Security services, namely, hosting on-line security systems, intrusion detection systems, fire alarm systems, access control systems, video surveillance systems, visitor management systems, identity management systems, Electronic Article Surveillance (EAS) systems, Elevated Skin Temperature (EST) systems, and Emergency Responder Communication Enhancement Systems (ERCES); Design of data center cabling; Design of fiber optic networks; Technology supervision and inspection in the field of security, fire and burglar alarm systems and alarm detection and monitoring services; Technical consultation services in the field of computer hardware, computer peripherals, and computer software used for network security and for security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, security alarms, smoke and gas alarms, office surveillance systems, lighting controls, office automation devices, and systems for fire protection and suppression; Remote monitoring of technological functions of computer systems for security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, building, facility and office surveillance systems, sprinkler systems for fire protection; Providing temporary use of non-downloadable computer software used to operate, manage and monitor security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, office surveillance systems, office automation devices; Providing temporary use of non-downloadable computer software used to monitor and track movement activity, health conditions and environmental conditions, and used to transmit electronic messages and data via communications networks; Inspection services for building management and electric signaling, checking and lifesaving apparatus and instruments and systems for fire protection to ensure proper functioning; Inspection services for security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, security alarms, smoke and gas alarms, office surveillance systems, systems for fire protection to ensure proper functioning; Industrial process supervisory services, namely, gas, pressure, temperature, power, operation and environmental electronic detection and monitoring associated with industrial machines to ensure proper functioning; Design and inspection of fire alarm, detection and suppression systems; Inspection, testing, analysis, and evaluation of Mass Notification Systems (MNS), Emergency Communication System (ECS), Voice Evacuation System (EVAC), Public Address (PA), Intercom systems, Bi-Directional Amplifiers (BDA) and Distributed Antenna Systems (DAS); Providing temporary use of online non-downloadable computer software for mass notification and other communication using multi-channel delivery methods; Engineering services, namely, engineering for the field of telecommunications, video, access control, supervisory control and data acquisition, mass notification, distributed recipient, and in-building telecommunication services; Software as a service (SAAS) services featuring software for operating and controlling communication, security and safety systems in the field of mass notifications; Design and development of security and surveillance systems, safety and fire systems, smoke detection systems, smoke control systems, heat detection systems, gas detection systems, communications systems in the nature of computer systems for rescue assistance systems, paging and intercom systems, mass notification systems, gunshot detection systems, severe weather systems, nurse call systems, patient wandering systems and infant protection systems, building automation systems, infrastructure protection systems in the nature of computer software for monitoring building infrastructure, regulatory compliance systems in the nature of computer hardware for monitoring financial security assets, customers and employees, and security and surveillance electronic devices; Physical and technical security design services for communications and notification systems, including audio-visual notification systems, mass notification systems, emergency notification systems (ENS), imminent danger notification systems (IDNS); Design, engineering, and development of Distributed Antenna Systems (DAS); Custom design, survey, layout and engineering of Distributed Antenna Systems (DAS), consisting of public safety and emergency responder radio coverage and cellular deployment; Consulting services relating to the integration of IT and security systems; Inspection, testing, analysis, and evaluation of building occupancy management systems to monitor building occupancy levels, employee and visitor tracking; Infrastructure as a service (IAAS) services, namely, hosting servers for use by others; Infrastructure as a service (IAAS) services, namely, hosting software for fire and security systems for use by others; Inspection, testing, analysis, and evaluation of intrusion detection systems, fire alarm systems, access control systems, CCTV systems, identity management systems, network cabling systems, and premise low voltage cabling systems; Inspection, testing, analysis, and evaluation of data center cabling; Inspection, testing, analysis, and evaluation of building management and electric signaling, checking and lifesaving apparatus and instruments and systems for fire protection; Inspection, testing, analysis, and evaluation of security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, security alarms, smoke and gas alarms, office surveillance systems, office automation devices and systems for fire protection; Inspection, testing, analysis, and evaluation of electronic access control systems for commercial buildings, electronic access control systems for interlocking doors, access control systems, alarm monitoring systems, electronic video surveillance products, electronic

components of security systems, security control panels, motion detectors, entry door systems, touch pads, electronically controlled perimeter intrusion detection systems, video surveillance systems, computer hardware for IP video surveillance, security badging systems, electronic card readers, control panels for security badging systems, computer hardware for security badging systems, electrical controllers for security access systems, access control devices, security management systems, remote transmitters and receivers, computer hardware for security management systems, open and closed circuit monitors, electrical switches for security management systems, alarm sensors, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, security alarms, smoke alarms, gas alarms, radio signal transmitters, video signal transmitters, digital signal transmitters, voice and video communication hubs, remote control units, keypads and control panels for security systems, surveillance systems, devices for fire protection, fire suppression systems, motion sensitive security lights, electric and electronic video surveillance installations, video and television monitors, mounting devices for cameras and monitors, HID readers; Inspection, testing, analysis, and evaluation of electronic visitor management systems comprising computer hardware, camera, printer and software which creates identification badges, records entry and exit of visitors, employees and packages, specifies whether visitors require escort, records who picks up packages, and identifies who is allowed access to a building; Inspection, testing, analysis, and evaluation of Electronic Article Surveillance (EAS) systems comprising reusable security tags, disposable labels, tag detachers, and label deactivators; Inspection, testing, analysis, and evaluation of Emergency Responder Communication Enhancement Systems (ERCES) comprising antenna, distributed antenna systems, bi-directional amplifiers, and RF splitters; Inspection, testing, analysis, and evaluation of environmental sensors and detectors for detecting heat, temperature, water, smoke, gas, pressure and movement; Inspection, testing, analysis, and evaluation of electrical controllers and switches for use with water flow, building, facility and office automation; Inspection, testing, analysis, and evaluation of cameras, including video, television and surveillance cameras.
