GENERAL INFORMATION II

TRADEMARKS ACT 2019 (Act 815)

PUBLICATION OF APPLICATION FOR REGISTRATION OF TRADEMARKS

Pursuant to **section 31** of the Trademarks Act 2019, the following applications for registration of trademarks have been accepted and are hereby published in Intellectual Property Official Journal under **paragraph 148(1)(a)** of the Trademarks Act 2019

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Pursuant to subsections 35(1) and 35(2) of the Trademarks Act 2019 and subregulation 23(1) of the Trademarks Regulations 2019, a notice of opposition to oppose the registration of the application for registration of trademark which shall include the statement of the grounds of such opposition may be filed together with payment of the prescribed fee with the Registrar of Trademarks within two months from the date of the publication of the acceptance of such application for registration of trademark.

Notwithstanding the above paragraph, pursuant to subsection 153(1) of the Trademarks Act 2019 and subregulation 23(2) of the Trademarks Regulations 2019, the request for an extension of time may be allowed at the discretion of the Registrar of Trademarks for not more than two months after the expiry of the period for filing the notice of opposition.

wearable computers, smartphones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices, all for facilitating payment transactions by electronic means and to allow customers to access financial and bank account information and to transact bank business; wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio

equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices, all capable of providing access to wireless communications networks, telecommunications networks and the Internet; downloadable mobile applications for use with wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices; computer application software for use with wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices; encoded or magnetic pre-paid payment, bank, credit, debit, cash and identification cards; computer software, downloadable computer software, computer programs and software applications for use in relation to smart contract audit services and automatic code analysis of other software; computer software, downloadable computer software, computer programs and software applications for use in relation to identifying and checking for security and reliability vulnerabilities of smart contracts and applications on the blockchain; computer software, downloadable computer software, computer programs and software applications for use in relation to cybersecurity services; computer software, downloadable computer software, computer programs and software applications for use in relation to managing, securing, and validating transactions and data using blockchain technology; computer software, downloadable computer software, computer programs and software applications for use in relation to managing and validating digital and virtual currency transactions using blockchain-based smart contracts; computer software, downloadable computer software, computer programs and software applications for use in relation to cybersecurity risk assessment, software code review, incident response, penetration testing, adversarial attack simulation, phishing campaigns, wireless assessment, cybersecurity compliance and cybersecurity governance; computer software, downloadable computer software, computer programs and software applications for use in relation to the collection, processing and analysis of on-chain and off-chain data, analytics and information stored or derived from digital and virtual assets, digital and virtual currency, distributed ledgers and blockchain; computer software, downloadable computer software, computer programs and software applications for use in relation to tracking, monitoring, analysis and notification of blockchains and related off-chain reactions; computer software, downloadable computer software, computer programs and software applications for use in relation to monitoring, investigating, reporting and analyzing transactions on the blockchain, including attribution and identification of entities and individuals involved in illicit or high risk activity, and monitoring transactions for compliance with domestic and international government regulations and industry standards, including anti-money laundering requirements; computer software, downloadable computer software, computer programs and software applications for use in relation to monitoring, investigating, reporting and analyzing digital and virtual currency asset transactions; computer software, downloadable computer software, computer programs and software applications for use in relation to system cleaning and optimization; computer software, downloadable computer software, computer programs and software applications for use in relation to system cleaning and optimization to enhance performance of algorithms and computing capacity of blockchain and distributed ledgers; software development kits (SDK) and plugins to optimize and improve blockchain and distributed ledger technologies; downloadable reports featuring digital and virtual currency and blockchain investigations, compliance and analysis.

CLASS 42

Scientific and technological services and research and design relating thereto, industrial analysis and research services; design and development of computer hardware and software; software as a service (SaaS); blockchain as a service (BaaS); encryption, decryption and authentication of information, messages and data; providing user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; data security services; IT security, protection and restoration; computer security threat analysis for protecting data; provision of security services for computer networks, computer access and computerised transactions; certification (quality control) of data via blockchain; data authentication via blockchain; including all of the aforementioned services for use in connection with payment systems; computer services in connection with transmitting information, data, documents, and images over the Internet; application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services providing software in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; technical support services relating to computer software and applications provided online, by email and by telephone; computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; computer technology advice provided to Internet users by means of a support hotline; computer service relating to creating indexes of information, sites and resources on computer networks; providing search engines; design of computers, notebook computers, laptop computers,

portable computers and handheld computers; design of personal digital assistants and personal media players; design of mobile telephones and smart phones; design of digital cameras; computer services; computer programming; computer integration services; computer analysis services; computer programming in relation to the defence against virus; computer system software services; computer software design; computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for searching and retrieving information from databases and computer networks; providing technical information at the specific request of end-users by means of telephone or global computer network; consultancy services in relation to computer software; computer services relating to customized searching of computer databases and websites; computer and electronic signal coding and decoding; conversion of physical data and documents into electronic media format; product testing and evaluation services; architectural and design services; interior designs of buildings, offices and apartments; computer information services; network information services, namely, providing technical information relating to computers and networks in the field of business and e-commerce; provision of computer security risk management programs; computer security information, knowledge, and testing services; quality assurance services; computer services relating to certification of business transactions and preparation of reports therefor; access control to (security services for-) computers, electronic networks and databases; security of data transmission services and of transactions via computer networks services; consultancy in the field of data security; technological consultancy concerning securing telecommunications; computerized communication network security services; providing information in the fields of Internet, world wide web and computerized communication network security and the secure transmission of data and information; consulting services in the fields of Internet, world wide web and computerized communication network security services, information security services; authentication services for computer security; online authentication of electronic signatures; off-site data backup; electronic data storage; providing information on computer technology and programming via a web site; cartography services; cloud computing; cloud hosting provider services; providing temporary use of non-downloadable cloud-based software and cloud computing software; electronic storage of data; providing virtual computer systems and virtual computer environments through cloud computing; rental of entertainment software; technical research in the field of carbon offsetting; provision of information, advice and consultancy in relation to carbon offsetting and environmental protection; providing technological information about environmentally-conscious and green innovations; environmental testing, assessment and monitoring services; research in the fields of environmental protection and conservation; research and provision of scientific information in the field of climate change; scientific and industrial consultation services relating to fuels, fuel and carbon dioxide emissions and environmental issues; scientific and technological services relating to recommendation of courses of action to reduce carbon dioxide emission in a cost effective manner; scientific and technological services relating to management of carbon offset programmes; environmental research, management and protection services; providing non-downloadable software for use in relation to smart contract audit services; providing non-downloadable software for use in relation to identifying and checking for security and reliability vulnerabilities of smart contracts and applications on the blockchain; providing non-downloadable software for use in relation to automatic code analysis of other software; providing non-downloadable computer software for managing and verifying non-fungible tokens, digital assets and digital goods transactions using blockchain technology; design, development and implementation of computer software and systems in the field of smart contract audit services; design, development and implementation of audit and security computer software and systems for blockchain-based platforms; design, development and implementation of computer software and systems for use in risk assessment, computer security and audit of smart contracts; platform as a service (PAAS) services and software as a service (SAAS) services featuring computer software platforms for use in relation to smart contract audit services; platform as a service (PAAS) featuring blockchain-based computer software platforms and distributed computing software platforms for auditing and verifying digital information and codes; application service provider (ASP) services providing software for use in relation to smart contract audit services; providing non-downloadable software for use in relation to cybersecurity risk assessment, software code review, incident response, penetration testing, adversarial attack simulation, phishing campaigns, wireless assessment, cybersecurity compliance and cybersecurity governance; providing non-downloadable software for use in relation to the collection, processing and analysis of on-chain and off-chain data, analytics and information stored or derived from digital and virtual assets, digital and virtual currency, distributed ledgers and the blockchain; providing non-downloadable software for use in relation to tracking, monitoring, analysis and notification of blockchains and related off-chain reactions; providing non-downloadable software for use in relation to monitoring, investigating, reporting and analyzing transactions on the blockchain, including attribution and identification of entities and individuals involved in illicit or high risk activity, and monitoring transactions for compliance with domestic and international government regulations and industry standards, including anti-money laundering requirements; providing non-downloadable software for use in relation to monitoring, investigating, reporting and analyzing digital and virtual currency asset transactions; providing non-downloadable software for use in relation to system cleaning and optimization; providing non-downloadable software for use in relation to system cleaning and optimization to enhance performance of algorithms and computing capacity of blockchain and

distributed ledgers; design, development and implementation of computer software and systems for use in relation to cybersecurity risk assessment, software code review, incident response, penetration testing, adversarial attack simulation, phishing campaigns, wireless assessment, cybersecurity compliance and cybersecurity governance; design, development and implementation of computer software and systems for use in relation to the collection, processing and analysis of on-chain and off-chain data, analytics and information stored or derived from digital and virtual assets, digital and virtual currency, distributed ledgers and the blockchain; design, development and implementation of computer software and systems for use in relation to tracking, monitoring, analysis and notification of blockchains and related off-chain reactions; design, development and implementation of computer software and systems for use in relation to monitoring, investigating, reporting and analyzing transactions on the blockchain, including attribution and identification of entities and individuals involved in illicit or high risk activity, and monitoring transactions for compliance with domestic and international government regulations and industry standards, including anti-money laundering requirements; design, development and implementation of computer software and systems for use in relation to monitoring, investigating, reporting and analyzing digital and virtual currency asset transactions; design, development and implementation of computer software and systems for use in relation to system cleaning and optimization; design, development and implementation of computer software and systems for use in relation to system cleaning and optimization to enhance performance of algorithms and computing capacity of blockchain and distributed ledgers; platform as a service (PAAS) services and software as a service (SAAS) services featuring software for risk and compliance analysis, management and monitoring, in the fields of KYT (Know Your Transaction), KYC (Know Your Customer), KYB (Know Your Business), AML (Anti Money Laundering), PEP (Politically Exposed Person), sanctions screening, and anti-financial crime; platform as a service (PAAS) services and software as a service (SAAS) services featuring computer software platforms for use in relation to cybersecurity risk assessment, software code review, incident response, penetration testing, adversarial attack simulation, phishing campaigns, wireless assessment, cybersecurity compliance and cybersecurity governance; platform as a service (PAAS) services and software as a service (SAAS) services featuring computer software platforms for use in relation to the collection, processing and analysis of on-chain and off-chain data, analytics and information stored or derived from digital and virtual assets, digital and virtual currency, distributed ledgers and the blockchain; platform as a service (PAAS) services and software as a service (SAAS) services featuring computer software platforms for use in relation to tracking, monitoring, analysis and notification of blockchains and related off-chain reactions; platform as a service (PAAS) services and software as a service (SAAS) services featuring computer software platforms for use in relation to monitoring, investigating, reporting and analyzing transactions on the blockchain, including attribution and identification of entities and individuals involved in illicit or high risk activity, and monitoring transactions for compliance with domestic and international government regulations and industry standards, including anti-money laundering requirements; platform as a service (PAAS) services and software as a service (SAAS) services featuring computer software platforms for use in relation to monitoring, investigating, reporting and analyzing digital and virtual currency asset transactions; platform as a service (PAAS) services and software as a service (SAAS) services featuring computer software platforms for use in relation to system cleaning and optimization; platform as a service (PAAS) services and software as a service (SAAS) services featuring computer software platforms for use in relation to system cleaning and optimization to enhance performance of algorithms and computing capacity of blockchain and distributed ledgers; cybersecurity services in relation to cybersecurity risk assessment, software code review, incident response, penetration testing, adversarial attack simulation, phishing campaigns, wireless assessment, cybersecurity compliance and cybersecurity governance; installation, maintenance, updating and upgrading of computer software relating to computer security and prevention of computer risks; consultancy, information and advisory services relating to the aforesaid services.

CLASS 9

Computers; computer hardware and software; computer servers; computer network servers; cloud servers; cloud computing software; downloadable cloud computing software; application software for cloud computing; computer systems; computer programs, recorded; computer programs, downloadable; computer software, recorded; computer software applications, downloadable; computer programs for accessing and using the Internet; computer programs for enabling access or entrance control; downloadable applications for use with mobile devices; computer software for managing and deploying virtual machines to a cloud computing platform; computer software for use in cloud infrastructure management and automation; computer software for running cloud computing based applications; computer software platforms for cloud computing networks and applications; computer software that provides access to cloud-based scalable computing resources and data storage; computer software for monitoring cloud and application performance; computer software for controlling and managing access server applications; computer software for use in automating and managing business processes; computer software for controlling the operation of audio and video devices; computer data storage devices; backup drives for computers; communications software for connecting global computer networks; communications software for connecting computer network users; computer

software and telecommunications apparatus to enable connection to databases and the Internet; computer software to enable searching of data; computer operating system software; software for searching and retrieving information across a computer network; computer software for controlling and managing access server applications; software for creating, facilitating, and managing remote access to and communication with local area networks and global networks; network access server operating software; computer software that assists computers in deploying parallel applications and performing parallel computations; computer software to maintain and operate computer systems; computer software for creating searchable databases; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; database management software; security software; downloadable computer security software; computer search engine software; computer software platforms, recorded or downloadable; cross-platform software; biometric voice recognition systems; facial recognition software; software for optical character recognition; computer software for converting document images into electronic formats; software for processing images, graphics and text; software for processing digital images; computer software for controlling the operation of audio and video devices; computer game software; computer programs for Internet of things [iot] enabled devices; computer software development tools; electronic publications, downloadable.

CLASS 35

Advertising, promotion and marketing services; database management services; business records management; business data analysis; analysis of market research data and statistics; data processing services; compilation and systemization of information into computer databases; compilation of statistical data; compilation and systemization of information in databanks; computerized on-line services ordering featuring developer tools and cloud computing software and services; providing business information directory services, via a global computer network; business development services; business management consulting services; business consulting services; business consulting services in the field of information technology (IT) and cloud computing; business consulting services for computer systems that integrate natural language processing (NLP), computational linguistics (CL), information retrieval (IR) and machine learning (ML) and capable of understanding general human queries and formulating responses; business risk management consultation; updating and maintenance of data in computer databases; web site traffic optimization; conference call transcription services; transcription of communications; trade show management services; provision of an online marketplace for buyers and sellers of goods and services.

CLASS 38

Telecommunication services; providing access to telecommunication networks; providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to proprietary collections of information by means of global computer information networks; providing multiple user wireless access to the Internet; providing user access to computer programmes on data networks; providing remote Internet access; providing access to databases; provision of telecommunication access to audio content provided via the Internet; provision of telecommunication access to video content provided via the Internet; electronic transmission of data; electronic transmission of data and documents via computer terminals and electronic devices; transmission of messages; transmission of data, audio, video and multimedia files, including downloadable files and files streamed over a global computer network; transfer and dissemination of information and data via computer networks and the Internet; providing on-line forums for the transmission of messages, comments and multimedia content among users; providing private and secure real-time electronic communication over a computer network; communication via virtual private networks [vpn]; voice over Internet protocol [voip] services; web conferencing services; teleconferencing; streaming of data; streaming of audio and video material on the Internet; telecommunications consultation.

CLASS 42

Computer software design; software as a service [saas]; platform as a service [paas]; provision of online non-downloadable software [application service provider]; development of computer platforms; creation and hosting of websites; design and development of wireless computer networks; creating and maintaining websites; research in the field of artificial intelligence technology; information technology consultancy; hosting of digital content on the Internet; computer programming; computer programming services; computer systems integration services; computer software consulting services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware problems; computer systems design services; computer systems analysis; design of computer systems; integration of computer systems and computer networks; computer software and hardware testing services, namely, testing of computer software, computers and servers to ensure proper functioning; installation of computer programs; updating of computer programs; maintenance of computer programs; cloud computing services featuring software for use in dynamic provisioning,

virtualization and consumption metering of computer resources; consulting services in the field of cloud computing; providing virtual computer systems through cloud computing; design and development of computer software for cloud storage of data; computer services, namely, cloud hosting provider services; computer services, namely, electronic data storage and data recovery services; information technology engineering services; cloud computing services; server hosting; computer time-sharing services; computer services, namely, providing virtual application, web, file, database and storage servers of variable capacity to others; scientific and technological services for the hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases for others; computer software rental; technological consultancy and information services relating to web services, databases, data processing and analytics; configuration of computer networks using software; data migration services; data mining services; electronic data backup services; remote computer backup services; data encryption services; data decryption services; computer programming services for data warehousing; technical support services, namely, troubleshooting of computer software problems; providing search engines for obtaining data via communications networks; creating and designing website-based indexes of information for others [information technology services]; cross-platform conversion of digital content into other forms of digital content; digital compression of computer data; design and development of computer software for cloud computing; consultancy in the field of cloud computing networks and applications; cloud-based data protection services; software as a service (saas) featuring software for monitoring cloud and application performance; design and development of electronic data security systems; computer programming services for electronic data security; computer security services for protection against illegal network access; providing online non-downloadable software for use in database management; computer and technology services for the detection of unauthorized access to data and information; design and development of search engines; providing Internet search engines; information technology services provided on an outsourcing basis.
