Computer hardware and software for cloud computing; Computer hardware and software for cognitive computing; Computer hardware and software for artificial intelligence; Computer hardware and software for blockchain technology; Computer hardware and software for quantum computing and quantum programming; Computer hardware, namely, magnetic tape units (data processing), magnetic tapes, printed circuits, integrated circuits, computer keyboards, compact disks (audio-video), optical disks, couplers (data processing), diskettes, magnetic data carriers; Computer hardware, namely, video screens, scanners, computer printers, interfaces (data processing), readers (data processing), software (recorded programs), microprocessors, modems, monitors (hardware), computers, computer memories, computer peripherals; Computer adapters; Computer components; Data processing equipment; Data processing equipment for data and information management; Semiconductors; Machine-readable electronic data media; Magnetic disks; Disk drives; Tape recorders; Calculating machines; Cash registers; Facsimile machines; Video recorders; Video tapes; Electric batteries; Computer chips; Boards for integrated circuits; Computer accessories, namely, computer communication servers; Computer carrying cases; Computer interface boards; Computer cables and computer cable parts; Fax modem cards for computers; Computer accessories, namely, screen filters, mouse pads, radio pagers, joysticks; Electric converters, namely, digital-to-analog, analog-to-digital and step-by-step voltage switches; Computer mouses; Integrated circuit cards and smart cards, adapters for integrated circuits and adapters for smart cards; Readers for integrated circuit cards and smart cards; Microcomputers; Electrical power supplies; Projectors (projection apparatus); Remote controls for computers; Inverters, surge protectors and uninterruptible power supplies; Point-of-sale terminals; Computer servers; Computer storage devices, namely high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunication network; Recorded and downloadable computer programs and software; Video game software; Operating system software and programs; Software used for accessing a global computer network; Document management software; Database management software; Software used for locating, retrieving and receiving text, electronic documents, graphics and audiovisual information on enterprise-wide internal computer networks and local and wide-area global computer networks; Software used for software development and web authoring and user manuals in electronic format sold as a unit with these products; Computer software for use in controlling the operation and execution of computer systems, programs, and computer networks; Computer software for use in connecting disparate computer networks and systems, computer servers and storage devices; Computer programs for linking computers together and for enabling computer activities across a global computer network; Computer software for managing systems, software and processes that exist within an information technology environment; Computer systems combining computer hardware and software for use in management and analysis of data and instruction manuals in electronic format sold with these products; Cloud computing systems, namely networks integrating computer hardware and software for dynamic provisioning, virtualization and consumption metering of computer resources; Recorded and downloadable cloud-computing software for deploying and managing virtual machines to a cloud computing platform; Computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which are capable of collecting, organizing and analyzing data; Computer systems, namely, computer hardware and computer software for integrating Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; Software for developing, building and operating blockchain applications; Computer hardware and computer software for developing and testing quantum algorithms; Documentation and instruction manuals recorded on machine-readable electronic data media and relating to computers or computer programs; Electronic publications; Electronic publications on computer media, namely, user manuals, guide books, brochures, information sheets, written presentations and teaching materials in the field of computing, computer networks, computer storage, computer operating systems, information technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing; Downloadable virtual goods and digital files; Virtual reality software; Computer software for use in connection with virtual and digital assets, properties, files, goods, cryptographic assets, semi-fungible tokens and non-fungible tokens (NFTs).
