General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

RESOLVEOME

Goods and/or Services:

Class 01

Assays and reagents for use in genetic research; diagnostic reagents for scientific and research use; diagnostic reagents for clinical or medical laboratory use; reagents for scientific use; reagent kits comprising generic DNA circle, DNA primers, polymerase and buffers for use in biotechnology fields; reagents for scientific use for use in kits for high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; reagents comprising paramagnetic beads for use in the processing, purification, and cleanup of samples containing genomic material, including material from single cells, for research purposes, sold as a unit with containers specifically adapted for these reagents; reagents for scientific use for use in the amplification and recovery of genomic material, including genomic

material from single cells sold as a unit with containers specifically adapted for these reagents; chemical substances and products, namely, chemical preparations for use in genomic research; biochemicals, namely, biological reagents for use in whole genome amplification to detect genetic variants in each cell for non-medical purposes; laboratory chemicals, namely, an antibody reagent used for genomic research; chemical test kits for diagnostic purposes for laboratory and research use; diagnostic kits comprising reagents for scientific use; diagnostic kits comprised of reagents and assays for scientific use for detecting, testing, analyzing, and sequencing genes, nucleic acids, and biological molecules; reagents in kit form for scientific use, namely in biological analysis for use in whole genome amplification to detect genetic variants in cells; kits comprising reagents, namely, reagents for scientific use comprising paramagnetic beads for use in the processing, purification, and cleanup of samples containing genomic material, including material from single cells; kits containing assays, reagents, and chemical preparation for use in genomic research; kits containing biochemicals, namely, biological reagents for scientific use for use in whole genome amplification to detect genetic variants in each cell; Genomic testing kits comprising of reagents for laboratory use; diagnostic reagents for research use, namely in drug target discovery; kits containing laboratory chemicals, namely, antibody reagents used for genomic research.

Class 05

Diagnostic reagents for medical use; reagents comprising paramagnetic beads for use in the processing, purification, and cleanup of samples containing genomic material, including material from single cells, for medical purposes, sold as a unit with containers specifically adapted for these reagents; diagnostic chemical test kits consisting primarily of monoclonal antibodies, buffers, and reagents for medical use; medical test kits comprised of medical diagnostic reagents and assays for high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance,

single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; medical test kits comprised of medical diagnostic reagents for use in the amplification and recovery of genomic material, including genomic material from single cells; kits comprising reagents, namely, reagents for medical use comprising paramagnetic beads for use in the processing, purification, and cleanup of samples containing genomic material, including material from single cells; medical test kits comprised of medical diagnostic reagents for use in connection with next-generation sequencing (NGS) for the purpose of revealing the presence and quantity of RNA and analyzing cellular transcriptome; medical test kits comprised of medical diagnostic reagents for genetic sequencing of messenger ribonucleic acid (mRNA), complementary DNA (cDNA), and full-length transcripts; diagnostic kits comprising reagents for medical use.

Class 09

Scientific and laboratory apparatus and instruments, namely, magnetic plates for use with magnetic and paramagnetic beads for the processing, purification, and cleanup of samples containing genomic material, including material from single cells; kits containing a scientific or laboratory apparatus or instrument, namely, kits comprising multi-well plates and magnetic plates, sold together with reagents comprising paramagnetic beads for the processing, purification, and cleanup of samples containing genomic material, including material from single cells; kits comprising a scientific or laboratory apparatus or instrument for the amplification and recovery of genomic material, including genomic material from single cells, and reagents for scientific or research use; gene and genetic testing apparatus in the nature of apparatus for DNA and RNA testing for scientific purposes; scientific and laboratory apparatus and instruments for the amplification and recovery of genomic material, including genomic material from single cells, namely, cell or sample specimens that determine the heterogeneity of cellular populations within a tissue in the fields of oncology, neurology, reproductive medicine, toxicology, immunology, cardiac related

tissues, and genetic engineering, namely gene editing; kits for diagnostic purposes for laboratory or research use comprised of cell or sample specimens that determine the heterogeneity of cellular populations within a tissue in the fields of oncology, neurology, reproductive medicine, toxicology, immunology, cardiac related tissues, and genetic engineering, namely gene editing.

Class 10

Diagnostic kits and devices, namely, companion diagnostics (CDx); gene and genetic testing apparatus in the nature of apparatus for DNA and RNA testing for medical purposes; medical apparatus and instruments for the amplification and recovery of genomic material, including genomic material from single cells, namely, cell or sample specimens that determine the heterogeneity of cellular populations within a tissue in the fields of oncology, neurology, reproductive medicine, toxicology, immunology, cardiac related tissues, and genetic engineering, namely gene editing; medical apparatus and instruments, namely, magnetic plates for use with magnetic and paramagnetic beads for the processing, purification, and cleanup of samples containing genomic material, including material from single cells; kits for diagnostic purposes for medical use comprised of cell or sample specimens that determine the heterogeneity of cellular populations within a tissue in the fields of oncology, neurology, reproductive medicine, toxicology, immunology, cardiac related tissues, and genetic engineering, namely gene editing.

Class 42

Genomic analysis and sequencing services for scientific and research purposes; medical and scientific research in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; medical and scientific research in connection with circulating tumor cells (CTC), cell free DNA (cfDNA), circulating tumor DNA (ctDNA), cancer genomics, methylome, methylomics, and DNA methylation; nucleic acid and

ribonucleic acid analysis services for medical and scientific research purposes; providing medical and scientific research information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; medical and scientific research in connection with high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; medical and scientific research in connection with genome amplification to detect genetic variants in cells; medical and scientific research in connection with measuring genetic diversity in single cells; medical and scientific research in connection with primary template-directed amplification for use in connection with single cells and ultra-low DNA input samples; medical and scientific research for the purpose of elevating single cell genome variants for the purpose of genome amplification; DNA analysis and sequencing services for scientific and research purposes; research, development and scientific consultancy in the field of genomics; medical research, namely, compiling data for research purposes in the field of genomics; providing medical research information in the field of genomics, gene therapy, cell therapy for medical purposes; providing on-line non-downloadable software for collecting, analyzing, reporting, and tracking data and information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics.

Class 44

Medical testing for diagnostic or treatment purposes; medical testing for precision and personalize medicine purposes; Medical analysis services for diagnostic and treatment purposes provided by medical laboratories; medical diagnostic testing, monitoring and reporting services; medical analysis services for diagnosis the fields of oncology, cardiology, prenatal genetic testing (PGT), neurological genetic

disorders, immunology, microbiome, toxicology, and bioprocessing; medical analysis services for diagnosis in the field of gene therapy and cell therapy; medical analysis services for diagnosis in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; Genomic analysis and sequencing services for medical purposes; DNA analysis and sequencing services for medical purposes.
