Corrigenda	630

General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

CAPER, BY INSTACART

Goods and/or Services:

Class 09

Computer hardware and software systems for the wholesale and retail store industries, namely, point-of-sale software and computer hardware for inventory management, operating computer systems, processing of sale transactions, data and accounting management, customer relationship management, transmission of payment information, inventory management, management of consumer loyalty programs and gift card processing; artificial intelligence powered checkout system comprised of customer self-service electronic checkout stations for point of sale; artificial intelligence powered checkout systems comprised of cameras to track and process purchases of goods from stores; electronic equipment for point-of-sale (POS) systems, namely, point-of-sale terminals, bar code readers, optical readers, advertisement display monitors, computer display monitors, keyboards, printers, scanners, radio transmitters, radio receivers, and computer hardware with embedded computer operating software; point-of-sale terminals; computing hardware that

consists of a screen, a central processing unit and cameras; secure electronic payment terminals for electronic transactions; downloadable mobile applications that allows users to execute shopping-related demands in the nature of building a shopping list, placing an order for groceries and retail products online, and selecting recipes according to groceries purchased; high performance one dimensional and two dimensional barcode readers using image technology; downloadable computer application software for mobile phones, handheld computers, and tablets, featuring image recognition, optical decoding, audio recognition, audio decoding, and code technology, for use in reading scanned advertisements in print, mobile, online, and radio format, displaying consumer product information about goods or services, providing consumers with purchase options that include customer loyalty and rewards programs offerings, personalized sales offers, coupons, and recommendations, and providing consumers with the ability to order, purchase, and obtain delivery of general consumer merchandise and services; computing hardware, namely, mobile computing devices consisting of barcode scanners, interactive touchscreen monitors, and radio frequency devices featuring deep learning, camera-based item identification, and computer vision, that function as portable retail store checkouts; computing hardware, namely, mobile computing devices consisting of barcode scanners, interactive touchscreen monitors, radio frequency receivers, and electronic weighing scales consisting of weight sensors and featuring deep learning, computer vision, and camera based item identification, that enable consumers to weigh goods; computer hardware in the nature of mobile computing devices equipped to bar code scanners, touchscreen monitors and radio frequency receivers that cooperate with each other to collect and aggregate consumer behavior data, namely, tracking customer purchases and automating customer checkout within a retail store; software development kits (SDKs) consisting of computer software development tools to allow third parties to integrate retailer applications, e-commerce sites and retail fulfillment backend systems to cloud-based consumer marketplace or a locally deployed server; computer software and computer hardware that allow

users to perform electronic business transactions via a global computer network; customer self-service electronic checkout stations for point of sale; computer software and programs for use in payment processing; downloadable mobile applications for commerce, namely, software that allows users to perform electronic business transactions via a global computer network; all of the foregoing excluding photo and video sharing and social networking software.

Class 35

Advertising and promoting the goods and services of others via a global computer network, namely, advertising and promoting the availability of goods for selection, ordering, purchase, and delivery; comparison shopping services; promoting the goods and services of others by way of providing special offers and online catalogs featuring a wide variety of consumer goods of others; all of the foregoing excluding photo and video sharing and social networking services.

Class 36

Payment processing services, namely, charge card and credit card payment processing services, processing of electronic wallet payments, processing of contactless credit and debit card payments, and processing of credit card payments via near field communication technology-enabled devices.

Class 38

Providing electronic transmission of credit card transaction data and electronic payment data via a global computer network; all of the foregoing excluding photo and video sharing and social networking services.

Class 42

Providing temporary use of non-downloadable computer software for enabling autonomous checkout utilizing artificial intelligence; providing temporary use of non-downloadable computer software for payment processing, usage data reporting,

controlling user access, and reservation of charging times; development and implementation of new technology for others in the field of robotics in retail stores; providing temporary use of non-downloadable computer software for use in database management, sales, customer tracking and management, and inventory management for the e-commerce, wholesale and retail industries; providing temporary use of non-downloadable computer software that utilizes artificial intelligence to empower cameras to identify and understand human activities; development of new technology for others in the field of retail store services, namely development of automated smart robotic systems using methods of artificial intelligence to enable a self-service electronic checkout station for point of sale; computer systems analysis of automated smart robotic systems using methods of artificial intelligence to enable a self-service electronic checkout station for point of sale; providing temporary use of non-downloadable computer e-commerce software to allow users to perform electronic business transactions via global computer network; providing temporary use of non-downloadable computer software for use in processing credit and debit card payments; providing temporary use of non-downloadable software development kits (SDKs) consisting of non-downloadable computer software development tools to allow third parties to integrate retailer applications, e-commerce sites and retail fulfillment backend systems to cloud-based consumer marketplace or a locally deployed server; providing temporary use of non-downloadable computer software for image recognition and matching images so analyzed with other image data; providing temporary use of non-downloadable computer image processing software for use in extracting visual attributes from images; providing temporary use of non-downloadable computer software for use in acquiring shopping information and price comparisons; providing temporary use of non-downloadable computer software that provides weight, dimension, shape, and location data for digitally scanned products; providing temporary use of non-downloadable computer software that allows users to identify and locate online stores where goods that have been digitally photographed and interpreted by image

recognition software can be purchased; providing temporary use of non-downloadable computer software that tracks a shopper's location inside a store and displays it to users via a screen interface while shopping; providing temporary use of non-downloadable computer software for use in inventory tracking and data analytics in the field of retail stores; providing temporary use of non-downloadable computer software for analyzing retail store customer data; providing temporary use of non-downloadable computer software for analyzing consumer behavioral data; providing temporary use of non-downloadable computer software to collect and aggregate consumer behavior data within a retail store; providing temporary use of non-downloadable computer software to provide dynamic pricing of items throughout the store; providing temporary use of non-downloadable computer software that provides recommendation of items for purchase based on shopper preferences; providing temporary use of non-downloadable computer software for use in advertising products and brands via electronic displays throughout retail stores; all of the foregoing excluding photo and video sharing and social networking services.

Goods and/or Services:

Class 07

Metalworking machines and tools; metalworking machine tools; cutting machines for metalworking; milling machines for metalworking; drilling machines for metalworking; power-driven hand-held tools; electric sanders for metalworking; hand-held power-driven grinders; electric soldering irons; electric soldering apparatus; work stations [machines] for desoldering components on semi-conductor substrates; electric vacuum suction nozzles for picking up small components.

Class 08

Tweezers; bladed or pointed hand tools; scissors; folding knives; blades, hand-tools; cutting tools, hand-held ones only; dies, hand-held; taps, hand-held tools; drills, hand-held tools; files, hand-held; reamers, hand-held tools; screw stocks, hand tools; tube cutters, hand tools; bits, hand tools; bits, parts of hand tools; hand tools, hand operated, other than bladed or pointed hand tools; spanners; screwdrivers, non-electric; adjustable spanners; wrenches, hand-held tools; nippers; pliers; cutting pliers; wire strippers, hand tools; whetstones; whetstone holders.

Class 09

Measuring or testing machines and instruments; derived-unit measuring machines and apparatus; temperature indicators; tape measures; electric or magnetic meters

and testers; resistance measuring instruments; voltmeters; ammeters; ohmmeters; photographic machines and apparatus; tilting heads for cameras; optical machines and apparatus; microscopes; magnifying glasses; lenses for microscopes; stereoscopes; mirrors [optics]; magnifying glasses [optics]; optical lenses; electronic control apparatus; computer software, recorded; computer software applications, downloadable; telecommunication machines and apparatus; video frequency devices and apparatus; digital cameras; video cameras, camcorders; electrodes, other than welding electrodes and medical electrodes; dust protective goggles and masks; electrostatic interference eliminators for industrial use, other than for the treatment of air and water but including for use in manufacturing process.

Class 11

Electric lamps and other lighting apparatus; light-emitting diodes [LED] lighting apparatus; household electrothermic appliances; electric air purifiers for household purposes; air conditioners for industrial purposes; industrial air purifiers; electrostatic elimination equipment for industrial use for the treatment of air and water.

Goods and/or Services:

Class 09

Cd-roms; CD-ROM featuring video game programs; downloadable software for processing electronic payments and for transferring funds to and from others; downloadable software for use with cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible tokens; downloadable software for use in managing portfolios of cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible tokens; software for digital currency wallet and storage services; downloadable software for digital currency payment and exchange transactions; downloadable software for implementing and recording financial transactions; downloadable computer software for managing digital and virtual

blockchain-based cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible tokens; security tokens [encryption devices]; cryptocurrency hardware wallets; software for the exchange of cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible tokens; downloadable cryptographic keys for receiving and spending cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible tokens; software for blockchain technology and cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible tokens; computer programmes relating to financial matters; computer software relating to the handling of financial transactions; software for using blockchain technology to hold, control, trade, buy, sell, transfer, exchange and use digital assets, namely, cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible tokens; software for facilitating on-line and point-of-sale electronic commercial financial transactions; software for the provision of electronic mobile cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible token exchange services; software for providing online trading platform for digital assets, namely, cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible tokens; mobile software applications for authentication using blockchain-based software technology; mobile software applications for the purpose of product and document authentication and tracking, and brand monitoring and protection, to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine products and documents; electronic and downloadable publications for software developers in the nature of blogs, articles, newsletters, manuals, notes, tutorials, instructional videos, and instructional guides in the fields of information technology and software development; electronic publications, downloadable; downloadable computer software for the production, automated and non-automated creation, and automated and non-automated modification of artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, virtual environments, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible

tokens on a blockchain network featuring or linking to digital or physical avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books, protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen and gasoline, interactive educational and entertainment products, computer games and intellectual property assets, for access and use in online virtual, augmented and mixed reality environments; downloadable computer programs for electronically trading, storing, sending, receiving, accepting and transmitting of artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, virtual environments, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens on a blockchain network featuring or linking to digital or physical avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books, protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen and gasoline, interactive educational and entertainment products, computer games and intellectual property assets, for access and use in online virtual, augmented and mixed reality environments; credit and chip cards as well as cash cards (encoded); software for virtual reality [vr] cinema; headsets and

glasses for virtual reality [vr] cinema; encoded bank and debit cards for use in relation to the electronic transfer of funds; payment software; virtual, augmented and mixed reality hardware, software and computer games software; virtual, augmented and mixed reality headsets; headsets for playing video games; virtual reality goggles; virtual reality glasses; audiovisual headsets for playing video games; interactive multimedia, computer and video game programs; computer game software for use with on-line interactive games; software featuring a virtual, augmented and mixed reality entertainment experience; software for use in creating, manipulating and participating in 3d virtual environments; downloadable virtual, augmented and mixed reality software for multi-user and multiplayer access to an online virtual, augmented and mixed reality environment; computer software, namely, software development tools for the creation of computer-generated imagery and graphics for the production of video games, motion pictures, television shows, films, videos, 3d animations, 3d simulations, 3d visualizations, virtual, augmented and mixed reality video games, virtual, augmented and mixed reality motion pictures, virtual, augmented and mixed reality television shows; motion sensors for computer and video games; computer game and interactive computer game programs with artificial intelligence; artificial intelligence and machine learning software; computer software for transmitting, sharing, broadcasting and using artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens in virtual, augmented and mixed reality environments; computer software that provides a user interface for managing digital identities and for signing blockchain transactions; electronic game software for mobile telephones; virtual, augmented and mixed reality software for use in mobile devices for integrating electronic data with real world environments for the purposes of entertainment; trading cards [magnetic]; downloadable virtual goods, namely, computer programs featuring avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books, protective

helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen and gasoline, interactive educational and entertainment products and computer games, authenticated by non-fungible tokens, for use online and in online virtual worlds; downloadable virtual reality software for providing metaverse experiences; downloadable software for providing access to an online multimedia virtual environment; downloadable virtual, augmented and mixed reality immersion software; downloadable software for experiencing interactive entertainment and virtual, augmented and mixed reality content; downloadable software for experiencing fully immersive and interactive animations, simulations, and visualizations for recreational, leisure, entertainment and educational purposes; downloadable software for immersive experiences in 2d and 3d games, 2d and 3d interactive game and non-game worlds, virtual environments, virtual, augmented and mixed reality; virtual reality motion simulators; computer software, namely, game engine software for video game development and operation; downloadable computer software and computer game software for multi-media smart phones, network communications apparatuses, wireless mobile devices, portable media players; downloadable software for the creation of computer-generated imagery, graphics and content for use in game and non-game worlds, online universes, and metaverse environments; computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; downloadable software for creating, managing, and interacting with an online community; downloadable software for advertisers to communicate and interact with online communities; downloadable software that enables individuals, groups, companies, and brands to create and maintain an online presence and

interact with online communities for marketing purposes; downloadable computer software for the creation, production and modification of digital animated and non-animated designs and characters, avatars, digital overlays and skins for access and use in online environments, virtual online environments, and virtual, augmented and mixed reality environments; downloadable software providing a virtual marketplace; computer aided design (cad) software; downloadable software development kits (sdk); computer software for use as an application programming interface (api); computer programs for media advertising communications via digital communications networks and online virtual worlds; electronic publications relating to media advertising communications via digital communications networks and online virtual worlds; downloadable virtual goods, namely computer programs featuring artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens; downloadable computer software for managing, creating, storing, accessing, sending, receiving, exchanging, validating and selling digital and virtual blockchain-based assets, namely, artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens; downloadable digital media featuring artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, recorded footage and music; downloadable electronic data files featuring artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens.

Class 35

Retail store services in virtual goods, namely, avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs,

printed matter, books, protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen and gasoline, interactive educational and entertainment products and computer games, authenticated by non-fungible tokens for use online, in online virtual worlds, virtual, augmented and mixed reality environments; providing an online marketplace for buyers and sellers of cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible tokens to undertake transactions; presentation of goods on all communications media for retail purposes; providing an online marketplace for buyers and sellers of downloadable and non-downloadable artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, recorded footage, highlights, music, data and digital files authenticated by non-fungible tokens; online retail store services featuring virtual reality, mixed reality and augmented reality hardware and software; promotion of goods and services through sponsorship of entertainment, cultural and sporting events, in the interactive entertainment, digital collectibles, virtual reality, consumer electronics and video game entertainment industries; organizing and conducting events and exhibition for commercial purposes in the interactive entertainment, digital collectibles, virtual reality, consumer electronics and video game entertainment industries; advertising and promotion of sports and entertainment events online, in online virtual worlds, virtual, augmented and mixed reality environments; advertising and promotion of the goods and services of third parties through sponsors' advertisements online, in online virtual worlds, virtual, augmented and mixed reality environments; providing advertisings space in an online socially interactive digital environment for the advertisement of the goods and services of others; rental of advertising space and dissemination of advertising

material online, in virtual worlds, virtual, augmented and mixed reality environments; advertising, marketing and commercial consultancy in the field of blockchain technology, cryptocurrency and non-fungible tokens; compilation and analysis of business data in the field of blockchain technology, cryptocurrency and non-fungible tokens; business intermediary services in the nature of facilitating the exchange and sale of services and products of third parties online, in online virtual worlds, and virtual, augmented and mixed reality environments; organisation and management of customer loyalty programs that include access to virtual exhibitions, concerts, sporting events, motor sports events, training workshops and conferences.

Class 36

Financial transactions via blockchain; electronic funds transfer provided by blockchain technology; cryptocurrency trading and exchange services, namely, providing a digital currency or digital token for use by members of an on-line community via a global computer network; providing secure financial transactions in relation to cryptocurrency, meta tokens, digital collectibles, crypto-collectibles or non-fungible tokens for use by members of an online community via a global computer network; financial services, namely, providing a cryptocurrency, meta token of value, digital collectible of value, crypto-collectible of value or non-fungible token of value for use by members in an online community via a global computer network; financial services, namely, providing electronic transfer of a cryptocurrency, meta token of value, digital collectible of value, crypto-collectible of value or non-fungible token of value for use by members of an online community via a global computer network; issuing of tokens of value; issuance of cryptocurrency, meta tokens of value and non-fungible tokens of value used with blockchain technology; organisation of financial collections; organisation of fund raising activities and events; charitable fundraising services; providing monetary grants to charities; financial sponsorship; provision of funding; provision of financial assistance; financial information; banking services; credit, debit and charge card services; information, advisory and

consultancy services relating to all the aforesaid, including the provision of online information, information in an online virtual world and advisory and consultancy services relating to all the aforesaid; issuance and processing of loyalty points for purchase of a company's goods and services for providing incentive award programs for customers and members.

Class 38

Providing access to virtual, augmented and mixed reality online facilities for real-time interaction among computer users; providing access to an online world, virtual, augmented or mixed reality environment online; providing access to internet platforms; providing access to databases; providing access to content, websites and portals; transmission, broadcasting, sharing, electronic transmission and streaming of media advertising communications, advertising programs, artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, recorded footage, highlights, music, data, digital files, electronic games, software, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens, non-fungible tokens, television programs and radio programs in real time, on the internet, in online virtual worlds, in virtual, augmented or mixed reality environments and via digital communication networks; providing access to internet chatrooms, on-line forums, and chatrooms in an online world, virtual, augmented or mixed reality environment; electronic bulletin board services; providing online chat rooms, instant messaging services, and electronic bulletin boards; providing access to computer databases in the fields of social networking and social introduction; electronic exchange of messages using chatrooms and internet forums in an online world, virtual, augmented or mixed reality environment; providing online chat rooms and forums for communication in the field of electronic games; providing an online community forum for users to share and stream information, artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, virtual environments, recorded footage, highlights, music, data, digital files, cryptocurrency, digital

collectibles, crypto-collectibles, meta tokens and non-fungible tokens, to form virtual communities, and to engage in social networking; communication services in the nature of text messaging and electronic mail services used in playing on-line computer games; telecommunication services for the booking of tickets online, in an online world, virtual, augmented or mixed reality environment; providing access to an online virtual environment for users to interact with other users and virtual objects in the virtual environments; providing access to websites featuring non-downloadable artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, recorded footage, highlights, music, data, digital files, virtual environments, cryptocurrency, digital collectibles, crypto-collectibles, non-fungible tokens; providing an online community forum for users to share and stream artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, recorded footage, highlights, virtual environments, software, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, non-fungible tokens, to form virtual communities, and to engage in social networking; providing access to virtual facilities within an immersive online environment for leisure, recreation, amusement, cultural and sports events, motor sports events and sports training, namely sports stadiums, shopping centres, cinemas, theatres, galleries, arcades and museums where users can interact with other users and virtual objects in the virtual environments; providing multi-user and multiplayer access to an online multimedia virtual environment; providing users with access to a variety of digitally created online, non-downloadable virtual environments where they can interact with other visitors, virtual objects and their surrounding environment, in relation to gaming and commerce activities; information, advisory and consultancy services in relation to all the aforesaid services.

Class 40

Printing and printing services; 3d printing and 3d printing services; portrait printing; digital printing; fine art printing services; artworks alteration; mounting of prints or

transparencies; framing of works of art; reproduction of photographic prints; custom printing of documents and digital images containing photos of avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books, protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen and gasoline, interactive educational and entertainment products; all the foregoing services available from computer databases, the internet, online virtual worlds or via other communications.

Class 41

Entertainment services, namely, arranging and conducting, interactive, curated scavenger hunts, obstacle courses or treasure hunts; entertainment using virtual goods, namely avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books, protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen, gasoline, interactive educational and entertainment products, and computer games for use online, in online virtual worlds, virtual, augmented and mixed reality environments; entertainment services using virtual goods, namely non-downloadable artwork, text, interactive media, information,

photos, images, videos, video clips, visual effects, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles and non-fungible tokens, for use online, in online virtual worlds, virtual, augmented and mixed reality environments; preparation of entertainment programmes for broadcasting in online virtual worlds, virtual, augmented and mixed reality environments; entertainment in the nature of virtual games and organizing, arranging and conducting virtual exhibitions, concerts, sporting events, motor sports events, training workshops and commercial training conferences; arranging and conducting stage events (cultural, sporting and educational) for virtual reality experiences; hospitality and corporate hospitality services (entertainment) at virtual exhibitions, concerts, sporting events, motor sports events, training workshops and conferences; arranging of award ceremonies and contests for providing recognition and incentives; entertainment services relating to virtual games which may include the provision of virtual exhibitions, concerts, sporting events, motor sports events, training workshops and conferences; ticket reservation for virtual exhibitions, concerts, sporting events, motor sports events, training workshops and conferences; timing of sports events; betting services in online virtual worlds, virtual, augmented and mixed reality environments; presentation of works of visual art to the public for cultural, entertainment or educational purposes in online virtual worlds, art exhibitions featuring artwork made by software; training services relating to finance; on-line game services; virtual reality arcade services; providing online video games; providing online computer games and interactive video games; providing online virtual reality games; arranging of games; arranging and conducting live, interactive gaming tournaments featuring video games; art gallery services in online virtual worlds; electronic game services and competitions provided by means of the internet; providing online non-downloadable publications for software developers in the nature of blogs, articles, newsletters, manuals, notes, tutorials, instructional videos, and instructional guides in the field of electronic games; multimedia publishing; multimedia publishing of computer and video games and computer and video games

software; multimedia publishing of entertainment and educational software; providing electronic and downloadable publications for software developers in the nature of blogs, articles, newsletters, manuals, notes, tutorials, instructional videos, and instructional guides in the fields of information technology and software development; virtual, augmented and mixed reality game services provided on-line from a computer network; providing business news commentary [news reporter services] in the field of blockchain technology and cryptocurrency.

Class 42

Computer programming services; providing on-line non-downloadable software for virtual goods, namely, avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books, protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen and gasoline, interactive educational and entertainment products and computer games; providing non-downloadable software for digital avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books, protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen and gasoline, interactive educational and

entertainment products and computer games; design, maintenance, update and development of multimedia, mixed, augmented and virtual reality software; design, maintenance, update and development services relating to multimedia, mixed, augmented and virtual reality software; providing temporary use of on-line non-downloadable software development tools; computer software development services, namely, hosting and development of a website for interactive online experience featuring technology that enables multi-user and multiplayer access to a socially interactive digital environment through computer software, gaming software, mobile apps software, virtual reality software and augmented reality software; designing and developing software for virtual sporting facilities; video and computer game software design and development; hosting of digital content; platform as a service featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, virtual environments, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens; creation of online retail stores for others in the nature of provision of computer technology service that allows users to create hosted crypto collectible and blockchain-based non-fungible token stores; computer services in the nature of providing temporary use of online non-downloadable software that facilitates the creation of customized electronic personal and group profiles or webpages featuring user-defined or specified information, namely, audio, video, images, text and data; creating and hosting an online community in the form of a website for users to access, create, publish and experience metaverse platforms; creating and hosting an online community in the form of a website featuring game and non-game worlds, online universes, and metaverse environments, and virtual and digital goods for use therein; computer services, namely, creating virtual communities in the form of a website for users to organize groups, meetings, and events, participate in discussions and engage in social and community networking; computer services, in particular, hosting

electronic facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; providing on-line non-downloadable software for advertisers to communicate and interact with online communities; providing temporary use of non-downloadable software for use in designing, managing, measuring, analysing, disseminating, and serving advertising in online virtual worlds; application service provider featuring application programming interface software for creating, managing, tracking, reporting and measuring advertising of others; providing non-downloadable software for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; providing temporary use of non-downloadable software for creating, sharing, disseminating and posting advertising; providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; data storage via blockchain; data authentication via blockchain; blockchain as a service [baas]; user authentication services using blockchain technology; providing on-line non-downloadable software for providing a virtual marketplace; cryptocurrency mining; platform as a service featuring computer software platforms for the exchange of cryptocurrency, meta tokens, digital collectibles, crypto-collectibles and non-fungible tokens; software as a service services featuring software for computer games; software as a service services, namely, hosting software for use by others for use in computer gaming; software as a service services featuring software for watching multimedia material featuring virtual reality, augmented reality, and mixed reality content; computer programming; computer programming services relating to content creation for virtual worlds and three dimensional platforms; graphic arts design; design, development and implementation of software in the field of cryptocurrency, non-fungible tokens and blockchains; providing online non-downloadable computer software for use in relation to holding, controlling, trading, buying, selling, transferring, exhibiting and exchanging digital artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, virtual environments, recorded footage, highlights,

music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens; providing temporary use of non-downloadable computer software to enable users to create, upload, modify, share, view, trade, display, transmit, publish, store, manage, verify, and authenticate artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, virtual environments, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens; providing temporary use of non-downloadable computer software to enable users to create, upload, modify, share, view, trade, display, transmit, publish, store, manage, verify, and authenticate artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, virtual environments, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens, featuring or linking to avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books, protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen and gasoline, interactive educational and entertainment products and computer games; providing on-line, non-downloadable software for artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, virtual environments, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens associated with non-fungible tokens on a blockchain; providing on-line, non-downloadable computer programs for electronically trading, storing, sending, receiving, accepting and transmitting of artwork, text, interactive media, information, photos, images, videos,

video clips, visual effects, virtual environments, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens on a blockchain network; providing user authentication services using blockchain-based software technology; hosting software and providing computer technology services for the purpose of product and document authentication and tracking, and brand monitoring and protection, to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine products and documents; computer services, namely, hosting an interactive website for on-line discussions and blogs, sharing on-line content, new media content, and on-line web links to other websites; writing, designing, developing, programming of computer software, computer programs and computer games; electronic storage of information and data; website design services; website design consultancy; design, creation, hosting and maintenance of websites for others; providing temporary use of non-downloadable computer software for use in the creation and publication of on-line journals and blogs; hosting mobile software applications and providing computer technology services for the purpose of product and document authentication and tracking, and brand monitoring and protection, to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine products and documents; hosting mobile software applications for authentication using blockchain-based software technology; hosting downloadable computer software for the production, automated and non-automated creation, and automated and non-automated modification of artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, virtual environments, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens on a blockchain network featuring or linking to digital or physical avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books, protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against

accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen and gasoline, interactive educational and entertainment products, computer games and intellectual property assets, for access and use in online virtual, augmented and mixed reality environments; hosting downloadable computer programs for electronically trading, storing, sending, receiving, accepting and transmitting of artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, virtual environments, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens on a blockchain network featuring or linking to digital or physical avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books, protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen and gasoline, interactive educational and entertainment products, computer games and intellectual property assets, for access and use in online virtual, augmented and mixed reality environments; developing software for virtual retail stores, virtual stores, and virtual showrooms for the advertisement of the goods and services of others; hosting software to create an online virtual environment for users to interact with other users and virtual objects in the virtual environments; rental of software to be used in relation to virtual avatars, skins, emoticons, trading cards, digital collectibles, cars, sporting equipment, clothing, games, toys, souvenirs, printed matter, books,

protective helmets for sports, cellular telephone covers, magnets, anti-glare glasses, protection goggles, sunglasses, clothing for protection against accidents, vehicle equipment, tyres for vehicles, hand held tools, footwear, headwear, bags, backpacks, masks, wallets, umbrellas, headsets, keyrings, posters, tickets, paintings, sculptures, trophies, flags, electronic products, jewellery, toiletries, perfume, containers for food, containers for beverages, bottles, watches, clocks, computer monitors, chairs, signage, solvents, paraffin, waxes, bitumen, gasoline, interactive educational and entertainment products, and computer games for entertainment purposes; rental of software to visualize a virtual stadium, namely, sports stadiums and concert halls within an immersive online environment for leisure, recreation, amusement, cultural and sports events, motor sports events and sports training, where spectators can virtually attend and stand or sit and view events; hosting online game software; generating a digital environment in the form of a website for virtual reality services allowing users to virtually experience products and services within that environment, online from a computer network; leasing of software in relation to digital content, namely digital content associated with non-fungible tokens; providing interactive online non-downloadable mobile gaming applications; digital currency technology services used to operate and build applications and online financial platforms on a decentralized computer platform and as a method of payment for goods and services; information, advisory and consultancy services in relation to all the aforesaid services.

Class 45

Intellectual property licensing services in relation to digital content, namely digital artwork, text, interactive media, information, photos, images, videos, video clips, visual effects, recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens; licensing intellectual property rights related to digital content, namely, digital artwork, text, interactive media, information, photos, images, videos, video clips, visual effects,

recorded footage, highlights, music, data, digital files, cryptocurrency, digital collectibles, crypto-collectibles, meta tokens and non-fungible tokens; granting of software licences; licensing of computer programmes; consultancy relating to intellectual property rights and the licensing of computer software; granting of licences on intellectual property; online social networking services; leasing and registration of internet domain names.

GLASTON

Goods and/or Services:

Class 07

Machines for the manufacture of glass panes, bent glass and glass parts; machines for the manufacture and sealing of insulating glass panes and photovoltaic modules; machines for the manufacture and assembly of glass for land vehicles, heated glass, smart glass and functional glass and display glass; machines for tempering, laminating, treating, conveying, cutting, grinding, drilling, bending, washing, drying and inspecting of glass panes, bent glass and glass parts; machines for the manufacture of spacers for insulating glass panes; machines for filling spacers for insulating glass panes with desiccants; machines for filling insulating glass panes and photovoltaic modules with a gas other than air; machines for cutting and

preparation of interlayers for laminated glass; machines for the processing, lamination and assembly of smart glazing, functional glazing modules, switchable glazing and heated glazing; machines for handling, loading, unloading, lifting, conveying and storing of glass panes, bent glass, glass parts, insulating glass panes, photovoltaic modules, glass for land vehicles, heated glass, smart glass and functional glass and display glass; parts and fittings of the aforesaid goods.

Class 09

Downloadable computer programs, downloadable computer programs for glass processing machines and parts of the machines; downloadable software for generating computer programs for operation and optimization of glass processing machines; downloadable computer programs for control units; data processing equipment and computers, data processing equipment for use in glass processing; electronic control units for machines; electronic apparatus for controlling and monitoring machines for tempering, laminating, treating, conveying, cutting, grinding, drilling, bending, washing, drying and inspecting of glass panes, bent glass and glass parts; electronic apparatus for controlling and monitoring heat treatment, lamination process, manufacturing and production process of insulating glass panes, laminated safety glass, photovoltaic modules, glass for land vehicles, heated glass, smart glass, functional glass and display glass; photovoltaic modules (not for buildings); photovoltaic apparatus and installations made thereof; smartglasses (data processing apparatus), parts and fittings of the aforesaid goods.

Class 37

Installation, repair and maintenance of the machines and devices used for glass processing, cutting, grinding, drilling, bending, washing, drying, laminating, tempering, heat treatment, bending and inspecting of glass; installation, repair and maintenance of the machines and devices used for manufacturing of glass panes, bent glass, glass parts, insulating glass panes, laminated safety glass, photovoltaic modules,

glass for land vehicles, heated glass, smart glass, functional glass and display glass; providing information relating to the installation, repair and maintenance of the machines and devices used in glass processing, laminating, tempering, heat treatment and bending of glass.

Class 40

Glass processing and heat treatment; on-demand custom manufacturing and production of glass panes, bent glass, glass parts, insulating glass panes, laminated safety glass, photovoltaic modules, glass for land vehicles, heated glass, smart glass, functional glass and display glass; custom assembling of electronic components for photovoltaic modules; custom assembling of products for others, namely custom assembling of components to manufacture insulating glass panes, special glass for land vehicles, heated glass, smart glass, functional glass and display glass; providing information, advice and consultancy in the field of glass processing and heat treatment; providing consultation in the field of custom manufacturing for others of glass panes, bent glass, glass parts, insulating glass panes, laminated safety glass, photovoltaic modules, glass for land vehicles, heated glass, smart glass, functional glass and display glass; recycling services; consultation in the field of recycling.

Class 42

Quality control, inspection of hardware and software for controlling and monitoring glass processing and machines for tempering, laminating, treating, conveying, cutting, grinding, drilling, bending, washing and drying of glass panes; quality control, inspection of hardware and software for controlling and monitoring heat treatment, lamination process and manufacturing process of insulating glass panes, photovoltaic modules, laminated safety glass, glass for land vehicles, heated glass, smart glass, functional glass and display glass; quality control, inspection of smart and functional glass; machine condition monitoring; industrial analysis and testing of

glass processing machinery; research, design and development services relating to glass processing, glass tempering machines, machines and machinery for heating glass; research, design and development services relating to manufacturing of glass panes, bent glass, glass parts, insulating glass panes, laminated safety glass, photovoltaic modules, glass for land vehicles, heated glass, smart glass, functional glass and display glass; development of technologies in the field of processing, laminating, tempering, heat treatment, bending and inspecting of glass; development of technologies in the field of pre-processing, namely, cutting, grinding, drilling, bending, washing and drying of glass; technical design planning and development of installations for glass tempering, glass bending, glass laminating and glass heating; technical design planning and development of installations for the manufacture and production of glass panes, bent glass, glass parts, insulating glass panes, laminated safety glass, photovoltaic modules, glass for land vehicles, heated glass, smart glass, functional glass and display glass; industrial analysis and research services; design and development of computer hardware and software; hosting on-line platform and on-line non-downloadable software for transmitting, collecting, processing and analysing data and for enabling users to view, monitor, program, operate and control industrial machinery and industrial processes; technological consultancy; technical consulting regarding tempering of glass and glass processing; technological consultancy and advice relating to industrial processes, glass processing technology and operation of glass processing machines.

Priority Details:

Class Number: All

Priority Date: 07/10/2022

Country/Territory: FINLAND

Priority Application Number: T202251978

Goods and/or Services: All goods and/or services claimed in this class

Applicant/Proprietor Details:

Glaston Oyj Abp
LÖNNROTINKATU 11
FI-00120 HELSINKI

Agent Details/Address for Service:

ELLA CHEONG LLC
300 BEACH ROAD
#31-04/05 THE CONCOURSE
SINGAPORE 199555

National Trade Mark No: 40202320105V
International Registration No: 1749647
Date of Protection in Singapore: 17 April 2023
Classes: 07 09 17 35 37 41 42

Goods and/or Services:

Class 07

Automatic dispensing machines; semi-automated dispensing machines; semi-automated dispensing systems consisting of dispensing machines; robotic filling machines; robotic dispensing machines; industrial robots for dispensing; robotic handling installations for pipetting; robotic handling apparatus for pipetting; industrial

robots for pipetting; vacuum pumps, vacuum cleaning apparatus and vacuum machines combined thereof; parts of the above mentioned goods, in particular tubes for vacuum pumps, connectors, flanges, valves, slide valves, traps, condensation traps and filters for the above-mentioned goods, included in this class; central vacuum cleaning apparatus and fittings thereof; liquid suction machines and machines for collecting liquids; fluid pumps; valves for pumps; valves [parts of machines]; taps [machine tools]; cocks [valves] of metal being parts of machines; linking devices [parts of machines]; couplings, other than for land vehicles; agitators for chemical processing.

Class 09

Apparatus for scientific research and laboratories; laboratory apparatus and instruments; apparatus and instruments for physics; chemistry apparatus and instruments; scientific apparatus and instruments; automatic dosage apparatus; dosage dispensers; dosage dispensing apparatus; bottle top dosage dispensers; manual, motorised and automated dosage dispensers, dosage dispensing apparatus, bottle top dosage dispensers; multiple dosage dispensers; burettes; burettes of glass; bottle topper burettes; manual, motorised, automated burettes, bottle top burettes; automated titration apparatus; titration apparatus; titration devices; replacement parts and accessories for automated dosage apparatus, dosage dispensers, dosage dispensing apparatus; replacement parts and fittings for dose dispensing devices, namely rack holders, table stands and charging stations, all being specially adapted for dose dispensing devices; replacement parts and fittings for bottle topper dosage dispensers and bottle topper burettes, in particular dosing drain tubes, valves, bottle adapters, bottle holders, suction pipes, seals, ventilation plugs, dosing hoses, drying pipes, cylinder/piston actuation units, dosing pistons and dosing cylinders, all being parts of dosage dispensers and burettes for laboratory use; pipettes; pipettors; pipetting instruments; pipetting units, single tube or multiple tube; piston stroke pipettes; single-channel or multi-channel hand-held piston-operated pipettes with or

without air cushion; positive displacement pipettes; pipetting aids, in particular manual, motorised and automatic; liquid extraction apparatus [laboratory apparatus], in particular bottle top liquid extraction apparatus; pipetting robots for laboratory use; pipetting aids for laboratory use, manual and motorised; pipette leak tightness testers; replacement parts and fittings for piston-operated pipettes, in particular single racks, table stands, rack holders, filters, battery packs, power supplies and charging stations, all adapted for laboratory pipettes; replacement parts and fittings for pipetting robots for laboratory use, in particular height adapters, single-channel or multi-channel pipetting modules being robotic tips and cooling and heating elements being fitted parts for laboratory pipettes; replacement parts and fittings for pipetting aids for laboratory use, in particular membrane filters, adapters, valves, bellows, cell pack, power suppliers, all being fitted parts for laboratory pipettes; replacement parts and accessories for pipette leak tightness testers, in particular single-channel or multi-channel pipette adapters, filters, power suppliers; pycnometers, hydrometers, laboratory desiccator [laboratory apparatus]; laboratoryware; laboratory items of glass and/or plastic, namely laboratory reactor vessels, lids for laboratory reactor vessels, stands for laboratory reactor vessels, PCR single vessels, PCR vessel strips made of several single vessels, with and without lids, PCR single vessels and PCR vessel strips with lids, PCR plates, microtiter plate, receptacles for PCR vessels, strips and plates for laboratory use, deep-well plates for laboratory use; laboratory items of glass and/or plastic, namely cuvettes, cuvette stands, stirring tools, pipette tips with and without filter, receptacles for pipette tips, dispenser-tips (pd-tips); laboratory devices made of glass and/or plastic, in particular reagent containers, containers for samples, volume measuring containers, measuring flasks with and without stoppers, graduated cylinders, mixing cylinders, tilt dispensers, bulb pipettes, graduated pipettes, supply bottles, oxygen tanks, centrifuge tubes, sedimentation cones, racks for sedimentation cones, sample tubes, sampling bags for laboratory use; laboratory items of glass and/or plastic, namely storage boxes, dispenser boxes, petri dishes, vaccination slings, test tubes, culture tubes, centrifuge tubes, PE

stoppers, sample tubes, sedimentation tubes, dropping pipettes, pasteur pipettes, test tube frames, pipette bellows, counting chambers, microscope slides, slide boxes, staining troughs, spotting tiles, erlenmeyer flasks, evaporating dishes, watch glass; laboratory items of glass and/or plastic, namely funnels, filter crucibles, filter flasks, wash bottles, tubes for laboratory use, tubing couplers for laboratory use, pinch valves, hose spigots, ground joint sleeves, ground sockets, stirrers, magnetic stir bars, spatulas, forceps, measuring scoops, weighing dishes, storage bottles, wash bottles, dropper bottles, cover plates for laboratory devices; software and interfaces for use in laboratory automation, in particular for conducting, evaluating and presenting chemical and biochemical analyses and processes; software and interfaces for use in laboratory automation, in particular for simulations, virtual reality applications or augmented reality applications; software and interfaces for use in laboratory automation, in particular for the purpose of operation, control, operating, user communication, presentation, verification, calibration, adjustment, maintenance, repair, in particular for automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dispensing systems, bottle filling machines, pipetting installations, pipetting systems; software and interfaces for use in laboratory automation, in particular laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; software for providing and administration of licences, in particular for software of the aforesaid areas of application and in connection with automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dosing systems, filling machines, pipetting installations, pipetting systems, and/or with laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; laboratory apparatus and laboratory apparatus, namely robotic pipetting installations, robotic pipetting systems and pipetting robots; automated dosing dispenser systems consisting of dosage dispensers and parts and fittings thereof; all the aforesaid products in particular for the use in scientific research and laboratories; measuring, detection, monitoring and

control apparatus, namely, testing apparatus not for medical purposes, automatic vacuum control apparatus, measuring instruments and apparatus; remote controls; vacuum gauges, digital vacuum sensors apparatus (other than for medical use) and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations; pressure transducers, other than parts of machines; software for monitoring, analyzing, controlling and executing operations in the physical world, in particular for the remote control of controllers, preferably for controlling and/or regulating laboratory and industrial apparatuses and equipment of all kinds and/or of vacuum pumps and vacuum apparatuses; software for controlling, operating and handling laboratory instruments (other than for medical use), vacuum pumps and vacuum apparatus for laboratory use; glass stirrers for laboratory use; temperature measuring apparatus for scientific use; heating furnaces specifically adapted for laboratory experiments; measuring cups; DNA microarray; automated dosing systems consisting of dosage dispensers and parts and fittings thereof; machine-like vacuum leak detectors.

Class 17

Flexible pipes, tubes, hoses and fittings therefor [including valves] and fittings for rigid pipes, all non-metallic, preferably for use with vacuum pumps and/or vacuum apparatus; gaskets, joint sealant and fillers, preferably for vacuum pumps and/or vacuum apparatus; articles and materials for water and moisture sealing, preferably for vacuum pumps and/or vacuum apparatus; insulating materials, preferably for vacuum pumps and/or vacuum apparatus; thermal insulating materials; articles and materials for electrical insulation; liquid sealant compounds for joints for vacuum pumps and vacuum apparatus; non-metallic couplings for tubes; connectors (non-metallic -) for hoses.

Class 35

Retailing and wholesaling relating to automated, semiautomated or robotic machines

and systems, namely dispensing machines, dispensing systems, charging machines, pipetting installations, pipetting systems; retailing and wholesaling relating to apparatus for use in scientific research and laboratories, in particular laboratory apparatus, laboratory instruments, automatic metering apparatus, replacement parts and accessories for automated dosage apparatus, dispensing apparatus, burettes, pipetting apparatus, replacement parts and accessories for pipetting apparatus, laboratory items of glass and/or plastic; retailing and wholesaling relating to software for use in laboratory automation, in particular software, integrated software packages and interfaces for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; computerised file management in connection with laboratory automation, in particular compiling, systemization of information and data in databases, and/or in particular updating and maintenance of data in computer databases, mainly relating to software, Integrated software packages and interfaces for use in laboratory automation, in particular for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; retail and wholesale services related to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, parts of the aforementioned goods, in particular vacuum pipes, vacuum connectors, vacuum flanges, vacuum valves, vacuum slide valves, vacuum separators, vacuum cold traps, vacuum filters; retail and wholesale services related to machine-type leak detectors; retail and wholesale services related to apparatus and instruments for physics, chemistry apparatus and instruments; retail and wholesale services related to measuring, detection, monitoring and control apparatus, namely, testing apparatus not for medical purposes, automatic vacuum control apparatus, measuring instruments and apparatus; retail and wholesale services related to remote controls; retail and wholesale services related to vacuum gauges, digital vacuum sensors apparatus (other than for medical use) and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; retail and wholesale services related to software for monitoring, analyzing, controlling and

executing operations in the physical world, in particular for the remote control of controllers, preferably for controlling and/or regulating laboratory and industrial apparatuses and equipment of all kinds and/or of vacuum pumps and vacuum apparatuses; retail and wholesale services related to software for controlling, operating and handling laboratory instruments (other than for medical use), vacuum pumps and vacuum apparatus for laboratory use; retail and wholesale services related to flexible pipes, tubes, hoses and fittings therefor [including valves] and fittings for rigid pipes, all non-metallic, preferably for use with vacuum pumps and/or vacuum apparatus; retail and wholesale services related to gaskets, joint sealant and fillers, preferably for vacuum pumps and/or vacuum apparatus, articles and materials for water and moisture sealing, preferably for vacuum pumps and/or vacuum apparatus, insulating materials, preferably for vacuum pumps and/or vacuum apparatus, thermal insulating materials, articles and materials for electrical insulation; retail and wholesale services related to liquid sealant compounds for joints for vacuum pumps and vacuum apparatus; retailing and wholesaling relating to fluid pumps, valves for pumps, valves [parts of machines], taps [machine tools], cocks [valves] of metal parts of machines, linking devices [parts of machines], couplings, other than for land vehicles, agitators for chemical processing; retailing and wholesaling relating to glass stirrers for laboratory use, temperature measuring apparatus for scientific use, heating furnaces specifically adapted for laboratory experiments, measuring cups, DNA microarray; retailing and wholesaling relating to eye wash cups for medical purposes, eye droppers for medical use, bed pans, cups for dispensing medicine; retailing and wholesaling relating to flexible pipes, tubes, hoses and fittings therefor (including valves), and fittings for rigid pipes, all non-metallic, non-metallic couplings for tubes, connectors (non-metallic -) for hoses; retailing and wholesaling relating to cable fasteners, connectors and holders, non-metallic, valves, non-metallic, containers, and closures and holders therefor, non-metallic, non-metallic bins [other than dust bins], flexible containers of plastics for the storage of liquids, containers (non-metallic -) for storage purposes [other than

household or kitchen use]; retailing and wholesaling relating to boxes of wood or plastic, non-metallic caps and closures for bottles and for containers; retailing and wholesaling relating to squeeze bottle [empty], bottles, jerrycans, not of metal, buckets, dishes, bowls [basins].

Class 37

Installation, cleaning, repair and maintenance relating to automated or robotic machines and systems, namely dispensing machines, dispensing systems, filling machines, pipetting installations, pipetting systems; installation, cleaning, repair and maintenance relating to apparatus for use in scientific research and laboratories, in particular laboratory apparatus, laboratory instruments, automated dosage apparatus, replacement parts and accessories for automated dosage apparatus, dispensing apparatus, burettes, pipetting apparatus, replacement parts and accessories for apparatus, laboratory items of glass and/or plastic; installation, repair and maintenance service, namely, in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, machine-type leak detection equipment, laboratory instruments (other than for medical use), laboratory equipment for science educational apparatus and instruments, vacuum apparatus for laboratory use, apparatus and instruments for physics, measuring instruments and apparatus, vacuum gauges, automatic vacuum control apparatus, digital vacuum sensors apparatus (other than for medical use) and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers.

Class 41

Arranging of continuing training and further training in the field of handling scientific instruments and apparatus for laboratory research, in particular training, continuing training and further training, tuition, coaching, training, courses and online seminars for handling automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dispensing systems, filling machines, pipetting

installations, pipetting systems; arranging of continuing training and further training in the field of handling scientific instruments and apparatus for laboratory research, in particular laboratory apparatus, laboratory instruments, consumables, industrial production facilities, automated dosage apparatus, replacement parts and accessories for automated dosage apparatus; arranging of continuing training and further training in the field of handling scientific instruments and apparatus for laboratory research, in particular of dispensing apparatus, burettes, pipetting apparatus, replacement parts and accessories for pipetting apparatus, laboratory items of glass and/or plastic; arranging of continuing training and further training in the field of handling scientific instruments and apparatus for laboratory research, in particular software, integrated software packages and interfaces for use in laboratory automation, in particular for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; organization and implementation of conferences, educational exhibitions and educational competitions, in particular in the field of handling scientific instruments and apparatus, preferably laboratory apparatus, for research and/or in particular for handling vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling measurement and control technology for vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling software for various laboratory applications; education, instruction and teaching services, in particular in the field of handling instruments and apparatus for scientific use, preferably laboratory apparatus, for research and/or in particular for handling vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling measurement and control technology for vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling software for various laboratory applications; implementation of training seminars, in particular in the field of handling scientific instruments and apparatus, preferably laboratory apparatus, for research and/or in particular for handling vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling measurement and control technology for

vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling software for various laboratory applications; further education, in particular in the field of handling scientific instruments and apparatus, preferably laboratory apparatus, for research and/or in particular for handling vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling measurement and control technology for vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling software for various laboratory applications; training, in particular in the field of handling scientific instruments and apparatus, preferably laboratory apparatus, for research and/or in particular for handling vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling measurement and control technology for vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling software for various laboratory applications; implementation of online seminars for training and further education, in particular in the field of handling scientific instruments and apparatus, preferably laboratory apparatus, for research and/or in particular for handling vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling measurement and control technology for vacuum pumps, vacuum networks, vacuum installations and/or in particular for handling software for various laboratory applications.

Class 42

Consultancy relating to computer technology and software for use in laboratory automation, in particular for selecting hardware, software, software packages and interfaces for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; consultancy relating to computer technology and software for use in laboratory automation, in particular for software installation, adaptation and activation; consultancy relating to computer technology and software for use in laboratory automation, in particular for updating existing software versions; consultancy relating to computer technology and software

for use in laboratory automation, in particular for operating, process optimisation, calibration, adjustment and control of hardware and software; consultancy relating to computer technology and software for use in laboratory automation, in particular for design and planning, development, programming of computer software for use in laboratory automation; software design and development for laboratory automation, in particular software design, development, planning, programming for use for automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dispensing systems, filling machines, pipetting installations, pipetting systems, and/or for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; software customisation services for laboratory automation, in particular creating customer-specific programme sequences, illustrating laboratory or process analytical or industrial applications, data storage or data processing in accordance with customer specifications; custom software engineering, in particular requirements engineering; software implementation and software tests for laboratory automation; monitoring of software for the purpose of laboratory automation, namely, for detecting malfunctions of software or related peripheral devices and for detecting unauthorised access to data files and system components; monitoring of software for the purpose of laboratory automation, namely, for detecting hardware malfunctions or maintenance requirements [as part of quality control] of automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dispensing systems, filling machines, pipetting installations, pipetting systems, and/or with laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; software consultancy relating to laboratory applications, in particular to process analytics, compilation, input, systematisation of information and data in databases and/or to updating and maintenance of data in computer databases, in particular relating to software, integrated software packages and interfaces for use in laboratory automation, in particular for laboratory apparatus, laboratory instruments, consumables, industrial

production facilities, mainly with dispensing technology; software consultancy relating to laboratory applications, in particular to process analytics, compilation, input, systematisation of information and data in databases and/or to updating and maintenance of data in computer databases, in particular relating to software, integrated software packages and interfaces for use in laboratory automation, in particular for automated, semi-automated and/or robotic machines and systems; consultancy in the field of software as a service for the purpose of laboratory automation, in particular rental of software for electronic data storage; consultancy in the field of software as a service for the purpose of laboratory automation, in particular as cloud or hosting services or other current methods relating to software, integrated software packages and interfaces for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology, and/or to automated, semi-automated and/or robotic machines and systems; calibration services of laboratory apparatus or laboratory instruments in conformity with relevant norms, standards and guidelines, in particular being an accredited testing laboratory of the german accreditation body (dakks), in particular for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology, and/or for automated, semi-automated and/or robotic machines and systems; technical consultancy in the field of laboratory applications, in particular relating to automated, semi-automated or robotic machines and systems, dispensing machines, dispensing systems, filling machines, pipetting installations, pipetting systems; technical consultancy in the field of laboratory applications, in particular relating to apparatus for use in scientific research and laboratories, laboratory utensils, laboratory instruments, automated dosage apparatus; technical consultancy in the field of laboratory applications, in particular relating to replacement parts and accessories for automated dosage apparatus, dispensing apparatus, burettes, pipetting apparatus, technical consultancy in the field of laboratory applications, in particular relating to replacement parts and accessories for pipetting apparatus, laboratory items of glass and/or plastic; technical consultancy

in the field of laboratory applications, in particular relating to software, integrated software packages and interfaces for use in laboratory automation; calibration [measuring], in particular of automated, semi-automated or robotic machines and systems, dispensing machines, dispensing systems, filling machines, pipetting Installations, pipetting systems; calibration [measuring], in particular apparatus for use in scientific research and laboratories, laboratory apparatus, laboratory instruments, automated dosage apparatus, replacement parts and accessories for automatic dosage apparatus, dispensing apparatus, burettes, pipetting apparatus, replacement parts and accessories for pipetting apparatus, laboratory items of glass and/or plastic; installation and maintenance relating to software for use in laboratory automation, in particular software, integrated software packages and interfaces for laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; development, programming and implementation of software, especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments; development, programming and implementation of software, especially in relation to apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; software design and development, especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments, apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; creation, maintenance, servicing and customization of software, especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and

collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments; creation, maintenance, servicing and customization of software, especially in relation to apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; repair [maintenance and updating] of software, especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments; repair [maintenance and updating] of software, especially in relation to apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; computer software consultancy, especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments, apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; consultancy relating to the design and development of computer hardware, especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments; consultancy relating to the design and development of computer hardware, especially in relation to apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; rental of software, especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and

collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments, apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; technological consultancy services, especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments, apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; scientific consultancy services, especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments; scientific consultancy services, especially in relation to apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; rental of laboratory apparatus and instruments, especially rental of laboratory vacuum pumps and vacuum apparatus and vacuum installations composed thereof for laboratory use, laboratory apparatus for suction and collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments; rental of laboratory apparatus and instruments, especially rental of laboratory apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations for laboratory use, pressure transducers for laboratory use; calibration [calibrating], especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments,

apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers; calibration of machines, instruments and analytical apparatus, especially in relation to vacuum pumps and vacuum apparatus and vacuum installations composed thereof, apparatus for suction and collection of liquids, machine-type leak detection apparatus, laboratory apparatus and instruments; calibration of machines, instruments and analytical apparatus, especially in relation to apparatus and instruments for physics, measuring, detecting, monitoring and control apparatus, measuring, control, monitoring and leak detection apparatus for vacuum pumps, vacuum apparatus and vacuum installations, pressure transducers.

NOKIA - NETWORKS THAT SENSE, THINK AND ACT

Goods and/or Services:

Class 09

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; cash registers, calculating devices; computers and computer peripheral devices; data processing apparatus; computer software; magnetic data carriers, recording discs; compact discs, DVDs and other digital and optical recording media;

telecommunications devices, apparatuses and equipment, and parts and fittings thereof; base stations for telecommunication networks, computer networks, connectivity networks and wireless communication networks; transmitters; GPS receivers; radar receivers; video receivers; audio receivers; electronic controllers; electric switches; antennas; data cables; data wires; amplifiers; commutators; modems; radio and microwave transmission devices and equipment; apparatus and instruments for data communication, satellite communication and telecommunication; apparatus and instruments for monitoring of telecommunication networks and data communication networks; radar apparatus; phones, smartphones and other wearable and portable electronic devices for capturing, receiving, collecting, recording, reading, displaying, organizing, editing, transmitting, sharing, manipulating and reviewing data, text, maps, images and sounds; portable media players; tablet PCs; electronic agendas; electronic book readers; notebook computers; digital photo frames; cameras; camcorders; sensors; wearable connected devices, namely devices in the form of watches, smart glasses, contact lenses, headbands, gloves, bracelets, earrings, jewelry, helmets and contact lenses that can be used for computing, sensing, scanning, recording, displaying, monitoring, data-processing, remote-controlling, predicting, programming, connecting to computer networks or for telecommunication purposes; wearable connected devices, namely computing devices to be carried by end-users, or to be worn on or into the body of end-users or to be incorporated into clothing, footwear, headgear, contact lenses, bags, textiles, fabrics, tissue and any kinds of materials and portable goods and accessories and that can be used for computing, sensing, scanning, recording, displaying, monitoring, data-processing, remote controlling, predicting, programming, connecting to computer networks or for telecommunication purposes; wearable and portable computing devices; smartwatches; head-mounted displays; electric, electronic and digital devices for computing, sensory, scanning, communication, data storage, biofeedback measuring and physiological tracking, that can connect to computer networks, having health-monitoring, fitness-monitoring, predictive or augmented-

reality properties, in the form of glasses, gloves, watches, clothing, footwear, headgear, bands and helmets; batteries; chargers; printers; covers for phones, smartphones, computers, tablets and other wearable and portable handheld computing devices; audio, imaging, video and radio apparatus and instruments; speakers; headsets; microphones; television and multimedia apparatus; display screens; hands free kits for phones, smartphones, computers, tablets and other wearable and portable handheld computing devices; electronic publications; global positioning system (GPS) apparatus, instruments and devices; navigation apparatus for vehicles (on-board computers); navigational instruments; satellite navigational apparatus; apparatus and software for GPS navigation and mapping systems; chipsets; microprocessors; semi-conductors; smart cards (integrated circuit cards); printed circuits; remote control apparatus; downloadable sound, video and image files; electronic pens; electronic tags for goods; computer software, computer hardware and wearable computing devices allowing the remote monitoring, control and command of vehicles and vehicle parameters, of household appliances and furniture, of energy management systems, of home automation systems, of security systems, of home entertainment and audio/video equipment, of telecommunication devices, social media devices and computing devices, and of fitness and health telecare equipment; machine to machine (M2M) communications equipment and devices; computer game software; video game cartridges; memory cards for video game machines; software applications; optical goods; application programming interfaces (APIs); computer software and hardware allowing to listen to music and read audio/video files, to send and read out electronic messages, to take, edit, read, display and share digital photographs, sounds and videos, to browse on the Internet, to chat and to connect to social networks; digital maps; software applications for providing location-based and contextually-relevant advertisement; vision recognition software; audio recognition software; location tracking devices; software applications and hardware enabling the user to obtain location-related and contextually-relevant information; computer software and hardware providing health, fitness and well-being

information; downloadable software in the nature of a mobile application for displaying and sharing a user's location and finding, locating, and interacting with other users; computer software and hardware allowing online payment and payment at distance; computer software and programs featuring algorithms for the compression, decompression, encoding, decoding and processing of audio, video and imaging data; audio, video and images encoder/decoder (codec); computing and communication hardware and software for use by public safety agencies; alarms; anti-theft warning apparatus; computer memory devices; control panels (electricity); detectors; diagnostic apparatus, not for medical purposes; downloadable ring tones for mobile phones; electronic notice boards; extinguishers; fiber optic cables; high-frequency apparatus; intercommunication apparatus; interfaces for computers; lasers, not for medical purposes; life-saving equipment; light-emitting diodes [LED]; loudspeakers; masts for wireless aerials; material testing instruments and machines; monitors; optical fibers; optical data media; particle accelerators; photovoltaic cells; printers for use with computers; radiotelephony sets; telemeters; refractors; regulating apparatus, electric; satellites for scientific purposes; scanners; simulators for the steering and control of vehicles; sonars; sounding apparatus and machines; steering apparatus, automatic, for vehicles; teleprinters; testing apparatus not for medical purposes; theft prevention installations, electric; USB flash drives; walkie-talkies.

Class 12

Vehicles; apparatus for locomotion by land, air or water; driverless [autonomous] motor vehicles; electric vehicles; automobiles; cars; cycles; bicycles; motorcycles; civilian and military drones; aeronautical apparatus, machines and appliances; anti-theft devices for vehicles; engines, electric motors and propulsion mechanisms for land vehicles.

Class 35

Advertising; business management; business administration; office functions; arranging subscriptions to telecommunication services for others; providing advice and information relating to commercial business management; commercial or industrial management assistance; updating and maintenance of data in computer databases; compilation of statistics; data search in computer files for others; demonstration of goods; computerized file management; market studies; office machines and equipment rental; provision of an on-line marketplace for buyers and sellers of goods and services; arranging and conducting of commercial, trade and business shows and exhibitions; outsourcing services (business assistance); procurement services for others [purchasing goods and services for other businesses]; wholesale, retail and online wholesale and retail store services in the fields of apparatus and equipment for recording, capturing, storing, processing, editing, displaying, transmitting and reproducing sound, images or video; wholesale, retail and online wholesale and retail store services in the fields of telecommunications, information technology (IT) and networking devices, equipment, systems and software; wholesale, retail and online wholesale and retail store services in the fields of phones, handheld mobile digital electronic devices, wearable computing devices, horological and chronometric instruments, navigation devices, computers, computer hardware and computer software; wholesale, retail and online wholesale and retail store services in the fields of energy management systems, home automation systems and security systems; wholesale, retail and online wholesale and retail store services in the fields of medical, fitness and health-monitoring equipment and apparatus; wholesale, retail and online wholesale and retail store services in the fields of heating, cooking, cooling and lighting apparatus and equipment; information, advisory and consultancy services relating to all the aforesaid services.

Class 37

Installation, maintenance and repair of telecommunications, computer and

networking devices, equipment and systems; information, advisory and consultancy services relating to all the aforesaid services.

Class 38

Telecommunications services; telephone services; teleconferencing services; videoconferencing services; voice mail services; telecommunications routing and junction services; transmission of electronic mail; transmission of digital files; cellular telephone communication; communications by computer terminals; communications by fiber optic and wireless networks; satellite transmission; computer aided transmission of messages, sound, data and images; facsimile transmission; message sending; paging services (radio, telephone or other means of electronic communication); radio communications; radio broadcasting; television broadcasting; wireless broadcasting; streaming of data; video-on-demand transmission; news agency services; electronic bulletin board services (telecommunications services); rental, hire and leasing of telecommunications devices, equipment and systems; rental of telephones; rental of modems; rental of message sending apparatus; providing online forums; providing telecommunications connections to a global computer network; providing user access to global computer networks; providing telecommunication channels for teleshopping services; providing internet chatrooms; providing access to databases; rental of access time to global computer networks; information, advisory and consultancy services relating to all the aforesaid services.

Class 41

Education; providing of training; entertainment; sporting and cultural activities; arranging and conducting of colloquiums, exhibitions, conferences, congresses, in-person educational forums, symposiums, seminars, award ceremonies and workshops; arranging and conducting of commercial, trade and business conferences; organization of competitions (education or entertainment); practical training (demonstration); coaching (training); audio, video and images editing and

production services; electronic desktop publishing; news reporters services; on-line publication of electronic books and journals; providing on-line electronic publications, on-line music and on-line videos, not downloadable; publication of texts, other than publicity texts; publication of books; film production, other than advertising films; production of radio and television programmes; television entertainment; radio entertainment; rental of audio and video equipment; rental of cinematographic apparatus; rental of radio and television sets; game services provided on-line from a computer network; games equipment rental; information, advisory and consultancy services relating to all the aforesaid services.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; installation, maintenance and updating of computer software; computer programming; computer system analysis and design; computer virus protection services; computer security consultancy; engineering; electronic data storage; monitoring of computer systems by remote access; outsource service providers in the field of information technology; recovery of computer data; research and development of new products for others; provision of scientific information; scientific laboratory services; technical project studies; technological consultancy; telecommunications technology consultancy; scientific and technological analysis, research, development, technical planning, software support, technical software troubleshooting and technological consultancy services in the field of telecommunication devices, equipment, networks, systems, solutions and software; design, engineering and development of telecommunications devices, equipment, networks, systems, solutions and software; cloud computing; server hosting; software as a service (SaaS) services; infrastructure as a service (IaaS) services; platform as a service (PaaS) services; application service provider (ASP) services;

providing on-line (non-downloadable) software and mobile applications; providing temporary use of on-line non-downloadable software for use as an application programming interface (API); providing temporary use of on-line non-downloadable software development tools; rental of computer software and hardware; rental of computer software and hardware for capture of audio, image, video, digital media, multimedia, virtual reality and presence; data encoding and decoding services; leasing of data processing equipment; industrial design; off-site data backup; information, advisory and consultancy services relating to all the aforesaid services.

Class 09

Recorded computer programs and downloadable computer programs that implement a computer programming language; recorded computer programs and downloadable computer programs that implement a compiler for computer programming language; downloadable computer software for use in performing computations, creating and executing computational algorithms, analyzing data, accessing data, visualizing data, and deploying downloadable computer software applications and electronic hardware implementations of those algorithms; computer programs recorded on external devices for use in implementing a computer programming language; downloadable computer programs for use in implementing a computer programming language; downloadable computer programs and hardware for electronic design automation; downloadable computer programs and hardware for simulation of physical systems; downloadable computer programs for use in artificial intelligence and machine learning systems, namely, downloadable computer programs and hardware to improve the simulation of physical systems; downloadable computer software for the simulation, visualization, testing, fabrication, and design of physical systems; downloadable computer software, namely, downloadable computer software for implementing electronic design automation tools; downloadable open source applications software, namely, downloadable computer software for use in

software development; downloadable open source applications software, namely, downloadable computer software development tools for design and development of open-source and proprietary software programs; downloadable open source applications software, namely, downloadable software that enables users to share and collaboratively develop software, software packages, software libraries, and computer code; computer programs and downloadable computer programs that implement a computer programming language; computer programs and downloadable computer programs that implement a compiler for computer programming language; computer software for use in performing computations, creating and executing computational algorithms, analyzing data, accessing data, visualizing data, and deploying computer software applications and electronic hardware implementations of those algorithms; downloadable open source modular scientific simulation software featuring a polyglot userbase, high performance differential equation solving, physics-informed model discovery and learning, compiler-assisted model analysis and sparsity acceleration, machine learning assisted tooling for model acceleration, differentiable scientific data structures and simulators, and tools for accelerated algorithm development and research; downloadable open source modular scientific simulation software, namely, high performance differential equation solving downloadable software featuring a library for solving ordinary differential equations, stochastic differential equations, delay differential equations, differential-algebraic equations, and hybrid differential equations which include multi-scale models and mixtures with agent-based simulations; downloadable open source modular scientific simulation software, namely, high performance differential equation solving downloadable software featuring templated implementation that allows arbitrary array and number types to be compatible, giving compatibility with arbitrary precision floating point numbers, GPU-based computations, unit-checked arithmetic, and other features designed for both high performance on large-scale and small-scale problems; downloadable open source modular scientific simulation software, namely, physics-informed model

discovery and learning downloadable software featuring a litany of modules for automating the process of model discovery and fitting, compiler-assisted model analysis and sparsity acceleration that builds a set of interconnected tools for generating numerical solver code directly on the models that are being simulated, differentiable scientific data structures and simulators for pre-built scientific simulation tools along with data structures for accelerating the development of models, and tools for accelerated algorithm development in the field of numerical simulation methods and methodologies; downloadable open source modular scientific simulation software tools with a common interface, namely, a modular ecosystem for handling a wide variety of scientific simulations, solving differential equations and universal neural differential equations, a modeling framework for automatically parallelized machine learning featuring a computer algebra system for integrated symbolics for physics-informed machine learning and automated transformations of differential equations.

Class 38

Providing on-line forums for transmission of messages among computer users concerning computer programming languages.

Class 42

Providing information relating to a computer programming language and its development environment via a website; application service provider featuring application programming interface (API) software for use in performing computations, creating and executing computational algorithms, analyzing data, accessing data, visualizing data, and deploying computer software applications and electronic hardware implementations of those algorithms; design and development services in the field of custom software and hardware for use in electronic design; providing information in the field of electronic design; software as a service (SaaS) services featuring software for use in electronic design; technical support in the field of

electronic design; consulting services in the field of electronic design; consulting services in the field of electronic product design and design implementation; software as a service (SaaS) services featuring software for use in electronic design, namely, providing temporary use of online non-downloadable computer programs and hardware for electronic design automation; software as a service (SaaS) services featuring software for use in electronic design, namely, providing temporary use of online non-downloadable computer programs and hardware for simulation of physical systems; software as a service (SaaS) services featuring software for use in electronic design, namely, providing temporary use of online non-downloadable computer software for simulation, visualization, and design of physical systems; software as a service (SaaS) services featuring software for use in electronic design, namely, providing temporary use of online non-downloadable computer software and electronic design automation tools; software as a service (SaaS) services featuring software featuring artificial intelligence and machine learning systems comprised of temporary online non-downloadable software for use in electronic design automation; software as a service (SaaS) services featuring software featuring pre-trained machine learning models leveraging scientific machine learning software and equation-based digital twin modeling for simulation, visualization, and design of physical systems; design and development services in the field of custom software and hardware, namely, artificial intelligence and machine learning systems comprised of temporary online non-downloadable software for use in electronic design automation and electronic design; providing information regarding artificial intelligence and machine learning systems in the field of electronic design; consulting services regarding artificial intelligence and machine learning systems in the field of electronic design; consulting services regarding computer software and toolkits in the field of electronic design; providing on-line information in the field of electronic design, namely, for the design and validation of integrated circuits, semiconductors, printed circuit boards, electronic systems, and gateware for field-programmable gate arrays; providing temporary use of on-line non-downloadable software and web-based

software platforms that serve as the infrastructure for developers to use software tools for the collaborative development of software programs; providing temporary use of on-line non-downloadable software and application service provider (ASP) services, namely, hosting computer software featuring non-downloadable software for design and development of open-source and proprietary software programs; consulting and advice services in the field of open source software design and development and information technology operations, all in the field of open source technology; consulting services in the field of design, selection, and implementation of open source software for modular scientific simulation; computer services, namely, hosting and maintaining an on-line website for others to collaboratively develop, share, and access open source software, software packages, software libraries, and computer code; hosting an on-line community web site featuring an indexed and cataloged system for the collaborative development, sharing, and accessing of open source software, software packages, software libraries, and computer code; providing temporary use of online non-downloadable open source software and online non-downloadable web-based software platforms for modular scientific simulation with a polyglot userbase, high performance differential equation solving, physics-informed model discovery and learning, compiler-assisted model analysis and sparsity acceleration, machine learning assisted tooling for model acceleration, differentiable scientific data structures and simulators, and tools for accelerated algorithm development and research; providing temporary use of on-line non-downloadable open source software and online non-downloadable web-based software platforms for modular scientific simulation, namely, high performance differential equation solving featuring a library for solving ordinary differential equations, stochastic differential equations, delay differential equations, differential-algebraic equations, and hybrid differential equations which include multi-scale models and mixtures with agent-based simulations; providing temporary use of online non-downloadable open source software and online non-downloadable web-based software platforms for modular scientific simulation, namely, high performance

differential equation solving featuring templated implementation that allows arbitrary array and number types to be compatible, giving compatibility with arbitrary precision floating point numbers, GPU-based computations, unit-checked arithmetic, and other features designed for both high performance on large-scale and small-scale problems; providing temporary use of online non-downloadable open source software and online non-downloadable web-based software platforms for modular scientific simulation, namely, physics-informed model discovery and learning featuring a litany of modules for automating the process of model discovery and fitting, compiler-assisted model analysis and sparsity acceleration that builds a set of interconnected tools for generating numerical solver code directly on the models that are being simulated, differentiable scientific data structures and simulators for pre-built scientific simulation tools along with data structures for accelerating the development of models, and tools for accelerated algorithm development in the field of numerical simulation methods and methodologies; providing temporary use of on-line non-downloadable open source software and online non-downloadable web-based software platforms featuring modular scientific simulation tools with a common interface, namely, a modular ecosystem for handling a wide variety of scientific simulations, solving differential equations and universal neural differential equations, a modeling framework for automatically parallelized machine learning featuring a computer algebra system for integrated symbolics for physics-informed machine learning and automated transformations of differential equations.
