Research and development relating to semiconductor, semiconductor integrated circuits, semiconductor memory chips, semiconductor memory controllers, semiconductor memory integrated circuits, semiconductor processor chips, semiconductor processors, microcontrollers, microcontroller units, low power microcontrollers, circuit chips, computer chips, CPU (central processing unit), RISC-V (reduced instruction set computer-five) computer chips and central processing units, computer chips and central processing units with instruction set architecture; Design of computers, notebook computers, laptop computers, portable computers and handheld computers; Design of personal digital assistants and personal media players; Design of mobile telephones and smart phones; Design of digital cameras; Computer services; Computer services relating to customized searching of computer databases and websites; Computer programming; Computer integration services; Computer analysis services; Computer programming in relation to the defence against virus; Computer system software services; Computer software design; Design, development, updating and upgrading of computer and video games software; Computer system design; Design and development of webpages; Hosting webpages for others; Hosting computer application; Consultancy services in relation to computer software; Computer and electronic signal coding and decoding; Conversion of physical data and documents into electronic media format; Computer services relating to certification of business transactions and preparation of reports therefor; Computer and computer network information services; Provision of computer security risk management programs; Computer security information, knowledge, and testing services; Quality assurance services; Computer security services for access control to computers, electronic networks and databases; Security of data transmission and of transactions via computer networks; Consultancy in the field of data security; Technological consultancy concerning securing telecommunications; Computerized communication network security services; Providing information in the fields of Internet, world wide web and computerized communication network security; Consulting services in the fields of Internet, world wide web and computerized communication network security services, information security services; Authentication services for computer security; Computer services in relation to online authentication of electronic signatures; Off-site data backup; Electronic storage of data; Providing information on computer technology and programming via a web site; Rental of entertainment software; Cartography services; Technical support (technical consultancy) services relating to computer software and applications provided online, by email and by telephone; Technological advice relating to computers provided to Internet users by means of a support hotline; Providing software technical support services, namely, technical information at the specific request of end-users by means of telephone or global computer network; Technical project studies; Product testing and evaluation services; Architectural and design services; Interior designs of buildings, offices and apartments; Text, image, audio file, video and software code processing software design; Consultancy in the field of artificial intelligence technology; Research in the field of artificial intelligence technology; Artificial intelligence as a service (AIAAS) services featuring software using artificial intelligence for facial and speech recognition, use in database management, machine learning; Advanced product research in the field of artificial intelligence; Technical consulting in the field of monitoring technological functions of humanoid robots with artificial intelligence; Technical consulting in the field of artificial intelligence (AI) software customization; Application service provider (ASP) featuring software using artificial intelligence for use in the creation, management, editing and modifying of text, images, audio files, videos, software code; Application service provider (ASP) featuring software using artificial intelligence for use in market data analysis, financial analysis, investment analysis, legal analysis, health analysis; Application service provider (ASP) featuring software using artificial intelligence for use in software development, machine learning, facial and speech recognition; Providing a website featuring non-downloadable software using artificial

intelligence for use in software development, machine learning, facial and speech recognition; Providing a website featuring non-downloadable software using artificial intelligence for use in the creation, management, editing and modifying of text, images, audio files, videos, software code; Providing a website featuring non-downloadable software using artificial intelligence for use in market data analysis, financial analysis, investment analysis, legal analysis, health analysis; Software as a service (SAAS) services featuring software using artificial intelligence for use in software development, machine learning, facial and speech recognition; Software as a service (SAAS) services featuring software using artificial intelligence for use in the creation, management, editing and modifying of text, images, audio files, videos, software code; Software as a service (SAAS) services featuring software using artificial intelligence for use in market data analysis, financial analysis, investment analysis, legal analysis, health analysis; Scientific and industrial research in the field of deep learning; Rental of computer software for collecting, analyzing and organizing data in the field of deep learning; Providing temporary use of online non-downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; Consultancy, information and advisory services relating to the aforesaid services.
