Mats of metal deployed for grounding and shielding, ground mats, ground plates and grounding elements; Systems for potential equalization through grounding, comprising grounding irons, plates and grids, as well as the related terminals and grounding wells; Insulated electrical connectors; Electric shielding for cables, cable assemblies, busbars and connections, electric cables and air and water-cooled busbars, electric furnace cables, terminals, clips and spots, bus tubes, delta connectors, cable testers, busbar brackets and braces, chemical electrodes, grounding rods and anchors, grounding terminals and junctions, electric compression junctions, kit for electric current and grounding connections consisting of transport straps, caps, clip clamps, plates and ties for use on railroad systems; Electric harnesses, connectors, conductor bar power supplies and splices for use on railroad systems; Electric service lines, equipment connectors, electric connectors and anchors, cathodic protection lines, connectors and conductors; Electric cable trunking and raceways for electric installations; Electrical raceways; Electric cable junctions (braces); Mounting plates and brackets for electric crankcases; Feed-through systems for electric cables; Lightning protection devices, namely, conductors, lightning conductors, air connection terminals, mounts, connectors, fastening elements, terminations, connection terminals, lightning line connection terminals, electrodes, electric connection cables, earth wells; Antennas and consoles for lightning warning systems; Interference signal earth terminals; Devices for cathodic voltage surge protection; Voltage surge protection for conduit potentials; Surge and transient surge protection devices, namely, voltage surge counters, surge reduction filters, transient surge reduction filters for transient discrimination, shunt current distribution modules, voltage surge shunt modules, voltage surge protection modules, voltage surge filtering modules, transient interference suppression module, transient discrimination switches, network protection devices, network filters, surge testing apparatus for testing gas discharge tubes, gas separators, quarter-wave mute protectors and coaxial mute protectors, coaxial lightning arresters, testing apparatus, DC inverters and DC converters, as well as computers and computer software for use in designing and installing detectors and lightning protection apparatus; Thermostats; Materials for power supply; Plugs, terminals and sockets; Splices, T-squares and electric connectors for electric heating cables and electric detector cables; Fiber-optic cables; Bare electric wires; Feeder cables; Coaxial cables; Temperature control and system monitoring equipment; Communication equipment and data transmission; Scanning microprocessors for checking electric apparatus; Power distributors; Cables and connectors for heating; Electric resistance coils and materials; Magnetic and electric shielding materials; Electric, telegraphic and telecommunications apparatus and instruments; Scientific apparatus, computers, electronic apparatus and instruments, for storing, processing, manipulating or retrieving data and for converting digital values into graphic information; Projection apparatus; Information processing equipment; Magnetic cards, magnetic discs, magnetic tapes, magnetic wires and integrated circuits; Computer program for calculating heat losses in pipes; Electric and optical temperature sensors for heating cable systems; Electric and optical controls for heating cable systems; Electric and optical sensors for controlling heating cable systems; Control systems for heating cable systems and insulation systems; Computer software for thermal monitoring; Optical fibers and cables composed of fiber optics and electric connectors, separators, couplers and junctions for the latter; Measuring, signaling, checking, detecting and locating apparatus and instruments; Alarm devices; Electric distribution boxes and panels for heating cables; Electric distribution boards and panels for heating cables; Distribution cabinets and control panels (electricity) for heating cables; Electronic controls and monitors for heating cables and wires; Connection terminals for electric cables; Electric components for floor heating systems, namely, thermostats, voltage regulators, ground fault interrupters, electric sockets and electric fault detectors; Electric controls for electric radiators; Sensors, namely, probes used to detect water or hydrocarbon fuel leaks in liquids; Electric conductive fluid detection cables; Breakers (circuit breakers); Signal cables; Electric cables and cable harnesses; Apparatus and cables for detecting and locating electrically conductive events; Accessories for installing electric wires and conductors, namely, terminals and sockets and connectors; Pluggable network connection kit for heating cables comprising a device for protection against ground faults, clamping junctions not of metal; Power distribution and control machines and apparatus, rotary converters, phase modifiers, batteries and cells; Electric and magnetic meters and testers; Computer programs; Brackets for electric cables and wires; Electric wires and cables of metal; Metal sheaths for electric conductors, wires and tubes; Electric conductors with insulated metal sheaths; Stoppers, not of metal, principally made of rubber, for filling housings and/or for filling housing openings; Metal-coated heat insulating plates for storage tanks; Non-metal gaskets, sealant compounds for joints, fiberglass electric insulating tape; Insulators; Insulating materials; Insulation materials; Electrical insulators; Electric insulating fabric and paper products; Composite materials for electric insulation; Goods of mica for electrical insulating; Insulating materials for tanks and containers; Rubber; Synthetic rubber; Semi-finished products of plastic; Articles of plastic (semi-finished products); Flexible pipes not of metal; Conduit joints, pipe sleeves, not of metal; Washers of rubber; Adhesive tapes other than for medical, stationery or household use, insulating tapes; Insulators for electric cables, electric networks and electric wires; Insulating coatings; Insulating materials of rubber, synthetic rubber and plastic, flexible pipes, not of metal, all for insulation and protection; Pipes, sleeves and cuffs, all being insulating and protective materials against thermal, mechanical, chemical and corrosive packaging; Rubber sheets for insulation, pipes made wholly or partly of natural or synthetic rubber; Flexible tubes not of metal; Insulating materials, namely, ribbons, tapes, film, tubes, girdles, wires and coatings, for use with electric heating articles, made wholly or principally of rubber, synthetic rubber or plastic, for insulation, protection, interconnection, closing or splicing, or for use in mounting and connecting electric, telegraphic and telecommunications apparatus and equipment, as well as wires and cables; Flexible tubes and hoses (not of metal); Insulating oils; Insulating varnish; Tubes, pipes and rods of rubber; Insulating tubes and sleeves for electric lines; Junctions of plastic for pipes; Rubber, synthetic rubber, raw or partly worked; Irradiated pipes of rubber, synthetic rubber; Pipes, sheaths, adhesive sheets and tapes, all made wholly or principally of rubber, synthetic rubber, used for insulating, protecting, connecting, sealing or splicing electric cables, electric connectors, cable, tube and pipe junctions; Sealing materials; Insulating materials for electric cables, cable connectors, splice housings, electric terminations, plugs, junction boxes, sockets and cables and electric installation equipment; Polymer pipes for heat recovery; Insulating splice sleeves for electric and heating cables; Seals; Terminations for sealing mineral-insulation thermocouples; Heat-shrinkable sheaths, not of metal; End seals for heating cables, not of metal.

CLASS 19

Ventilation ducts not of metal for use in housings; Construction materials not of metal.

CLASS 20

Cable guide, namely, cable clips not of metal; Organizers, not of metal, namely, stirrups, trays, clamps and brackets, for positioning, suspending and organizing wires and cables, as well as brackets, not of metal, namely, clamps for use in supporting, suspending and distributing electric wires and cables; Material for electric cables, namely, rollers and handles, not of metal; Staples, not of metal; Labels of plastic for identifying thermal tracing locations; Stoppers of plastic, for closing housing openings; Washers of plastic; Cable clips of rubber; Cable clips of plastic; Cable clips, not of metal.

CLASS 37

Installation, repair and servicing of electric tracing systems and apparatus, heating installations and apparatus, insulation systems and equipment, as well as heat control and transfer systems and equipment to and from liquid tanks and floor, architectural and structural surfaces.

CLASS 39

Express delivery of customized and modified cabinets, boxes and cases for housing electric, electronic, computer, technical, industrial, telecommunications and other equipment.

CLASS 42

Computer-aided design for third parties in the fields of heating, tracing, heat transfer and insulation; Online provision of non-downloadable web-based application software, for designing heating cable systems and equipment, tracing systems and equipment, heating installations and equipment, insulation systems and equipment, as well as installations and equipment for controlling and transferring heat to and from tanks of liquids and floor, architectural and structural surfaces.

Computer hardware; Computer hardware for vehicles; Navigation apparatus; Navigation apparatus for vehicles; GPS navigation systems; In-vehicle navigation apparatus; In-vehicle information technology equipment; In-vehicle audiovisual systems; Downloadable computer software; Downloadable computer software platforms; Downloadable computer software and computer software platforms for vehicles; Downloadable computer software and computer software platforms for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Downloadable computer software and computer software platforms featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Downloadable computer software and computer software platforms for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Downloadable computer software and computer software platforms for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Downloadable computer software and computer software platforms for the development of software for in-vehicle entertainment, information, navigation, display and control; Downloadable computer software and computer software platforms for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Downloadable computer software and computer software platforms permitting interconnectivity between mobile devices and navigation apparatus; Downloadable computer software for use as an application programming interface (API); Downloadable computer software and computer software platforms for map visualisation; Downloadable mobile applications; Downloadable mobile applications for vehicles; Downloadable mobile applications for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Downloadable mobile applications featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Downloadable mobile applications for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Downloadable mobile applications for geolocation, geocoding and the collection, compilation, processing, transmission and

dissemination of global positioning system (GPS) data; Downloadable mobile applications for autonomous and self-driving vehicles; Downloadable mobile applications permitting interconnectivity between mobile devices and navigation apparatus; Downloadable mobile applications for map visualisation; Downloadable augmented, virtual and mixed reality software; Downloadable augmented, virtual and mixed reality software for vehicles; Downloadable augmented, virtual and mixed reality software for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Downloadable augmented, virtual and mixed reality software featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Downloadable augmented, virtual and mixed reality software for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Downloadable augmented, virtual and mixed reality software for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Downloadable augmented, virtual and mixed reality software for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Downloadable augmented, virtual and mixed reality software for map visualisation; Software development kits [SDK] for the development of software for vehicles; Software development kits [SDK] for the development of software for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Software development kits [SDK] for the development of software featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Software development kits [SDK] for the development of software for in-vehicle entertainment, display and control; Software development kits [SDK] for the development of software for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Software development kits [SDK] for the development of software for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Software development kits [SDK] for the development of software for geomarketing; Software development kits [SDK] for the development of software for logistics, fleet management and delivery services; Software development kits [SDK] for the development of software for ride sharing and ride hailing services; Software development kits [SDK] for the development of software permitting interconnectivity between mobile devices and navigation apparatus; Software development kits [SDK] for the development of software for map visualisation; Downloadable open-source software and open-source software platforms; Downloadable open-source software and open-source software platforms for vehicles; Downloadable open-source software and open-source software platforms for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Downloadable open-source software and open-source software platforms featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Downloadable open-source software and open-source software platforms for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Downloadable open-source software and open-source software platforms for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Downloadable open-source software and open-source software platforms for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Downloadable open-source software and open-source software platforms permitting interconnectivity between mobile devices and navigation apparatus; Downloadable open-source software and open-source software platforms for the development of software for in-vehicle entertainment, information, navigation, display and control; Downloadable open-source software and open-source software platforms for map visualisation; Artificial intelligence software; Machine learning software; Artificial intelligence and machine learning software for vehicles; Artificial intelligence and machine learning software for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Artificial intelligence and machine learning software featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Artificial intelligence and machine learning software for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Artificial intelligence and machine learning software for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Artificial intelligence and machine learning software for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Artificial intelligence and machine learning software for geomarketing; Artificial intelligence and machine learning software for logistics, fleet management and delivery services; Artificial intelligence and machine learning software for ride sharing and ride hailing services; Artificial intelligence and machine learning software permitting interconnectivity between mobile devices and navigation apparatus; Artificial intelligence and machine learning software for map visualisation; Databases; Databases containing information, text, sound, images and data; Databases containing information, text, sound, images and data in the fields of navigation, route planning, route planning for electric vehicles, and local and location-based points of interest, events, businesses and landmarks; Databases containing geographic maps, interactive geographic maps, historical and real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Databases containing location data; Downloadable electronic publications; Downloadable

electronic publications featuring information on vehicles, navigation, route planning, route planning for electric vehicles, mapping, traffic and weather; Downloadable electronic publications featuring information on autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Digital maps; Computer hardware and computer software for the display of human-machine interfaces; Computer hardware and computer software for the display of human-machine interfaces in vehicles; Parts and fittings for the aforesaid goods.

CLASS 35

Retail and wholesale services connected with the sale of computer hardware, computer hardware for vehicles, navigation apparatus, navigation apparatus for vehicles, GPS navigation systems, in-vehicle navigation apparatus, in-vehicle information systems, in-vehicle entertainment systems; Retail and wholesale services connected with the sale of downloadable computer software, downloadable computer software platforms, downloadable computer software and computer software platforms for vehicles, downloadable computer software and computer software platforms for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Retail and wholesale services connected with the sale of downloadable computer software and computer software platforms featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information, downloadable computer software and computer software platforms for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Retail and wholesale services connected with the sale of downloadable computer software and computer software platforms for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data, downloadable computer software and computer software platforms for the development of software for in-vehicle entertainment, information, navigation, display and control; Retail and wholesale services connected with the sale of downloadable computer software and computer software platforms for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Retail and wholesale services connected with the sale of downloadable computer software and computer software platforms permitting interconnectivity between mobile devices and navigation apparatus, downloadable computer software for use as an application programming interface (API), downloadable computer software and computer software platforms for map visualisation; Retail and wholesale services connected with the sale of downloadable mobile applications, downloadable mobile applications for vehicles, downloadable mobile applications for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Retail and wholesale services connected with the sale of downloadable mobile applications featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information, downloadable mobile applications for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Retail and wholesale services connected with the sale of downloadable mobile applications for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Retail and wholesale services connected with the sale of downloadable mobile applications for autonomous vehicles, self-driving vehicles and advanced driver assistance systems, downloadable mobile applications permitting interconnectivity between mobile devices and navigation apparatus, downloadable mobile applications for map visualisation; Retail and wholesale services connected with the sale of downloadable augmented, virtual and mixed reality software, downloadable augmented, virtual and mixed reality software for vehicles, downloadable augmented, virtual and mixed reality software for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Retail and wholesale services connected with the sale of downloadable augmented, virtual and mixed reality software featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information, downloadable augmented, virtual and mixed reality software for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Retail and wholesale services connected with the sale of downloadable augmented, virtual and mixed reality software for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data, downloadable augmented, virtual and mixed reality software for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Retail and wholesale services connected with the sale of downloadable augmented, virtual and mixed reality software for map visualisation; Retail and wholesale services connected with the sale of software development kits [SDK], software development kits [SDK] for the development of software for vehicles, software development kits [SDK] for the development of software for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Retail and wholesale services connected with the sale of software development kits [SDK] for the development of software featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information, software development kits [SDK] for the development of software for in-vehicle entertainment, display and control; Retail and wholesale services connected with the sale of software development kits [SDK] for the development of software for autonomous vehicles, self-driving vehicles and advanced driver assistance systems, software development kits [SDK] for the development of

software for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Retail and wholesale services connected with the sale of software development kits [SDK] for the development of software permitting interconnectivity between mobile devices and navigation apparatus, software development kits [SDK] for the development of software for map visualisation; Retail and wholesale services connected with the sale of downloadable open-source software and open-source software platforms, downloadable open-source software and open-source software platforms for vehicles, downloadable open-source software and open-source software platforms for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Retail and wholesale services connected with the sale of downloadable open-source software and open-source software platforms featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information, downloadable open-source software and open-source software platforms for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Retail and wholesale services connected with the sale of downloadable open-source software and open-source software platforms for autonomous vehicles, self-driving vehicles and advanced driver assistance systems autonomous vehicles, self-driving vehicles and advanced driver assistance systems, downloadable open-source software and open-source software platforms for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Retail and wholesale services connected with the sale of downloadable open-source software and open-source software platforms permitting interconnectivity between mobile devices and navigation apparatus, downloadable open-source software and open-source software platforms for the development of software for in-vehicle entertainment, information, navigation, display and control, downloadable open-source software and open-source software platforms for map visualisation; Retail and wholesale services connected with the sale of artificial intelligence software, machine learning software, artificial intelligence and machine learning software for vehicles, artificial intelligence and machine learning software for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Retail and wholesale services connected with the sale of artificial intelligence and machine learning software featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information, artificial intelligence and machine learning software for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Retail and wholesale services connected with the sale of artificial intelligence and machine learning software for autonomous vehicles, self-driving vehicles and advanced driver assistance systems, artificial intelligence and machine learning software for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data, artificial intelligence and machine learning software for geomarketing; Retail and wholesale services connected with the sale of artificial intelligence and machine learning software for logistics, fleet management and delivery services, artificial intelligence and machine learning software for ride sharing and ride hailing services, artificial intelligence and machine learning software permitting interconnectivity between mobile devices and navigation apparatus, artificial intelligence and machine learning software for map visualisation; Retail and wholesale services connected with the sale of databases, databases containing information, text, sound, images and data, databases containing information, text, sound, images and data in the fields of navigation, route planning, route planning for electric vehicles, and local and location-based points of interest, events, businesses and landmarks; Retail and wholesale services connected with the sale of databases containing geographic maps, interactive geographic maps, historical and real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information, databases containing location data; Retail and wholesale services connected with the sale of downloadable electronic publications, downloadable electronic publications featuring information on vehicles, navigation, route planning, route planning for electric vehicles, mapping, traffic and weather; Retail and wholesale services connected with the sale of downloadable electronic publications featuring information on autonomous vehicles, self-driving vehicles and advanced driver assistance systems, digital maps, computer hardware and computer software for the display of human-machine interfaces and computer hardware and computer software for the display of human-machine interfaces in vehicles; Database management; Collection, management and processing of data; Collection, management and processing of data for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Collection, management and processing of location, travel, real-time traffic and location-based weather data; Collection, management and processing of data relating to geographic maps and interactive geographic maps; Collection, management and processing of data for geolocation and geocoding; Collection, management and processing of global positioning system (GPS) data; Collection, management and processing of data for geomarketing; Collection, management and processing of data for logistics, fleet management and delivery services; Collection, management and processing of data for ride sharing and ride hailing services; Information, consultancy and advisory services related to the aforesaid.

CLASS 38

Telecommunication services; Transmission of data; Electronic transmission of data; Transmission and delivery of data, voice, images, audio, video, messages, information and database information via telecommunications networks; Transmission and delivery of location information via telecommunications networks; Transmission and delivery of messages and data for navigation; Satellite transmission of messages and data for navigation; Geolocation services; Electronic transmission of geolocation data from mobile devices; Providing access to the internet; Providing access to global communications networks; Providing access to global communications networks for the transmission of information and data; Providing access to information on navigation, mapping, route planning, route planning for electric vehicles and real-time traffic via global communications networks; Providing access to content, websites and portals in the fields of navigation, mapping, route planning, route planning for electric vehicles and real-time traffic; Providing access to e-commerce platforms on the Internet; Providing access to databases; Providing access to databases containing navigation, mapping, route planning, route planning for electric vehicles and real-time traffic data, information on points of interest, events, businesses and landmarks; Streaming of data; Video and audio streaming services; Broadcasting services; Broadcasting of video and audio programming over the Internet; Information, advisory and consultancy services related to the aforesaid.

CLASS 39

Navigation services; GPS navigation services; Route planning services; Route planning services for electric vehicles; Vehicle routing by computers on data networks; Interactive online vehicle routing by computers on data networks; Providing driving directions for travel purposes; Travel information services; Transportation information; Travel route planning; Providing travel information relating to vehicles, navigation, traffic, traffic congestion, road traffic conditions, speed cameras and parking space availability; Providing real-time travel information relating to vehicles, navigation, traffic, traffic congestion, road traffic conditions, speed cameras and parking space availability; Providing travel information relating to vehicles, navigation, traffic, traffic congestion, road traffic conditions, speed cameras and parking space availability, via a website; Providing travel information relating to vehicles, navigation, traffic, traffic congestion, road traffic conditions, speed cameras and parking space availability, via an online searchable database; Information, advisory and consultancy services related to the aforesaid.

CLASS 42

Design and development of computer software and hardware; Design and development of computer software and hardware for vehicles; Design and development of computer software and hardware for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Design and development of computer software and hardware for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Design and development of computer software and hardware for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Design and development of computer software and hardware for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Design and development of computer software and computer software platforms featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Design and development of computer software and hardware for map visualisation; Design and development of computer software and computer software platforms for geomarketing; Design and development of computer software and computer software platforms for logistics, fleet management and delivery services; Design and development of computer software and computer software platforms for ride sharing and ride hailing services; Design and development of navigation systems, navigation apparatus, in-vehicle entertainment and in-vehicle information systems; Design and development of computer software and hardware permitting interconnectivity between mobile devices and navigation apparatus; Design and development of computer software architecture; Design and development of computer software architecture for vehicles; Design and development of computer software platforms; Design and development of computer software platforms for vehicles; Providing temporary use of on-line non-downloadable software; Providing temporary use of on-line non-downloadable software for vehicles; Providing temporary use of on-line non-downloadable software for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Providing temporary use of on-line non-downloadable software featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Providing temporary use of on-line non-downloadable software for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Providing temporary use of on-line non-downloadable software for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Providing temporary use of on-line non-downloadable software for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Providing temporary use of on-line non-downloadable software permitting interconnectivity between mobile devices and navigation apparatus; Providing temporary use of on-line non-downloadable software for the development of software for in-vehicle entertainment, information, navigation, display and control; Providing temporary use of on-line

non-downloadable software for map visualisation; Providing temporary use of on-line non-downloadable software development kits [SDK]; Providing temporary use of on-line non-downloadable software development kits [SDK] for vehicles; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software for in-vehicle entertainment, information, navigation, display and control; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software for telematics and vehicle fleet management, tracking and monitoring; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software for geomarketing; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software for logistics, fleet management and delivery services; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software for ride sharing and ride hailing services; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software permitting interconnectivity between mobile devices and navigation apparatus; Providing temporary use of on-line non-downloadable software development kits [SDK] for the development of software for map visualisation; Platform as a service [PaaS]; Platform as a service [PaaS] featuring computer software platforms for vehicles; Platform as a service [PaaS] featuring computer software platforms for navigation purposes, route planning, route planning for electric vehicles, and searching for and navigating to local and location-based points of interest, events, businesses and landmarks; Platform as a service [PaaS] featuring computer software platforms featuring geographic maps, interactive geographic maps, real-time traffic data, information on points of interest, events, businesses and landmarks and location-based weather information; Platform as a service [PaaS] featuring computer software platforms for the delivery of in-vehicle information, in-vehicle entertainment and playback of multimedia in vehicles; Platform as a service [PaaS] featuring computer software platforms for autonomous vehicles, self-driving vehicles and advanced driver assistance systems; Platform as a service [PaaS] featuring computer software platforms for geolocation, geocoding and the collection, compilation, processing, transmission and dissemination of global positioning system (GPS) data;
