## **General Information**

### **1. Trade Marks Journal**

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

### **2. Notice of Opposition**

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

### **3. Practice Directions and Circulars**

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to [news@ipos.gov.sg](mailto:news@ipos.gov.sg) and letting us know the subject matter of interest (e.g. Trade Marks).

### **4. Information Contained in this Journal**

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

BIOSKRYB GENOMICS

**Goods and/or Services:**

**Class 01**

Testing assays and reagents for use in genetic research; diagnostic reagents for scientific, medical research, and research use; diagnostic reagents for clinical or medical laboratory use; reagents for industrial use; laboratory reagents for use in kits for high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; reagents and containers of reagents, namely, laboratory reagents comprising paramagnetic beads for use in the processing, purification, and cleanup of samples containing genomic material, including material from single cells, for medical research and research purposes; reagents and containers of reagents, namely, laboratory reagents for use in the amplification and recovery of genomic material, including genomic material from single cells; chemical substances and products for use in genomic research; biochemicals, namely, biological laboratory

reagents for use in whole genome amplification to detect genetic variants in each cell; laboratory chemicals, namely, an antibody reagent used for genomic research.

Class 09

Downloadable computer software for collecting, analyzing, reporting, and tracking data and information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; downloadable computer software for collecting, analyzing, reporting, and tracking data and information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; downloadable computer software for bioinformatic DNA sequencing analysis for the purpose of allowing users to evaluate data quality, compare results between cells and samples, and integrate multi-omics data; downloadable computer software for bioinformatic DNA sequencing analysis for evaluating data, namely, sequencing alignment, coverage, and single nucleotide, structural, and copy number variant calling metrics; downloadable computer software for genomic analysis and sequencing for scientific, medical, and research purposes; downloadable computer software for medical and scientific research in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; downloadable computer software for nucleic acid and ribonucleic acid analysis for medical and scientific research purposes; downloadable computer software for providing medical and scientific research information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; downloadable computer software for medical and scientific research in connection with high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; downloadable computer software for

medical and scientific research in connection with genome amplification to detect genetic variants in cells; downloadable computer software for medical and scientific research in connection with measuring genetic diversity in single cells; downloadable computer software for medical and scientific research in connection with primary template-directed amplification for use in connection with single cells and ultra-low DNA input samples; downloadable computer software for medical and scientific research for the purpose of elevating single cell genome variants for the purpose of genome amplification; downloadable computer software for DNA analysis and sequencing services for scientific, medical, and research purposes; downloadable computer software for research, development and consultancy in the field of genomics; downloadable computer software for compiling data for research purposes in the field of genomics; downloadable computer software for providing medical research information in the field of genomics, gene therapy, cell therapy for medical purposes; downloadable computer software for use in connection with medical testing, diagnosis, and treatment purposes; downloadable computer software for use in connection with offering medical analysis services for diagnostic and treatment purposes provided by medical laboratories; downloadable computer software for use in connection with medical diagnostic testing, monitoring, and reporting services; downloadable computer software for medical analysis and diagnostic services in connection with the fields of oncology, cardiology, prenatal genetic testing (PGT), neurological genetic disorders, immunology, microbiome, toxicology, and bioprocessing; downloadable computer software for medical analysis and diagnostic services in the field of gene therapy and cell therapy; downloadable computer software for medical analysis and diagnostic services in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, metagenomics, meta-transcriptomics, and microbiomics; diagnostic apparatus comprising of reagents for scientific use; gene and genetic testing apparatus in the nature of apparatus for DNA and RNA testing for scientific purposes; scientific and laboratory apparatus and instruments for the amplification and recovery of genomic material,

including genomic material from single cells; laboratory apparatus and instruments relating to genomic testing kits; diagnostic kits [laboratory equipment and apparatus] comprised of reagents and essays for detecting, testing, analyzing, and sequencing genes, nucleic acids, and biological molecules for research purpose; scientific and laboratory apparatus and instruments relating to magnetic plates for use with magnetic and paramagnetic beads for the processing, purification, and cleanup of samples containing genomic material, including material from single cells; laboratory equipment and apparatus for sale in kit form comprising reagents, namely, reagents comprising paramagnetic beads for use in the processing, purification, and cleanup of samples containing genomic material, including material from singles, for research purposes; laboratory equipment and apparatus for sale in kit form comprising multi-well plates, magnetic plates, and reagents comprising paramagnetic beads for the processing, purification, and cleanup of samples containing genomic material, including material from single cells; laboratory equipment and apparatus for sale in kit form comprising reagents for the amplification and recovery of genomic material, including genomic material from single cells; laboratory equipment and apparatus for sale in kit form containing assays, reagents, and chemical substances and products for use in genomic research; laboratory equipment and apparatus for sale in kit form for use in genetic research; laboratory equipment and apparatus for sale in kit form containing biochemicals, namely, biological reagents for use in whole genome amplification to detect genetic variants in each cell; laboratory equipment and apparatus for sale in kit form containing laboratory chemicals, namely, an antibody reagent used for genomic research.

#### Class 10

Testing apparatus for sale in kit form for medical diagnostic purposes relating to high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and

transcriptome profiling; diagnostic apparatus comprising of reagents for medical use; medical diagnostic kits apparatus for sale in kit form comprised of reagents and assays for detecting, testing, analyzing, and sequencing genes, nucleic acids, and biological molecules; medical testing apparatus for sale in kit form for use in the amplification and recovery of genomic material, including genomic material from single cells; medical testing apparatus for sale in kit form comprised of biological reagents for use in whole genome amplification to detect genetic variants in cells; gene and genetic testing apparatus in the nature of apparatus for DNA and RNA testing for medical purposes; medical apparatus and instruments for the amplification and recovery of genomic material, including genomic material from single cells; medical apparatus and instruments relating to magnetic plates for use with magnetic and paramagnetic beads for the processing, purification, and cleanup of samples containing genomic material, including material from single cells.

#### Class 42

Genomic laboratory analysis and sequencing services for scientific, medical research, and research purposes; medical and scientific research in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; nucleic acid and ribonucleic acid laboratory analysis services for medical research and scientific research purposes; providing medical and scientific research information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; medical and scientific research in connection with high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; medical and scientific research in connection with genome amplification to detect genetic variants in cells; medical and scientific research in connection with measuring genetic diversity in single cells; medical and scientific

research in connection with primary template-directed amplification for use in connection with single cells and ultra-low DNA input samples; medical and scientific research for the purpose of elevating single cell genome variants for the purpose of genome amplification; DNA laboratory analysis and sequencing services for scientific, medical research, and research purposes; research, development and research and development consultancy in the field of genomics; medical research in the nature of compilation of data-processing programs for research purposes in the field of genomics; providing medical research information in the field of genomics, gene therapy, cell therapy for medical purposes; providing on-line non-downloadable software for collecting, analyzing, reporting, and tracking data and information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; platform as a service (PAAS) featuring computer software platforms for collecting, analyzing, reporting, and tracking data and information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; software as a service (SAAS) services featuring software for collecting, analyzing, reporting, and tracking data and information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; providing temporary use of non-downloadable computer software for bioinformatic DNA sequencing analysis for the purpose of allowing users to evaluate data quality, compare results between cells and samples, and integrate multi-omics data; providing temporary use of non-downloadable computer software for bioinformatic DNA sequencing analysis for evaluating data, namely, sequencing alignment, coverage, and single nucleotide, structural, and copy number variant calling metrics; providing temporary use of non-downloadable computer software for genomic analysis and sequencing for scientific, medical, and research purposes; providing temporary use of non-downloadable computer software for medical and scientific research in the fields of genetics, genomics, proteomics, transcriptomics,

epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; providing temporary use of non-downloadable computer software for nucleic acid and ribonucleic acid analysis for medical and scientific research purposes; providing temporary use of non-downloadable computer software for providing medical and scientific research information in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics; providing temporary use of non-downloadable computer software for medical and scientific research in connection with high-quality single-cell and low-input DNA amplification, primary template-directed amplification (PTA) reaction and library cleanup, optimum bead cleanup performance, single-cell and low-input transcriptional profiling, and combined genome and transcriptome profiling; providing temporary use of non-downloadable computer software for medical and scientific research in connection with genome amplification to detect genetic variants in cells; providing temporary use of non-downloadable computer software for medical and scientific research in connection with measuring genetic diversity in single cells; providing temporary use of non-downloadable computer software for medical and scientific research in connection with primary template-directed amplification for use in connection with single cells and ultra-low DNA input samples; providing temporary use of non-downloadable computer software for medical and scientific research for the purpose of elevating single cell genome variants for the purpose of genome amplification; providing temporary use of non-downloadable computer software for DNA analysis and sequencing services for scientific, medical, and research purposes; providing temporary use of non-downloadable computer software for research, development and consultancy in the field of genomics; providing temporary use of non-downloadable computer software for compiling data for research purposes in the field of genomics; providing temporary use of non-downloadable computer software for providing medical research information in the field of genomics, gene therapy, cell therapy for medical purposes; providing temporary use of non-downloadable

computer software for use in connection with medical testing, diagnosis, and treatment purposes; providing temporary use of non-downloadable computer software for use in connection with offering medical analysis services for diagnostic and treatment purposes provided by medical laboratories; providing temporary use of non-downloadable computer software for use in connection with medical diagnostic testing, monitoring, and reporting services; providing temporary use of non-downloadable computer software for medical analysis and diagnostic services in connection with the fields of oncology, cardiology, prenatal genetic testing (PGT), neurological genetic disorders, immunology, microbiome, toxicology, and bioprocessing; providing temporary use of non-downloadable computer software for medical analysis and diagnostic services in the field of gene therapy and cell therapy; providing temporary use of non-downloadable computer software for medical analysis and diagnostic services in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics.

#### Class 44

Medical testing for diagnostic or treatment purposes; Medical analysis services for diagnostic and treatment purposes provided by medical laboratories; medical diagnostic testing, monitoring and reporting services; medical analysis and diagnostic services in connection with the fields of oncology, cardiology, prenatal genetic testing (PGT), neurological genetic disorders, immunology, microbiome, toxicology, and bioprocessing; medical analysis and diagnostic services in the field of gene therapy and cell therapy; medical analysis and diagnostic services in the fields of genetics, genomics, proteomics, transcriptomics, epigenomics, metabolomics, meta-genomics, meta-transcriptomics, and microbiomics.
