving apparatus; Installation of environmental control systems; Installation of environmental protection systems; Installation of hardware and cables for Internet access; Installation of hardware for computer systems; Installation of heating and cooling apparatus; Installation of storage facilities; Installation of telecommunications apparatus; Installation of ventilation and dust extraction systems; Installation, maintenance and repair of computer hardware; Installation, repair and maintenance of computers and computer peripherals; Installing of electronic communications networks; Installing of telecommunications networks; Interference suppression in electrical apparatus; Maintenance and repair of communications systems; Maintenance and repair of computer hardware; Maintenance and repair of computers; Maintenance and repair of cooling appliances and installations; Maintenance and repair of telecommunications apparatus; Property development [building and construction services]; Property maintenance; Providing information relating to the repair or maintenance of telecommunication machines and apparatus; Repair and maintenance of computer and telecommunications hardware; Repair of electrical equipment and electrotechnical installations; Repair of electronic apparatus; Repair or maintenance of telecommunication machines and apparatus.

Class 38
Telecommunications services; Advisory and consultancy services relating to wireless communications and wireless communications equipment; Advisory services relating to communications equipment; Advisory services relating to telecommunications; Automatic transfer of digital data using telecommunications channels; Broadcast transmission by satellite; Broadcasting services; Cable broadcasting and transmission; Cable transmission of sounds, images, signals and data; Call centre services [electronic call diversion and messaging]; Communication between computers; Communication by computer; Communication by computer terminals; Communication by electronic means; Communication of data by means of telecommunications; Communication of information by satellite; Communication services between data banks; Communication services by cable;

Communication services by electronic means; Communication services by radio; Communication services for the electronic transmission of data; Communication services for the transmission of information; Communication services over computer networks; Communication services provided electronically; Communication services, namely, electronic transmission of data and documents among users of computers; Communication via computer terminals, by digital transmission or by satellite; Communication via fibre-optic networks; Communications services for accessing a data-base; Communications services for the exchange of data in electronic form; Communications services provided over the Internet; Communications via analogue and digital computer terminals; Communications via multinational telecommunication networks; Computer aided transmission of messages, data and images; Computer data transmission services; Computer network communication services; Computerised data communications; Consultancy in the field of telecommunications; Consultancy services relating to communications; Consultancy services relating to data communications; Data broadcasting services; Data communication services; Data streaming; Data transfer services; Data transmission; Data transmission and reception services via telecommunication means; Data transmission for others; Data transmission services; Data transmission services between networked computer systems; Data transmission services over telecommunications networks; Data transmission via telematic networks; Digital network telecommunications services; Digital transmission of data; Digital transmission of data via the Internet; Digital transmission services; Digital transmission services for audio and video data; Electronic communication services; Electronic communication services for the transmission of data; Electronic data communications; Electronic data exchange services; Electronic data interchange [EDI] services; Electronic data transmission; Electronic exchange of data stored in databases accessible via telecommunication networks; Electronic transmission and retransmission of sounds, images, documents, messages and data; Electronic transmission of data; Electronic transmission of data and documents via computer terminals and electronic devices; Electronic transmission of messages and data; Fiber optic telecommunications services; Geolocation services [telecommunications services]; High bit-rate data transmission services for telecommunication network operators; Hire of communications apparatus; Hire of electronic mail boxes; Hire of telecommunications apparatus; Hire of telecommunications installations; Hire of telecommunications instruments; Information services relating to broadcasting; Information services relating to electronic communication networks; Information services relating to telecommunications; Internet access provider services; Internet broadcasting services; Internet communication services; Internet portal services; Internet service provider [ISP] services; Leasing of access time to a computer database; Leasing of access time to global computer networks; Leasing of telecommunication equipment; Netcasting [broadcasting over a global computer network]; Network transmission of sounds, images, signals and data; News agency services for electronic transmission; Operating of electronic communications networks; Operating of electronic communications systems; Operation of cellular communications systems; Operation of local

area networks; Operation of telecommunications apparatus; Operation of telecommunications systems; Providing access to computer networks; Providing access to computer software; Providing access to databases; Providing access to information on the Internet; Providing access to information via data networks; Providing access to information via the Internet; Providing access to multimedia content online; Providing access to online computer databases; Providing access to platforms and portals on the Internet; Providing access to telecommunication networks; Providing access to the Internet and other communications networks; Providing access to web portals; Providing access to websites on the Internet or any other communications network; Providing electronic telecommunication connections; Providing frame relay connectivity services for data transfer; Providing high speed access to computer and communication networks; Providing information about wireless communication; Providing information, including online, about telecommunications; Providing of access to telecommunication warehousing services; Providing telecommunication connections to the internet or databases; Providing telecommunications connections to a global communication network or databases; Providing third party users with access to telecommunication infrastructure; Providing user access to computer programmes in data networks; Providing user access to computer software in data networks; Providing user access to global computer network and online sites containing information on a wide range of topics; Providing user access to global positioning signals for navigation purposes; Providing virtual private network (VPN) services; Provision of access to an electronic on-line network for information retrieval; Provision of access to computer databases; Provision of access to data on communication networks; Provision of access to data or documents stored electronically in central files for remote consultation; Provision of access to data via the Internet; Provision of communications between computers; Provision of electronic communications facilities; Provision of electronic data links; Provision of email services; Provision of telecommunication connections to a global computer network; Provision of telecommunication facilities; Provision of user access to the internet; Remote transmission of data by means of telecommunications; Rental of access time to a computer database; Rental of access time to a database server; Rental of access time to databases; Rental of access time to global computer networks; Rental of communication apparatus and implements; Rental of communications equipment; Rental of communications instruments; Rental of communications systems; Rental of data communication apparatus; Rental of data communications equipment; Rental of data communications installations; Rental of telecommunication apparatus; Rental of telecommunication devices and equipment enabling connection to networks; Rental of telecommunication facilities; Rental of telecommunications apparatus and installations; Rental of telecommunications routers; Satellite transmission of sounds, images, signals and data; Satellite transmission services; Secure e-mail services; Secure telecommunications [providing secure connections and access including to computers and the global computer network]; Signal transmission for electronic commerce via telecommunication systems and data communication systems; Streaming of audio, visual and audiovisual material via a global computer network;

Streaming of data; Switching network services [telecommunications]; Telecommunication access services; Telecommunication gateway services; Telecommunications; Telecommunications services for the distribution of data; Telecommunications services provided via fiber optic, wireless and cable networks; Telecommunications services provided via the Internet, intranet and extranet; Transfer of data by telecommunications; Transfer of information and data via online services and the Internet; Transferring and disseminating information and data via computer networks and the Internet; Transmission and distribution of data or audiovisual images via a global computer network or the Internet; Transmission and reception of database information via telecommunication networks; Transmission of computerised data; Transmission of data; Transmission of data and information by computer and electronic communication means; Transmission of data by cable; Transmission of data by computer; Transmission of data by electronic means; Transmission of data via ISDN lines; Transmission of data via satellite; Transmission of data via the Internet; Transmission of data, audio, video and multimedia files, including downloadable files and files streamed over a global computer network; Transmission of data, messages and information; Transmission of data, sound and images by satellite; Transmission of database information via telecommunications networks; Transmission of electronic mail; Transmission of information by computer; Transmission of information by data communications for assisting decision making; Transmission of information by electronic communications networks; Transmission of information by electronic means; Transmission of information on a wide range of topics, including online and over a global computer network; Transmission of information via computer networks; Transmission of information via national and international networks; Transmission of information via wireless or cable networks; Transmission of messages, data and content via the Internet and other communications networks; Transmission of stock market information with the help of telecommunication media; Transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the Internet; Video broadcasting; Video communication services; Video conference services [telecommunications services]; Video, audio and television streaming services; Web portal services [providing user access to global computer network]; Webcasting services; Wire service; Wireless broadcasting; Wireless communication services; Wireless electronic transmission of data; Wireless PBX services; Wireless transfer of data via digital mobile telephony; Wireless transfer of data via the Internet; Wireless transfer of data via wireless application protocols.

Class 39
Physical storage of electronically stored data or documents; Physical storage of electronically stored data, documents, digital photographs, music, images, video, and computer games; Physical storage of electronically stored digital data, photographs, audio and image files; Physical storage of electronically stored files and documents; Physical storage of electronically stored information; Providing information about temporary storage

services; Providing information relating to storage services; Packaging and storage of goods; Transport; Travel arrangement; Collection of documents; Computerised distribution planning relating to transportation; Computerised transport information services; Consultancy services relating to the distribution of electricity; Depository storage; Electricity storage; GPS navigation services; Information and advisory services in relation to the distribution of energy; Rental of warehouse space; Vehicle routing by computer on data networks; Bonded storage; Bonded warehousing; Warehousing.

Class 42
Design and development of computer hardware and software; Industrial analysis, industrial research and industrial design services; Providing information, including online, about scientific and technological services and research and design relating thereto; Quality control and authentication services; Administration of mail servers; Administration of user rights in computer networks; Advisory services in the field of product development and quality improvement of software; Advisory services relating to building design; Advisory services relating to computer hardware; Advisory services relating to computer programming; Advisory services relating to computer software; Advisory services relating to computer system analysis; Advisory services relating to computer system design; Advisory services relating to computers; Advisory services relating to energy efficiency; Analysis and evaluation of product design; Analysis and evaluation of product development; Analysis of telecommunication signals; Application service provider [ASP] services; Authentication services for computer security; Authentication services for electronic documents and e-mail; Back-up of computer data; Backup services for computer hard drive data; Building design services; Cloud computing; Cloud computing services; Cloud hosting provider services; Cloud storage services for electronic data; Cloud storage services for electronic files; Coding of messages; Commissioning [testing and inspection] services; Comparative analysis studies of the performance of computer systems; Compilation of computer programs; Compilation of data-processing programs; Compilation of web pages for the Internet; Compression of data for electronic storage; Computer advisory services; Computer analysis; Computer and computer software rental; Computer code conversion for others; Computer co-location services; Computer consultancy; Computer database design consultancy services; Computer design services; Computer disaster recovery planning; Computer disaster recovery services; Computer engineering; Computer firewall services; Computer forensic services; Computer hardware design; Computer hardware development; Computer leasing; Computer network configuration services; Computer network design for others; Computer network services; Computer performance testing; Computer program advisory services; Computer program maintenance services; Computer program updating services; Computer programming; Computer programming for data processing and communication systems; Computer programming services for data warehousing; Computer programming services for electronic data security; Computer project management in the field of EDP; Computer research services; Computer security consultancy; Computer security engineering; Computer security

services [design and development of secure computer hardware, software and systems]; Computer security services [programming and software installation, repair and maintenance services]; Computer security services [testing and risk assessment of computer networks]; Computer security services for protection against illegal network access; Computer security services in the nature of administering digital certificates; Computer security threat analysis for protecting data; Computer services in the nature of hosting web sites for others; Computer software advisory services; Computer software consultancy services; Computer software design services; Computer software development; Computer software installation and maintenance; Computer software integration; Computer software programming services; Computer software rental; Computer software repair; Computer software research; Computer software technical support services; Computer software updating services; Computer system analysis; Computer system design; Computer systems analysis; Computer systems design; Computer systems development; Computer systems integration services; Computer technology consultancy; Computer time-sharing services; Computer virus protection services; Computerised business information storage; Computerised communication network security; Computerised data storage services; Configuration of computer firmware; Configuration of computer networks by software; Configuration of computer software; Configuration of computer systems and networks; Consultancy and information services relating to computer programming; Consultancy and information services relating to computer software design; Consultancy and information services relating to computer system integration; Consultancy and information services relating to information technology; Consultancy and information services relating to information technology architecture and infrastructure; Consultancy and information services relating to the design, programming and maintenance of computer software; Consultancy in the field of computer security; Consultancy in the field of computer software; Consultancy in the field of computer system analysis; Consultancy in the field of computer system integration; Consultancy in the field of security software; Consultancy in the field of software design; Consultancy in the field of technological design; Consultancy in the field of technological research; Consultancy relating to computer database programs; Consultancy relating to software for communication systems; Consultancy relating to software maintenance; Consultancy relating to technological services in the field of power and energy supply; Consultancy relating to the design and development of computer software programs; Consultancy relating to the recovery of computer data; Consultancy relating to the updating of software; Consultancy services in the field of technological development; Consultation services relating to computer software; Consulting in the field of cloud computing networks and applications; Consulting services in the field of cloud computing; Conversion of computer programs and data, other than physical conversion; Conversion of data or documents from physical to electronic media; Conversion of document data from one computer format to another; Creating and designing website-based indexes of information for others [information technology services]; Creating of computer programs; Creating programmes for data processing; Creating, maintaining, and updating computer software;

Scientific, electronic, photographic, cinematographic, optical, weighing and measuring apparatus and instruments; electric apparatus, namely, apparatus for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus and instruments for load balancing electricity and energy, as to balancing the supply and demand of energy and electricity; scientific apparatus and instruments for measuring, signalling, checking (supervision); magnetic data carriers, recording disks; calculating machines and data processing apparatus; apparatus for monitoring domestic or industrial consumption of electrical energy, gas, heat and water; apparatus for analysing signals, current and voltage; electrical apparatus and instruments for processing storing, transmitting, distributing or receiving data; instruments and installations for encoding, decoding, transcoding, encrypting, deciphering, recording, transmitting and reproducing images and information; computer communication, office automation, home automation and building automation terminals; magnetic or optical data media, interfaces, reading devices for data processing, optical drive, micro processors, central processing devices; computer software, software packages, computer software platforms, computer databases, data banks and database management software systems; electrical and electronic apparatus and instruments for use in or in relation to the generation or distribution of power, gas, water or electricity or telecommunications; batteries; chargers for batteries, including vehicle batteries; charging points for electric vehicles; circuit breakers, electric control panels, electric apparatus for commutation, electricity distribution boxes, consoles and boards, electric branch boxes, junction boxes, electric converters, electric transformers; branch and distribution boxes, electrical cables, conductors, conduits, connectors and switches; insulated electrical connectors; insulation resistance metres; insulation testers; door bells, alarms; fuses and fuse wires; electric locks; sheaths for electric cables; protective clothing; safety apparatus

and instruments; intercommunication apparatus; telecommunications apparatus and instruments; electronic and infrared remote control devices; apparatus for use in remote control of electricity, gas, heat, water and energy supplies; remote switching apparatus and instruments; power generation monitoring apparatus; computer software and computer software platforms for use in or relating to the generation or distribution of power, gas, water or electricity; computer software and computer software platforms relating to the management of energy metering, monitoring of energy prices for buying and selling energy off the grid, the supply of energy and load balancing of electricity and energy, as to balancing the supply and demand of energy and electricity, including the supply and demand of energy from solar, wind, wave, geothermal, solid waste and other renewable sources; computer software and computer software platforms for the tracking and monitoring of energy and power usage and consumption; customer relationship management (CRM) software and CRM software platforms; solar panels for electricity generation; fuel meters; fuel measuring and dispensing equipment; electronic devices for heating, cooling and ventilating systems; lighting controls; external power supplies; devices for monitoring and conserving energy use; devices for tracking energy use; solar photovoltaics; energy regulators; energy control devices; thermal energy measuring apparatus; solar energy collectors for electricity generation; electric control devices for energy management; parts and fittings for all the aforesaid goods; computer software; computer software applications; mobile apps; downloadable publications; publications in electronic format.

Class 35
Business administration; business advice, business analysis, business data analysis, business assistance; business consultancy, business information; business management; business project management services; business organisation, business planning, business strategy, business supervision; business management of electricity transmission, supply and distribution apparatus, including demand response and load balancing services; compilation and provision of business data, information, statistics; compilation, business analysis and retrieval of information and data; data collection, data management, data processing, data retrieval; database management; compilation of information into databases; updating and maintenance of data in databases; meter reading for billing purposes; billing services in the field of energy; consultancy services relating to the management of customer call centres; business and consultancy services relating to the management of customer calls to call centres as to monitoring of waiting times and redirection of calls; advertising; marketing; retail services in connection with the sale of gas, electricity, oil-gas, oil, fuel and energy; procurement of contracts concerning energy supply; commercial trading, arranging or procuring contracts for third parties and business risk management relating to gas, power, water, energy and electricity supply services; energy price comparison services; import-export agencies in the fields of energy and power; business consulting and information on consumption of energy and power; organisation, operation and supervision of incentive and

loyalty schemes; operation and supervision of an incentive scheme for the purpose of reducing levels of carbon dioxide or other greenhouse gases; business consultation services and provision of information on the cost of electricity, gas and energy; invoicing services in the field of energy; preparing and/or writing of business reports; information, advisory and consultancy services relating to all the aforesaid.

Class 36
Financial services; bill payment services; bill consolidation services; payment administration, payment processing services; credit services; provision of finance for credit sales; hire purchase financing; insurance services; warranty services; guarantee services; financial consultancy in the energy and power sectors; financial services relating to financial partnerships; financial services relating to the use of energy efficient gas and electric services and appliances; awarding of grants in relation to the use of energy efficient gas and electric services and appliances; brokerage of carbon offsets; brokerage of carbon credits; issuing of tokens of value in relation to incentive schemes for the purpose of reducing levels of carbon dioxide and/or other greenhouse gases in the atmosphere; information, advisory and consultancy services relating to all the aforesaid.

Class 37
Repair, maintenance, servicing of power plants, power lines; installation, repair, maintenance and servicing of power generating apparatus and installations; installation, repair, maintenance and servicing of energy-saving apparatus; installation, repair, maintenance and servicing of energy supply installations; installation, repair, maintenance and servicing of electrical appliances, pipework systems, electricity, gas, oil, water meters; installation, repair and maintenance of electrical appliances, frequency and power meters; electrical wiring services; installation, maintenance, repair and servicing of gas and electric transmission lines; installation, maintenance, repair and servicing of apparatus and instruments using gas or electricity; installation of thermal insulation in buildings; information, advisory and consultancy services relating to all the aforesaid; installation of computer hardware, servers and routers; maintenance and repair of computer hardware, servers and routers.

Class 38
Telecommunication services; communication services; telecommunication services for hotlines and customer call centres; operation of telecommunications systems; call forwarding and call recording services; transmission of telephone calls; broadcasting, streaming, transfer, transmission of data; providing access to databases; providing user access to platforms and portals on the Internet; computer bulletin board services, electronic bulletin board services; chat room services; messaging services; information, advisory and consultancy services relating to all the aforesaid.

Class 39
Power supply and distribution; energy distribution; storage of energy and fuels; leasing the use of power lines to third parties for the transmission of electricity; electricity supply services; electricity distribution; distribution and supply of energy from wind, solar, wave and other renewable sources; electricity, power and energy demand response and balancing services [distribution, storage, and/or supply of energy]; tracking and tracing services as to the location of vehicles for reporting location and timings to customers; information, advisory and consultancy services relating to all the aforesaid.

Class 42
Advisory, information and consultancy services relating to energy use, conservation and efficiency; environmental monitoring services relating to energy consumption; energy auditing; programming of energy management software; technical data analysis services; technical data analysis services relating to energy supply and distribution; computerised information storage services; consultancy and advisory services relating to technical data analysis of energy consumption and distribution in the field of energy saving; platform as a service (PaaS); platform as a services (PaaS) in the field of customer relationship management; platform as a service (PaaS) relating to the management of energy metering, monitoring of energy prices for buying and selling energy off the grid, the supply of energy and load balancing of electricity and energy, as to balancing the supply and demand of energy and electricity including the supply and demand of energy from solar, wind, wave, geothermal, solid waste and other renewable sources; development of computer platforms; hosting of computer platforms on the internet; maintaining and hosting of databases; design and updating of software databases; design, installation and development of software databases; design, development of computer hardware, servers and routers; providing online non-downloadable software for database management; software as a service (SaaS); software as a services (SaaS) in the field of customer relationship management; software as a service (SaaS) relating to the management of energy metering, monitoring of energy prices for buying and selling energy off the grid, the supply of energy and load balancing of electricity and energy, as to balancing the supply and demand of energy and electricity, including the supply and demand of energy from solar, wind, wave, geothermal, solid waste and other renewable sources; development of energy and power management systems; research in the field of energy; providing technological information and advisory services relating to the development of programmes and campaigns on improving energy efficiency; energy efficiency management and consultancy; energy auditing relating to energy consumption of buildings; energy conservation management; preparation of scientific, technical and technological reports on energy consumption of buildings; auditing of energy use and energy conservation and of efficiency of operation of appliances and safety checking of appliances and pipework; testing of gas and electricity generating plants, gas and electric appliances, pipework, transmission lines and apparatus and instruments utilising gas and electricity; prospecting and exploitation analysis and research of natural, fossil and

nuclear fuel resources; scientific information, advice and consultancy in relation to carbon offsetting; development and implementation of processes which are intended to reduce levels of greenhouse gases in the atmosphere; research and consultancy, all relating to the aforesaid services; geological surveys; industrial design services; preparation of technological reports; engineering services; technical studies in research on environmental conservation, natural wealth and sustainable development; scientific and industrial research; providing scientific studies and consulting on the environment, ecology and sustainable development; research on energy and renewable energy; expert appraisal services [technological consultancy] in the fields of the environment, energy, including new energies, natural wealth and sustainable development; technical study and advice concerning the distribution of energy consumption; technical evaluation and estimate services concerning energy consumption; technical services for collecting information from remote energy consumption calculators; environmental assessment, consultancy, monitoring services; providing technological advice on environment related issues; development of programmes and campaigns to the public regarding environmental and conservation issues; quality accreditation and technical consultancy services relating to environmental issues and compliance with environmental requirements; consultancy in relation to the conservation of energy; providing technical advice relating to energy-saving measures; technological information, technological advice, and technological consultancy in relation to technology transfer services, and in particular to the transfer of technical and/or professional know-how relating to all the foregoing; information, advisory and consultancy services relating to all the aforesaid.

Class 45
Licensing services; licensing of technology; licensing of intellectual property; licensing of databases; licensing of research and development; licensing of software; licensing of software, databases and technology in the field of the management of energy metering, monitoring of energy prices for buying and selling energy off the grid, the supply of energy and load balancing of electricity and energy, as to balancing the supply and demand of energy and electricity, including the supply and demand of energy from solar, wind, wave, geothermal, solid waste and other renewable sources; information, advisory and consultancy services relating to all the aforesaid.

Goods and/or Services:

Class 09
Computer programs, downloadable; computer software applications, downloadable; distance measuring apparatus; remote control apparatus; teaching robots; electric sensors; regulating apparatus, electric; inductors [electricity]; electro-dynamic apparatus for the remote control of signals; computer programs, recorded.

Class 12
Treads for vehicles [roller belts]; vehicle chassis; remote control vehicles, other than toys;

bodies for vehicles; carts; undercarriages for vehicles; electric vehicles; motors, electric, for land vehicles; driving motors for land vehicles; reduction gears for land vehicles.

Class 37
Machinery installation, maintenance and repair; repair or maintenance of painting machines and apparatus; electric appliance installation and repair; shipbuilding; rust removal; steel structure construction works; installation, maintenance and repair of computer hardware; rebuilding machines that have been worn or partially destroyed; vehicle breakdown repair services; pipe laying services.

Class 40
Abrasion; sandblasting services; metal treating; laser scribing; welding services; rental of gas-operated soldering apparatus; treatment of materials by laser beam; welding; heat treatment of metals; sawing of materials.

Techcross Water & Energy

Goods and/or Services:

Class 37
Installation of seawater desalination plants; repair of seawater desalination plants; repair and maintenance of seawater desalination plants; installation and repair of water filtering

apparatus; repair and maintenance of water purification apparatus; repair or maintenance of water purification apparatus; construction engineering services; repair of buildings; demolition work on buildings; factory construction; installation and repair of irrigation devices; construction of bridges; construction of dams and water storage facilities; construction of roads; road paving; construction of building for office; construction of sewers and water supply systems; installation of electric installations; construction of houses; construction of telecommunications apparatus; construction of waste disposal facilities; construction of environmental basic facilities; construction of water treatment facilities; construction supervision; construction of sewage treatment facilities; park construction; plumbing; construction of reinforced concrete work; washing of machine installations; cleaning of heating and cooling machines and apparatus; rustproofing; building rust removing; cleaning of water tanks; disinfecting; cleaning of industrial premises; storage tank cleaning; boiler cleaning; cleaning of gullies; repair of plumbing systems; waste disposal for others [cleaning service]; installation of air pollution control facilities; construction of new regeneration energy materials; construction of new regeneration energy factory; construction of new regeneration energy factory, including sunlight generation or wind power; maintenance of facilities; construction of machine installations; maintenance of public water supply or drainage system for others; construction of civil engineering works; maintenance of measuring apparatus for air pollution or water pollution; maintenance of personal sewage treatment facilities; construction of recycled PET facilities; maintenance of recycled PET facilities; construction of solid refuse fuel manufacturing plant; maintenance of solid refuse fuel manufacturing plant; construction of power plants; maintenance of power plants; maintenance of water quality management facility; maintenance of new regeneration energy factory; construction of heat supplying facilities; maintenance of heat supplying facilities; maintenance of ordinary industrial wastes treatment facilities; construction of ordinary industrial wastes treatment facilities; maintenance of designated industrial wastes treatment facilities; construction of designated industrial wastes treatment facilities; maintenance of sewer facilities; engineering of environmental basic facilities [construction]; commissioning [installation and maintenance] and repair of sewage treatment facilities; construction of water pollution control facilities; construction of environmental pollution control facilities; construction of energy-saving power plants; maintenance of energy-saving power plants.

Class 39
Trash collection for others; waste collection.

Class 40
Desalination of water; purification of gases; air purification and deodorizing; rental of air purification apparatus; air freshening; air purification; air deodorizing; purification of industrial waste water; waste water treatment services for industrial purposes; treatment of marine waste; purification of exhaust gases and smoke; rental of septic tanks for waste

water treatment; human waste treatment; industrial toxic waste disposal; incineration of industrial waste; treatment of high concentration organic wastewater; water treatment for preventing pollution; rental of water purifying apparatus; sludge treatment services; bioremediation services; incineration of waste; sorting of waste and recyclable material; destruction of waste; waste treatment; decontamination of hazardous materials; treatment of hazardous gases; treatment of hazardous substances; destruction of food waste; treatment of waste and harmful substances; waste water reprocessing; treatment of waste water; services for the treatment of sewage; treatment of waste materials relating to environmental pollution control; rental of water purifying apparatus for industrial purposes; rental and providing information relating to water purifying apparatus; treatment of contaminated soil; soil, waste or water treatment services [environmental remediation services]; soil treatment services [environmental remediation services]; treatment of industrial waste; waste processing; treatment of environmental waste; water purification services; water treatment and purification; providing information relating to water treating services; water treating; rental of water treatment equipment; water recycling and desalination services; water demineralization; recycling of water; recycling of hazardous substances; recycling of chemicals; conversion of waste energy into electricity [energy recycling services]; generation of electricity; food and drink preservation; processing of chemical preparations for stabilizing soil; processing of plastics; treatment of harmful chemical substance.

Class 42
Testing services relating to air purification; testing or research services relating to anti-pollution; surveys of atmosphere; environmental testing of exhaust emissions; survey and research of industrial waste; surveys of water quality; testing and research services in the field of preventing pollution; conducting sampling and analysis services to check for contamination; groundwater pollution surveys; soil pollution surveys; research relating to environmental protection; research in the field of environmental protection; environmental impact surveys; water quality control services; measuring and analysis of water quality; measuring and analysis of water pollution; environmental engineering research relating to water analysis; environmental engineering research relating to water treatment; research and development agency of water quality; water quality evaluation; environmental monitoring of waste treatment areas; locating and marking the placement of underground utility pipes, cables or wires; technology services on plant construction; technology services relating to electronic and communication equipment; measuring of atmosphere for others; public surveying; professional design of power facilities; air pollution materials measuring and analysis.

Goods and/or Services:

Class 01
Biologically compatible polymers, namely, hydrogels used to manufacture polymeric networks used in the manufacture of engineered living tissue for scientific and non-scientific purposes; media for cell culture for use in the biotechnological industry; media for cell culture for use in non-medical research laboratories; biological preparation for use in cell cultures other than for medical or veterinary use; engineered biological tissues and tissue

arrays, namely, human and animal organ, connective, epithelial, muscular, and nervous tissues and tissue arrays, for use in scientific and medical research; biologically compatible materials, namely, hydrogels used to create polymeric networks used in the manufacture of living tissue; proteins in raw material form for scientific and medical research; biologically compatible materials, namely, hydrogels used to create structures and scaffolds used in the manufacture of living tissue; biological tissue specimens for use in scientific research; cellulose nanofibril based biological preparations for use in 3D bioprinting of tissues and organs; arrays of chemical compounds, in particular nucleic acids, peptides and proteins; arrays of collections of chemical compounds, in particular collections of chemical compounds on a carrier; chemical compounds manufactured with the aid of immobilised chemical compounds, arrays of chemical compounds or collections of chemical compounds, in particular immobilised on a carrier; chemicals used in industry and science; nucleic acids, peptides and proteins; immobilised chemical compounds, in particular nucleic acids, peptides and proteins; collections of chemical compounds for industrial and scientific purposes, in particular immobilised chemical compounds for industrial and scientific purposes, arrays of chemical compounds, in particular nucleic acids, peptides and proteins; chemical compounds manufactured with the aid of immobilised chemical compounds, collections of chemical compounds or arrays of chemical compounds, or collections of chemical compounds, in particular immobilised on a carrier; the aforesaid chemicals and chemical compounds used in particular in the fields of pharmacy, foodstuffs, plant protection, cosmetics, diagnostics and basic biochemical and medical research; monoclonal antibodies for scientific use; tagged antibodies for laboratory use; tagged antibodies for scientific use; monoclonal antibodies for scientific purposes; monoclonal antibodies for diagnostic use [other than medical]; biochemicals, namely, monoclonal antibodies for in vitro scientific or research use; reagents for use in the development of hybridoma antibodies [other than for medical or veterinary purposes]; reagents for use in the development of monoclonal antibodies [other than for medical or veterinary purposes]; proteins for detecting antibodies [other than for medical use]; proteins for binding antibodies [other than for medical use]; immunological antibodies, other than for medical use; monoclonal antibodies for industrial use; monoclonal antibody reagents, other than for medical use; stem cells for research purposes; stem cells for scientific purposes; stem cells for research or scientific purposes; stem cells other than for medical or veterinary purposes; collagen based ingredients for use as a raw ingredient in the manufacture of cosmetic preparations; hydrogel polymer coatings; lactic acid polymers; aqueous linear polymer gels; polymer coatings [other than paints]; photo curable compositions comprising polymers; chemicals for use in polymerisations; polymer beads for use in manufacturing; polymer beads for use in manufacture; polymers of glucose for industrial use; water soluble polymers for industrial use; polymer based compounds for use in manufacture; amino acrylic polymers for use in manufacture; polymers for use as reference standards in science; polymeric chemicals for use in the cosmetic industry; polymers for use in the analysis of nucleic acids; chemicals for use in performing nucleic acid polymerase chain reactions [other than medical and

veterinary]; proteins for use in science; proteins for use in the manufacture of cosmetics; protein for use in the manufacture of cosmetics; enzymes [other than for medical use] for detecting protein fractions; enzymes [other than for medical use] for labelling protein fractions; enzymes [other than for medical use] for labelling proteins; enzymes [other than for medical use] for measuring proteins; proteins for use in recombinant dna technology [other than for medical use]; biochemicals namely, polypeptides for in vitro research use; diagnostic reagents for in-vitro use [other than medical]; biochemicals for in vitro and in vivo scientific use; diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; reagents for in-vitro laboratory use [other than for medical or veterinary purposes]; diagnostic reagents for scientific use; diagnostic preparations for scientific purposes; diagnostic preparations for scientific use; diagnostic preparations used in science; chemical products for diagnostic use [scientific]; in-vivo diagnostic reagents for scientific use; diagnostic preparations for scientific or research use; diagnostic preparations for scientific or research use other than for medical use; reagents for use in diagnostic tests [other than for medical or veterinary purposes]; chemical reagents for use in diagnostic tests, other than for medical or veterinary use; media for cell culture for use in the biotechnological industry; media for cell culture for use in non-medical research laboratories; biological preparation for use in cell cultures other than for medical or veterinary use; cultures of cell media [other than for medical or veterinary use]; engineered biological tissues and tissue arrays, namely, human and animal organ, connective, epithelial, muscular, and nervous tissues and tissue arrays, for use in scientific and medical research; biologically compatible materials, namely, hydrogels used to create polymeric networks used in the manufacture of living tissue; chemicals for use in industry and science; chemical substances, chemical materials, chemical preparations and chemical reagents, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; cell growth media and cell growth reagents, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; cell culture media and cell culture reagents, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; biological preparations for use in industry and science; biological reagents, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; biological tissue cultures, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; cultures of microorganisms, in particular for use in laboratories or in the biotechnological industry or for nonmedical scientific and research purposes; all the aforesaid goods other than for medical or veterinary purposes; cells, tissue models in the nature of biological tissue cultures, cell growth media, and biomaterials for use in biological, biomedical, and life sciences research; chemical products for use in lithography; lithographic chemicals; photoresists for lithography; resistant chemicals for use in lithography; liquid photosensitive resin for the fabrication of three-dimensional models.

Class 05
Biological tissue cultures made of biologically compatible polymers for medical purposes; pharmaceutical preparations; pharmaceutical preparations for use in the field of 3D bio-printing of tissues and organs; pharmaceutical preparations based on cellulous nano-fibrils for use in the 3D bio-printing of tissues and organs; tissue-regenerative pharmaceutical preparations; cells for medical use; human allograft tissue; living cells for medical use; implants of living tissues for guided tissue regeneration; implants comprising living tissue; implantable materials of living tissue for use in guided tissue regeneration; skin grafts; surgical implants comprised of living tissues; surgical implants of living tissues grown from stem cells; transdermal patches for use to create skin for prosthetic limbs and for skin grafts; living tissues for transplant; engineered biological tissues and organs, namely, human and animal cardiovascular, pulmonary, digestive, hepatobiliary, urological, renal, endocrine, connective, epithelial, muscular, and nervous tissue and organs, for medical purposes; biological tissue for implantation; haemostatic gel matrix preparations for treating wounds; natural biomaterials for augmentation of bone, blood and tissue for medical purposes; pharmaceutical products for tissue regeneration, for tissue repair, for tissue treatment, whether relating to human or animal tissue; pharmaceutical preparations for the treatment of bone diseases, for cartilaginous diseases, for vascular diseases, for neuronal degeneration, for degeneration of tendons and ligaments, for retinal degeneration, for renal degeneration, degeneration of soft tissue, for diseases with abnormal cell proliferation; natural biomaterials for bone filling; natural biomaterials for filling cartilage; biological tissue cultures for medical use; biological tissue cultures for medical purposes; biological tissue grafts; biological bone and skin tissues impregnated with lines of oxygen for tissue engineering applications to increase cell survival in tissue intended for subsequent implantation; gene therapy products, namely, genetically engineered tissues for transplantation; implantable scaffolds comprising living tissue for maintaining tissue contour; natural biomaterials for augmentation of bone and tissue for medical purposes; dietary supplements and dietetic preparations; protein dietary supplements; nutritional supplement meal replacement bars for boosting energy; food supplements; nutritional supplements; pharmaceutical, veterinary and sanitary preparations; biological implants; biological tissue for implantation; cells for medical use; human allograft tissue; living cells for medical use; implants for guided tissue regeneration; implants comprising living tissue; implantable materials for use in guided tissue regeneration; stem cells; skin grafts; surgical implants grown from stem cells; surgical implants grown from stem cells [living tissues]; transdermal patches; transplants [living tissues]; antibodies; living cells for veterinary use; stem cells for medical purposes; collagen for medical purposes; in vitro diagnostic preparations for medical use; reagents for in-vitro laboratory use [for medical purposes]; reagents for in-vitro laboratory use [for veterinary purposes]; medical diagnostic reagents; veterinary diagnostic reagents; clinical diagnostic reagents; diagnostic reagents for medical use; diagnostic reagents for medicinal use; diagnostic substances for medical use; diagnostic preparations for veterinary use; diagnostic preparations for veterinary purposes; diagnostic agents for

medical use; diagnostic agents for pharmaceutical use; diagnostic preparations for medical purposes; diagnostic testing materials for medical use; diagnostic biomarker reagents for medical purposes; diagnostic chemical reagents for medical use; chemical diagnostic reagents for medical use; diagnostic preparations for medical or veterinary purposes; diagnostic preparations for medical and veterinary use; reagents for use in diagnostic tests [for veterinary purposes]; reagents and media for medical and veterinary diagnostic purposes; reagents for use in diagnostic tests [for medical purposes]; medical diagnostic reagents and assays for testing of body fluids; engineered biological tissues and organs, namely, human and animal cardiovascular, pulmonary, digestive, hepatobiliary, urological, renal, endocrine, connective, epithelial, muscular, and nervous tissue and organs, for medical purposes.

Class 07
Three-dimensional [3D] printers (3D printers); three-dimensional [3D] bioprinters (3D bioprinters); computerised equipment for the generation of three-dimensional shaped parts; machines for manufacturing three dimensional models, namely, computer-aided modelling devices; computer-aided additive machines for manufacturing three-dimensional objects; machines for manufacturing three dimensional models, namely, computer-aided modelling machines for manufacturing three dimensional models; computer-aided additive manufacturing machines for three-dimensional objects; machines for manufacturing three dimensional (3D) living tissues; machines, namely, three dimensional (3D) bioprinter for the printing of living tissues; three-dimensional (3D) bio-printers for printing of extracellular matrices and biomaterials; dispensing machines [other than vending machines]; machines and machine tools for manufacturing medical devices, diagnostic devices, point-of-care devices, rapid tests, lateral flow devices and microfluidic devices; automated assembly, packaging, strip cutting, cutting, dispensing, welding, ultrasonic welding, gluing, heat-sealing, bonding, marking, labelling, printing, surface treatment, tagging, pouching, laser marking, cassette closure, cap assembly machines, all for medical devices, diagnostic devices, point-of-care devices, rapid tests, lateral flow devices and microfluidic devices; 3D printers; lithographic machines; machines for laser-lithography; machinery for shaping plastic material.

Class 09
Computer-assisted dosage dispensers for biomaterials and medicinal substances in the biotechnology, and in the pharmaceuticals and cosmetics industries; laboratory apparatus for fabrication of three dimensional (3D) living tissues; apparatus and instruments for microscopy; laboratory apparatus and instruments; disposable dispenser syringes for laboratory use; liquid dosage devices that measure the amounts to be dispensed; measuring, detecting, monitoring and controlling devices; laboratory instruments [other than for medical use]; test trays; laboratory trays; scientific research and laboratory apparatus, educational apparatus and simulators; measuring, detecting and monitoring instruments,

indicators and controllers; laboratory apparatus for fabrication of three-dimensional tissues and organs; instruction manuals in electronic format; imaging devices for scientific purposes; models for scientific experiments in laboratories; software; operating system; scientific, measuring, checking (supervision) apparatus and instruments; scientific apparatus and instruments for the analysis of carrier materials, in particular of membranes and glass, chemicals used in industry and science, in particular nucleic acids, peptides and proteins and for the analysis of immobilised chemical compounds, including collections of chemical compounds for industrial and scientific purposes; computer software and programs, in particular computer programs for the synthesis and/or immobilisation of chemicals used in industry and science, in particular nucleic acids, peptides and proteins, immobilised chemical compounds, arrays of collections of chemical compounds, in particular collections of chemical compounds on a carrier, compounds manufactured with the aid of immobilised chemical compounds, collections of chemical compounds or arrays of chemical compounds; computer software (recorded), programs, in particular computer programs for the analysis of samples on surfaces, in particular carrier materials, including membranes and glass, mainly the aforesaid carriers including chemicals used in industry and science, in particular nucleic acids, peptides and proteins, for the analysis of immobilised chemical compounds, for the analysis of chemical compounds for industrial and scientific purposes, for the analysis of arrays of chemical compounds; programs, in particular computer programs for screening compounds, including nucleic acids, peptides and proteins; image analysis software; computer software for data analysis; equipment and apparatus for the analysis of the synthesis and/or immobilisation of chemicals used in industry and science, for the analysis of samples on surfaces and for the analysis of screening compounds, including nucleic acids, peptides and proteins, in particular the aforesaid equipment and analysis apparatus with integrated data analysis; diagnostic equipment and analysis apparatus for the synthesis and/or immobilisation of chemicals used in industry and science, for the generating and analysis of samples on surfaces and for screening compounds, including nucleic acids, peptides and proteins, in particular the aforesaid equipment and analysis apparatus with integrated data analysis chambers, in particular hybridisation chambers; spotting scopes; biochips; bioreactor for cell culturing; bioreactors for laboratory use; bioreactors for research use; cell culture apparatus for laboratory use; devices for analyzing genome information; devices for analyzing protein sequence used as laboratory apparatus; dna chips; dna microarray; imaging devices for scientific purposes; immunostaining instruments [for scientific purposes]; incubation plates for scientific or laboratory use; incubators for laboratory use; instruments for diagnosis [for scientific use]; laboratory apparatus and instruments; laboratory incubators [other than for medical use]; laboratory instruments [other than for medical use]; laboratory optical apparatus; led microscopes; lasers for scientific use; lenses for microscopes; microarray slides; microplate readers; microscope slides; models for scientific experiments in laboratories; nucleic acid sequencers for scientific purposes; petri dishes; petri dishes used in laboratory research; pipette tips; pipettes; scientific apparatus and instruments; print heads for inkjet printers; disposable

plastic bioreactors for cell culture; bioreactors for cell culture; laboratory apparatus for fabrication of three-dimensional tissues and organs; scientific research and laboratory apparatus and instruments in the field of cytology; equipment for scientific research and laboratory apparatus and instruments in the field of cytology; scientific research and laboratory apparatus, namely, cell handling apparatus, cell analysis apparatus and apparatus for cell separation; scientific research and laboratory apparatus, namely cell culture apparatus for laboratory use; laboratory apparatus and instruments for use in biopharmaceutical discovery and development; laboratory apparatus and instruments for use in cell detection and molecular discovery; laboratory apparatus and instruments for the analysis, retrieval or discovery of single cells; laboratory apparatus and instruments for use in assuring monoclonality; parts and fittings for all the aforesaid goods; laboratory apparatus for fabrication of three dimensional (3D) living tissues; laboratory equipment for scientific and research use, namely, systems comprised of fluid dispenser, imaging station, computer hardware, control software, analysis software, chips and reagents; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; apparatus and instruments for science and research; apparatus and instruments for scientific research and laboratories for handling, processing, analysing and/or investigating cells, in particular single cells, or other particles, in particular single other particles; apparatus and instruments for scientific research and laboratories for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; apparatus and instruments for scientific research and laboratories for obtaining, storing, recording, transmitting, reproducing, examining, investigating, analysing and/or processing images of cells or other particles; cell culture apparatus and instruments for scientific purposes; bioreactors and microbioreactors, in particular for cell culturing; multi-well and microtiter plates, in particular for cell culturing; bioreactors for cell culturing; recorded and downloadable media or computer software; computer software for maintaining and/or operating apparatus and instruments for scientific research and laboratories and/or medical apparatus and instruments, in particular any of the aforesaid apparatus and instruments for scientific research and laboratories or of the aforesaid bioreactors and microbioreactors; computer software for use with apparatus and instruments for scientific research and laboratories and/or with medical apparatus and instruments, in particular with any of the aforesaid apparatus and instruments for scientific research and laboratories or with the aforesaid bioreactors and microbioreactors; computer software for handling, processing, analysing and/or investigating cells or other particles; computer software for controlling cell culture apparatus and instruments or bioreactors and microbioreactors, or for controlling cell culturing; computer software for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; computer software for obtaining, storing, recording, transmitting, reproducing, examining,

investigating, analysing and/or processing images of cells or other particles; computers and computer peripheral devices, in particular loaded with any of the aforesaid computer software; parts and accessories for all the aforesaid goods, included in this class; scientific research and laboratory apparatus and instruments in the field of cytology; equipment for scientifc research and laboratory apparatus and instruments in the field of cytology; scientific, photographic, optical, measuring apparatus and instruments; optical installations for the lithographic production of two-dimensional and three-dimensional objects; focusable and controllable laser installations for lithography; submicrometer gauges for substrate carriers; optical installations with laser function; position fixing apparatus; testing apparatus for non medical purposes; observation instruments; apparatus and instruments for microscopy; computer software; industrial process control software; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life saving and teaching apparatus and instruments, in particular optical systems for the lithographic production of two and three-dimensional objects, focusable laser sources, handling systems with resolution in the submicrometer range, laser-optical systems for in-vitro manipulation of biological preparations, vacuum installations and components, analysis apparatus; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; calculating machines, data-processing equipment and computers; radio-frequency identification [RFID] readers; quality inspection apparatus and fluorescence light checking apparatus for quality control of medical devices, diagnostic devices, point-of-care devices, rapid tests, lateral flow devices and microfluidic devices.

Class 10
Devices for administering medicine with computer-assisted and three-dimensional dosing function of biomaterials and medicinal substances; lab units for the dispensing of liquids [for medical use]; medical trays; diagnostic, examination and monitoring equipment for medical purposes; surgical, medical, dental and veterinary apparatus and instruments; laboratory apparatus and instruments for medical purposes; medical apparatus and instruments for handling, processing, analysing and/or investigating cells for medical purposes; medical apparatus and instruments for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells, in particular single cells, or other particles, in particular single other particles; medical apparatus and instruments for obtaining, storing, recording, transmitting, reproducing, examining, investigating, analysing and/or processing images of cells or other particles; cell culture apparatus and instruments for medical purposes; bioreactors and microbioreactors for medical purposes, in particular for cell culturing for medical purposes; multi-well and microtiter plates for medical purposes, in particular for cell culturing for medical purposes; liquid mixers and liquid aerators, in particular for cell culturing, for medical purposes; parts and accessories for all the aforesaid goods, included in this class; surgical, medical, dental and veterinary instruments and

apparatus, in particular laser-optical systems for inpatient or outpatient laser surgery, laser therapy or for the in-vitro manipulation of tissue components, as well as optical forceps, surgical apparatus and instruments, surgical implants (of artificial materials), intraocular prostheses for surgical implantation.

Class 36
Financial and monetary services, and banking; investment services; management of investment trusts; financial management of holding companies; financial management of holding companies for indirect ownership of companies; financial management of holding companies for indirect ownership of companies active in the sectors of bioconvergence, biotechnology, life sciences, healthcare, 3D bioprinting, biofabrication, biology, engineering, biomaterials, materials science, nanotechnology, regenerative medicine, tissue engineering, personalized medicine, single-cell analysis, molecular diagnostics, point of care diagnostics, point of care testing, microbiome, microbiology, process technology, automation; valuation services; real estate affairs; real estate management.

Class 40
3D printing services; custom manufacturing of three-dimensional shaped parts using rapid prototyping equipment; 3D bioprinting; bioprinting; renting of 3D printers; treatment of chemicals used in industry and science, in particular nucleic acids, peptides and proteins, chemical compounds for industrial and scientific purposes, in particular immobilised chemical compounds for industrial and scientific purposes, arrays of chemical compounds, in particular nucleic acids, peptides and proteins, arrays of collections of chemical compounds, in particular collections of chemical compounds on a carrier, compounds made with the aid of immobilised chemical compounds; processing of chemical compounds, in particular nucleic acids, peptides and proteins; processing of collected chemical compounds, in particular chemical compounds collected on a carrier; 3D printing services; lithographic material treatment; treatment of materials by laser beam, namely, microstructuring and nanostructuring; lithographic printing; laser scribing services; treatment of materials, in relation to laser engraving, engraving, galvanisation, gilding, silver-plating, chromium plating, nickel plating, and services relating to conversion, shaping and coating from organic and inorganic starting materials into/ onto components and structures with dimensions up to the micrometer and nanometer scale, and services relating to the laser-lithographic treatment of materials involving the chemical and/or physical modification of materials; automated custom assembling of rapid tests.

Class 42
Research and development of 3D technology and processes; development of rapid prototyping equipment; technological consultancy relating to rapid prototyping; scientific research consulting in the fields of three-dimensional printing; scientific services relating to the isolation and cultivation of human tissues and cells; laboratory services; laboratory

analysis; laboratory research; testing, authentication and quality control; technological consultancy; consultancy relating to laboratory testing; consultancy relating to pharmaceutical research and development; consultancy in the field of scientific research; platform as a service (PaaS); hosting platforms on the internet; programming of software for internet platforms; hosting an on-line community web site featuring a platform for sharing of 3D models for 3D bioprinting; creating an online community in the form of a website for professionals in the 3D bioprinting industry; computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking and share 3D models for 3D bioprinting; provision of information relating to scientific research; provision of information relating to technological research; information services relating to scientific research in the fields of biochemistry and biotechnology; research and analysis services for biological, biochemical, chemical, molecular biological and biotechnological purposes; services for medical research, veterinary research, pharmaceutical research, genetic research, cytogenetic research, molecular biological research and molecular genetic research purposes; research and development in the field of the synthesis and/or immobilisation of chemicals used in industry and science, immobilised chemical compounds, arrays of chemical compounds, arrays of collections of chemical compounds, in particular collections of chemical compounds on a carrier, compounds made with the aid of immobilised chemical compounds, collections of chemical compounds or arrays of chemical compounds, in particular immobilised on a carrier; quality checking and testing services for interaction partners; research and development in the field of the determination of interaction partners; development of diagnostic agents; screening and development of chemicals used in industry and science, chemical compounds for industrial and scientific purposes, in particular immobilised chemical compounds for industrial and scientific purposes, arrays of chemical compounds, arrays of collections of chemical compounds, in particular collections of chemical compounds on a carrier, compounds made with the aid of immobilised chemical compounds, collections of chemical compounds or arrays of chemical compounds; computer programming, in particular for research, development and screening purposes; providing temporary use of on-line non-downloadable software for database management; biological research, clinical research and medical research; biomedical research services; clinical research; development of pharmaceutical preparations and medicines; laboratory research services relating to pharmaceuticals; laboratory research services relating to dermatology; laboratory services relating to the production of monoclonal antibodies; medical laboratory services; medical research; pharmaceutical drug development services; pharmaceutical product evaluation; pharmaceutical products development; pharmaceutical research and development; pharmaceutical research services; research and development for the pharmaceutical industry; research and development in the pharmaceutical and biotechnology fields; research and development of vaccines and medicines; scientific research and development; scientific research for medical purposes in the area of cancerous diseases; scientific research in the field of pharmacy; services for assessing the efficiency of

pharmaceuticals; services for assessing the efficiency of veterinary drugs; testing of pharmaceuticals; research and development services in the field of antibodies; research and development in the field of microorganisms and cells; scientific services relating to the isolation and cultivation of human tissues and cells; research relating to medicine; research relating to medicines; design and development of diagnostic apparatus; design of diagnostic apparatus and equipment; design and development of medical diagnostic apparatus; research and development in the field of diagnostic preparations; research and development services in the field of cytology; biotechnology research; biotechnology testing; research and development in the field of biotechnology; research relating to biotechnology; consultancy relating to biotechnology; consultancy in the field of biotechnology; scientific and medical research and development in the field of cytology; scientific and medical research and development in the field of bioprinting; scientific and technological services and research and design relating thereto; scientific and technological services and research and design relating thereto for handling, processing, analysing and/or investigating cells, in particular single cells, or other particles, in particular single other particles; scientific and technological services and research and design relating thereto for culturing of cells; scientific and technological services and research and design relating thereto for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; scientific and technological services and research and design relating thereto for the design, construction, manufacture and/or use of apparatus and instruments for scientific research and laboratories and/or of medical apparatus and instruments, in particular of apparatus and instruments for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; industrial analysis, industrial research and industrial design services; industrial analysis, industrial research and industrial design services for the design, construction, manufacture and/or use of apparatus and instruments for scientific research and laboratories and/or of medical apparatus and instruments, in particular of apparatus and instruments for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; design and development of computer software; design, development, programming and/or implementation of computer software for maintaining and/or operating apparatus and instruments for scientific research and laboratories and/or medical apparatus and instruments, in particular for maintaining and/or operating cell culture apparatus and instruments or bioreactors and microbioreactors; design, development, programming and/or implementation of computer software for use with apparatus and instruments for scientific research and laboratories and/or with medical apparatus and instruments, in particular for use with cell culture apparatus and instruments or bioreactors and microbioreactors; design, development, programming and/or implementation of computer software for handling, processing, analysing and/or investigating cells or other particles; design, development, programming and/or implementation of computer software for controlling cell culture apparatus and instruments or bioreactors and microbioreactors, or

for controlling cell culturing; design, development, programming and/or implementation of computer software for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; design, development, programming and/or implementation of computer software for obtaining, storing, recording, transmitting, reproducing, examining, investigating, analysing and/or processing images of cells or other particles; providing temporary use of non-downloadable online computer software; providing temporary use of non-downloadable online computer software for maintaining and/or operating apparatus and instruments for scientific research and laboratories and/or medical apparatus and instruments, in particular for maintaining and/or operating cell culture apparatus and instruments or bioreactors and microbioreactors; providing temporary use of non-downloadable online computer software for use with apparatus and instruments for scientific research and laboratories and/or with medical apparatus and instruments, in particular for use with cell culture apparatus and instruments or bioreactors and microbioreactors; providing temporary use of non-downloadable online computer software for handling, processing, analysing and/or investigating cells or other particles; providing temporary use of non-downloadable online computer software for controlling cell culture apparatus and instruments or bioreactors and microbioreactors, or for controlling cell culturing; providing temporary use of non-downloadable online computer software for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; providing temporary use of non-downloadable online computer software for obtaining, storing, recording, transmitting, reproducing, examining, investigating, analysing and/or processing images of cells or other particles; scientific and technological services and research and design relating thereto; industrial research services; physics [research]; engineering services; chemistry services; chemical laboratories; optical research laboratories; chemical product development for use in lithography; development of photoresists for lithography; research and development services in the field of laser system development and laser applications for technical, physical, biological and medical use; development of new technology for others; design and development of software for control, regulation and monitoring of lithography devices; design and development of software for control, regulation and monitoring of 3D printers; design and development of software for control, regulation and monitoring of devices for laser-lithography; computer software development for others; software design for others; design of mathematical models; industrial analysis and research services in particular biological research, physics, services of a technical measuring and testing laboratory, engineering, chemistry laboratory services, conducting technical testing and scientific experiments, and technical, engineering and scientific services in relation to work in the field of research and development for laser system developments and laser applications for technical, physical, biological and medical applications; design and development of computer hardware and software; development of coating processes for surfaces of substrates, in particular biochips.
