General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Electrochemical power generating fuel devices [scientific or laboratory apparatus]; Electrostatic precipitators [scientific apparatus]; Film deposition apparatus for laboratory or scientific use; Filter cartridges for scientific use in nucleic acid extraction; Filtering apparatus for fluids [scientific apparatus]; Filters for gases [scientific apparatus]; Filters for scientific laboratory use; Genetic probe assay apparatus for scientific purposes; Genetic testing apparatus for scientific purposes; Glass tubes for scientific purposes; Glassware for scientific experiments in laboratories; Glassware specifically adapted for scientific use; Heat exchange crucibles for scientific use; Hollow fibre membrane elements for scientific use; Humanoid robots with artificial intelligence for use in scientific research; Immunostaining apparatus for scientific purposes; Immunostaining devices for scientific purposes; Immunostaining instruments for scientific purposes; Implantable devices for scientific use in measuring the composition of body fluids; Incentive spirometers for scientific use; Incubation dishes for scientific or laboratory use; Incubation plates for scientific or laboratory use; Instruments for diagnosis for scientific use; Instruments for scientific research in laboratories; Instruments for scientific use in testing microbiological samples; Instruments for scientific use in the preparation of cells; Instruments for scientific use in treatment of samples before analysis; Instruments for use in gas chromatography for scientific use; Instruments for use in liquid chromatography for scientific use; Ion implanters for scientific or laboratory use; Ionisation apparatus for scientific or laboratory use; Ionization apparatus for scientific or laboratory use; Laboratory apparatus for scientific research; Lasers for scientific use; Light probes for scientific purposes; Liquid chromatograph apparatus for scientific use; Liquid chromatography columns for scientific use; Liquid chromatography injectors for scientific use; Liquid chromatography instruments for scientific use; Lung function test apparatus for scientific use; Machines for the centrifugal separation of fluids for scientific purposes; Machines for use in biological reactions in scientific research laboratories; Magnetic separators for scientific use; Microwave decomposing apparatus being scientific laboratory apparatus; Molecular

filtering devices for scientific laboratory use; Molecular sieves for scientific laboratory use; Nucleic acid sequencers for scientific purposes; Optical microscopes for scientific purposes; Pipes for scientific apparatus; Plastic tubing adapted for use in scientific apparatus; Prisms for scientific purposes; Probes connected to microprocessing apparatus for scientific use; Probes for scientific purposes; Quantitative Polymerase Chain Reaction [PCR] instruments for scientific use; Real-time Polymerase Chain Reaction [PCR] instruments for scientific use; Recorded computer programs for scientific research; Reference apparatus for use in test comparisons [laboratory or scientific apparatus]; Reference apparatus for use in testing [laboratory or scientific apparatus]; Reference standards apparatus for use in test comparisons [laboratory or scientific apparatus]; Repacked columns for scientific use; Research apparatus for scientific use; Research instruments for scientific use; Reverse osmosis membranes for scientific use; Safety cabinets for scientific purposes; Sampling apparatus being scientific apparatus; Sampling network analysers [scientific apparatus]; Satellites for scientific purposes; Scientific apparatus; Scientific apparatus and instruments; Scientific apparatus for chromatography; Scientific apparatus for determining the water content in petroleum products; Scientific apparatus for diagnostic testing of biological samples; Scientific apparatus for industry; Scientific apparatus for installation in aircraft; Scientific apparatus for installation in vehicles; Scientific apparatus for isolating the organic fraction of rocks; Scientific apparatus for laboratory purposes; Scientific apparatus for laboratory use; Scientific apparatus for testing samples of soil; Scientific apparatus for testing samples of water; Scientific apparatus for the electrophoretic separation of molecules; Scientific apparatus for the receiving of data; Scientific apparatus for use in analytical tests; Scientific apparatus for use in controlling biochemical reactions; Scientific apparatus for use in diagnostic applications; Scientific apparatus for use in effecting biochemical reactions; Scientific apparatus for use in laboratories; Scientific apparatus for use in the preparation of materials; Scientific apparatus for use in the processing of histological specimens; Scientific apparatus for use in the separation of

chemical compounds; Scientific apparatus for use in the washing of samples in sample processing; Scientific calculators; Scientific electrical apparatus; Scientific electronic apparatus; Scientific equipment; Scientific glassware; Scientific instruments; Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; Semi-permeable membranes for scientific use; Separation columns for scientific purposes; Spirometers for scientific use; Sputtering apparatus [laboratory or scientific apparatus]; Sputtering instruments [laboratory or scientific instruments]; Temperature measuring apparatus for scientific use; Temperature measuring instruments for scientific use; Temperature meters for scientific use; Temperature monitors for scientific use; Temperature scanners for scientific use; Temperature sensing apparatus for scientific use; Temperature sensitive testing apparatus for scientific use; Temperature sensitive testing instruments for scientific use; Temperature sensors for scientific use; Test apparatus for scientific use; Thermally insulated flasks for scientific use; Tissue coagulators [apparatus] for scientific use; Tubes [pipettes] for scientific use; Tubes for scientific use; Vacuum probes for scientific use; Vapour deposition apparatus for laboratory or scientific use; Vials for scientific purposes; Vibrating spatulas for scientific use; Bioreactors for research use; Diagnostic apparatus for research laboratory use; Downloadable computer software using artificial intelligence in the field of biomedical research; Electrodes for laboratory research; Geophysical research apparatus; Laboratory instrument for the detection of pathogens and toxins in a biological sample for research use; Optical components for use in laboratory research; Petri dishes used in laboratory research; Radiometers for use in research; Research laboratory analyzers for measuring, testing and analyzing blood and other bodily fluids; Apparatus for navigation; Autonomous navigation systems; Autonomous navigation systems for ships; Car

navigation computers; Cases for satellite navigation devices; Earth satellites for use in geolocation navigation; Electric navigation instruments; Electric navigational instruments; Electronic navigation apparatus; Electronic navigation instruments; Electronic navigational and positioning apparatus and instruments; GPS navigation device; Global Positioning System [GPS] navigation devices; Gyroscopes for use in stabilisation and navigational systems; Inertial navigation apparatus; Inertial navigational instruments; Loran navigation machines; Loran navigation machines and apparatus; Marine navigation apparatus; Nautical instruments for use in the navigation of sailing craft; Navigation apparatus; Navigation apparatus for bicycles; Navigation apparatus for boats; Navigation apparatus for vehicles; Navigation apparatus for vehicles [on-board computers]; Navigation compasses; Navigation computers for cars; Navigation control instruments for water craft; Navigation instruments [compasses]; Navigation instruments [sextants]; Navigation systems using inertia reference; Navigation systems using satellite reference; Navigational apparatus for automobiles; Navigational buoys; Navigational instruments; Radar apparatus for use in navigation; Radio navigational aids; Radio transmitters for navigational use; Road map display apparatus for assisting in the navigation of a vehicle; Satellite navigation devices; Satellite navigation systems; Satellite navigational apparatus; Satellite-aided navigation systems; Software for GPS navigation systems; Software for satellite navigation systems; Strapped down inertial navigation apparatus; Underwater sonar navigational apparatus; Apparatus for remote surveying; Borehole surveying apparatus; Borehole surveying instruments; Electronic apparatus for surveying; Installations for surveying purposes; Instruments for surveying physical data; Laboratory surveying apparatus; Level measuring machines [for surveying]; Leveling rods for surveying; Leveling staffs [surveying instruments]; Levelling rods [for surveying]; Levelling rods for surveying; Levelling staffs [surveying instruments]; Magnetic compasses [for surveying]; Magnetic compasses for surveying; Needles for surveying compasses; Photographic surveying instruments; Plane tables [surveying instruments]; Rods [surveying instruments];

Surveying apparatus and instruments; Surveying chains; Surveying compass needles; Surveying instruments; Surveying poles; Television cameras for undersea surveying; Theodolites for use in surveying; Transits [for surveying]; Transits for surveying; Tripods [for surveying machines]; Tripods for surveying apparatus; Underwater sonar surveying apparatus; Alarms for detecting the movement of human beings; Apparatus for detecting defects in telephone apparatus; Apparatus for detecting fire; Apparatus for detecting gases; Apparatus for detecting light obscuring substances; Apparatus for detecting smoke; Apparatus for use in detecting signal levels; Computer programs for detecting colours; Counterfeit money detecting apparatus; Counterfeit money detecting machines; Detecting instruments, other than for medical use; Devices for detecting exposure to radiation; Downloadable computer software for detecting deepfake audio and video files; Electrical apparatus for detecting battery voltage; Electrical apparatus for detecting motor vehicles; Electrical instruments for detecting material stress; Electronic apparatus for detecting leaks; Electronic guidance controls for detecting purposes; Fire detecting apparatus; Fire detecting installations; Fire detecting instruments; Flaw detecting apparatus; Flaw detecting instruments; Gas detecting apparatus; Gas detecting instruments; Hazard detecting apparatus for use in buildings; Hazard detecting installations for use in buildings; Heat detecting apparatus; Heat detecting instruments; Inspection apparatus for detecting defects in tires; Intruder detecting apparatus; Intruder detecting instruments; Intruder detecting sensors; Laboratory apparatus for detecting bacteria; Laboratory devices for detecting genetic sequences; Microwave detecting apparatus; Mine detecting apparatus; Minesweeping [detecting] apparatus; Nuclear detectors for detecting radiation particles; Particle detecting apparatus; Portable gas detecting instruments; Radiation detecting apparatus; Smoke detecting apparatus; Underwater acoustic detecting apparatus; Voice amplifiers for detecting doorbells; Voice amplifiers for detecting ringing mechanisms; Voice amplifiers for detecting telephone rings; Alcohol testing apparatus; Apparatus for environmental testing of electronic components; Apparatus for testing breast milk, other than for medical or

veterinary use; Apparatus for testing carbon monoxide detectors using an aerosol spray; Apparatus for testing electrical apparatus; Apparatus for testing electrical components; Apparatus for testing electrical devices; Apparatus for testing electrical instruments; Apparatus for testing electronic circuits; Apparatus for testing electronic components; Apparatus for testing electronic instruments; Apparatus for testing fermentation samples; Apparatus for testing friction characteristics; Apparatus for testing fuses; Apparatus for testing heat detectors using an aerosol spray; Apparatus for testing in the aircraft industry; Apparatus for testing in the automotive industry; Apparatus for testing in the shipbuilding industry; Apparatus for testing optical cables; Apparatus for testing printed circuit boards; Apparatus for testing smoke detectors using an aerosol spray; Apparatus for testing the integrity of sealed packages; Apparatus for testing the porosity of coatings; Apparatus for testing the quality of food products; Apparatus for testing vehicle brakes; Apparatus for testing vehicle transmissions; Apparatus for testing wear characteristics; Apparatus for the testing of air; Apparatus for the testing of electrical circuits; Apparatus for the testing of gas; Apparatus for use in non-destructive testing; Apparatus for use in testing communication channels; Apparatus for use in testing electrical cables; Armament testing apparatus for use on aircraft; Audio testing apparatus; Automotive performance testing apparatus; Balance testing machines for tyres; Battery testing apparatus; Battery testing apparatus for sale in kit form; Bleeder kits for testing brakes; Bore testing instruments; Brake testing apparatus; Cement testing machines; Circuit testing apparatus; Circuit testing instruments; Computer apparatus for computer aided testing; Computer component testing and calibrating equipment; Computer controlled apparatus for testing printed circuit boards; Computer controlled automatic testing apparatus; Computer programs for testing computer hardware; Concrete testing machines; Diagnostic apparatus for testing food; Diagnostic testing apparatus for use in immunoassay procedures, other than for medical use; Diagnostic testing instruments for use in immunoassay procedure, other than for medical use; Digital testers for use in testing electric voltage; Downloadable

computer software for testing vulnerability in computers and computer networks; Downloadable software for end-to-end testing of third-party software for functionality and bugs; Electric test boxes for testing light circuits on semi-trailers; Electrical apparatus for testing alloys; Electrical apparatus for use in testing video games; Electrical products testing apparatus; Electrical testing instruments; Electrically powered apparatus for testing electronic assemblies; Electrochemical testing apparatus; Electrochemical testing devices; Electronic apparatus for testing communication links; Electronic apparatus for testing the sterility of medical equipment; Electronic apparatus for testing the sterility of pharmaceuticals and injectable solutions; Electronic equipment for testing environmental conditions; Electronic instruments for testing electronic circuit components; Electronic instruments for testing electronic circuits; Electronic test apparatus for testing bonds between metals; Electronic test apparatus for testing welds; Electronic testing apparatus for use in the field of telecommunications; Electronic testing instruments for testing electrical systems; Endurance testing machines; Flatness testing apparatus; Flow benches [testing apparatus] for carburettors; Formation testing apparatus; Frequency modulated stereo testing apparatus; Gas testing instruments; In-flight testing equipment; In-vitro diagnostic testing apparatus, other than for medical use; Instruments for testing materials at elevated temperatures; Instruments for testing metals; Instruments for testing temperature, other than for medical use; Internal combustion engine testing apparatus; Leak testing apparatus; Leak testing instruments; Lumber testing machines; Machines for testing; Machines for testing the efficiency of aerosol containers; Material testing apparatus; Material testing instruments; Material testing instruments and machines; Material testing machines; Materials testing instruments and machines; Measurement apparatus for well testing; Measuring instruments for testing the quality of coatings; Metal compression testing machines; Metal hardness testing machines; Metal strength testing machines; Meter testing apparatus; Meters for testing humidity; Microplates [reagent testing apparatus], other than for medical use; Microprocessors used for the testing of

components; Module testing units; Monitoring apparatus, electric, for testing vehicle bodies; Non-destructive testing apparatus; Optical microscopes for the testing of materials; Package testing apparatus; Performance testing apparatus, other than for medical use; Plastic testing machines; Portable electrically powered pressure hose testing cabinets; Portable pressure hose testing cabinets; Portable testing apparatus for aircraft; Probes for testing integrated circuits; Probes for testing semiconductors; Resistance testing apparatus; Semiconductor testing apparatus; Sockets for testing integrated circuits; Surface roughness testing machines and instruments; Temperature recorders for testing static electricity; Temperature sensitive testing apparatus for industrial use; Temperature sensitive testing instruments for industrial use; Test adapters for testing printed circuit boards; Test apparatus for testing electronic circuits; Test pins for testing printed circuit boards; Test probes for the automatic testing of bare circuit boards; Test probes for the automatic testing of loaded circuit boards; Testing apparatus for checking components used in weapons systems; Testing apparatus for checking electronic devices; Testing apparatus for checking optical devices; Testing apparatus for diagnostic purposes, other than for medical use; Testing apparatus for disc wheels; Testing apparatus for electronic components; Testing apparatus for electronic equipment; Testing apparatus for motor land vehicles; Testing apparatus for sale in kit form, other than for medical use; Testing apparatus for testing printed circuit boards; Testing apparatus for tires; Testing apparatus for wheels; Testing apparatus not for medical purposes; Testing baths for testing aerosol valves; Testing devices for electronic parts; Testing devices for tyre assembly machines; Testing instruments for measuring the surface roughness; Testing instruments for use in fault finding on motor vehicle engines; Testing probes, other than for medical purposes; Textile testing machines; Ultrasonic testing apparatus, other than for medical use; Vacuum climatic testing apparatus; Voltage testing devices; Voltage testing instruments; Wind tunnels being testing installations; Borescopes for inspecting work; Cameras for monitoring and inspecting equipment in a nuclear power station; Inspection apparatus for inspecting the internal

surface of tires; Machines for inspecting printed circuit boards; Mirrors for inspecting work; Apparatus and instruments for conducting electricity; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; Apparatus and instruments for switching electricity; Audio switching apparatus; Automatic switching apparatus for telecommunication; Capacitor switching reactors; Data packet switching apparatus; Data packet switching installations; Data switching apparatus; Digital cross-connected switching apparatus; Digital telephone switching apparatus; Electric switching apparatus; Electrical devices for the switching of data; Electrical devices for the switching of messages; Electrical message switching apparatus for use in communications installations; Electrical switching apparatus; Electrical switching for monitoring devices; Electrical switching instruments; Electronic digital switching apparatus; Electronic message switching apparatus for use in communications installations; Electronic switching amplifiers; Electronic switching apparatus; High capacity broadband telecommunications switching apparatus; High-frequency switching power supplies; Local area networking apparatus for the switching of data; Low voltage switching devices; Open and closed-loop switching apparatus; Packet switching apparatus; Packet switching networks; Private telephone switching exchange apparatus; Switching boxes for use in electrical engineering; Switching devices for electric contactors; Switching devices for electric relays; Switching power supply apparatus; Telecommunications switching apparatus; Telecommunications switching systems; Telephone digital switching transmission apparatus; Telephone switching apparatus; Telephone switching instruments; Telephone switching systems; Timers for switching on electrical devices at pre-programmed times; Video switching apparatus; Apparatus and instruments for transforming electricity; Apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; Boxes adapted for storing computer software disks; Boxes adapted for transporting

computer software disks; Cards encoded to access computer software; Cartridges [software] for use with computers; Cartridges for computer games [software]; Communication software for connecting computer network users; Communication software for connecting global computer networks; Communications processing computer software; Computer application software for mobile phones; Computer application software for mobile telephones; Computer application software for smartphones; Computer backgammon games [software]; Computer bridge games [software]; Computer chatbot software for simulating conversations; Computer chess games [software]; Computer communication software to allow customers to access bank account information and transact bank business; Computer firewall software; Computer game software; Computer game software downloadable from a global computer network; Computer game software for use on mobile and cellular phones; Computer game software, downloadable; Computer game software, recorded; Computer games entertainment software; Computer games programmes [software]; Computer games programs downloaded via the internet [software]; Computer games programs recorded on tapes [software]; Computer games software; Computer graphics software; Computer hardware and software for artificial intelligence; Computer hardware and software for augmented reality systems; Computer hardware and software for blockchain technology; Computer hardware and software for cloud computing; Computer hardware and software for cognitive computing; Computer hardware and software for cryptocurrency; Computer hardware for use in computer-assisted software engineering; Computer interface software; Computer operating software; Computer operating system software; Computer programs [downloadable software]; Computer programs and recorded software distributed online; Computer programs and software for image processing used for mobile phones; Computer screen saver software; Computer screen saver software, recorded or downloadable; Computer search engine software; Computer software; Computer software adapted for use in the operation of computers; Computer software applications, downloadable; Computer software designed to estimate costs;

Computer software designed to estimate resource requirements; Computer software development tools; Computer software downloaded from the internet; Computer software for accessing data banks; Computer software for accessing databases; Computer software for accounting systems; Computer software for administration of local area networks; Computer software for analysing address files; Computer software for analysing market information; Computer software for application and database integration; Computer software for authorising access to databases; Computer software for business purposes; Computer software for communicating purposes between microcomputers; Computer software for communicating with users of hand-held computers; Computer software for communication between computer processes; Computer software for controlling and managing access server applications; Computer software for controlling self-service terminals; Computer software for controlling the operation of audio and video devices; Computer software for converting document images into electronic formats; Computer software for creating and editing music and sounds; Computer software for database management; Computer software for document management; Computer software for encryption; Computer software for information management; Computer software for organizing and viewing digital images and photographs; Computer software for processing address files; Computer software for processing digital images; Computer software for processing digital music files; Computer software for processing market information; Computer software for producing financial models; Computer software for the analysis of defects; Computer software for the creation of firewalls; Computer software for time control; Computer software for use in computer access control; Computer software for use in controlling machines; Computer software for use in creating and designing websites; Computer software for use in processing semiconductor wafers; Computer software for use in programming facsimile machines; Computer software for use in providing multiple user access to a global computer information network; Computer software for use in relation to digital animation and special effects of images; Computer software for wireless content

delivery; Computer software for wireless network communications; Computer software packages; Computer software platforms; Computer software platforms, recorded or downloadable; Computer software products; Computer software programs; Computer software programs for database management; Computer software programs for spreadsheet management; Computer software that assists computers in deploying parallel applications and performing parallel computations; Computer software to automate data warehousing; Computer software to enable searching and retrieval of data; Computer software to enable searching of data; Computer software to enable the transmission of photographs to mobile telephones; Computer software to maintain and operate computer system; Computer software, recorded; Computer telephony software; Computer video game software; Computer whiteboard software; Controlling software for computer printers; Data carriers for computers having software recorded thereon; Downloadable computer application software for smartphones; Downloadable computer chatbot software for simulating conversations; Downloadable computer chatbot software using artificial intelligence for simulating conversations; Downloadable computer game software; Downloadable computer game software for virtual environments; Downloadable computer game software via a global computer network and wireless devices; Downloadable computer operating software; Downloadable computer operating software for virtual environments; Downloadable computer operating system software for quantum computers; Downloadable computer security software; Downloadable computer software; Downloadable computer software applications; Downloadable computer software applications for credit card fraud detection; Downloadable computer software applications for internet fraud detection; Downloadable computer software applications for minting non-fungible tokens [NFTs]; Downloadable computer software applications for providing scam alerts; Downloadable computer software being application programming interface [API]; Downloadable computer software development tools; Downloadable computer software featuring avatars; Downloadable computer software for blockchain data mining; Downloadable

computer software for blockchain technology; Downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; Downloadable computer software for creating virtual reality models; Downloadable computer software for creating, analysing and running quantum algorithms; Downloadable computer software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling digital assets; Downloadable computer software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling digital collectibles; Downloadable computer software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling digital tokens; Downloadable computer software for cross blockchain transfers; Downloadable computer software for data authentication; Downloadable computer software for food ordering and delivery; Downloadable computer software for generating virtual images; Downloadable computer software for interacting with blockchain platforms; Downloadable computer software for managing crypto asset transactions using blockchain technology; Downloadable computer software for managing cryptocurrency transactions using blockchain technology; Downloadable computer software for managing digital collectibles using blockchain technology; Downloadable computer software for managing smart contracts using blockchain technology; Downloadable computer software for online appointment scheduling; Downloadable computer software for ordering food; Downloadable computer software for photo slideshows; Downloadable computer software for providing access to virtual environments; Downloadable computer software for quantum algorithms; Downloadable computer software for quantum programming; Downloadable computer software for remote monitoring and analysis; Downloadable computer software for simulating quantum processes; Downloadable computer software for smartphones; Downloadable computer software for social networking; Downloadable computer software for use as a digital token wallet; Downloadable computer software for use as a digital wallet; Downloadable computer software for use as an electronic wallet; Downloadable computer software for use in

implementing Internet of Things [IoT]; Downloadable computer software for virtual environments; Downloadable computer software for web crawling; Downloadable computer software for web scraping; Downloadable computer software platforms; Downloadable computer software using artificial intelligence for computational methods; Downloadable computer software using artificial intelligence for data analysis; Downloadable computer software using artificial intelligence for data models; Downloadable computer software using artificial intelligence in the field of internet fraud detection; Downloadable computer software using artificial intelligence in the field of machine translation; Downloadable computer software using artificial intelligence in the field of medical diagnosis; Downloadable computer software using machine learning and artificial intelligence; Downloadable computer software using machine learning for computational methods; Downloadable computer software using machine learning for data analysis; Downloadable computer software using machine learning for data models; Downloadable computer utility software; Downloadable interactive entertainment software for playing computer games; Downloadable software platforms for hosting computer sites; Electronic sports training simulators [computer hardware and software-based teaching apparatus]; Games software for use with computers; Industrial computer software programs; Installations for the remote loading of computer software; Installations for the remote unloading of computer software; Interactive computer software; Interactive entertainment software for use with computers; Magnetic cards bearing computer software; Network management computer software; Operating computer software for main frame computers; Personal computer software applications, downloadable; Personal computers incorporating computer software; Recorded and downloadable media, computer software, blank digital or analogue recording and storage media; Recorded computer game software; Recorded computer software; Security devices for computer software; Simulation software for use in digital computers; Software for computers; Software for searching and retrieving information across a computer network; Video games on disc [computer software]; Video games programs

[computer software]; Mechanisms for coin-operated apparatus; Cash registers, calculating devices; Computers and computer peripheral devices; Peripheral control devices for computers; Peripheral sharing devices for computers; Diving suits; Diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; Wet diving suits; Wet suits for diving; Wet suits for scuba diving; Wetsuits for scuba diving; Divers' face masks; Divers' masks; Ear plugs for divers; Fire-extinguishing apparatus.

Installation, maintenance and repair of solar energy systems; Maintenance and repair of energy generating installations; Repair of energy production plants and machines; Repair of energy supply installations; Installation of solar energy systems; Construction of wind power plants; Repair and maintenance of wind power plants; Construction of solar power plants; Installation and maintenance of solar thermal installations; Installation, maintenance and repair of solar installations for generating power; Installation, maintenance and repair of solar collectors; Installation, maintenance and repair of photovoltaic cells; Installation, maintenance and repair of photovoltaic modules; Construction of power plants; Repair services for electric generators and wind turbines; Installation of power generating apparatus; Installation, maintenance and repair of apparatus for generating power; Maintenance, servicing and repair of apparatus and installations for generating power; Providing information relating to the repair or maintenance of power distribution or control machines and apparatus; Providing information relating to the repair or maintenance of power generators; Repair or maintenance of power distribution or control machines and apparatus.

Class 39

Distribution of energy; Distribution of renewable energy; Distribution of energy for heating and cooling buildings; Information and advisory services in relation to the distribution of energy; Storage of energy and fuels.

Class 40

Clean energy production; Clean energy production from biofuels; Production of renewable green energy; Production of renewable energy from wind resources; Production of renewable energy from solar resources; Production of electrical energy from renewable sources; Generation of electricity using wind energy; Generation of electricity using solar energy; Technical consultancy in the field of production of solar energy; Consultancy services relating to the generation of electrical power;

Consultancy in the field of energy generation; Consultancy in the field of energy production; Generation of power; Generation of electrical power; Production of energy by power plants; Rental of energy generating equipment.

Class 42

Scientific and technological services and research and design relating thereto; Scientific and technological services and research and development relating thereto; Providing information, including online, about scientific and technological services and research and design relating thereto; Industrial analysis and industrial research services; Providing information, including online, about industrial analysis and research services; Advisory services relating to energy efficiency; Advisory services relating to the use of energy; Certification services for the energy efficiency of buildings; Conducting research and technical project studies relating to the use of natural energy; Consultancy relating to technological services in the field of power and energy supply; Energy auditing; Providing information in the field of energy efficiency; Provision of information concerning research and technical project studies relating to the use of natural energy; Research and development in the field of renewable energy; Design and development of energy management software; Development of energy and power management systems; Programming of energy management software; Design and development of software for control, regulation and monitoring of solar energy systems; Design of solar photovoltaic systems; Research and development services relating to solar cells and electricity generation; Technical design and planning of power stations; Design and development of photovoltaic systems; Providing technological information about environmentally-conscious and green innovations; Scientific and technological services relating to technological innovation forecasting; Engineering consultancy; Engineering design; Computer-aided engineering design; Engineering services in the field of energy efficiency; Engineering services in the field of energy technology; Engineering services relating to energy supply systems; Plant engineering; Preparation of reports

relating to engineering; Research and development services in the field of engineering; Environmental consultancy services; Ergonomics and design services in the field of occupational health and safety; Surveying [engineering]; Consultancy in the field of energy efficiency; Technological analysis relating to energy and power needs of others; Preparation of technical projects, technical research and consultancy services in the field of carbon offsetting; Environmental testing of exhaust emissions; Measuring and analysis of greenhouse gas emissions; Pollution emissions testing; Providing scientific information, advice and consultancy relating to net zero emissions; Research into technologies for reduction of carbon emissions; Research into the reduction of carbon emissions; Technological research relating to the reduction of carbon emissions; Testing for pollution emissions; Testing, analysis and evaluation of the services of others for the purpose of certification; Testing, analysis and evaluation of the goods of others for the purpose of certification; Testing services for the certification of quality or standards; Design and development of energy distribution networks.

Media relations services; public relations services; office functions; organisation, operation and supervision of loyalty schemes and incentive schemes; advertising services provided via the internet; opinion polling; provision of business information; organization of trade fairs for commercial or advertising purposes; advertising services to promote public awareness of energy saving and environmental issues and initiatives; commercial lobbying services; benchmarking services for business management purposes; advertising, marketing and promotional services; trade and consumer information; brokerage, namely arranging of advertising space in newspapers, arranging and rental of advertising space on the internet, arranging and concluding of commercial transactions, for others, provision of business contact information, personnel recruitment and placement; arranging of collective buying; business risk assessment; negotiation services, namely negotiating business contracts for others; ordering services; price comparison services; procurement services, for others; subscription services, namely arranging subscriptions to publications for others; assistance in business matters; business administration; business management and administrative services; professional business analysis, research and information, in particular evaluation of companies, professional business evaluations and analyses; gathering, compilation, systemisation and maintenance, including via the internet, of test data and other data, in particular technical, certification and company data, including messages, information, texts, graphic prints and images, in particular in the field of certification and business consultancy and organisation, and technical and scientific consultancy, for goods

and/or services, business operations, fabrics, materials, products, documentation and/or information documents, manufacturing and processing operations, manufacturing and processing methods and business organisation, in computer databases; business consulting services; evaluation of business opportunities with regard to professional business matters, business consultancy services relating to the supply of quality management systems; consultancy and information in relation to the aforesaid services, included in this class.

Class 40

Treatment of waste and hazardous materials; recycling of waste and trash; air purification and treatment of water; printing services; food and drink preservation.

Class 41

Publishing and news reporting services; education, entertainment and sporting activities; translation and interpretation; educational services in the field of energy saving, climate change and environmental protection; organization of trainings, seminar, conferences, workshops, events and exhibitions; publishing of materials relating to energy saving, energy efficiency, climate change and environmental protection; providing of non-downloadable electronic publications online; cultural activities; training; preparation of competitions.

Class 42

Energy auditing; energy saving, energy efficiency, climate change and environmental protection consultancy; providing scientific information in the field of energy saving, energy efficiency, climate change, environmental protection; research in the field of energy saving, energy efficiency and environmental protection; providing technological information about environmentally-conscious and green innovations; consultancy services in the field of research in connection to energy saving and energy efficiency for others; consultancy and consultancy services in the field of sustainability, namely relating to energy efficiency and environmental standards;

drawing up and testing of standards, certification criteria and certification guidelines; services relating to the implementation of certification schemes, namely the issuing of accreditation services [certification of competence and quality] of joint programmes and projects relating to industries, public administration, public facilities, associations, trade and companies; testing, analysis and evaluation of the services of others to determine conformity with certification standards in relation to private and public facilities, associations and companies participating in certification programmes; providing information and advice on the certification scheme [quality control consultancy]; quality assurance, quality control and quality control and assurance consultancy; quality management in the nature of quality control and assurance services; engineering project management services; testing, analyzing and evaluating goods and services of third parties for certification purposes; conducting of environmental testing for determining pollutants in the earth and in water; technical project studies, feasibility studies and technical services relating to energy saving, energy efficiency and nature and environmental protection; platform as a service [paas]; it services, namely development, programming and implementation of software, development of computer hardware, hosting, software as a service (saas) and rental of software, rental of computer hardware and installations.

Class 45

Licensing of ip rights; reviewing standards and practices to assure compliance with laws and regulations for participants in a certification program; regulatory compliance information and consultancy for participants in a certification programme relating to compliance with laws and regulations in the field of energy saving, energy efficiency, nature and environmental protection; lobbying services, other than for commercial purposes; dispute resolution services; alternative dispute resolution services.

Provision of instruction relating to software for segmentation and analysis of

computed tomography images; provision of instruction relating to software for image classification and segmentation; provision of instruction relating to software for processing visual data; provision of instruction relating to software for processing images; provision of instruction relating to software for processing three-dimensional scans; provision of instruction relating to software for computer vision; provision of instruction relating to software for machine vision; provision of instruction relating to artificial intelligence based software for data analysis, pattern discovery, process automation, contextual prediction, predictive analytics, predictive modeling, recognition, classification, segmentation, regression, decision support and visualization; provision of instruction relating to software for neural network inferencing; provision of instruction relating to software for artificial intelligence, machine learning and deep learning; provision of instruction relating to software for neural networks and deep neural networks; provision of instruction relating to software for training neural networks to enable deep learning; provision of instruction relating to machine learning software; provision of instruction relating to artificial intelligence software; provision of instruction relating to software for analysis and visualization of volume data in the fields of computed tomography and non-destructive testing of components and materials; provision of instruction relating to software for non-destructive testing of components and materials; provision of instruction relating to software for analysis and visualization of computed tomography data; provision of instruction relating to software for analysis and visualization of optical scan data; provision of instruction relating to software for analysis and visualization of industrial computed tomography data; provision of instruction relating to software for analysis and visualization of additive manufactured components; provision of instruction relating to software for computer aided industrial testing; provision of instruction relating to software for computer aided scientific testing; provision of instruction relating to software for automated computed tomography inspection; provision of instruction relating to software for quality control using computed tomography inspection; provision of instruction relating to quality control

software; provision of instruction relating to software for product development; provision of instruction relating to software for 3D printing inspection; provision of instruction relating to software for industrial process automation; provision of instruction relating to industrial process control software; provision of instruction relating to smart manufacturing software; provision of instruction relating to software for weld inspection; provision of instruction relating to software for measurement and defect inspection of plastic and metal parts; provision of instruction relating to software for measurement and defect inspection of injection molded components; provision of instruction relating to software for detection and assessment of pores and shrinkage cavities; provision of instruction relating to software for analysis and visualization of foreign material in plastic and metal parts; provision of instruction relating to software for analysis and visualization of foreign material in injection molded components; provision of instruction relating to software for measurement and defect inspection of components and materials; provision of instruction relating to software for porosity analysis and visualization; provision of instruction relating to software for detection and assessment of cracks and tears in materials; provision of instruction relating to software for computer aided part and mold design for plastic and metal parts; provision of instruction relating to software for inspection of closed cell foams; provision of instruction relating to software for fiber analysis and visualization; training services relating to software for segmentation and analysis of computed tomography images; training services relating to software for image classification and segmentation; training services relating to software for processing visual data; training services relating to software for processing images; training services relating to software for processing three-dimensional scans; training services relating to software for computer vision; training services relating to software for machine vision; training services relating to artificial intelligence based software for data analysis, pattern discovery, process automation, contextual prediction, predictive analytics, predictive modeling, recognition, classification, segmentation, regression, decision support and visualization; training services relating to software

for neural network inferencing; training services relating to software for artificial intelligence, machine learning and deep learning; training services relating to software for neural networks and deep neural networks; training services relating to software for training neural networks to enable deep learning; training services relating to machine learning software; training services relating to artificial intelligence software; training services relating to software for analysis and visualization of volume data in the fields of computed tomography and non-destructive testing of components and materials; training services relating to software for non-destructive testing of components and materials; training services relating to software for analysis and visualization of computed tomography data; training services relating to software for analysis and visualization of optical scan data; training services relating to software for analysis and visualization of industrial computed tomography data; training services relating to software for analysis and visualization of additive manufactured components; training services relating to software for computer aided industrial testing; training services relating to software for computer aided scientific testing; training services relating to software for automated computed tomography inspection; training services relating to software for quality control using computed tomography inspection; training services relating to quality control software; training services relating to software for product development; training services relating to software for 3D printing inspection; training services relating to software for industrial process automation; training services relating to industrial process control software; training services relating to smart manufacturing software; training services relating to software for weld inspection; training services relating to software for measurement and defect inspection of plastic and metal parts; training services relating to software for measurement and defect inspection of injection molded components; training services relating to software for detection and assessment of pores and shrinkage cavities; training services relating to software for analysis and visualization of foreign material in plastic and metal parts; training services relating to software for analysis and

visualization of foreign material in injection molded components; training services relating to software for measurement and defect inspection of components and materials; training services relating to software for porosity analysis and visualization; training services relating to software for detection and assessment of cracks and tears in materials; training services relating to software for computer aided part and mold design for plastic and metal parts; training services relating to software for inspection of closed cell foams; training services relating to software for fiber analysis and visualization; conducting workshops [training] relating to software for segmentation and analysis of computed tomography images; conducting workshops [training] relating to software for image classification and segmentation; conducting workshops [training] relating to software for processing visual data; conducting workshops [training] relating to software for processing images; conducting workshops [training] relating to software for processing three-dimensional scans; conducting workshops [training] relating to software for computer vision; conducting workshops [training] relating to software for machine vision; conducting workshops [training] relating to artificial intelligence based software for data analysis, pattern discovery, process automation, contextual prediction, predictive analytics, predictive modeling, recognition, classification, segmentation, regression, decision support and visualization; conducting workshops [training] relating to software for neural network inferencing; conducting workshops [training] relating to software for artificial intelligence, machine learning and deep learning; conducting workshops [training] relating to software for neural networks and deep neural networks; conducting workshops [training] relating to software for training neural networks to enable deep learning; conducting workshops [training] relating to machine learning software; conducting workshops [training] relating to artificial intelligence software; conducting workshops [training] relating to software for analysis and visualization of volume data in the fields of computed tomography and non-destructive testing of components and materials; conducting workshops [training] relating to software for non-destructive testing of components and materials; conducting workshops [training] relating to

software for analysis and visualization of computed tomography data; conducting workshops [training] relating to software for analysis and visualization of optical scan data; conducting workshops [training] relating to software for analysis and visualization of industrial computed tomography data; conducting workshops [training] relating to software for analysis and visualization of additive manufactured components; conducting workshops [training] relating to software for computer aided industrial testing; conducting workshops [training] relating to software for computer aided scientific testing; conducting workshops [training] relating to software for automated computed tomography inspection; conducting workshops [training] relating to software for quality control using computed tomography inspection; conducting workshops [training] relating to quality control software; conducting workshops [training] relating to software for product development; conducting workshops [training] relating to software for 3D printing inspection; conducting workshops [training] relating to software for industrial process automation; conducting workshops [training] relating to industrial process control software; conducting workshops [training] relating to smart manufacturing software; conducting workshops [training] relating to software for weld inspection; conducting workshops [training] relating to software for measurement and defect inspection of plastic and metal parts; conducting workshops [training] relating to software for measurement and defect inspection of injection molded components; conducting workshops [training] relating to software for detection and assessment of pores and shrinkage cavities; conducting workshops [training] relating to software for analysis and visualization of foreign material in plastic and metal parts; conducting workshops [training] relating to software for analysis and visualization of foreign material in injection molded components; conducting workshops [training] relating to software for measurement and defect inspection of components and materials; conducting workshops [training] relating to software for porosity analysis and visualization; conducting workshops [training] relating to software for detection and assessment of cracks and tears in materials; conducting workshops [training] relating to software for

computer aided part and mold design for plastic and metal parts; conducting workshops [training] relating to software for inspection of closed cell foams; conducting workshops [training] relating to software for fiber analysis and visualization; training relating to computer software; education services relating to computer software; training services relating to computer software; training courses relating to computer software; training in the operation of software systems; education services relating to the application of computer software; training services concerned with the use of computer software; training relating to computer programmes; computer training; computer education training; computer training advisory services; cad (computer aided design) education; provision of computer related training courses; training services relating to computer systems; training services relating to computer programs; education services relating to computer systems; training services relating to computer-aided manufacturing; training in the operation of computer programs; training services relating to computer-aided testing; training in the operation of computerised systems; training of neural networks to enable deep learning.

Class 42

Consultancy relating to software for segmentation and analysis of computed tomography images; consultancy relating to software for image classification and segmentation; consultancy relating to software for processing visual data; consultancy relating to software for processing images; consultancy relating to software for processing three-dimensional scans; consultancy relating to software for computer vision; consultancy relating to software for machine vision; consultancy relating to artificial intelligence based software for data analysis, pattern discovery, process automation, contextual prediction, predictive analytics, predictive modeling, recognition, classification, segmentation, regression, decision support and visualization; consultancy relating to software for neural network inferencing; consultancy relating to software for artificial intelligence, machine learning and deep

learning; consultancy relating to software for neural networks and deep neural networks; consultancy relating to software for training neural networks to enable deep learning; consultancy relating to machine learning software; consultancy relating to artificial intelligence software; consultancy relating to software for analysis and representation of volume data in the fields of computed tomography and non-destructive testing of components and materials; consultancy relating to software for non-destructive testing of components and materials; consultancy relating to software for analysis and visualization of computed tomography data; consultancy relating to software for analysis and visualization of optical scan data; consultancy relating to software for analysis and representation of industrial computed tomography data; consultancy relating to software for analysis and visualization of additive manufactured components; consultancy relating to software for computer aided industrial testing; consultancy relating to software for computer aided scientific testing; consultancy relating to software for automated computed tomography inspection; consultancy relating to software for quality control using computed tomography inspection; consultancy relating to quality control software; consultancy relating to software for product development; consultancy relating to software for 3D printing inspection; consultancy relating to software for industrial process automation; consultancy relating to industrial process control software; consultancy relating to smart manufacturing software; consultancy relating to software for weld inspection; consultancy relating to software for measurement and defect inspection of plastic and metal parts; consultancy relating to software for measurement and defect inspection of injection molded components; consultancy relating to software for detection and assessment of pores and shrinkage cavities; consultancy relating to software for analysis and visualization of foreign material in plastic and metal parts; consultancy relating to software for analysis and visualization of foreign material in injection molded components; consultancy relating to software for measurement and defect inspection of components and materials; consultancy relating to software for porosity analysis and representation; consultancy relating to software for detection

and assessment of cracks and tears in materials; consultancy relating to software for computer aided part and mold design for plastic and metal parts; consultancy relating to software for inspection of closed cell foams; consultancy relating to software for fiber analysis and visualization; creation, installation, maintenance, adaptation, rental and updating of software for segmentation and analysis of computed tomography images; creation, installation, maintenance, adaptation, rental and updating of software for image classification and segmentation; creation, installation, maintenance, adaptation, rental and updating of software for processing visual data; creation, installation, maintenance, adaptation, rental and updating of software for processing images; creation, installation, maintenance, adaptation, rental and updating of software for processing three-dimensional scans; creation, installation, maintenance, adaptation, rental and updating of software for computer vision; creation, installation, maintenance, adaptation, rental and updating of software for machine vision; creation, installation, maintenance, adaptation, rental and updating of artificial intelligence based software for data analysis, pattern discovery, process automation, contextual prediction, predictive analytics, predictive modeling, recognition, classification, segmentation, regression, decision support and visualization; creation, installation, maintenance, adaptation, rental and updating of software for neural network inferencing; creation, installation, maintenance, adaptation, rental and updating of software for artificial intelligence, machine learning and deep learning; creation, installation, maintenance, adaptation, rental and updating of software for neural networks and deep neural networks; creation, installation, maintenance, adaptation, rental and updating of software for training neural networks to enable deep learning; creation, installation, maintenance, adaptation, rental and updating of machine learning software; creation, installation, maintenance, adaptation, rental and updating of artificial intelligence software; creation, installation, maintenance, adaptation, rental and updating of software for analysis and visualization of volume data in the fields of computed tomography and non-destructive testing of components and materials; creation, installation,

maintenance, adaptation, rental and updating of software for non-destructive testing of components and materials; creation, installation, maintenance, adaptation, rental and updating of software for analysis and visualization of computed tomography data; creation, installation, maintenance, adaptation, rental and updating of software for analysis and visualization of optical scan data; creation, installation, maintenance, adaptation, rental and updating of software for analysis and visualization of industrial computed tomography data; creation, installation, maintenance, adaptation, rental and updating of software for analysis and visualization of additive manufactured components; creation, installation, maintenance, adaptation, rental and updating of software for computer aided industrial testing; creation, installation, maintenance, adaptation, rental and updating of software for computer aided scientific testing; creation, installation, maintenance, adaptation, rental and updating of software for automated computed tomography inspection; creation, installation, maintenance, adaptation, rental and updating of software for quality control using computed tomography inspection; creation, installation, maintenance, adaptation, rental and updating of quality control software; creation, installation, maintenance, adaptation, rental and updating of software for product development; creation, installation, maintenance, adaptation, rental and updating of software for 3d printing inspection; creation, installation, maintenance, adaptation, rental and updating of software for industrial process automation; creation, installation, maintenance, adaptation, rental and updating of industrial process control software; creation, installation, maintenance, adaptation, rental and updating of smart manufacturing software; creation, installation, maintenance, adaptation, rental and updating of software for weld inspection; creation, installation, maintenance, adaptation, rental and updating of software for measurement and defect inspection of plastic and metal parts; creation, installation, maintenance, adaptation, rental and updating of software for measurement and defect inspection of injection molded components; creation, installation, maintenance, adaptation, rental and updating of software for detection and assessment of pores and shrinkage cavities; creation, installation, maintenance,

adaptation, rental and updating of software for analysis and visualization of foreign material in plastic and metal parts; creation, installation, maintenance, adaptation, rental and updating of software for analysis and visualization of foreign material in injection molded components; creation, installation, maintenance, adaptation, rental and updating of software for measurement and defect inspection of components and materials; creation, installation, maintenance, adaptation, rental and updating of software for porosity analysis and visualization; creation, installation, maintenance, adaptation, rental and updating of software for detection and assessment of cracks and tears in materials; creation, installation, maintenance, adaptation, rental and updating of software for computer aided part and mold design for plastic and metal parts; creation, installation, maintenance, adaptation, rental and updating of software for inspection of closed cell foams; creation, installation, maintenance, adaptation, rental and updating of software for fiber analysis and visualization; technical support services relating to software for segmentation and analysis of computed tomography images; technical support services relating to software for image classification and segmentation; technical support services relating to software for processing visual data; technical support services relating to software for processing images; technical support services relating to software for processing three-dimensional scans; technical support services relating to software for computer vision; technical support services relating to software for machine vision; technical support services relating to artificial intelligence based software for data analysis, pattern discovery, process automation, contextual prediction, predictive analytics, predictive modeling, recognition, classification, segmentation, regression, decision support and visualization; technical support services relating to software for neural network inferencing; technical support services relating to software for artificial intelligence, machine learning and deep learning; technical support services relating to software for neural networks and deep neural networks; technical support services relating to software for training neural networks to enable deep learning; technical support services relating to machine learning software; technical support services relating to

artificial intelligence software; technical support services relating to software for analysis and visualization of volume data in the fields of computed tomography and non-destructive testing of components and materials; technical support services relating to software for non-destructive testing of components and materials; technical support services relating to software for analysis and visualization of computed tomography data; technical support services relating to software for analysis and visualization of optical scan data; technical support services relating to software for analysis and visualization of industrial computed tomography data; technical support services relating to software for analysis and visualization of additive manufactured components; technical support services relating to software for computer aided industrial testing; technical support services relating to software for computer aided scientific testing; technical support services relating to software for automated computed tomography inspection; technical support services relating to software for quality control using computed tomography inspection; technical support services relating to quality control software; technical support services relating to software for product development; technical support services relating to software for 3D printing inspection; technical support services relating to software for industrial process automation; technical support services relating to industrial process control software; technical support services relating to smart manufacturing software; technical support services relating to software for weld inspection; technical support services relating to software for measurement and defect inspection of plastic and metal parts; technical support services relating to software for measurement and defect inspection of injection molded components; technical support services relating to software for detection and assessment of pores and shrinkage cavities; technical support services relating to software for analysis and visualization of foreign material in plastic and metal parts; technical support services relating to software for analysis and visualization of foreign material in injection molded components; technical support services relating to software for measurement and defect inspection of components and materials; technical support services

relating to software for porosity analysis and visualization; technical support services relating to software for detection and assessment of cracks and tears in materials; technical support services relating to software for computer aided part and mold design for plastic and metal parts; technical support services relating to software for inspection of closed cell foams; technical support services relating to software for fiber analysis and visualization; diagnosis of faults and troubleshooting relating to software for segmentation and analysis of computed tomography images; diagnosis of faults and troubleshooting relating to software for image classification and segmentation; diagnosis of faults and troubleshooting relating to software for processing visual data; diagnosis of faults and troubleshooting relating to software for processing images; diagnosis of faults and troubleshooting relating to software for processing three-dimensional scans; diagnosis of faults and troubleshooting relating to software for computer vision; diagnosis of faults and troubleshooting relating to software for machine vision; diagnosis of faults and troubleshooting relating to artificial intelligence based software for data analysis, pattern discovery, process automation, contextual prediction, predictive analytics, predictive modeling, recognition, classification, segmentation, regression, decision support and visualization; diagnosis of faults and troubleshooting relating to software for neural network inferencing; diagnosis of faults and troubleshooting relating to software for artificial intelligence, machine learning and deep learning; diagnosis of faults and troubleshooting relating to software for neural networks and deep neural networks; diagnosis of faults and troubleshooting relating to software for training neural networks to enable deep learning; diagnosis of faults and troubleshooting relating to machine learning software; diagnosis of faults and troubleshooting relating to artificial intelligence software; diagnosis of faults and troubleshooting relating to software for analysis and visualization of volume data in the fields of computed tomography and non-destructive testing of components and materials; diagnosis of faults and troubleshooting relating to software for non-destructive testing of components and materials; diagnosis of faults and troubleshooting relating to software for analysis

and visualization of computed tomography data; diagnosis of faults and troubleshooting relating to software for analysis and visualization of optical scan data; diagnosis of faults and troubleshooting relating to software for analysis and visualization of industrial computed tomography data; diagnosis of faults and troubleshooting relating to software for analysis and visualization of additive manufactured components; diagnosis of faults and troubleshooting relating to software for computer aided industrial testing; diagnosis of faults and troubleshooting relating to software for computer aided scientific testing; diagnosis of faults and troubleshooting relating to software for automated computed tomography inspection; diagnosis of faults and troubleshooting relating to software for quality control using computed tomography inspection; diagnosis of faults and troubleshooting relating to quality control software; diagnosis of faults and troubleshooting relating to software for product development; diagnosis of faults and troubleshooting relating to software for 3d printing inspection; diagnosis of faults and troubleshooting relating to software for industrial process automation; diagnosis of faults and troubleshooting relating to industrial process control software; diagnosis of faults and troubleshooting relating to smart manufacturing software; diagnosis of faults and troubleshooting relating to software for weld inspection; diagnosis of faults and troubleshooting relating to software for measurement and defect inspection of plastic and metal parts; diagnosis of faults and troubleshooting relating to software for measurement and defect inspection of injection molded components; diagnosis of faults and troubleshooting relating to software for detection and assessment of pores and shrinkage cavities; diagnosis of faults and troubleshooting relating to software for analysis and visualization of foreign material in plastic and metal parts; diagnosis of faults and troubleshooting relating to software for analysis and visualization of foreign material in injection molded components; diagnosis of faults and troubleshooting relating to software for measurement and defect inspection of components and materials; diagnosis of faults and troubleshooting relating to software for porosity analysis and visualization; diagnosis of faults and troubleshooting relating to software for detection

and assessment of cracks and tears in materials; diagnosis of faults and troubleshooting relating to software for computer aided part and mold design for plastic and metal parts; diagnosis of faults and troubleshooting relating to software for inspection of closed cell foams; diagnosis of faults and troubleshooting relating to software for fiber analysis and visualization; artificial intelligence consultancy; research in the field of artificial intelligence; research in the field of artificial intelligence technology; technology consultation in the field of artificial intelligence; platforms for artificial intelligence as software as a service [SaaS]; software as a service [SaaS] featuring computer software platforms for artificial intelligence; software as a service [SaaS] services featuring software for machine learning, deep learning and deep neural networks; non-destructive testing of components and materials; computer aided industrial testing; computer aided scientific testing; quality control using computed tomography inspection; quality control; product development; component testing; material testing; quality testing; industrial testing; product testing; metallurgical testing; material testing services; product safety testing; quality control testing; product quality testing; safety testing of products; materials testing and analysing; development of testing methods; technical measuring and testing; non-destructive testing services; measurement and defect inspection of plastic and metal parts; measurement and defect inspection of injection molded components; detection and assessment of cracks and tears in materials; inspection of closed cell foams; weld inspection; preparation of measurement plans for analysis and visualization of volume data in the fields of computed tomography and non-destructive testing of components and materials; preparation of measurement plans for non-destructive testing of components and materials; preparation of measurement plans for analysis and visualization of computed tomography data; preparation of measurement plans for analysis and visualization of optical scan data; preparation of measurement plans for analysis and visualization of industrial computed tomography data; preparation of measurement plans for computer aided industrial testing; preparation of measurement plans for computer aided scientific testing; preparation of

measurement plans for quality control using computed tomography inspection; preparation of measurement plans for quality control; preparation of measurement plans for product development; preparation of measurement plans for component testing; preparation of measurement plans for material testing; preparation of measurement plans for quality testing; preparation of measurement plans for industrial testing; preparation of measurement plans for product testing; preparation of measurement plans for metallurgical testing; preparation of measurement plans for product safety testing; preparation of measurement plans for quality control testing; preparation of measurement plans for product quality testing; preparation of measurement plans for safety testing of products; preparation of measurement plans for materials testing and analysing; preparation of measurement plans for technical measuring and testing; preparation of measurement plans for measurement and defect inspection of plastic and metal parts; preparation of measurement plans for measurement and defect inspection of injection molded components; preparation of measurement plans for detection and assessment of pores and shrinkage cavities; preparation of measurement plans for analysis and visualization of foreign material in plastic and metal parts; preparation of measurement plans for measurement and defect inspection of components and materials; preparation of measurement plans for porosity analysis and visualization; preparation of measurement plans for detection and assessment of cracks and tears in materials; preparation of measurement plans for inspection of closed cell foams; preparation of measurement plans for fiber analysis and visualization; preparation of measurement plans for analysis and visualization of additive manufactured components; preparation of measurement plans for weld inspection; preparation of measurement plans for analysis and visualization of foreign material in injection molded components; technological consultancy relating to preparation of measurement plans for analysis and visualization of volume data in the fields of computed tomography and non-destructive testing of components and materials; technological consultancy relating to preparation of measurement plans for non-destructive testing of components and

materials; technological consultancy relating to preparation of measurement plans for analysis and visualization of computed tomography data; technological consultancy relating to preparation of measurement plans for analysis and visualization of optical scan data; technological consultancy relating to preparation of measurement plans for analysis and visualization of industrial computed tomography data; technological consultancy relating to preparation of measurement plans for computer aided industrial testing; technological consultancy relating to preparation of measurement plans for computer aided scientific testing; technological consultancy relating to preparation of measurement plans for quality control using computed tomography inspection; technological consultancy relating to preparation of measurement plans for quality control; technological consultancy relating to preparation of measurement plans for product development; technological consultancy relating to preparation of measurement plans for component testing; technological consultancy relating to preparation of measurement plans for material testing; technological consultancy relating to preparation of measurement plans for quality testing; technological consultancy relating to preparation of measurement plans for industrial testing; technological consultancy relating to preparation of measurement plans for product testing; technological consultancy relating to preparation of measurement plans for metallurgical testing; technological consultancy relating to preparation of measurement plans for product safety testing; technological consultancy relating to preparation of measurement plans for quality control testing; technological consultancy relating to preparation of measurement plans for product quality testing; technological consultancy relating to preparation of measurement plans for safety testing of products; technological consultancy relating to preparation of measurement plans for materials testing and analysing; technological consultancy relating to preparation of measurement plans for technical measuring and testing; technological consultancy relating to preparation of measurement plans for measurement and defect inspection of plastic and metal parts; technological consultancy relating to preparation of measurement plans for measurement and defect inspection of

injection molded components; technological consultancy relating to preparation of measurement plans for detection and assessment of pores and shrinkage cavities; technological consultancy relating to preparation of measurement plans for analysis and visualization of foreign material in plastic and metal parts; technological consultancy relating to preparation of measurement plans for measurement and defect inspection of components and materials; technological consultancy relating to preparation of measurement plans for porosity analysis and visualization; technological consultancy relating to preparation of measurement plans for detection and assessment of cracks and tears in materials; technological consultancy relating to preparation of measurement plans for inspection of closed cell foams; technological consultancy relating to preparation of measurement plans for fiber analysis and visualization; technological consultancy relating to preparation of measurement plans for analysis and visualization of additive manufactured components; technological consultancy relating to preparation of measurement plans for weld inspection; technological consultancy relating to preparation of measurement plans for analysis and visualization of foreign material in injection molded components; technological consultancy relating to selection of parameters for analysis and visualization of volume data in the fields of computed tomography and non-destructive testing of components and materials; technological consultancy relating to selection of parameters for non-destructive testing of components and materials; technological consultancy relating to selection of parameters for analysis and visualization of computed tomography data; technological consultancy relating to selection of parameters for analysis and visualization of optical scan data; technological consultancy relating to selection of parameters for analysis and visualization of industrial computed tomography data; technological consultancy relating to selection of parameters for computer aided industrial testing; technological consultancy relating to selection of parameters for computer aided scientific testing; technological consultancy relating to selection of parameters for quality control using computed tomography inspection; technological consultancy relating to selection of

Measurement apparatus and equipment including those for scientific, nautical, topographic, meteorologic, industrial and laboratory purposes, thermometers, not for medical purposes, barometers, ammeters, voltmeters, hygrometers, testing apparatus not for medical purposes, telescopes, periscopes, directional compasses, speed indicators, laboratory apparatus, microscopes, magnifying glasses, binoculars, stills for laboratory experiments, ovens and furnaces for laboratory experiments; apparatus for recording, transmission or reproduction of sound or images, cameras, photographic cameras, television apparatus, video recorders, CD and DVD players and recorders, MP3 players, computers, desktop computers, tablet computers, wearable activity trackers, microphones, loudspeakers, earphones, telecommunications apparatus, apparatus for the reproduction of sound or images, computer peripheral devices, cell phones, covers for cell phones, telephone apparatus, computer printers, scanners [data processing equipment], photocopiers; magnetic and optical data carriers and computer software and programmes recorded thereto, downloadable and recordable electronic publications, encoded magnetic and

optic cards; prerecorded motion picture films; prerecorded music videos; antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods; ticket dispensers, automatic teller machines (ATM); electronic components used in the electronic parts of machines and apparatus, semi-conductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, electronic locks, photocells, remote control apparatus for opening and closing doors, optical sensors; counters and quantity indicators for measuring the quantity of consumption, automatic time switches; clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment; eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof; apparatus and instruments for conducting, transforming, accumulating or controlling electricity, electric plugs, junction boxes [electricity], electric switches, circuit breakers, fuses, lighting ballasts, battery starter cables, electrical circuit boards, electric resistances, electric sockets, transformers [electricity], electrical adapters, battery chargers, electric door bells, electric and electronic cables, batteries, electric accumulators; solar panels for production of electricity; alarms and anti-theft alarms, other than for vehicles, electric bells; signalling apparatus and instruments, luminous or mechanical signs for traffic use, fire extinguishing apparatus, fire engines, fire hose and fire hose nozzles; radar apparatus, sonars, night vision apparatus and instruments; decorative magnets; metronomes.

Class 35

Advertising, marketing and public relations; organization of exhibitions and trade fairs for commercial or advertising purposes; development of advertising concepts; provision of an online marketplace for buyers and sellers of goods and services; office functions; secretarial services; arranging newspaper subscriptions for others; compilation of statistics; rental of office machines; systemization of information into computer databases; telephone answering for unavailable subscribers; business

management, business administration and business consultancy; accounting; commercial consultancy services; personnel recruitment, personnel placement, employment agencies, import-export agencies; temporary personnel placement services; auctioneering; the bringing together, for the benefit of others, of a variety of goods, namely, chemicals used in industry, science, photography, agriculture, horticulture and forestry, manures and soils, unprocessed artificial resins and unprocessed plastics, fire extinguishing compositions, adhesives not for medical, household and stationery purposes, paints, varnishes, lacquers, preservatives against rust, preservatives against deterioration of wood, thinners and binders for paints, pigments, preservatives for metals, shoe dyes, printing dyes and ink, toners (including filled toner cartridges), colorants for food, pharmaceuticals and beverages, raw natural resins, metals in foil and powder form for painters, decorators, printers and artists, bleaching and cleaning preparations, detergents other than for use in manufacturing operations and for medical purposes, laundry bleach, fabric softeners for laundry use, stain removers, dishwasher detergents, perfumery, cosmetics (except medicated cosmetics), fragrances, deodorants for personal use and animals, soaps (except medicated soap), dental care preparations, dentifrices, denture polishes, tooth whitening preparations, mouth washes, not for medical purposes, abrasive preparations, emery cloth, sandpaper, pumice stone, abrasive pastes, polishing preparations for leather, vinyl, metal and wood, polishes and creams for leather, vinyl, metal and wood, wax for polishing, industrial oils and greases, cutting fluids, dust absorbing, wetting and binding compositions, solid fuels, coal, firewood, liquid and gas fuels, petrol, diesel oil, liquified petroleum gas, natural gas, fuel oil and their non-chemical additives, candles, wicks, semi-finished wax, wax and paraffin for lighting purposes, electrical energy, pharmaceutical and veterinary preparations for medical purposes, chemical preparations for medical and veterinary purposes, chemical reagents for pharmaceutical and veterinary purposes, radioactive substances for medical and veterinary purposes, medicated cosmetics, dietary supplements for pharmaceutical and veterinary purposes, dietary supplements for

human consumption, dietary supplements for animals, nutritional supplements, medical preparations for slimming purposes, food for babies, herbs and herbal beverages adapted for medicinal purposes, medicated dental care preparations, teeth filling material, dental impression material, dental adhesives and material for repairing teeth, sanitary preparations for medical use, feminine hygiene pads, hygienic tampons, plasters, materials for dressings, diapers, including those made of paper and textiles, babies' diapers of paper, babies' diapers of textile, babies' napkins of paper, adult diapers of paper, adult diapers of textile, diapers for pets, preparations for destroying vermin, fungicides, herbicides, rodenticides, deodorants, other than for human beings or for animals, air deodorising preparations, disinfectants, antiseptics, detergents for medical purposes, medicated soap, disinfectant soap, antibacterial hand lotions, ores of non-precious metal, common metals and their alloys and semi-finished products made of these materials, cast iron for use in building, reinforcing materials of metal for building, common metals in sheet, rod, bar or billet form, goods and materials of common metal used for storage, wrapping, packaging and sheltering purposes, containers of metal (storage, transport), buildings of metal, frames of metal for building, poles of metal for building, metal boxes, packaging containers of metal, aluminium foil, fences made of metal, guard barriers of metal, metal tubes, storage containers of metal, metal containers for the transportation of goods, ladders of metal, metal window screens, metal drain traps, doors, windows, shutters, jalousies and their cases and fittings of metal, non-electric cables and wires of metal, ironmongery, small hardware of metal, screws, nails, bolts, nuts of metal, pins [hardware], washers of metal, pitons of metal, metal chains, fittings of metal for furniture, furniture casters of metal, casters of metal, door and window handles of metal, metal hinges, metal espagnolettes, metal locks, metal keys for locks, chains of common metal for keys, pulleys of metal, other than for machines, ventilation ducts, vents, vent covers, pipes, chimney caps, manhole covers, grilles of metal for ventilation, heating, sewage, telephone, underground electricity and air conditioning installations, metal panels or boards (non-luminous

and non-mechanical) used for signalling, route showing, publicity purposes, signboards of metal, advertisement columns of metal, signaling panels of metal, non-luminous and non-mechanical traffic signs of metal, pipes of metal for transportation of liquids and gas, drill pipes of metal and their metal fittings, valves of metal, other than parts of machines, couplings of metal for pipes, elbows of metal for pipes, clips of metal for pipes, connectors of metal for pipes, safes (strong boxes) of metal, metal railway materials, metal rails, metal railway ties, railway switches, bollards of metal, floating docks of metal, mooring buoys of metal, anchors, metal moulds for casting, other than machine parts, works of art made of common metals or their alloys, trophies of common metal, metal closures, bottle caps of metal, metal poles, framework of metal for building, pilings of metal, scaffolding towers of metal, metal pallets and metal ropes for lifting, loading and transportation purposes, metal hangers, ties, straps, tapes and bands used for load-lifting and load-carrying, wheel chocks made primarily of metal, decorative metal profiles, machines, machine tools and industrial robots for processing and shaping wood, metals, glass, plastics and minerals, 3D printers, construction machines and robotic mechanisms (machines) for use in construction, bulldozers, diggers (machines), excavators, road construction and road paving machines, drilling machines, rock drilling machines, road sweeping machines, lifting, loading and transmission machines and robotic mechanisms (machines) for lifting, loading and transmission purposes, elevators, escalators and cranes, machines and robotic mechanisms (machines) for use in agriculture and animal breeding, machines and robotic mechanisms (machines) for processing cereals, fruits, vegetables and food, beverage preparation machines, electromechanical, beverage processing machines, engines and motors, other than for land vehicles, parts and fittings therefor, hydraulic and pneumatic controls for engines and motors, brakes other than for vehicles, brake linings for engines, crankshafts, transmission gears for machines, cylinders for engines, pistons for engines, turbines, not for land vehicles, filters for engines and motors, oil, air and fuel filters for land vehicle engines, exhausts for land vehicle engines, exhaust manifolds

for land vehicle engines, engine cylinders for land vehicles, engine cylinder heads for land vehicles, pistons for land vehicle engines, carburetors for land vehicles, fuel conversion apparatus for land vehicle engines, injectors for land vehicle engines, fuel economisers for land vehicle engines, pumps for land vehicle engines, valves for land vehicle engines, starters for motors and engines, dynamos for land vehicle engines, sparking plugs for land vehicle engines, bearings (parts of machines), roller or ball bearings, machines for mounting and detaching tires, alternators, current generators, electric generators, current generators operated with solar energy, painting machines, automatic spray guns for paint, electric, hydraulic and pneumatic punching machines and guns, electric adhesive tape dispensers (machines), electric guns for compressed gas or liquid spraying machines, electric hand drills, electric hand saws, electric jigsaw machines, spiral machines, compressed air machines, compressors (machines), vehicle washing installations, electric and gas-operated welding apparatus, electric arc welding apparatus, electric soldering apparatus, electric arc cutting apparatus, electrodes for welding machines, printing machines, packaging machines, filling, plugging and sealing machines, labellers (machines), sorting machines, electric packing machines for plugging and sealing of plastics, machines for textile processing, sewing machines, pumps [machines], self-regulating fuel pumps, electric kitchen machines for chopping, grinding, crushing, mixing and mincing foodstuff, washing machines, laundry washing machines, dishwashers, spin driers (not heated), electric cleaning machines for cleaning floors, carpets or floorings, vacuum cleaners and parts thereof, automatic vending machines, galvanizing and electroplating machines, electric door openers and closers, joints (parts of engines), forks, spoons, knives and non-electric cutters, slicers, peelers for kitchen use, including those made of precious metals, side arms and blades (weapons), tools and apparatus for personal beauty care use, tools and apparatus for shaving, epilation, manicure and pedicure, electric hand implements for straightening and curling hair, scissors, hand-operated [non-electric] hand tools for the repair of machines, apparatus and vehicles and for use in construction,

agriculture, horticultural and forestry, none of them being power tools, electric or non-electric irons, steam irons, handles for hand-operated hand tools, measurement apparatus and equipment including those for scientific, nautical, topographic, meteorologic, industrial and laboratory purposes, thermometers, not for medical purposes, barometers, ammeters, voltmeters, hygrometers, testing apparatus not for medical purposes, telescopes, periscopes, directional compasses, speed indicators, laboratory apparatus, microscopes, magnifying glasses, binoculars, stills for laboratory experiments, ovens and furnaces for laboratory experiments, apparatus for recording, transmission or reproduction of sound or images, cameras, photographic cameras, television apparatus, video recorders, CD and DVD players and recorders, MP3 players, computers, desktop computers, tablet computers, wearable activity trackers, microphones, loudspeakers, earphones, telecommunications apparatus, apparatus for the reproduction of sound or images, computer peripheral devices, cell phones, covers for cell phones, telephone apparatus, computer printers, scanners [data processing equipment], photocopiers, magnetic and optical data carriers and computer software and programmes recorded thereto, downloadable and recordable electronic publications, encoded magnetic and optic cards, prerecorded motion picture films, prerecorded music videos, antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods, ticket dispensers, automatic teller machines (ATM), electronic components used in the electronic parts of machines and apparatus, semi-conductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, electronic locks, photocells, remote control apparatus for opening and closing doors, optical sensors, counters and quantity indicators for measuring the quantity of consumption, automatic time switches, clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment, eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof, apparatus and instruments for conducting, transforming, accumulating or controlling electricity, electric plugs, junction boxes

SANDVIK COROMANT

Goods and/or Services:

Class 01

Wear resistant surface coatings and thin films of organic and chemical materials (or substances) for use in manufacturing processes and in scientific and industrial research, for further application under vacuum on various substrates such as cemented carbide, cermets, or cubic boron nitride.

Class 06

Hard metal compositions for use in the further manufacturing of tools for the machining of metal or parts or accessories of such tools.

Class 07

Power operated metal working machine tools; tool holders for power operated metal working machines; inserts for power operated metal working machine tools; machine antivibration tools, namely, holders, dampers, boring bars, and adapters; parts and fittings for all the aforementioned goods; machine parts, namely, blades and blade holders, bearings, as parts of machines; automatic vending machines; automated dispensing machines for tools and metal cutting tools.

Class 09

Computerized electric controllers for use in monitoring power-operated machine tools;

computer programs, and computer software all for the calculation of cutting data for machine tools; remote control apparatus for power-operated machine tools, computer aided manufacturing software for controlling of machine tools; computerized electric integrated control systems for metal working machines and tools; computer software for calculation of data collected in connection with machine working machines and tools; computer software for increased machine working tool productivity, logistics, accessibility and identification; software for machining of materials such as materials of metal and non-metallic materials such as composite materials; downloadable computer software, namely, computer software for use with controlling cutting machines; downloadable computer software for use in planning, tracking and controlling manufacturing facility operations; downloadable computer software for controlling cutting machines; downloadable computer software for nesting and programming CNC cutting machines; computer programs recorded on magnetic media for use in providing engineering design and engineering drafting services; computer programs for use in machine tool industry; computer hardware and related computer software for controlling power-operated automation equipment; downloadable electronic publications in the nature of handbooks, manuals, instructional and teaching material in the field of metal-cutting tools and tooling systems; downloadable computer software for blockchain technology; downloadable computer software for payment and exchange transactions involving cryptocurrencies; downloadable multimedia file containing artwork, text, audio, and video relating to industrial goods and human interest topics authenticated by non-fungible tokens (NFTs); downloadable virtual goods in the form of virtual metalworking machine tools and inserts, metalworking machines, inventory management machines, industrial robots, electronic controls, calculating devices, computers, measurement machinery and publications for use in online virtual world.

Class 10

Surgical, medical, dental and veterinary apparatus and instruments, in particular

precision tools for bone surgery and dentistry, including drills, burrs, twist drills, step drills, pilot drills, planishing burrs, pins for artificial teeth, root canal enlargers, root canal pins for artificial teeth, taps, reamers and nails for dental use; all the aforesaid goods included in this class.

Class 35

Provision of wholesale and retail services, including such services being provided online, related to metalworking machine tools and inserts, metalworking machines, inventory management machines, industrial robots, electronic controls, calculating devices, computers and measurement machinery; provision and operation of an online marketplace for buyers and sellers of metalworking machine tools and inserts, metalworking machines, inventory management machines, industrial robots, electronic controls, calculating devices, computers and measurement machinery; business management consultancy and advisory services; inventory control; database management; updating and maintenance of data in computer databases; commercial and industrial management assistance; advisory services for business management; business management and organization consultancy; provision of commercial and business support services relating to the sale of products for use within the metal working industries; provision of online retail services for products for use within the metal working industries, namely, the provision and operation of an online marketplace for buyers and sellers of the aforesaid products; e-commerce services, being business management services relating to e-commerce in the aforementioned industries; online ordering services; sales administration; provision of customer service management relating to customer support services and information related to products for use within the metal working industries; information, advisory, business support, administrative support and consultancy services relating to the aforesaid; provision of an online marketplace for buyers and sellers of downloadable digital collectibles authenticated by non-fungible tokens (NFTs); retail store services featuring virtual goods, namely, metalworking machine

tools and inserts, metalworking machines, inventory management machines, industrial robots, electronic controls, calculating devices, computers, measurement machinery and publications for use in online virtual worlds.

Class 36

Financial services; insurance and financial information and consultancy services; insurance services, namely, underwriting extended warranty contracts; financing, lease-purchase financing and loan services; credit financing, lease-purchase financing and loan services; insurance services; information, advisory and consultancy services relating to the aforesaid; issuance of tokens of value; currency exchange services; currency trading; electronic banking via a global computer network; electronic funds transfer.

Class 37

Repair, maintenance, assembly and installation services in the field of metal working industries; rebuild, refurbishment, reconditioning of products within the metal working industries; rental and hire of metal working machine tools and inserts; rental of machine tools; repair of tools; information, advisory, maintenance and consultancy services relating to the aforesaid.

Class 40

Treatment of materials in the nature of common metals and their alloys; coating, treatment and regrinding of metal surfaces, tools and machines; metal casting and tempering; custom manufacture of metal working products and machines; assembly of products for others; treatment of materials in the nature of common metals and their alloys by mechanical or chemical processing; grinding; providing material treatment information; recycling of steel and other materials and products; material treatment information; regrinding and recoating of tools and machines; custom manufacture of power-operated automation equipment; custom manufacturing of parts and components made from common metals and their alloys; information,

advisory and consultancy services relating to the aforesaid.

Class 41

Education; providing of training; education and training, including online or virtual training, in the technical field; education and training, including online training, relating to product development, manufacturing and inspection; training services, including online or virtual training services, provided in relation to the metal working industries; training services, including online or virtual training services, provided in relation to products for use within the metal working industries; practical training, including online or virtual training, in the fields of engineering and design; training services, including online or virtual training services, in the fields of engineering and design provided via simulators; training services, including online or virtual training services, related to use of software, hardware, equipment and tools for the metal working industries; providing, rental or leasing of educational materials, publications, materials and apparatus in relation to the metal working industries; information, advisory and consultancy services relating to the aforesaid; entertainment services in the nature of providing on-line, non-downloadable files of virtual goods featuring metalworking machine tools and inserts, metalworking machines, inventory management machines, industrial robots, electronic controls, calculating devices, computers, measurement machinery, publications and artwork for use in virtual environments created for entertainment purposes; providing on-line digital publications featuring digital art authenticated by non-fungible tokens (NFTs).

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; scientific and technological services, namely, research and design in the field of tools and tooling systems for industrial metal cutting, equipment and tools;

industrial research in the field of tools and tooling systems for industrial metal cutting; computer hardware and software design; computer software development; testing, analysis, and evaluation of the goods of others to assure compliance with industry standards; consulting services in the field of design and development of engineering processes; consumer product safety testing consultation; measurement services; services for monitoring industrial processes remotely; chemical research and analysis; Software as a Service (SaaS) and Platform as a Service (PaaS) services featuring computer software platforms for a tool library; operational support services, namely, research, analysis and configuration of computer systems and software for use with metalworking machine tools and inserts, metalworking machines, inventory management machines, industrial robots, electronic controls, calculating devices, computers and measurement machinery for improved performance and results; services for monitoring industrial processes; consulting services in the field of cloud computing; technological consulting services, namely, providing services related to technical inspection, measurement, and analysis of industrial, medical, and aerospace components parts and components; hosting services; Software as a Service (SaaS) and Platform as a Service (PaaS) services provided in relation to the calculation of data for machine tools; providing temporary use of online non-downloadable software, Software as a Service (SaaS) and Platform as a Service (PaaS) services provided in relation to the controlling of cutting machines; providing temporary use of online non-downloadable software, Software as a Service (SaaS) and Platform as a Service (PaaS) services provided in relation to the nesting and programming of CNC cutting machines; providing temporary use of online non-downloadable software, Software as a Service (SaaS) and Platform as a Service (PaaS) services provided in relation to the provision of engineering design and engineering drafting services; providing temporary use of online non-downloadable software, Software as a Service (SaaS) and Platform as a Service (PaaS) services provided in relation to the machine tool industry; providing temporary use of online non-downloadable software, Software as a Service (SaaS) and Platform as a Service

(PaaS) services provided in relation to products for use within the metal working industries; providing automatic updates to applications and software as a service (SaaS); updating of computer software for others; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; performance monitoring services in the field of the metal working industries; information, advisory, technological support and consultancy services relating to the aforesaid; user authentication services using blockchain technology for minting non-fungible tokens [NFTs]; blockchain as a service [BaaS] for minting non-fungible tokens [NFTs]; computer programming of smart contracts on a blockchain for minting non-fungible tokens [NFTs]; software as a service featuring virtual products and marketplaces; custom engineering services (design) of products within the metal working industries.

Mark Clause(s):

The following claim is made in the International Registration: Colour(s) claimed: Dark brown, black, light brown, orange, yellow, green, and white. The mark consists of an inner image of a stylized cartoon depicting an animal known as a red panda appearing in white, black, orange, brown, and dark brown. The panda's face is orange in color with two ears on top of its head. Each ear has an inner ear color of dark brown and an outer ear color which is white with a black thick outline. Two shaded-in black circles represent the eyes. The nose is represented by a black shaded-in horizontal oval. The mouth is depicted as a black line slightly curving upward to create a smile. The red panda's eyebrows are formed by white shaded-in circles, slightly smaller in size than the black eyes, and set slightly closer together and above the eyes. The cheeks are represented by white tear-drop shapes starting at the lower outside corner of each eye and ending equal to the bottom of the muzzle. The muzzle is formed by a white oval and contains in the upper half the mouth and nose. The red panda's body is in the shape of a vertical oval with the top half being orange and the bottom half being brown. The top two extremities are dark brown gum-drop shaped arms rotated ninety degrees and are holding a black outlined light brown beverage cup, with a white area representing the cup's lid with a yellow line that forms the straw in the center. The cup has the wording "TEAPIOCA LOUNGE", printed on it in light brown font inside a brown circle that has two ribbons of light brown on either side of the word "TEAPIOCA", and within it, an image of a stylized coffee cup sitting on a stylized saucer with wavy brown lines imitating steam rising from the center of the cup in brown. The beverage cup contains nine black circular tapioca balls in the bottom. The red panda's lower extremities are also dark brown and are half ovals sticking out below the red panda's belly. The red panda's tail is thick and ringed in alternating orange and dark brown rings, ending in a dark brown

ring. The inner image of the red panda is encircled by a brown band, the band is intersected on the left side near the middle with a shape that resembles a green leaf that ends slightly outside the brown band. Above this leaf shape is the word "TEAPIOCA" in uppercase orange font. The word is followed by the other green leaf shape which bisects approximately in the middle of the right side of the band, which when combined creates the top portion of the circle. The bottom portion of the circle is bordered by the aforementioned green leaf shapes with the word "LOUNGE" in uppercase green font on the brown band.

Registration of this mark shall give no right to the exclusive use of the word "Lounge".
