General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Class 06

Building and construction materials, of metal, for wave power plants, wind-power stations and / or floating solar energy plants; metal materials for building and construction in the form of foundations, installations, structures and building and construction materials for wave power, wind-power stations and / or solar energy installations at sea and in lakes and dams, hereunder flexible, transportable and floating foundations for turbines, generators, engines and machines for generating electricity, including for the conversion of wave power, wind power and / or solar energy into electrical energy; non-electric cables and wires of common metal; pipes and wires of metal for wind-power stations or solar energy plants at sea and in lakes and dams, hereunder those connected to flexible, transportable and floating foundations; building materials of metal; non-electrical cables and wires of metal; pipes and wires of metal; meteorological masts of metal; mooring buoys of metal.

Class 07

Wave energy power installations for generating electricity; wind power installations for generating electricity on land, at sea and in lakes and dams [wind farms]; electric and hydraulic generators; solar-powered, wind-powered and wave-powered electricity generators by converting wave and/ or wind power and/ or solar energy into electrical energy; electric and hydraulic motors for machines and engines, not for land vehicles; generators for electricity; wind power generators; wind turbines; generators for wind turbines; electrical generators using solar cells; machine tools;

motors and engines [except for land vehicles]; machine couplings and transmission components, except for land vehicles; agricultural implements other than hand-operated; electric propulsion cleaning apparatus [for industrial purposes] for cleaning hulls and wind power generators; wind-powered electricity generators; wind turbines; hydroelectric installations for generating electricity; electrical generators using solar cells.

Class 09

Apparatus for measuring the thickness of steel plates; apparatus for measuring and monitoring wind data, electric motors, electric generators, transformers, electric wires and cables and electric batteries; solar cells; solar panel arrays; solar modules; apparatus for recording, transmission and reproduction of sound and images; pre-recorded magnetic data carriers carrying digital information relating to the production of solar energy, of electricity from wind energy, and of hydroelectric power; photovoltaic apparatus for converting solar radiation to electrical energy; scientific, nautical, geodetic, electrical and electronic control, photographic, cinematographic, optical, weighing, measuring, signaling, testing, inspection, life-saving and teaching apparatus and instruments; magnetic and optical data carriers; computer programs recorded on data carriers; software; solar panels for the production of electricity.

Class 12

Vehicles; vehicles for use on land, in the air or in the water; ships; ship hulls; marine vehicles, boats and boat hulls; structural parts for boats; parts and fittings for the aforesaid.

Class 19

Building and construction materials, not of metal, for wave energy power plants, wind-power stations and/or solar energy installations; non-metallic materials for use in building construction in the form of foundations, installations, structures and building and construction materials for wave energy power plants, wind-power

stations and/or solar energy installations at sea and in lakes and dams, including flexible, transportable and floating foundations for turbines, generators, motors and machines for generating electricity, including for converting wave energy power, wind power and/or solar energy into electrical energy; materials, not of metal, for building and construction, hereunder also for solar energy plants; rigid pipes, not of metal, for building.

Class 35

Advertising; business management; business administration; office functions services; providing assistance in the field of commercialization of products; commercialization of products, namely marketing; commercialization of products, namely the retail and wholesale of building and construction materials, of metal, for wave power plants, wind-power stations and / or floating solar energy plants, foundations, installations, structures and building and construction materials, of metal, for wave power, wind-power stations and / or solar energy installations at sea and in lakes and dams, hereunder flexible, transportable and floating foundations for turbines, generators, engines and machines for generating electricity, including for the conversion of wave power, wind power and / or solar energy into electrical energy, non-electric cables and wires of common metal, pipes and wires of metal for wind-power stations or solar energy plants at sea and in lakes and dams, hereunder those connected to flexible, transportable and floating foundations, building materials of metal, non-electrical cables and wires of metal, pipes and wires of metal, meteorological masts of metal, mooring buoys of metal, wave energy power installations for generating electricity, wind power installations for generating electricity on land, at sea and in lakes and dams [wind farms], electric and hydraulic generators, solar-powered, wind-powered and wave-powered electricity generators by converting wave and/ or wind power and/ or solar energy into electrical energy, electric and hydraulic motors for machines and engines, not for land vehicles, generators for electricity, wind power generators, wind turbines, generators for wind

turbines, electrical generators using solar cells, machine tools, motors and engines [except for land vehicles], machine couplings and transmission components, except for land vehicles, agricultural implements other than hand-operated, apparatus for measuring the thickness of steel plates, apparatus with electric propulsion for cleaning hulls and wind power generators, apparatus for measuring and monitoring wind data, electric motors, electric generators, transformers, electric wires and cables and electric batteries, solar cells, solar panel arrays, solar modules, apparatus for recording, transmission and reproduction of sound and images, pre-recorded magnetic data carriers, with instructions and information related to solar energy, wind- and hydropower production, hydraulic, electrical or mechanical apparatus and instruments for converting solar energy, wave or wind power into electrical energy, namely apparatus for absorbing energy from the sun, waves or wind and transferring energy to a hydraulic or electric generator, scientific, nautical, geodetic, electrical and electronic control, photographic, cinematographic, optical, weighing, measuring, signaling, testing, inspection, life-saving and teaching apparatus and instruments, magnetic and optical data carriers, computer programs recorded on data carriers, software, solar panels for the production of electricity, vehicles, vehicles for use on land, in the air or in the water, ships, ship hulls, marine vehicles, boats and boat hulls, structural parts for boats, parts and fittings for the aforesaid, building and construction materials, not of metal, for wave energy power plants, wind-power stations and/or solar energy installations, foundations, installations, structures and building and construction materials, not of metal, for wave energy power plants, wind-power stations and/or solar energy installations at sea and in lakes and dams, including flexible, transportable and floating foundations for turbines, generators, motors and machines for generating electricity, including for converting wave energy power, wind power and/or solar energy into electrical energy, materials, not of metal, for building and construction, hereunder also for solar energy plants, rigid pipes, not of metal, for building; business assistance relating to commercialization of technology.

Class 36

Insurance underwriting; financial affairs; monetary affairs; real estate affairs; housing agency (apartments); real estate management consultancy.

Class 37

Construction, including of solar energy plants; building of ships, wind power generators, seabed foundations, floating foundations, seabed foundations, generators, turbines, superstructures, houses; repair and maintenance of ships, wind power generators, seabed foundations, floating foundations, seabed foundations, generators, turbines, superstructures, houses; installation services, namely installation of parts for ships, wind power generators, seabed foundations, floating foundations, gravity bases, generators, turbines, superstructures, houses; building inspection in the course of building construction; inspection in the course of construction, maintenance and repair of machinery and equipment used for underwater surveys; underwater construction and repair activities; upgrading, maintaining and renting construction machines; consultancy relating to the construction of wind power generators; installation, maintenance and repair of safety equipment; consultancy in connection with building construction; construction consultancy; construction, repair, maintenance and installation of wave energy power plants, wind power plants and / or solar energy plants on land, at sea and in lakes and dams; inspection of wave energy power plants, wind power plants and / or solar energy plants on land, at sea and in lakes and dams prior to maintenance and repair; construction, repair, maintenance, installation and construction supervision of foundations, installations, structures and building and construction materials for wave energy power plants, wind power plants and / or solar energy plants on land, at sea and in lakes and dams, including flexible, transportable and floating foundations for turbines, generators, motors and machines for generating electricity, including for converting wave power, wind power and / or solar energy into electrical energy;

consultancy related to construction, repair, maintenance, installation and construction supervision of wave energy power plants, wind power plants and / or solar energy plants on land, at sea and in lakes and dams, including foundations, installations, structures and building and construction materials for wave power plants, wind power plants and / or solar energy plants on land, at sea and in lakes and dams.

Class 39

Transport; distribution of electric power; logistics services consisting of transport, packaging, delivery and storage of goods; facilitation of shipping; facilitation of transport and storage of goods; facilitation of maritime transport of goods, including wind turbines and parts of wind turbines, including generators, turbine blades and masts for wind turbines; cargo handling and freight services; loading, packing, storage, transport and unloading of freight; transport of wind turbines, wind power generators, wind turbine blades, masts for wind turbines, sea and seabed foundations, floating foundations, electric power, chemicals, container goods and persons, with means of transport, including ships; transport of electric power, chemicals and water via pipelines, wires and cables; arranging of cruises; boat cruises; arranging of travel; ferry transport services; travel agency services for arranging travel; organisation of travel; arranging travel by tourist agencies; seat reservation (transport); shipping of goods; packaging of container goods for transport; storage of containerized goods; technical advice relating to passenger travel and freight; shipping activities; transport activities; boat transport; barge transport; marine transport; river transport; shipping (goods transport); railway transport; air transport; escorting of travellers; freight brokerage; salvage of ships; boat storage; unloading cargo; container rental for the shipping industry; refloating of ships; ice-breaking; pleasure boat transport; shipping; shipping brokerage; freight forwarding; underwater salvage; car rental; boat rental; packaging and storage of goods.

Class 40

Treatment of materials, namely welding, machining and cutting of metal; production of electricity from wave energy power, wind power and / or solar energy; production of electricity from wave energy power, wind power and / or solar energy on land, at sea and in lakes and dams; generation of electric current from wave energy power, wind power and / or solar energy; generation of electrical energy from wave energy power, wind power and / or solar energy; technical advice in relation to production of electric power and generating electrical energy from wave power, wind power and/or solar energy; technical advice in generating electric energy from wave power, wind power and solar energy; sorting of waste and recyclable material [transformation]; production of energy by wave energy power plants, wind power plants and / or solar energy plants on land, at sea and in lakes and dams; rental of wave energy power plants, wind power plants and / or solar energy plants on land, at sea and in lakes and dams; consultancy related to production of energy by wave energy power plants, wind power plants and / or solar energy plants on land, at sea and in lakes and dams; consultancy related to rental of wave energy power plants, wind power plants and / or solar energy plants on land, at sea and in lakes and dams.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; engineering services; design, development and testing of ships, vessels and boats, as well as accessories for ships, vessels and boats; engineering services and quality control relating to the construction of ships and vessels; design and development of wave energy power plants, wind power plants and or/solar energy plants at sea and in lakes and dams; design and development of building and construction materials for wave energy power plants, wind power plants and / or solar energy plants; design and development of foundations, installations, structures

and building and construction materials for wave energy power plants, wind power plants and/or solar energy installations at sea and in lakes and dams, including flexible, transportable and floating foundations for turbines, generators, motors and machines for generating electricity, including for converting wave power, wind power and or solar energy into electrical energy; design, development and testing of wind power generators, seabed foundations, floating foundations, generators, wind turbines and parts of wind turbines, including turbine blades and masts for wind turbines; design, development and testing of solar energy plants; industrial analysis and industrial research in wave and wind power production, production of energy from the sun, solar cells, wind power generators, ships, tourism, travel and shipping; technical analysis of products and processes to assess how they can be made more environmentally friendly; technological consultancy services in connection with the diagnosis of problems with wave energy and wind power production, wind power generators, production of energy from the sun, solar cells, ships, including cruise ships, subsea surveys; geological research; geological exploration; geological surveys; geological prospecting; consultancy relating to geological surveys; meteorological information services in connection with wave energy power production, wind power production and solar energy production; material testing; consultancy services relating to environmental assessments; consultancy services in connection with environmental protection; design and development of hardware and software; updating, maintaining and renting computer software; technological advice and research in shipbuilding; research related to wave and wind power and / or solar energy; scientific and industrial research; programming of electronic data processing (edp) software; computer system analysis; analysis for oil-field exploitation; architectural services; bacteriological research; biological research; packaging design; research and development of new products; research and development services in connection with physics; recovery of computer data; graphic design; industrial design; industrial research, development and testing; industrial analysis; engineering (technical expertise); interior design; consultancy services in interior

design; calibration [measuring]; chemical research; chemical analysis and investigations; oil exploration consultancy; provision of technical information in relation to computers; oil-well testing; quality control; land surveying; mechanical research; consultancy services relating to research in the field of environmental protection; oil prospecting; topographical surveying; technical project planning; construction planning; technical drawing; construction drafting; technical project studies in the field of construction; drawing (industrial design); underwater exploration; rental of computers and computer programs; maintenance of computer software; technological consultancy and research relating to shipbuilding.

Class 43

Provision of information in connection with hotels, temporary accommodation and restaurant activities; booking agency services for booking hotel accommodation and other temporary accommodation; reservation and booking services for hotels, restaurants and holiday accommodation; services for providing food and drink; temporary accommodation; provision of temporary accommodation; catering; tourist home services; hotel services; hotel reservations; cafes; cafeteria services; canteen services; motel services; boarding house services; reservation of temporary accommodation in hotels and boarding houses; restaurant services; self-service restaurant services; snack-bar services.
