General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

software for computer printers; Daisy wheel printers; Data printer apparatus; Desk printers for use with calculators; Devices for producing photographically produced signals for printers; Digital color printers; Digital colour printers; Digital colour printers for documents; Digitizing printers; Document printers for computers; Document printers for use with computers; Dot matrix printers; Electronic printers for use with computers; Graphic printers for use with computing apparatus; Impact printers; Ink cartridges, unfilled, for printers and photocopiers; Ink jet document printers; Ink jet printers; Ink jet printers for use with computers; Ink jet printers for use with data processing apparatus; Ink-jet color printers; Ink-jet color printers for documents; Ink-jet colour printers; Integrated output printers; Laser beam printers; Laser color printers for documents; Laser document printers; Laser printer controllers; Laser printers; Laser printers for use with computers; Line printers; Matrix printers; Non-impact printers; Non-impact printers for use with computers; Non-impact printers for use with data processing apparatus; Optical printers; Paper guiding apparatus [parts of computer printers]; Paper handling devices [parts of computer printers]; Photo printers; Photographic printers incorporating microfilm readers; Plastic insulated electric cables for printers; Plotter printers; Port sharing printer controllers; Port sharing printers; Portable printers; Print heads for computer printers; Print heads for inkjet printers; Print heads for printers; Print trimmers [parts of computer printers]; Printer apparatus for use with computers; Printer apparatus for use with data processing apparatus; Printer buffers; Printer cables; Printer converters; Printer programmes; Printer programs; Printer sharers; Printer sharing devices; Printer spooler software; Printers for cash registers; Printers for computers; Printers for data processing apparatus; Printers for use with computers; Printers incorporating lasers; Printheads for ink-jet printers; Stands for printers; Still video printers; Teleprinters; Thermal printer heads; Thermal printers; Thermoprinters; Ticket printers; Toner cartridges, unfilled, for dot matrix printers; Toner cartridges, unfilled, for laser printers; Toner cartridges, unfilled, for printers; Toner cartridges, unfilled, for printers and photocopiers; Typeface fonts stored in semiconductor memories for use in printers;

Unfilled ink cartridges for computer printers; Video printers; Wireless portable printers for use with laptops and mobile devices; Xerographic printers; Accounting software; Anti-spyware software, downloadable; Anti-virus software, downloadable; Application development software, downloadable; Application software; Artificial intelligence and machine learning software; Artificial intelligence software; Augmented reality game software; Augmented reality software; Augmented reality software for creating maps; Augmented reality software for use in mobile devices; Augmented reality software for use in mobile devices for integrating electronic data with real world environments; Bioinformatics software; BIOS software; Boxes adapted for storing computer software disks; Boxes adapted for transporting computer software disks; Cards encoded to access computer software; Cartridges [software] for use with computers; Cartridges for computer games [software]; Cartridges for video games [software]; Children's educational software; Communication software; Communication software for connecting computer network users; Communication software for connecting global computer networks; Communications processing computer software; Compiler software; Computer application software for mobile phones; Computer application software for mobile telephones; Computer backgammon games [software]; Computer bridge games [software]; Computer chatbot software for simulating conversations; Computer chess games [software]; Computer communication software to allow customers to access bank account information and transact bank business; Computer firewall software; Computer game software; Computer game software downloadable from a global computer network; Computer game software for use on mobile and cellular phones; Computer game software, downloadable; Computer game software, recorded; Computer games entertainment software; Computer games programmes [software]; Computer games programs downloaded via the internet [software]; Computer games programs recorded on tapes [software]; Computer games software; Computer graphics software; Computer hardware for use in computer-assisted software engineering; Computer interface software; Computer operating software; Computer

operating system software; Computer programs [downloadable software]; Computer programs and recorded software distributed online; Computer programs and software for image processing used for mobile phones; Computer screen saver software; Computer screen saver software, recorded or downloadable; Computer search engine software; Computer software; Computer software adapted for use in the operation of computers; Computer software applications, downloadable; Computer software designed to estimate costs; Computer software designed to estimate resource requirements; Computer software development tools; Computer software downloaded from the internet; Computer software for accounting systems; Computer software for administration of local area networks; Computer software for analysing address files; Computer software for analysing market information; Computer software for application and database integration; Computer software for authorising access to databases; Computer software for business purposes; Computer software for communicating purposes between microcomputers; Computer software for communicating with users of hand-held computers; Computer software for communication between computer processes; Computer software for controlling and managing access server applications; Computer software for controlling self-service terminals; Computer software for controlling the operation of audio and video devices; Computer software for converting document images into electronic formats; Computer software for creating and editing music and sounds; Computer software for database management; Computer software for document management; Computer software for encryption; Computer software for organizing and viewing digital images and photographs; Computer software for processing address files; Computer software for processing digital images; Computer software for processing digital music files; Computer software for processing market information; Computer software for producing financial models; Computer software for the analysis of defects; Computer software for the creation of firewalls; Computer software for time control; Computer software for use in computer access control; Computer software for use in controlling machines; Computer software for use in

creating and designing websites; Computer software for use in processing semiconductor wafers; Computer software for use in programming facsimile machines; Computer software for use in providing multiple user access to a global computer information network; Computer software for use in relation to digital animation and special effects of images; Computer software for wireless content delivery; Computer software for wireless network communications; Computer software packages; Computer software platforms; Computer software platforms, recorded or downloadable; Computer software products; Computer software programs; Computer software programs for database management; Computer software programs for spreadsheet management; Computer software that assists computers in deploying parallel applications and performing parallel computations; Computer software to automate data warehousing; Computer software to enable searching and retrieval of data; Computer software to enable searching of data; Computer software to enable the transmission of photographs to mobile telephones; Computer software to maintain and operate computer system; Computer software, recorded; Computer telephony software; Computer video game software; Computer whiteboard software; Credit screening software; Data carriers for computers having software recorded thereon; Data communications software; Data compression software; Data processing software; Data processing software for graphic representations; Data processing software for word processing; Database management software; Decoder software; Desktop publishing software; Downloadable calendaring software; Downloadable computer game software; Downloadable computer game software via a global computer network and wireless devices; Downloadable computer security software; Downloadable computer software; Downloadable computer software applications; Downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; Downloadable computer software for food ordering and delivery; Downloadable computer software for managing crypto asset transactions using blockchain technology; Downloadable computer software for managing cryptocurrency

transactions using blockchain technology; Downloadable computer software for ordering food; Downloadable computer software for remote monitoring and analysis; Downloadable computer software for use as a digital wallet; Downloadable computer software for use as an electronic wallet; Downloadable computer software for virtual environments; Downloadable computer utility software; Downloadable interactive entertainment software for playing computer games; Downloadable interactive entertainment software for playing video games; Downloadable smartphone software for heart rate monitoring; Downloadable software; Downloadable software applications for virtual environments; Downloadable video game software; Education software; Electronic game software; Electronic game software for handheld electronic devices; Electronic game software for mobile phones; Electronic game software for wireless devices; Electronic sports training simulators [computer hardware and software-based teaching apparatus]; Embedded operating software; Engineering design software; Facial analysis software; Facial recognition software; Game programmes [programs] and software for use with electronic games of all kinds; Games software; Games software for use with an external display screen or monitor; Games software for use with computers; Gesture recognition software; Graphical user interface software; Image recognition software; Industrial computer software programs; Industrial controls incorporating software; Industrial process control software; Installations for the remote loading of computer software; Installations for the remote unloading of computer software; Integrated software packages; Interactive computer software; Interactive entertainment software for use with computers; Interactive multimedia software for playing games; Interactive video software; Internet access software; Internet messaging software; LAN [local area network] operating software; Magnetic cards bearing computer software; Magnetic storage materials incorporating software; Magnetic tapes for memorising software programs; Multimedia software recorded on CD-ROM; Music-composition software; Network access server operating software; Network management computer software; Operating computer software for main frame computers; Operating software for

network access servers; Packaged software; Personal computer software applications, downloadable; Personal computers incorporating computer software; Pre-recorded software; Privacy protection software; Process controlling software; Programmed video games [software]; Programmed video games contained on cartridges [software]; Recorded and downloadable media, computer software, blank digital or analogue recording and storage media; Recorded computer game software; Recorded computer software; Recorded software and programmes for use with electronic games of all kinds; Satellite imagery software; Security devices for computer software; Simulation software for use in digital computers; Smartphone game software, downloadable; Software; Software and applications for mobile devices; Software applications for use with mobile devices; Software as a medical device [SaMD], downloadable; Software drivers; Software for computers; Software for diagnostics and troubleshooting; Software for dosimetry purposes in the field of radiotherapy; Software for ensuring the security of electronic mail; Software for facilitating secure credit card transactions; Software for GPS navigation systems; Software for optical character recognition; Software for processing digital images; Software for processing images, graphics and text; Software for satellite navigation systems; Software for searching and retrieving information across a computer network; Software for the operational management of portable magnetic and electronic cards; Software to control and improve audio equipment sound quality; Speech analytics software; Speech recognition software; Table representation software; Tax preparation software; USB [universal serial bus] operating software; Video game software; Video games on disc [computer software]; Video games programs [computer software]; Video games software; Virtual reality game software; Virtual reality software; Virtual reality software for medical teaching; Voice recognition software; VPN [virtual private network] operating software; WAN [wide area network] operating software; Web site development software; Website development software; Bags adapted for laptops; Battery chargers for laptop computers; Cooling pads for laptop computers; Electrical connectors for connecting

laptop computers to telephone lines; Laptop carrying cases; Laptop computers; Laptop docking stations; Laptop sleeves; Laptops [computers]; Sleeves for laptops; Stands adapted for laptops; Apparatus for use in desktop publishing; Desktop computers; Desktop publishing apparatus; Desktop publishing programmes; Apparatus for measuring paper; Apparatus for processing exposed photographic films and papers; Apparatus for sorting paper money; Computer programs in machine readable form recorded on paper tape; Computer programs recorded on paper tapes; Data processing programmes for the production of newspapers; Downloadable electronic newspapers; Electronic drives for paper tapes; Fault-finding apparatus for paper machines; Newspapers downloaded via the internet; Paper covers for telephone receivers; Paper guiding apparatus [parts of photocopying machines]; Paper handling devices [parts of photocopying machines]; Paper storage cassettes for audio recordings; Paper storage cassettes for sound recordings; Paper storage cassettes for video recordings; Photographic copying apparatus utilizing plain paper; Processing apparatus for use with photographic paper; Processors for photosensitive paper; Toner cartridges, unfilled, for electronically operated printing apparatus; Toner cartridges, unfilled, for facsimile machines; Toner cartridges, unfilled, for use with electrostatic photocopiers; Toner cartridges, unfilled, for use with photocopiers; Toner cartridges, unfilled, for use with photocopying machines; Toner cartridges, unfilled, for use with photographic photocopiers; Toner cartridges, unfilled, for use with thermic photocopiers; Apparatus for checking the tensions of ink-level strips; Apparatus for linking computers; Apparatus for linking computers into networks; Automatic controllers and timers for irrigation and sprinkler watering systems; Communication devices for linking computer networks; Computer heat sinks; Computer linking units; Computer programs in the field of communication links; Data feeders linked with artificial intelligence; Devices for linking terminals on a computer apparatus; Dispensing apparatus for delivering measured quantities of alcoholic drinks [measuring apparatus]; Electrical controls for irrigation sprinkler systems; Electronic apparatus for linking televisions to computers; Electronic

apparatus for providing communication links; Electronic apparatus for testing communication links; Fibre optic link installations; Fire sprinklers; Heat sinks for conducting heat away from electrical components; Heat sinks for use in computers; Ink cartridges, unfilled, for facsimile machines; Ink cartridges, unfilled, for photocopiers; Inking monitors; Interface units for linking electronic store price scanners with system controls; Linked computer networks; Linking units for computers; Meters for checking ink consumption; Plotters employing ink-jet technology; Satellite television transmission uplink scrambling apparatus; Sprinkler apparatus, automatic, for fire extinguishing; Sprinkler installations for fire extinguishing; Sprinkler systems for fire extinguishing; Sprinkler systems for fire protection; Synchronous data-link control adaptors; Water sprinkling devices for fire control; Accounting computer terminals; Acoustic receivers for telephonic communication with computers; Add-in cards for micro computers; Add-on-cards for computers; Ancillary input and output controllers for computers; Ancillary input and output devices for computers; Anti-glare filters for computer monitors; Anti-glare filters for televisions and computer monitors; Anti-static computer covers; Apparatus controlled by computers for analysing samples, other than for medical use; Apparatus for collecting encoded data for supply to computers; Apparatus for computer numerical control of machines; Apparatus for controlling computer programmes; Apparatus for data communications between computers; Apparatus for inputting information into a computer; Apparatus for protecting computers from electrical power supply faults; Apparatus for receiving information from a computer; Apparatus for use in communications between computers; Arm rests for use with computers; Assembler programmes for computers; Audiovisual display apparatus adapted for use with computers; Audiovisual display apparatus for use with computers; Backup drives for computers; Battery chargers for tablet computers; Blank computer discs; Blank floppy computer discs; Blank hard disks for computers; Blank magnetic computer tapes; Blank tapes for storage of computer data; Broadband data interconnecting computer installations; Business programmes for

computers; Cabinets adapted to hold computers; Car navigation computers; Cards bearing data for use in computers; Cards for use with computers, encoded or magnetic; Carriers adapted for computer discs; Cartridges of magnetic tape for recording computer programs; Cases adapted for computers; Cases adapted for netbook computers; Cases adapted for notebook computers; CD drives for computers; Circuit boards for use in the emulation of computer terminals; Circuit boards for use with computer keyboards; Circuit boards for use with computers; Circuits for computers; Cleaning discs for computer disk drives; Cleaning guns for computer disks; Clock generators for computers; Coin-operated computer units; Communications computers; Communications electronics for computers; Communications servers [computer hardware]; Compact disc players for use with computers; Component parts for computers; Components for computers; Computer accelerator boards; Computer add-on boards; Computer aided facsimile apparatus; Computer apparatus; Computer apparatus adapted for use with visual display units; Computer apparatus for computer aided design; Computer apparatus for computer aided drafting; Computer apparatus for computer aided engineering; Computer apparatus for computer aided manufacturing; Computer apparatus for computer aided testing; Computer apparatus for controlling the operation of machines; Computer apparatus for drawing; Computer apparatus for educational use; Computer apparatus for filing information; Computer apparatus for gathering information; Computer apparatus for generating characters; Computer apparatus for generating images; Computer apparatus for generating noise; Computer apparatus for medical purposes; Computer apparatus for plain language text recognition; Computer apparatus for planning patterns for weaving machines; Computer apparatus for process control; Computer apparatus for processing data; Computer apparatus for recording telephone calls; Computer apparatus for remote billing; Computer apparatus for remote meter reading; Computer apparatus for the control of data; Computer apparatus for the management of telephone calls; Computer apparatus for the measurement of brakes on motor vehicles; Computer apparatus for

the measurement of exhaust gas emissions on motor vehicles; Computer apparatus for the measurement of suspension on motor vehicles; Computer apparatus for the storage of data; Computer apparatus for the transmission of telephone calls; Computer apparatus for transmitting data; Computer apparatus for use in local area networks; Computer apparatus for use in monitoring biochemical reactions; Computer apparatus for use with computer networks; Computer apparatus having speech generation capabilities; Computer based apparatus for use in the enhancement of video signals; Computer based control apparatus for assembly lines; Computer based control apparatus for machine tools; Computer based control apparatus for machines; Computer based electrophoresis image processing apparatus; Computer based training apparatus; Computer buffers; Computer buses; Computer cables; Computer card adapter; Computer cards containing chips; Computer cards, encoded; Computer cards, magnetic; Computer carrying cases; Computer cases; Computer central processing units; Computer chassis; Computer chips; Computer chipsets; Computer chipsets for use in transmitting data to and from a central processing unit; Computer circuit boards; Computer circuits; Computer communication apparatus; Computer communications modems; Computer component testing and calibrating equipment; Computer components; Computer control apparatus; Computer control devices; Computer control units; Computer controlled apparatus for furnishing voice responses to data inputs; Computer controlled apparatus for testing printed circuit boards; Computer controlled apparatus for voting systems; Computer controlled automatic testing apparatus; Computer controlled desk top recording; Computer controlled installations of liquid crystal display screens; Computer controlled installations of video display apparatus; Computer controlled mechanisms for coin operated lockers; Computer controlled plotters; Computer controlled sound apparatus; Computer controlled sound instruments; Computer controlled telecommunications exchange apparatus; Computer controlled workstations for data entry; Computer controllers; Computer controllers for operating lighting apparatus; Computer controllers for operating sound

instruments; Computer controls; Computer controls for lighting apparatus; Computer controls for lighting instruments; Computer data in recorded form; Computer data input apparatus; Computer data input devices; Computer data interchange apparatus; Computer data recorded on optical discs; Computer data recording instruments; Computer data storage apparatus; Computer databases; Computer daughterboards; Computer design hardware; Computer digital maps; Computer disc drives; Computer discs; Computer discs containing business documentation; Computer disk drives; Computer diskettes; Computer disks; Computer display apparatus; Computer display instruments; Computer display monitors; Computer documentation in electronic form; Computer expansion boards; Computer fax modem cards; Computer firmware; Computer game cartridges; Computer game cassettes; Computer game discs; Computer game programmes; Computer game programs; Computer games programmes downloaded via the internet; Computer graphic input apparatus; Computer graphics boards; Computer graphics cards; Computer graphics display stations; Computer graphics plotting instruments; Computer groupware; Computer hard disc apparatus; Computer hardware; Computer hardware for telecommunications; Computer hardware for use with drilling apparatus; Computer hardware for use with drilling instrument; Computer hardware for use with drilling operations; Computer hardware publications in electronic form; Computer housings; Computer image projection apparatus; Computer imaging systems; Computer input apparatus; Computer input devices; Computer input instruments; Computer installations; Computer installations for the communication of data; Computer installations for the control of machine tools; Computer installations for the processing of data; Computer installations for the storage of data; Computer installations incorporating a central processing unit; Computer interface apparatus; Computer interface boards; Computer interface cards; Computer interface devices; Computer interface instruments; Computer interface units; Computer interface units for translating data; Computer interfaces; Computer interfaces for clinical use; Computer interfacing apparatus; Computer joysticks; Computer keyboard keycaps;

Computer keyboards; Computer keypads; Computer magnetic memories; Computer mainframes; Computer measuring devices containing data; Computer memories; Computer memory apparatus; Computer memory devices; Computer memory drive units; Computer memory instruments; Computer memory storage apparatus; Computer mice; Computer modems; Computer modules; Computer monitor frames; Computer monitoring apparatus; Computer monitoring instruments; Computer monitors; Computer motherboards; Computer mouse; Computer mouse pads; Computer mouses; Computer network adapters; Computer network apparatus; Computer network bridges; Computer network hubs; Computer network installations; Computer network operating installations; Computer network routers; Computer network server; Computer network switches; Computer network-attached storage (NAS) hardware; Computer networking apparatus; Computer networking hardware; Computer networking installations; Computer networks; Computer networks for the communication of data; Computer networks for the processing of data; Computer networks for the storage of data; Computer operated digitisers; Computer operating programmes; Computer operating programs; Computer operating programs, recorded; Computer operating systems; Computer operating systems programs; Computer output microfilm recorders; Computer outputting apparatus; Computer parallel ports; Computer peripheral apparatus; Computer peripheral devices; Computer peripheral equipment; Computer peripherals; Computer plotters; Computer program discs; Computer program tapes; Computer programmes for data processing; Computer programmes for document management; Computer programmes for use in telecommunications; Computer programmes stored in digital form; Computer programmes, recorded; Computer programming units; Computer programs for accessing and using the internet; Computer programs for analysing computer hardware; Computer programs for automating molecular biological processes; Computer programs for calculators; Computer programs for commercial transactions; Computer programs for comparing colours; Computer programs for computer games; Computer programs for connecting remotely to computers or

computer networks; Computer programs for data processing; Computer programs for designing control systems; Computer programs for designing printed circuit boards; Computer programs for detecting colours; Computer programs for document management; Computer programs for dynamic simulation of oil well drilling; Computer programs for editing images, sound and video; Computer programs for electronic design automation; Computer programs for electronic image processing; Computer programs for enabling access or entrance control; Computer programs for establishing pump operating schedules; Computer programs for financial management; Computer programs for financial reporting; Computer programs for generating music; Computer programs for graphic elaborators; Computer programs for image processing; Computer programs for integrated circuit diagnostics; Computer programs for laser machining; Computer programs for management of manufacturing; Computer programs for managing conferences; Computer programs for managing exhibitions; Computer programs for managing seminars; Computer programs for measuring colours; Computer programs for medical purposes; Computer programs for monitoring computer systems performance; Computer programs for network management; Computer programs for office use; Computer programs for orchestral staging; Computer programs for planning conferences; Computer programs for planning exhibitions; Computer programs for planning seminars; Computer programs for playing games; Computer programs for positioning of text; Computer programs for printing; Computer programs for processing data; Computer programs for processing digital music files; Computer programs for processing information; Computer programs for producing computer graphics; Computer programs for project management; Computer programs for promotional purposes; Computer programs for providing a graphical presentation of data; Computer programs for sales purposes; Computer programs for scanners; Computer programs for scientific data analysis; Computer programs for searching remotely for content on computers and computer networks; Computer programs for searching the contents of computers and computer networks by remote control; Computer

programs for simulating the trading in futures and options; Computer programs for studying languages; Computer programs for tape drives; Computer programs for testing computer hardware; Computer programs for text processing; Computer programs for the analysis of data processing efficiency; Computer programs for the analysis of data processing performance; Computer programs for the analysis of data processing procedures; Computer programs for the control of telecommunication apparatus; Computer programs for the control of telecommunication instruments; Computer programs for the creation of elementary cells; Computer programs for the creation of masks; Computer programs for the creation of networks; Computer programs for the design of plate fin heat exchangers; Computer programs for the enabling of access or entrance control; Computer programs for the evaluation of thermal radiation levels; Computer programs for the management of sales; Computer programs for the management of the manufacturing processes; Computer programs for the petrochemical industries; Computer programs for the rating of plate fin heat exchangers; Computer programs for translating; Computer programs for use as reporting directories; Computer programs for use as searching directories; Computer programs for use by air lines; Computer programs for use by tour operators; Computer programs for use by travel agencies; Computer programs for use by travel organisations; Computer programs for use in communications; Computer programs for use in computer aided engineering; Computer programs for use in computer-aided design; Computer programs for use in computer-aided manufacturing; Computer programs for use in database management; Computer programs for use in defining machineable parts; Computer programs for use in desk top publishing; Computer programs for use in developing computer programs; Computer programs for use in farming; Computer programs for use in fitting spectacles; Computer programs for use in fluid flow analysis; Computer programs for use in insurance; Computer programs for use in molecular biology; Computer programs for use in processing data relating to financial records; Computer programs for use in telecommunications; Computer programs for use with

computer integrated manufacturing installations; Computer programs for use with facsimile apparatus; Computer programs for use with structured system analysis; Computer programs for user interface design; Computer programs for video and computer games; Computer programs for video games; Computer programs in machine readable form; Computer programs in machine readable form recorded on electronic media; Computer programs in the field of design analysis; Computer programs in the field of molecular modelling; Computer programs recorded in computer accessible form; Computer programs recorded on cards; Computer programs recorded on carriers; Computer programs recorded on data carriers; Computer programs recorded on data storage materials; Computer programs recorded on disc; Computer programs recorded on diskettes for producing lettering; Computer programs recorded on drums; Computer programs recorded on filaments; Computer programs recorded on floppy discs; Computer programs recorded on magnetic data carriers; Computer programs recorded on magnetic media; Computer programs recorded on magnetic tape; Computer programs recorded on tapes; Computer programs relating to computer aided design; Computer programs relating to computer networks; Computer programs relating to financial matters; Computer programs relating to food; Computer programs relating to housing management; Computer programs relating to local area networks; Computer programs relating to motorcycle racing; Computer programs relating to the creation of graphic images; Computer programs relating to the creation of photographic images; Computer programs relating to the manipulation of graphic images; Computer programs relating to the training of personnel; Computer programs relating to word processing; Computer programs stored in digital form; Computer programs stored on data carriers; Computer programs stored on discs; Computer programs stored on magnetic data carriers; Computer programs stored on magnetic materials; Computer programs used for electronic cash register systems; Computer programs used in molecular biology; Computer programs, downloadable; Computer programs, recorded; Computer related data communication apparatus; Computer related voice

communication apparatus; Computer screen filters; Computer screens; Computer serial ports; Computer servers; Computer shareware; Computer styluses; Computer sub-assemblies; Computer swivel bases; Computer swivelling arms; Computer swivelling stands; Computer systems; Computer systems designed for project management; Computer tapes; Computer terminals; Computer terminals for accounting purposes; Computer terminals for banking purposes; Computer terminals for use with credit cards at point of sale; Computer terminals for use with debit cards at point of sale; Computer terminals for use with encoded cards at point of sale; Computer terminals for use with magnetic cards at point of sale; Computer touchscreens; Computer utility programs; Computer utility programs for computer maintenance; Computer utility programs for data compression; Computer utility programs for file management; Computer whiteboards; Computer workstations [hardware]; Computer workstations for electronic design; Computerised personal organisers; Computerised time clocks with fingerprint recognition; Computerised vehicle engine analysers; Computerized time clocks with fingerprint recognition; Computerized vehicle engine analyzers; Computers; Computers and computer peripheral devices; Computers and electronic processing units; Computers for managing control devices for aircraft; Computers for use in data management; Connection graphics language computer programs; Consoles for use with computers; Control apparatus for computers; Covers for computer keyboards; Covers for tablet computers; Credit card embossing machines [computer peripherals]; Credit card encoding machines [computer peripherals]; Cursor control devices for use with computer display systems; Cyclocomputers; Data being electrically recorded for computers; Data being magnetically recorded for computers; Data being optically recorded for computers; Data carriers bearing computer programmes; Data carriers containing computer programs; Data carriers incorporating computer programs; Data carriers incorporating computer programs written in machine code; Data collection computer installations; Data input apparatus for use with computers; Data interconnecting computer installations; Data processing apparatus for use with

computers; Data processing programmes for archiving in computer aided design; Data processing programmes for editing in computer aided design; Data recorded in computer accessible form; Data storage apparatus for computers; Data storage devices for recording computer programs; Data storage media for recording computer programs; Data stored for access by computer programs; Data terminals for the communication of data to a central computer system; Data terminals for the entry of data to a central computer system; Devices for converting image information to digital signals for computers; Devices for use in the networking of computers; Digital interactive video adaptors for use with computers; Digital video adaptors for use with computers; Digitizers for use with computers; Disc [disk] drives for computers; Disc drives for computers; Disc drives for use with computers; Discs bearing computer programs; Disk drives for computers; Display apparatus for use with computers; Display screen filters adapted for use with computer monitors; Display screen filters adapted for use with tablet computers; Display terminals for use with computers; Downloadable computer game programs; Downloadable computer graphics; Downloadable computer programs; Downloadable computer utility programs; Drawing apparatus and instruments adapted for use with computers; Dust covers for computers; Educational materials in the form of computer programs for teaching languages; Electric apparatus for storing computer data; Electric devices for transmission of data between computers; Electric leads for use with computers; Electrical cables for connecting computers; Electrical communications apparatus for use with interconnecting computers; Electrical computer apparatus; Electrical control apparatus being computer operated; Electrical data input apparatus for use with computers; Electrical data output apparatus for computers; Electrical print out apparatus for use with computers; Electrically punched [encoded] cards for use with computers; Electrically punched [encoded] tapes for use with computers; Electrically recorded data for computers; Electronic circuits for use with computers; Electronic components for computers; Electronic components for the storage of computer programs; Electronic computer apparatus; Electronic control apparatus for computer

programmes; Electronic data apparatus for use with computers; Electronic data carriers with computer programs [machine script]; Electronic data input apparatus for use with computers; Electronic data output apparatus for use with computers; Electronic data processing apparatus for the storage of computer programs; Electronic databases recorded on computer media; Electronic devices for the transmission of data between computers; Electronic memories being computer programs; Electronic memories comprising computer programmes; Electronic memories comprising computer programs; Electronic memories for computers; Electronic memories for the control of computer data; Electronic memories for the input of computer data; Electronic memories for the output of computer data; Electronic memories for the storage of computer data; Electronic memories incorporating computer programs; Electronic memory units for bearing computer programmes; Electronic memory units for computers; Electronic print out apparatus for use with computers; Electronic printing apparatus for use with computers; Electronic publications recorded on computer media; Electronic visual display apparatus for use with computers; Encoded data in the form of computer listings; Encoded programmes for computers; Encoded programs for computers; Encoded programs for weapon systems computers; Encoded tapes for use with computers; External computer hard drives; Fibre optics communications apparatus for use with computer work stations; Fibre optics communications installations for use with computers; Filter screens for computer screens; Flexible flat panel displays for computers; Floppy discs drives [for computers]; Handheld computers; Handheld personal computers; Headsets for use with computers; Home computers; Housings for computers; Image processing apparatus for personal computers; Industrial controls incorporating computer apparatus; Input apparatus for computers; Input apparatus for transferring data from computers; Input apparatus for transferring data to computers; Input apparatus for use with computers; Input apparatus for use with computers for handling data; Input devices for computers; Insert cards [printed circuit boards] being parts of computers; Installations for use in forming computer networks;

Installations for use in the networking of computers; Instruction programmes for use with computers; Instruments adapted for use with computers; Integrated circuit cards storing computer game programs; Interactive computer game programs; Interactive computers for use in certifying airport security personnel; Interactive computers for use in training; Interactive multimedia computer game programs; Interactive multimedia computer programs; Interface boards for computers; Interface cards for computers; Interface instruments for computer control of knitting machines; Interfaces between application programs and firmware on real-time computers; Interfaces for computers; Internal cooling fans for computers; Joysticks for computers; Joysticks for use with computers; Joysticks for use with computers, other than for video games; Juke boxes for computers; Keyboard apparatus for use with computers; Keyboards for entering information into computers; Keyboards for use with computers; LAN [local area network] access points for connecting network computer users; LAN [local area network] computer cards for connecting portable computer devices to computer networks; LAN computer cards; Local area computer installations; Machine readable carriers for stored computer programmes; Machine readable computer programs; Machine readable computer programs for use in the reproduction of music; Machine readable material for bearing computer programmes; Machine readable materials for bearing computer programs; Magnetic cards bearing computer programs; Magnetic cards for recording computer programmes; Magnetic cards for the storage of computer programs; Magnetic cards for use with computers; Magnetic carriers for the storage of computer programs; Magnetic computer tapes for recording data; Magnetic discs bearing computer programmes; Magnetic discs for recording computer programmes; Magnetic discs for storing computer programmes; Magnetic disks for computers; Magnetic recording carriers bearing computer programmes; Magnetic recording materials bearing computer programmes; Magnetic recordings of computer programmes; Magnetic tape drives for computers; Magnetic tape drives for storing computer programs; Magnetic tape for recording computer programmes; Magnetic tape units for computers; Magnetic tapes for recording

computer programmes; Magnetic tapes for storing computer programmes; Magnetic tapes for visual electronic computers; Magnetically recorded computer programs; Magnetically recorded data for computers; Mainframes [computers]; Mats for use with a computer mouse; Memories for computers; Memories for use with computers; Memory cartridges on which computer programs are stored; Memory controllers for use with computers; Memory devices bearing programmes for use with computers; Memory devices for use with computer apparatus; Mice for computers; Microchips [computer hardware]; Micro-computer; Microcomputer apparatus; Microcomputer assemblies; Microcomputer based batching control installations; Microcomputers; Micro-computers; Miniature hard disk drive storage units on a plug-in card being computer apparatus; Minicomputers; Mobile computers; Mobile work stations being computers; Monitors [computer hardware]; Monitors [computer programs]; Monitors for use with computers; Mosaic-type heads for impact printing machines for use with computers; Motor vehicle diagnostic computer apparatus; Mounting brackets adapted for computer monitors; Mounting brackets adapted for computers; Mounting racks for computer hardware; Mouse [computer peripheral]; Mouse mats for use with computer apparatus; Mouses [computer peripherals]; Multichannel communications boards for microcomputers; Multifunction computer keyboards; Multiprocessor computer apparatus; Navigation apparatus for vehicles [on-board computers]; Navigation computers for cars; Netbook computers; Network controllers being computer apparatus; Notebook computer carrying cases; Notebook computer cooling pads; Notebook computers; On-board computers; On-board computers for vehicles; Optical discs bearing machine readable computer program; Optical discs for bearing machine readable computer program; Paging interface apparatus for use with computers; Palmtop computers; Peripheral control cards for computers; Peripheral control devices for computers; Peripheral interface units for computers; Peripheral sharing devices for computers; Personal computer cards, encoded; Personal computer cards, magnetic; Personal computer enhancement circuitry; Personal computers; Personal home computers; Plastic insulated electric cables for

computers; Plotters for computers; Plug-in cards bearing computer programmes; Plug-in cartridges bearing computer programmes; Plug-in components for computers; Plug-in electronic cards for computers; Pocket computers for note-taking; Pointing devices for use with computers; Portable computers; Power supplies for computers; Pre-recorded computer programmes; Prerecorded data carriers for use with computers; Pre-recorded data carriers for use with computers; Print out apparatus for computers; Print out apparatus for use with computers; Printed circuit boards for computers; Printed circuit boards for mounting in computers; Printing apparatus for use with computers; Printout apparatus for use with computers; Process computers; Process control computers; Process control units using process control computers; Processing computers; Program cartridges for computer games; Program cartridges for computers; Program discs for computers; Programmable computers; Programming apparatus for use with computers; Programs for computer print out apparatus; Programs for computers; Programs for computers, recorded; Programs for microcomputers; Programs for personal computers; Programs for processing data on computers; Programs for setting up performance analysis in computers; Programs for use with computer games; Programs written on data carriers for processing encoded data on computers; Protective cases for tablet computers; Protective covers for tablet computers; Protective films adapted for computer screens; Protective films adapted for tablet computer screens; Publications in computer readable form; Quantum computers; Racks and mountings specifically adapted for use with audio, visual, computer and telecommunications equipment; Reconditioned computer parts; Record carriers for computer programmes, magnetic; Record carriers for computer programmes, optical; Recorded computer game programs; Recorded computer operating programs; Recorded computer programmes; Recorded computer programs; Recorded computer programs for scientific research; Recorded computer programs in the form of cards; Recorded computer programs in the form of disks; Recorded computer programs in the form of tapes; Recorded material for use by computers; Recorded programs for computers;

Recording discs for use with computer programmes; Recording material bearing computer programmes; Recording materials for the storage of digital computer programs; Remote control apparatus connected by modems to computers; Remote control units for computers; Ring nodes for computers; Scanners for entering data into computers; Screen filters for computers and televisions; Screens for use with computers; Security apparatus for computers; Security devices for computer hardware; Semiconductor apparatus for use with computers; Semiconductor memories bearing computer programmes; Semiconductor memory cartridges bearing computer programmes; Shaped covers for computers; Simulators incorporating digital computers for industrial training purposes; Solid-state electrical apparatus for storing computer data; Solid-state electrical apparatus for storing computer programmes; Solid-state electrical apparatus for storing computer programs; Speakers for computers; Stands adapted for tablet computers; Stands for computer equipment; Stick computers; Storage apparatus for computer data; Storage apparatus for computer programs; Storage discs for use with computers; Storage file units for computer program recording; Supercomputers; Superminicomputers; Swivel stands for computers; Swivelling stands adapted for computers; Tablet computer; Tablet computers; Tablets computers; Tape decks for use with computers; Tape drives for use with computers; Telecommunications apparatus for transferring data to computers; Telecommunications apparatus for transmitting data for use with computers; Television display apparatus for use with computers; Television display monitors for use with computers; Television monitors for use with computers; Television receivers for use with computers; Terminals for computers; Thin client computers; Touch pads for computers; Touchpads for computers; Trackballs [computer apparatus]; Trackballs [computer peripherals]; Tracker balls [computer apparatus]; Trackers [computer apparatus]; Training guides in the form of a computer program; Training manuals in the form of a computer program; Translation computers; Transmitters for use with computers; Trip computers; Underwater dive computers; Upgrade cards for computers; Utility

programs for performing computer system diagnostics; Video and computer game programs; Video game computer programs; Video game programs for use in computers; Video game programs for use with computers; Visual display apparatus for use with computers; Voice actuated computer apparatus; Voice actuated computer instruments; Wearable computer peripherals; Wearable computers; Wheel balancing apparatus utilising computers; Wireless computer mice; Wireless computer peripherals; Work stations [computer apparatus]; Work stations [computers]; Wrist rests for computer mouse users; Wrist rests for use with computer peripherals; Wrist rests for use with computers; Wrist supports for computer mouse users; Wrist supports for use with computer peripherals; Mouse controllers; Mouse mats; Mouse pads; Mouse pointing apparatus; Mouse scanners; Mousepads; Replacement mouse feet; 3D scanners; Bar code scanners; Barcode scanner; Barcode scanners; Biometric fingerprint scanners; Biometric hand scanners; Biometric iris scanners; Biometric retinal scanners; Biometric scanners; Colour separation scanners; Digital graphic scanners; Digital input and output scanners; Digitizing scanners; Electronic scanners; Fingerprint scanners; Frequency scanners; Full-body X-ray scanners for security purposes; Hand scanner; Hand-held 3D scanners; Image scanners; Infrared scanners; Input scanners; Line scanners; Logo scanners; Luminescence scanners; Optical scanners; Optical scanners for machine readable indicia; Optical scanners, other than for medical use; Portable document scanners; Printing plate scanners; Programs for scanners; Scanners [apparatus] for performing automotive diagnostics; Scanners [data processing equipment]; Scanners for use with facsimile machines; Temperature scanners for industrial use; Temperature scanners for scientific use; X-ray scanners, other than for medical use; Fax devices; Fax machines; Mobile or portable fax machines; Portable fax machines; Electronic control apparatus for sewing machines; Downloadable sewing patterns; Tape measures for use in sewing; Analytical orthoprojectors; Cartridges for projectors; Cine projectors; Cinematographic projectors; Diapositives [projector slides]; Diapositives for use with slide projectors; Digital projectors; Film clips contained in cassettes used with

projectors; Film projectors; Films contained within cassettes for use with projectors; Home theater projectors; Home theatre projectors; Image projectors; Large screen video projectors; LCD projectors; Lenses for projectors; Liquid crystal display panels for use with overhead projectors; Mini beam projectors; Motion picture projectors; Movie editing projectors; Movie projectors; Multimedia projectors; Overhead projectors; Photographic projectors; Photographic projectors for cinematographic films; Photographic projectors for slides; Photographic slide projectors; Photography projectors; Picture projectors; Planetarium projectors; Profile projectors; Projector screens; Projectors; Projectors for the entertainment industry; Remote controls for projectors; Self-acting focussing projectors; Slide projectors; Slides for overhead projectors; Sound projectors; Tables adapted for slide projectors; Transparencies [exposed photographic film] for use with projectors; Transparent films [photographic, exposed] for overhead projectors; Video projectors; Electrical cables in the form of ribbons; Ribbon cable; Ribbon cable for connecting electronic apparatus; Anti-static keyboard strips; Cases for smartphones incorporating a keyboard; Devices for the projection of virtual keyboards; Electric keyboards for data input; Electronic keyboard apparatus; File processors consisting of keyboards for looking up prices; File terminals consisting of keyboards for looking up prices; Keyboard amplifiers; Keyboard apparatus for document handling; Keyboard apparatus for document processing; Keyboard switches; Keyboard terminals; Keyboards for data entry; Keyboards for mobile phones; Keyboards for smartphones; Keyboards for use in data entry; Keyboards for use with data communication apparatus; Keyboards for use with data processing apparatus; Keyboards for use with microprocessors; Multifunction keyboards; Shaped flexible covers for keyboards; Sound reproducing apparatus with keyboard; Telephone keyboards; Telephone sets with screen and keyboard; Wireless keyboards; Electronic notebooks; Telephone index notebooks, electronic; Alarm monitoring systems; Alarm systems; Alarm systems incorporating control and visual display apparatus; Anti-theft electrical alarm systems, other than for vehicles; Apertures being optical components for use in microscopy systems;

Apparatus for the guidance of weapon systems; Audio door entry systems; Automatic access control systems; Automatic access control systems for security barriers; Automatic boat steering systems; Autonomous navigation systems for ships; Biometric access control systems; Biometric identification systems; Biometric voice recognition systems; Building automation control systems; Building automation systems; Cables for signal transmission systems; Cabling for transmitting signals over mains wiring systems; Cassette tape recorders for audio systems; Charging systems for battery operated appliances; Ciphering apparatus adapted for use with radio communication systems; Coin-operated access control systems; Commercial alarm systems for buildings; Commercial alarm systems for shops; Commercial alarm systems, other than for vehicles; Communications systems; Control centres being parts of alarm systems; Data processing systems; Devices for system load control; Diagnostic apparatus for monitoring machine lubrication systems; Disc drives relating to integrated systems; Disc drives relating to sub-systems; Dynamic filters for use in the control panels of fire alarm systems; Dynamic filters for use in the control panels of fire detection systems; Electric access control systems; Electric cells for providing electric power to weapons systems; Electric control apparatus for servo systems; Electrical control panels for burglar alarm systems; Electrical control panels for fire alarm systems; Electrical control panels for smoke alarm systems; Electrodynamic apparatus for use in remote control systems; Electronic access control systems for doors in combination with a telephone; Electronic access control systems for doors in combination with a video camera; Electronic access control systems for doors in combination with an intercom; Electronic access control systems for interlocking doors; Electronic article surveillance systems; Electronic control systems; Electronic control systems for machines; Electronic devices used to locate lost articles employing the global positioning system or cellular communication networks; Electronic digital building automation systems; Electronic entry systems; Electronic flight control systems; Electronic global positioning systems; Electronic instruments for controlling systems associated with buildings; Electronic instruments

for controlling systems in buildings; Electronic instruments for monitoring systems associated with buildings; Electronic instruments for monitoring systems in buildings; Electronic key telephone systems; Electronic networking apparatus for telephone systems; Electronic system control apparatus; Electronic testing instruments for testing electrical systems; Electronic vehicle guidance systems for warehouses; Elevator alarm systems; Encryption apparatus for use in weapons guidance systems; Entry alarm systems, other than for vehicles; Expert systems diagnosis apparatus; Fire alarm systems; Fire detection systems; Fire extinguishing systems; Fire-extinguishing systems; Firmware for small decentralised control systems; Flat electrical cable for multipin interconnection systems; Focused-array loudspeaker systems; Gas leak alarm systems; Global positioning system (GPS) apparatus; Global Positioning System [GPS] apparatus; Global Positioning System [GPS] navigation devices; Global positioning system [GPS] receivers; Global Positioning Systems [GPS] apparatus; Graphic decoders for use with audio karaoke systems; Graphic decoders for use with video karaoke systems; Guidance systems for missiles; Gyroscopes for use in stabilisation and navigational systems; Helmet communications systems; Hi-fi sound systems; Hi-fi stereo systems; Home cinema systems; Home theater systems; Home theatre systems; Ignition systems, electric, for igniting at a distance; Intercommunication systems; Laser measuring systems; Local mobile telephone systems; Loudspeaker systems; Machine readable devices for cashless payment systems; Magnetic sensors being parts of intruder detection alarm systems; Microprocessor based control systems for use with machine tools; Microprocessor driven control units for automatic control systems; Microprocessor driven control units for automatic signalling systems; Microprocessor-based control systems for use with machine tools; Missile aiming systems; Missile guidance systems; Missile guiding systems; Missile warning systems; Mobile telephone apparatus with built-in facsimile systems; Mooring load monitoring systems; Navigation systems using inertia reference; Navigation systems using satellite reference; Network operating system programs; Networks for the interconnection of

communication systems; Numerical control systems for machine tools; Numerical control systems for machines; Operating system programs; Operating systems for personal robots; Operating systems programs; Operating systems, electric; Operating systems, electronic; Operating systems, robotic; Optical apparatus for use in training operators of weapons systems; Optical communication systems; Optical data transmission systems; Personal headphones for use with sound transmitting systems; Power distribution apparatus for use in electrical systems; Power line monitoring systems; Power system meters; Precision sensors being parts of alarm systems; Programs for the design of control information systems; Protective circuits for the ignition systems of engines; Public address speaker systems; Public address systems; Radar receivers for use with weapons systems; Radar transmitters for use with weapons systems; Radio wave transmitting aerials for use with weapons systems; Remote control systems for use with cranes; Remote control systems utilising beams of light; Remote control systems utilising laser beams; Resistors for use in the electrical ignition systems of vehicles; Safety rope systems for persons working at heights; Satellite navigation systems; Satellite-aided navigation systems; Security alarm systems, other than for vehicles; Security systems for buildings; Security systems for elevators; Security systems, other than for vehicles; Signal analysis apparatus for use in weapon control systems; Simulators for training operators in weapons systems control; Static grounding systems and apparatus; Telecommunications switching systems; Telephone call management systems; Telephone switching systems; Telephones incorporating intercommunication systems; Television cameras for use in weapons systems; Temperature limiters for use in vehicle heating systems; Temperature monitors for vehicle heating systems; Temperature regulators for vehicle heating systems; Temperature responsive control apparatus [thermostats] for vehicle heating systems; Temperature sensing apparatus for vehicle heating systems; Temperature sensors for vehicle heating systems; Testing apparatus for checking components used in weapons systems; Two-way wireless communication systems; Video imaging systems; Video surveillance

systems; Voice mail systems; Voice processing systems; Voice signalling apparatus for use with line telephone systems; Voice signalling apparatus for use with mobile radio systems; Voice signalling apparatus for use with radio paging systems; Electronic controls for machines for use in cutting minerals; Programmed controls for flame cutting machines; Atmospheric oxygen monitors; Baby monitors; Battery charge monitors; Carbon dioxide monitors for laboratory use; Colour monitors; Cryomonitors; Digital signage monitors; Display monitors; Dust emission monitors; Dust monitors; Electronic carbon dioxide monitors, other than for medical purposes; Electronic temperature monitors, other than for medical use; Flame monitors; Gas flow monitors; High resolution monitors; LCD monitors; LED monitors; Machine monitors; Magnetic metal detector monitors; Monitors; Monitors for recording events; Monitors for recording faults; Mounting devices for monitors; Oil change monitors; Oxygen concentration monitors, not for medical use; Oxygen monitors, not for medical purposes; Ozone monitors, other than for medical use; Particle emission monitors; Particle flow monitors; Pressure monitors, other than for medical use; Process monitors; Radio monitors for reproduction of sound and signals; Remote processing monitors; Respiration monitors, other than for medical use; Respiratory monitors, other than for medical purposes; Tablet monitors; Telephone apparatus incorporating monitors; Teleprocessing monitors; Television display monitors; Television display monitors for household use; Television display monitors for industrial use; Television monitors; Television monitors for household use; Television monitors for industrial use; Temperature monitors for central heating installations; Temperature monitors for central heating radiators; Temperature monitors for household use; Temperature monitors for industrial use; Temperature monitors for machines; Temperature monitors for metal moulding machines; Temperature monitors for scientific use; Temperature monitors for use in metal moulding; Temperature monitors for vehicle engines; Touchscreen monitors; Travel distance monitors; TV monitors; Video baby monitors; Video monitors; Video projection monitors; Wall mountings adapted for television monitors; Wearable video display

monitors; Selfie sticks used as smartphone accessories; Chipcards; PC cards; Quantitative Polymerase Chain Reaction [PCR] instruments for scientific use; Real-time Polymerase Chain Reaction [PCR] instruments for scientific use; Tablet PCs; Cable management installations for power transmission; Power cables; Underwater power cables; Active cable connectors; Adapter cables for headphones; Aerial cables for heavy currents; Apparatus for joining electric cables; Apparatus for locating electrical cables; Apparatus for measuring the characteristics of cables; Apparatus for recording cable layouts; Apparatus for recording the positions of cables; Apparatus for testing optical cables; Apparatus for the location of faults in cable sheaths; Apparatus for the location of faults in cables; Apparatus for transmitting radio signals by cable; Apparatus for use in testing electrical cables; Audio cable; Audio cable connectors; Audio cables; Battery booster cables; Battery cables; Battery starter cables; Booster cables; Cable adapters; Cable assemblies for mounting transducers; Cable conduits of plastics materials for electric wiring harnesses; Cable connectors; Cable connectors for use in the data communications industry; Cable converters for television being telecommunications apparatus; Cable covering panels for electric cables; Cable detectors; Cable ducts for electric conductors; Cable for electrical transmission; Cable glands for use with electrical apparatus; Cable harnesses; Cable identification markers for electric cables; Cable installations for the transmission of data; Cable installations for the transmission of voice; Cable joints of metal, electric; Cable jump leads; Cable junctions for electric cables; Cable ladders for electric cables; Cable locators; Cable management installations for data signal transmission; Cable modems; Cable outlets for electric cables; Cable sleeves for the marking of electric cables; Cable splices for electric cables; Cable television apparatus and instruments; Cable television converters; Cable television head end transcoders; Cable television installations; Cable television receivers; Cable television subscriber receiver descramblers; Cable television transmitters; Cable trays for electric cables; Cables for earthing; Cables for electrical signal transmission; Cables for electronic transmission; Cables for optical

signal transmission; Cables for the transmission of sounds and images; Cables for transmitting and receiving cable television signals; Cables, electric; Cabling networks [installations] incorporating fibre optic cables; Coaxial cable connectors; Coaxial cables; Coaxial cables for use in cable television installations; Coaxial cables incorporating filters; Combined electrical and optical cables; Communications cables; Conductors for electric cables; Conduit for electric cables; Connecting electrical cables; Connection cables; Connections for electric cables; Connections for use with optical fibre cables; Connector blocks for electric cables; Couplings for electrical cables; Data cables; Data synchronization cables; Data transmission cables; Devices for locating underground cables; Digital transmission apparatus on copper cable; Ducting for electric cables; Earth cables; Electric adapter cables; Electric cable boxes; Electric cable channels; Electric cable connectors; Electric cable couplings; Electric cable covers [conduits]; Electric cable ducts; Electric cable installations; Electric cable protector modules; Electric cable spreading boxes for electric cable glands; Electric cables; Electric cables and wires; Electric cables for the transmission of sounds and images; Electric cables for use with telecommunication apparatus; Electric charging cables; Electric extension cables; Electric security monitoring apparatus incorporating fibre optic cables; Electric wires and cables; Electrical cable; Electrical cable apparatus; Electrical cable connectors; Electrical cable distribution trunking; Electrical cable extension reels; Electrical cables; Electrical cables for lighting installations; Electrical cables for sale on drums; Electrical cables for sale on reels; Electrical cables for use in connections; Electrical communications cables; Electrical connecting cables; Electrical connectors for electrical cables; Electrical detectors for locating sub surface cables; Electrical terminals connected to electrical cables; Electronic cables; Emergency jump start cables; Ethernet cables; Extension cables; Feeder cables; Female connectors for electrical cables; Fiber optic cables; Fibre interconnection cable; Fibre optic cables; Fibre-optic cables; Flexible ducting for electric cables; Flexible ducting of metal for holding electric cables; Flexible electric cables; Flexible flat cables, electric; Flexible sheaths for electric cables;

Flexible sheaths of elastomeric materials for electric cables; Flexible sheaths of plastics materials for electric cables; Gender changers [cable adapters]; Gender changers [cable adapters] for cell phones; Gender changers [cable adapters] for mobile phones; Gender changers for coaxial cables; Glass fibre conduits for electricity cables; Guitar cables; Heat resistant electric cables; High temperature cables, electric; Ignition cables; Instrumentation cables, electric; Insulated cable for electrical installations; Insulated electric cables; Insulated electrical cables; Insulated telecommunications cables; Interface cables, electric; Jack cables; Joint boxes for housing cable joints; Jump cables; Jump start cables; Jumper cables; Junction sleeves for electric cables; Male connectors for electrical cables; Materials for electricity mains [wires, cables]; Measuring cables; Metallic cables, electric; Microphone cables; Microwave cables with connector; Mineral insulated electric cables; Modem cables; Non-metallic flexible ducting for holding electric cables; Optical cables; Optical detectors for use with fibre optic cables; Optical fiber cables; Optical fibre cables; Optical transmitters for use with fibre optic cables; Pin and socket strips for electric cables; Port racks being terminals for use in electrical cable installations; Prefabricated ducts for electric cables; Protective sheaths for fiber optical cables; Protective sheaths for fibre optical cables; Pulse code modulation apparatus for transmission via cable; Pulse code modulation instruments for transmission via cable; Radio relay cables; Receivers for receiving cable television; Refractory electric cables; Rubber cables, electric; Sensors in the form of panels containing fibre optic cable; Sheaths for electric cables; Sheaths for optical fibre cable; Ships wiring cables; Splice boxes for optical cables; Starter cables for motors; Strain relief cable glands; Submarine communication cables; Tags for identifying electric cables; Telecommunication cables; Telecommunications cable; Telecommunications cables; Telephone cable heads; Telephone cables; Telephone cables of optical fibres; Terminals [connectors] for electric cables; Terminations [connections] for sealing electric cables; Thermocouple cables; Threaded cable connectors of metal; Threaded electrical cable connectors; Transmission cables

adapted for coupling to vehicle instruments; USB cables; USB cables for cellphones; USB cables for mobile phones; Vibration dampers for overhead electrical cables; Warning cables; Wiring looms and harnesses for vehicles [electric cables]; Apparatus for controlling the storage of data; Apparatus for data storage; Apparatus for the storage of data; Apparatus for the storage of information; Apparatus for the storage of pictorial data; Apparatus for the storage of textual data; Cards bearing data for use in data storage apparatus; Carriers in the form of chips for the storage of data; Cases for data storage devices; Cases for music storage devices; CD storage wallets; Containers for the storage of audio cassettes; Containers for the storage of audio tapes; Containers for the storage of floppy discs; Containers for the storage of photographic transparencies; Covers for data storage devices; Covers for music storage devices; Data processing apparatus for use in information storage; Data storage apparatus; Data storage apparatus for use with data processing apparatus; Data storage cartridges; Data storage cassettes; Data storage devices; Data storage devices bearing data; Data storage devices containing photographs; Data storage devices for recording data; Data storage discs; Data storage installations; Data storage instruments; Data storage machines; Disc storage containers; Electric power storage apparatus; Electric storage batteries; Electric storage batteries for land vehicle engines; Electric storage batteries for use with engines; Electric storage batteries for use with motors; Electrical devices for storage of data; Electrical storage batteries; Electricity storage apparatus; Electrodynamic apparatus for the remote control of storage operations; Electronic information storage materials; Electronic storage devices; External storage apparatus for use with data processing apparatus; Gauges for measuring the air content of storage tanks; Gauges for measuring the liquid content of storage tanks; Gauges for monitoring the air content of storage tanks; Gauges for monitoring the liquid content of storage tanks; Holders adapted for the storage of audio cassettes; Holders adapted for the storage of compact discs; Holders adapted for the storage of video cassettes; Information storage apparatus, electric or electronic; Information storage devices for use in data processing

apparatus; Information storage devices in the form of magnetic discs; Information storage devices in the form of magnetic tapes; Information storage devices, electric or electronic; Information storage devices, encoded or magnetic; Information storage discs, encoded; Information storage discs, magnetic; Information storage discs, optical; Information storage instruments, electric or electronic; Information storage instruments, encoded or magnetic; Information storage tapes, encoded; Information storage tapes, magnetic; Instruction programmes for the storage of data; Instruction programmes for the storage of text; Laboratory storage tubes; Liquid level indicators for liquid fuel storage tanks; Magnetic components for the storage of data; Magnetic data storage materials; Magnetic discs being information storage devices; Magnetic discs for data storage purposes; Magnetic discs for the storage of data; Magnetic disks for data storage; Magnetic disks for the storage of data; Magnetic media for the storage of data; Magnetic program storage apparatus; Magnetic storage devices; Magnetic storage materials incorporating programmes; Magnetic tapes for the storage of data; Manual controlled signal storage units; Mass storage apparatus, electric; Mass storage instruments, electric; Mechanical storage apparatus for images; Mechanical storage apparatus for sound; Miniature hard disk drive storage units; Nickel-cadmium storage batteries; Optical data storage apparatus; Optical data storage apparatus for use in labelling; Optical data storage drives; Optical data storage labels [bar codes]; Optical discs for the storage of data; Optical fibres for use in the storage of images; Optical programme storage apparatus; Optical storage apparatus; Photographic storage devices; Photographic storage devices bearing representations of typefaces; Recording materials for the storage of data, magnetic; Solid-state electronic data storage materials; Sound record storage apparatus; Storage batteries for lighting; Storage batteries, electric; Storage cards [smart cards]; Storage cards, electric; Storage cards, electronic; Storage cells, electric; Storage containers adapted for audio cassettes; Storage containers adapted for compact discs; Storage containers adapted for video cassettes; Storage materials for data in electronic form; Storage materials for data in magnetic form; Supercapacitors for

energy storage; Thermal storage apparatus [photovoltaic cells] for electricity generation; Thermal storage instruments [photovoltaic cells] for electricity generation; Trays for the storage of microchips; Ultracapacitors for energy storage; Video cassette storage units; Blank flash memory cards; Blank USB flash drives; Camera flashes; Credit card-style USB flash drives; Electric flasher switches; Electric hand flash lamps for photographic use; Electronic flash apparatus for use in photography; Electronic flash bulbs for use in photography; Electronic flash cubes for use in photography; Electronic flash guns for use in photography; Electronic flashlights for use in photography; Electronic photo-flash units; Flash bulbs; Flash bulbs [photography]; Flash bulbs for use in photography; Flash card adapters; Flash card readers; Flash gun apparatus; Flash guns; Flash guns [for cameras]; Flash guns for cameras; Flash lamps [for cameras]; Flash lamps for cameras; Flash lamps for photographic purposes; Flash lamps for smartphones; Flash light apparatus for use in photography; Flash lighting apparatus for cameras; Flash lights for smartphones; Flash lights for still-cameras; Flash memory card readers; Flash memory cards; Flash-bulbs; Flash-bulbs [photography]; Flashing lights [luminous signals]; Flashing safety lights; Flashlamps for cameras; Flashlight apparatus [photography]; Flashlight instruments [photography]; Flashlight signalling apparatus; Flashlights [photography]; Flashlights for use in photography; Hot shoe for camera flash; Light flashing apparatus [photographic apparatus]; Light flashing apparatus [warning beacons]; Light sources [flashlamps] for photographic use; Lighting [flashlamps] for photographic use; Photographic flash apparatus; Photographic flash units [for cameras]; Photographic flash units for cameras; Photographic flashbulbs; Photographic flashlamps; Photographic flashlight apparatus; Photographic flashlighting; Portable flash memory devices; Power packs for electronic flashlights; Prerecorded flash memory cards; Pre-recorded flash memory cards; Safety signals in the form of flashing beacons; Safety signals in the form of flashing lights; Stroboscopic electronic flash guns for use in photography; Traffic cones

incorporating a flashing light; USB flash drives; Warning lights [flashing beacons];
Hard disk controllers; Hard disk drives; Hard disks.

apparatus for dosing animals by injection; Automatic medical apparatus for dosing humans by injection; Back supports for medical purposes; Bags [fitted] for medical instruments; Bags for medical use in collecting urine samples; Bags for medical use in storing urine samples; Bandages [elastic or supportive] for medical purposes; Bases for waterbeds adapted for medical use; Basins for medical purposes; Bed bases for beds especially made for medical purposes; Beds for use in medical diagnosis; Beds specially made for medical purposes; Belts for medical purposes; Belts, electric, for medical purposes; Bio-assay apparatus for medical purposes; Biomagnetic rings for medical purposes; Biomagnetic rings for therapeutic or medical purposes; Blankets for medical purposes; Blankets of metallised plastic for medical purposes; Blankets, electric, for medical purposes; Blood cell analysing apparatus for medical use; Blood cell separation apparatus for medical use; Blood centrifuging tubules for medical use; Blood collection bags for medical purposes; Blood collection tubes for medical use; Blood group analysers for medical use; Blood sampling apparatus for medical use; Blood sedimentation apparatus for medical purposes; Body composition analyzers for medical purposes; Body fat monitors for medical purposes; Body function monitoring apparatus for medical purposes; Body rehabilitation apparatus for medical purposes; Body supports for medical purposes; Body warming devices for medical use; Bone densitometers [medical diagnostic apparatus]; Boots for medical purposes; Boxes adapted for medical use; Boxes adapted for medical waste products; Bracelets for medical purposes; Braces for limbs and joints for medical use; Braces for medical purposes; Breath testing apparatus for estimating blood alcohol content for medical purposes; Breathing apparatus for medical purposes; Brushes adapted for medical use; Bulb syringes for medical purposes; Bulb syringes for medical use; Canes for medical purposes; Capillary tubes for medical purposes; Capillary tubes for medical use; Caps being disposable clothing for medical use; Capsule endoscopes for medical purposes; Carbon arc lamps for medical purposes; Carbon dioxide detectors for medical use; Carbon dioxide indicators for medical use; Carrying cases adapted for sanitary

masks for medical purposes; Cases fitted for medical instruments; Cases fitted for medical tools; Catheters for medical use; Cell counting units for medical use; Cell culture apparatus for medical use; Cell culture instruments for medical use; Centrifugal apparatus for medical use; Centrifugal pump heads for medical use; Centrifugal separating machines for medical use; Centrifuge separators for medical use; Centrifuges for medical use; Cervical pillows for medical purposes; Cervical pillows for medical use; Chairs especially made for medical use; Chemical analysers [apparatus] for medical use; Chemically activated cold compresses for medical purposes; Chemically activated cold compresses for medical use; Chemically activated cold gel packs for medical use; Chemically activated heating pads for medical purposes; Chemically activated hot compresses for medical purposes; Chemically activated hot compresses for medical use; Chemically activated hot gel packs for medical use; Cholesterol testing apparatus for medical diagnostic purposes; Chromatogram analysers for medical use; Chromatogram analyzers for medical use; Chromatographic apparatus for medical use; Chromatographic columns for analytical chromatography for medical use; Chromatographic columns for medical use; Chromatographic instruments for medical use; Chromatographs for medical use; Chromatography apparatus for medical use; Chromatography columns for medical use; Chromatography instruments for medical use; Chromatography plates for medical use; Clinical chemistry analysers for medical or veterinary use; Clothing especially made for medical use; Coagulation instruments for medical purposes; Cold compresses for medical purposes; Cold packs for medical purposes; Collimating position indicating apparatus for medical use; Colorimetric comparators for medical use; Colour pyrometers for medical use; Columns for affinity chromatography for medical use; Columns for liquid affinity chromatography for medical use; Compression socks for medical or therapeutic use; Compressor modules being parts of ventilators for medical use; Compressors for medical [treatment] purposes; Condoms for medical purposes; Consumable electrodes for medical use; Contact apparatus for deriving electrical signals from human bodies for

medical purposes; Containers especially adapted for the disposal of medical instruments, syringes and other contaminated medical waste; Containers especially made for medical waste; Contoured cushions for patients' use on beds specially adapted for medical purposes; Contoured cushions for patients' use on chairs specially adapted for medical purposes; Contraceptives being medically fitted devices; Cooling or heating devices containing heat exchange fluids for medical purposes; Cooling patches for medical purposes; Corsets for medical purposes; Covers for medical bags, fitted; Cryoprobes for medical use; Curing lamps for medical purposes; Cushioned products for medical use; Cushioning devices for medical use; Cushions for medical purposes; Cushions for medical use for supporting infants being examined; Cushions for medical use for supporting infants while being bathed; Cushions for medical use, adapted to support the face; Cutlery for medical purposes; Cystomeric apparatus for medical purposes; Cystomeric instruments for medical purposes; Cytofluorometric apparatus for medical purposes; Cytology brushes for medical purposes; Dermabrasion apparatus for medical or therapeutic purposes; Detecting apparatus for medical use; Detecting instruments for medical use; Detection apparatus for medical use; Detection tubes for medical purposes; Detectors for medical applications; Devices for medical use in collecting body excretions; Devices for medical use in collecting body secretions; Devices for medical use in retaining body excretions; Devices for medical use in retaining body secretions; Diagnostic apparatus for medical purposes; Diagnostic imaging apparatus for medical use; Diagnostic instruments for medical use; Diagnostic measuring apparatus for medical use; Diagnostic testing apparatus for medical purposes; Diagnostic testing apparatus for use in immunoassay procedures for medical purposes; Diagnostic testing instruments for use in immunoassay procedure for medical purposes; Diagnostic tools for medical purposes; Diagnostic ultrasound apparatus for medical use; Diagnostic ultrasound instruments for medical use; Diathermic handles for medical use; Digital thermometers for medical purposes; Dilation apparatus for medical purposes; Disposable bags for medical use;

Disposable clothing for medical use; Disposable examination gloves for medical purposes; Disposable gloves for medical use; Disposable hypodermic syringes for medical use; Disposable medical devices for treating constipation; Disposable medical syringe needles; Disposable microtome blades for medical purposes; Disposable protective clothing for medical purposes; Disposable protective footwear for medical purposes; Disposable protective gloves for medical purposes; Disposable protective headgear for medical purposes; Disposable sheeting for medical use; Dissecting instruments for medical purposes; Dissecting instruments for medical use; Dosage dispensers for medical use; Drainage devices for medical purposes; Drainage tubes for medical purposes; Drainage tubes for medical use; Drains for medical purposes; Drapes for medical use; Dressing forceps for medical use; Dropper bottles for medical purposes; Droppers for medical purposes; Dropping pipettes for medical purposes; Dynamic tomography apparatus for medical use; Ear inserts for medical use; Ear plugs for medical purposes; Ear plugs for soundproofing (other than for medical use); Elastic compression bandages for medical purposes; Elastic stockings for medical purposes; Elasticised socks for medical purposes; Elbow braces for medical purposes; Elbow guards for medical purposes; Elbow protectors for medical purposes; Elbow support braces for medical use; Electric belts for medical purposes; Electric blankets for medical use; Electric foot warmers for medical use; Electric heating appliances for medical therapeutic use; Electric heating covers for medical use; Electric heating cushions for medical purposes; Electric heating pads for medical purposes; Electric instruments for medical use in the diagnosis of blood; Electric warming pads for medical use; Electrical apparatus for medical purposes for applying therapeutic stimulation to the body; Electrical apparatus for medical treatment; Electrical appliances for medical purposes; Electrical heating apparatus for medical use; Electrical heating pads for medical use; Electrical nerve stimulators for medical purposes; Electrically heated blankets for medical purposes; Electrically heated clothing for medical use; Electrically heated cushions for medical purposes; Electrically heated pads for medical purposes;

Electrically heated socks for medical purposes; Electrically operated medical apparatus; Electro medical apparatus; Electro medical instruments; Electrodes for medical purposes; Electrodes for medical use; Electrodes for use with medical apparatus; Electromagnetic medical apparatus; Electro-mechanical apparatus for medical use in measuring the body functions; Electro-medical apparatus; Electro-medical apparatus for diagnosis; Electro-medical apparatus for firming treatments; Electro-medical apparatus for non-invasive therapy of bone disorders; Electro-medical apparatus for slimming treatments; Electro-medical apparatus for therapy; Electro-medical diagnostic instruments; Electro-medical stimulation current apparatus; Electro-medical x-ray apparatus; Electronic analysers for medical purposes; Electronic apparatus for medical purposes; Electronic apparatus for medical use in monitoring body functions; Electronic apparatus for medical use with computers; Electronic blood oxygen saturation monitors for medical use; Electronic blood oxygen saturation recorders for medical use; Electronic carbon dioxide monitors used for medical purposes; Electronic carbon dioxide recorders used for medical purposes; Electronic drop counters for medical use; Electronic endoscopes for medical use; Electronic medical apparatus; Electronic medical diagnostic apparatus; Electronic medical instruments; Electronic monitoring apparatus for medical use; Electronic monitoring instruments for medical use; Electronic muscle stimulators for medical purposes; Electronic muscle stimulators for medical use; Electronic nerve stimulators for medical purposes; Electronic nerve stimulators for medical use; Electronic stimulator for medical use; Electronic temperature monitors for medical use; Electronic temperature recorders for medical use; Electronic thermometers for medical use; Electrophoresis apparatus for medical purposes; Endoscopes for medical diagnostic use; Endoscopes for medical use; Endoscopic apparatus for medical use; Endoscopic equipment for medical purposes; Endoscopy cameras for medical purposes; Enema apparatus for medical purposes; Epidural analgesia apparatus for medical use; Examination chairs specially made for medical use; Examination couches specially made for medical use; Examination gloves for

medical use; Exercise apparatus for medical rehabilitative purposes; Exercise apparatus, specifically adapted for medical purposes; Exercise boots for medical rehabilitative purposes; Exercise devices for medical rehabilitative purposes; Exercise equipment for medical rehabilitative purposes; Exercise machines for medical rehabilitative purposes; Exercise simulating apparatus for medical purposes; Exercising apparatus for medical rehabilitative purposes; Explorers [medical or surgical apparatus]; Exposed X-ray films for medical use; Extractors [medical apparatus]; Eye droppers for medical purposes; Eye droppers for medical use; Eye protectors for medical use; Eye shields for medical use; Eye trays for medical use; Eye wash cups for medical purposes; Face masks for medical use; Face protection shields for medical use; Face shields for medical use; Feeding cups for medical purposes; Fiberscopes for medical use; Fibre optic instruments for medical purposes; Fibre optic viewers for medical purposes; Fibre optic viewing devices for medical purposes; Fibrescopes for medical use; Filter cartridges for medical use in the filtration of pharmaceutical liquids; Filter membranes for use in medical diagnostic applications; Filters for blood and blood components for medical purposes; Filters for medical purposes; Filters for respiratory masks for medical purposes; Filters for ultraviolet rays for medical purposes; Filters for ultraviolet rays, for medical purposes; Filtration membranes for medical use; Finger cots for medical purposes; Finger guards for medical purposes; Finger pricking devices being medical instruments for use in drawing blood; Finger stalls for medical purposes; Fingerstalls for medical purposes; First aid medical apparatus for sale in kit form; Flexible medical endoscopes; Flexible needles for medical purposes; Fluid collection containers for medical use; Fluid sampling apparatus for medical use; Fluoride trays for medical or dental use; Foam head positioners for surgical and medical use; Foam knee positioners for surgical and medical use; Foam leg positioners for surgical and medical use; Forceps for medical purposes; Forceps for medical use; Foreign body retrieval apparatus for medical purposes; Foreign body retrieval balloon catheters for medical purposes; Foreign body retrieval baskets for medical purposes; Foreign

body retrieval forceps for medical purposes; Fumigation apparatus for medical purposes; Furniture adapted for medical treatment purposes; Furniture adapted for medical treatment use; Furniture especially made for medical purposes; Furniture especially made for medical use; Galvanic belts for medical purposes; Gamma apparatus for measuring human cell attenuation for medical diagnostic purposes; Gamma apparatus for medical diagnosis using images; Gamma cameras for medical purposes; Gamma instruments for measuring human cell attenuation for medical diagnostic purposes; Gamma instruments for medical diagnosis using images; Gas analysers for medical analysis; Gas analyzers for medical analysis; Gas chromatography apparatus for medical use; Gas detectors for medical use; Gas laser apparatus for medical treatment; Genetic testing apparatus for medical purposes; Gloves for medical examinations; Gloves for medical purposes; Gloves for medical use; Gouges for medical or surgical use; Gowns for medical use; Gynecological medical instruments for examining women' s reproductive organs; Hammers for medical or surgical use; Hand-operated spraying apparatus for medical purposes; Haptic suits for medical purposes; Heat beds for medical treatment; Heat exchange anti-bacterial filters for medical use; Heat exchange anti-viral filters for medical use; Heat lamps for medical use; Heating apparatus for medical purposes; Heating blankets for medical purposes; Heating cushions, electric, for medical purposes; Heating cushions, non-electric, for medical purposes; Heating pads for medical purposes; Heating pads, electric, for medical purposes; Heating pads, non-electric, for medical purposes; High frequency coagulation apparatus for medical purposes; High frequency coagulation devices for medical purposes; High frequency coagulation instruments for medical purposes; High frequency cutting apparatus for medical purposes; High frequency cutting devices for medical purposes; High frequency cutting instruments for medical purposes; High frequency generators for use in medical treatment; Hollow fibre membrane elements for medical or surgical use; Hooks for medical or surgical use; Hoses adapted for use with medical ventilators; Hot air vibrators for medical purposes; Humidifiers for use in medical

treatment; Humidifying apparatus for medical use; Humidifying machines for medical use; Hydrostatic beds for medical purposes; Hyperbaric oxygen chambers for medical purposes; Ice bag pillows for medical purposes; Ice bags for medical purposes; Immunoabsorption columns for medical diagnostic use; Impactors for medical or dental use; Implantable devices for medical use in measuring the composition of body fluids; Impulse measuring apparatus for medical use; Impulse measuring instruments for medical use; Inadvertent peep reducers being parts of medical ventilators for maintaining pressure; Incentive spirometers for medical use; Incubation units for medical purposes; Incubators for medical purposes; Indoor fitness apparatus for medical purposes; Inflatable appliances [splints] for medical use in holding the limbs; Inflatable appliances for medical use in applying pressure to the limbs; Inflatable cushions for medical purposes; Inflatable cushions for medical use; Inflatable mattresses for medical purposes; Inflatable pillows for medical use for fitting around the neck; Inflation syringes for medical or surgical use; Infrared apparatus for medical purposes; Infrared lamps for medical purposes; Infrared thermometers for medical purposes; Inhalation devices for medical use; Inhalation protection devices for medical purposes; Inhalation protectors for medical use; Inhalers for medical use; Injection needles for medical use; Injection sleeves for medical use; Injection syringes for medical purposes; Injectors for medical purposes; Inserts for breathing apparatus for medical use; Inserts for breathing masks for medical use; Inspection apparatus for medical or dental use; Inspection devices for medical or dental use; Inspection glasses for medical or dental use; Inspection instruments for medical or dental use; Inspection mirrors for medical or dental use; Installations for the production of x-rays for medical purposes; Instruments for analysing volatile mass in specimens under test for medical use; Instruments for diagnosis for medical use; Instruments for medical use in testing microbiological samples; Instruments for medical use in testing temperature; Instruments for medical use in the preparation of cells; Instruments for medical use in the treatment of samples before analysis; Instruments for use in gas chromatography for medical use;

Instruments for use in liquid chromatography for medical use; Instruments for use in medical analysis; Intra-aortic balloons being medical devices; Intra-vascular apparatus for medical use; Intravenous administration apparatus for medical purposes; Intravenous administration instruments for medical purposes; Intravenous bags for medical purposes; Intravenous infusion pumps for medical purposes; In-vitro diagnostic testing apparatus for medical use; Irrigation drainage devices for medical use; Irrigation pouches for medical use; Irrigators for medical purposes; Irrigators for medical use; Isolation bags for medical use; Jet injectors for medical use; Kidney dish for medical use; Kinesiology tapes for medical purposes; Knee braces for medical purposes; Knee supports for medical use; Knives for medical use; Lab units for the dilution of liquids for medical use; Lab units for the dispensing of liquids for medical use; Lab units for the incubation of liquids for medical use; Lab units for the mixing of liquids for medical use; Lab units for the transfer of liquids for medical use; Lamps for medical [curative] purposes; Lamps for medical purposes; Lamps for producing polarised light for medical use; Lamps for use with medical instruments; Lancet devices for medical use in extracting blood for blood tests; Laryngeal masks for medical purposes; Laser beam delivery apparatus for medical use; Laser beam delivery instruments for medical use; Laser cutting apparatus for medical use; Laser cutting tools for medical use; Laser devices for medical application; Laser installations for medical use; Laser instruments for medical use; Laser light transmitting apparatus for medical use; Laser light treatment apparatus for medical use; Laser light treatment instruments for medical use; Laser machining tools for medical use; Laser pointers for medical purposes; Laser pointers for medical use; Laser scalpels for medical use; Lasers capable of producing pulsating laser beams for medical use; Lasers for medical purposes; Lasers for medical use; Lasers incorporating optical fibres for medical use; Latex examination gloves for medical use; Latex gloves for medical use; Leg exercising apparatus for medical use; Leg traction units for medical use; Length gauges for medical use; Ligating clip applicators for medical use; Ligating clips for medical use; Light boxes for medical

use; Light filters for medical use; Light production apparatus for medical use; Light sources for electronic endoscopes for medical purposes; Light sources for medical use; Lighting for medical use; Linear accelerators for medical use in radiotherapy; Liquid chromatograph apparatus for medical use; Liquid chromatography columns for medical use; Liquid chromatography injectors for medical use; Liquid chromatography instruments for medical use; Lubricating apparatus for medical use; Luer lock needles for medical use; Luer tapers for medical use; Lung function test apparatus for medical use; Machines for physical exercise for medical use; Magnetic bracelets for medical purposes; Magnetic field generators for medical use; Magnetic resonance imaging [MRI] apparatus for medical purposes; Magnetic resonance imaging apparatus for medical purposes; Magnetic resonance imaging apparatus for medical use in diagnostic evaluation; Magnetic resonance imaging instruments for medical purposes; Magnetic resonance imaging spectrometers for medical use; Magnetic treatment apparatus for medical use; Magnets for medical use; Mallets for medical use; Manipulative apparatus for medical use; Manometer lines for medical use; Manometers for medical use; Manually operated cutting devices for histological purposes for medical use; Manually operated exercise apparatus for medical use; Masks for use by medical personnel; Massage apparatus [for medical purposes]; Maternity support belts for medical purposes; Mattresses for medical use; Measuring apparatus for medical use; Measuring apparatus for the photometric analysis of fluids for medical use; Measuring apparatus for the photometric analysis of gases for medical use; Measuring apparatus for the spectroscopic analysis of fluids for medical use; Measuring apparatus for the spectroscopic analysis of gases for medical use; Measuring apparatus for use in bioassay techniques for medical use; Measuring devices for medical use; Measuring devices having digital displays for medical use; Measuring instruments adapted for medical use; Measuring machines for medical use; Medical aids for use in stoma care; Medical analysis apparatus; Medical analysis instruments; Medical and surgical catheters; Medical and surgical cutters for cutting human or animal tissue and organs; Medical and surgical knives for cutting

human or animal tissue and organs; Medical and surgical laparoscopes; Medical and veterinary apparatus and instruments; Medical ankle braces; Medical apparatus and instruments; Medical apparatus and instruments relating to neurovegetative reactivity; Medical apparatus for assisting breathing; Medical apparatus for controlling flow rates of intravenous infusions; Medical apparatus for controlling pulmonary gas exchange parameters; Medical apparatus for detecting carbon dioxide in the airways; Medical apparatus for diagnosing suspected heart attacks; Medical apparatus for diagnostic purposes; Medical apparatus for electrical muscle stimulation; Medical apparatus for exercise; Medical apparatus for facilitating the inhalation of pharmaceutical preparations; Medical apparatus for hyperhidrosis treatment; Medical apparatus for introducing pharmaceutical preparations into the human body; Medical apparatus for measuring flow rates of intravenous infusions; Medical apparatus for measuring the oxygen content of blood; Medical apparatus for mixing bone cement; Medical apparatus for monitoring; Medical apparatus for monitoring flow rates of intravenous infusions; Medical apparatus for monitoring pulmonary gas exchange parameters; Medical apparatus for nerve location; Medical apparatus for nerve stimulation; Medical apparatus for neurographic purposes; Medical apparatus for performing in-vitro diagnostic tests; Medical apparatus for producing laser polarised light; Medical apparatus for producing laser radiation; Medical apparatus for regulating flow rates of intravenous infusions; Medical apparatus for renal dialysis; Medical apparatus for spinal disc repair; Medical apparatus for strengthening muscles of the pelvic floor; Medical apparatus for testing muscles of the pelvic floor; Medical apparatus for testing susceptibility to diseases; Medical apparatus for testing susceptibility to disorders; Medical apparatus for testing the level of glucose in the blood; Medical apparatus for the display of tomographic data; Medical apparatus for the electrical stimulation of groups of muscles; Medical apparatus for the evaluation of in-vitro diagnostic tests; Medical apparatus for the preparation of parts of prostheses; Medical apparatus for the preparation of prostheses; Medical apparatus for the processing of tomographic data; Medical apparatus for the relief of pain;

Medical apparatus for the treatment of respiratory conditions; Medical apparatus for the treatment of sleep apnea; Medical apparatus for training breathing techniques; Medical apparatus for urethral catheterization; Medical apparatus for urological purposes; Medical apparatus for use in blood gas monitoring; Medical apparatus for use in cardiac surgery; Medical apparatus for use in dialysis; Medical apparatus for use in endoscopy; Medical apparatus for use in expansion of tissue to define an opening; Medical apparatus for use in laparoscopy; Medical apparatus for use in respiration; Medical apparatus for use in the treatment of injuries; Medical apparatus incorporating lasers; Medical appliances for intravenous administration of nutritional solutions; Medical appliances for use by persons suffering from colostomy; Medical appliances for use by persons suffering from ileostomy; Medical appliances for use by persons suffering from incontinence; Medical appliances for use by persons suffering from urine diversion; Medical assay apparatus for the detection of helicobacter pylori organisms; Medical bags designed to hold medical instruments; Medical bags for apparatus and instruments [fitted]; Medical blankets for the cooling of patients; Medical blankets for the warming of patients; Medical blood oxygenation devices; Medical braces; Medical catheter placement devices; Medical catheters; Medical compression stockings; Medical compression tights; Medical cooling apparatus for treating heatstroke; Medical cooling apparatus for use in therapeutic hypothermia; Medical cooling units to control body wound temperatures; Medical cooling units with body contact applicators; Medical cutting devices; Medical devices for assisting respiration; Medical devices for closing wounds; Medical devices for dental surgery; Medical devices for implantology; Medical devices for micro-surgery; Medical devices for moxibustion therapy; Medical devices for placing and securing catheters; Medical devices for spinal disc repair in the nature of spinal disc implants made from artificial substances; Medical diagnostic apparatus; Medical diagnostic apparatus for detecting viruses; Medical diagnostic apparatus for sale in kit form; Medical diagnostic apparatus for testing for viruses; Medical diagnostic apparatus for virus screening; Medical diagnostic instruments; Medical diagnostic saliva pads;

Medical diagnostic saliva vials; Medical diagnostic testing apparatus; Medical drainage bags; Medical drainage bags for collection of abscess; Medical drainage bags for collection of biliary; Medical drainage bags for collection of nephrostomy; Medical drapes of non-woven textile materials; Medical elbow braces; Medical electrodes; Medical endoscopes; Medical examination gloves; Medical examination lamps; Medical examination sheets; Medical examination tables; Medical gas-insufflators; Medical gloves; Medical gowns; Medical guide wire; Medical guidewires; Medical hand tools; Medical hearing instruments; Medical heating units to control body wound temperatures; Medical heating units with body contact applicators; Medical heating units with body contact applicators to control body wound temperatures; Medical hosiery; Medical ice bag holders; Medical ice bags; Medical ice packs; Medical imaging apparatus; Medical implants comprised of artificial materials; Medical implants made from artificial materials; Medical infusion columns; Medical infusion pumps; Medical inhalers; Medical instruments; Medical instruments for animals; Medical instruments for cutting tissue; Medical instruments for drug abuse testing; Medical instruments for infectious disease testing; Medical instruments for interstitial thermotherapy of biological tissue; Medical instruments for percutaneous tracheostomy; Medical instruments for recording heart activity; Medical instruments for recording physiological data; Medical instruments for removing insect parasites; Medical instruments for the removal of warts by freezing; Medical instruments for therapeutic drug monitoring; Medical instruments for use as aids to hearing; Medical instruments for use in relation to hearing; Medical instruments incorporating lasers; Medical isolation gowns; Medical knee braces; Medical knives; Medical laser apparatus; Medical laser beam apparatus; Medical lasers; Medical lasers for beauty therapy; Medical lasers for cosmetic purposes; Medical lasers for skin treatment; Medical masks; Medical measuring apparatus for measurements on hair; Medical measuring apparatus for measurements on skin; Medical microneedling devices; Medical operating lamps; Medical patient treatment chairs; Medical pressure chambers; Medical probes; Medical procedure chairs; Medical procedure

tables; Medical prostheses; Medical pulse pressure transducers; Medical pumps; Medical radiation apparatus; Medical robots for use in cognitive therapy for children; Medical scissors; Medical screw connections; Medical shields for protection from bruising; Medical spatulas; Medical specimen cups; Medical spittoons; Medical splints; Medical stents; Medical stethoscopes; Medical stockings with decreasing compression; Medical stretchers; Medical support hosiery; Medical support panty hose; Medical support tights; Medical supports for the body; Medical syringe needles; Medical syringes; Medical tables for examination or treatment purposes; Medical testing apparatus; Medical testing instruments; Medical therapy apparatus; Medical therapy instruments; Medical trays; Medical tubing; Medical tubing for administering drugs; Medical tubing for irrigation purposes; Medical tubing for transfusions; Medical tubing for use in vascular procedures; Medical ultrasound apparatus; Medical ventilators; Medical vessel dilators; Medical X-ray apparatus; Membrane test plates for use in medical diagnostics; Mercury thermometers for medical use; Mesh nerve connecting tubes for medical use; Metering pumps for delivering drugs in measured quantities for medical use; Meters incorporating visual displays for medical use; Microdermabrasion apparatus for medical or therapeutic purposes; Microsensor probes for medical purposes; Microsensors for medical purposes; Mirrors for medical examination purposes; Mittens for medical use; Moisture exchangers for medical use in transferring the heat of exhaled breath to inhaled breath; Molecular filtering devices for medical use; Molecular sieves for medical use; Monitoring apparatus for medical use; Mononuclear cell apparatus for medical use; Mouth guards for medical purposes; Muscle building apparatus for medical use; Muscle exercising apparatus for medical use; Nail pinches for medical use; Nanites for medical purposes; Nanorobots for medical purposes; Nasal filters for medical purposes; Nebulisers for medical purposes; Nebulizers for medical purposes; Nebulizers for medical use; Neck pillows for medical or surgical use; Neck rolls for medical or surgical use; Neckrolls for medical or surgical use; Needles for medical purposes; Needles for medical use; Nephelometric analysers for medical diagnosis; Nephelometric

analyzers for medical diagnosis; Nerve muscle stimulators for medical purposes; Neural helmets for medical purposes; Nippers for medical use; Non-electrical medical apparatus for collecting blood; Non-electrical medical apparatus for collecting body fluids; Non-selective electrodes being chemically sensitive probes for medical use; Nuclear magnetic resonance apparatus for medical scanning; Nuclear magnetic resonance installations for medical scanning; Nuclear medical diagnostic apparatus; Nuclear resonance spectrometers for medical use; Operating instruments for use with medical endoscopes; Ophthalmic cameras for medical purposes; Optical apparatus for medical diagnostic use; Optical apparatus for medical endoscopy; Optical apparatus for medical purposes; Optical appliances for medical purposes; Optical components for medical diagnostic use; Optical detection apparatus for medical diagnostic use; Optical detection installations for medical diagnostic use; Optical devices for medical diagnostic use; Optical fiber apparatus for medical diagnostic use; Optical fibre apparatus for medical diagnostic use; Optical fibre temperature probes for medical diagnostic use; Optical fibres for medical diagnostic use; Optical imaging apparatus for medical diagnostic use; Optical inspection apparatus for medical diagnostic use; Optical instruments for medical diagnostic use; Optical instruments for medical endoscopy; Optical scanners for medical inspection purposes; Optical sources for medical inspection purposes; Optical temperature measuring instruments for medical inspection purposes; Optical viewing apparatus for medical inspection purposes; Optical viewing glasses for medical inspection purposes; Optomedical examination instruments; Orthopaedic medical devices; Oxygen concentration analysers for medical use; Oxygen concentration analyzers for medical use; Oxygen concentration monitors for medical use; Oxygen concentrators for medical purposes; Oxygen concentrators for medical use; Oxygen electrodes for medical use; Oxygen enrichment apparatus for medical use; Oxygen inhalators for medical use, sold empty; Oxygen inhalers for medical purposes sold empty; Oxygen inhalers for medical use; Oxygen masks for medical purposes; Oxygen masks for medical use; Oxygen monitors for medical use; Oxygen sensors for medical use;

Oxygenators for medical use; Ozonisers [ozonators] for medical use; Ozonizers [ozonators] for medical use; Ozonizing apparatus for medical use; Padded cushions for medical purposes; Pads for seats for wheelchairs for medical use; Parallel bars for medical therapeutic use; Particle analysers for medical use; Particle analyzers for medical use; Peep activators being parts of medical ventilators for maintaining pressure; Performance testing apparatus for medical use; Permanent magnets for medical use; Photometric analysers for medical use; Photometric analyzers for medical use; Photometric apparatus for medical use; Photometric instruments for medical use; Phototherapy apparatus for medical purposes; Physical analysers for medical use; Physical analysing apparatus for medical use; Physical analyzers for medical use; Physical exercise apparatus for medical purposes; Physical exercise apparatus, for medical purposes; Physical exercise machines for medical purposes; Physiological apparatus for medical use; Physiological measuring apparatus for medical use; Physiological monitoring apparatus for medical use; Pill distributor and organiser boxes for medical purposes; Pill distributor and organizer boxes for medical purposes; Pillows for medical purposes; Pipes for medical applications; Pipetting apparatus for medical use; Pipetting instruments for medical use; Planar chromatography apparatus for medical use; Pliers for medical use; Pneumatically operated medical apparatus; Pneumatically operated medical instruments; Pneumatically operated valve assemblies for ventilation apparatus for medical use; Portable breathing apparatus for medical purposes; Portable exercise apparatus for medical use; Portable instruments for medical use in monitoring oxygen levels in gaseous mixtures; Portable nebulisers for medical purposes; Portable oxygen concentrators for medical purposes; Portable pump installations for gases for medical use; Portable pump installations for liquids for medical use; Power filters for medical use; Powered respirators for medical purposes; Precision sensors for medical use; Pressure garments for medical purposes; Pressure garments for medical treatment; Pressure monitors for medical use; Pressure relief cushions for medical purposes; Pressurised suits for medical use; Probes connected to

Goods and/or Services:

Class 06

Containers, tanks, predominantly of metal, for storage and handling of compressed gases or liquefied gases (gases liquefied under pressure or supercooled liquefied gases), in particular upright tanks, compressed gas containers and compressed gas cylinders of all sizes and compressed gas cans, in particular storage containers of metal for ultrapure and medical gases; pipes and manifolds of metal for pipelines for compressed gas and corresponding couplings and connectors of metal for pipes;

nozzles of metal for injecting gas into media and in volumes of any kind; wires and bars of metal for welding.

Class 07

Pumps, compressors and compactors, for gases and liquid gases, in particular including hydrogen; shut-off valves, valves and safety couplings for hydrogen-processing machines, air condensers and components for recovering hydrogen gas; mechanical power generators on the basis of excess pressure or hydrogen; apparatus/machines for the production, liquefaction and regasification of industrial gases, in particular hydrogen and gas/hydrogen mixtures, included in this class; fuelling apparatus and filling systems, dispensing pumps for service stations or other liquid gas distribution outlets, in particular for hydrogen; machines and machine tools and fittings therefor, in particular structural parts for liquefying installations and gas processing installations; machines for deburring, crushing and separating metal parts, plastic and rubber parts, in particular rotation and vibration machines for deburring, jet deburring machines, breaker mills and shredders, machines for crushing scrap and rubber parts, in particular for crushing car tyres, cables, electronic wastes and general wastes; machines for grinding and crushing plastics, rubber, powdered lacquers and foodstuffs, in particular spices, meat mincing machines and meat grinders; grinding mills, in particular hammer mills, vibration grinding mills, pinned disc mills, turbo-mills and jet pulverisers, all the aforesaid devices in particular adapted for use at low temperatures and using frozen media (ice, liquid gases); mechanical apparatus for scattering, shooting or spraying carbon dioxide or water ice particles or pellets, for processing and treating surfaces, in particular for cleaning, stripping or structuring of surfaces, compressed gas machines for industrial applications, compressed gas particle conveyors; gas armatures for gas technology machines, in particular valves, liquid and pressure regulators being parts of the aforesaid; expansion machines and turbines; stop valves and process flow distributors; condensers (in particular for air), regenerators (in particular for solvents),

mechanical power generators based on excess pressure and waste heat, mechanical separators; mechanical apparatus for breaking down air, mechanical apparatus/machines for producing, separating, liquefying and re-evaporating industrial gases and gas mixtures, refinery gases and natural gas, included in this class; metal welding and cutting machines and gas-related parts thereof; mechanical machines for use in rubbish and waste treatment industry, included in this class, waste separating installations/separators, energy and material recovery installations, composting installations, fermentation installations, waste treatment installations; dispensing installations for beverages; electric welding apparatus and cutting apparatus and oxyacetylene welding apparatus and electric cutting apparatus and fittings thereof, nozzles being parts of welding and cutting machines, welding guns and welding electrodes, cutting torches; chemical apparatus, namely chemical apparatus for synthetic gas production, for liquefying and gasifying of carbon, for the production of chemical base materials of natural gas and crude oil, in particular for the plastics and fertiliser industries, apparatus for the production of pharmaceuticals; apparatus for liquefying and/or separating gases and gas mixtures, in particular air and hydrocarbon gases; gas extraction apparatus; gas liquefiers.

Class 09

Measuring, controlling, checking (supervision), monitoring and indicating apparatus and instruments for use in industry and science as well as life-saving apparatus; apparatus and instruments for detecting, switching, monitoring or controlling the pressure and flow of gas; control valves for regulating the flow of gasses [solenoid valves]; gas and process technology measuring apparatus and sensors, checking (supervision) apparatus and instruments; apparatus for analysing gases and liquids; electric and electronic apparatus for regulating and controlling pressure, flow and temperature for fluids; process control devices, calculators, data processing equipment and software and programs therefor, specialist systems and information software; measuring, signalling and checking (supervision) apparatus for the

distribution and supply of gas/liquid gas; dosage dispensers for gases and liquid gases; pressure indicators for gas equipment and gas pipes; equipment and apparatus for the checking (supervision) and regulation of gas and liquid gas quantities, mainly comprising control consoles, display instruments, flow meters, flow switches, sensors and, where appropriate, alarms, in particular for industrial applications.

Class 11

Heating apparatus, heating equipment, steam generating apparatus, refrigerators, apparatus for ventilating, fumigating apparatus and gas feeding apparatus and gas supply installations; evaporators, gas generators and apparatus for producing gas; regulating and safety accessories having measuring, switching and adjustment function for gas apparatus; regulating and safety accessories for gas apparatus and gas pipes, in particular closure valves, valves of all kinds; burners and burner systems; industrial furnaces and heating rooms; thermal reactors for gas conversions; refrigerating and freezing apparatus for use in industry; deep-freezing and cryogenic apparatus, gas decomposers, air separators; gas purifiers, gas separators, gas scrubbers, adsorbers and adsorber installations, diaphragm gas separators; distillation apparatus and columns, gas condensers, heat exchangers, fluid/gas heaters and coolers; filters and sieves being apparatus for use in the purification of liquids and gases; wastewater treatment apparatus and installations, water treatment and processing apparatus; taps, dosing valves and valves of metal being parts of gas installations, in particular closing valves and extraction valves of metal for level controlling in tanks; taps, valves and fittings of metal combined as a functional unit for producing controlled gas flows or gas pressures; cutter heads and burner heads of metal, gas distributors and injectors for injecting gases into media and in volumes of any kind; regulating apparatus and level controlling valves for the distribution and supply of gas/liquid gas; apparatus/machines for the purification of industrial gases; mechanical apparatus/machines for purifying industrial gases and gas mixtures,

refinery gases and natural gas, included in this class; gas scrubbers.

Class 37

Installation, repair and maintenance of gas supply systems and gas distribution systems, gas apparatus and structural gas technology components for gas-powered apparatus of all kinds and of gas storage containers and gas tanks; construction of bottle storage places; installation, repair and maintenance of petrochemical/chemical, pharmaceutical and environmental installations and apparatus, including of industrial refrigerating and freezing installations and cryogenic apparatus; construction services relating to the installation of large industrial apparatus and industrial installations, in particular in the field of gas technology, petrochemicals, pharmaceuticals and environmental technology; repair and maintenance of gas supply and gas distribution stations and supply lines.

Class 39

Delivery, distribution, storage, transport and collection of goods, equipment, work materials and raw materials, in particular gases, cryogenic media and equipment in the field of gas technology; supplying gas to businesses and institutions, namely gas (including liquid gas) delivery in gas storage containers/bottles, or in large quantities by tanker or pipeline, including automated supply without special conditions; rental of gas storage containers, tanks and gas bottles, gas technology equipment, gas supply and distribution systems and refrigerating apparatus; delivery and supply of medical application preparations and systems for the private sector, in particular home supplying and travel supplying of medicine, medical gases and aids relating thereto, namely delivery of medicines, filled gas containers and of equipment and apparatus for the medical application thereof, in particular apparatus for respiratory support and for the inhalation of application preparations.

Class 42

Engineering for use in hydrogen technology and service station technology relating

to hydrogen, in particular planning and consultancy therefor; conducting of technical feasibility studies, analyses and evaluations relating to hydrogen technology; engineering in connection with the supply (delivery, production, distribution, storage) of technical and medical gases to factories, businesses and institutions; safety testing and monitoring, in particular remote monitoring, of gas production and gas supply systems, gas technology apparatus, and of structural gas technology components for use in gas-powered apparatus and of gas storage apparatus; safety testing of petrochemical/chemical, pharmaceutical and environmental installations and apparatus, including industrial refrigerating and freezing installations and cryogenic apparatus; safety testing relating to gas supply and gas distribution stations and supply lines; engineering services in the field of chemistry/petrochemistry, cryogenic, process, environment and energy technology; technological consultancy services relating to the use, treatment and generation of gases, gas liquefaction and cryogenics (deep-freezing technology), refrigerating and freezing technology, exhaust gas, waste water and waste technology; technical planning and design, basic and detailed engineering (design), functional testing and scientific experiments relating to apparatus and instruments used in gas technology, deep-freeze technology (cryogenics), chemistry, petrochemicals, pharmaceuticals and environmental protection apparatus, refrigerating and freezing apparatus, heating apparatus, heat treatment apparatus and melting apparatus.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; electronic publications;

downloadable publications; applications for smartphones and tablets; downloadable computer software; computer software for the collection, editing, organising, modifying, transmission, storage and sharing of data and information; computer software to enable uploading, downloading, accessing, posting, displaying, tagging, blogging, streaming, linking, sharing or otherwise providing electronic media or information via computer and communication networks; computer software for the reproduction, processing and streaming of audio, video and multimedia content; application software; software applications; interactive computer software; electronic publications (downloadable); baby alarms; baby scales; baby monitors; audio baby monitors; video baby monitors; electronic baby monitoring devices; educational software for children; computer software for managing integrated digital databases in the field of healthcare; computer software applications, downloadable; computer hardware; computer software for use in the healthcare services; wearable activity trackers; smart jewellery; smart wristbands that communicate data to other electronic devices; smart watches; smart rings; smart bracelets; downloadable mobile applications for use with wearable computer devices; downloadable mobile applications for the management of data; downloadable mobile applications for the transmission of data; software to enable wireless data streaming between connected accessories and smartphone via wireless communication; software enabling the user to record workouts and see exercises; computer software programs containing information in relation to strengthening muscles; computer software programs containing information in relation to strengthening muscles of the pelvic floor; mobile apps containing medical and clinical information in relation to strengthening muscles of the pelvic floor; wearable activity trackers and monitors for analysing and tracking sleep patterns in adults and infants; optical discs; compact discs [read-only memory]; electronic publications, downloadable; pedometers; electronic weight scale; measuring apparatus; audio equipment; photographic and cinematographic apparatus and instruments; surveying apparatus and instruments; distance measuring apparatus; odometers; audiovisual teaching apparatus; resistance

measuring instruments; optical instruments; power amplifiers; parts and fittings for all the aforesaid goods; the aforesaid goods not relating to electric vehicles.

Class 18

Leather and imitations of leather; animal skins and hides; luggage and carrying bags; umbrellas and parasols; walking sticks; whips, harness and saddlery; airline travel bags; baby backpacks; baby carriers [slings or harnesses]; changing bags; backpacks; bags; bags for travel; beauty cases; briefcases; cabin bags; cosmetic bags; cosmetic bags sold empty; fanny packs; frames for umbrellas; handbags; gentlemen's handbags; leather bags; leather purses; leather wallets; luggage, bags, wallets and carrying bags; make-up bags; make-up cases; pouches; purses; small purses; small rucksacks; suitcases; toiletry bags; tote bags; travel bags; trunks; vanity cases, not fitted; vanity cases sold empty; wallets; key cases; back frames for carrying children; harnesses for guiding children; parts and fittings for the aforesaid goods.

Class 25

Clothing, footwear, headgear; outerwear; denim jeans; leather pants; leather shoes; leather clothing; leather garments; women's clothing; women's outerclothing; women's underclothing; women's undergarments; articles of clothing; under garments; outer clothing; work clothes; gloves [clothing]; leisure clothing; denims [clothing]; headbands [clothing]; hoods [clothing]; slippers [clothing]; athletic clothing; casual clothing; bottoms [clothing]; tops [clothing]; knitwear [clothing]; capes (clothing); sports clothing; linen clothing; cashmere clothing; woollen clothing; silk clothing; jackets [clothing]; belts [clothing]; shorts [clothing]; clothing made of fur; anoraks; blazers; blouses; boots; camisoles; caps [headwear]; cardigans; cargo pants; casual footwear; chemises; coats; cocktail dresses; culottes; denim jackets; dresses; dungarees; hats; jeans; jumpsuits; loungewear; overalls; pea coats; parkas; sandals; scarves; shirts; shoes; skirts; smocks; sweaters; t-shirts; tops; trousers;

trench coats; trainers [footwear]; turtlenecks; vests; women's shoes; padded jackets; down jackets; quilted jackets [clothing]; fur coats and jackets; baby bodysuits; baby clothes; baby footwear; baby pyjamas; baby sleepwear; plastic baby bibs; children's clothing; children's footwear; children's headgear; non-removable breast enhancer pads [parts of clothing]; maternity wear; maternity clothing; maternity bras; maternity underwear; nursing bras; sports bras; disposable underwear; sleep masks; maternity sleepwear; bra straps [parts of clothing]; clothing; sportswear; water-proof clothing; shoes; hats; gloves [not included in special gloves]; belt; belt [clothing]; sport leggings; sleep masks; wedding dresses; parts and fittings for the aforesaid goods; baby bibs of plastic.

Class 35

Advertising; business management; business administration; office functions; organisation, operation and supervision of loyalty and incentive schemes; advertising services provided via the Internet; production of television and radio advertisements; accountancy; auctioneering; trade fair services; opinion polling; data processing; provision of business information; marketing and promotional services; direct mail advertising; online advertising on a computer network; compilation and analysis of information and data in the fields of accounting, advertising, business, commercial, market research and trade; retrieval [office functions] of information and data; compilation and systemisation of data into computer databases; presentation of goods on communication media, for retail purposes; commercial information and advice for consumers; sales promotion for others; advertising services to promote public awareness of social, medical, pre-natal and post-natal issues and initiatives; business information and consultancy services relating to corporate social responsibility, corporate governance and corporate policies; online retail store services connected with the sale of downloadable mobile applications, downloadable software, computer software programs, mobile apps, non-medicated cosmetics and toiletry preparations, non-medicated dentifrices, perfumery, essential oils, bleaching

preparations and other substances for laundry use, fragrances and fragrance products for personal use, massage oils, skin care cosmetics, preparations for the bath and shower, moisturisers, body lotions, baby lotion, baby oil, scented skin soap, body oil, cleansing lotions, beauty care preparations, beauty care products, non-medicated beauty preparations, non-medicated skin care beauty products, hair care products, shampoo, hair conditioners, talcum powder, tissues impregnated with cosmetic lotions, toiletries, toiletries for babies and infants (non-medicated), tooth paste and tooth gel, pre-impregnated wipes and towels with personal cleansing and/or cosmetic lotions, cotton sticks, cotton wool, baby wipes, baby care products (non-medicated), nappy rash cream, pharmaceuticals preparations, sanitary preparations for medical purposes, dietetic food and substances adapted for medical or veterinary use, food for babies, dietary supplements for human beings and animals, plasters, materials for dressings, disinfectants, medicated soap, medicated shampoos, medicated toilet preparations, vitamins, mineral food supplements, preparations for the diagnosis of pregnancy, medicines, antibacterial soap, sanitary napkins, tissues impregnated with pharmaceutical lotions, contraceptive preparations, sanitary towels, sanitary tampons, baby diapers, medicated baby oils, medicated baby powder, disposable baby nappies, beverages for infants, children's vitamins, disposable napkins made of paper for infants, disposable training pants for infants, infant formula, powdered milk foods for infants, chemical preparations for the diagnosis of pregnancy, pharmaceutical preparations for preventing skin blemishes during pregnancy, pharmaceutical preparations for hydrating the skin during pregnancy, topical herbal creams for firming and enhancing breasts, topical balms, gels, creams, lotions and emollients for medical and therapeutical use, therapeutic dressings containing lanolin, medicated and non-medicated preparations, knickers for sanitary purposes, disposable undergarments for use post-partum [diapers], fertility test kits, clinical diagnostic reagents, breast-nursing pads, breast pads, preparations to facilitate teething, massage apparatus, apparatus and devices for nursing infants, sexual activity apparatus, devices and articles, sex aids, supportive

bandages, furniture adapted for medical use, breast pumps, breast pump kits, cushions for medical use for supporting infants while being breastfed, slings [supporting bandages] for medical use, medical apparatus for strengthening muscles of the pelvic floor, gynaecological medical instruments, feeding bottles, babies' bottles, nursing bottles, nipples for baby bottles, breast milk storage bottles, breast milk storage bags, breast milk storage containers, biodegradable breast milk storage containers in the form of bags and bottles, suction bottles for medical use, covers for baby feeding bottles, teats for use with babies' feeding bottles, maternity belts, breast shields, pouches and bags for secretions, medical apparatus for compressed air, apparatus for use in medical analysis including apparatus for analysing mother's milk, pouches and containers for the collection and storing mother's milk and for breastfeeding, nipple protectors, nipple formers, nipple shields, nipple care preparations for medical purposes, small bags for steam cleaning and sterilisation for medical purposes, suction and therapeutic apparatus for medical use and parts thereof, suction pumps for medical use and parts thereof, breasts cooling pads, breasts heating pads, thermometers for medical use, apparatus for electrical muscle stimulation, physiotherapy and rehabilitation apparatus and equipment, apparatus and devices for nursing infants, feeding bottle valves, diagnostic apparatus for pregnancy testing, medical diagnostic instruments, tools for medical diagnostics, diagnostic apparatus for medical purposes, testing instruments for medical diagnostic purposes, artificial sleep apparatus, artificial sleep apparatus, obstetric apparatus, baby bottle sterilizers, baby bottle warmers, baby food warmers, toilet bowls for children, toilet seats for children, prams for babies and infants, baby carriage covers, child seats for vehicles, baby strollers, fitted covers for prams, fitted footmuffs for prams, parasols to be affixed to baby strollers, children's seats for bicycles, fitted covers for car seats for children, vehicle safety apparatus for children, precious metals and their alloys, jewellery, precious and semi-precious stones, horological and chronometric instruments, chains, charms, costume jewellery, children's jewellery, printed matter, bookbinding material, photographs, stationery

and office requisites except furniture, adhesives for stationery or household purposes, drawing materials and materials for artists, paintbrushes, instructional and teaching materials, plastic sheets and bags for wrapping and packaging, printers' type, printing blocks, albums, almanacs, announcement cards [stationery], booklets, books, calendars, cardboard, cards, catalogues, comic books, flyers, graphic representations, ledgers [books], magazines [periodicals], manuals [handbooks], newsletters, newspapers, note books, pamphlets, posters, printed publications, educational publications, leather and imitations of leather, animal skins and hides, luggage and carrying bags, umbrellas and parasols, walking sticks, whips, harness and saddlery, travel bags, baby backpacks, baby carriers [slings or harnesses], backpacks, bags, beauty cases, cosmetic bags, cosmetic bags sold empty, frames for umbrellas, leather bags, leather purses, leather wallets, make-up bags, make-up boxes, make-up cases, pouches, purses, toiletry bags, key cases, back frames for carrying children, harnesses for guiding children, furniture, mirrors, picture frames, containers not of metal for storage or transport, yellow amber, air cushions not for medical purposes, air mattresses not for medical purposes, air pillows not for medical purposes, bedding [except linen], cushions, furniture fittings not of metal, infant playpens (mats for-), infant walkers, mobiles [decoration], baby bolsters, baby bouncers, baby changing mats, baby changing platforms and tables, baby cots, baby cradles, baby cribs, baby furniture, baby gates, portable baby bath seats for use in bath tubs, support pillows for use in baby car safety seats, support pillows for use in pregnancy, household or kitchen utensils and containers, cookware and tableware, combs and sponges, brushes except paintbrushes, brush-making materials, articles for cleaning purposes, unworked or semi-worked glass except building glass, glassware, porcelain and earthenware, ceramics for household purposes, cups, decanters, drinking vessels, flasks, glasses [receptacles], lunch boxes, refrigerating bottles, siphon bottles for carbonated water, bottle coolers, water bottles, sports bottles [empty], insulated vacuum bottles, baby baths, baby cups and bowls [baby tableware], baby finger toothbrushes, cloths for cleaning baby bottles, stands for

portable baby baths, children's potties, children's toothbrushes, textiles and substitutes for textiles, household linen, bed and table covers, table mats not of paper, bath mitts, diaper changing cloths for babies, diapered linen, face towels of textile, furniture coverings of textile, handkerchiefs of textile, mattress covers, pillow shams, pillowcases, place mats not of paper, sanitary flannel, sheets, table covers, table mats of textile, table napkins of textile, table runners, towels of textile, travelling rugs, wall hangings of textile, baby blankets, baby bibs not of paper, baby bibs of plastic, children's bed linen, clothing, footwear, headgear, outerwear, denim jeans, women's clothing, women's underclothing, work clothes, gloves [clothing], leisure clothing, headbands [clothing], hoods [clothing], slippers [clothing], athletic clothing, casual clothing, bottoms [clothing], tops [clothing], knitwear [clothing], sports clothing, jackets [clothing], belts [clothing], shorts [clothing], dresses, loungewear, scarves, skirts, sweaters, t-shirts, baby bodysuits, baby clothes, baby footwear, baby sleepwear, plastic baby bibs, children's clothing, children's footwear, children's headgear, maternity wear, maternity clothing, maternity bras, maternity underwear, nursing bras, sports bras, disposable underwear, sleep masks, maternity sleepwear, bra straps [parts of clothing], games, toys and playthings, video game apparatus, gymnastic and sporting articles, decorations for Christmas trees, apparatus for games, balls for games, board games, building blocks [toys], building games, playing cards, plush toys, video game machines, toy sporting apparatus, electronic games, video game apparatus, baby gyms, baby playthings, baby rattles incorporating teething rings, baby toys, children's playthings, indoor play apparatus for infants, infant development toys; advertising; sales promotion for others; information, advisory and consultancy services relating the aforesaid; the aforesaid services not related to electric vehicle charging.

Class 01

Biologically compatible polymers, namely, hydrogels used to manufacture polymeric networks used in the manufacture of engineered living tissue for scientific and non-scientific purposes; media for cell culture for use in the biotechnological industry; media for cell culture for use in non-medical research laboratories; biological preparation for use in cell cultures other than for medical or veterinary use; engineered biological tissues and tissue arrays, namely, human and animal organ,

connective, epithelial, muscular, and nervous tissues and tissue arrays, for use in scientific and medical research; biologically compatible materials, namely, hydrogels used to create polymeric networks used in the manufacture of living tissue; proteins in raw material form for scientific and medical research; arrays of chemical compounds, in particular nucleic acids, peptides and proteins; arrays of collections of chemical compounds, in particular collections of chemical compounds on a carrier; chemical compounds manufactured with the aid of immobilised chemical compounds, arrays of chemical compounds or collections of chemical compounds, in particular immobilised on a carrier; biologically compatible materials, namely, hydrogels used to create structures and scaffolds used in the manufacture of living tissue; biological tissue specimens for use in scientific research; cellulose nanofibril based biological preparations for use in 3D bioprinting of tissues and organs; chemicals used in industry and science; nucleic acids, peptides and proteins; immobilised chemical compounds, in particular nucleic acids, peptides and proteins; collections of chemical compounds for industrial and scientific purposes, in particular immobilised chemical compounds for industrial and scientific purposes, arrays of chemical compounds, in particular nucleic acids, peptides and proteins; chemical compounds manufactured with the aid of immobilised chemical compounds, collections of chemical compounds or arrays of chemical compounds, or collections of chemical compounds, in particular immobilised on a carrier; the aforesaid chemicals and chemical compounds used in particular in the fields of pharmacy, foodstuffs, plant protection, cosmetics, diagnostics and basic biochemical and medical research; monoclonal antibodies for scientific use; tagged antibodies for laboratory use; tagged antibodies for scientific use; monoclonal antibodies for scientific purposes; monoclonal antibodies for diagnostic use [other than medical]; biochemicals, namely, monoclonal antibodies for in vitro scientific or research use; reagents for use in the development of hybridoma antibodies [other than for medical or veterinary purposes]; reagents for use in the development of monoclonal antibodies [other than for medical or veterinary purposes]; proteins for detecting antibodies [other than for medical use]; proteins for

binding antibodies [other than for medical use]; immunological antibodies, other than for medical use; monoclonal antibodies for industrial use; monoclonal antibody reagents, other than for medical use; stem cells for research purposes; stem cells for scientific purposes; stem cells for research or scientific purposes; stem cells other than for medical or veterinary purposes; collagen based ingredients for use as a raw ingredient in the manufacture of cosmetic preparations; hydrogel polymer coatings; lactic acid polymers; aqueous linear polymer gels; polymer coatings [other than paints]; photo curable compositions comprising polymers; chemicals for use in polymerisations; polymer beads for use in manufacturing; polymer beads for use in manufacture; polymers of glucose for industrial use; water soluble polymers for industrial use; polymer based compounds for use in manufacture; amino acrylic polymers for use in manufacture; polymers for use as reference standards in science; polymeric chemicals for use in the cosmetic industry; polymers for use in the analysis of nucleic acids; chemicals for use in performing nucleic acid polymerase chain reactions [other than medical and veterinary]; proteins for use in science; proteins for use in the manufacture of cosmetics; protein for use in the manufacture of cosmetics; enzymes [other than for medical use] for detecting protein fractions; enzymes [other than for medical use] for labelling protein fractions; enzymes [other than for medical use] for labelling proteins; enzymes [other than for medical use] for measuring proteins; proteins for use in recombinant dna technology [other than for medical use]; biochemicals namely, polypeptides for in vitro research use; diagnostic reagents for in-vitro use [other than medical]; biochemicals for in vitro and in vivo scientific use; diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; reagents for in-vitro laboratory use [other than for medical or veterinary purposes]; diagnostic reagents for scientific use; diagnostic preparations for scientific purposes; diagnostic preparations for scientific use; diagnostic preparations used in science; chemical products for diagnostic use [scientific]; in-vivo diagnostic reagents for scientific use; diagnostic preparations for scientific or research use; diagnostic preparations for scientific or research use other than for medical use; reagents for

use in diagnostic tests [other than for medical or veterinary purposes]; chemical reagents for use in diagnostic tests, other than for medical or veterinary use; cultures of cell media [other than for medical or veterinary use]; chemicals for use in industry and science; chemical substances, chemical materials, chemical preparations and chemical reagents, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; cell growth media and cell growth reagents, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; cell culture media and cell culture reagents, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; biological preparations for use in industry and science; biological reagents, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; biological tissue cultures, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; cultures of microorganisms, in particular for use in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; all the aforesaid goods other than for medical or veterinary purposes; cells, tissue models in the nature of biological tissue cultures, cell growth media, and biomaterials for use in biological, biomedical, and life sciences research; chemical products for use in lithography; lithographic chemicals; photoresists for lithography; resistant chemicals for use in lithography; liquid photosensitive resin for the fabrication of three-dimensional models.

Class 05

Biological tissue cultures made of biologically compatible polymers for medical purposes; cells for medical use; human allograft tissue; living cells for medical use; implants of living tissues for guided tissue regeneration; implants comprising living tissue; implantable materials of living tissue for use in guided tissue regeneration; skin grafts; surgical implants comprised of living tissues; surgical implants of living

tissues grown from stem cells; transdermal patches for use to create skin for prosthetic limbs and for skin grafts; living tissues for transplant; engineered biological tissues and organs, namely, human and animal cardiovascular, pulmonary, digestive, hepatobiliary, urological, renal, endocrine, connective, epithelial, muscular, and nervous tissue and organs, for medical purposes; biological tissue for implantation; haemostatic gel matrix preparations for treating wounds; natural biomaterials for augmentation of bone, blood and tissue for medical purposes; natural biomaterials for bone filling; natural biomaterials for filling cartilage; biological tissue cultures for medical use; biological tissue cultures for medical purposes; biological tissue grafts; biological bone and skin tissues impregnated with lines of oxygen for tissue engineering applications to increase cell survival in tissue intended for subsequent implantation; gene therapy products, namely, genetically engineered tissues for transplantation; implantable scaffolds comprising living tissue for maintaining tissue contour; natural biomaterials for augmentation of bone and tissue for medical purposes; dietary supplements and dietetic preparations; protein dietary supplements; nutritional supplement meal replacement bars for boosting energy; food supplements; nutritional supplements; veterinary and sanitary preparations; biological implants; biological tissue for implantation; implants for guided tissue regeneration; implantable materials for use in guided tissue regeneration; stem cells; surgical implants grown from stem cells; surgical implants grown from stem cells [living tissues]; transdermal patches; transplants [living tissues]; antibodies; living cells for veterinary use; stem cells for medical purposes; collagen for medical purposes; in vitro diagnostic preparations for medical use; reagents for in-vitro laboratory use [for medical purposes]; reagents for in-vitro laboratory use [for veterinary purposes]; medical diagnostic reagents; veterinary diagnostic reagents; clinical diagnostic reagents; diagnostic reagents for medical use; diagnostic reagents for medicinal use; diagnostic substances for medical use; diagnostic preparations for veterinary use; diagnostic preparations for veterinary purposes; diagnostic agents for medical use; diagnostic preparations for medical purposes; diagnostic testing

materials for medical use; diagnostic biomarker reagents for medical purposes; diagnostic chemical reagents for medical use; chemical diagnostic reagents for medical use; diagnostic preparations for medical or veterinary purposes; diagnostic preparations for medical and veterinary use; reagents for use in diagnostic tests [for veterinary purposes]; reagents and media for medical and veterinary diagnostic purposes; reagents for use in diagnostic tests [for medical purposes]; medical diagnostic reagents and assays for testing of body fluids; all aforementioned goods unrelated to the dental field and to the dental surgical field.

Class 07

Three-dimensional [3D] printers (3D printers); three-dimensional [3D] bioprinters (3D bioprinters); computerised equipment for the generation of three-dimensional shaped parts; machines for manufacturing three dimensional models, namely, computer-aided modeling devices; computer-aided additive machines for manufacturing three-dimensional objects; machines for manufacturing three dimensional models, namely, computer-aided modeling devices and associated computer hardware and software sold as a unit; computer-aided additive manufacturing machines for three-dimensional objects; machines for manufacturing three dimensional (3D) living tissues; machines, namely, three dimensional (3D) bioprinter for the printing of living tissues; three-dimensional (3D) bio-printers for printing of extracellular matrices and biomaterials; dispensing machines [other than vending machines]; machines and machine tools for manufacturing medical devices, diagnostic devices, point-of-care devices, rapid tests, lateral flow devices and microfluidic devices; automated assembly, packaging, strip cutting, cutting, dispensing, welding, ultrasonic welding, gluing, heat-sealing, bonding, marking, labelling, printing, surface treatment, tagging, pouching, laser marking, cassette closure, cap assembly machines, all for medical devices, diagnostic devices, point-of-care devices, rapid tests, lateral flow devices and microfluidic devices; 3D printers; lithographic machines; machines for laser-lithography; machinery for shaping plastic material; all aforementioned goods

unrelated to the dental field and to the dental surgical field.

Class 09

Computer-assisted dosage dispensers for biomaterials and medicinal substances in the biotechnology, and in the pharmaceuticals and cosmetics industries; laboratory apparatus for fabrication of three dimensional (3D) living tissues; apparatus and instruments for microscopy; laboratory apparatus and instruments; disposable dispenser syringes for laboratory use; liquid dosage devices that measure the amounts to be dispensed; measuring, detecting, monitoring and controlling devices; laboratory instruments [other than for medical use]; test trays; laboratory trays; scientific research and laboratory apparatus, educational apparatus and simulators; measuring, detecting and monitoring instruments, indicators and controllers; laboratory apparatus for fabrication of three-dimensional tissues and organs; instruction manuals in electronic format; imaging devices for scientific purposes; models for scientific experiments in laboratories; software; operating system; scientific, measuring, checking (supervision) apparatus and instruments; scientific apparatus and instruments, including scientific apparatus for the analysis of carrier materials, in particular of membranes and glass, including chemicals used in industry and science, in particular nucleic acids, peptides and proteins, for the analysis of immobilised chemical compounds, including collections of chemical compounds for industrial and scientific purposes; computer software and programs, in particular computer programs for the synthesis and/or immobilisation of chemicals used in industry and science, in particular nucleic acids, peptides and proteins, immobilised chemical compounds, arrays of collections of chemical compounds, in particular collections of chemical compounds on a carrier, compounds manufactured with the aid of immobilised chemical compounds, collections of chemical compounds or arrays of chemical compounds; computer software (recorded), programs, in particular computer programs for the analysis of samples on surfaces, in particular carrier materials, including membranes and glass, mainly the aforesaid carriers

including chemicals used in industry and science, in particular nucleic acids, peptides and proteins, for the analysis of immobilised chemical compounds, for the analysis of chemical compounds for industrial and scientific purposes, for the analysis of arrays of chemical compounds; programs, in particular computer programs for screening compounds, including nucleic acids, peptides and proteins; image analysis software; computer software for data analysis; equipment and apparatus for the analysis of the synthesis and/or immobilisation of chemicals used in industry and science, for the analysis of samples on surfaces and for the analysis of screening compounds, including nucleic acids, peptides and proteins, in particular the aforesaid equipment and analysis apparatus with integrated data analysis; diagnostic equipment and analysis apparatus for the synthesis and/or immobilisation of chemicals used in industry and science, for the generating and analysis of samples on surfaces and for screening compounds, including nucleic acids, peptides and proteins, in particular the aforesaid equipment and analysis apparatus with integrated data analysis chambers, in particular hybridisation chambers; spotting scopes; biochips; bioreactor for cell culturing; bioreactors for laboratory use; bioreactors for research use; cell culture apparatus for laboratory use; devices for analyzing genome information; devices for analyzing protein sequence used as laboratory apparatus; DNA chips; DNA microarray; immunostaining instruments [for scientific purposes]; incubation plates for scientific or laboratory use; incubators for laboratory use; instruments for diagnosis [for scientific use]; laboratory incubators [other than for medical use]; laboratory optical apparatus; LED microscopes; lasers for scientific use; lenses for microscopes; microarray slides; microplate readers; microscope slides; nucleic acid sequencers for scientific purposes; petri dishes; petri dishes used in laboratory research; pipette tips; pipettes; scientific apparatus and instruments; print heads for inkjet printers; disposable plastic bioreactors for cell culture; bioreactors for cell culture; scientific research and laboratory apparatus and instruments in the field of cytology; equipment for scientific research and laboratory apparatus and instruments in the field of cytology; scientific research and laboratory apparatus, namely, cell

handling apparatus, cell analysis apparatus and apparatus for cell separation; scientific research and laboratory apparatus, namely cell culture apparatus for laboratory use; laboratory apparatus and instruments for use in biopharmaceutical discovery and development; laboratory apparatus and instruments for use in cell detection and molecular discovery; laboratory apparatus and instruments for the analysis, retrieval or discovery of single cells; laboratory apparatus and instruments for use in assuring monoclonality; parts and fittings for all the aforesaid goods; laboratory equipment for scientific and research use, namely, systems comprised of fluid dispenser, imaging station, computer hardware, control software, analysis software, chips and reagents; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; apparatus and instruments for science and research; apparatus and instruments for scientific research and laboratories for handling, processing, analysing and/or investigating cells, in particular single cells, or other particles, in particular single other particles; apparatus and instruments for scientific research and laboratories for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; apparatus and instruments for scientific research and laboratories for obtaining, storing, recording, transmitting, reproducing, examining, investigating, analysing and/or processing images of cells or other particles; cell culture apparatus and instruments for scientific purposes; bioreactors and microbioreactors, in particular for cell culturing; multi-well and microtiter plates, in particular for cell culturing; bioreactors for cell culturing; recorded and downloadable media or computer software; computer software for maintaining and/or operating apparatus and instruments for scientific research and laboratories and/or medical apparatus and instruments, in particular any of the aforesaid apparatus and instruments for scientific research and laboratories or of the aforesaid bioreactors and microbioreactors;

computer software for use with apparatus and instruments for scientific research and laboratories and/or with medical apparatus and instruments, in particular with any of the aforesaid apparatus and instruments for scientific research and laboratories or with the aforesaid bioreactors and microbioreactors; computer software for handling, processing, analysing and/or investigating cells or other particles; computer software for controlling cell culture apparatus and instruments or bioreactors and microbioreactors, or for controlling cell culturing; computer software for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; computer software for obtaining, storing, recording, transmitting, reproducing, examining, investigating, analysing and/or processing images of cells or other particles; computers and computer peripheral devices, in particular loaded with any of the aforesaid computer software; parts and accessories for all the aforesaid goods, included in this class; equipment for scientific research and laboratory apparatus and instruments in the field of cytology; scientific, photographic, optical, measuring apparatus and instruments; optical installations for the lithographic production of two-dimensional and three-dimensional objects; focusable and controllable laser installations for lithography; submicrometer gauges for substrate carriers; optical installations with laser function; positioning installations; testing apparatus for non-medical purposes; observation instruments; computer software; industrial process control software; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life saving and teaching apparatus and instruments, in particular optical systems for the lithographic production of two and three-dimensional objects, focusable laser sources, handling systems with resolution in the submicrometer range, laser-optical systems for in-vitro manipulation of biological preparations, vacuum installations and components, analysis apparatus; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; calculating machines, data-processing equipment and computers; radio-

frequency identification [RFID] readers; quality inspection machines and fluorescence light checking machines for quality control of medical devices, diagnostic devices, point-of-care devices, rapid tests, lateral flow devices and microfluidic devices; all aforementioned goods unrelated to the dental field and to the dental surgical field.

Class 10

Devices for administering medicine with computer-assisted and three-dimensional dosing function of biomaterials and medicinal substances; lab units for the dispensing of liquids [for medical use]; medical trays; diagnostic, examination and monitoring equipment for medical purposes; surgical, medical and veterinary apparatus and instruments; laboratory apparatus and instruments for medical purposes; medical apparatus and instruments for handling, processing, analysing and/or investigating cells for medical purposes; medical apparatus and instruments for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells, in particular single cells, or other particles, in particular single other particles; medical apparatus and instruments for obtaining, storing, recording, transmitting, reproducing, examining, investigating, analysing and/or processing images of cells or other particles; cell culture apparatus and instruments for medical purposes; bioreactors and microbioreactors for medical purposes, in particular for cell culturing for medical purposes; multi-well and microtiter plates for medical purposes, in particular for cell culturing for medical purposes; liquid mixers and liquid aerators, in particular for cell culturing, for medical purposes; parts and accessories for all the aforesaid goods, included in this class; surgical, medical and veterinary instruments and apparatus, in particular laser-optical systems for inpatient or outpatient laser surgery, laser therapy or for the in-vitro manipulation of tissue components, as well as optical forceps, surgical apparatus and instruments, surgical implants (of artificial materials), intraocular prostheses for surgical implantation; all aforementioned goods unrelated to the dental field and to

the dental surgical field.

Class 36

Financial and monetary services, and banking; investment services; management of investment trusts; financial management of holding companies; financial management of holding companies for indirect ownership of companies; financial management of holding companies for indirect ownership of companies active in the sectors of bioconvergence, biotechnology, life sciences, healthcare, 3D bioprinting, biofabrication, biology, engineering, biomaterials, materials science, nanotechnology, regenerative medicine, tissue engineering, personalized medicine, single-cell analysis, molecular diagnostics, point of care diagnostics, point of care testing, microbiome, microbiology, process technology, automation; valuation services; real estate affairs; real estate management.

Class 40

3D printing services; custom manufacturing of three-dimensional shaped parts using rapid prototyping equipment; 3D bioprinting; bioprinting; renting of 3D printers; treatment of chemicals used in industry and science, in particular nucleic acids, peptides and proteins, chemical compounds for industrial and scientific purposes, in particular immobilised chemical compounds for industrial and scientific purposes, arrays of chemical compounds, in particular nucleic acids, peptides and proteins, arrays of collections of chemical compounds, in particular collections of chemical compounds on a carrier, compounds made with the aid of immobilised chemical compounds; processing of chemical compounds, in particular nucleic acids, peptides and proteins; processing of collected chemical compounds, in particular chemical compounds collected on a carrier; 3D printing services; lithographic material treatment; treatment of materials by laser beam, namely, microstructuring and nanostructuring; lithographic printing; laser scribing services; treatment of materials, in relation to laser engraving, engraving, galvanisation, gilding, silver-plating,

chromium plating, nickel plating, and services relating to conversion, shaping and coating from organic and inorganic starting materials into/onto components and structures with dimensions up to the micrometer and nanometer scale, and services relating to the laser-lithographic treatment of materials involving the chemical and/or physical modification of materials; automated custom assembling of rapid tests; all aforementioned services unrelated to the dental field and to the dental surgical field.

Class 42

Research and development of 3D technology and processes; development of rapid prototyping equipment; technological consultancy relating to rapid prototyping; scientific research consulting in the fields of three-dimensional printing; scientific services relating to the isolation and cultivation of human tissues and cells; laboratory services; laboratory analysis; laboratory research; testing, authentication and quality control; technological consultancy; consultancy relating to laboratory testing; consultancy relating to pharmaceutical research and development; consultancy in the field of scientific research; platform as a service (paas); hosting platforms on the internet; programming of software for internet platforms; hosting an on-line community web site featuring a platform for sharing of 3D models for 3D bioprinting; creating an on-line community in the form of a website for professionals in the 3d bioprinting industry; computer services, namely, creating an on-line community in the form of a website for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking and share 3D models for 3D bioprinting; provision of information relating to scientific research; provision of information relating to technological research; information services relating to scientific research in the fields of biochemistry and biotechnology; research and analysis services for biological, biochemical, chemical, molecular biological and biotechnological purposes; services for medical research, veterinary research, pharmaceutical research, genetic research, cytogenetic research, molecular biological research and molecular genetic research purposes; research

and development in the field of the synthesis and/or immobilisation of chemicals used in industry and science, immobilised chemical compounds, arrays of chemical compounds, arrays of collections of chemical compounds, in particular collections of chemical compounds on a carrier, compounds made with the aid of immobilised chemical compounds, collections of chemical compounds or arrays of chemical compounds, in particular immobilised on a carrier; quality checking and testing services for interaction partners; research and development in the field of the determination of interaction partners; development of diagnostic agents; screening and development of chemicals used in industry and science, chemical compounds for industrial and scientific purposes, in particular immobilised chemical compounds for industrial and scientific purposes, arrays of chemical compounds, arrays of collections of chemical compounds, in particular collections of chemical compounds on a carrier, compounds made with the aid of immobilised chemical compounds, collections of chemical compounds or arrays of chemical compounds; computer programming, in particular for research, development and screening purposes; electronic storage of data, images, audio and video information; providing temporary use of on-line non-downloadable software for database management; biological research, clinical research and medical research; biomedical research services; clinical research; development of pharmaceutical preparations and medicines; laboratory research services relating to pharmaceuticals; laboratory research services relating to dermatology; laboratory services relating to the production of monoclonal antibodies; medical laboratory services; medical research; pharmaceutical drug development services; pharmaceutical product evaluation; pharmaceutical products development; pharmaceutical research and development; pharmaceutical research services; research and development for the pharmaceutical industry; research and development in the pharmaceutical and biotechnology fields; research and development of vaccines and medicines; scientific research and development; scientific research for medical purposes in the area of cancerous diseases; scientific research in the field of pharmacy; services for assessing the

efficiency of pharmaceuticals; services for assessing the efficiency of veterinary drugs; testing of pharmaceuticals; research and development services in the field of antibodies; research and development in the field of microorganisms and cells; research relating to medicine; research relating to medicines; design and development of diagnostic apparatus; design of diagnostic apparatus and equipment; design and development of medical diagnostic apparatus; research and development in the field of diagnostic preparations; research and development services in the field of cytology; biotechnology research; biotechnology testing; research and development in the field of biotechnology; research relating to biotechnology; consultancy relating to biotechnology; consultancy in the field of biotechnology; scientific and medical research and development in the field of cytology; scientific and medical research and development in the field of bioprinting; scientific and technological services and research and design relating thereto; scientific and technological services and research and design relating thereto for handling, processing, analysing and/or investigating cells, in particular single cells, or other particles, in particular single other particles; scientific and technological services and research and design relating thereto for culturing of cells; scientific and technological services and research and design relating thereto for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; scientific and technological services and research and design relating thereto for the design, construction, manufacture and/or use of apparatus and instruments for scientific research and laboratories and/or of medical apparatus and instruments, in particular of apparatus and instruments for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; industrial analysis, industrial research and industrial design services; industrial analysis, industrial research and industrial design services for the design, construction, manufacture and/or use of apparatus and instruments for scientific research and laboratories and/or of medical apparatus and instruments, in particular of apparatus and instruments for sensing, detecting,

counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; design and development of computer software; design, development, programming and/or implementation of computer software for maintaining and/or operating apparatus and instruments for scientific research and laboratories and/or medical apparatus and instruments, in particular for maintaining and/or operating cell culture apparatus and instruments or bioreactors and microbioreactors; design, development, programming and/or implementation of computer software for use with apparatus and instruments for scientific research and laboratories and/or with medical apparatus and instruments, in particular for use with cell culture apparatus and instruments or bioreactors and microbioreactors; design, development, programming and/or implementation of computer software for handling, processing, analysing and/or investigating cells or other particles; design, development, programming and/or implementation of computer software for controlling cell culture apparatus and instruments or bioreactors and microbioreactors, or for controlling cell culturing; design, development, programming and/or implementation of computer software for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; design, development, programming and/or implementation of computer software for obtaining, storing, recording, transmitting, reproducing, examining, investigating, analysing and/or processing images of cells or other particles; providing temporary use of non-downloadable online computer software; providing temporary use of non-downloadable online computer software for maintaining and/or operating apparatus and instruments for scientific research and laboratories and/or medical apparatus and instruments, in particular for maintaining and/or operating cell culture apparatus and instruments or bioreactors and microbioreactors; providing temporary use of non-downloadable online computer software for use with apparatus and instruments for scientific research and laboratories and/or with medical apparatus and instruments, in particular for use with cell culture apparatus and instruments or bioreactors and microbioreactors; providing

temporary use of non-downloadable online computer software for handling, processing, analysing and/or investigating cells or other particles; providing temporary use of non-downloadable online computer software for controlling cell culture apparatus and instruments or bioreactors and microbioreactors, or for controlling cell culturing; providing temporary use of non-downloadable online computer software for sensing, detecting, counting, imaging, identifying, isolating, separating, positioning, dispensing and/or depositing cells or other particles; providing temporary use of non-downloadable online computer software for obtaining, storing, recording, transmitting, reproducing, examining, investigating, analysing and/or processing images of cells or other particles; scientific and technological services and research and design relating thereto; industrial research services; physics [research]; engineering services; chemistry services; chemical laboratories; optical research laboratories; chemical product development for use in lithography; development of photoresists for lithography; research and development services in the field of laser system development and laser applications for technical, physical, biological and medical use; development of new technology for others; design and development of software for control, regulation and monitoring of lithography devices; design and development of software for control, regulation and monitoring of 3D printers; design and development of software for control, regulation and monitoring of devices for laser-lithography; computer software development for others; software design for others; design of mathematical models; industrial analysis and research services in particular biological research, physics, services of a technical measuring and testing laboratory, engineering, chemistry laboratory services, conducting technical testing and scientific experiments, and technical, engineering and scientific services in relation to work in the field of research and development for laser system developments and laser applications for technical, physical, biological and medical applications; design and development of computer hardware and software; all aforementioned services unrelated to the dental field and to the dental surgical field.

Goods and/or Services:

Class 07

Food preparation machines, electromechanical; bread cutting machines; wrapping machines; blenders, electric, for household purposes; electric window cleaners; shoe polishers, electric; screwdrivers, electric; fruit presses, electric, for household purposes; dust exhausting installations for cleaning purposes; waste disposal units.

Class 08

Garden tools, hand-operated; hand tools, hand-operated; fingernail polishers, electric or non-electric; table forks; scissors; stropping instruments; hobby knives [scalpels]; screwdrivers, non-electric; non-electric caulking guns; spatulas for use by artists.

Class 09

Pocket calculators; bags adapted for laptops; chronographs [time recording apparatus]; scales; precision balances; rulers [measuring instruments]; cases for smartphones; cabinets for loudspeakers; USB cables; battery chargers.

Class 11

Lamps; electric torches; thermo-pots, electric; heating cushions, electric, not for medical purposes; hair dryers; air purifying apparatus and machines; electric fans for personal use; cooking utensils, electric; hydromassage bath apparatus; filters for drinking water.

Class 14

Boxes for jewelry storage; alarm clocks; clocks; cuckoo clocks with a human voice; electric chronometric instruments; medals; badges of precious metal; precious

metals, unwrought or semi-wrought; presentation boxes for jewellery.

Class 16

Paper; boxes of paper or cardboard; desktop cabinets for stationery [office requisites]; coasters of paper; painters' easels; bags [envelopes, pouches] of paper or plastics, for packaging; photograph stands; garbage bags of paper or of plastics; plastic bubble packs for wrapping or packaging; stationery; adhesive tape dispensers [office requisites]; terrestrial globes.
