General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Software; Mobile application software; Computer hardware; Software for digital and virtual real estate assets; Software for digital and virtual real estate documents,

namely, deeds; Software for executing, sending, receiving, accepting, buying, selling, storing, transmitting, trading, exchanging, and recording real estate documents; Software for executing, sending, receiving, accepting, buying, selling, storing, transmitting, trading, exchanging, and recording real estate documents, namely, satisfactions, mortgages, deeds and assignments; Software for executing, sending, receiving, accepting, buying, selling, storing, transmitting, trading, exchanging, and recording digital and virtual real estate documents; Software for executing, sending, receiving, accepting, buying, selling, storing, transmitting, trading, exchanging, and recording digital and virtual real estate documents, namely, satisfactions, mortgages, deeds and assignments; Software for executing and recording digital and virtual real estate transactions; Distributed ledger software for use in executing, sending, receiving, accepting, buying, selling, storing, transmitting, trading, exchanging, and recording digital and virtual real estate transactions; Software for creating accounts and maintaining and managing information about digital and virtual real estate transactions on distributed ledgers and peer to peer payment networks; Software for managing and validating transactions involving digital and virtual real estate assets; Software for managing and validating transactions involving digital and virtual real estate documents, namely satisfactions, mortgages, deeds and assignments; Software for recording, managing, tracking, and transferring ownership interests of digital and virtual real estate assets; Software for arranging and conducting auctions in the field of digital and virtual real estate assets; Software for social networking and creating and interacting with online communities; Software for creating, managing and accessing groups within virtual communities; Software development tools; Software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Software for organizing events, searching for events, calendaring and managing events; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about,

commenting on, interacting with, embedding, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Software for finding content and content publishers, and for subscribing to content; Software for creating and managing social media profiles and user accounts; Software for enabling transmission of images, audio, audio visual and video content and data; Software for processing images, graphics, audio, video, and text; Software for collecting, managing, organizing, modifying, transmitting, synchronizing, and storing data and information; E-commerce software; E-commerce software to allow users to perform electronic business transactions via a global computer and communication networks; Software; Software for sending and receiving electronic messages, alerts, notifications and reminders; File sharing software; Messaging software; Search engine software; Software for use in creating, managing, measuring, and disseminating advertising of others; Software for creating, sharing, disseminating and posting advertising; Software for geo-location based advertising and product and service promotion; Software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; Downloadable virtual reality software; Downloadable augmented reality software; Downloadable mixed reality software; Virtual reality software for interactive entertainment and virtual reality gaming; Augmented reality software for interactive entertainment and augmented reality gaming; Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; Software for navigating a virtual reality and augmented reality environments; Software for enabling users to experience virtual reality and augmented reality visualization, manipulation, and immersion; Software for recording, storing, transmitting, receiving, displaying and analyzing data from

wearable computer hardware; Software for use in creating and designing virtual reality and augmented reality software; Application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; Game software; Software for game development; Gaming software development tools; Blockchain gaming software; Downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; Software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; Software for converting natural language into machine-executable commands; Software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Software for providing consumer information; Software for providing electronic maps; Location-aware software for searching, determining, and sharing locations; Software for identifying and allowing users to contact government representatives; Parental control software; Computer software; Computer operating systems; Software for enabling electronic devices to share data and communicate with each other; Software for use in customer relationship management (CRM); Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for online charitable fundraising services and financial donation services; Software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Communication software and communication computer

hardware for providing access to the Internet; Telecommunications equipment; Radio receivers and transmitters; GPS receivers; Software to allow users to perform e-commerce transactions via the internet and communications networks; Communications software; Software that allows users to make payments and transfer funds; Software that enables online users to make payments and transfer funds across multiple websites and mobile applications; Electronic payment processing software; Software for processing electronic transactions; Computer software in the nature of a query engine; Software for facilitating machine learning; Software for building user interfaces; Downloadable electronic publications; Software for opinion polling; Software allowing users to post questions with answer options; Software for the synchronization of data between a remote station or device and a fixed or remote station or device; Voice command and recognition software, speech to text conversion software; Voice-enabled software applications for personal information management; Home automation and home device integration software; Wireless communication software for voice, audio, video, and data transmission; Software used for controlling stand-alone voice controlled information and personal assistant devices; Software for voice recognition for use in connection with the transmission of voice and data; Software for accessing, browsing, and searching online databases, audio, video, and multimedia content, games, and software applications, and software application marketplaces; Software for use to connect and control internet of things (iot) electronic devices; Computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; Software in the nature of a mobile application for telecommunication services for providing transmission of voice, data, video, and media content via the internet and the worldwide web for computers

or other portable consumer electronic devices; Software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; Software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices and computers; Software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Software for accessing, browsing and searching online databases; Software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications, and electronic games; Apparatus for recording, transmission or reproduction of sound or images; Apparatus for transmission of communication; Apparatus for data storage, namely, mobile and wearable digital electronic devices for the storage of text, data, audio, image, and video files; Blockchain software; Cryptography software; Software for cryptocurrency mining; Software for cryptocurrency farming; Software in the field of blockchain; Software for use with cryptocurrency; Software for use with digital currency; Software for use with virtual currency; Digital currency wallet and storage services software; Software for use as a cryptocurrency wallet; Cryptocurrency hardware wallet; Downloadable computer software for use as a digital wallet; Downloadable computer software for use as an electronic wallet; Computer programs and computer application software for electronic storage of data; Software for providing a digital wallet; Software for digital currency payment and exchange

transactions; Software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use as an electronic wallet; Software for creating and managing electronic wallets; Software for electronic wallet services; Downloadable e-wallets; Distributed ledger software; Distributed ledger platform software; Software for use with distributed ledger technology; Software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for executing and recording financial transactions; Distributed ledger software for use in processing financial transactions; Software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; Software for use in financial trading; Software for use in financial exchange; Software for accessing financial information and market data and trends; Software for providing authentication of parties to a financial transaction; Software for maintaining ledgers for financial transactions; Software for the management of cryptographic security of electronic transmissions across computer networks; Software for encrypting and enabling secure transmission of digital information over the Internet; Software for allowing users to calculate parameters related to financial transactions; Software for electronic funds transfer; Software for currency conversion; Software for the collection and distribution of data; Software for payment transactions; Software for connecting computers to local databases and global computer networks; Software for creating searchable databases of information and data; Software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies,

digital currencies and virtual currencies; Software for creating, executing, and managing smart contracts; Software for managing payment and exchange transactions; Software for use as a digital currency wallet, virtual currency wallet, digital asset wallet, crypto token wallet, and utility wallet; Software for creating a decentralized and open source digital currency, virtual currency, cryptocurrency, digitized assets, digital token for use in blockchain-based transactions; Software for decentralized finance; Software for developing decentralized applications; Software for recording, managing, tracking, and transferring ownership interests in decentralized autonomous organizations; Software for management and governance of decentralized autonomous organizations; Software for participating and voting in decentralized autonomous organizations; Software for arranging and conducting auctions; Software for voting; Computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; Software for creating, selling and managing blockchain-based tokens; Software for use in an electronic financial platform; Software for processing electronic payments and for transferring funds to and from others; Blockchain platform software; Software for managing and verifying transactions on a blockchain; Software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Software for managing crypto currency and digital currency accounts; Software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; Software for developing, deploying, and managing software applications, and integrating

software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; Computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; Security token hardware; Electronic currency converters; Software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; Software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; Software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; Software for use as an application program interface (API) software for use in computer hardware device identification; Software for use in authenticating user access to computers and computer networks; Software for use in facilitating secure transactions; Software for use in accessing, reading, tracking, and using blockchain technology; Software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; Software for network identification verification, authentication and management services for security purposes; Downloadable authentication software for controlling access to and communications with computers and computer networks; Encryption devices; Security tokens; Software for use as a security token; Software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto

tokens and utility tokens; Ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; Altimeters; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for use in building software applications; Augmented reality software; Augmented reality software for interactive entertainment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for object tracking, motion control and content visualization; Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer hardware for displaying data and video; Computer operating system software; Computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; Computer peripherals for mobile devices, namely, electronic devices, monitors, sensors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer peripherals for remotely accessing and transmitting data; Computer software and computer application software for mobile phones and

personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; Computer software development tools; Computer software for accessing, browsing and searching online databases; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; Computer software for creating, managing, and interacting with an online community; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer

software for processing images, graphics, audio, video, and text; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; Computer software for sending and receiving electronic messages, alerts, notifications and reminders; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer software for social networking and interacting with online communities; Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Computer software for the redirection of messages, Internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; Computer software for use as an application programming interface (API); Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; Computer software for wireless content, data and information delivery; Computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; Computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; Computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers

and computer tablets; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, namely, an application providing social networking functionalities; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content;

Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; Downloadable computer software, namely, mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, for detecting, storing, reporting, monitoring, uploading and downloading sport, fitness training, and activity data to the internet, and communication with gaming consoles and personal computers, regarding time, pace, speed, steps taken, athletic skill, calories burned, heart and body rate, global positioning, direction, distance, altitude, navigational and weather information; Electronic navigational instruments and apparatus; Fitness and exercise sensors, monitors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, temperature, and navigational information, to be worn during exercise and for sports activities; Gesture recognition software; Global positioning system (GPS) devices; Hardware and software to view virtual images in creating virtual, augmented and mixed reality; interactive entertainment software; Location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; Mixed reality software; Mixed reality software for interactive entertainment; Mixed reality software for navigating a mixed reality environment; Mixed reality software for object tracking, motion control and content visualization; Mixed reality software for operating mixed reality headsets; Mixed reality software for users to experience mixed reality visualization, manipulation and immersion; Network communication apparatus, namely, mobile and wearable digital

electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; Pedometers; Peripherals for mobile devices, namely, pedometers and altimeters; Sensors for scientific use to be worn by a human to gather human biometric data, mobile and wearable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; Software and firmware for operating system programs; Software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; Software and firmware for enabling electronic devices to share data and communicate with each other; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Software for advertisers to communicate and interact with online communities; Software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; Software for creating, managing, and interacting with an online community; Software for generating images to be displayed in near-eye display system; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software for ordering and/or purchasing goods and services; Software for organizing, searching for and managing events; Software for planning activities with other users, making recommendations; Software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data,

images, audio to near-eye display systems; Software for smart phones and other computer systems to receive data from near-eye display systems; Software for social and destination mapping; Software for social networking; Software for streaming multimedia entertainment content; Software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; Software for use as an application programming interface (API); Software for use in creating and designing virtual reality, augmented reality and mixed reality software; Software for wireless content, data and information delivery; Software in the nature of a mobile application; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Virtual reality software; Virtual reality software for interactive entertainment; Virtual reality software for navigating a virtual reality environment; Virtual reality software for object tracking, motion control and content visualization; Virtual reality software for operating virtual reality headsets; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality and mixed reality world experiences; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Image, music, audio, video and multimedia files authenticated by non-fungible tokens (NFTs); Digital images, audio, video and multimedia files; Software for creating NFTs; Software for minting, creating, and issuing digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible

tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for viewing and providing access to digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies.

Goods and/or Services:

Class 01

Industrial minerals; processed minerals; processed hematite minerals; processed magnetite minerals; chemicals and chemical additives for use in industry, science, manufacture and research; cobalt chemicals; cobalt chemicals produced by renewable energy; lithium; lithium produced by renewable energy; chemical products for use in industry, science, manufacture and research; chemical preparations and

substances for use in industry, science, manufacture and research; chemical preparations for decarbonising engines; ammonia and ammonia additives and hydrogen and hydrogen additives for use in industry, science, manufacture and research; ammonia and hydrogen products, preparations and substances for use in industry, science, manufacture and research; hydrogen; hydrogen chemical preparations and substances; hydrogen produced by renewable energy sources; hydrogen gas; liquid hydrogen; dissolved hydrogen; mixtures of gas, liquid and dissolved hydrogen; graphite; synthetic graphite; graphite for industrial use; chemical reagents or mixtures, other than for medical or veterinary purposes; ammonia; ammonia (volatile alkali) for industrial purposes; volatile alkali (ammonia) for industrial purposes; ammonia for industrial purposes; ammonia produced by renewable energy sources; ammonia water; aqueous ammonia for industrial purposes; anhydrous ammonia; ammonia alum; ammonia and ammonia produced by renewable energy sources for use in industrial processes, including industrial processes that make nitrogen based fertilisers, dye, pharmaceuticals, chemicals, metal ores, iron and steel; ammonia and ammonia produced by renewable energy sources for use for the manufacture of refrigerants, cleaning products, including household cleaning products, plastics, rubbers, explosives, textiles, pesticides and cosmetic products; ammonia and ammonia produced by renewable energy sources for purification treatments of water supplies and wastewater treatments; chemical water testing and treatment preparations; hydrocarbons; hydrocarbon compounds; gaseous hydrocarbons; gaseous hydrocarbon compounds; graphene; graphene for industrial use; carbon for industrial use; catalysts for the production of hydrogen; iron oxides, phosphates and salts used in industry; iron oxide; gases for industrial use or laboratory use, other than for medical use; gas mixtures for use in science; gas purifying preparations and substances; inert gases for industrial and scientific use; liquefied gases for use in industry, research and science, other than for medical use; magnesium chloride for use in industry, science, manufacture and research; magnesium oxide for use in industry, science, manufacture and research; cement

(adhesives); cement (metallurgy); chemical mixtures for use as additives and agglutinants for concrete; chemical mixtures for use as additives and agglutinants for cement and concrete produced by renewable energy sources; cement and concrete preservatives, except paints and oils; cement and concrete waterproofing chemicals, except paint; chemical additives for cement and concrete; chemical compositions for hardening cement and concrete; chemical preparations for the treatment of cement and concrete; binding chemicals for concrete; bonding agents for concrete; chemical preparations for use with cement and concrete; chemical products for use as additives to cement and concrete; compositions for setting cement and concrete; compositions for preserving cement and concrete; preservatives for cement and concrete; chemical products for protecting and sealing cement and concrete; chemical reagents or mixtures, other than for medical or veterinary purposes.

Class 04

Fuels; fuel mixtures; fuels derived from hydrogen or predominantly derived from hydrogen; fuels derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; fuels derived from ammonia or predominantly derived from ammonia; fuels derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; electricity (energy); energy derived from ammonia or predominantly derived from ammonia; energy derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; energy derived from hydrogen or predominantly derived from hydrogen; energy derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; fuel and energy derived from direct ammonia conversion, namely combustion or direct ammonia fuel cells; fuel and energy derived from indirect ammonia conversion, namely, hydrogen vector; hydrocarbon fuels; solid, liquid and gaseous fuels; electricity; electrical energy; carbon materials for use as fuels, namely graphite or synthetic graphite; graphite as a fuel; liquid fuel; vaporised fuel mixtures; solid fuels; solid oxygen fuel; non-chemical

additives for fuels; gaseous fuels; gas mixtures; liquid gases; dissolved gases; combustible gases; natural gas; solidified gas (fuel); synthetic gas (fuel); gases for use as illuminants; fuels and gases for heating and lighting purposes; fuels and gases for automobiles; illuminants and illuminating materials; biofuel; biogas; combustible fuels and gases; renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; liquefied gases, other than for medical use; geothermal steam for use as fuel or industrial heating.

Class 06

Common metals and their alloys; iron; steel and chrome alloys; iron alloys; ores; iron ores; iron ores, namely, magnetite ore; iron ores produced by renewable energy sources; iron ore sinter; iron ore pellets; iron ore concentrate; pig iron; pure iron; iron metallics, namely, pig iron, direct reduced iron and hot briquetted iron; steel produced by renewable energy; iron produced by hydrogen generated via water electrolysis using renewable energy; iron produced by hydrogen and ammonia; iron produced by electrochemicals; nickel; nickel produced by renewable energy; cobalt (raw); cobalt (raw) produced by renewable energy; metallic ores; ferrous ores; processed metal ores; processed iron ores; iron, unwrought or semi-wrought; metal powders; ore powders; iron powders; mineral ores in this class; common metals, unwrought or semi-wrought; alloys of common metals; ores of metal; limonite; chrome ores; steel; steel produced by renewable energy; copper; gold solder; lithium pegmatite ore; copper-porphyry; copper-molybdenum; copper-gold; metal building products.

Class 07

Automated assembly machines; automated machines for loading materials; automated handling apparatus; mechanical control instruments (mechanisms) for the automation of machining operations; mine working machines; machines for drilling; electric drills; bulldozers; excavators; diggers (machines); drilling rigs; automated

drilling machines; automated electric drills; automated excavators; automated diggers (machines); automated drilling rigs; automated concrete mixer machines; automated concrete pump machines; automated concrete spraying machines; automated apparatus and machines for use in mining; automated energy generation plants; automated electrolysis plants; industrial robots; apparatus, equipment and instruments for the generation of power; generators; electricity generators; wind powered electricity generators; power generation plants; electric generators; electric generator stations; machines for generating gas by electrolysis; electrolysis plants; machines for generating power; wind turbines; Wind towers, being parts of wind turbines; wind turbine blades; turbines for power generation; power operated tools; apparatus and machines for use in mining; concrete mixer machines; concrete pump machines; concrete spraying machines; converters for steel works; electric motors; gas converters; gas condenser machines; fuel dispensing pumps for service stations and parts related thereto; hydrogen fuel dispensing pumps for refuelling stations for vehicles with hydrogen engines or propulsion systems; hydrogen dispensing pumps for service stations; automated control mechanisms for machines, engines or motors; electric motors for machines; electric drives for machines; transmissions for machines; power transmission systems for machines; mobile machines adapted to operate automatically; mechanical control apparatus for the automation of plant and machinery; fuel conversion apparatus for internal combustion engines; parts, fittings and accessories for the aforementioned goods; electrolysis apparatus for converting water into hydrogen and/or oxygen gas; electric engines for the propulsion of aircraft; electric engines for the propulsion of watercraft; electric drives for aircraft; electric drives for watercraft; hydrogen engines for the propulsion of aircraft; hydrogen engines for the propulsion of watercraft; engines for aircraft using ammonia as a fuel source; engines for watercraft using ammonia as a fuel source.

Class 09

Scientific, research, navigation, surveying, photographic, cinematographic, audio-

visual, weighing, measuring, signalling, detecting, testing, inspecting, and teaching apparatus and instruments; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media; computer software; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for controlling and monitoring unmanned vehicles; electrical apparatus for the automated control of vehicles and machines; computer apparatus for use in the automation of machines; application software; computer programs; downloadable computer software; battery management software; computer algorithms; downloadable computer software using artificial intelligence for use in machine learning; downloadable artificial intelligence software; artificial intelligence and machine learning software; software featuring technologies including algorithms and artificial intelligence; data feeders for use with artificial intelligence; software for the supervision of equipment and installations for the production and distribution of energy; software for smart charging of electric vehicles and/or hydrogen-powered or hydrogen-propelled vehicles; computer software, computer hardware and computer firmware for the autonomous operation of vehicles and equipment, including mining haul trucks, road trains, trains, water carts, mining trucks and carts, excavators, bulldozers, diggers, machine loaders, drones and drilling rigs; downloadable and recorded computer software for the remote control of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, including mining haul vehicles, trucks and carts, road trains, trains and drones; computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous machines, including bulldozers, excavators, diggers, machine loaders and drilling rigs; autonomous driving control systems for vehicles; computers for autonomous operation of vehicles and equipment; autonomous navigation systems for vehicles

and machines; automatic and autonomous driving control systems for vehicles; pre-collision detection and collision avoidance systems; pre-collision detection and collision avoidance systems for automated vehicles and machines; anti-collision and shockproof sensors for vehicles and automated machinery; anti-collision and shockproof radars for vehicles and automated machinery; computer hardware, software and firmware for high precision machine guidance of vehicles and machinery on mining sites; computer software for the management and operation of mining sites; computer software for the efficient assignment of manned and autonomous assets and resources on a mining site; computer algorithms for the efficient assignment of manned and autonomous assets and resources on a mining site; computer software for vehicle fleet management, including for the management of fleets of autonomous or semi-autonomous vehicles; vehicle tracking apparatus, including in relation to fleets of autonomous or semi-autonomous vehicles; computer software for monitoring, optimising, and regulating the storage and discharge of stored energy to and from batteries and electric cells; application software for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells; downloadable and recorded computer software for monitoring energy consumption; downloadable and recorded application software for controlling and monitoring energy and utility systems, energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and ammonia production plants; computer hardware, computer software and computer firmware for use in the fields of battery management/control and energy storage; computer software to enable users to capture, record, monitor, display, transmit, process and/or analyse information and data relating to energy storage and battery performance; computer software that enables users to monitor, interpret and/or model information and data relating to energy storage and battery performance; computer software for energy management; humanoid robots with artificial intelligence; electronic memories; electronic databases; computers and computer peripheral devices; computer hardware; electronic control devices; remote

control apparatus and instruments; sensors; cameras; apparatus for managing energy supplies; electronic publications; electrolyzers; electric power supply units; Electrification systems for land, air, rail and marine vehicles comprising vehicle battery packs, inverters for power supply, electric power controllers, electrical transformers, electrical cabling, electronic power converters, electric power distribution machines, battery chargers, and battery management software; electric cables; bundles of electric cabling; batteries; electric batteries for powering land, air or water vehicles; battery subpacks; battery chargers, including for vehicles; electric battery chargers; rapid charger units for battery electric equipment; electric batteries; high energy density energy cells; electric charging cables; electric cells; electric control devices for energy management; lithium batteries; battery management systems, namely, battery management software, resistor networks and electrical power connectors which monitor and regulate the supply, distribution and use of power from batteries; energy management systems, namely, power management software, resistor networks and electrical power connectors which monitor and regulate the generation, supply, transmission, distribution and use of power; power electronics, namely, inverters, converters, semiconductors; power controllers; power distribution or control machines and apparatus; electrical and electronic monitoring and switching apparatus and systems; thermal management systems for batteries and inverters, namely, resistor networks, temperature controlling apparatus, heat regulating apparatus, computer software for controlling heat exchangers, heat sensors and regulators, thermal management software and firmware and electronic power controllers; mobile and static off board power units; electronic measuring, sensing, recording, signalling and warning apparatus; charging stations for electric vehicles; global positioning system (GPS) devices; photovoltaic cells and modules; electronic digital building automation systems; parts, fittings and accessories for the aforementioned goods; electronic digital automation installations for measuring building service installations; power units.

Class 12

Vehicles; apparatus for locomotion by land, air or water; land, air, rail and marine vehicles; helicopters; trains; regenerative trains; vehicles for transport of goods by land, air, rail or water; mining vehicles; autonomous vehicles; autonomous trains; mining trucks and carts; mine carts; mine trains; mine cart wheels; autonomous mining trucks, trains and carts; electric engines for land vehicles; electric drives for land vehicles; hydrogen engines for land vehicles; engines for land vehicles using ammonia as a fuel source; traction engines; dump trucks; camera and delivery drones; remote control vehicles (other than toys); accessories for remote control vehicles; remote control drones; accessories for remote control drones; civilian drones; military drones; photography drones; parts, fittings and accessories for the aforementioned goods, except for electric engines, electric drives, hydrogen engines and engines for land vehicles and traction engines.

Class 19

Materials, not of metal, for building and construction; cement; concrete; concrete aggregate; cement and concrete made by renewable energy sources; blended cements and concrete; cement and concrete mixes; premixed cement or concrete; fibre cements; magnesium cement; refractory cement; building and construction materials made of cement or concrete; cement or concrete based mixtures for use in building and construction; cement or concrete based coatings for use in building and construction; cement or concrete based materials for use in building and construction; cement or concrete based wall coatings; cement or concrete blocks; cement for blast furnaces; cement or concrete posts, slabs, blocks, wall components, wall members, tiles, cladding, panels, slopes, piles, plates, posts, sheets, beams, roof panels, roofing, mouldings, architectural products; fireproof cement coating; sheets of fibre cement for use in building; soil stabilising cement for use in agriculture; substances made of cement or concrete for filling and repair of surface defects and flaws; mixtures of cement, sand and stone material; cement or concrete products for use in

buildings, gardens, landscaping, roadways, walkways, ponds, pools, water tanks; mortar; grout.

Class 35

Business research services; business administration; business management; business advice and assistance; business consultancy; business analysis; business information services; compilation and analysis of statistical information; compilation of data about mined material and mined product statistical information; business and administrative services for operating mines including import and export agency services and retail and wholesale of mined materials and products; business and administrative management of mines including import and export agency services and retail and wholesale of mined materials and products; business and administrative management services relating to the production of cement and concrete; business and administrative management of utility networks; business and administrative management services relating to the production of steel and iron; business and administrative management services relating to the production of energy, solar energy, renewable energy, ammonia, hydrogen, electricity, gas, fuel and water; business and administrative management of hydrogen production and generation plants; business and administrative management of ammonia production and generation plants; business and administrative management of solar power plants; business and administrative management of iron production facilities and plants; business and administrative management of steel production facilities and plants; business and administrative management of energy production and generation plants; business and administrative management of solar power, turbine power, hydropower production facilities and plants; business and administrative management of fuel production and generation plants; business and administrative management of cement and concrete production facilities; advertising; marketing; retailing and wholesaling; retailing and wholesaling of mined material and products; retailing and wholesaling of hydrogen; retailing and wholesaling of hydrogen

produced by renewable energy sources; retailing and wholesaling of ammonia; retailing and wholesaling of ammonia produced by renewable energy sources; retailing and wholesaling of fuels and energy; retailing and wholesaling of fuels and energy derived from ammonia or predominantly derived from ammonia; retailing and wholesaling of fuels and energy derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; retailing and wholesaling of fuels and energy derived from hydrogen or predominantly derived from hydrogen; retailing and wholesaling of fuels and energy derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; retailing and wholesaling of renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; retailing and wholesaling of iron; retailing and wholesaling of iron produced by renewable energy sources; retailing and wholesaling of steel; retailing and wholesaling of steel produced by renewable energy sources; retailing and wholesaling of cement and concrete and products made from cement or concrete; retailing and wholesaling of cement or concrete produced by renewable energy sources; retailing and wholesaling of autonomous vehicles, autonomous drones, autonomous mining equipment and systems for automating vehicles and equipment; the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods; market surveys; compiling research and statistical data; computerised online ordering services; office functions; cost price analysis; public relations; import export agency services; sales promotion for others; business project management services for construction projects; business project management services for ammonia, hydrogen, hydro electrical and solar power systems and plant construction; business project management services for iron and steel production facilities and plants; business project management of mining exploration and mining extraction services; providing business information via a web site; computerised stock ordering and control services; computerised file management; foreign trade consultancy; operation of loyalty programs; personnel management; business project management of mining

exploration and mining extraction services; information, consultancy and advisory services concerning all the aforementioned.

Class 36

Financial services; valuation services; valuation of commodities; commodities trading (financial services); valuation of ores and precious metals; financial, funding, fundraising and banking services; financial and monetary affairs; financial consultancy, advice and information; financial sponsorship of education, training, entertainment, sporting, or cultural activities; charitable fundraising; conducting financial feasibility studies; funding and providing scholarships; financial investment services; financial funding services; fundraising projects; insurance; real estate affairs; fund management and investment management; financial management; financial analysis; electronic banking; debt collection; loan financing; property valuation; information, consultancy and advisory services concerning all the aforementioned.

Class 37

Construction; construction of plants and facilities; mining extraction services; mining services; construction of mines; cement and concrete pumping services; civil and mechanical engineering construction of mines; beneath ground construction of mines; construction, installation, repair and maintenance services; drilling; excavating; rental of excavators; charging electric vehicles; recharging of batteries and accumulators; rental of battery chargers; installation, repair and maintenance of electric vehicles chargers; installation, maintenance and repair of photovoltaic cells and modules; installation of photovoltaic power generation installations; construction, installation, maintenance and repair of solar energy apparatus and installations; construction, installation, maintenance and repair of wind energy apparatus and installations; vehicle service stations and vehicle fuelling station services; hydrogen refuelling stations; hydrogen gas refuelling for vehicles; aircraft refuelling and maintenance

services, including such services involving hydrogen fuels; watercraft refuelling and maintenance services, including such services involving hydrogen fuels; recharging services for electric vehicles, electric aircraft and electric watercraft; hydroelectric power station construction services; building of railways; constructions of ports and port terminals; rental of machinery for use in mining and excavating; rental of autonomous machinery for use in mining and excavating; remote operation in the field of maintenance of mining equipment; information, consultancy and advisory services concerning all the aforementioned.

Class 38

Telecommunications and communication services; communication services for remote control vehicles; communication services for remote control of machines and vehicles; communication services for remote controlling of transport of materials by land, rail, air and ship; providing telecommunications connections to a global computer network; web portal services (providing user access to a global computer network); transmission of information on a wide range of topics, including online and over a global computer network; providing access to online computer databases; information, consultancy and advisory services concerning all the aforementioned.

Class 39

Transport; transportation services; transport by land, air, road, marine, pipeline and railway; transportation of materials by land, air, ship and railway; packaging and storage of goods; packaging and storing of metals; transportation, transmission, storage, supply, distribution and delivery of hydrogen; transportation, transmission, storage, supply, distribution and delivery of hydrogen produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of ammonia; transportation, transmission, storage, supply, distribution and delivery of ammonia produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of fuel; transportation, transmission, storage,

supply, distribution and delivery of fuel derived from ammonia or predominantly derived from ammonia, including ammonia produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of fuel derived from hydrogen or predominantly derived from hydrogen, including hydrogen produced by renewable energy sources; transportation, storage, supply, distribution and delivery of iron ore, iron and steel; transportation, storage, supply, distribution and delivery of iron ore, iron and steel made by renewable energy sources; transportation, storage, supply, distribution and delivery of cement and concrete; transportation, storage, supply, distribution and delivery of cement or concrete produced by renewable energy sources; transportation, transmission, storage, supply and distribution of renewable energy, solar energy, wind energy, hydroelectric and geothermal energy; transmission and supply of energy and fuels through green electrons; transportation, transmission, storage, supply, distribution and delivery of ammonia energy, hydrogen energy, electricity, gas, natural gas, fuel, graphite and/or other hydrocarbon energy; transmission, storage, distribution and supply of electricity; electricity supply services; transportation, transmission and distribution of ammonia energy and hydrogen energy from production facilities services to end users through pipelines and by transport distribution services; storage, transportation and distribution of water; distribution of energy; transportation logistics services; transport of materials by land vehicles controlled remotely; warehousing services; logistics services for the storage and transport of goods; tracking of assets by computer; removal and transportation of waste; rental of autonomous vehicles, aircraft and watercraft; rental of hydrogen powered vehicles, aircraft and watercraft; vehicle fleet management services in the field of tracking and monitoring of vehicle fleets, including in relation to fleets of autonomous or semi-autonomous vehicles; information, consultancy and advisory services concerning all the aforementioned.

Class 40

Production and generation of energy; production and generation of fuel; production

and generation of hydrogen; production and generation of hydrogen produced by renewable energy sources; production and generation of ammonia; production and generation of ammonia produced by renewable energy sources; production and generation of fuel and energy derived from ammonia or predominantly derived from ammonia, including ammonia produced by renewable energy sources; production and generation of fuel and energy derived from hydrogen or predominantly derived from hydrogen, including hydrogen produced by renewable energy sources; production and generation of solar energy, renewable energy, ammonia energy, hydrogen energy, electricity, gas, water energy and natural gas energy; production and generation of renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; production of iron for others; production of iron for others, produced by renewable energy sources; production of iron for others, using electrochemicals; production of iron for others, using hydrogen produced by water electrolysis using renewable energy; production of iron for others, using hydrogen and ammonia; production of steel for others; production of steel for others, produced by renewable energy sources; processing, separation and fractionating liquids from natural gas; production of cement for others; production of concrete for others; production of cement for others, produced by renewable energy sources; production of concrete for others, produced by renewable energy sources; electricity generation; production of electricity; electricity generation by power plants; hire of electrical generators; rental of electricity generators; gas processing and treatment; gas processing services; processing and conversion of energy, ammonia, hydrogen, gas and fuels; processing and conversion of fuels and energy; processing and conversion of energy generated from renewable sources; water treatment services; waste water treatment services; water treatment facilities; treatment of materials; heat treatment services; recycling services; recycling of chemicals, batteries, materials, waste and industrial goods; carbon offsetting services (recycling); energy recycling services; operation of hydrogen production and generation plants for others; operation of ammonia production and generation plants for others; operation of solar

power plants for others; operation of iron production facilities and plants for others; operation of steel production facilities and plants for others; operation of energy production and generation plants for others; operation of solar power, turbine power, hydropower production facilities and plants for others; operation of fuel production and generation plants for others; operation of cement and concrete production facilities for others; custom manufacture of products, equipment, installations and systems associated with energy production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with hydrogen production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with hydrogen produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of hydrogen made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with ammonia production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with ammonia produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of ammonia, made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with energy production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with energy produced by ammonia, hydrogen and renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of energy; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of iron; custom manufacture of products, equipment, installations and systems associated with iron and steel production, including iron and steel produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of steel; custom

manufacture of products, equipment, installations and systems associated with storage, supply and conversion of iron, made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of steel made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with fuel production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with fuel produced by ammonia and renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of fuel; custom manufacture of products, equipment, installations and systems associated with cement and concrete production, storage and supply, including cement and concrete produced by renewable energy sources; moulding of cement or concrete; custom manufacture of autonomous vehicles and equipment, including, mining haul trucks, road trains, trains, water carts, mining trucks and carts, excavators, bulldozers, diggers, machine loaders, drones, and drilling rigs; custom manufacturing of systems for the automation of vehicles and equipment; custom manufacturing of batteries, fuel cells, and electric powertrains for vehicles, including mining vehicles; treatment and blending of minerals, metals and ores; metal and ore processing; ore processing, namely, beneficiation of iron ores; drilling of metals; recycling and reprocessing services of common metals and their alloys and goods made from common metals and their alloys; metallurgical processing, namely, treatment of arsenic-containing materials; metallurgical processing; lithium processing; copper processing; power generation; production of energy; hydroelectric energy production; rental of batteries; rental of electricity generators; information, advisory and consultancy services in relation to all the aforesaid services.

Class 41

Education and training services; arranging and conducting workshops; organisation of competitions (education or entertainment); organising exhibitions for cultural or

educational purposes; arranging and conducting of conferences; electronic publication of information on a wide range of topics, including online and over a global computer network; taking aerial images for analysing and diagnosing air, soil, earth, and water; information, consultancy and advisory services concerning all the aforementioned.

Class 42

Gas and oil exploration services; geophysical exploration; mineral exploration services including iron ore exploration; mining exploration services; mining exploration of iron, copper, gold, silver, lithium, lithium pegmatite, copper-porphyry, magnetite, copper-molybdenum and copper-gold; geological prospecting; geological test drilling; surveying services; mineral and chemical analysis services; sediment sampling; engineering services; mining and mineral exploration services; scientific and technological design, consulting, and research services; scientific and technological design, research and consulting in the mining and metallurgical industries; testing, research, design and development in the field of autonomous technology; testing, research, design and development in the field of artificial intelligence; scientific and technological design, research and consulting in the field of renewable energy; chemical analysis and research; research in the field of environmental protection; testing, research, design and development in the field of hydrogen and hydrogen products, including hydrogen production and distribution; environmental surveys and testing; environmental monitoring services; technical consultancy and research services relating to environmental pollution detection and protection; environmental testing; cartographic or thermographic measurement services by drone; providing non-downloadable software; providing online non-downloadable software using artificial intelligence for machine learning; providing non-downloadable artificial intelligence software; development and testing of computing methods, algorithms and software; providing software as a service (SaaS); design and development of computer hardware and software; computerized data

storage services; providing software as a service (Saas) for the supervision of equipment and installations for the production and distribution of energy; providing online non-downloadable software for the remote control of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; providing online non-downloadable software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, including mining haul vehicles, trucks and carts, road trains, trains and drones; providing online non-downloadable software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous machines, including bulldozers, excavators, diggers, machine loaders and drilling rigs; providing online non-downloadable software for vehicle fleet management, including for the management of fleets of autonomous or semi-autonomous vehicles; providing online non-downloadable software for monitoring, optimising, and regulating the storage and discharge of stored energy to and from batteries and electric cells; providing online non-downloadable software for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells; providing online non-downloadable software for monitoring energy consumption; providing online non-downloadable software for energy management; providing online non-downloadable software for the management and operation of mining sites; providing online non-downloadable software for high precision machine guidance of vehicles and machinery on mining sites; providing online non-downloadable software for the efficient assignment of manned and autonomous assets and resources on a mining site; providing online non-downloadable software for controlling and monitoring energy and utility systems, energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and ammonia production plants; computer programming services; architectural or engineering project management services; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software; design, development,

installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software for automated vehicles and machines; design and development of energy and power management systems; design, development and engineering services, and consultancy services relating thereto, for batteries, fuel cells, inverters, electric motors for vehicles and electric motors; software development services for management, control and/or monitoring systems for batteries, fuel cells, inverters, electric motors for vehicles and electric motors; scientific, technological and research services in the fields of battery management/control, monitoring and energy storage; design and development of hardware, software and firmware for use in the fields of battery management/control and energy storage; design and development of battery management and control systems; providing temporary use of non-downloadable software for use in the fields of battery management/control and energy storage; providing temporary use of non-downloadable interface software for use in connection with battery management and control systems; software as a service [SaaS] featuring software for use in the fields of battery management/control and energy storage; platform as a service [PaaS] featuring software platforms for use in the fields of battery management/control and energy storage; providing temporary use of non-downloadable software to enable users to capture, record, monitor, display, transmit, process and/or analyse information and data relating to energy storage and battery performance; providing temporary use via license of non-downloadable software to enable users to monitor, interpret and/or model information and data relating to energy storage and battery performance; consultancy services relating to the design and development of batteries; technological consultancy services relating to battery lifetime and battery lifetime extension; technological consultancy services relating to battery management/control and energy storage; technical data analysis services; electronic data storage; technological services relating to remote operation in the field of mining including remote control and remote monitoring of mining assets; scientific and technological design, consulting, and research services relating to mining, including

autonomous mining; energy use and conservation consultancy services;
Development of energy use and conservation systems; information, advisory,
consultancy services concerning all of the aforementioned.
