General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Mark Clause(s):

The mark is a movement mark, as shown in the representation on the form of application, starting from the top left corner moving across the row to the far right, returning to the second left row and moving across again to the far right, continuing

in this order from left to right, ending with the 2nd frame in the last row, whereupon the sequence will end. It is composed of 14 images. The sequence begins with a red disk-shaped figure which starts a rolling movement. Next, a green disk-shaped figure appears and it begins to roll with the red disk-shaped figure. Then, a blue disk-shaped figure appears and the three disk-shaped figures rotate with a distance between them, gradually closing the distance between them and the figures begin to overlap until almost only the blue disk-shaped figure remains visible. After that, the overlapped figures turn into a blue circle with an opening in the center and the outline of the blue circle gradually becomes thinner and the overall outline of the circle gradually becomes larger and a blue check mark appears in the centre of the blue circle. The mark consists of a single sequence of movement over the duration of approximately two seconds.

Class 05

Blood for medical use; biological samples for medical use; chemical reagents for

medical use; diagnostic products for medical use; in vitro testing kits; medical diagnostic reagents and assays for testing of body fluids or medical diagnostic reagents, sold in kit form.

Class 10

Biological sampling collection kit for medical and diagnostic use comprised of Cerebrospinal Fluid (CSF) sampling tubes, holder for medical sample tubes and vials, medical specimen bags for holding body tissue samples for testing purposes, all the aforesaid for the collection and diagnostic testing of blood, tissue and other biospecimens including serum, plasma and urine; biological sampling kit for use in clinical trials comprised of Cerebrospinal Fluid (CSF) sampling tubes, holder for medical sample tubes and vials, medical specimen bags for holding body tissue samples for testing purposes, all the aforesaid for the collection and testing of blood, tissue and other biospecimens including serum, plasma and urine; biological sampling kit for medical and biological screening use comprised of Cerebrospinal Fluid (CSF) sampling tubes, holder for medical sample tubes and vials, medical specimen bags for holding body tissue samples for testing purposes, all the aforesaid for the collection and testing of blood, tissue and other biospecimens including serum, plasma and urine; apparatus for medical use for detecting microorganisms, bacteria, yeast, viruses; apparatus for medical use in analyzing biological samples.

Class 42

Advisory services with respect to monitoring diagnostic protocols; advisory services with respect to calibrating scientific apparatus and instruments; advisory services with respect to calibrating diagnostic apparatus and instruments; advisory services with respect to developing chemical and biological reagents; preparation of biological samples for research purposes; preparation of biological samples for testing and analysis in research laboratories; scientific and technological services; laboratory

services; medical laboratory services; laboratory services in medical biology, namely, chemical analyses, biological analyses, bacteriological analyses, biochemical analyses, genetic analyses; medical, veterinary, pharmacological, agri-food, cosmetic research services; biological, clinical and medical research; biological, pharmacological and genetic analyses; conducting clinical trials; providing information and data with respect to research and development in the medical, biological, pharmaceutical, agri-food, cosmetic and veterinary fields; providing medical and scientific research information concerning the development, monitoring and results of clinical trials; engineering work in the medical field of public human health; research services with respect to human medical biology; biological and pharmaceutical research; quality control; designing and developing software and databases, particularly in the medical field of human health; providing clinical trial information relating to medical biology and anatomical-cytopathology examinations necessary for conducting the clinical trial; providing information on clinical trial protocols; veterinary laboratory services; engineering and research work for others; designing and developing software and databases; non-medical imaging services, namely ultrasound imaging services for scientific or research purposes.

Class 44

Blood bank services; biological sampling bank services namely blood bank, human cell bank and human tissue bank services; collection of biological sampling material for medical diagnosis and treatment; providing medical information; medical laboratory services for the analysis of samples taken from patients; medical and veterinary analysis services; providing medical and veterinary information relating to treatment and management of diseases or conditions for humans and animals; medical testing for diagnostic purposes in the context of clinical trials; public health advice; provision of medical information in the field of health; provision of individual medical examination reports; carrying out disease diagnoses; medical consultancy in the field of medical genetic testing, in vitro fertilization, medical and veterinary for the

diagnosis and treatment of humans and animals; medical and biological analyses for treating people; veterinary and biological analyses for treating animals; DNA analyses for medical and veterinary purposes; genetic analyses for medical and veterinary use; medical and veterinary screening; medical imaging services; medical, biological and veterinary diagnostic services; services for preparing medical reports; medical and health services with respect to DNA, genetics and genetic testing; medical tests for diagnostic or treatment purposes; x-ray examinations for medical purposes.

Mark Clause(s):

The following claim is made in the International Registration: Colour(s) claimed:
Black and gold.

The mark consists of a three-dimensional shape of a bottle with the words "VOLCAN DE MI TIERRA" and letters "X.A" and devices and embossed details appearing thereon as shown in the representation on the notification of international registration including the following features: The bottle has a three-curved neck design with narrow shoulder having embossed details and a wide base; The neck and upper part of the bottle are in black colour while the lower part of the bottle combined with the liquid is in gold. The colours black and gold blend around the mid-section of the bottle. At the top front part of the bottle is a design in gold tone comprising a volcano device with sparkles-like lines over the top and at the center top of the volcano is an empty space shaped like a heart. Underneath the design in gold tone are the words

“VOLCAN DE MI TIERRA” and “X.A” in capital letters. On the body of the bottle, there are vertical stylized embossed stripes with diamonds interspersed with elongated rhombuses in gold colour lined in-between. The base of the bottle comprised a concave shape of a volcano with reliefs all over the surface. The half-sphere shape cap is in gold colour with the words “VOLCAN DE MI TIERRA” outlining the top circumference of the cap and with “X.A” placed in the lower center of the cap.

Registration of this mark shall give no right to the exclusive use of the term "X.A".

At the top front part of the bottle is a design in gold tone comprising a volcano device with sparkles-like lines over the top and at the center top of the volcano is an empty space shaped like a heart. Underneath the design in gold tone are the words “VOLCAN DE MI TIERRA” and “X.A” in capital letters. On the body of the bottle, there are vertical stylized embossed stripes with diamonds interspersed with elongated rhombuses in gold colour lined in-between. The base of the bottle comprised a concave shape of a volcano with reliefs all over the surface. The half-sphere shape cap is in gold colour with the words “VOLCAN DE MI TIERRA” outlining the top circumference of the cap and with “X.A” placed in the lower center of the cap.

charging stations for electric vehicles; battery charging devices for motor vehicles; computer software and mobile applications for analyzing and managing energy distribution, consumption and storage; computer programs for information, analysis and reporting of energy use, energy efficiency, energy saving, cost analysis; software for home automation; wireless operating apparatus for reading (smart) meter data; smart meters; downloadable virtual goods for use online and in online virtual worlds, specifically, downloadable computer software for interactive games via a global computer network, via wireless networks and via electronic devices; downloadable software for engaging in social networking and interacting with online communities; downloadable software for real-time streaming of multimedia entertainment content and for accessing this content; downloadable software for providing access to an online virtual environment; downloadable multimedia files featuring design pattern, text, audio and video files authenticated using non-fungible tokens; downloadable computer programs featuring virtual goods in the form of electrical energy, electrical energy from renewable sources, electrical energy obtained from non-renewable sources, natural gas, fuel gas, apparatus for measuring, monitoring and analyzing electricity consumption; downloadable computer programs featuring virtual goods in the form of smart electronic devices for home automation, electronic devices enabling users to remotely interact with environmental monitoring, control, and automation systems; downloadable computer programs featuring virtual goods in the form of electronic devices enabling the sharing and transmission of data and information between devices to facilitate environmental monitoring, control, and automation, electric sensors, electronic sensors, electronic surveillance equipment and monitoring modules for monitoring energy consumption; downloadable computer programs featuring virtual goods in the form of electrical control devices for energy management, software drivers for electronic devices enabling communication between computer hardware and electronic devices, systems for connecting and regulating apparatus that consume energy; downloadable computer programs featuring virtual goods in the form of

systems for connecting and regulating apparatus that consume electricity; downloadable computer programs featuring virtual goods in the form of electronic security systems, charging stations for electric vehicles, battery charging devices for motor vehicles, smart electronic devices for home automation, wireless operating apparatus for reading (smart) meter data, smart meters; downloadable computer programs featuring virtual goods in the form of apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations; downloadable computer programs featuring virtual goods in the form of pressure water tanks, flushing tanks, hot water tanks, heating boilers, long-term heat accumulators, solar thermal energy collectors; downloadable computer programs featuring virtual goods in the form of heat accumulators, heat pumps, solar panels [heating], solar furnaces, solar thermal collectors [heating], heating apparatus powered by solar energy, heating apparatus powered by solar energy, solar energy accumulators for heating, solar energy accumulators for heating; downloadable computer programs featuring virtual goods in the form of heat pumps, roof plates for solar-thermal and photovoltaic collectors (for heating) (none of metal), installations, solar installations for heat generation, electric vehicles, electric bicycles for use online and in online virtual worlds; downloadable computer software for interactive games; downloadable computer software for creating, producing and modifying animated and non-animated digital designs, art, characters, avatars, overlays and digital skins to access online environments, online virtual environments, and extended reality virtual environments, and for use therewith.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations; pressure water tanks; flushing tanks; hot water tanks; heating boilers, long-term heat accumulators; solar thermal

energy collectors; heat accumulators; heat pumps; solar panels [heating]; solar furnaces; solar thermal collectors [heating], heating apparatus powered by solar energy, solar energy accumulators for heating; solar thermal collectors [heating] and solar energy collectors for heating [not of metal]; solar installations for heat generation.

Class 35

Billing services in the energy sector; energy price comparison services; publicity and advertisement services relating to electrical energy; compilation and systemization of information in computer databases; database marketing; compilation of data for others; administrative services in connection with bonus, incentive and customer loyalty programs; organisation of customer loyalty programs for commercial, promotional or advertising purposes; sales promotion by means of customer loyalty programs; assistance and consultancy services in the field of commercial business management of the energy sector; data collection; sales promotion services for others in the field of electric energy; promotion of goods and services through the sponsoring of sports events; online retail services for downloadable virtual goods in the form of electrical energy, electrical energy from renewable sources, electrical energy obtained from non-renewable sources, natural gas, fuel gas, apparatus for measuring, monitoring and analyzing electricity consumption; online retail services for downloadable virtual goods in the form of smart electronic devices for home automation, electronic devices enabling users to remotely interact with environmental monitoring, control, and automation systems, electronic devices enabling the sharing and transmission of data and information between devices to facilitate environmental monitoring, control, and automation; online retail services for downloadable virtual goods in the form of electric sensors, electronic sensors, electronic surveillance equipment and monitoring modules for monitoring energy consumption, electrical control devices for energy management, software drivers for electronic devices enabling communication between computer hardware and electronic devices; online

retail services for downloadable virtual goods in the form of systems for connecting and regulating apparatus that consume energy, systems for connecting and regulating apparatus that consume electricity, systems for connecting and regulating electric current generators, systems for connecting and regulating energy generators, systems for remote monitoring of technical systems, systems for remote monitoring of electric current supply devices; online retail services for downloadable virtual goods in the form of electronic security systems, charging stations for electric vehicles, battery charging devices for motor vehicles, smart electronic devices for home automation, wireless operating apparatus for reading (smart) meter data, smart meters; online retail services for downloadable virtual goods in the form of apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations; online retail services for downloadable virtual goods in the form of pressure water tanks, flushing tanks, hot water tanks, heating boilers, long-term heat accumulators, solar thermal energy collectors, heat accumulators, heat pumps, solar panels [heating], solar furnaces, solar thermal collectors [heating]; online retail services for downloadable virtual goods in the form of solar energy powered heating apparatus, solar energy powered heating apparatus, solar energy accumulators for heating, solar energy accumulators for heating, heat pumps, roof plates for solar thermal and photovoltaic collectors (heating) (none of metal); online retail services for downloadable virtual goods in the form of solar installations for generating heat, electric vehicles, electric bicycles, all the aforesaid goods for online use in online virtual worlds; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of electrical energy, electrical energy from renewable sources, electrical energy obtained from non-renewable sources, natural gas, fuel gas, apparatus for measuring, monitoring and analyzing electricity consumption smart electronic devices for home automation; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of electronic devices enabling users to remotely interact with

environmental monitoring, control, and automation systems, electronic devices enabling the sharing and transmission of data and information between devices to facilitate environmental monitoring, control, and automation; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of electric sensors, electronic sensors, electronic surveillance equipment and monitoring modules for monitoring energy consumption, electrical control devices for energy management, software drivers for electronic devices enabling communication between computer hardware and electronic devices; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of systems for connecting and regulating apparatus that consume energy, systems for connecting and regulating apparatus that consume electricity, systems for connecting and regulating electric current generators, systems for connecting and regulating energy generators, systems for remote monitoring of technical systems; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of systems for remote monitoring of electric current supply devices, electronic security systems, charging stations for electric vehicles, battery charging devices for motor vehicles, smart electronic devices for home automation; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of wireless operating apparatus for reading (smart) meter data, smart meters, apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of pressure water tanks, flushing tanks, hot water tanks, heating boilers, long-term heat accumulators, solar thermal energy collectors, heat accumulators, heat pumps, solar panels [heating]; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of solar furnaces, solar thermal collectors [heating], solar energy powered heating apparatus, solar energy powered heating apparatus, solar energy accumulators for heating; online retail services for

downloadable virtual goods authenticated by non-fungible tokens in the form of solar energy accumulators for heating, heat pumps, roof plates for solar thermal and photovoltaic collectors [heating] [none of metal], solar installations for heat generation, electric vehicles, electric bicycles, all the aforesaid goods for online use in online virtual worlds; online retail services for downloadable virtual reality content and downloadable digital media files in the form of downloadable digital prerecorded music, downloadable digital videos, downloadable digital images, downloadable digital text, downloadable digital audiovisual works, and downloadable software for virtual and augmented reality games; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of electrical energy, electrical energy from renewable sources, electrical energy obtained from non-renewable sources, natural gas, fuel gas, apparatus for measuring, monitoring and analyzing electricity consumption smart electronic devices for home automation for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of electronic devices enabling users to remotely interact with environmental monitoring, control, and automation systems, electronic devices enabling the sharing and transmission of data and information between devices to facilitate environmental monitoring, control, and automation for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of electric sensors, electronic sensors, electronic surveillance equipment and monitoring modules for monitoring energy consumption, electrical control devices for energy management, software drivers for electronic devices enabling communication between computer hardware and electronic devices for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of systems for connecting and regulating apparatus that consume energy, systems for connecting and regulating apparatus that consume electricity, systems for connecting and regulating electric current generators, systems for connecting and regulating energy generators, systems for remote monitoring of technical systems for use in virtual

environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of systems for remote monitoring of electric current supply devices, electronic security systems, recharging stations for electric vehicles, battery charging devices for motor vehicles, smart electronic devices for home automation for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of wireless operating apparatus for reading (smart) meter data, smart meters, apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations for use in virtual environments for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of pressure water tanks, flushing tanks, hot water tanks, heating boilers, long-term heat accumulators, solar thermal energy collectors, heat accumulators, heat pumps, solar panels [heating], solar furnaces, solar thermal collectors [heating], solar energy powered heating apparatus for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of solar energy accumulators for heating, heat pumps, roof plates for solar thermal and photovoltaic collectors [for heating] [none of metal], solar installations for heat generation, electric vehicles, electric bicycles for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods authenticated using non-fungible tokens in the form of electrical energy, electrical energy from renewable sources, electrical energy obtained from non-renewable sources, natural gas, fuel gas, apparatus for measuring, monitoring and analyzing electricity consumption smart electronic devices for home automation for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods authenticated using non-fungible tokens in the form of electronic devices enabling users to remotely interact with environmental monitoring, control, and automation systems, electronic devices enabling the sharing and transmission of data and information

between devices to facilitate environmental monitoring, control, and automation for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods authenticated using non-fungible tokens in the form of electric sensors, electronic sensors, electronic surveillance equipment and monitoring modules for monitoring energy consumption, electrical control devices for energy management for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods authenticated using non-fungible tokens in the form of software drivers for electronic devices enabling communication between computer hardware and electronic devices, systems for connecting and regulating apparatus that consume energy, systems for connecting and regulating that consume electricity for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods authenticated using non-fungible tokens in the form of systems for connecting and regulating electric current generators, systems for connecting and regulating energy generators, systems for remote monitoring of technical systems, systems for remote monitoring of electric current supply devices, electronic security systems for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods authenticated using non-fungible tokens in the form of charging stations for electric vehicles, battery charging devices for motor vehicles, smart electronic devices for home automation, wireless operating apparatus for reading (smart) meter data, smart meters for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods authenticated using non-fungible tokens in the form of apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods authenticated using non-fungible tokens in the form of pressure water tanks, flushing tanks, hot water tanks, heating boilers, long-term heat accumulators, solar thermal energy collectors, heat accumulators, heat

pumps, solar panels [heating], solar furnaces for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods authenticated using non-fungible tokens in the form of solar thermal collectors [heating], solar energy powered heating apparatus, solar energy accumulators for heating, heat pumps, roof plates for solar thermal and photovoltaic collectors [heating] [none of metal] for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods authenticated using non-fungible tokens in the form of solar installations for heat generation, electric vehicles, electric bicycles for use in virtual environments; online retail services for downloadable virtual goods in the form of virtual reality and augmented reality hardware and software.

Class 36

Consultancy relating to the financing of energy projects, financial advisory services in the field of energy; financing and insurance services, in particular for installations and equipment for generating, controlling, measuring, optimizing, storing and managing energy and currents; financing and monetary affairs and monetary and financial transactions, particularly in the energy sector and in the environmental sector and air-conditioning technology; real estate affairs; brokerage of contracts for third parties, in particular regarding supply and transport of electricity, gas, heat and water.

Class 37

Installation, repair and maintenance of electrical power plants, electrical power distribution networks and energy transformation centers; installation, repair and maintenance services for networks for distribution of gas, electricity and any other power source; installation, repair and maintenance services for energy consumption control apparatus and devices, for lighting, heating, steam generation, cooking, refrigerating, drying and ventilation apparatus, regulation and safety accessories, power supplies for heating boilers, gas scrubbing apparatus, boilers and gas lighters;

providing information for the aforementioned services; installation, repair and maintenance services for apparatus and machines for automated control of lighting, temperature, security and telecommunications in buildings; services for the construction, installation, repair and maintenance of power plants and buildings and installations therefor; electric vehicle charging services; installation, repair and maintenance of charging stations for electric vehicles.

Class 39

Transport, distribution, supply and storage of electricity and energy; rental of electric cars; rental of apparatus for distribution, transmission and storage of electricity; rental of apparatus for distribution of gas and storage of gas; rental of gas distribution apparatus.

Class 40

Production of energy; electricity generation; leasing of equipment for energy generation; recycling of waste and trash; treatment and processing of waste and trash; water treatment; commissioned assembly of products for third parties, namely custom assembly of apparatus and machines for automated control of lighting, temperature, security and telecommunications in buildings.

Class 41

Preparation and conducting of workshops, conferences, training events, congresses, seminars, exhibitions and symposiums; entertainment services; sporting and cultural activities; providing entertainment services via an interactive website featuring interactive game and virtual reality services; entertainment services, specifically, online video games for recreational use, leisure or entertainment purposes; entertainment services, specifically; provision online of animated and non-animated digital designs and characters, avatars, digital overlays and skins for use in virtual environments and created for entertainment; interactive online entertainment services provided in virtual environments for users to interact for recreational, leisure

or entertainment purposes; entertainment services provided in virtual environments featuring multimedia entertainment content and live social entertainment events available via streaming services; virtual reality and interactive game services provided online from a global computer network and via various wireless networks and electronic devices; entertainment services, specifically, preparation, organization, and hosting of virtual performances and social entertainment events.

Class 42

Programming of energy management software, advisory services relating to energy consumption and efficiency; computer programming for the energy industry; engineering services for energy supply systems; design and development of energy management software; development of energy and electricity management systems; design and development of energy distribution networks; recording data relating to energy consumption in buildings; technical advice related to energy-saving measures; engineering services in the field of energy technology; advisory services relating to energy consumption; design and development of renewable energy generation systems; technical advice in connection with energy-saving measures; technological consultancy services in the field of alternative energy generation; technological consultancy in connection with energy production and use; consultancy concerning technological services in the field of power supply and electricity; design and development of software for controlling, regulating and monitoring electrical energy systems; provision of information relating to research and technical project studies in relation to electric energy consumption; engineering project management services; technical monitoring and evaluation and consultancy services in the field of electric energy measurement; advice in the field of energy saving and energy efficiency performance; research and analysis in the field of energy; certification services for energy efficiency in buildings; technological analysis regarding third-party energy and electricity needs; providing temporary use of on-line non-downloadable operating software for accessing and using computer networks in the cloud; design and

development of operating software for accessing and using a cloud computing network; drafting of surveys, reports, projects and appraisals, all of a technical nature, in the field of gas, electricity and any other energy sources; calibration (measuring); energy auditing; engineering services; technical project studies; research, development and design of power plants; consultancy in the field of energy use management and energy efficiency.

Apparatus for measuring, monitoring and analyzing electricity consumption; computer software for measuring, monitoring and analyzing electrical consumption; mobile applications for measuring, monitoring and analyzing electrical consumption; mobile applications for the management of electric vehicle charging points; smart electronic devices for home automation; electronic devices and software allowing users to remotely interact with environmental monitoring, control, and automation systems; electronic devices and software allowing the sharing and transmission of data and information between devices to facilitate environmental monitoring, control, and automation; electric sensors; electronic sensors; electronic surveillance equipment and monitoring modules for monitoring energy consumption; electrical control devices for energy management; software drivers for electronic devices enabling communication between computer hardware and electronic devices; software for connecting and regulating energy consuming apparatus; computer systems, operating systems (electric, electronic or robotic) and electric and electronic control systems for connecting and regulating energy consuming apparatus; software for connecting and regulating apparatus that consume electricity; computer systems, operating systems (electric, electronic or robotic) and electric and electronic control systems for connecting and regulating apparatus that consume electricity; software for connecting and regulating electric current generators; computer systems, operating systems (electric, electronic or robotic) and electric and electronic control systems for connecting and regulating electric current generators; software for connecting and regulating energy generators; computer systems, operating systems (electric, electronic or robotic) and electric and electronic control systems for connecting and regulating energy generators; software for remote monitoring of technical systems; computer systems, operating systems (electric, electronic or robotic) and electric and electronic control systems for remote monitoring of technical systems; software for remote monitoring of electric current supply devices; computer

systems, operating systems (electric, electronic or robotic) and electric and electronic control systems for remote monitoring of electric current supply devices; computer programs for analyzing, reporting and providing information on energy consumption, energy efficiency, energy saving, cost analysis, energy administration and energy analysis; computer programs for analyzing, reporting and providing information on ecological reports and analysis of environmental influence; computer programs for analyzing, reporting and providing information on alarm systems; computer programs for analyzing, reporting and providing information on the trend in energy usage; computer programs for invoice management; electronic security systems; environmental control software, building access control and security systems; charging stations for electric vehicles; battery charging devices for motor vehicles; computer software and mobile applications for analyzing and managing energy distribution, consumption and storage; computer programs for information, analysis and reporting of energy use, energy efficiency, energy saving, cost analysis; software for home automation; wireless operating apparatus for reading (smart) meter data; smart meters; downloadable virtual goods for use online and in online virtual worlds, specifically, downloadable computer software for interactive games via a global computer network, via wireless networks and via electronic devices; downloadable software for engaging in social networking and interacting with online communities; downloadable software for real-time streaming of multimedia entertainment content and for accessing this content; downloadable software for providing access to an online virtual environment; downloadable multimedia files featuring design pattern, text, audio and video files authenticated using nonfungible tokens; downloadable computer programs featuring virtual goods in the form of electrical energy, electrical energy from renewable sources, electrical energy obtained from non-renewable sources, natural gas, fuel gas, apparatus for measuring, monitoring and analyzing electricity consumption; downloadable computer programs featuring virtual goods in the form of smart electronic devices for home automation, electronic devices enabling users to remotely interact with

environmental monitoring, control, and automation systems; downloadable computer programs featuring virtual goods in the form of electronic devices enabling the exchange and transmission of data and information between devices to facilitate environmental monitoring, control, and automation, electric sensors, electronic sensors, electronic surveillance equipment and monitoring modules for monitoring energy consumption; downloadable computer programs featuring virtual goods in the form of electrical control devices for energy management, software drivers for electronic devices enabling communication between computer hardware and electronic devices, systems for connecting and regulating apparatus that consume energy; downloadable computer programs featuring virtual goods in the form of systems for connecting and regulating apparatus that consume electricity; downloadable virtual goods, specifically, computer programs containing the following goods, electronic security systems, charging stations for electric vehicles, battery charging devices for motor vehicles, smart electronic devices for home automation, wireless operating apparatus for reading (smart) meter data, smart meters; downloadable virtual goods, specifically, computer programs containing the following goods, apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations; downloadable virtual goods, specifically, computer programs containing the following goods, pressure water tanks, flushing tanks, hot water tanks, heating boilers, long-term heat accumulators, solar thermal energy collectors; downloadable virtual goods, in particular, computer programs containing the following goods, heat accumulators, heat pumps, solar panels [heating], solar furnaces, solar thermal collectors [heating], heating apparatus powered by solar energy, heating apparatus powered by solar energy, solar energy accumulators for heating, solar energy accumulators for heating; downloadable virtual goods, specifically, computer programs containing the following goods, heat pumps, roof plates for solar thermal and photovoltaic collectors [heating] [none of metal], solar installations for heat generation, electric vehicles, electric bicycles for

use online and in online virtual worlds; downloadable computer software for interactive games; downloadable computer software for creating, producing and modifying animated and non-animated digital designs, art, characters, avatars, digital overlays and skins to access online environments, online virtual environments, and extended reality virtual environments, and for use therein.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations; pressure water tanks; flushing tanks; hot water tanks; heating boilers, long-term heat accumulators; solar thermal energy collectors; heat accumulators; heat pumps; solar panels [heating]; solar furnaces; solar thermal collectors [heating], heating apparatus powered by solar energy, solar energy accumulators for heating; solar thermal collectors [heating] and solar energy collectors for heating [not of metal]; solar installations for heat generation.

Class 35

Billing services in the energy sector; energy price comparison services; publicity and advertisement services relating to electrical energy; compilation and systemization of information in computer databases; database marketing; compilation of data for others; administrative services in connection with bonus, incentive and customer loyalty programs; organisation of customer loyalty programs for commercial, promotional or advertising purposes; sales promotion by means of customer loyalty programs; assistance and consultancy services in the field of commercial business management of the energy sector; data collection; sales promotion services for others in the field of electric energy; promotion of goods and services through the sponsoring of sports events; online retail services for downloadable virtual goods in the form of electrical energy, electrical energy from renewable sources, electrical

energy obtained from non-renewable sources, natural gas, fuel gas, apparatus for measuring, monitoring and analyzing electricity consumption; online retail services for downloadable virtual goods in the form of smart electronic devices for home automation, electronic devices enabling users to remotely interact with environmental monitoring, control, and automation systems, electronic devices enabling the exchange and transmission of data and information between devices to facilitate environmental monitoring, control, and automation; online retail services for downloadable virtual goods in the form of electric sensors, electronic sensors, electronic surveillance equipment and monitoring modules for monitoring energy consumption, electrical control devices for energy management, software drivers for electronic devices enabling communication between computer hardware and electronic devices; online retail services for downloadable virtual goods in the form of systems for connecting and regulating apparatus that consume energy, systems for connecting and regulating apparatus that consume electricity, systems for connecting and regulating electric current generators, systems for connecting and regulating energy generators, systems for remote monitoring of technical systems, systems for remote monitoring of electric current supply devices; online retail services for downloadable virtual goods in the form of electronic security systems, charging stations for electric vehicles, battery charging devices for motor vehicles, smart electronic devices for home automation, wireless operating apparatus for reading (smart) meter data, smart meters; online retail services for downloadable virtual goods in the form of apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations; online retail services for downloadable virtual goods in the form of pressure water tanks, flushing tanks, hot water tanks, heating boilers, long-term heat accumulators, solar thermal energy collectors, heat accumulators, heat pumps, solar panels [heating], solar furnaces, solar thermal collectors [heating]; online retail services for downloadable virtual goods in the form of heating apparatus powered by solar energy, heating apparatus

powered by solar energy, solar energy accumulators for heating, solar energy accumulators for heating, heat pumps, roof plates for solar thermal and photovoltaic collectors [heating] [none of metal]; online retail services for downloadable virtual goods in the form of solar installations for heat generation, electric vehicles, electric bicycles, all the aforesaid goods for online use in online virtual worlds; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of electrical energy, electrical energy from renewable sources, electrical energy obtained from non-renewable sources, natural gas, fuel gas, apparatus for measuring, monitoring and analyzing electricity consumption, smart electronic devices for home automation; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of electronic devices enabling users to remotely interact with environmental monitoring, control, and automation systems, electronic devices enabling the exchange and transmission of data and information between devices to facilitate environmental monitoring, control, and automation; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of electric sensors, electronic sensors, electronic surveillance equipment and monitoring modules for monitoring energy consumption, electrical control devices for energy management, software drivers for electronic devices enabling communication between computer hardware and electronic devices; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of systems for connecting and regulating apparatus that consume energy, systems for connecting and regulating apparatus that consume electricity, systems for connecting and regulating electric current generators, systems for connecting and regulating energy generators, systems for remote monitoring of technical systems; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of systems for remote monitoring of electric current supply devices, electronic security systems, charging stations for electric vehicles, battery charging devices for motor vehicles, smart electronic devices for home automation; online retail services for downloadable virtual goods authenticated by non-fungible tokens in

the form of wireless operating apparatus for reading data from (smart) meters, smart meters, apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of pressure water tanks, flushing tanks, hot water tanks, heating boilers, long-term heat accumulators, solar thermal energy collectors, heat accumulators, heat pumps, solar panels [heating]; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of solar furnaces, solar thermal collectors [heating], heating apparatus powered by solar energy, heating apparatus powered by solar energy, solar energy accumulators for heating; online retail services for downloadable virtual goods authenticated by non-fungible tokens in the form of solar energy accumulators for heating, heat pumps, roof plates for solar thermal and photovoltaic collectors [heating] [none of metal], solar installations for heat generation, electric vehicles, electric bicycles, all the aforesaid goods for online use in online virtual worlds; online retail services for downloadable virtual reality content and downloadable digital media files in the form of downloadable digital prerecorded music, downloadable digital videos, downloadable digital images, downloadable digital text, downloadable digital audiovisual works, and downloadable virtual and augmented reality game software; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of electrical energy, electrical energy from renewable sources, electrical energy obtained from non-renewable sources, natural gas, fuel gas, apparatus for measuring, monitoring and analyzing electricity consumption, smart electronic devices for home automation for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of electronic devices enabling users to remotely interact with environmental monitoring, control, and automation systems, electronic devices enabling the exchange and transmission of data and information between devices to facilitate environmental monitoring, control, and automation for

use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of electric sensors, electronic sensors, electronic surveillance equipment and monitoring modules for monitoring energy consumption, electrical control devices for energy management, software drivers for electronic devices enabling communication between computer hardware and electronic devices for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of systems for connecting and regulating apparatus that consume energy, systems for connecting and regulating apparatus that consume electricity, systems for connecting and regulating electric current generators, systems for connecting and regulating energy generators, systems for remote monitoring of technical systems for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of systems for remote monitoring of electric current supply devices, electronic security systems, charging stations for electric vehicles, battery charging devices for motor vehicles, smart electronic devices for home automation for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of, wireless operating apparatus for reading data from (smart) meters, smart meters, apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and water distribution as well as sanitary installations for use in photovoltaic and solar thermal energy installations for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of pressure water tanks, flushing tanks, hot water tanks, heating boilers, long-term heat accumulators, solar thermal energy collectors, heat accumulators, heat pumps, solar panels [heating], solar furnaces, solar thermal collectors [heating], heating apparatus powered by solar energy for use in virtual environments; provision of an online marketplace for buyers and sellers of downloadable virtual goods in the form of solar energy accumulators for heating, heat pumps, roof plates for solar thermal and photovoltaic collectors [heating] [none of metal], solar installations for heat
