General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Goods and/or Services:

Class 09

Software; computer gaming software; computer software packages; computer operating system software; computer software, recorded; software drivers; virtual reality software; games software; entertainment software for computer games; computer programs for network management; operating computer software for main frame computers; monitors (computer hardware); computer hardware; apparatus for recording images; monitors (computer programs); computer game programs; computer programs for recorded games; apparatus for recording, transmission or reproduction of sound or images; communications servers [computer hardware]; electronic components for gambling machines; computer application software featuring games and gaming; computer software for the administration of on-line games and gaming; computer hardware for games and gaming; hardware and software for gambling, gambling machines, gambling games on the Internet and via

telecommunication network.

Class 28

Gaming machines for gambling; chips for gambling; mah-jong; arcade games; gambling machines operating with coins, notes and cards; games; electronic games; parlor games; gaming chips; gaming tables; slot machines [gaming machines]; LCD game machines; slot machines and gaming devices; coin-operated amusement machines; roulette chips; poker chips; chips and dice [gaming equipment]; gaming equipment for casinos; roulette tables; gaming roulette wheels; casino games; gambling machines and amusement machines, automatic and coin-operated; coin-operated amusement machines and/or electronic coin-operated amusement machines with or without the possibility of gain; slot machines and gaming machines; electronic or electrotechnical amusement machines and apparatus, gaming machines, coin-operated entertainment machines; gaming equipment, gaming machines, machines for gambling; electropneumatic and electrical gambling machines (slot machines).

Class 41

Gambling; entertainment services related to gambling; gaming services for entertainment purposes; casino, gaming and gambling services; training in the development of software systems; provision of gaming equipment for gambling halls; providing casino equipment [gambling]; gaming machine entertainment services; providing casino facilities [gambling]; gaming hall services; amusement arcade services; games equipment rental; rental of gaming machines; providing amusement arcade services; rental of gaming machines with images of fruits; editing or recording of sounds and images; sound recording and video entertainment services; hire of sound reproducing apparatus; provision of gaming equipment for casinos; providing of casino facilities; online gambling services; casino, gaming and gambling services;

provision of gaming facilities, gaming hall facilities, Internet casinos and online gambling services.

evac

Goods and/or Services:

Class 07

Organic waste composting machines; filtering machines, separators and centrifuges; filtering machines used in sewage handling; filter presses for chemical processing; filtering machines for chemical processing; filter presses; feeding machines; feeding machines for presses; feeding units for size reduction machines; feeding apparatus for engine boilers; pipes [fitted parts of machines]; pressure pipes of metal [parts of machines]; agitators for chemical processing; industrial washing machines; machines for pressure washing; bagging machines; absorbing machines for chemical processing; dewatering machines; separating machines for chemical processing; separators [machines]; robotic separators; waste and trash separator machines; separators for separating solids from liquids; machines for compacting waste and trash; waste disposal machines; waste crushing machines; waste sorting machines; waste extraction machines; waste converters (machines); waste and trash conveying machines; food waste disposal machines; shredders (machines) for waste; blowers (machines); air and liquid ejectors (machines); injectors for machines; pumps; pumps (vacuum -) [machines]; electric water pumps; macerator pumps; compressors; pneumatic transporters and conveyors; screw conveyors; exhausters (machines); machines for the treatment of waste and wastewater; machine tools; wind turbines; hydraulic wind turbines control systems; parts and fittings for the aforesaid goods; all of the aforementioned goods to be used in the field of water and waste water collection and treatment solutions, including vacuum toilets, as well as for waste collection and treatment solutions for the marine (shipbuilding) and offshore industry, as well as in the fields of corrosion protection and marine growth prevention, and for ballast water management and fresh water generation; as well as in the field of

hydrothermal carbonization; all the aforementioned for the building, marine (shipbuilding) and offshore industry.

Class 09

Measuring, detecting and monitoring instruments, indicators and controllers; electronic control and monitoring systems for machines and apparatus for the collection and treatment of water, waste and wastewater; electronic control and monitoring systems for machines and apparatus for use in corrosion protection, marine growth prevention, ballast water management and fresh water generation; computer hardware and software for use in water, waste and wastewater collection and treatment as well as in corrosion protection, marine growth prevention, ballast water management and fresh water generation; electrodes; anodes; cathodes; copper electrodes; aluminium electrodes; electric fuses; electric fuse wire; electric switches; antifouling and impressed current cathodic protection anodes; titanium anodes; impressed current cathodic protection and reference electrodes; impressed current cathodic protection devices; cathodic anti-corrosion apparatus; cathodic protection apparatus to prevent marine growth; cathodic hull corrosion prevention apparatus for marine use; elliptical anodes; electric control panels; control panels for use on ships or other installations employing seawater for coolant, or ballast to render the sea water non-corrosive through electrolytic action; control systems for desalination apparatus; parts and fittings for the aforesaid goods; all of the aforementioned goods to be used in the field of water and waste water collection and treatment solutions, including vacuum toilets, as well as for waste collection and treatment solutions for the marine (shipbuilding) and offshore industry, as well as in the fields of corrosion protection and marine growth prevention, and for ballast water management and fresh water generation; as well as in the field of hydrothermal carbonization; all the aforementioned for the building, marine (shipbuilding) and offshore industry.

Class 11

Chemical processing equipment [drying apparatus]; installations for chemical processing [drying apparatus]; recuperators for chemical processing; evaporators for chemical processing; steamers for chemical processing; drying apparatus for chemical processing; heat exchangers; heat exchangers [for chemical processing]; tube heat exchangers; shell heat exchangers; flushing apparatus; cooling installations and machines; carbonizing furnaces [for industrial purposes]; thermal treatment furnaces; thermal fluid heaters; thermal incineration installations; reactors being industrial chemical installations; biological reactors for clarifying industrial effluents; reactors for gas-solids reactions; water filtering installations; air filtering installations; mechanisms for controlling fluid level in tanks [valves]; level control valves in tanks; apparatus and equipment for water supply and sanitary purposes; vacuum toilets; vacuum urinals; parts and fittings for vacuum toilets and vacuum urinals; water treatment apparatus containing vacuum operated or vacuum enhanced sewage, water or liquid collection, transportation and treatment installations and plants, and components thereof including toilets, discharge, valves, grey water valves, faucets, grease traps, floor drains, blowers, air and liquid ejectors, vacuum pumps, filters, additive injectors, sluices, storage tanks, separators, controllers and monitoring units; waste disposal incinerators; purification installations for waste material; heating apparatus for use in the treatment of waste; water and wastewater treatment installations; water and wastewater purification units; water and waste water treatment tanks; apparatus for dehydrating food waste; pressure supervision apparatus [safety apparatus for water apparatus]; pressure relief valves [safety valves] for water pipes and water apparatus; safety valves for water apparatus; ballast water treatment systems; control systems for ballast water treatment systems; water desalinating apparatus utilizing reverse osmosis for the generation of freshwater; desalination systems; fresh water generation and treatment systems; hot water installations; parts and fittings for the aforesaid goods; all of the aforementioned goods to be used in the field of water and waste water collection and

treatment solutions, including vacuum toilets, as well as for waste collection and treatment solutions for the marine (shipbuilding) and offshore industry, as well as in the fields of corrosion protection and marine growth prevention, and for ballast water management and fresh water generation; as well as in the field of hydrothermal carbonization; all the aforementioned for the building, marine (shipbuilding) and offshore industry.

Class 37

Services connected with the repair, installation and maintenance of vacuum toilets and water, waste and wastewater treatment apparatus and equipment; services connected with the repair, installation and maintenance of electrodes, anodes, cathodes, copper electrodes, aluminium electrodes, electric fuses, electric fuse wire, electric switches, antifouling and impressed current cathodic protection anodes, titanium anodes, impressed current cathodic protection and reference electrodes; services connected with the repair, installation and maintenance of corrosion protection and marine growth preventing systems; services connected with the repair, installation and maintenance of wind turbines and control systems for wind turbines; services connected with the repair, installation and maintenance of desalination systems; services connected with the installation and maintenance of control panels for use on ships and other installations employing seawater for coolant or ballast to render the seawater non-corrosive through electrolytic action; services connected with the installation and maintenance of reverse osmosis desalinators; services connected with the installation and maintenance of fresh water generation and treatment systems; services connected with the installation and maintenance of hull corrosion prevention systems; services connected with the installation and maintenance of marine pipework antifouling systems; services connected with the installation and maintenance of hot water systems for yachts and marine vessels; construction of hydrothermal and geothermal energy installations; maintenance and repair of energy generating installations; all of the aforementioned services to be

offered in the field of water and waste water collection and treatment solutions, including vacuum toilets, as well as for waste collection and treatment solutions for the marine (shipbuilding) and offshore industry, as well as in the fields of corrosion protection and marine growth prevention, and for ballast water management and fresh water generation; as well as in the field of hydrothermal carbonization; all the aforementioned for the building, marine (shipbuilding) and offshore industry.

Class 40

Production of energy; hydrothermal carbonization processing; treatment of industrial waste to sequester carbon; generation of electrical power using carbon sequestration; incineration of waste and trash; recycling of waste and trash; upcycling [waste recycling]; waste treatment [transformation]; water treating; wastewater treatment; waste processing; refining services; processing of hydrocarbons; processing of carbon; recovery of hydrocarbons from gas; all of the aforementioned services to be offered in the field of water and waste water collection and treatment solutions, including vacuum toilets, as well as for waste collection and treatment solutions for the marine (shipbuilding) and offshore industry, as well as in the fields of corrosion protection and marine growth prevention, and for ballast water management and fresh water generation; as well as in the field of hydrothermal carbonization; all the aforementioned for the building, marine (shipbuilding) and offshore industry.

environments; augmented reality software; virtual reality software; virtual-reality computer hardware; software for video display; software for enhancing the audiovisual capabilities of multimedia applications, namely, for integrating text, sound, graphics, still images and moving images; downloadable computer software for virtual currency; computer e-commerce software for managing non-fungible tokens (NFT); virtual reality goggles; downloadable digital video recordings; downloadable image files; downloadable electronic publications; software for taking, editing, storing, sharing, disseminating, transferring and viewing photos and videos or for chatting on the Internet; camera application software for smart phones based on virtual reality and augmented reality; laptop computers; game software; application software for portable telephones; software for creating, editing and participating in 3D virtual environments; computer programs and software for automatic conversion of photographic portrait images into 3D avatar images; smart glasses.

Class 35

Advertising consultancy in the field of blockchain technology and cryptocurrencies; professional business consultancy in the field of blockchain technology and cryptocurrencies; commercial management consultant services in the field of blockchain technology and cryptocurrencies; providing commercial information in the field of blockchain technology and cryptocurrencies; compiling and analyzing business data in the field of blockchain technology and cryptocurrencies; providing commercial information and advice in the field of blockchain technology and cryptocurrency asset management; providing commercial information in the field of blockchain technology and virtual currencies; marketing consultant services in the field of blockchain technology and cryptocurrencies.

Class 36

Electronic transfer of funds via blockchain technology; financial services by electronic transfer of digital tokens incorporating cryptographic protocols used to operate on a

computer platform in the field of blockchain technology; financial services by electronic transfer of non-fungible tokens [NFT] incorporating cryptographic protocols used to operate on a computer platform in the field of blockchain technology; financial services by electronic transfer of virtual currency incorporating cryptographic protocols used to operate on a computer platform in the field of blockchain technology; brokerage of digital currencies; digital currency exchange services; digital currency trading services; foreign currency exchange services; foreign exchange trading operations; virtual currency exchange; virtual currency brokerage services; brokerage of securities and currencies; electronic transfer of virtual currency; real-time and online currency trading; financial services by electronic transfer of virtual currency for use by members of an online community via a global computer network; issuing digital currency for use by members of an online community via a global computer network; online brokerage for operations and transactions carried out with respect to currencies and other financial products; providing digital currency for use by members of an online community via a global computer network; payment processing in the field of cryptocurrency or payments trading in the field of metaverse environments; prepaid services in the nature of prepayments for increasing the value of prepaid cards or prepaid cards for purchasing crypto-currencies or services in metaverse environments.

Class 38

Chat room services for creating an online community enabling registered users to form virtual communities and to participate in social networking services in the field of blockchain technology; chat room services for creating an online community enabling registered users to participate in discussions and to obtain feedback from their peers in the field of blockchain technology.

Class 41

Providing non-downloadable electronic publications in the nature of business

commentary and news in the field of blockchain technology and cryptocurrencies; game services provided online from a computer network; education and entertainment services; providing online information in the field of education and continuous training; providing online information in the field of computer game entertainment; game services provided online from a computer network for entertainment and further education purposes; computer entertainment and teaching services, namely, providing computer games and educational resources to multiple users connected to a computer.

Class 42

Authentication of data by means of blockchain technology; user authentication services by means of blockchain technology; creating and maintaining websites (software) enabling registered users to form virtual communities and to participate in social networking services in the field of blockchain technology; creating and maintaining web sites (software) enabling registered users to participate in discussions and to obtain feedback from their peers in the field of blockchain technology; providing temporary use of non-downloadable software enabling members of an online community to receive and access digital currencies; providing temporary use of non-downloadable software enabling members of an online community to spend and exchange digital currencies; providing temporary use of non-downloadable software enabling members of an online community to receive and access non-fungible tokens [NFT]; providing temporary use of non-downloadable software enabling members of an online community to spend and exchange non-fungible tokens [NFT]; design and development of virtual reality software; developing software for metaverse environments; hosting platforms for online metaverse environments on the Internet; providing online technological information on metaverse environments; software as a service (SaaS) with access to used and transferred crypto collectible objects and application tokens; platform as a service (PaaS) with access to crypto collectible objects and application tokens;

providing non-downloadable computer software in the nature of crypto collectible objects and non-fungible tokens (NFT); Software as a Service [SaaS]; computer Platform as a Service [PaaS]; hosting platforms on the Internet for providing online content; developing computer platforms for e-commerce; hosting platforms on the Internet for generating and managing virtual assets; hosting platforms on the Internet for generating and managing digital tokens; technological research relating to computers; technological research relating to virtual assets; design and development of software; developing software for virtual assets; website creation and maintenance; providing information in the field of computer technology via a website; programming of software for e-commerce platforms; hosting of e-commerce platforms on the Internet; monitoring computer systems for cybersecurity of software as a service [SaaS] enabling the development of software relating to digital assets such as bitcoins; computer platform as a service [PaaS] including software platforms for software development in the field of digital assets such as bitcoins; software as a service [SaaS] featuring software for compensation [exchange], allocation, compliance, recording and settlement of commercial transactions relating to bitcoins and digital currencies; software as a service [SaaS] including software for sending electronic notifications, transmitting orders and sending and receiving electronic messages, and enabling users to perform e-commerce transactions via a global computer network; providing online non-downloadable computer software for e-commerce; providing online non-downloadable computer software relating to application services [ASP]; Application service provider [ASP] services with use of software for use as an application programming interface [IPA]; hosting of software applications for others; Application service provider (ASP) services for software for creating, managing, manipulating, organizing, modifying, transferring, storing and sharing data; services of an application service provider (ASP) for software for creating, editing, uploading, downloading, retrieving, presenting, publishing, displaying, tagging, blogging, streaming, linking and communicating electronic media over computer and communication networks; providing on-line non-downloadable

software; providing, hosting, managing, developing and maintaining applications, software and websites (software) in the fields of wireless communications, mobile information access and remote data management for wireless transmission of content to mobile electronic apparatus; hosting and developing and providing temporary use of databases in the fields of wireless communications, mobile information access, and remote data management for wireless transmission of content to mobile electronic apparatus; providing temporary use of non-downloadable software for accessing, reading, tracking and using blockchain technology; designing, developing and implementing software solutions for the security of digital currencies, bitcoin currency and transactions with bitcoin currency; identity verification services [computer security]; user authentication; programming non-fungible tokens (NFT); designing non-fungible tokens (NFT); computer platform as a service [PaaS] including software platforms for providing access to crypto collectible objects, non-fungible tokens [NFT] and other application tokens.

Goods and/or Services:

Class 06

Track construction material of metal for overhead industrial electric conveyors/overhead industrial electric conveyors and inventory management installations; track construction material of metal for overhead industrial electric conveyors and inventory management installations of metal.

Class 07

Automatic handling and transport installations for the storage and distribution of merchandise, namely track conveyors, belt conveyors, small freight elevators and pneumatic tube installations [conveyors], pallet conveyors, apparatus [conveying machines] for the vertical and horizontal transport of merchandise in storage racks, circular conveyors, floor conveyors and two-track chain conveyors, robots (machine), automated storage systems for pharmacies; installations for indoor transport and storage, such as apparatus for operating the loading and unloading of goods for logistics centers, machines in the field of handling and preparing orders for logistics centers; flexible assembly, storage and manufacturing installations/systems [machines] with the corresponding controls, featuring automated high-bay warehouses, order-picking installations, electric rail conveyors as overhead or floor conveyors, driverless transport systems; machines and machine tools, namely, industrial electric overhead conveyors, lifting platforms operated by machines and deployed above ground level for use in warehouses, industrial robots (machines), industrial robot handling installations being machines for use in logistics and distribution in the food and beverage industry, handling installations (belt conveyors) for the internal transport of single loads, roller conveyors, lifting and handling apparatus, lifting and handling machines, lifting apparatus, lowering stations (machines), elevators, end effectors for robots (machines) for the loading of installations, storage, handling, distribution and delivery of products; automatic machines and installations constituted thereof for the loading, storage, handling, distribution and delivery of products, machines for the vertical and horizontal transport of merchandise in storage racks, industrial installations featuring robots (machines); machines in the field of handling and order picking; machines and machine tools for the treatment of materials and production; filling machines or robotic filling machines; colour dispensers and mixers [machines]; motors and engines (other than for land vehicles); parts and accessories for all the aforementioned products included in this class; clutches and devices for power transmission, except for land vehicles.

Class 09

Data processing programs, (computer) software, electronic controls/computer programs, particularly for processing and archiving inventory/stock orders in relation to industrial storage distribution operations; data processing programs, (computer) software, electronic controls/computer programs, particularly for controlling and monitoring vehicles, driverless transport vehicles, automated guided vehicles (AGVs), loading devices, transport devices, travelling bridge cranes, handling carts, overhead conveyors, electric accumulators, accumulator boxes; software for supply chains, supply chain management, logistics management, inventory management; electro-dynamic or electronic apparatus for the remote control of railroad and non-railroad vehicles, robots, order-picking robots, sorting robots, loading robots, handling robot, palletizing robots, packing robots, transport installations, lifting, holding and gripping apparatus and tools, elevators, lifting devices, conveyors, handling machines, automated material handling systems, driverless transport vehicles, automated guided vehicles (AGVs) and vehicles; lasers (not intended for medical purposes); parts and accessories for all the aforementioned products, included in this class; computer programs for flexible assembly, storage and manufacturing installations/systems with the corresponding controls, including automated high-bay warehouses, order-picking installations, electric rail conveyors being overhead or floor conveyors, driverless transport systems.

Class 12

Automatic conveying Installations, in particular electric railroad vehicles as overhead or floor conveyors, industrial electric suspended railroad vehicles; battery-powered and driverless transport systems, in particular driverless transport trolleys for the transport of merchandise; vehicles, electric vehicles, apparatus for transport on land and vehicles for transport; driverless transport vehicles, automated guided vehicles (AGVs), autonomous or automatically controlled handling carts, battery-powered

transport vehicles; transport installations for the transport of merchandise/merchandise featuring driverless transport vehicles, automated guided vehicles (AGVs), autonomous or automatically controlled handling carts, battery-powered transport vehicles; track-guided carts, transport vehicles, in particular for industrial processes, storage/distribution activities and logistics; chassis, wheels and tires for vehicles, engines, electric motors, transmissions and clutches for vehicles, telfer railways, cable transport devices, control devices for vehicles; parts and accessories for all the aforementioned products, included in this class; forklift trucks for indoor use for the loading, unloading and distribution of merchandise.

Class 20

Storage racks, shelves, shelving, shelving units, shelving and storage systems (furniture), modular shelving and accessories therefor, high racks, in particular for storing products, included in this class; containers of plastic, in particular for pharmaceuticals; parts and accessories for all the aforementioned products, included in this class.

Class 35

Business management, business management advice; online retail services for electronic equipment intended for use in the field of electronic control of industrial equipment; retail services for electronic equipment for use in the field of electronic control of industrial equipment; business management advice, particularly in the field of logistics and automation.

Class 37

Assembly, commissioning, repair and maintenance of automatic storage and distribution installations for goods, complete logistics centers, flexible assembly, packaging and manufacturing installations, process controls, vehicles, lifts, buildings, cable cars, transport equipment, driverless transport vehicles, automated guided vehicles, electrical equipment, process automation and control systems;

Construction services relating to the planning, assembly and installation of computer hardware, in particular for the control of robots, robot systems, goods distribution centers or (partially) automated warehouses; providing information on construction, the fitting-out, construction matters and repair of automatic storage and distribution installations for goods, complete logistics centers, flexible assembly, packaging and manufacturing installations, process controls, vehicles, lifts, buildings, cable cars, transport equipment, driverless transport vehicles, automated guided vehicles, electrical equipment, process automation and guiding systems.

Class 39

Services for transport, packaging and storage of goods; preparing and distributing merchandise for transport; packing and arranging of goods for transport.

Class 41

Customer training, in particular training in the field of technical automation of logistics system projects, maintenance and operation of transport, order picking, storage and distribution systems; Basic and further training; organizing seminars and conferences, in particular training in the field of technical project automation, logistics systems, maintenance and operation of transport systems, order picking, storage and distribution systems.

Class 42

Scientific and technological services as well as research and design services relating thereto; industrial analysis and research services, particularly in the field of mechanical construction, handling systems and inventory management; technical planning (of systems), technical advice, engineering, development, in particular for automatic storage and distribution installations for merchandise, handling, transport installations, automation projects, complete logistics centers, flexible assembly and manufacturing installations, order-picking installations, process controls, process automation and control systems; services provided by an engineer; computer

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; cash registers, calculating devices; computers and computer peripheral devices; data processing apparatus; computer software; magnetic data carriers, recording discs; compact discs, DVDs and other digital and optical recording media; telecommunications devices, apparatuses and equipment, and parts and fittings

thereof; terminal [connectors] for use in telecommunication and communication networks; transmitters; GPS receivers; radar receivers; video receivers; audio receivers; electronic controllers; electric switches; antennas; data cables; data wires; amplifiers; commutators; modems; radio and microwave transmission devices and equipment; apparatus and instruments for data communication, satellite communication and telecommunication; apparatus and instruments for monitoring of telecommunication networks and data communication networks; radar apparatus; phones, smartphones and other wearable and portable electronic devices for capturing, receiving, collecting, recording, reading, displaying, organizing, editing, transmitting, sharing, manipulating and reviewing data, text, maps, images and sounds; portable media players; tablet PCs; electronic agendas; electronic book readers; notebook computers; digital photo frames; cameras; camcorders; sensors; presence capture devices; wearable connected devices, namely devices in the form of watches, smart glasses, contact lenses, headbands, gloves, bracelets, earrings, jewelry, helmets and contact lenses that can be used for computing, sensing, scanning, recording, displaying, monitoring, data-processing, remote-controlling, predicting, programming, connecting to computer networks or for telecommunication purposes; wearable connected devices, namely computing devices to be carried by end-users, or to be worn on or into the body of end-users or to be incorporated into clothing, footwear, headgear, contact lenses, bags, textiles, fabrics, tissue and any kinds of materials and portable goods and accessories and that can be used for computing, sensing scanning, recording, displaying, monitoring, data-processing, remote controlling, predicting, programming, connecting to computer networks or for telecommunication purposes; wearable and portable computing devices; smartwatches; head-mounted displays; devices with electric, electronic and digital functions that can connect to computer networks and which have computing, sensory, scanning, communication, data-storage, biofeedback, physiological-tracking, health-monitoring, fitness-monitoring, predictive or augmented-reality capabilities, in the form of glasses, gloves, watches, clothing, footwear, headgear, bands and helmets;

batteries; chargers; printers; covers for phones, smartphones, computers, tablets and other wearable and portable handheld computing devices; audio, imaging, video and radio apparatus and instruments; speakers; headsets; microphones; television and multimedia apparatus; displays for electronic devices; displays for telecommunication devices; displays for computers and mobile phones; hands free kits for phones, smartphones, computers, tablets and other wearable and portable handheld computing devices; electronic publications; Global Positioning System (GPS) apparatus, instruments and devices; navigation apparatus for vehicles (on-board computers); navigational instruments; satellite navigational apparatus; apparatus and software for GPS navigation and mapping systems; chipsets; microprocessors; semi-conductors; smart cards (integrated circuit cards); printed circuits; remote control apparatus; downloadable sound, video and image files; electronic pens; electronic tags for goods; computer software, computer hardware and wearable computing devices allowing the remote monitoring, control and command of vehicles and vehicle parameters, of household appliances and furniture, of energy management systems, of home automation systems, of security systems, of home entertainment and audio/video equipment, of telecommunication devices, social media devices and computing devices, and of fitness and health telecare equipment; machine to machine (M2M) communications equipment and devices; computer game software; video game cartridges; memory cards for video game machines; software applications; optical goods; application programming interfaces (APIs); computer software and hardware allowing to listen to music and read audio/video files, to send and read out electronic messages, to take, edit, read, display and share digital photographs, sounds and videos, to browse on the Internet, to chat and to connect to social networks; digital maps; software applications for providing location-based and contextually-relevant advertisement; vision recognition software; audio recognition software; location tracking devices; software applications and hardware enabling the user to obtain location-related and contextually-relevant information; computer software and hardware providing health, fitness and well-being

information; downloadable software in the nature of a mobile application for displaying and sharing a user's location and finding, locating, and interacting with other users; computer software and hardware allowing online payment and payment at distance; computer software and programs featuring algorithms for the compression, decompression, encoding, decoding and processing of audio, video and imaging data; audio, video and images encoder/decoder (codec); computing and communication hardware and software for use by public safety agencies; alarms; anti-theft warning apparatus; computer memory devices; control panels (electricity); detectors; diagnostic apparatus, not for medical purposes; downloadable ring tones for mobile phones; electronic notice boards; extinguishers; fiber optic cables; high-frequency apparatus; intercommunication apparatus; interfaces for computers; lasers, not for medical purposes; life-saving equipment; light-emitting diodes [LED]; loudspeakers; masts for wireless aerials; material testing instruments and machines; monitors; optical fibers; optical data media; particle accelerators; photovoltaic cells; printers for use with computers; radar apparatus; radiotelephony sets; telemeters; refractors; regulating apparatus, electric; satellites for scientific purposes; scanners; simulators for the steering and control of vehicles; sonars; sounding apparatus and machines; steering apparatus, automatic, for vehicles; teleprinters; testing apparatus not for medical purposes; theft prevention installations, electric; USB flash drives; walkie-talkies.

Class 37

Installation, maintenance and repair services for electric and electronic devices and systems, telecommunication devices and systems, computer hardware and networking devices and systems, navigational devices and systems, sensors, chips, microprocessors, semi-conductors, smart cards (integrated circuit cards), printed circuits, drones and parts and fittings thereto; information, advisory and consultancy services relating to all the aforesaid services.

Class 38

Telecommunications services; telephone services; teleconferencing services; videoconferencing services; voice mail services; telecommunications routing and junction services; transmission of electronic mail; transmission of digital files; cellular telephone communication; communications by computer terminals; communications by fiber optic and wireless networks; satellite transmission; computer aided transmission of messages, sound, data and images; facsimile transmission; message sending; paging services (radio, telephone or other means of electronic communication); radio communications; radio broadcasting; television broadcasting; wireless broadcasting; streaming of data; video-on-demand transmission; news agency services; electronic bulletin board services (telecommunications services); rental, hire and leasing of telecommunications devices, equipment and systems; rental of telephones; rental of modems; rental of message sending apparatus; providing online forums; providing telecommunications connections to a global computer network; providing user access to global computer networks; providing telecommunication channels for teleshopping services; providing internet chatrooms; providing access to databases; rental of access time to global computer networks; information, advisory and consultancy services relating to all the aforesaid services.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; installation, maintenance and updating of computer software; computer programming; computer system analysis and design; computer virus protection services; computer security consultancy; engineering; electronic data storage; monitoring of computer systems by remote access; outsource service providers in the field of information technology; recovery of computer data; research and development of new products for others; provision of scientific information; scientific

laboratory services; technical project studies; technological consultancy; telecommunications technology consultancy; scientific and technological analysis, research, development, technical planning, technical optimization, software support, technical software troubleshooting and technological consultancy services in the field of telecommunications devices, equipment, networks, systems, solutions and software; design, engineering and development of telecommunications devices, equipment, networks, systems, solutions and software; cloud computing; server hosting; software as a service (SaaS) services; infrastructure as a service (IaaS) services; platform as a service (PaaS) services; application service provider (ASP) services; providing on-line (non-downloadable) software and mobile applications; providing temporary use of on-line non-downloadable software for use as an application programming interface (API); providing temporary use of on-line non-downloadable software development tools; rental of computer software and hardware; rental of audio, imaging, video, digital media, multimedia, virtual reality and presence capture software; rental of audio, imaging, video, digital media, multimedia, virtual reality and presence capture hardware for research purposes; data encoding and decoding services; leasing of data processing equipment; industrial design; off-site data backup; information, advisory and consultancy services relating to all the aforesaid services.
