Weighing, measuring, signaling, checking (inspecting), life-saving and teaching apparatus and instruments; apparatus for recording, transmission or reproduction of sound or images; signaling devices, especially for prohibiting or monitoring access to certain areas; apparatus for load measuring and overload monitoring; dynamometers; apparatus for measuring anchor pullout resistance; tensiometers (force sensors), particularly for lifeline control, traction and tensile strength control; remote control devices for steel cable winches by transmission of magnetic field through cables and radio control; applications for portable computers or mobile phones enabling management of equipment for site-based work, and monitoring of their maintenance; applications for portable computers or mobile phones enabling verification of safety protocols when using equipment for working at heights, managing and tracking of apprenticeship training and refresher training in the field of works in difficult to access locations; surveillance and alarm apparatus, especially housing integrating an electronic system that can detect abnormal situations and trigger automatic alerts, associated with an electronic alert device intended to be implanted in a nacelle or work platform having the purpose of

triggering an alert in certain situations, especially in the case of over-abrupt acceleration of the lowering device; surveillance and alarm apparatus, especially a base for transmitting/receiving a signal designed to emit an alarm connected to an on-board transmitter/receiver; electronic devices enabling detection of an overload and triggering cable locking to prevent falls; geolocation apparatus and instruments especially enabling remote technical monitoring, in order to establish operational diagnostics and enable offsetting of observed impairments; equipment for the safety of workers at height, in particular harnesses, lanyards, anti-fall devices, lifelines; safety apparatus and equipment, especially emergency and evacuation devices connected to a fixed point enabling a person to be lowered in a controlled way to a receiving area located below; safety device for braking and/or stopping the fall of a person or load connected to this device; retractable lanyards, being safety devices; protective helmets.

CLASS 12

Vehicles, especially for handling and transporting loads; transport platforms; handling carts; pallet trucks.

CLASS 19

Sections, guardrails and safety barriers not of metal more specifically intended to be located on roofs or elevated areas in order to prevent falls or on all working areas or areas to be secured, especially near machines; doors, barriers not of metal as well as supports not of metal intended for receiving barriers and/or doors; non-metallic constructions for installation on top of skyscrapers; suspended platforms not of metal for accessing buildings and infrastructures especially at heights, their structural parts; platforms not of metal for work on masts; platforms not of metal for scaffolding; frames, not of metal; fixed or mobile anchoring devices not of metal; rigid and flexible rails and fall-arrest systems not of metal; structures not of metal for securing mobile installations for work on infrastructures or difficult to access buildings.

CLASS 35

Presentation of products on all means of communication for retail sale thereof; grouping on all communication media, in particular websites, on behalf of third parties, in order to enable customers to view and purchase them conveniently, devices and installations for lifting, pulling, for handling, transport of loads or people; grouping on all communication media, in particular websites, on behalf of third parties, in order to enable customers to view and purchase them conveniently for equipment for the safety of workers working at height or in areas with difficult access; grouping on all communication media, in particular websites, on behalf of third parties, in order to enable customers to view and purchase them conveniently, for temporary or permanent installations for access to the interior or exterior of constructions, buildings, bridges or other high structures, in particular using platforms or nacelles; grouping on all communication media, in particular websites, on behalf of third parties, in order to enable customers to view and purchase them conveniently, for devices and installations for access to buildings, constructions, infrastructures, and all areas of difficult access such as facades, cooling towers, chimneys, antennas, power plants, dams, bridges, wind turbines; grouping on all communication media, in particular websites, on behalf of third parties, in order to enable customers to view and purchase them conveniently, for apparatus for load measurement and control; grouping on all communication media, in particular websites, on behalf of third parties, in order to enable customers to view and purchase them conveniently, for structures, barriers, profiles, guardrails, doors for delimiting and securing dangerous areas; assistance and advice to companies regarding product referencing, sales and marketing assistance.

CLASS 37

Maintenance and repair of equipment and installations for pulling, lifting, handling, transporting loads and/or passengers; maintenance and repair of equipment for the safety of workers working at heights or in difficult to access areas; maintenance and repair of temporary or permanent installations enabling access to the interior or exterior of constructions, buildings, bridges, high structures, or all difficult to access areas such as facades, cooling towers, chimneys, antennas, power plants, dams, bridges, wind turbines; maintenance and repair of platforms and nacelles enabling access to buildings, constructions, infrastructures, and all difficult to access areas; maintenance and repair of apparatus for measuring and monitoring loads; maintenance and repair of structures, barriers, sections, guardrails, doors for demarcating and securing hazardous areas; rental of equipment and installations for pulling, lifting, handling, transporting loads and/or passengers; rental of equipment for the safety of workers working at heights or in difficult to access areas; rental of temporary or permanent installations enabling access to the inside or outside of constructions, buildings, bridges, high structures, or all difficult to access areas such as facades, cooling towers, chimneys, antennas, power plants, dams, bridges, wind turbines; rental of platforms and nacelles enabling access to buildings, constructions, infrastructures, and all difficult to access areas; rental of apparatus for measuring and monitoring loads; rental of structures, barriers, sections, guardrails, doors for demarcating and securing hazardous areas; rental of clothing for protection against accidents, personal protection devices, protective gloves, high-

visibility clothing, shoes for protection against accidents, safety shoes, protective goggles, protective helmets, communication helmets, protective masks, safety harnesses; calibrating equipment for measuring and monitoring loads.

CLASS 41

Training services, in particular training in the use, upkeep, repair and maintenance of all lifting and pulling equipment, in the use and repair of all equipment and all installations for the upkeep of buildings and facades, especially platforms or nacelles; training of employees working at heights or in difficult to access locations, on safety protocols and on the use of all dedicated equipment; training in the maintenance of equipment and installations for pulling, lifting, handling, transporting loads and/or passengers; training in the maintenance of equipment for the safety of workers working at heights or in difficult to access areas; training in the maintenance of temporary or permanent installations enabling access to the inside or outside of constructions, buildings, bridges, high structures, or all difficult to access areas, such as facades, cooling towers, chimneys, antennas, power stations, dams, bridges, wind turbines, platforms and nacelles enabling access to buildings, constructions, infrastructures; training in the maintenance of apparatus for measuring and monitoring loads; training in the maintenance of structures, barriers, sections, guardrails, doors for demarcating and securing hazardous areas.

CLASS 42

Research and development in the field of equipment and installations for pulling, lifting, handling, transport of loads and/or passengers, in the field of equipment for the safety of workers working at heights or in difficult to access areas, in the field of temporary or permanent installations enabling access to the inside or outside of constructions, buildings, bridges, high structures, or all difficult to access areas, in the field of platforms and nacelles enabling access to buildings, constructions, infrastructure, and all difficult to access areas, in the field of apparatus for measuring and monitoring loads and in the field of structures, barriers, sections, guardrails, doors for demarcating and securing hazardous areas; research and development of technical solutions in the field of safety of workers working at heights or in difficult to access areas; research and development of technical solutions in the field of access to buildings, constructions, infrastructures, and all difficult to access areas such as facades, cooling towers, chimneys, antennas, power plants, dams, bridges, wind turbines; research and development of technical solutions in the field of load measurement and monitoring; research and development of technical solutions in the field of securing hazardous areas; designing platforms, nacelles and installations for the maintenance of facades and other high or difficult to access areas; safety tests, especially in the field of lifting equipment and installations, working at heights or in difficult to access areas, and in all sectors requiring the use of suspended platforms or nacelles.
