General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

ANTYLIA DIAGNOSTICS

Goods and/or Services:

Class 01

Chemical reagents and solutions for non-medical purposes; chemicals for use in industry and science, namely, certified reference materials for general industrial, research, environmental and laboratory use in testing, analysis, and quality control; chemical preparations for general industrial purposes, for analyses in laboratories, and for scientific purposes; kits for general industrial, research, environmental and laboratory use, comprised of chemical preparations for scientific and industrial purposes; chemicals and reagents for use in industry and science; chemical solutions for use in general industry and the laboratory industry, namely, calibration solutions and solids used in analytical chemistry, general industrial and laboratory use, detection and measurement through spectroscopic and chromatographic analysis, and chemical standards preparations; chemical reference standards for laboratory and industrial use; inorganic chemicals and chemical standards for general industrial and laboratory use; inorganic chemicals for use in the manufacture of Certified Reference Materials and/or inorganic calibration standards for use in inorganic analysis in environmental, government, local and state municipalities, research, academic, industrial, biotechnical and manufacturing industries as a benchmark; inorganic chemicals and analytic chemical standards for calibrating instruments; biotechnology products for scientific and research purposes, namely, reagents and solutions in the nature of viruses, bacteria, fungi, parasites, and derivatives thereof for the research, development, and validation of infectious disease diagnostic tests; biochemical products, namely, antibodies for scientific or research use; reagents for scientific and research use; chemical solutions and preparations consisting of pre-mixed reactants and reagents for scientific and

research use in connection with amplification, analysis or labeling of nucleic acid; chemical additives for use in spectroscopic analysis for scientific use; biochemical products, namely, proteins for scientific or research use; biological material, for scientific and research purposes, in the nature of serum or plasma from infected and disease state individuals used for verification and validation of human diagnostic assays for such infections and diseases; diagnostic chemical preparations and reagents for scientific use for determining the accuracy of laboratory tests; monoclonal and polyclonal antibodies for scientific and research use.

Class 05

Chemical reagents for medical or veterinary purposes; chemical solutions and preparations consisting of pre-mixed reactants and reagents for medical diagnostic use in connection with amplification, analysis or labeling of nucleic acid; diagnostic reagents in the nature of biotechnology products for medical and veterinary use, namely, non-infectious protein controls, non-infectious micro-organisms for amplification controls; odor absorbing preparations, namely, neutralizers for laboratory use; hand sanitizing preparations; antibacterial hand lotions and soaps; disinfectant hand soaps; disposable wipes impregnated with disinfecting chemicals or compounds for use in hospitals and laboratories; Sanitizing wipes; disinfecting wipes; Antibacterial wipes; All-purpose disinfectants.

Class 09

Sample preparation equipment specially adapted for scientific and laboratory purposes; scientific and laboratory apparatus for processing samples in preparation for analysis; scientific instruments, namely, mills, mixers and grinders, and combinations thereof; scientific instruments, namely, laboratory grinder and extractor accessories, namely, vial extractor, vial opener, sample vials, vial clamps, vial closures, cooling stations, chilled cutting boards, chilled sample holders and chilling vials; scientific instruments, namely, cryogenic mixers, mills and grinders specially

adapted for scientific and laboratory use; grinding media and grinding media kits, comprised of beads, balls, impactors, ceramic homogenizers, vials, titer plates, jars, and grinding dishes for ambient and cryogenic scientific and laboratory mixers, mills and grinders; scientific, analytical, and laboratory instruments, equipment, supplies, and apparatus, namely, presses, pipette washers and dryers, homogenizers, heat sealers for microplates and tube racks, funnels, caps, plugs, filters, containers for laboratory waste, valves, adapter fittings, a fusion flux instrument comprising a crucible and programmable controller for analyzing the metallic or chemical composition of materials, a combination mill, mixer and grinder, and extractor accessories, namely, cooling stations, chilled cutting boards, chilled sample holders, and chilling vials; sample preparation equipment for scientific and laboratory use, namely, mixers, mills, and grinders, extraction equipment, sample preparation equipment for laboratory and industrial use; laboratory grinders; scientific apparatus, namely, spectrophotometers and photo electron spectroscopy analyzers, not for medical purposes; scientific apparatus and instruments for amplifying, analyzing, and labeling nucleic acid; DNA amplification apparatus, namely, thermocyclers for scientific or medical research use; downloadable computer software for use with DNA amplification apparatus and thermocyclers, namely, software for data collection and analysis and software for controlling DNA amplification apparatus and thermocyclers; containers for laboratory sample preparation; scientific instruments, used for solid sample size reduction, sample homogenization, cell DNA lysing and extraction, sample mixing, sample preparation for XRF analysis, sample preparation for pesticide analysis, mechano-chemistry, and mechanical alloying; laboratory and scientific equipment, namely, a dissolution instrument comprising a crucible and programmable controller for preparing samples for analysis of their metallic or chemical composition; polymeric films for use in connection with liquid and solid samples for laboratory analysis; combination of polymeric snap-rings and collars for use in connection with liquid and solid samples for laboratory analysis; scientific and laboratory presses for processing samples in preparation for analysis; flux and grain

weighing and dispensing systems comprised of machines for weighing and dispensing granular and beaded flux and weighing and dispensing granular sample materials; scientific instruments, namely, forensic light sources used in forensic science applications for the investigation, visualization, identification, collection and analysis of materials; apparatus and equipment used for forensics materials image capture, namely, charge-coupled devices (CCD) or similar sensors in the nature of photodiode arrays, electron multiplying CCDs (EMCCD) sensors, and complementary metal-oxide semiconductor sensors (CMOS), optical lamps, lenses, optical mirrors, cameras and optical filters for use in forensic science applications; computer based systems comprised of hardware and analysis software for use in forensic science applications related to the capture, enhancement, and identification of fingerprints and other forensics investigative materials where the captured and enhanced image can be used for use in searchable databases for the investigation, identification, comparison and data processing in association with forensics and forensics science; polymeric films for laboratory use as cell windows for spectroscopic analysis; sample containers for laboratory sample preparation; chemical additives for use in spectroscopic analysis for scientific use; laboratory presses; Safety goggles; protective work gloves and glasses; gloves for laboratory purposes; protective industrial respiratory masks and face shields; protective face masks, respiratory masks, shoe covers, coveralls, and aprons for protection against accidents or injury; protective clothing and headwear especially made for use in laboratories.

Class 40

Manufacturing of biotechnology products to the order and specification of others.

Class 41

Educational services, namely, oral presentations, poster presentations, seminars, non-downloadable webinars, conferences, workshops and presentations in the fields

of science, chemistry, laboratory and scientific equipment, certified reference materials, and laboratory sample preparation and training materials used in connection therewith.

Class 42

Custom design and development of chemical reagents and biochemical assays; custom design and development of controls and immunoassay solutions for use in vitro diagnostics (IVD) diagnostic assays.

related plans and tools for implementing or managing execution of business related plans for any type of organization; downloadable software in the nature of a mobile application for project management, communication and collaboration between work users and for sharing of data, images and files between users for work collaboration and management purposes; downloadable desktop software application for project management, communication and collaboration between work users and for sharing of data, images and files between users for work collaboration and management purposes; downloadable computer software for application and software integration; downloadable mobile application featuring software for use in secure group communication and collaboration, namely, posting, file sharing, instant messaging, direct messaging, calendar synchronization and automatic integrations with external service providers between and among individuals and groups within the same businesses and organizations and from different businesses and organizations; downloadable computer software for uploading, downloading, sharing and archiving images, messages, audio, video, data and text content and files, for creating customized personal profiles and for providing search engines for use in group communication and collaboration platforms for businesses; downloadable computer software for integrating third party software applications; downloadable e-books, handbooks, and reports in the field of group communication, group collaboration, business communications and networking, and business application development; downloadable application programming interface (API) software for developing and customizing business computer software applications; downloadable computer software for data analytics for use in the field of group communication and collaboration for businesses; downloadable computer software for uploading, downloading, sharing and archiving images, messages, audio, video, data and text content and files, for use in group communication and collaboration platforms for businesses; downloadable computer software for providing electronic message alerts; software for tracking time, tasks, expenses, costs, activity, attendance, productivity and projects; software for team time tracking and time management; computer

software; software for creating, submitting, approving and managing timesheets; computer software for capturing timesheet and project signatures; computer software for tracking, managing and analyzing project labor, project time and task time estimates; workforce scheduling computer software; computer software for creating, editing and publishing job and shift schedules; computer software for tracking paid time off, sick days, and holidays; workforce time management and scheduling management computer software; mobile software application for payroll and invoicing services; software for team time tracking and time management, enabling workforce management and invoicing; software for project management, budget management, client management, and team management; software for employee monitoring; software for resource planning.

Class 35

Online business and personnel management services, namely, tracking paid time off, sick days, and holidays for others; workforce management services for others.

Class 41

Arranging and conducting educational conferences in the field of group collaboration for businesses; educational services, namely, developing, arranging, and conducting educational conferences and programs in the field of group communication and collaboration for businesses; arranging and conducting business conferences in the field of social media marketing, executive leadership, and business development; providing digital content, namely, blogs and non-downloadable publications in the nature of non-downloadable articles and non-downloadable brochures in the fields of technology, workplace leadership, workplace habits, workplace culture, communication skills, career advice and technological developments in software for communication, collaboration and messaging via an online website.

Class 42

Providing temporary use of on-line non-downloadable computer software for use in

developing and generating business related plans and tools for implementing or managing execution of business related plans for any type of organization; software as a service (SAAS) services featuring a company innovation management software platform that incorporates secure communication and collaboration, namely, posting, file sharing, direct messaging, and instant messaging between and among individuals and groups within the same businesses and organizations and from different businesses and organizations; platform as a service (PAAS) featuring computer software platforms for use in secure communication and collaboration, namely, posting, file sharing, direct messaging, and instant messaging between and among individuals and groups within the same businesses and organizations and from different businesses and organizations; software as a service (SAAS) featuring online non-downloadable computer search engine software; software as a service (SAAS) services featuring software for information sharing; design, development, implementation, customization, and configuration of computer software for others; data services, namely, migrating data and applications from one platform to another; data services in the nature of hosting of software as a service (SAAS), namely, providing software for use by others for automated integrations with external service providers and data sources; hosting a website featuring non-downloadable software for conference, demonstration, and seminar management, namely, software that enables conference attendees to view video content on demand and schedule conference sessions; platform as a service (PAAS) featuring computer software platforms for use in group communication, namely, postings, memoranda and instant messaging, file sharing, calendar synchronization, and automated integrations with external service providers; software as a service (SAAS) featuring software for uploading, downloading, sharing and archiving images, messages, audio, video, data and text content and files, for creating customized personal profiles, and for providing search engines for use in group communication and collaboration platforms for businesses; software as a service (SAAS) featuring software for integrating third party software applications; software as a service (SAAS) featuring application

programming interface (API) software for developing and customizing business computer software applications; computer technical support services, namely troubleshooting computer software; computer technology consultancy in the field of group communication and collaboration for businesses and in the field of business software application development; software as a service (SAAS) featuring software for data analytics in the field of group communication and collaboration for businesses; providing online non-downloadable software for providing electronic message alerts; providing an online non-downloadable computer software tool to assist with collecting, storing, accessing or organizing information, namely, for providing suggestions and alerts, performing enhanced search functions, maintaining an information repository for individual users, organizing user files, communications and postings, and facilitating integration with external service providers; hosting a website featuring on-line non-downloadable software that enables users to collaborate, organize and evaluate public relations and marketing activities; providing on-line non-downloadable software for time management and time tracking used in managing and tracking the amount of time one uses a computer software application, and managing and tracking employee billing tasks; software as a service (SaaS) services; software as a service (SaaS) services featuring software for tracking time, tasks, expenses, costs, activity, attendance, productivity and projects; software as a service (SaaS) services featuring software for tracking paid time off, sick days, and holidays; software as a service (SaaS) services featuring software for team time tracking and time management, enabling workforce management and invoicing; software as a service (SaaS) services featuring software for employee information and records management, applicant tracking, employee onboarding, time and time-off tracking, reporting, payroll, workflow management and performance management, all in the field of human resources; providing temporary use of online non-downloadable workforce scheduling software; software as a service (SaaS) services featuring software for capturing timesheet and project signatures; software as a service (SaaS) services featuring software for creating, editing and publishing job

and shift schedules; software as a service (SaaS) services featuring software for project management, budget management, client management, and team management; software as a service (SaaS) services featuring software for employee monitoring; software as a service (SaaS) services featuring software for resource planning.

Class 09

Computer software and application software, recorded or downloadable, for database management, vehicle fleet information, electronic logging and reporting of regulatory compliance information, vehicle and parts identification and loss valuation, vehicle repair information, damage detection, guided image capturing and image analytics, and tracking information on insurance coverage, claims, and management, all for use in connection with automotive and other motorized vehicles, and transportation and distribution industries; computer software and application software, recorded or downloadable, for customer data management and analysis, sales and pricing data management and analysis, accounting and inventory management, website and digital marketing tools, relating to marketing and advertising in connection with automotive or other motorized vehicles, and transportation and distribution industries; security and safety devices for automotive and other motorized vehicles in the nature of electronic sensors and cameras to detect and prevent security risks; accident prevention devices for automotive and other motorized vehicles in the nature of electronic sensors, GPS tracking devices, and internet of things (IoT) enabled computers used to detect and prevent driving risks.

Class 35

Cost price analysis, namely, cost analysis services in relation to dollar value damage to automobiles; providing trade information regarding the location of used vehicle parts; providing commercial information and advice in the form of informational listings featuring the location and cost of used and recycled vehicle parts, via an online searchable database; provision of business data relating to utilisation measurements of suppliers and consumers, satisfaction measurements of suppliers and consumers, quality measurements of suppliers and consumers and financial measurements of suppliers and consumers in the field of vehicle repair in responding to business data queries for business purposes; collection and analysis of quality metric data for providing utilization, satisfaction, quality and financial measurements of suppliers and consumers in the field of vehicle repair for business purposes; cost containment, business referral, auditing and business organization services in relation to the purchasing, billing and installation of products or rendering of services by others in the automotive and insurance fields; advertising, marketing, direct mail advertising and promotion services for automotive retailers, namely, providing advertising, marketing, direct mail advertising and promotion services during the sale, post-sale, service, maintenance and repurchase of automobiles; providing commercial information regarding the location of available used vehicle parts for purchase; providing commercial information and advice in the form of informational listings featuring the location and cost lists of used and recycled vehicle parts for purchase by others, via an online searchable database; financial record-keeping of electronic payment data; electronic administrative invoice processing to support electronic payment services; insurance claims auditing of vehicle damage insurance claims for others; insurance claims auditing of vehicle damage insurance claims for others; vehicle damage insurance claims auditing services; providing trade information for auto technicians; collection and analysis of quality metric data for business purposes, customer relationship management in the nature of providing

information, and business information services in the nature of providing customer satisfaction information, all pertaining to insurance claims and vendors who complete work pursuant to those claims in the fields of automotive repair via a global network.

Class 36

Insurance underwriting; insurance consultation; insurance claims assessments and processing; providing financial information pertaining to insurance claims and vendors who complete work pursuant to those claims in the fields of automotive repair via a global computer network; financial risk assessment and management services; bill payment services and electronic payment processing services of bill payment data.

Class 37

Providing information for auto technicians about vehicle damage inspection prior to repair, about vehicle repair and vehicle maintenance via an online computer database.

Class 39

Charter and cargo transportation services in the nature of providing cargo transportation, routing and dispatching, and asset tracking information about the status and location of cargo and fleet vehicles transporting cargo for the transportation industry through a global computer network.

Class 42

Software as a service (SaaS) services featuring software for database management, vehicle fleet information, electronic logging and reporting of regulatory compliance information, vehicle and parts identification and loss valuation, vehicle repair information, damage detection, guided image capturing and image analytics, and tracking information on insurance coverage, claims, and management, all for use in connection with automotive vehicles and other motorized vehicles, and transportation

and distribution industries; software as service (SaaS) services featuring software for customer data management and analysis, sales and pricing data management and analysis, accounting and inventory management, website and digital marketing tools, all relating to marketing and advertising in connection with automotive and other motorized vehicles, and transportation and distribution industries.

NANOMETRICS

Goods and/or Services:

Class 07

Lithography machines for the manufacture of microelectronics, integrated circuits, light emitting diodes, and semiconductors on laminar substrates including wafers, glass panels, and packaging panels such as copper plate or plastic; optical metrology, characterization, and inspection systems comprised of a machine and machine components sold as a unit with operating software therefor for use in the production of laminar substrates including discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, application-specific integrated circuits (ASICS) devices, complementary metal oxide semiconductor (CMOS) image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, system in package, heterogeneous packaging, and other advanced packaging electronics technologies; optical metrology, characterization, and inspection systems comprised of machine and machine components sold as a unit with operating software therefor for use in the production of precision machined optical surfaces, optical coatings, and optical assemblies including reference flat,

sphere, asphere and assemblies composed of both refractive and reflective components.

Class 09

Optical metrology, characterization, and inspection systems comprised of optical apparatus, for use in the testing of transmitted wavefront and surface shape of optical components, surface roughness of optics, metals, semiconductors, ceramics, plastics, paints and other finely finished materials, and defects and geometries of parts in aerospace, automotive, power generation, semiconductor, data storage, bearings, additive manufacturing and other precision-machined components; interferometers for use in the testing of transmitted wavefront and surface shape of optical components, surface roughness of optics, metals, semiconductors, ceramics, plastics, paints and other finely finished materials, and defects and geometries of parts in aerospace, automotive, power generation, semiconductor, data storage, bearings, additive manufacturing and other precision-machined components; downloadable software, namely, process control and defect analysis software for use in the production of laminar substrates including discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, application-specific integrated circuits (ASICs) devices, complementary metal oxide semiconductor (CMOS) image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, system in package, heterogeneous packaging, and other advanced packaging electronics technologies; metrology inspection equipment for use in the manufacturing, inspection, testing and repair of semiconductor substrates; metrology inspection equipment and devices, namely, instruments and devices that sense and capture images of semiconductor components, semiconductor wafers, semiconductor die, packaged integrated circuits, printed circuit boards, liquid crystal displays, electronic displays, and disk storage media, and inspect these images for defects, coordinate or position determination, identification, or presence or absence

of a feature, characteristic or substance thereon; metrology inspection systems comprised of one or more light sources, one or more cameras and/or sensors in communication with computer software and hardware used for the measurement of thickness, adhesion properties, and structural properties of semiconductor materials and for monitoring the performance of semiconductor fabrication processes; optical inspection equipment for 2D and 3D inspection of semiconductor materials; metrology instruments, namely, apparatus for measuring physical dimensions of samples and thicknesses of deposited films or for analyzing chemical composition of materials, consisting of optical microscope, electron microscope, spectrophotometer, ellipsometer and scanning slit densitometer technology; software for the semiconductor industry, namely, software for identifying defects in semiconductor structures, software for identifying semiconductor fabrication process excursions, software for recording and reviewing defects in semiconductors structures, software for identifying root causes of defects in semiconductor structures, and software for controlling and monitoring semiconductor fabrication equipment.

Class 42

Providing temporary use of online non-downloadable process control and defect analysis software for use in the production of laminar substrates including discrete electronic components, semiconductors including non-volatile and volatile memory devices, foundry and logic devices, application-specific integrated circuits (ASICs) devices, complementary metal oxide semiconductor (CMOS) image sensors, microelectromechanical systems, light emitting diodes, and other micro and nano technology devices, system in package, heterogenous packaging, and other advanced packaging electronics technologies.
