General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Scientific, surveying, photographic, cinematographic, optical, measuring, weighing, measuring, signalling, checking (supervision) and teaching apparatus and instruments; agitating apparatus (laboratory or scientific); apparatus controlled by computers for analysing samples; apparatus for analysing substances other than for medical use; apparatus for carrying out diagnostic tests other than for medical purposes; apparatus for liquid chromatography (for laboratory use); apparatus for measuring agents; apparatus for measuring temperature (other than for medical purposes); apparatus for measuring the temperature of fluids; dosage dispensers; apparatus for monitoring, other than for medical purposes; apparatus for recording, transmission or reproduction of sound or images; apparatus for sampling in materials processing installations; apparatus for scientific research in laboratories; apparatus for scientific use; Apparatus for storing pre-determined quantities of pharmaceuticals, namely, measuring glassware, laboratory pipettes for chemical reagents and laboratory containers; apparatus for testing the quality of food products; apparatus for the processing of data; apparatus for the transmission of data; apparatus for use in data logging; apparatus for use in laboratories; apparatus for use in laboratory analysis; automatic analysers (other than for medical diagnosis); biological glassware; blood cell analysing and separation apparatus (other than for medical use); bulk liquid metering apparatus; calculating machines; calibration instruments; centrifugal apparatus for laboratory use; chemical analysis apparatus for non-medical purposes; chromatographic apparatus for scientific or laboratory use; computer application software for mobile phones, including in the fields of cryogenics and cryopreservation, logistics tracking, process automation, data-logging, fleet tracking, and cold chain logistics management; computer firmware; computer hardware; computer software for monitoring temperature, humidity and vibration; computer software for use with satellite and/or gps navigation systems; computer software, firmware and hardware for the operation of cryogenics and cryopreservation equipment, apparatus and instruments; computer software, firmware and hardware for the operation of industrial equipment and plant; computer

software, firmware and hardware for the operation of medical and laboratory equipment, apparatus and instruments; computer software, hardware and firmware for cold chain logistics management; computer software, hardware and firmware for freight and forwarding monitoring and planning, transportation warehouse management and transshipment; computer software, hardware and firmware for programming, processing and reading rfid tags; computer software, hardware and firmware for programming, processing, decoding and reading qr codes and bar codes; computer software, hardware and firmware for scanning, tracking, and monitoring the distribution, storage and transportation of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, and cryogenically preserved blood plasma; computer software, including in the fields of cryogenics, cryopreservation, logistics tracking, process automation, data-logging, fleet tracking, and cold chain logistics management; computer terminals; computers and data-processing apparatus; Electronic control apparatus for use in refrigeration, freezing or cryogenics; cryomonitors; cryostats for laboratory use; data processing equipment; data storage apparatus; detection apparatus for chemical substances (other than for medical use); diagnostic apparatus for industrial or scientific use; dosing apparatus for laboratory purposes; downloadable computer programs; electrical and electronic circuit boards; electrical apparatus for controlling machines; electrically operated fluid control devices; electrically operated fluid flow regulators; electronic control apparatus for automatic machines; electronic control apparatus for industrial machines; electronic devices for transmitting data; electronic measuring apparatus and instruments; electronic publications; filtering apparatus (scientific) for fluids; flow gauges; flow measuring apparatus; fluid flow meters; gauges for measuring the liquid content of storage tanks; gauging instruments for liquids; global positioning system (gps) apparatus; global positioning system (gps) tags; heat exchange tubes for laboratory use; heat exchange tubes; heat regulating apparatus; holders for test tubes; humidity sensors; indicators for the optical monitoring of pressure of liquids; industrial control

apparatus (electric); information processing apparatus; information storage apparatus (electric or electronic); information storage devices for use in data processing apparatus; calibration installations for the handling of fluid materials; instructional and other manuals in electronic format sold together with computer hardware, software and firmware as a unit; instruments for measuring levels of fluids; instruments for scientific research in laboratories; instruments for temperature control; lab units for the dispensing, mixing and transfer of liquids (other than for medical use); laboratory apparatus (other than for medical use); laboratory apparatus for metering liquids (other than for medical use); laboratory apparatus for scientific research; laboratory containers (other than for medical use); laboratory data processing apparatus; liquid flow measuring apparatus, devices and instruments; liquid level meters; liquid level monitoring apparatus; machines for monitoring the accuracy of dispensing apparatus; measurement apparatus and devices; mobile communications terminals; monitoring apparatus, other than for medical purposes; monitoring instruments (electric); monitoring units (electric); monitors for recording events; ph probes for measurement in electrochemical apparatus; plastic cards incorporating machine readable codes; plastic tubing adapted for use in laboratory or scientific apparatus; pressure gauges and monitors; pumps for the extraction of liquids, gases or vapours (laboratory apparatus); radio frequency identification readers (rfid readers); radio frequency identification tags (rfid tags); recorded computer programs; reference apparatus for use in test comparisons (laboratory or scientific apparatus); reference apparatus for use in testing (laboratory or scientific apparatus); scientific apparatus and instruments for use in the field of cryogenics (other than for medical use); scientific apparatus and instruments for use in the preservation of plant, animal or biological materials (other than for medical use); scientific apparatus and instruments; scientific apparatus for laboratory use (other than for medical diagnosis); scientific apparatus for industry; sensors (measurement apparatus), other than for medical use; scientific apparatus for use in effecting biochemical reactions (other than for medical use); scientific apparatus for use in

laboratories (other than for medical diagnosis); scientific apparatus for use in the preparation of materials (other than for medical use); scientific apparatus for use in the processing of histological specimens (other than for medical purposes); scientific apparatus for use in the separation of chemical compounds (other than for medical use); temperature control apparatus (electric switches) for machines; temperature control apparatus (thermostats) for machines; temperature control apparatus (thermostats); temperature controllers; temperature controlling apparatus for machines; temperature controlling apparatus; temperature gauges; temperature indicators; temperature measurement apparatus and instruments; temperature sensing apparatus for industrial or scientific use; temperature sensing apparatus for industrial use; temperature sensing apparatus for machines; temperature sensors for industrial use; temperature sensors for scientific use; testing apparatus not for medical purposes; testing probes, other than for medical purposes; thermal controls; tissue sampling apparatus and devices, other than for medical use; vibration detectors; vibration sensors; video surveillance cameras; filter apparatus (scientific) incorporating filter cartridges.

Class 10

Surgical, medical, dental and veterinary apparatus and instruments; analysing apparatus for medical purposes; analysis apparatus for medical use; analytical apparatus for veterinary use; analytical instruments for medical use; apparatus and instruments for use in the field of cryogenics (for medical use); apparatus and instruments for use in the preservation of plant, animal or biological materials (for medical use); apparatus for analysing substances (for medical use); apparatus for medical diagnostic purposes; apparatus for medical use; apparatus for medicinal use; apparatus for use in clinics for the preparation of medicaments; Dental apparatus; apparatus for use in hospitals for the preparation of medicaments; apparatus for use in medical analysis; blood cell analysing apparatus for medical use; chromatographic apparatus and instruments for medical use; devices for medical use in retaining body

secretions; electronic apparatus and instruments for medical purposes; filter cartridges for medical use in the filtration of pharmaceutical liquids; filtering apparatus (medical) for fluids; filters for medical purposes; heat exchange anti-bacterial and anti-viral filters and tubes for medical use; instruments for medical use in the preparation of cells; instruments for medical use in the preparation of liquids containing cells; instruments for medical use in the treatment of samples before analysis; instruments for use in medical analysis; lab units for the dispensing, mixing and transfer of liquids (for medical use); machines for use in biological reactions in laboratories (medical); measuring devices for medical use; medical analysis apparatus and instruments; pumps for medical use in the extraction of liquids; medical apparatus for diagnostic testing of biological samples; Medical diagnostic apparatus; Medical apparatus for use in controlling biochemical reactions; Medical apparatus for use in diagnostic applications; Medical apparatus for use in effecting biochemical reactions; Medical apparatus for use in monitoring biochemical reactions; Medical apparatus for use in recording biochemical reactions; Medical apparatus for use in separating liquids; Medical apparatus for use in testing blood; Medical apparatus for use in the preparation of materials; Electrical and electronic medical apparatus for treatment purposes; sensors (measurement apparatus) for medical use; separating apparatus for medical use; temperature measuring apparatus and instruments for medical use; temperature meters for medical use; temperature monitors for medical use; temperature responsive control apparatus for medical use; temperature sensitive testing apparatus for medical use; temperature sensors for medical use; test equipment for medical use; testing apparatus for diagnostic purposes (medical); testing apparatus for medical diagnostic purposes; testing apparatus for medical purposes; tubing for medical use; filter apparatus (medical) incorporating filter cartridges; parts and accessories for the aforementioned items in this class.

Class 11

Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; air cooling apparatus; air freezing apparatus and installations for agricultural, commercial or industrial use; air freezing apparatus and installations for use in food processing; apparatus and installations for freeze-drying; apparatus and installations for freezing foodstuffs; apparatus and installations for freezing; apparatus and installations for refrigerating; apparatus and installations for the cooling of foodstuffs, medical materials, bioplasma, human cells, stem cells and other human and animal biological products using liquefied gases; apparatus and installations for the cooling of objects using cold gases; apparatus and installations for the cooling of objects using liquefied gases; apparatus and installations for the cooling of plant materials using liquefied gases; Cryogenic apparatus and installations for preservation of foodstuffs and plant materials; Cryogenic apparatus and installations for preservation of medical materials; Cryogenic apparatus and installations for preservation of bioplasma, human cells, stem cells and other human and animal biological products; chilling apparatus, appliances and machines; chilling cabinets; chromatography apparatus for industrial purposes; cold cabinets; cold storage boxes (electric); cold storage rooms; commercial refrigeration units; cooling apparatus and installations for liquids; cooling apparatus, installations and machines for the preservation of foodstuffs, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; cooling apparatus, installations and machines for the preservation of plant materials; cooling apparatus, installations and machines; cooling appliances, installations and machines; cooling elements; cooling installations for deep freezing; cryogenic apparatus, including, cryogenic apparatus for use in the preservation of foodstuffs, medical materials, bioplasma, human cells, stem cells and other human and animal biological products and plant materials; cryostats, other than for laboratory use; deep freezers; deep freezing apparatus and installations; electric coolers; filtering apparatus and installations (industrial) for fluids; water and air filters for industrial installations; freezer storage units; freezing

apparatus and installations; freezing plates; heat exchangers for the removal of condensate; heat exchangers for transferring heat between fluid streams; installations for cooling for scientific or biotechnological purposes; level control valves; liquid coolers (apparatus); liquid coolers (apparatus); liquid level control apparatus (valves); machines for use in processing meat (freezing); machines for use in processing vegetables (freezing); portable cold-boxes (electric); portable refrigerating boxes (electric); refrigerated boxes; refrigerated chambers; refrigerating apparatus, machines and installations; refrigerating machines for use in industrial refrigeration; refrigerators, cooling apparatus and freezers for medical storage purposes; temperature control valves in this class; thawing apparatus utilising heat; parts and accessories for the aforementioned items in this class.

Class 16

Paper and cardboard; printed matter; photographs; stationery and office requisites, except furniture; adhesives for stationery or household purposes; instructional and teaching materials; plastic sheets, films and bags for wrapping and packaging; printed publications; access control cards (other than encoded or magnetic); arithmetical tables; calculating tables; barcode ribbons; biological samples for use in microscopy (teaching materials); adhesive stickers; adhesive tickets; cards for encoding; cards embossed or printed with security features for identification purposes; cards for use as data carriers (other than encoded or magnetic); documents; identification labels of paper or cardboard (other than encoded or magnetic); identification strips (other than encoded or magnetic); labels of paper or cardboard (not magnetic or encoded) for use in marking products for identification, security or verification; optical reader paper; printed bar code labels; printed computer codes; printed labels bearing information in machine readable form; printed labels with machine-readable codes; printed optical data storage labels (bar codes); qr codes (printed).

Class 39

Transport; packaging and storage of goods; travel arrangement; cold store keeping services; delivery of chemicals, including chemicals for use in cryogenics; filling of containers, including with liquids and gases for use in cryogenics; distribution of goods (transportation), including distribution of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; freight brokerage; freighting; frozen food storage services; location and tracking of goods by computer; logistics services (transport, packaging, and storage of goods), including in relation to biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; provision of cryogenic storage facilities; provision of frozen storage facilities; provision of refrigerated storage facilities; refrigerated storage services; refrigerated transport of cold, frozen and/or cryogenically preserved goods; refrigerated transport of frozen and cryopreserved goods; refrigerator rental; Rental of cargo containers, storage containers, and containers for storage purposes including rental of containers for storing cryogenic liquids and/or cryogenically preserved goods; rental of cryopreservation equipment and machines; rental of freezers; rental of refrigerated storage; storage of goods prior to delivery; storage of petro-chemicals; storage services, including in relation to the storage of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; transportation of foodstuffs (other than food delivery services); transportation of freight; transportation of goods, including

cryogenically preserved goods; transportation of medical products; transportation services, including in relation to the transportation of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; warehousing services, including in relation to the warehousing of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; information, advisory and consultancy services in relation to the aforesaid; preparation of reports relating to the storage of goods; preparation of reports relating to transportation; providing information, including through global computer networks, relating to the location, movement, storage, transportation of goods.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and industrial research services; design and development of computer hardware and software; analysis of materials; analysis of tissues for medical research; analytical laboratory services; biochemical engineering services, including in the field of cryogenics; biochemistry services, including in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; biological research, including in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; biotechnological research, including in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal

biological products; biotechnology research; biotechnology testing; chemical laboratory services, including in the field of cryogenics; chemical research, including in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; chemical technological research; cloud computing services, namely, cloud computing services in relation to the operation of cryogenics and cryopreservation equipment, apparatus and instruments; cloud computing services, namely, cloud computing services in relation to the operation of medical and laboratory equipment, apparatus and instruments; cloud computing services, namely, cloud computing services in relation to the operation of industrial equipment and plant; computer software design, development, programming and maintenance, including for computer software in the fields of cryogenics, cryopreservation and cold chain logistics management; computer software design, development, programming and maintenance services in relation to software for the operation of cryogenics and cryopreservation equipment, apparatus and instruments; computer software design, development, programming and maintenance services in relation to software for the operation of industrial equipment and plant; computer software engineering; Computer software design, development, programming and maintenance services in relation to software for the operation of medical and laboratory equipment, apparatus and instruments; conducting clinical trials and feasibility studies, including in the fields of cryogenics and cryopreservation; data storage (other than physical storage); design and development of industrial machinery, including in the fields of cryogenics and cryopreservation; design and development of medical apparatus and instruments, including in the fields of cryogenics and cryopreservation; design and development of storage systems, namely, design of cryogenic and cryopreservation storage systems; design and development of test apparatus and equipment; development of systems for the processing, storage and transmission of data; industrial design and research; laboratory analysis and research; laboratory testing services; medical laboratory services; medical research, including in the fields of

cryogenics and cryopreservation; microbiological testing; quality control of goods; rental of scientific equipment and instruments; research relating to cryogenics and cryopreservation; research relating to molecular sciences; research relating to pharmaceuticals; scientific laboratory services; scientific research relating to biology; scientific research relating to chemical products; scientific research relating to chemistry; scientific research, including in the fields of cryogenics and cryopreservation; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in the fields of cryogenics and cryopreservation, logistics tracking, process automation, data-logging, fleet tracking, and cold chain logistics management; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for monitoring temperature, humidity and vibration; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use with satellite and/or gps navigation systems; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in operating cryogenics and cryopreservation equipment, apparatus and instruments; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in operating industrial equipment and plant; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in operating medical and laboratory equipment, apparatus and instruments; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in cold chain logistics management; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for freight and forwarding monitoring and planning, transportation warehouse management and transshipment; software as a service (saas), platform as a service (paas), and

providing temporary use of online, non-downloadable software for use in programming, processing and reading rfid tags; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in programming, processing, decoding and reading qr codes and bar codes; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in scanning, tracking, and monitoring the distribution, storage and transportation of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, and cryogenically preserved blood plasma; testing of products; toxicity analysis; information, advisory and consultancy services in relation to the aforesaid; preparation of reports relating to chemical, scientific or technical research.

Class 44

Agriculture, horticulture and forestry services; blood bank services; in vitro fertilisation services; hygienic and beauty care for human beings or animals; medical analysis services; medical equipment rental; medical services; rental of agricultural equipment; rental of hospital equipment; rental of medical apparatus and instruments, namely, apparatus and instruments used in the cryogenic preservation of medical materials, bioplasma, human cells, stem cells and other human and animal biological products for medical purposes; rental of medical apparatus and instruments; rental of veterinary apparatus and instruments; services for the testing of blood; veterinary services; information, advisory and consultancy services in relation to the aforesaid; advisory services relating to medical problems; agricultural information, advisory and consultancy services; services for the preparation of medical reports.
