General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at https://www.ipos.gov.sg. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Mark Clause(s):

By consent of the registered proprietor of TM No 40201714231T.

The mark consists of a movement mark, as shown in the representation on the form of application. It is composed of a sequence of 36 images that last 10 seconds in total, and in the representation would start from the image on the top left corner and move across the row to the far right, returning to the second left row and moving across again to the far right. The movements continue in this order from left to right, ending with the bottom right corner in the representation. The mark transitions from a large single square in the first image, to four smaller squares as shown in the twelfth image. The four individual squares in the twelfth image then transform into the letters UST stacked in a square format with a single square appearing in the upper right hand corner as shown in the seventeenth image, and the square and letters UST move again to be stacked in a new square format with a single square appearing in the lower left hand corner as shown in the twenty second image. The square and

letters UST move again to be stacked in a new square format with a single square appearing in the upper left hand corner as shown in the twenty eighth image. The square and letters UST move again to be stacked in a new square format with a single square appearing in the lower right hand corner as shown in the thirty fifth image before finally fading to white in the thirty-sixth image. The effect is that the letters flash and move while the single square appears as if rotating from position to position.

service edge (SASE) software for data and network security; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of network applications, network programs, computer applications, and computer programs; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of routers, network switches, network infrastructure, and computer infrastructure; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; computer hardware and recorded or downloadable software sold as a unit for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing and management; computer hardware and recorded or downloadable software sold as a unit for programming local, wide, and global area networks and network infrastructure in

mobile devices, televisions, and other video devices; downloadable webcasts, web seminars, case studies, audio files, and videos in the fields of interconnecting, establishing, managing, securing, monitoring, troubleshooting, operating, accessing, and automation of computer hardware, computer software, technology, peripherals, operating systems, local networks, wide-area networks, wired networks, wireless networks, computer networks, network infrastructure, network security, web browsers, electronic devices, cloud computing, and data security for cloud computing environments; downloadable videos and accompanying downloadable instructional materials in the fields of cloud computing and data security for cloud computing environments; downloadable educational videos and accompanying downloadable training materials for use in association therewith in the fields of cloud computing and data security for cloud computing environments.

Class 42

Technological consultancy; computer consultancy and technological consulting services in the fields of design and implementation of computer networks, cloud computing, data center design, storage design, data center infrastructure, computer network and network infrastructure management, computer network security, computer software, development and use of computer hardware, development and use of computer networking equipment, computer network design, storage design, network security, cloud security, network virtualization, and computer network analytics; consulting services in the field of software scripts for network automation; consulting services for developing computer systems, applications, architecture, and computer hardware, software, and firmware, namely, application development computer software programs; computer software technical support services; technical support services, namely, troubleshooting in the nature of diagnosing problems for computer hardware for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing,

viewing, monitoring, analyzing, virtualizing, and securing of computer networks, local networks, wide-area networks, wired networks, wireless networks, network infrastructure, routers, switches, cloud computer networks, and data centers; technical support services, namely, troubleshooting in the nature of diagnosing problems for computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, and securing of computer networks, local networks, wide-area networks, wired networks, wireless networks, network infrastructure, routers, switches, cloud computer networks, and data centers; technological support services in relation to the migration of data centers, servers, and databases between computer networks; technical support services in the fields of computer, data, email, web, and network security, namely, monitoring of network systems for technical and computer security purposes; technological support services , namely troubleshooting in the nature of diagnosing computer hardware and software problems in the fields of computer software, development, and use of computer hardware, computer networking equipment, telecommunications equipment, computer network design, storage design, cloud computing, network security, cloud security, data center design, and analytics; computer network design for others; computer programming; design and development of computer software applications for network efficiency improvement, storage design, cloud security, and data center design; design, testing, engineering, and research services relating to computers, telecommunications technology, computer networks, computer software, computer hardware, computer programming, and network security, and technological advisory services regarding designing, building, testing, engineering, operating, research and development in the above-listed fields; design and development of computer networks, local networks, wide-area networks, wired networks, wireless networks, and devices for network connectivity; testing, analysis, and evaluation of computer networks for the purposes of designing, building, and operation of

computer networks; technical management in the field of computer networks; technical consulting in the field of the administration of computer networks; technical management in the field of administration of computer networks for designing, building, testing, engineering, and operating computer networks; consulting services in the field of cloud computing; computer services relating to the monitoring, reporting, management of, and automation of data traffic across wireless communications networks and the internet; management of wireless networks for others; computer network assessment for testing, analysis, and evaluation and providing authentication services, namely, restricting unauthorized network access by users without credentials; providing information via a website and via computer networks in the field of computer networking; providing technical information online in the fields of local networks, wide-area networks, wireless networks, computer networks, routers, network infrastructure, network applications, network programs, computer applications, computer programs, data, network traffic, network information, cloud computer networks, cloud programs, and data centers, namely, providing information regarding hardware and software performance as part of computer networking; installation, maintenance, and repair services in regards to computer software in the fields of computer networks, telecommunications, networking, communications, and network security; technical support services, namely, troubleshooting in the nature of repairing computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, and securing of local networks, wide-area networks, wireless networks, and wired networks; computer system design; computer services, namely, remote and on-site management of the information technology (IT) systems of others; software-as-a-service (SaaS) services; platform-as-a-service (PaaS) services; cloud computing services; providing online non-downloadable software for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing,

configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; providing online non-downloadable software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; providing online non-downloadable software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; providing online non-downloadable software for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; providing online non-downloadable software for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, orchestration, and management; providing online non-downloadable software for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, protection against network intrusion and viruses, encryption and authentication of data, data-

loss prevention, data recovery, network security, and detection, filtering, analyzing, managing and blocking of electronic communications; providing online non-downloadable software, namely, non-downloadable open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; providing online non-downloadable software for programming local, wide, and global area networks and network infrastructure in mobile devices, televisions, and other video devices; providing online non-downloadable software for automation, visibility, operation, management, and control of operation of networking infrastructure, and automation, visibility, operation, management, orchestration, and control of operation of computer applications, and services within a computer networking infrastructure; providing online non-downloadable, cloud-based software featuring a virtual assistant for use in managing, monitoring, troubleshooting, and automation of computer networks through artificial intelligence and machine learning; providing online non-downloadable secure access service edge (SASE) software for data and network security; providing online non-downloadable software for proximity tracing for infectious disease; providing online non-downloadable software for use in hierarchical and distributed network processing, computer network analytics, computer network monitoring, computer network management, data storage, computer network security, controlling computer network access, data mining, monitoring, analyzing, and controlling machine-to-machine communications and human-machine interaction; providing online non-downloadable software for computer network management, network infrastructure management, information technology infrastructure management, and data center infrastructure management; providing online non-downloadable software for computer network management; providing online non-downloadable computer programs for use in accessing and viewing computer network infrastructure and systems; providing online non-downloadable software for managing wireless access points and local area network access points; providing online non-downloadable software for use in edge analytics; platform-as-a-service (PaaS) featuring software

for enabling business enterprises, data centers, and telecommunication service providers to deploy, manage, troubleshoot, track and upgrade network software and services; software-as-a-service (SaaS) services featuring software for managing computer networks and telecommunications networks, providing data security, monitoring network performance, and collecting and analyzing network usage data and user, device, application and customer activity data; software-as-a-service (SaaS) services featuring software for connecting, operating, and managing networked devices via wireless or wired networks; software-as-a-service (SaaS) services featuring software for connecting, operating, and managing networked internet of things (IoT) devices; software-as-a-service (SaaS) services featuring software for managing machine-to-machine applications and machine-to-machine networks; providing online non-downloadable software and cloud platforms for machine-to-machine networks for data connectivity, device management, configuration, provisioning, management, integration and control of internet of things (IoT) devices; fog computing services, namely, providing virtual computer systems in which computing resources and application services are distributed as a decentralized computing infrastructure; providing online non-downloadable software and cloud platforms that route and transmit data between connected devices, applications, and data platforms; providing online non-downloadable software and cloud platforms for collecting, connecting, transmitting and analyzing machine-to-machine data from and between connected devices, applications, and computer networks; software-as-a-service (SaaS) services featuring software for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; platform-as-a-service (PaaS) services featuring software for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; software-as-a-service (SaaS) services featuring software for data security and for monitoring, analyzing and optimizing computer networks and web application performance; platform-as-a-service (PaaS)

services featuring computer software platforms for data security and for monitoring, analyzing and optimizing computer networks and web application performance.
