General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

CHAMPIONX

Goods and/or Services:

Class 01

Oil and gas wellhead chemical drilling fluids; industrial chemicals; reservoir fluids, namely, chemicals for use in oil drilling and oil well construction; reservoir chemicals, namely, chemicals for use in oil drilling and oil well construction; chemicals for use in oil drilling; chemicals for use in oil well construction; chemical additives for oil well drilling fluids; chemicals for use with exploring, drilling, and transporting oil and gas; chemicals used in oil and gas production; chemical preparations for use in industry; water treatment chemicals; organic chemicals for treatment of cooling water systems, water boiling systems, water waste systems, chemical waste systems, for preventing scaling, corrosion, and fouling of equipment; chemicals for use in the production of chlorine dioxide; chemicals used in oil and gas well stimulation; chemicals used in oil and gas well fracturing; chemicals for use in enhancing oil recovery from wells; chemicals, namely, polymers, used in oilfield applications; cementing chemicals; chemicals for oil pipeline and midstream oil production applications; chemical additives for hydrocarbon removal and degassing in the refining and petrochemical industries.

Class 04

Lubricants for use with tools, namely, rods, used in downhole applications in the oil and gas industry; drilling lubricants.

Class 07

Artificial lift systems, namely, mechanical and hydraulic lifts and gas powered mechanical and hydraulic lifts used in wellsite automation; artificial lift systems, namely, mechanical and hydraulic lifts with electrical submersible pumps for use in wellsite automation; artificial lift systems, namely, power-operated lifting equipment for lifting rods used in wellsite automation; drill bits for rock drilling; power drill accessories, namely, non-electrical adapters for use in joining extensions and power drill bits; mechanical power drill bits in the nature of polycrystalline diamond cutter

drill bits for drilling machines; polycrystalline diamond compact drill bits for drilling machines; devices made from polycrystalline diamond, namely, cutters, compactors, bearings and valves, being parts of machines and machine tools; pressure transducers as parts of machines; oil-well pumping machines; gas-well pumping machines; high-pressure pumps for use in oil or gas well hydraulic fracturing operations; water-well pumping machines; parts of oil, gas, and water well machines, namely, valve balls and seats, flapper valves, and pollution control stuffing boxes; structural components of artificial lifting power-operated lifting machines for use in oil and gas wells, namely, electric motors and protectors comprised of labyrinth chambers, elastomer bags, and/or metal bellows to secure the electrical submersible pump from the surrounding fluids; snap pilots, namely, pneumatic valve actuators for level controllers; machine parts, namely, bearings and bushings; machine parts for gas-lift and plunger-lift equipment used to lift liquids from hydrocarbon wells, namely, plungers and plunger valves as machine components; weighted sinker bars for oil well pumps; machine parts for oil and gas well pumps, namely, sucker rods and their couplings; machines and machine parts for use in oil and gas well deliquification and production optimization, namely, gas-lift and plunger-lift downhole equipment in the nature of surface lubricators, plungers, bumper springs, standing valves, and gas lift valves for use in oil and gas well operations; machine parts for oil and gas well equipment being machines, namely, pump barrels, sucker rod pump balls and sucker rod pump seats used for sealing pressure, cages, oil and gas well pump anchors which optionally anchor the sucker rod pump in the tubing, polished rods, polished rod clamps for connecting polished rods to the reciprocating oil or gas well machinery at the surface, polished rod liners for sealing pressure around the polished rods and through the stuffing box, polished rod alignment tools, spiral sucker rod guides for centering the rod string in tubing, valve rods for connecting the rod string to the sucker rod oil and gas well pumps, pull tubes for connecting the rod string to the sucker rod oil and gas well pumps, seating cups for sealing static fluid pressure between sucker rod pump and oil and gas reservoir, seating nipples, seat

valves for use as shutoff devices in oil and gas well pipelines, injectable packing stuffing boxes, rotationally operated on and off tools, namely, key and socket mechanisms actuated by rotation, for connecting and disconnecting sucker rods to and from well pumps, which are remotely actuated from the surface when the oil and gas well pumps are pulled for servicing; non-metal rod centralizing guide (machine tool) for use in subterranean oil and gas wells, whereby the guide attaches to a cylindrical rod before the rod is placed within a well bore and prevents the rod from moving sideways or wobbling within the well bore; oil refining machines; oil-well pumping machines; industrial equipment comprising modular units in the nature of machines for controlling and removing toxic gases and toxic vapors.

Class 09

Downloadable and recorded computer software for automation of artificial lift systems, monitoring of artificial lift systems, and control of artificial lift systems for use in the oil and gas industries; network communication devices in the nature of monitoring and predictive diagnostic instrumentation for the oil and gas industries consisting primarily of computer hardware and recorded computer software for monitoring and diagnosing problems with industrial machinery and reciprocating and rotating machinery; electronic apparatus and instruments for controlling production of oil and gas well installations and for controlling, adjusting and testing of oil and gas well equipment of an artificial lift system, namely, electrical submersible pumps, drives and motors; power cables that provide power to motor extension cords for artificial lift systems used in oil and gas wells; liquid level gauges; electric liquid level switches; pressure controllers [gauges] for controlling the pressure of liquid, semi-liquid, and gaseous substances in industrial processes; temperature controllers for controlling the temperature of liquid, semi-liquid, and gaseous substances in industrial processes; electronic controllers for an oil and gas producing well and associated recorded software used therewith for enabling control of the oil and gas producing well; electronic sensors for sensing proximity of oil well plungers;

computer hardware and recorded computer software to send and receive data to monitor and automate single or multi-well oil and gas assets to provide advance alarming, diagnostics, data analysis, performance prediction and control; products for use in oil and gas well deliquification and production optimization, namely, computer hardware, recorded computer firmware, and recorded or downloadable computer software for enabling oil and gas wells to automate operations of artificial lift systems, surface facilities, and peripheral well site devices; scientific and electrical apparatus for use with parts for lifting liquids from hydrocarbon wells, namely, electronic controllers, plunger proximity sensors, and sensors for measuring, signaling and verifying depth, pressure, and other well production parameters, all for plunger lift gas and oil wells; electronic controlling devices for determining valve position; downloadable application software for mobile device platforms for the monitoring and control of remote single or multi-well oil and gas asset; downloadable software for determining a correct size valve based on the fluid flow characteristics of the use environment in which the valve will be used.

Class 35

Business consulting in the field of oil and gas.

Class 37

Maintenance and repair of gas and oil equipment, machinery and automation systems; consultancy relating to the maintenance and repair of oil and gas equipment, machinery, technology and automation systems; oil and gas drilling; pipeline maintenance; installation of apparatus for the production of oil; oil production services, namely, extraction of oil.

Class 40

Custom manufacturing of oil and gas equipment, machinery, automation systems and controllers; oil and gas well treatment to remove liquids and optimize production through downhole nitrogen injection to enhance productivity by managing well

pressure; oil refinery services; processing of natural gas; oil and gas well treatment; production of energy; filtration and purification of natural gas; processing of oil and natural gas; energy production; technical consulting in the field of oil and gas wells treatment; technical consulting in the field of oil and gas production and processing; technical consultation in the field of hydrocarbon treatment for its removal and degassing, for the refining and petrochemical industries; processing of oil.

Class 42

Software development in the field of automation, monitoring and control software for the oil and gas industries; technological services related to equipment, technology, automation systems and controls, in each case, in the oil and gas field, namely, providing technological information related to equipment, automation systems and controls in the oil and gas industries, and engineering services related to equipment, technology, automation systems and controls in the oil and gas field; engineering design services for pressure vessels, modular process, production, and filtration equipment skids; providing a non-downloadable, web-based software for controlling one or more parameters in the design, documentation, storage, or reports related to electrical submersible pump applications or other applications in the upstream oilfield market; well management services, namely, remote monitoring for quality control of electrical submersible pumps (esp) and associated artificial lift system equipment for oil and gas well production optimization; remote monitoring for quality control of single or multi-well oil and gas assets to provide advance alarming, diagnostics, data analysis, performance prediction; scientific chemical analysis of digital oil and gas field data; software as a service (SaaS) featuring software for automating and managing chemical injections into well sites or pipelines; analysis for oil field exploration; oil-field surveys; oil-well testing; analysis for oil research; analysis of oil fields; inspection of oil fields; industrial research relating to the oil and gas industry; technical research relating to the oil and gas industry; chemical research and analysis; laboratory research services relating to the oil and gas industry; research,

development, and consulting services for the oil and gas industry, namely, product research and development and technological consultancy in the field of oil and gas production and processing; performing diagnostic services to detect abnormal operating conditions of equipment, machinery, apparatus, and chemicals in the recovery, production, processing, and refining of oil and gas as part of inspection [testing] of plant and machinery; quality control auditing services for the oil and gas industry, namely, examining recovery, production, processing, and refining practices and making recommendations for improved safety and efficiencies; pipeline inspection services; testing, analysis and evaluation of the goods of others, namely, umbilical systems used for chemical delivery to subsea oil wells, for purposes of certification; software as a service (SaaS) featuring software for use in the oil, gas, and energy industries, namely, for auditing, simulating, assessing, monitoring, managing, and optimizing resources used in the oil and gas industry, such as chemicals, energy, water, and human resources; software as a service (SaaS) featuring software for ensuring business compliance with environmental regulations in the oil and gas industry; software as a service (SaaS) featuring software for auditing, simulating, assessing, managing, and optimizing water supply, water consumption, and water quality in industrial and manufacturing processes in the oil and gas industry; software as a service (SaaS) featuring software that allows users to conduct, monitor, manage, track, and analyze business activities in the oil and gas industry, namely, software for tracking documents, preparing invoices, payment management, order tracking, order fulfillment, and order shipping integration; software as a service (SaaS) featuring software that allows users to conduct, monitor, manage, track, and analyze business activities in the oil and gas industry, namely, software for risk assessment, information security, business analysis, audit and audit planning, and sales management; software as a service (SaaS) featuring software for database management, sales and customer tracking and management, inventory management, order management, and for generating reports all for use in the oil and gas industry; software as a service (SaaS) featuring software for collecting,

aggregating, and analyzing data from various sources such as remote sensors, laboratory results, geographic data, and weather data; software as a service (SaaS) featuring software that allows users to receive reports, alerts, and notifications related to industrial processes; software as a service (SaaS) featuring software for project management; software as a service (SaaS) featuring software for monitoring and managing cooling water systems, boiler systems, waste water treatment systems, and industrial water systems.

Class 09

Connectors [electricity]; electric circuits; electric wires and cables; electric ducts; electric batteries; electrical branch boxes; electronic components; semi-conductors; memory cards, integrated circuits, switches, magnets; electrical transformers; electrical socket covers; electric control panels; electric counters; electrical adapters; electric circuit breakers, temperature control apparatus [electric contactors]; electric switches; inductors [electricity]; armatures [electricity]; rheostats; voltage surge protectors; electric light dimmers; choking coils [impedance]; overload relays; thermostat; current rectifiers; electron ray tubes; electricity distribution cabinets; electricity distribution consoles; electric junction boxes; electric relays; fuses; doorbell buttons and doorbells; luminous beacons; ballasts for electric lighting installations; signaling panels, luminous or mechanical; neon lamps [luminous signs]; flashlights [photography]; optical lamps; darkroom lamps (photography); fluorescent screens; optical lamps; signal lanterns; power supply units; compact disk players; electronic

card readers; electronic door locks; hardware for electronic driving assistance systems; optical fibers [light conducting filaments]; insulated copper wire; coaxial cables; starter cables for motors; sheaths for electric cables; computer hardware; sensors; identification threads for electric wires; magnetic wires; electrical annunciators; pressure indicator plugs for valves; pressure gages; pressure switches [gages]; computers; computer keyboards; computer memory devices; peripherals adapted for use with computers; magnetic recording media; printers; data communication and computer networking equipment; control equipment for production process automation; security alarms; safety helmets; security cameras; life saving and protecting equipment; devices for safety, security, protection and signaling; fire extinguishers; safety gloves for protection against accidents or injury; safety clothing for protection against accidents or injury; lightning conductors; lightning conductors; antennas; electric or electronic apparatus and instruments for security; electric sirens; metal detectors for industrial or military use; smoke detectors; acoustic [sound] alarms; anti-theft warning apparatus; fire alarms; scientific apparatus and instruments; nautical apparatus and instruments; surveying apparatus and instruments; electronic apparatus and instruments; photographic apparatus and instruments; optical apparatus and instruments; weighing apparatus and instruments; measuring apparatus and instruments; signaling apparatus and instruments; checking (supervision) apparatus and instruments; apparatus and instruments for life-saving; teaching apparatus and instruments; electrical apparatus and instruments, namely, apparatus and instruments for conducting electricity distribution; telephones; mobile telephones; sound recording apparatus; apparatus for image recording; image transmission apparatus; sound transmission apparatus; sound reproduction apparatus; image reproduction apparatus; magnetic recording media; sound recording disks; water level indicators; magnetic encoders; microphones; stereo amplifiers; loudspeakers; cabinets for loudspeakers; electro-dynamic apparatus for the remote control of signals; electric or electronic apparatus for monitoring electric power consumption; electric or electronic apparatus for analyzing signals, current

and voltage; electronic apparatus for data processing; signal transmission apparatus; telerrupters; measuring apparatus and instruments; voltmeters; ammeters; circuit testing instruments; temperature indicators; speed indicators; testing apparatus not for medical use; home automation devices; cell and battery charger accessories; solar batteries; cell and battery chargers; battery testers; batteries; rechargeable batteries; galvanic batteries; solar panels; photovoltaic apparatus for converting solar radiation to electrical energy; photovoltaic modules; enterprise resource planning software (ERP); software for cloud computing; artificial intelligence software; big-data management software; machine learning software for analysis; software for building automation; home automation systems; systems for industrial automation; software for industrial automation; automation systems; software for automation; engine diagnostic apparatus; software for computers; computer network servers; software; software applications for mobile telephones; 3-D animation software; computer databases; cloud computing server software.

Class 11

Electric radiators; electric boilers; heat accumulator instruments for heating [solar energy]; heating apparatus; coils (parts of distillation, heating or cooling installations); water heaters; heat regenerators; heat exchanger; heat pumps; heaters for baths; heating plates; solar thermal collectors [heating]; heat accumulators; heat pumps; steam generating apparatus; cooking apparatus; refrigeration apparatus; water distribution apparatus; sanitary installations; in-line water regulating valves for water apparatus [regulating accessories]; evaporators; hot plates; cookers (cooking stoves); freezers; ice machines and apparatus; microwave ovens; sterilizers; filters for drinking water; electric pressure cookers; heaters for feeding bottles; kettles; barbecues; ice-cube machines and apparatus; ovens; electric wine cellars; bread toasters; electric coffee machines; electric coffee percolators; hair dryers; sinks; drying apparatus; ventilation apparatus; air driers; ionization apparatus for air treatment; air purification apparatus and machines; air deodorizing apparatus; air

cooling devices; air-conditioning apparatus; air filters for air conditioning; air reheaters; humidifiers for central heating radiators; ventilation hoods; extractor hoods for kitchens; Chinese lanterns; chandeliers; lighting apparatus; electric lamps; lamps; solar-powered lamps; floor lamps; laboratory lamps; security lights; filaments for electric lamps; arc lamps; lamp glasses; suspended lamps; lamp reflectors; lamp shades; ceiling lights; luminous tubes for lighting; sockets for electric lamps; electric flashlights; flashlights; light diffusers; diving lights; lamps for projection apparatus; lighting apparatus for vehicles; fluorescent lighting tubes; electric light bulbs.

Class 35

Advertising; distribution of prospectuses, of samples; rental of advertising material; demonstration of goods; presentation of goods on all communication media for retailing; organization of fairs, exhibitions, trade fairs and job fairs for commercial or advertising purposes; business advice, information or inquiries, human resources management; commercial and industrial company operational assistance; taxation consultancy (accounting); commercial business expertise; commercial business appraisal, market studies; commercial administration; consulting with respect to advertising and promotional services; business management consulting in the field of executive and manager development; business information; commercial information and advice for consumers relating to choice of goods and services; providing commercial advice in the field of software; sales promotion for third parties; business consultancy services relating to tracking and monitoring energy consumption for others; tracking and monitoring of energy consumption for others for auditing purposes; assistance and advisory services in the field of commercial management of companies in the energy sector; compilation of information into computer databases; computerized file management services; web site traffic optimization; data management services; analysis of market research data and statistics; commercial data analysis; computer file management; systemization of information in a database; updating and maintenance of data in computer databases; preparation

of business statistics; wholesale and retail of apparatus and instruments for conducting, distributing, connecting, transforming, accumulating, regulating, measuring, monitoring or controlling electrical current, including electric cables and conduits; wholesale and retail services for apparatus and products for lighting, heating, air conditioning, air cooling and electric household appliances; wholesale and retail services for tools and instruments for cutting, cutting out, drilling, measuring, clamping, crimping, unwinding, stripping and drawing wires, sheaths and cables, soldering, filing, bricklaying, manually or electrically operated; wholesale and retail services for screw, nut and bolt products and products for mechanical or chemical fixing; wholesale and retail services for flexible pipes, insulating or insulator products and materials; wholesale and retail services for apparatus and instruments for the monitoring and security of persons, property, access and sites; wholesale and retail services for apparatus and installations for the remote control of electrical apparatus, lighting apparatus, heating or air-conditioning apparatus and installations, apparatus and installations for home automation, building automation and for the remote control of industrial automation processes; wholesale and retail services for apparatus for recording, transmitting, reproducing sound, images or data including apparatus and instruments for communication; wholesale and retail services for computer hardware including computer peripherals, cables and connector plugs for computer hardware and installations; wholesale services for computer software; retail sale services in the field of computer software; procurement of contracts for energy supply; tracking and monitoring energy consumption for others for account auditing purposes; data search in computer files for others.

Class 37

Installation of construction automation equipment; building maintenance, cleaning of commercial premises; laundering services; installation, maintenance and repair of lighting apparatus; repair of lighting apparatus; installation and repair of heating apparatus; installation and repair of air-conditioning apparatus; installation and repair

of air-cooling apparatus; installation and repair of electric apparatus; installation, maintenance and repair of computer network and information technology equipment; installation of residential solar panel energy systems; installation of industrial and commercial solar panel energy systems; installation and maintenance of photovoltaic installations; installation, servicing, maintenance, troubleshooting, repair and commissioning services for energy, heating, heat storage or recovery, ventilation, water supply, climatic control and air conditioning installations; installation, maintenance and repair of transport pipelines, energy supply or storage; installation, commissioning, maintenance and servicing of protection equipment for property and individuals, particularly fire protection systems; information, supervision and advice relating to the construction and supervision of the construction and repair of homes, buildings or industrial and tertiary equipment for improving and managing power consumption; advisory services relating to the maintenance and repair of mechanical and electrical equipment; advice with respect to civil engineering [construction]; construction of public works; rental of construction tools; rental of cranes [construction machinery]; provision of information relating to the construction, repair and maintenance of buildings.

Class 39

Information in the field of transport; transport services; transport of merchandise; vehicle rental; rental of machines and apparatus for loading and unloading; packaging and storage of goods; storage services; freight and loading services; rental of containers; rental of storage units; rental of apparatus and machines for wrapping or packaging; distribution [delivery] of goods.

Class 41

Entertainment services; radio entertainment; entertainment by television; education services; teaching and training in the field of business, industry and information technologies; organization and conducting of colloquiums, conferences and

congresses; organization of shows; organization and conducting of seminars; organization and conducting of educational fairs; conducting and organizing of entertainment events; editing of books and magazines.

Class 42

Technical advisory, consulting and research services in the field of equipment and installations for conducting, distributing, transforming, accumulating, regulating, measuring or controlling electricity; technical research, advice and consultancy in the field of apparatus, equipment and installations for lighting, ventilating, heating or air cooling; technical advisory, consulting and research services in the field of home automation, building automation and industrial process controls; technological advice, consultancy and research in the field of security and remote monitoring of persons and goods, industrial installations or service activities and private residences statistics; technical advice and technical studies for assessing technical performance, for the analysis of accounting and possibilities for integrating electrical equipment into complex electrical installations; technical advice in the choice of electrical and industrial equipment likely to meet technical requirements specified in technical specifications; quality control; technical design and expertise in the fields of electric, wind, solar, hydraulic, geothermal, thermal, climatic, renewable energy production; advice relating to product development; advice relating to technological research; technical consultancy in the field of environmental engineering; technical consultant services in the field of pollution detection; technical advice with respect to information technology; Information technology security consultancy; consulting services relating to man-machine interfaces for software; consulting services relating to computing programming; consultancy services with respect to computer database programs; advice services with respect to energy consumption; advice with respect to energy saving; technical information and advice regarding energy, control of energy; evaluation of environmental risks; technical project studies in the field of computer hardware and software; testing of materials; research in the field of environmental

protection; technological research; analysis and testing services with respect to electrical engineering apparatus; engineering services; research in the field of artificial intelligence technology; industrial technical analysis and research relating to home automation and smart networks; energy auditing; technical design of new products and services in the field of electrical equipment and installations, and in the field of tools; technical design and technical project management for the development of lighting equipment; design and development of photovoltaic systems; design, development and programming of software; design of diagnostic apparatus and equipment; graphic arts design services; project management in the field of information technology; management of computer projects; engineering project management services; computer project management in the field of electronic data processing [EDP]; engineering services as well as technical analysis, research and expert appraisal services in the field of energy; provision of virtual computer systems through cloud computing; cloud computing services; artificial intelligence advice; remote monitoring of computer systems; development of computer hardware; data mining; hosting of servers; electronic data storage; digitization [scanning] of sounds and images; computer system analysis; computer rental; integration of computer systems and networks; software rental; computer server management; information technology services provided in the context of rental of access time to a database server center; technical advisory services in the information technology sector; installation, programming and maintenance of software for home automation systems, as well as for programmable automations for energy performance, consumption control or management of smart networks; configuration of computer systems and networks for the installation, programming and maintenance of home automation systems; monitoring services relating to remote management for storage facilities and distribution networks for gas, heat, or electricity via a computer network.

Goods and/or Services:

Class 09

Scientific apparatus and instruments for use in science, research and industry; scientific apparatus kits, analytical instruments and computer software for use in testing not for medical and veterinary purposes; scientific apparatus and instruments (other than medical), optical, weighing, measuring, signaling, checking (supervision), and teaching apparatus and instruments; magnetic recording media; data processing apparatus; computer programs; software; computer programs and software for research and analysis in the fields of science, biology, biotechnology, biochemistry, genomics, proteomics, transcriptomics, genetics, life sciences, cloning, human health, cloning diagnostics or agri-food; computer software for data processing and algorithms (software) designed for the processing of biological data; computer programs designed for the scientific analysis of genetic sequences, biological platelets for use in scientific research; computer programs designed to identify DNA, detect diseases, analyze data in the agri-food field, test and develop drugs; testing apparatus not for medical use; apparatus for testing air, water, food; chemistry apparatus and instruments; diagnostic apparatus not for medical use; quantity indicators; measuring instruments; DNA chips.

Class 10

Medical and veterinary apparatus and instruments; diagnostic test kits for use in testing for medical and veterinary purposes.

Class 38

Provision of access to databases; providing access to on-line computer databases; rental of access time to databases; providing access to computer databases containing information based on human genome sequencer results; providing access to electronic libraries of biological markers; providing access to a computing platform; providing access to bioinformatics software programs.

Class 42

Evaluations, analysis, scientific research and technological services in the field of

pharmacy, biology, agri-food, chemistry, biotechnology, biochemistry, genomics, bacteriology, transcriptomics, genetics and life sciences; biomedical research, and biological, medical and veterinary product development, gene expression and protein profiling; genotyping and scientific services for genotyping based on biological markers; design and development of databases (programming) in the field of pharmaceuticals, biology, agri-food, biotechnology, biochemistry, genomics, transcriptomics, genetics and life sciences; gene sequencing services with a view to research relating to genome sequencing of plants and animals, micro-organisms, sequencing of DNA or RNA and epigenetic sequencing; development and updating of computer programs designed for scientific analysis of genetic sequences, genetic sequencing of the genes of individuals and cohorts; data storage and computer programming services for publishing data in a computer science environment designed for bioinformatics; development and updating of data management systems; scientific development and validation of micro-satellite and mini-satellite markers; scientific services in the field of genomics for use in laboratories working on all kinds genomes (human animal, micro-organisms); research, mutation detection and identification of microorganisms; genotyping; development and testing of computer databases, software, algorithms and computing methods for generating and analyzing biological, genetic and epidemiological data; research and development services in the field of diagnostic methods, in the field of antibody technology, in the field of gene expression systems; scientific research and development services; medical laboratory services, scientific research, testing and analysis.

Goods and/or Services:

Class 01

Stem cells other than for medical or veterinary use; chemical products for analyses in laboratories other than for medical or veterinary use; protein [raw material].

Class 05

Chemical reagents and enzymes for medical use, namely, for use in synthesizing polynucleotides, namely, for amplifying, assembling, modifying genetic fragments, genotyping, gene modification, and analysis of biological systems, samples and cells, in clinical, medical and biological facilities and laboratories using or storing nucleic acid molecules; stem cells for medical use; stem cells for veterinary use.

Class 09

Laboratory apparatus and instruments and apparatus and instruments for scientific use for polynucleotide synthesis, namely, DNA and RNA, as well as parts and accessories of such apparatus and instruments, namely, bottles, flasks, cartridges, vials, reaction plates, reaction tubes, as well as related computer hardware and software for use in the use and interfacing with apparatus and instruments for synthesizing polynucleotides; laboratory apparatus and instruments and apparatus and instruments for scientific use using or storing nucleic acid molecules, particularly for amplification, assembly or modification of genetic fragments, genotyping, gene modification and analysis of biological cells, samples or systems; DNA chips; apparatus for scientific use for preservation, storage or processing of DNA chips containing information; computer hardware and computer software for use in apparatus and instruments for synthesizing polynucleotides; computer hardware and computer software for polynucleotide synthesis, namely, DNA and RNA; computer

hardware and computer software for use in amplifying, assembling or modifying genetic fragments, genotyping, gene modification and analysis of biological cells, samples or systems; computer hardware and computer software for use in preserving, storing or processing DNA chips containing information; biochips; DNA chips.

Class 10

DNA and RNA testing apparatus for medical use; testing apparatus for medical use; diagnostic apparatus for medical use; analysis devices for identification of bacteria for medical use.

Class 42

Technical evaluations concerning design (engineers' services); scientific research; technical research; biological research; chemical research; medical research; chemical analysis; chemistry services; scientific laboratory services; designing and testing synthetic DNA for scientific research purposes; scientific research services in the field of polynucleotide synthesis of DNA and RNA; design of computers for third parties; computer development; software design; software development; research and development of new products for third parties; conducting of technical project studies; software development (design); software installation; software maintenance; updating of software; software rental; programming for computers; computer system analysis; computer system design; consultant services with respect to computer hardware design and development; digitization of documents; Software as a Service (SaaS); cloud computing; advice regarding information technology; hosting of servers; graphic arts design services; styling (industrial design); authentication of works of art; energy auditing; electronic data storage.

Class 44

Scientific, surveying, photographic, cinematographic, optical, measuring, weighing, measuring, signalling, checking (supervision) and teaching apparatus and instruments; agitating apparatus (laboratory or scientific); apparatus controlled by computers for analysing samples; apparatus for analysing substances other than for medical use; apparatus for carrying out diagnostic tests other than for medical purposes; apparatus for liquid chromatography (for laboratory use); apparatus for measuring agents; apparatus for measuring temperature (other than for medical purposes); apparatus for measuring the temperature of fluids; dosage dispensers; apparatus for monitoring, other than for medical purposes; apparatus for recording, transmission or reproduction of sound or images; apparatus for sampling in materials processing installations; apparatus for scientific research in laboratories; apparatus for scientific use; apparatus for storing pre-determined quantities of pharmaceuticals, namely, measuring glassware, laboratory pipettes for chemical reagents and laboratory containers; apparatus for testing the quality of food products; apparatus

for the processing of data; apparatus for the transmission of data; apparatus for use in data logging; apparatus for use in laboratories; apparatus for use in laboratory analysis; automatic analysers (other than for medical diagnosis); biological glassware; blood cell analysing and separation apparatus (other than for medical use); bulk liquid metering apparatus; calculating machines; calibration instruments; centrifugal apparatus for laboratory use; chemical analysis apparatus for non-medical purposes; chromatographic apparatus for scientific or laboratory use; computer application software for mobile phones, including in the fields of cryogenics and cryopreservation, logistics tracking, process automation, data-logging, fleet tracking, and cold chain logistics management; computer firmware; computer hardware; computer software for monitoring temperature, humidity and vibration; computer software for use with satellite and/or gps navigation systems; computer software, firmware and hardware for the operation of cryogenics and cryopreservation equipment, apparatus and instruments; computer software, firmware and hardware for the operation of industrial equipment and plant; computer software, firmware and hardware for the operation of medical and laboratory equipment, apparatus and instruments; computer software, hardware and firmware for cold chain logistics management; computer software, hardware and firmware for freight and forwarding monitoring and planning, transportation warehouse management and transshipment; computer software, hardware and firmware for programming, processing and reading rfid tags; computer software, hardware and firmware for programming, processing, decoding and reading qr codes and bar codes; computer software, hardware and firmware for scanning, tracking, and monitoring the distribution, storage and transportation of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, and cryogenically preserved blood plasma; computer software, including software in the fields of cryogenics, cryopreservation, logistics tracking, process automation, data-logging, fleet tracking, and cold chain logistics management; computer terminals; computers and data-processing

apparatus; electronic control apparatus for use in refrigeration, freezing or cryogenics; cryomonitors; cryostats for laboratory use; data processing equipment; data storage apparatus; detection apparatus for chemical substances (other than for medical use); diagnostic apparatus for industrial or scientific use; dosing apparatus for laboratory purposes; downloadable computer programs; electrical and electronic circuit boards; electrical apparatus for controlling machines; electrically operated fluid control devices; electrically operated fluid flow regulators; electronic control apparatus for automatic machines; electronic control apparatus for industrial machines; electronic devices for transmitting data; electronic measuring apparatus and instruments; electronic publications; filtering apparatus (scientific) for fluids; flow gauges; flow measuring apparatus; fluid flow meters; gauges for measuring the liquid content of storage tanks; gauging instruments for liquids; global positioning system (gps) apparatus; global positioning system (gps) tags; heat exchange tubes for laboratory use; heat exchange tubes; heat regulating apparatus; holders for test tubes; humidity sensors; indicators for the optical monitoring of pressure of liquids; industrial control apparatus (electric); information processing apparatus; information storage apparatus (electric or electronic); information storage devices for use in data processing apparatus; calibration installations for the handling of fluid materials; instructional and other manuals in electronic format sold together with computer hardware, software and firmware as a unit; instruments for measuring levels of fluids; instruments for scientific research in laboratories; instruments for temperature control; lab units for the dispensing, mixing and transfer of liquids (other than for medical use); laboratory apparatus (other than for medical use); laboratory apparatus for metering liquids (other than for medical use); laboratory apparatus for scientific research; laboratory containers (other than for medical use); laboratory data processing apparatus; liquid flow measuring apparatus, devices and instruments; liquid level meters; liquid level monitoring apparatus; machines for monitoring the accuracy of dispensing apparatus; measurement apparatus and devices; mobile communications terminals; monitoring apparatus, other than for medical purposes;

monitoring instruments (electric); monitoring units (electric); monitors for recording events; ph probes for measurement in electrochemical apparatus; plastic cards incorporating machine readable codes; plastic tubing adapted for use in laboratory or scientific apparatus; pressure gauges and monitors; pumps for the extraction of liquids, gases or vapours (laboratory apparatus); radio frequency identification readers (rfid readers); radio frequency identification tags (rfid tags); recorded computer programs; reference apparatus for use in test comparisons (laboratory or scientific apparatus); reference apparatus for use in testing (laboratory or scientific apparatus); scientific apparatus and instruments for use in the field of cryogenics (other than for medical use); scientific apparatus and instruments for use in the preservation of plant, animal or biological materials (other than for medical use); scientific apparatus and instruments; scientific apparatus for laboratory use (other than for medical diagnosis); scientific apparatus for industry; sensors (measurement apparatus), other than for medical use; scientific apparatus for use in effecting biochemical reactions (other than for medical use); scientific apparatus for use in laboratories (other than for medical diagnosis); scientific apparatus for use in the preparation of materials (other than for medical use); scientific apparatus for use in the processing of histological specimens (other than for medical purposes); scientific apparatus for use in the separation of chemical compounds (other than for medical use); temperature control apparatus (electric switches) for machines; temperature control apparatus (thermostats) for machines; temperature control apparatus (thermostats); temperature controllers; temperature controlling apparatus for machines; temperature controlling apparatus; temperature gauges; temperature indicators; temperature measurement apparatus and instruments; temperature sensing apparatus for industrial or scientific use; temperature sensing apparatus for industrial use; temperature sensing apparatus for machines; temperature sensors for industrial use; temperature sensors for scientific use; testing apparatus not for medical purposes; testing probes, other than for medical purposes; thermal controls; tissue sampling apparatus and devices, other than for medical use; vibration

detectors; vibration sensors; video surveillance cameras; filter apparatus (scientific) incorporating filter cartridges.

Class 10

Surgical, medical, dental and veterinary apparatus and instruments; analysing apparatus for medical purposes; analysis apparatus for medical use; analytical apparatus for veterinary use; analytical instruments for medical use; apparatus and instruments for use in the field of cryogenics (for medical use); apparatus and instruments for use in the preservation of plant, animal or biological materials (for medical use); apparatus for analysing substances (for medical use); apparatus for medical diagnostic purposes; apparatus for medical use; apparatus for medicinal use; apparatus for use in clinics for the preparation of medicaments; dental apparatus; apparatus for use in hospitals for the preparation of medicaments; apparatus for use in medical analysis; blood cell analysing apparatus for medical use; chromatographic apparatus and instruments for medical use; devices for medical use in retaining body secretions; electronic apparatus and instruments for medical purposes; filter cartridges for medical use in the filtration of pharmaceutical liquids; filtering apparatus (medical) for fluids; filters for medical purposes; heat exchange anti-bacterial and anti-viral filters and tubes for medical use; instruments for medical use in the preparation of cells; instruments for medical use in the preparation of liquids containing cells; instruments for medical use in the treatment of samples before analysis; instruments for use in medical analysis; lab units for the dispensing, mixing and transfer of liquids (for medical use); machines for use in biological reactions for medical purposes; measuring devices for medical use; medical analysis apparatus and instruments; pumps for medical use in the extraction of liquids; medical apparatus for diagnostic testing of biological samples; medical diagnostic apparatus; medical apparatus for use in controlling biochemical reactions; medical apparatus for use in diagnostic applications; medical apparatus for use in effecting biochemical reactions; medical apparatus for use in monitoring biochemical reactions; medical

apparatus for use in recording biochemical reactions; medical apparatus for use in separating liquids; medical apparatus for use in testing blood; medical apparatus for use in the preparation of materials; electrical and electronic medical apparatus for treatment purposes; sensors (measurement apparatus) for medical use; separating apparatus for medical use; temperature measuring apparatus and instruments for medical use; temperature meters for medical use; temperature monitors for medical use; temperature responsive control apparatus for medical use; temperature sensitive testing apparatus for medical use; temperature sensors for medical use; test equipment for medical use; testing apparatus for diagnostic purposes (medical); testing apparatus for medical diagnostic purposes; testing apparatus for medical purposes; tubing for medical use; filter apparatus (medical) incorporating filter cartridges; parts and accessories for the aforementioned items in this class.

Class 11

Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; air cooling apparatus; air freezing apparatus and installations for agricultural, commercial or industrial use; air freezing apparatus and installations for use in food processing; apparatus and installations for freeze-drying; apparatus and installations for freezing foodstuffs; apparatus and installations for freezing; apparatus and installations for refrigerating; apparatus and installations for the cooling of foodstuffs, medical materials, bioplasma, human cells, stem cells and other human and animal biological products using liquefied gases; apparatus and installations for the cooling of objects using cold gases; apparatus and installations for the cooling of objects using liquefied gases; apparatus and installations for the cooling of plant materials using liquefied gases; cryogenic apparatus and installations for preservation of foodstuffs and plant materials; cryogenic apparatus and installations for preservation of medical materials; cryogenic apparatus and installations for preservation of bioplasma, human cells, stem cells and other human and animal biological products; chilling apparatus,

appliances and machines; chilling cabinets; chromatography apparatus for industrial purposes; cold cabinets; cold storage boxes (electric); cold storage rooms; commercial refrigeration units; cooling apparatus and installations for liquids; cooling apparatus, installations and machines for the preservation of foodstuffs, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; cooling apparatus, installations and machines for the preservation of plant materials; cooling apparatus, installations and machines; cooling appliances, installations and machines; cooling elements; cooling installations for deep freezing; cryogenic apparatus, including, cryogenic apparatus for use in the preservation of foodstuffs, medical materials, bioplasma, human cells, stem cells and other human and animal biological products and plant materials; cryostats, other than for laboratory use; deep freezers; deep freezing apparatus and installations; electric coolers; filtering apparatus and installations (industrial) for fluids; water and air filters for industrial installations; freezer storage units; freezing apparatus and installations; freezing plates; heat exchangers for the removal of condensate; heat exchangers for transferring heat between fluid streams; installations for cooling for scientific purposes; installations for cooling for biotechnological purposes; level control valves; liquid coolers (apparatus); liquid level control apparatus (valves); machines for use in processing meat (freezing); machines for use in processing vegetables (freezing); portable cold-boxes (electric); portable refrigerating boxes (electric); refrigerated boxes; refrigerated chambers; refrigerating apparatus, machines and installations; refrigerating machines for use in industrial refrigeration; refrigerators, cooling apparatus and freezers for medical storage purposes; temperature control valves (parts of cooling installations) in this class; thawing apparatus utilising heat; parts and accessories for the aforementioned items in this class.

Class 16

Paper and cardboard; printed matter; photographs; stationery and office requisites, except furniture; adhesives for stationery or household purposes; instructional and

teaching materials; plastic sheets, films and bags for wrapping and packaging; printed publications; access control cards (other than encoded or magnetic); arithmetical tables; calculating tables; barcode ribbons; biological samples for use in microscopy (teaching materials); adhesive stickers; adhesive tickets; cards embossed or printed with security features for identification purposes; cards for use as data carriers (other than encoded or magnetic); documents; identification labels of paper or cardboard (other than encoded or magnetic); identification strips (other than encoded or magnetic); labels of paper or cardboard (not magnetic or encoded) for use in marking products for identification, security or verification; optical reader paper; printed computer codes; cards, other than encoded or magnetic, to be used for encoding.

Class 39

Transport; packaging and storage of goods; travel arrangement; cold store keeping services; delivery of chemicals, including chemicals for use in cryogenics; filling of containers, including with liquids and gases for use in cryogenics; distribution of goods (transportation), including distribution of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; freight brokerage; freighting; frozen food storage services; location and tracking of goods by computer; logistic services consisting of the transport, packaging, and storage of goods, including biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; provision of cryogenic storage facilities; provision of frozen storage facilities; provision of refrigerated storage facilities; refrigerated storage services; refrigerated transport of

cold, frozen and/or cryogenically preserved goods; refrigerated transport of frozen and cryopreserved goods; refrigerator rental; rental of containers, cargo containers and storage containers, including rental of containers for storing cryogenic liquids and/or cryogenically preserved goods; rental of freezers; rental of refrigerated storage; storage of goods prior to delivery; storage of petro-chemicals; storage services, including the storage of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; transportation of foodstuffs (other than food delivery services); transportation of freight; transportation of goods, including cryogenically preserved goods; transportation of medical products; transportation services, including the transportation of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; warehousing services, including the warehousing of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; information, advisory and consultancy services in relation to the aforesaid; preparation of reports relating to the storage of goods; preparation of reports relating to transportation; providing information, including through global computer networks, relating to the location, movement, storage, transportation of goods.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and industrial research services; design and development of

computer hardware and software; analysis of materials; analysis of tissues for medical research; analytical laboratory services; biochemical engineering services, including biochemical engineering services in the field of cryogenics; biochemistry services, including biochemistry services in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; biological research, including biological research in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; biotechnological research, including biotechnological research in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; biotechnology research; biotechnology testing; chemical laboratory services, including chemical laboratory services in the field of cryogenics; chemical research, including chemical research in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; chemical technological research; cloud computing services, namely, cloud computing services in relation to the operation of cryogenics and cryopreservation equipment, apparatus and instruments; cloud computing services, namely, cloud computing services in relation to the operation of medical and laboratory equipment, apparatus and instruments; cloud computing services, namely, cloud computing services in relation to the operation of industrial equipment and plant; computer software design, development, programming and maintenance, including for computer software in the fields of cryogenics, cryopreservation and cold chain logistics management; computer software design, development, programming and maintenance services in relation to software for the operation of cryogenics and cryopreservation equipment, apparatus and instruments; computer software design, development, programming and maintenance services in relation to software for the operation of industrial equipment and plant; computer software engineering;

computer software design, development, programming and maintenance services in relation to software for the operation of medical and laboratory equipment, apparatus and instruments; conducting clinical trials and feasibility studies, including clinical trials and feasibility studies in the fields of cryogenics and cryopreservation; data storage (other than physical storage); design and development of industrial machinery, including design and development of industrial machinery in the fields of cryogenics and cryopreservation; design and development of medical apparatus and instruments, including design and development of medical apparatus and instruments in the fields of cryogenics and cryopreservation; design and development of storage systems, namely, design of cryogenic and cryopreservation storage systems; design and development of test apparatus and equipment; development of systems for the processing, storage and transmission of data; industrial design and research; laboratory analysis and research; laboratory testing services; medical laboratory services; medical research, including medical research in the fields of cryogenics and cryopreservation; microbiological testing; quality control of goods; rental of scientific equipment and instruments; research relating to cryogenics and cryopreservation; research relating to molecular sciences; research relating to pharmaceuticals; scientific laboratory services; scientific research relating to biology; scientific research relating to chemical products; scientific research relating to chemistry; scientific research, including scientific research in the fields of cryogenics and cryopreservation; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in the fields of cryogenics and cryopreservation, logistics tracking, process automation, data-logging, fleet tracking, and cold chain logistics management; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for monitoring temperature, humidity and vibration; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-

downloadable software for use with satellite and/or gps navigation systems; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in operating cryogenics and cryopreservation equipment, apparatus and instruments; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in operating industrial equipment and plant; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in operating medical and laboratory equipment, apparatus and instruments; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in cold chain logistics management; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for freight and freight forwarding monitoring and planning, transportation, warehouse management and transshipment; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in programming, processing and reading rfid tags; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in programming, processing, decoding and reading qr codes and bar codes; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in scanning, tracking, and monitoring the distribution, storage and transportation of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, and cryogenically preserved blood plasma; testing of products; toxicity analysis; information, advisory and consultancy services in relation to the aforesaid; preparation of reports relating to chemical, scientific or technical research.

Class 44

Agriculture, horticulture and forestry services; blood bank services; in vitro

fertilisation services; hygienic and beauty care for human beings or animals; medical analysis services; medical equipment rental; medical services; rental of agricultural equipment; rental of hospital equipment; rental of medical apparatus and instruments, namely, apparatus and instruments used in the cryogenic preservation of medical materials, bioplasma, human cells, stem cells and other human and animal biological products for medical purposes; rental of medical apparatus and instruments; rental of veterinary apparatus and instruments; services for the testing of blood for medical purposes; veterinary services; information, advisory and consultancy services in relation to the aforesaid; advisory services relating to medical problems; agricultural information, advisory and consultancy services; services for the preparation of medical reports.

Class 09

Scientific, surveying, photographic, cinematographic, optical, measuring, weighing, measuring, signalling, checking (supervision) and teaching apparatus and instruments; agitating apparatus (laboratory or scientific); apparatus controlled by computers for analysing samples; apparatus for analysing substances other than for medical use; apparatus for carrying out diagnostic tests other than for medical purposes; apparatus for liquid chromatography (for laboratory use); apparatus for measuring agents; apparatus for measuring temperature (other than for medical purposes); apparatus for measuring the temperature of fluids; dosage dispensers; apparatus for monitoring, other than for medical purposes; apparatus for recording, transmission or reproduction of sound or images; apparatus for sampling in materials

processing installations; apparatus for scientific research in laboratories; apparatus for scientific use; apparatus for storing pre-determined quantities of pharmaceuticals, namely, measuring glassware, laboratory pipettes for chemical reagents and laboratory containers; apparatus for testing the quality of food products; apparatus for the processing of data; apparatus for the transmission of data; apparatus for use in data logging; apparatus for use in laboratories; apparatus for use in laboratory analysis; automatic analysers (other than for medical diagnosis); biological glassware; blood cell analysing and separation apparatus (other than for medical use); bulk liquid metering apparatus; calculating machines; calibration instruments; centrifugal apparatus for laboratory use; chemical analysis apparatus for non-medical purposes; chromatographic apparatus for scientific or laboratory use; computer application software for mobile phones, including in the fields of cryogenics and cryopreservation, logistics tracking, process automation, data-logging, fleet tracking, and cold chain logistics management; computer firmware; computer hardware; computer software for monitoring temperature, humidity and vibration; computer software for use with satellite and/or gps navigation systems; computer software, firmware and hardware for the operation of cryogenics and cryopreservation equipment, apparatus and instruments; computer software, firmware and hardware for the operation of industrial equipment and plant; computer software, firmware and hardware for the operation of medical and laboratory equipment, apparatus and instruments; computer software, hardware and firmware for cold chain logistics management; computer software, hardware and firmware for freight and forwarding monitoring and planning, transportation warehouse management and transshipment; computer software, hardware and firmware for programming, processing and reading rfid tags; computer software, hardware and firmware for programming, processing, decoding and reading qr codes and bar codes; computer software, hardware and firmware for scanning, tracking, and monitoring the distribution, storage and transportation of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved

cells and plant and animal material, and cryogenically preserved blood plasma; computer software, including software in the fields of cryogenics, cryopreservation, logistics tracking, process automation, data-logging, fleet tracking, and cold chain logistics management; computer terminals; computers and data-processing apparatus; electronic control apparatus for use in refrigeration, freezing or cryogenics; cryomonitors; cryostats for laboratory use; data processing equipment; data storage apparatus; detection apparatus for chemical substances (other than for medical use); diagnostic apparatus for industrial or scientific use; dosing apparatus for laboratory purposes; downloadable computer programs; electrical and electronic circuit boards; electrical apparatus for controlling machines; electrically operated fluid control devices; electrically operated fluid flow regulators; electronic control apparatus for automatic machines; electronic control apparatus for industrial machines; electronic devices for transmitting data; electronic measuring apparatus and instruments; electronic publications; filtering apparatus (scientific) for fluids; flow gauges; flow measuring apparatus; fluid flow meters; gauges for measuring the liquid content of storage tanks; gauging instruments for liquids; global positioning system (gps) apparatus; global positioning system (gps) tags; heat exchange tubes for laboratory use; heat exchange tubes; heat regulating apparatus; holders for test tubes; humidity sensors; indicators for the optical monitoring of pressure of liquids; industrial control apparatus (electric); information processing apparatus; information storage apparatus (electric or electronic); information storage devices for use in data processing apparatus; calibration installations for the handling of fluid materials; instructional and other manuals in electronic format sold together with computer hardware, software and firmware as a unit; instruments for measuring levels of fluids; instruments for scientific research in laboratories; instruments for temperature control; lab units for the dispensing, mixing and transfer of liquids (other than for medical use); laboratory apparatus (other than for medical use); laboratory apparatus for metering liquids (other than for medical use); laboratory apparatus for scientific research; laboratory containers (other than for medical use); laboratory data

processing apparatus; liquid flow measuring apparatus, devices and instruments; liquid level meters; liquid level monitoring apparatus; machines for monitoring the accuracy of dispensing apparatus; measurement apparatus and devices; mobile communications terminals; monitoring apparatus, other than for medical purposes; monitoring instruments (electric); monitoring units (electric); monitors for recording events; ph probes for measurement in electrochemical apparatus; plastic cards incorporating machine readable codes; plastic tubing adapted for use in laboratory or scientific apparatus; pressure gauges and monitors; pumps for the extraction of liquids, gases or vapours (laboratory apparatus); radio frequency identification readers (rfid readers); radio frequency identification tags (rfid tags); recorded computer programs; reference apparatus for use in test comparisons (laboratory or scientific apparatus); reference apparatus for use in testing (laboratory or scientific apparatus); scientific apparatus and instruments for use in the field of cryogenics (other than for medical use); scientific apparatus and instruments for use in the preservation of plant, animal or biological materials (other than for medical use); scientific apparatus and instruments; scientific apparatus for laboratory use (other than for medical diagnosis); scientific apparatus for industry; sensors (measurement apparatus), other than for medical use; scientific apparatus for use in effecting biochemical reactions (other than for medical use); scientific apparatus for use in laboratories (other than for medical diagnosis); scientific apparatus for use in the preparation of materials (other than for medical use); scientific apparatus for use in the processing of histological specimens (other than for medical purposes); scientific apparatus for use in the separation of chemical compounds (other than for medical use); temperature control apparatus (electric switches) for machines; temperature control apparatus (thermostats) for machines; temperature control apparatus (thermostats); temperature controllers; temperature controlling apparatus for machines; temperature controlling apparatus; temperature gauges; temperature indicators; temperature measurement apparatus and instruments; temperature sensing apparatus for industrial or scientific use; temperature sensing apparatus for

industrial use; temperature sensing apparatus for machines; temperature sensors for industrial use; temperature sensors for scientific use; testing apparatus not for medical purposes; testing probes, other than for medical purposes; thermal controls; tissue sampling apparatus and devices, other than for medical use; vibration detectors; vibration sensors; video surveillance cameras; filter apparatus (scientific) incorporating filter cartridges.

Class 10

Surgical, medical, dental and veterinary apparatus and instruments; analysing apparatus for medical purposes; analysis apparatus for medical use; analytical apparatus for veterinary use; analytical instruments for medical use; apparatus and instruments for use in the field of cryogenics (for medical use); apparatus and instruments for use in the preservation of plant, animal or biological materials (for medical use); apparatus for analysing substances (for medical use); apparatus for medical diagnostic purposes; apparatus for medical use; apparatus for medicinal use; apparatus for use in clinics for the preparation of medicaments; dental apparatus; apparatus for use in hospitals for the preparation of medicaments; apparatus for use in medical analysis; blood cell analysing apparatus for medical use; chromatographic apparatus and instruments for medical use; devices for medical use in retaining body secretions; electronic apparatus and instruments for medical purposes; filter cartridges for medical use in the filtration of pharmaceutical liquids; filtering apparatus (medical) for fluids; filters for medical purposes; heat exchange anti-bacterial and anti-viral filters and tubes for medical use; instruments for medical use in the preparation of cells; instruments for medical use in the preparation of liquids containing cells; instruments for medical use in the treatment of samples before analysis; instruments for use in medical analysis; lab units for the dispensing, mixing and transfer of liquids (for medical use); machines for use in biological reactions for medical purposes; measuring devices for medical use; medical analysis apparatus and instruments; pumps for medical use in the extraction of liquids; medical

apparatus for diagnostic testing of biological samples; medical diagnostic apparatus; medical apparatus for use in controlling biochemical reactions; medical apparatus for use in diagnostic applications; medical apparatus for use in effecting biochemical reactions; medical apparatus for use in monitoring biochemical reactions; medical apparatus for use in recording biochemical reactions; medical apparatus for use in separating liquids; medical apparatus for use in testing blood; medical apparatus for use in the preparation of materials; electrical and electronic medical apparatus for treatment purposes; sensors (measurement apparatus) for medical use; separating apparatus for medical use; temperature measuring apparatus and instruments for medical use; temperature meters for medical use; temperature monitors for medical use; temperature responsive control apparatus for medical use; temperature sensitive testing apparatus for medical use; temperature sensors for medical use; test equipment for medical use; testing apparatus for diagnostic purposes (medical); testing apparatus for medical diagnostic purposes; testing apparatus for medical purposes; tubing for medical use; filter apparatus (medical) incorporating filter cartridges; parts and accessories for the aforementioned items in this class.

Class 11

Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; air cooling apparatus; air freezing apparatus and installations for agricultural, commercial or industrial use; air freezing apparatus and installations for use in food processing; apparatus and installations for freeze-drying; apparatus and installations for freezing foodstuffs; apparatus and installations for freezing; apparatus and installations for refrigerating; apparatus and installations for the cooling of foodstuffs, medical materials, bioplasma, human cells, stem cells and other human and animal biological products using liquefied gases; apparatus and installations for the cooling of objects using cold gases; apparatus and installations for the cooling of objects using liquefied gases; apparatus and installations for the cooling of plant materials using liquefied gases;

cryogenic apparatus and installations for preservation of foodstuffs and plant materials; cryogenic apparatus and installations for preservation of medical materials; cryogenic apparatus and installations for preservation of bioplasma, human cells, stem cells and other human and animal biological products; chilling apparatus, appliances and machines; chilling cabinets; chromatography apparatus for industrial purposes; cold cabinets; cold storage boxes (electric); cold storage rooms; commercial refrigeration units; cooling apparatus and installations for liquids; cooling apparatus, installations and machines for the preservation of foodstuffs, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; cooling apparatus, installations and machines for the preservation of plant materials; cooling apparatus, installations and machines; cooling appliances, installations and machines; cooling elements; cooling installations for deep freezing; cryogenic apparatus, including, cryogenic apparatus for use in the preservation of foodstuffs, medical materials, bioplasma, human cells, stem cells and other human and animal biological products and plant materials; cryostats, other than for laboratory use; deep freezers; deep freezing apparatus and installations; electric coolers; filtering apparatus and installations (industrial) for fluids; water and air filters for industrial installations; freezer storage units; freezing apparatus and installations; freezing plates; heat exchangers for the removal of condensate; heat exchangers for transferring heat between fluid streams; installations for cooling for scientific purposes; installations for cooling for biotechnological purposes; level control valves; liquid coolers (apparatus); liquid level control apparatus (valves); machines for use in processing meat (freezing); machines for use in processing vegetables (freezing); portable cold-boxes (electric); portable refrigerating boxes (electric); refrigerated boxes; refrigerated chambers; refrigerating apparatus, machines and installations; refrigerating machines for use in industrial refrigeration; refrigerators, cooling apparatus and freezers for medical storage purposes; temperature control valves (parts of cooling installations) in this class; thawing apparatus utilising heat; parts and accessories for the aforementioned items in this class.

Class 16

Paper and cardboard; printed matter; photographs; stationery and office requisites, except furniture; adhesives for stationery or household purposes; instructional and teaching materials; plastic sheets, films and bags for wrapping and packaging; printed publications; access control cards (other than encoded or magnetic); arithmetical tables; calculating tables; barcode ribbons; biological samples for use in microscopy (teaching materials); adhesive stickers; adhesive tickets; cards embossed or printed with security features for identification purposes; cards for use as data carriers (other than encoded or magnetic); documents; identification labels of paper or cardboard (other than encoded or magnetic); identification strips (other than encoded or magnetic); labels of paper or cardboard (not magnetic or encoded) for use in marking products for identification, security or verification; optical reader paper; printed computer codes; cards, other than encoded or magnetic, to be used for encoding.

Class 39

Transport; packaging and storage of goods; travel arrangement; cold store keeping services; delivery of chemicals, including chemicals for use in cryogenics; filling of containers, including with liquids and gases for use in cryogenics; distribution of goods (transportation), including distribution of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; freight brokerage; freighting; frozen food storage services; location and tracking of goods by computer; logistics services consisting of the transport, packaging, and storage of goods, including biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved

blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; provision of cryogenic storage facilities; provision of frozen storage facilities; provision of refrigerated storage facilities; refrigerated storage services; refrigerated transport of cold, frozen and/or cryogenically preserved goods; refrigerated transport of frozen and cryopreserved goods; refrigerator rental; rental of containers, cargo containers and storage containers, including rental of containers for storing cryogenic liquids and/or cryogenically preserved goods; rental of freezers; rental of refrigerated storage; storage of goods prior to delivery; storage of petro-chemicals; storage services, including the storage of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; transportation of foodstuffs (other than food delivery services); transportation of freight; transportation of goods, including cryogenically preserved goods; transportation of medical products; transportation services, including the transportation of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; warehousing services, including the warehousing of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and other human and animal biological products; information, advisory and consultancy services in relation to the aforesaid; preparation of reports relating to the storage of goods; preparation of reports relating to transportation; providing information, including through global computer networks, relating to the location, movement, storage, transportation of goods.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and industrial research services; design and development of computer hardware and software; analysis of materials; analysis of tissues for medical research; analytical laboratory services; biochemical engineering services, including biochemical engineering services in the field of cryogenics; biochemistry services, including biochemistry services in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; biological research, including biological research in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; biotechnological research, including biotechnological research in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; biotechnology research; biotechnology testing; chemical laboratory services, including chemical laboratory services in the field of cryogenics; chemical research, including chemical research in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products; chemical technological research; cloud computing services, namely, cloud computing services in relation to the operation of cryogenics and cryopreservation equipment, apparatus and instruments; cloud computing services, namely, cloud computing services in relation to the operation of medical and laboratory equipment, apparatus and instruments; cloud computing services, namely, cloud computing services in relation to the operation of industrial equipment and plant; computer software design, development, programming and maintenance, including for computer software in the fields of cryogenics, cryopreservation and cold chain logistics management; computer software design, development, programming and

maintenance services in relation to software for the operation of cryogenics and cryopreservation equipment, apparatus and instruments; computer software design, development, programming and maintenance services in relation to software for the operation of industrial equipment and plant; computer software engineering; computer software design, development, programming and maintenance services in relation to software for the operation of medical and laboratory equipment, apparatus and instruments; conducting clinical trials and feasibility studies, including clinical trials and feasibility studies in the fields of cryogenics and cryopreservation; data storage (other than physical storage); design and development of industrial machinery, including design and development of industrial machinery in the fields of cryogenics and cryopreservation; design and development of medical apparatus and instruments, including design and development of medical apparatus and instruments in the fields of cryogenics and cryopreservation; design and development of storage systems, namely, design of cryogenic and cryopreservation storage systems; design and development of test apparatus and equipment; development of systems for the processing, storage and transmission of data; industrial design and research; laboratory analysis and research; laboratory testing services; medical laboratory services; medical research, including medical research in the fields of cryogenics and cryopreservation; microbiological testing; quality control of goods; rental of scientific equipment and instruments; research relating to cryogenics and cryopreservation; research relating to molecular sciences; research relating to pharmaceuticals; scientific laboratory services; scientific research relating to biology; scientific research relating to chemical products; scientific research relating to chemistry; scientific research, including scientific research in the fields of cryogenics and cryopreservation; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in the fields of cryogenics and cryopreservation, logistics tracking, process automation, data-logging, fleet tracking,

and cold chain logistics management; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for monitoring temperature, humidity and vibration; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use with satellite and/or gps navigation systems; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in operating cryogenics and cryopreservation equipment, apparatus and instruments; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in operating industrial equipment and plant; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in operating medical and laboratory equipment, apparatus and instruments; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in cold chain logistics management; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for freight and freight forwarding monitoring and planning, transportation, warehouse management and transshipment; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in programming, processing and reading rfid tags; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in programming, processing, decoding and reading qr codes and bar codes; software as a service (saas), platform as a service (paas), and providing temporary use of online, non-downloadable software for use in scanning, tracking, and monitoring the distribution, storage and transportation of biological cultures, cell cultures, bioplasma, blood plasma human cells, stem cells, cryogenically preserved cells and plant and animal material, and cryogenically preserved blood plasma; testing of products; toxicity analysis; information, advisory and consultancy services in relation to the aforesaid; preparation of reports relating

to chemical, scientific or technical research.

Class 44

Agriculture, horticulture and forestry services; blood bank services; in vitro fertilisation services; hygienic and beauty care for human beings or animals; medical analysis services; medical equipment rental; medical services; rental of agricultural equipment; rental of hospital equipment; rental of medical apparatus and instruments, namely, apparatus and instruments used in the cryogenic preservation of medical materials, bioplasma, human cells, stem cells and other human and animal biological products for medical purposes; rental of medical apparatus and instruments; rental of veterinary apparatus and instruments; services for the testing of blood for medical purposes; veterinary services; information, advisory and consultancy services in relation to the aforesaid; advisory services relating to medical problems; agricultural information, advisory and consultancy services; services for the preparation of medical reports.
