General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at https://www.ipos.gov.sg. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Goods and/or Services:

Class 07
Condensing installations, namely air condensers, air-cooled condensers, axial fan condensers, steam condensers, refrigeration condensers; steam engines; pumps (machine or engine parts, machinery), pumps for heating installations, pumps for cooling installations; vacuum pumps, centrifugal pumps, lubricating pumps,

refrigerant recovery pumps; regulators [parts of machines]; heat exchangers [parts of machines]; compressors, in particular refrigerant compressors for heating installations; refrigerant compressors for cooling installations, compressors for refrigerators, compressors for recovering and recycling refrigerant gases; heat sinks for use in machines; radiators [cooling] for motors and engines.

Class 09

Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling the distribution of electricity; apparatus and instruments for regulating and controlling pressure, temperature, fan speed, noise or water; electronic control circuits for electric fans; electronic control circuits for electric valves; computer software and computer programs; computer application software for use in implementing the Internet of Things [IoT]; sensory software, electrical connecting plugs; plasma display panels; electric installations for the remote control of industrial operations; sensors, namely coolant-temperature sensors, pressure sensors, sensors for use in the control of engines, electronic control sensors for motors; refrigerant meters; refrigerant scales; electrical and thermal control devices; programmable controllers; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; central processing unit coolers; electronic process control units, namely, being industrial process control hardware and software for cooling and heating processes; climate control digital thermostats; diagnostic, monitoring, heat regulating and testing apparatus, not for medical purposes; all the aforesaid goods in particular in relation to refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology.

Class 11

Apparatus for heating, steam generating, refrigerating, drying, ventilating and water supply purposes; heat exchangers not being parts of machines, in particular lamellar

heat exchangers, plate heat exchangers, tubular heat exchangers; fittings for heat exchangers; cooling installations and machines, in particular air coolers, glycol dry coolers, water dry coolers, water cooling towers; refrigerant condensers; freezers; shock frosters (cooling installation) dry cooling apparatus for cooling media; refrigerating machines; refrigerating containers; chilling chambers, coolers for furnaces; refrigeration units; refrigerating apparatus, appliances and installations; ice machines and apparatus; freezing machines; cooling installations for liquids; driers for refrigeration systems; chiller units being parts of water cooling installations; finned tubes (parts of heat exchangers); heating and cooling apparatus and equipment for waste heat recovery; installations for the cooling of air; air conditioning fans; filters for air conditioning; air conditioners and parts of air conditioners; ventilating installations; ventilator frames being parts of air conditioning installations; air conditioning panels for use in walk-in coolers; air heating apparatus; evaporators, in particular industrial high-performance evaporators, tubular evaporators and heat pump evaporators; heating installations; gas boilers; gas condensers, others than parts of machines; condenser tubes (parts of gas condenser); air heaters; level controlling valves in tanks; regulating and safety accessories for water apparatus; heat regenerators; heat accumulators; electric radiators, heat pumps, heat sinks for use in cooling apparatus; heat sinks for use in ventilating apparatus; heat sinks for use in heating apparatus; air purifying apparatus and machines, air filtering installations and apparatus, germicidal lamps for purifying air and water filtering installations; air filters for industrial and household use; water distribution installations; air cooling apparatus; parts of the all above goods.

Class 35

Collective buying services, namely arranging of collective buying, commercial evaluation services, auction services, commercial information agency services, import-export agency services, online business information and ordering services in the field of refrigeration, cooling, air conditioning, purifying, heat and heat exchanger

technology; retailing and wholesaling, the bringing together, for the benefit of others, of a variety of goods, in the field of refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology, in particular in relation to condensing installations, condensers, pumps, compressors, heat exchangers, heat sinks, radiators, software, control systems, sensors, monitoring, test and heat regulating systems, refrigerating apparatus, machines and installations, cooling equipment and machines, heating apparatus and installations, air conditioning apparatus and installations, air purifying installations, water distribution installations and water cooling towers and parts of the aforesaid goods, enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order; online retail and wholesale store services in the field of refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology, in particular in relation to condensing installations, condensers, pumps, compressors, heat exchangers, heat sinks, radiators, software, control systems, sensors, monitoring, test and heat regulating systems, refrigerating apparatus, machines and installations, cooling equipment and machines, heating apparatus and installations, air conditioning apparatus and installations, air purifying installations, water distribution installations and water cooling towers and parts of the aforesaid goods; consultancy in the field of procuring goods and services in the field of refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology; providing of business and commercial information and consultancy for consumers in the field of refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology.

Class 37

Installation, cleaning, repair, refurbishment and maintenance in relation to refrigerating apparatus and installations, cooling equipment and machines, refrigerating machines, heat exchangers, heating apparatus, pumps, condensers, condensing installations, air conditioning apparatus and installations, air filtering and purifying installations, water distribution installations and water cooling towers and

parts of the aforesaid goods; construction management services; installation services, namely interference suppression in electric apparatus and in air conditioning installations and apparatus; construction consultancy; advisory services in connection with the providing of the aforesaid services, included in this class; all aforesaid services in particular in relation to refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology; all aforesaid services not in relation to apparatus and machines for the manufacture or processing of food.

Class 40
Recycling, in particular of heat exchangers and packaging material.

Class 42
Scientific and technological services; industrial analysis and research services; material testing, technical testing, in particular technical testing of heat exchangers for recyclability, corrosion, material fatigue, wear, fracturing and leak tightness; technical testing and measurement services in relation to performance and energy consumption of heat exchangers; product design, design and development, design planning and civil engineering services in the field of refrigeration, cooling, air conditioning, purifying, heat and heat exchanger technology; research and development of installations, processes and product [engineering services]; architectural and urban planning services and consultancy services relating thereto; design and development of computer software; information technology [IT] consultancy services, namely development, programming and implementation of software; cloud computing; hosting of computer sites (websites); software as a service (SaaS); monitoring of computer systems by remote access; testing, authentication and quality control; technological consultation services; providing technical advice relating to energy-saving measures; consultancy relating to energy use and energy efficiency; advisory services relating to industrial engineering; all aforesaid services in particular in relation to refrigeration, cooling, air conditioning,

purifying, heat and heat exchanger technology; all aforesaid services not in relation to apparatus and machines for the manufacture or processing of food.

Class 06

Common metals and their alloys; ores of metal; materials of metal; portable buildings of metal; non-electric cables and wires of common metal; metal hardware; tanks of metal for storage and transport; safes; screws of metal; castings of metal; processed castings of metal; washers of metal; metal rings; metal coils; shaped metal portions; shaped strips of metal; shims; packaging containers of metal; sealing caps of metal; additively made metal parts, namely castings of metal; pot hooks of metal; bolts of metal; nails of metal; metal roof trusses; runners of metal, namely continuous casting profile rails; binding screws of metal for cables; pipes of metal; knobs of metal; poles of metal; anchor plates; cables of metal (non-electric); iron wires (non-electric); casks of metal; foundry moulds of metal; latticework of metal; chains of metal; frameworks of metal; rings of metal; metal clamps; steel tubes; steel sheets; cast steel; pipework of metal; parts of all aforesaid goods, as far as contained in this class.

Class 07

Electric motors; asynchronous motors; synchronous motors; linear motors;

reluctance motors; magnet wheel motors; eddy-current motors; ultrasonic motors; electrical lifting cylinders; motors with integrated inverter; compact drives (parts of machines); control mechanisms for machines and motors; geared motors; gearboxes for machines; torque converters; reduction gears; servo gears; right-angle gear units; variable-speed gear units; industrial gear units; gear wheels for machines; electric generators; wind generators, namely for electricity charging stations; actuators; linear actuators; machine parts, namely industrial process controllers, pneumatic; housings for electric motors and reduction gears; machine parts, namely adapters for machine tools; machine parts, namely stators; machine parts, namely swing bases; fans for engines; cooling radiators for motors; machine parts, namely bearings; machine parts, namely gaskets for internal combustion engines; machine parts, namely gasket rings for internal combustion engines; couplings for machines; brakes for machines; magnetic brakes; eddy-current brakes; magnetic brakes for machines; input shafts; roller conveyors; electric roller drives; industrial robots; 3D printers; robotic handling apparatus; robotic finishing machines; robots for machine tools; gantry cranes; belt kinematics machines; roller gantry cranes (machines); Selective Compliance Assembly Robot Arm (SCARA) robots; taxiway bridges (machines); machines with delta-kinematics; cable robots; industrial robots for use at trade fairs; heavy duty robots; machining robots; cleanroom robots; robotic arms (machines); spray paint robots; sand-blasting robots; robots for cleaning; palletization robots; handling devices; handling machines; six-axis robots; articulated robots; depalletizers (machines); ply-insertion machines; bipods (machines); tripods (machines); pick devices (machines); quad-pods (machines); robotic apparatus for handling materials; automated robotic handling apparatus for loading and unloading of goods; self-driving robots for industrial use; unmanned transportation conveyors being cargo handling machines; unmanned transportation conveyors being internal material flow machines; unmanned transportation conveyors being factory automation machines; parallel kinematics machines; hexapods (spatial machines of motion); 3D printers for manufacturing of three-dimensional moulded parts; 3D

printing systems consisting of computer controlled machines for manufacturing of three-dimensional moulded parts; parts and additional parts of all aforesaid goods; gearboxes incorporating gearing; helical gears; pot hooks being parts of machines; machine (systems of drive units) for pressing plants in the automotive industry; machine (systems of drive units) for body plants in the automotive industry; machine (systems of drive units) for painting processes in the automotive industry; machine (systems of drive units) for powertrain processes in the automotive industry; machine (systems of drive units) for raw materials supply in the beverage industry; machine (systems of drive units) for filling in the beverage industry; machine (systems of drive units) for processing and production in the beverage industry; machine (systems of drive units) for the supply of packaging in the beverage industry; machine (systems of drive units) for the supply of raw material in the food industry; machine (systems of drive units) for filling in the food industry; machine (systems of drive units) for processing and production in the food industry; machine (systems of drive units) for the supply of packaging in the food industry; machine (systems of drive units) for belts for conveyors in the wood industry; machine (systems of drive units) for the material supply in the transport and logistics industry; machine (systems of drive units) for the sorting in the transport and logistics industry; machine (systems of drive units) for the storage and the removal from stock in the transport and logistics industry; machine (systems of drive units) for the loading and unloading in the transport and logistics industry; machine (systems of drive units) for luggage check-in at airports; machine (systems of drive units) for the temporary storage of luggage at airports; machine (systems of drive units) for the sorting of luggage at airports; machine (systems of drive units) for the baggage claim at airports; machine (systems of drive units) for the loading and unloading of airplanes; machine (systems of drive units) for the building and building materials industry; machine (systems of drive units) for use in the glass industry; machine (systems of drive units) for use in the plastics processing industry; machine (systems of drive units) for use in the metal processing industry; machine (systems of drive units) for the conveyor technology at ports and

on the railways; machine (systems of drive units) for the conveyor technology in the mining industry; machine (systems of drive units) for use in treatment plants; castings (machine parts) of machines, in particular of systems of drive units, manufactured and/or additively manufactured by means of 3D printers; fan covers (machine parts) of machines, in particular of systems of drive units, manufactured and/or additively manufactured by means of 3D printers; housing parts of machines, in particular of systems of drive units, manufactured and/or additively manufactured by means of 3D printers; fans (machine parts) of machines, in particular of systems of drive units, manufactured and/or additively manufactured by means of 3D printers; gears for machines, in particular pinions, pinion shafts and gearwheels of machines, manufactured and/or additively manufactured by means of 3D printers; sealing rings (machine parts) of machines, in particular of systems of drive units, manufactured and/or additively manufactured by means of 3D printers; machine parts, namely machine parts of systems of drive units, manufactured and/or additively manufactured by means of 3D printers; parts of all aforesaid goods, as far as contained in this class; all aforementioned goods not for land vehicles.

Class 09

Apparatus and instruments for conducting, switching, converting, storing, regulating and/or controlling electricity; inverters; exchange inverters; drive inverters; current converters; voltage converters; frequency converters; waveguides; hollow-core cables being fibre optic cables; slotted waveguides; electric coils; current coils for inductive power supply; regenerative power supply units; electronic controls; programmable logic controls; electric cables; electric connectors; electric wires; electric apparatus for the remote control of industrial operations; electric connection parts; electronic display panels; LCD-displays; LED-displays; electronic control systems for machines; remote controls; electronic and electro-technical measuring instruments; rotary speed sensors; encoders; incremental encoders; integrated circuits; semiconductors; electric and electronic control apparatus; sonic sensors; oil

sensors; temperature sensors; structure-borne sound sensors; electronic publications (downloadable); electronic positioning controls; computer software for controlling machines; computer software for controlling industrial processes; computer software for monitoring industrial processes; computer software for planning electric drives; computer software for planning industrial facilities; software for data communication; software protocols in electronic format for data communication; data bus protocols in electronic format; safety-related data bus protocols in electronic format; parameter boxes [machine-readable data collecting machines]; opto-couplers; electro-optical converter; data bus converter; data bus cables; data bus plugs; fieldbus converter; fieldbus cables; fieldbus plugs; electronic nameplates for electric drives; PCs; lap-tops; industrial PCs, electrical apparatus, namely, wireless devices; network devices; network devices for wireless networks; current transformers; devices for inductively contactless supplying and/or charging of electric drives, electric storage devices, and electric vehicles with electric energy, namely line conductors, pick-up coils, current converters, antennas, receiver, transceiver, charging mats; electric charging devices for charging of electric drives, electric storage devices and electric vehicles; electricity storage apparatus; batteries; accumulators; capacitors; capacitor modules consisting of capacitor, housing and circuit board; charging cables; charging plugs; electronic load modules; electric charging stations for electric vehicles supplied from the general electricity network and/or from renewable energy sources (and parts and accessories thereof); solar cells in particular for electric charging stations; navigation devices for vehicles; navigation instruments and fittings thereof; navigation instruments and fittings thereof for industrial use; parking sensors for vehicles; bus bars; sonic cameras; humanoid robots with artificial intelligence; security surveillance robots; computer software for use with 3D printers; recorded and digital files; recorded and digital files for additive manufacturing machines; recorded and digital files for 3D printing machines; recorded and digital files for 3D printers; recorded and digital files for the specification and geometry of additively manufactured parts; electronically stored

and downloadable files; stored and downloadable production files; downloadable software applications for use with 3D printers; downloadable computer software for design and shaping of 3D print products; application software for robot; parts of all aforesaid goods, as far as contained in this class; electricity storage apparatus, namely rotor energy storage apparatus; plotters.

Goods and/or Services:

Class 01

Chemicals for use in industry, agriculture and forestry; petroleum derivatives for use in industry, agriculture and forestry (antifreezes, distilled water, esters, ethers, glycol, chemical agents for the manufacture of coatings, naphthalene, agents for quenching metals - quenching fluids, chemical preparations for the separation of greases, mould-release preparations, brake fluid).

Class 02

Preservatives against rust and against deterioration of wood; etching agents (anti-rust oils).

Class 03

Cleaning preparations, automotive cleaning preparations, windscreen cleaning liquids.

Class 04

Industrial oils and greases; lubricants; fuels (fuel, industrial greases, industrial oils, greases for drive belts, greases, lubricating greases, lubricating oils, motor oils, petroleum, petroleum by products, oils for surface treatment, mould releasing oils, oil fuel, gas oil, heating oil); quenching oils; white oils.

Class 17

Insulating material (insulating oils, insulating oil for transformers).

Class 35

Arranging and concluding commercial transactions for others; business administration; office operations (administrative services, assistance in industrial and business management, business management assistance, business research, business organization consulting, sales promotion, professional business consulting, consulting services in the field of business management, management consulting, consulting in the field of business organization and management, market research, mediation and conclusion of commercial transactions for others, representation and mediation regarding them, assistance in business management and product commercialization, economic feasibility studies, development of promotional campaigns, advertising and promotion services, collection and provision of business information, mediation of trade business for third parties).

Class 36

Financial affairs; monetary affairs; real estate affairs (leasing of offices, financial analyses, financial investments, financial sponsorship, financial consulting, financial management, arranging of loans, installment loans, financial engineering, services related to issuing and trading of securities, services related to the organization and implementation of investments, leasing services, professional supervision of the implementation of investment works, financing of purchases).

Class 37

Repairs; installation services (lubrication of motor vehicles, supply of road, air and water motor vehicles with fuel and lubricants, repairs and maintenance of road motor vehicles, repairs and maintenance and cleaning of machines, tanks and devices).

Class 39

Transport; packaging and storage of goods (rental of storage containers, rental of warehouses, storage of goods, storage and delivery of goods, transport and storage of waste, forwarding services, collection, storage and transport of used oils and residues of petroleum derivatives, pumping of petroleum derivatives).

Class 40

Treatment of materials (purification of water, purification of petroleum derivatives, processing of petroleum, waste processing, refining, recycling of rubbish and waste, incineration of residues and waste, destruction of residues and waste).

Class 42

Scientific and technological services and researches; industrial analyses and researches (chemical analyses, chemical researches, chemical laboratory services, control of goods quantity and quality, research and development, technical researches, measurement evaluations, pressure test of reservoirs; technical research projects and studies, design of industrial machines, apparatus and instruments for use with petroleum derivatives, quality control of services, product development for others in the field of oil and gas).
